DEMOCRATIC NATIONAL CONVENTION CITY IN HOLIDAY ATTIRE TO RECEIVE DELEGATES

Transportation Becomes A Problem Even to Seasoned Agents, As Trainloads Bring in Their Share of Enthusiastic Politicians to What Will Be Greatest Democratic Gathering

MYRIADS OF LIGHTS DECORATE BUILDINGS IN MAIN THOROUGH—HOTELS TAXED TO CAPACITY

BALTIMORE, Md., June 24., 2:23.—To use an old expression it looks like court week in Baltimore. Everything in readiness for opening of Democratic Convention tomorrow. Interest today centers in selection of Temporary Chairman. Large majority of the national committee favor Parker, but Bryan says he will make no compromise of his position in opposing Parker and a fight may be inevitable. Much activity around headquarters of the candidates. Just now it looks like Clark will go in Convention with the strongest following.

BALTIMORE, Md., June 23.—Baltimore was in carnival spirit tonight. Thousands of people thronged the streets, buildings were arrayed in a riot of flags and bunting, myriads of lights converted the down town section into a great white way and many souvenir vendors mingled with the passing crowds. Potential makers, politicians from near and far, joined in what looked like mobs in the various hotel lobbies and like a parade of all Baltimore in the streets of the congested business districts.

Baltimore gave the strangers splendid welcome. The city was illumined as never before. Up in the tower of the tallest building a great light shone all night, a landmark for those unfamiliar with the Monumental city. A quartet of searchlights played over the city while scores of structures contributed lavishly to the brilliant display. The Jackson Democratic Emblem in Mount Royal Square was also brightly illumined. Red, white and blue lights reached into the clouds.

Above the Masonic temple a large masonic emblem was built of electric lights. More than 1000 electric lights and loops of light will send forth a Masonic greeting each night during convention week.

Stars and stripes were almost everywhere, interspersed with the orange and black. The latter festoons were

the Princeton colors from the home state of one of the presidential candidates—Gov. Wilson—but that is not the reason they greeted the eye on every street. Orange and black are the state colors of Maryland.

Vessels Swing at Anchor.

In coats of steel gray four of the largest of the vessels of the American navy swung at anchor in the harbor. They were the first class battleships Louisiana, Kansas, New Hampshire and South Carolina, comprising the second division of the Atlantic fleet, rear admiral Winslow in command. It was the first excursion of these dreadnaughts into the Patasco waters and it marked the first opportunity vouchsafed Baltimoreans to see vessels of the largest type afloat. The officers proudly showed hundreds of visitors about the ships. Tomorrow evening the naval officers will be guests of Mayor Preston at a theater party.

Politicians in Baltimore tonight were as thick as Pennsylvania troops in an inaugural parade at Washington. There were vicepresidential candidates past and present among them. They included governors, justices, state legislators, members of the Democratic national and congressional campaign committees, Tammany chieftains, and men of high and low degree in every shade of Democracy.

BUILDING ACTIVITIES BEGIN SECOND CHOICE THE QUESTION

Work of Tearing Down Old Stores Started Today

Contract for the Building of the New Proctor Hotel to be Awarded This Week—Work to Proceed Swiftly.

Mr. C. T. Munford, the progressive Greenville merchant has bought all the building material on the Proctor ground on Evans Street, and this morning a gang of workmen began tearing down the old structure that will give way to the magnificent hotel the Proctor Hotel Company will erect on that site.

Mr. Munford told a Reflector representative that it was his intention to use most of the brick and other material which he bought, in the erection of his new store which he intends to build right away.

The contract for the hotel will be awarded some time this week we believe, and immediately the work of construction will be started.

Methodists Hold Their Quarterly Meeting

Yesterday was the occasion of the third Quarterly Conference at the Methodist Church.

Dr. J. T. Gibbes, presiding elder of the Washington district was present and as usual preached two magnificent sermons. The music was also exceptionally good—a quartette by Messrs. Hoyle, James, Warren and Brown, at the morning service and a solo by Miss Doris Overton, at the evening service—being greatly enjoyed by all.

The Congregation at each service overflowed the large auditorium, and the Sunday School room had to be opened to accommodate the people.

Rev. E. M. Hoyle opened the doors of the church at the morning service and received a class of seven or profession of faith.

This is the third class received by Mr. Hoyle since beginning of his pastorate here last December.

Mr. Hoyle does not wait for revival services or any special seasons, but is constantly seeking the ingathering of souls for the Master.

Mr. Hoyle left this morning for Durham where he will assist in a meeting this week.

Orphan Concert.

A class of orphans from the Odd Fellows orphan home at Goldsboro will give a concert in the auditorium of the Training School on Thursday night of this week at 8:30. The program will be of such a nature as to entertain both young and old, and no doubt a large audience will welcome these young ladies and gentlemen from this progressive and charitable institution. The concert is given under the auspices of the local lodge of Odd Fellows for the benefit of the Orphan Home at Goldsboro. Admission will be 25c.

Speculation as to Who Will Be Nominated Vice-President

Question of a Vice-Presidential Candidate at Last Comes to the Front—New York State Offers only Three.

BALTIMORE, Md., June 23.—Vice-presidential candidates and their supporters are here a-plenty, although thus far have kept in the background. There is evidence that at least half a dozen booms are already for inspection and approval as soon as the delegates nominate a candidate for President and begin to look around for the running mate who will add most strength to the ticket.

The leaders hitherto have been too much occupied with other matters for any serious discussion of National Committeeman Josephus Daniels proposition that the candidate next to the highest number of ballots in the convention for President accept the vice-presidential nomination. There was renewed talk among the Wilson men of trying to persuade Representative Underwood, of Alabama, a presidential candidate, to take second place on a ticket with the New Jersey Governor. Such a combination they pointed out, would be ideal from every standpoint, both geographically and in view of the tendencies of both men.

15 Year Old Kills Brother in Raleigh

RALEIGH, June 23.—Levern Betts, a 15-year old son of Geke Betts, killed his brother, aged 20, with a small knife this afternoon, the blade sinking into the heart and producing death in less than three minutes. According to the boy's story, he was sitting on the lounge trimming his finger nails when the brother came down stairs and began playing with him. In the scuffle that followed the elder brother the boy said, fell on the knife. The tragedy occurred at the parents' home on Boyden Heights.

Chief of Police Stell, who made an investigation, is inclined to believe that the youngster was telling the truth for the most part. The officer thinks the boys were scuffling, but that the younger of the two, who was on the bottom, became angered because the older would not release him, and cut at Clifton Betts with the knife.

Levern Betts, the youthful prisoner was dressed in knickerbockers, a soft, colored shirt, wore a red tie and was barefooted. Though well muscled he shows that he was young. The slain boy was a printer in the employ of Edwards and Broughton.

ANOTHER PARTY BORN IN CHICAGO

Gov. Johnson, of California, Sticks to Teddy

"THOU WILL NOT STEAL"

Governor Hadley Leaves Chicago Without Pledging Word to Former President Roosevelt—Supposed that he Will Stand by Taft.

CHICAGO, June 23.—The Progressive party, born last night, was dedicated today. In the presence of perhaps 500 men, some of them recognized leaders of the movement, others merely on-lookers, the first formal steps were taken. Gov. Johnson of California, was empowered to appoint a committee of seven members to confer with Col. Roosevelt and formulate a plan of action.

The movement is going steadily ahead, said James R. Garfield of Ohio, those who think this is a flash in the pan are mistaken.

In the opinion of the leaders, the new party enters the field with a formidable equipment. These leaders however, said that as to the men who took a conspicuous part in the campaign for Roosevelt's nomination, each must speak for himself.

The attitude of Governor Hadley, of Missouri, was the chief point of discussion along this line. The governor left town without waiting to declare himself.

No definite idea of the plan to be followed it is believed obtained and it was said to be a period of several weeks may elapse before the program is decided upon. Gov. Johnson in the meantime will act as field marshal with Col. Roosevelt will decide upon membership of the committee of seven and guide the preliminary work of organization. Col. Roosevelt will tomorrow leave for Oyster Bay and Gov. Johnson for California, but they will keep in communication.

Today's meeting was held in the headquarters of the national Roosevelt committee. It was impossible to ascertain how large a proportion of the full Roosevelt strength at the convention was represented, although it is said that nearly every state which sent Roosevelt delegates to Chicago had its share of men there.

Baraca-Convention Assembled in Norfolk

NORFOLK, Virginia, June 23, 1912.—The world-wide Baraca Convention is now in session here with a large attendance, nearly every state and some foreign countries being represented. The Baracas and Philatheas are both in session, and Sunday was a great day for them. The convention will continue through the 27th. Mr. M. A. Hudson, founder of the Baraca movement, is present, and made a fine address. There are a large number of North Carolinians here for the convention.

Many of the delegates attended the meeting of Freemason Street Baptist Baraca Class Sunday morning, and in discussing the temperance lesson for the day the leader wanted to know what effect prohibition had had upon the states where it had been adopted and to what effect the law was being enforced. There were responses from North Carolina, South Carolina, Georgia, Arkansas and Iowa. The North Carolinians especially emphasized the fact that while much gratification exists throughout the state at the good effects of prohibition, its enforcement could be more effective if Virginia was not shipping so much liquor into that state. Strong sentiment was expressed for the Baracas generally to use their influence for national legislation that will prevent the shipping of liquor into prohibition territory.

is holding its annual meeting in conjunction with the meeting of the national association. At the conclusion of the sessions many of the members, accompanied by their families, will make a tour of the northwest.

DEMOCRATS HURRAH TAFT'S NOMINATION

Success of President Roosevelt Spells Democratic Result

BRYAN WILL FIGHT PARKER

It is Expected That a Progressive Democrat Will Be Asked to Join Roosevelt's New Party And Be Nominated to Second Place.

BALTIMORE, June 23.—Comments by the Democratic leaders here today indicate a general, and in some cases a jubilant, satisfaction of the results of the republican deliberation at Chicago. While some of the more Radical said that Theodore Roosevelt, running on a strong progressive platform, might draw votes from the Radical Democrats they declared that the Democratic party had nothing to fear from this score if it nominated a progressive candidate. But they agreed on the contention that any losses from this cause would be more than offset by damage that would be wrought to the Republican cause by splitting the Republican vote between two tickets.

That a progressive democrat might be asked to run on the ticket with Col. Theodore Roosevelt was admitted here. It was expected that emissaries from the Roosevelt organization would be here to watch the proceedings of the convention and ready to seize any advantage they fancied might come from the action of the Democratic convention. Thus far, however, there is no evidence of any such missionary work here and all the leaders questioned said they had received no communication from the Roosevelt forces. Senator-elect Vardaman, of Mississ-

ippi, was one of those who declared that the nomination of President Taft would have no effect on the nomination of the Democratic convention. He said if the delegates to this convention think it wise to nominate a conservative they will do so regardless of the action at Chicago.

There is no possibility that the action of the progressives at Chicago will gain them any recruits among the Democrats, said Josephus Daniels of North Carolina, state committeeman and a Bryan leader.

For World-Wide Christian Union

LONDON, June 24.—In Lambeth Palace, the historical home of the Archbishop of Canterbury, a small group of English and American churchmen assembled today to order on plans whereby unity of Christendom may be accomplished. In attendance on the conference were the Archbishop of Canterbury, the Archbishop of New York and several other imence prelates of the Church of England and a commission representing the Episcopal Church in America. The American commissioners present were Bishop Anderson of Chicago, Bishop Vincent of Ohio, Bishop Hall of Vermont and Rev. Dr. William T. Manning, rector of Trinity Church, New York City.

The importance of this conference can scarcely be overestimated. It marks the first tangible step in the colossal scheme for the union of all the Christian denominations of the world into one church. The movement for Christian unity was started by the American Episcopal Church. It has received the support of eminent clergymen and laymen in all the leading denominations in America and the approval of the heads of the Established Church in England and the old Catholic Church on the continent of Europe.

The purpose of the present conference, which might be termed a sub-committee meeting, is to discuss tentative plans for the great world conference that is proposed to hold some time within the coming year. New York has been suggested as the meeting place for this conference, which will endeavor to agree on a statement of what is fundamentally necessary in each denominational system of doctrine and dogma, and to evolve from these universally accepted fundamentals of faith a basis upon which an undivided church may be built.

Knights of St. John at Toronto

TORONTO, Ont., June 24.—The international convention of the Knights of St. John began in this city today and will continue until Thursday evening. It is estimated that not fewer than 30,000 delegates and visitors are in attendance, representing all parts of Canada and the United States. The morning was taken up with a visit in a body to St. Michael's Cathedral, where high mass was celebrated. Later the delegates assembled in Canadian

Is the connecting link between the merchant and customer—it is the merchant's salesman. Goods snugly resting on a shelf are very much like a miser's gold—all right, but in need of circulating...

A Secret has better chance to travel than the goods of a merchant who will not talk about them all the time. The up-to-date merchant looks to advertising like the announcer to his megaphone. Advertising enlarges the circle of merchant's business, the megaphone strengthens the volume of the voice. Both multiply the chances of a hearing. In grand father's time advertising was not thought of. But in grandfather's time competition was slight. Today it is so keen that a merchant must look out else the edge of competition may separate him from his business. Be sure to tell the people what you have, why you have it, and what they can have it for. This is vital to your business. Also when telling the people use a medium that will reach them with your message of intelligence.

Sociable at Ayden.

AYDEN, June 20.—The home of Mr. L. L. Kittrell on east Railroad street was a scene of beauty last Monday evening when their most highly accomplished daughter gave an enjoyable sociable to the young people of Ayden in honor of her visiting guests Misses Lucy ood of Smithfield and Carrie Wilson of Dunn.

Promptly at nine o'clock the spacious front doors were thrown open and the invited guests were ushered to their respective cloak rooms. The parlors and dining rooms were beautifully and artistically decorated in pink and white, the colors of the evening.

Miss Lucy Turnage and J. B. Kittrell presided at the punch bowl. At ten o'clock cards engraved in pink and white were passed around to the guests bearing the inscription, "Old Sayings," and each couple had fifteen minutes to fill in the "sayings." Miss Lucy Hood winning the most points was presented with a bottle of highly flavored toilet water.

At eleven o'clock the guests were ushered into the elegant dining room, where cream and cake were served by Misses Mabel Claire Brown and Esther Blount in a very graceful manner.

Instrumental music was beautifully rendered by Misses Janie Kittrell and Jimmie Davis, while Miss Hood of Smithfield, charmed the guests with her lovely voice.

Twelve o'clock found all bidding good night, and declared Miss Kittrell a most charming hostess.

Bridge Building an Important Part of West Point Training

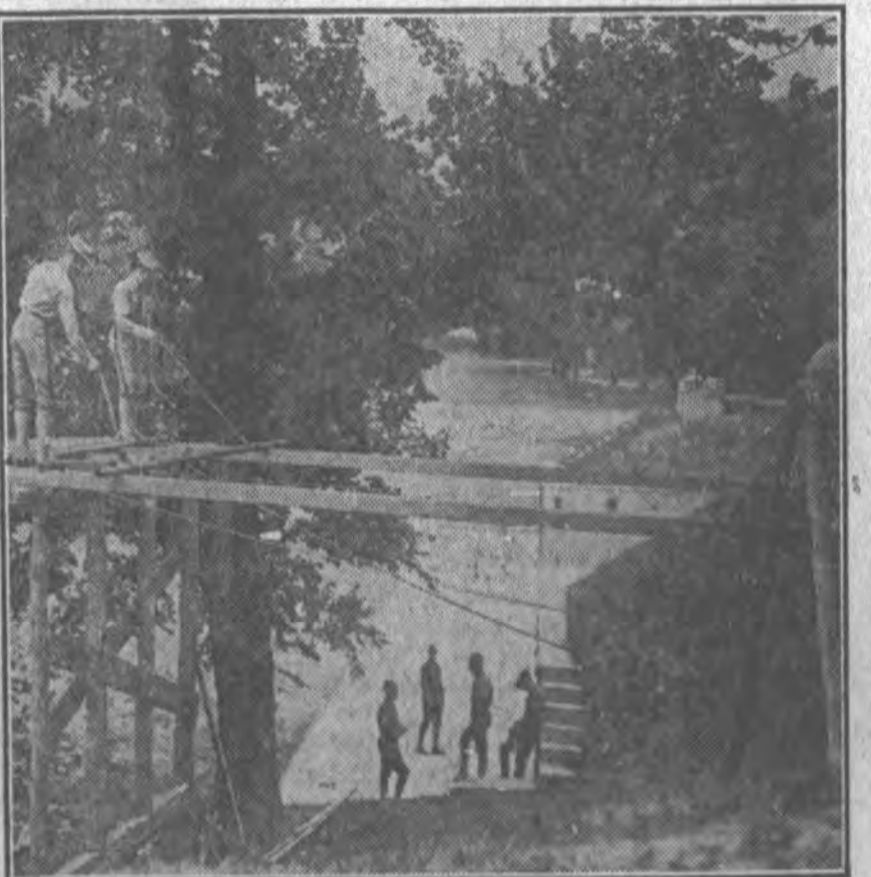

Photo by American Press Association.

THE man who is graduated from West Point must be able to do any thing he may be called upon as an officer to order his men to do. A part of the engineering instruction of cadets is the building and repair of bridges, a branch of military science in which the Madero forces in Mexico are being tested as they pursue the Orozco rebels who have burned and wrecked railroad bridges as they retreated. The average cadet acquires skill in the construction of roughly built, but substantial bridges, and such scenes as those depicted in the accompanying photograph are common in the neighborhood of the military academy. The picture shows a detachment of cadets building an emergency bridge.

SOME MISTAKES IN OUR MARKETING METHODS.

It costs the American Farmer, and particularly the Southern farmer, too much to market his crops. The transportation companies and the middlemen get too large a proportion of what the consumer pays. This is a field for most useful and effective work on the part of governmental agencies and co-operative farmers organizations.

The manufacturer and the merchant study the wants and fancies of the consumer or buyers. No wise merchant buys an article because he thinks his customer ought to want it. He seeks to buy what they want and give it to them the way they want it.

Many farmers have insisted on putting molasses in jugs, apples in crates and butter in cloths and numerous other articles in forms which the buyers have shown that they did not want.

We have also too often been satisfied with the marketing of a low grade or cheap product. The proportion taken as their toll by the handlers is always greater on a cheap product than on a high priced one. It costs little more to transport and sell a pound of good butter put up in desirable packages than it does a pound of poor butter tied up in a rag or packed in a jar.

If I hire to "work" for another, I do what he wants me to do in the manner he wants it done, just so long as these are honorable. The grower of farm products is simply working for the consumer and he should produce what the consumer wants and market it the way he wants it.

THE UNEARNED INCREMENT TAX.

It is also but just for a government to levy a tax on the unearned increment on land—that is to say, on the increase in value of farm and city land, mines, water powers, and all other natural resources, where such increase is due not only to the industry and genius of the owner, but solely to the increase in population and the advances in civilization.

This week, the Democrats will play their hand in Baltimore, and they expect to play a winning game.

Editorial of Human Interest
By Arthur Brisbane

THE GOVERNMENT, THROUGH THE POSTOFFICE, IS PAYING TO SEND FARM WORKERS THROUGHOUT THIS COUNTRY.

A Song and Its Singer.

That picture of Uncle Sam weeping—rather a feeble effort at humor—is supposed to express the exaltation of the Canadians because of the fact that tens of thousands of good American farmers and especially good American farm WORKERS leave the United States every year.

Our states in the Northwest especially are bitterly complaining of this constant draining of good workmen from the United States to Canada.

Our farmers in the West develop the men, break them in, and then the Canadians get them by the thousands—and our wheat fields and corn fields are in need of labor—the farmers and the business men and the consumers suffer.

We ask Mr. Hitchcock, postmaster general, to observe that these workers of which Canada and this Canadian cartoon brag exultantly are taken to Canada by disguised advertising, published by the Canadian government

AND CARRIED THROUGH THE U. S. MAILS FREE OF CHARGE.

An outline of this system was given to a sub-committee of the House of Representatives on Tuesday last by Courtland Smith, president of the American Press Association. Mr. Hitchcock, if he chooses, can probably get more information from Mr. Smith. And he can get information especially FROM EVERY ONE OF THE MEN EDITING SMALL COUNTRY NEWSPAPERS THROUGHOUT THE NORTHWEST—AND ALL ALONG THE CANADIAN BORDER.

Mr. Hitchcock, and Mr. Taft and others interested, here are some facts: Country newspapers are circulated WITHIN THE COUNTY IN WHICH THEY ARE PUBLISHED free of cost by the postoffice of the United States. This is a very good idea indeed, and if those newspapers were not imposed upon and compelled to act as the agent of the Canadian Land Swindlers the free delivery by our postoffice of the local newspapers within the country would be admirable.

Unfortunately the United States government not only delivers the country newspapers free within the country's limit, BUT IT ALSO DELIVERS DISGUISED ADVERTISING PUBLISHED BY THE CANADIAN GOVERNMENT AND THE CANADIAN LAND SCHEMERS.

Unfortunately for thousands of country editors, they are at the mercy of the ready print concern—even when it happens to be dishonest. And unfortunately also, one of the greatest, if not the greatest ready print concern in the United States is thoroughly dishonest.

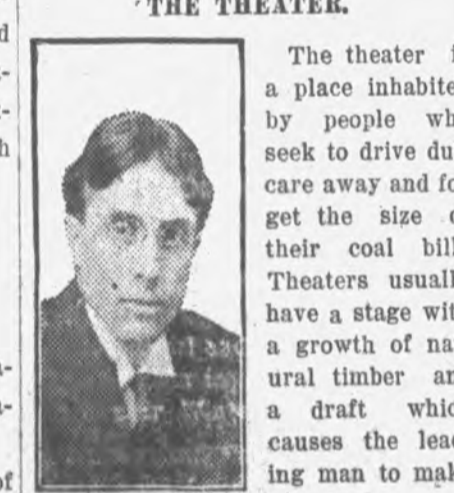

FOR IN THE PRINTED MATTER WHICH IT SENDS TO THE EDITORS, AND FOR WHICH IT MAKES THEM PAY, IT INSERTS ADVERTISING DISGUISED AS PURE READING MATTER, INCLUDING THE ADVERTISING THAT LURES THE WORKERS FROM THE FARMS IN THE UNITED STATES.

SIDEWALK SKETCHES
By Howard L. Rann.

THE THEATER.

The theater is a place inhabited by people who seek to drive dull care away and forget the size of their coal bill. Theaters usually have a stage with a growth of natural timber and a draft which causes the leading man to make

love in tones bearing close resemblance to the notes of an expiring pump. There is always a good deal of loose scenery in a theater, and not all of it is confined to the stage. Some of this scenery chews gum and talks about the new styles in shirtwaists during the death scene, while another variety enters in the middle of the first act and makes everybody in the fourth row of the orchestra circle double up like a six foot emigrant in a chair car. There is nothing that will bring back the mind of the ab-

sorbed spectator to this mundane sphere quicker than this stout woman enveloped in an opera cape and musk perfume balance herself on his right foot like a strap hanger in the loop district, at the same time obscuring his view of the stage until he can't tell whether the villain stabbed the leading lady or was felled by a cane settie. Some theaters are quite dry and elevating and give all the Shakespearean dialect that has not been drawn from circulation by the board of health, while others make a specialty of moist and melancholy plays which cause large damp tears to fall with a soft kerplunk on the bosom of a new shirt. People frequent the theater for different reasons. Old men always have to sit on the front row because of not being able to read the town clock at a distance more than three miles away. Young men go in order to relax, and sometimes succeed in relaxing a week's salary to the proportions of a Mexican dime. Women go to weep and wonder whether the heroine will marry the Russian duke in white spats or unite her fortunes with the son of poor, but honest parents and live on oatmeal and undying love.

LABOR NOTES

New Brunswick workmen are planning the organization of a provincial federation of labor.

From July, 1910, to January, 1912, union labor at Los Angeles, California increased 160.5 per cent or from 6,182 to 16,105.

Common laborers in the steel industry in China earn 7 cents a day, while in the United States they earn on the average \$1.75.

The San Francisco Labor Council will ask the American Federation of Labor to urge Congress to take steps to build a national highway at a cost of \$500,000,000 to the end that the unemployed may be furnished work.

GOV. WOODROW WILSON
"The Most Available Democrat."

Wilson—The Party's Hope.
Here is the resolution passed by the State Democratic Convention:
"Roosevelt, Taft it is the judgment of this convention that Woodrow Wilson should be the candidate of the democratic party for president, as he is the most available man to lead the democratic hosts to victory in November and we heartily endorse his candidacy."
We believe the convention at Baltimore will arrive at the same conclusion.

If the boss-ridden organization in 14th street did not have a positive guarantee for blundering and for mischief, this movement could not have started. The present disposition of intelligent Democrats is to avoid the unnecessary friction and to take no action that will be needlessly offensive to any element of the party.

The combination made in different States against Wilson by the other candidate of their friends, won for them press recognition as "the allies." It has demonstrated the ways of thinned politicians and its failure and possible results ought to convince Democrats that the best way to obtain the will of the people and hold their confidence is by an open fight and free for all chance on the individual merits of men.—Wilmington Star.

No important issues hangs upon the Chairmanship. The work of no steam roller is to be safe-guarded. In addition to sound principles and approved ability only one thing should be required of the presiding officer, and that is complete separation from the unhappy divisions of the past.

Thinks Wilson is Gaining.
It appears to be a fact that Mr. Wilson Watterson said about him.—Duron is gaining fields among the newspapers in spite of all that Colham Heard.

Every state in the union has such a man. If New York is to be honored in this way it might present a score of candidates whose selection would revive no bitterness and reopen no old controversies. Tammany lacks sense and sagacity as usual, or it would perceive at once the impropriety of its suggestion.

Why Parker.
The world recognizes in Judge Parker an eminent citizen and Democrat, but it disapproves most emphatically of the Tammany enterprise, indorsed by the committee of Arrangements, to make him Temporary Chairman of the Baltimore Convention.

With much difficulty a Thos. F. Ryan awyer was chosen as temporary chairman of the Republican convention at Chicago. What good reason can be urged for conferring the same distinction upon another Thos. F. Ryan lawyer at the Baltimore convention, if it is Tammany's purpose to test the sentiments of Democrats in this respect, we hope that the delegates will accept the issue at once and by a decisive vote show that it is still possible for the representatives of an American political party to meet in convention and proceed to business without a boss.

Press Comment

Clark And the Pension Grab
The position of Champ Clark on the Sherwood pension bill is one of the reasons which should cause his rejection as a candidate for the Democratic nomination. His attitude on that measure revealed the demagoguery of the man and the manner and the methods in which he seeks to appeal to the American people.—Times-Dispatch.

North Carolina have a fine outlook before it than this. It has an immense membership, an elegant and commodious plant, one of the best locations in the city and a pastor who does things.—Charity and Children.

An Infinity Thereof
Up in North Carolina they are advising the young men not to marry girls who chew tobacco, and to be very wary of those who smoke. That hardly leaves a fellow much chance, does it?—News and Courier.

No Cause For a Kick.
Mr. Kitchin's friends should not have made a kick, as he was endorsed along with every democrat who has held office.—Durham Herald.

Would Not Rob the Lord of Credit.
Those people ought to be ashamed of themselves who said that Cam Morrison made an ass of himself at the State Convention. Cam is a great power but there is no use to give him credit for what the Lord did.—The Madison Herald.

Where He Fits In.
Mr. Simmons can at least claim to be in accord with that headquarters circular if not with the last State platform.—Durham Herald.

The recent revival in the second church of Durham, conducted by Pastor Riddick, was a glorious success. About 70 persons were added to the church. Few churches in

Have Been Wasting Time
Those who have been keeping up with the Myrtle Hawkins murder trial, have been wasting time that might have been profitably employed otherwise. The state at least has cause to have a sight of relief that the miserable business has passed into history.—Charlotte Observer.

Sets the Pace
Charlotte recently had a manufacturer's exposition and now she is preparing for a trade excursion. The Queen City seems to be setting the pace for Summer boosting.—Wilmington Star.

The World Lovers.

"The sun's light's a-dying—so the big skyfellers say;
But thank the Lord there's light enough for folks to see the way
And sence the night's comin', please God, we'll dance today.
And set the world and sun a-spinnin' round us!

"The world is slipping from you; you haven't long to stay;
A world of weary winters, with but a dream of May";
But still the rose is bloomin'; the green's above the gray,
And we'll set the sun and stars a-spinnin' round us!

Millinery Drummers Meet

LOUISVILLE, Ky., June 24.—Louisville is entertaining this week several hundred men and women who travel over the country supplying the trade with the millinery confederation that delight the eye and heart of Everywife and cause everyhusband to dig deep in his jeans for the price of the Easter headgear. The occasion of the gathering is the annual convention of the Millinery Traveling Men's National Association, which has from the Atlantic to the Pacific. The president of the association and the presiding officer at the convention, is A. C. Niedlander of Indianapolis.

LOCAL BRIEFS

Now for the after effects of the carnival.

Some of them stayed with the carnival until the last light was out Saturday night.

Sharon Lodge No. 78 A. F. & A. M. will hold its regular meeting tonight, for the installation of officers. All members are urged to be present.

Watch Out For Them.

The Wilson Times says little girls were in that time Saturday begging for a Mt. Olive institution which the Associated Charities had investigated and found afraid. Beggars for that institution have visited Greenville in the past, and as they are nearby they may be headed this way again, hence we are printing this that the people may be warned against such imposters.

Singletarre Chapter U. D. C.

I am in receipt of a letter from our State President, Mrs. Fanie Ranson Williams, calling for an immediate report, from this chapter. I therefore beg that you will do me the favor to meet at my house tomorrow, Tuesday afternoon at 5 o'clock. Business urgent. Full attendance requested.

Mrs. T. J. Jarvis.

Delightful Reception in Honor of House Guests.

On Wednesday evening from nine to twelve Miss Maude Lee in a charming and unique manner entertained in honor of her house guests, Misses Fitzgerald, Wilson and Creel of Dunn. The guests were welcomed by Mrs. S. T. White and Miss Mary Higgs, who introduced them to the receiving line which consisted of Miss Lee, Mr. Tom Hutchins, Miss Fitzgerald, Mr. Tom Dupree, Miss Creel, Mr. Avon Cromartie and Miss Wilson.

From the receiving line they were ushered to the punch bowl which was gracefully presided over by Miss Laura Carter of Wilson with Mr. Burney Warren and Miss Mattie Moyer King with Mr. Bascom Wilson.

Master Lary James and Miss Edith Lee distributed dainty place cards after which the players repaired to their respective places. An exciting game of hearts dice was soon in progression.

The color scheme throughout the home was red and green. Pot plants and spring flowers were used in profusion. Hanging vines infested with nasturtiums added beauty to the decorations.

After several progressions a delicious repast was served.

Near the midnight hour the guests, which were more than a hundred in number, expressing their appreciation for the pleasures of the occasion, soon bade the hostess adieu.

The out-of-town guests were Misses Flossie Fitzgerald, Carrie Wilson and Dora Creel of Dunn, Miss Laura Carter of Wilson, Miss Bettie Reuss of Raleigh, Miss Helen Mayo, of Indianapolis, Misses Futrells of Scotland Neck, Camp of Raleigh and Boyer of Charlotte.

Allegation Suit Against Lorimer Witness.
CHICAGO, June 24.—A mystery that has puzzled Chicagoans for months is expected to be cleared up in the trial of the \$25,000 alienation suit brought by John C. Henning against Clarence S. Funk, which was called in the circuit court today for hearing. Funk, the defendant in the suit, is the general manager of the International Harvester Company and will be recalled as the man whose testimony in the Lorimer investigation did more to blacken the cause of the Senator than that of any other witnesses.

One of the most sensational cases ever brought in the Chicago courts, the charge by Mr. Henning that Mr. Funk alienated the affections of the former's wife, came as a political thunderbolt. The papers were filled within a few days after Mr. Funk made his sensational charges against Edward Hines, president of a lumber company—that Hines in the lobby of the Union League Club asked him for a subscription to defray the expenses of putting Lorimer over.

Prior to the bringing of the suit Henning and his wife were employed in small positions at one of the Chicago hotels. After the suit was brought they left the city and were reported to be spending the winter at one of the expensive resorts in the South. Mr. Funk has denied from the first that he ever knew Henning or his wife.

Chicago Grain.		
Chicago markets closed on account of the death of the Secretary of the Board of Trade.		

I recently read an article in which two kinds of mothers were cited. One was the over-indulgent, slavish woman who lives only in her child's smile, who breathed only with its breath, and who even sacrificed her sick husband to her devotion to the child.
The other with a family of seven only picked up with the baby when it cried, long enough to discover whether the cause of the outcry was hunger, a pin or the colic.
She started her youngsters out in the world of work or study as soon as they showed an inclination one way or the other.
The writer was inclined to think that this type of mother was ideal. She failed to mention any happy medium between a foolish child worship and the Spartan method of the mother of seven.
I don't believe any other mother can be taken as a standard or a model for all, any more than one medicine can be used for all diseases. Children themselves are so different in temperament and physique that you cannot enforce any rigid code, outside naturally of proper dietary regimen and the accepted standard of morals.
For example a child is born weak, feeble, a poor little struggling atom that physicians and every one else prophesy will never live. Isn't it natural for the mother of this mite to watch it with eagle eyes, to respond to its feeble cry? She caters to it in every way she can, not knowing how long God will let this wee white blossom flourish in the garden of her maternal love.
Is she foolish, is she doing wrong in pandering to the sickly child's whims? No, for she is following the true law of nature, the protective care enshrouding treatment that he dependent weakling expects and should receive from its mother.
Because her neighbor's child, great husky boy, can eat meat at night, gorge bananas and cucumbers with no ill effect, should she pursue such a diet with her shild whose stomach rejects even cow's milk as too strong for its digestive process? No, unquestionably no—no more than it will be right for her to let her little shild of delicate constitution run barefooted in rain or shine on a farm, because

the neighbor's mroe rugged child waxed so strong and vigorous in his shoeless and stockingless freedom.
There is a medium to govern the mother's attitude toward her offspring. Of course there is no love so great, so sacrificing as that a mother bears toward her children. But the child's good must be considered, for the spoiled child becomes with its growth a disagreeable, selfish personality, who fails to make or keep friends, all thro' the mother's mistaken idea of fostering its self importance to the exclusion of others rights and privileges.
But the mother herself is the best judge of what her child's nature demands, and exercising reason she can train her child along the lines that suit it best. She can disregard what others may say or do with their little ones, whose dispositions, bodies and brains may be absolutely at variance with other children. The thoughtful mother, like a physician, finds that what is beneficial for one, is poison for another.

COUSIN PHEBE New Fixtures.

Every year something new appears in the way of bathroom accessories. Decidedly new this year the glass twisted towel rods with nickel plated brackets in colonial designs, says the Indianapolis News. The twisted glass prevents the towel from slipping off the rods, as so often happens with plain glass rods.
Another new fixture, which will be found useful in the small bath room where it is impossible to have a stationary washstand, is a basin and soap-holder of rather heavy wire, white enameled. This holder is made to span the bathtub from one side to another by means of a heavy wire extending out from each side. Both ends of this wire are nickel-plated and made very strong where they clasp the sides of the tub. The whole arrangement has an extension feature which enables it to fit any size bath tub.

Battle Cruiser Moltke A Notable Naval Visitor

An impressive compliment was paid to the United States by the visit to American ports of the German "battle cruiser" Moltke and the cruisers Stettin and Bremen. The Moltke represents a new type of construction, combining great power and large tonnage with high speed. She is 610 feet long, has a displacement of 22,632 tons, is said to have attained a speed of more than twenty-nine knots and cost \$10,491,000. Her heaviest guns are ten eleven-inch rifles. She is the flagship of the squadron, which is commanded by Rear Admiral von Rebeur-Paschwitz; her captain is Ritter von Mann Edler von Tischler. Two of the officers of the squadron are of royal blood—Ensign Prince Henry XXXVII of Reuss, of the Moltke, and Lieutenant Prince Christian of Hesse-Philippsthal-Barchfeld of the Stettin. The upper of the two photographs shows Rear Admiral Winslow of the United States navy boarding the Moltke and saluting Rear Admiral von Rebeur-Paschwitz and Prince Henry.

Ready for Grand Prix Revival.

PARIS, June 24.—Crowd of people are leaving Paris for the Dieppe circuit, where the Grand Prix automobile race will be started at early dawn tomorrow. It will be the first automobile road of international importance held in Europe in nearly four years and upon its success depends the future of the sport on this side of the Atlantic.

The Dieppe Circuit, one leg of which lies along the English channel, is the same that was used in the races in 1907 and 1908. The circuit is 47.8 miles long, triangular in shape, with approximately 16 miles to a lap. It is claimed to be the fastest that can be found in France.

The race will occupy two days. It will be 956 miles in length. 478 miles, or ten laps of the circuit being run on each day. The starting point will be just outside of Dieppe. The most elaborate arrangements will be made to prevent mobs invading the track.

Nearly ten thousand soldiers will be stationed at intervals along the course and no person within the inclosure will be permitted to cross till the race is finished.

There are more than 50 entries in the race, mostly from France and England, though the United States is represented by one car, and there are entries from Italy, Germany, Belgium and Switzerland. There are practically no limits to the construction of the cars entered in the first class, so the manufacturers have had a free rein to construct cars with the greatest possible speed ability. In view of this it is expected that the old speed records will fall, and that a new world's mark at road racing will be established.

A grand total of \$19,767,846 has been expended on behalf of the members of the Cigar Makers' International Union since 1878.

"HOME OF THE BEST PRINTING"

WE take this means of thanking all of our friends who have been thoughtful enough to compliment us on our "**LARGER AND BETTER**" **DAILY REFLECTOR**. The Raleigh Daily Times comments in part: "A paper which shows improvement reflects the development of the country over which it circulates. Every word of which is true. The Greenville Tobacco market will probably sell 14,000,000 pounds of tobacco this year, or 5,000,000 pounds more than last year. This meant a strenuous planting campaign by our farmers. Mr. Merchant, why not begin your selling campaign now? Join **THE REFLECTOR'S** advertisers. Know that your ad will be read by 4,500 people, with this number increasing daily.

The Frank Beasley

Combination of the Reversible Disc Cultivator

Horse Hoe and Plain Tooth Harrow
Works all kinds of crops, especially Cotton and Tobacco. Works deep or shallow, throws dirt to or from the plants.

Goes between the rows,
Works a whole middle every trip.
One small horse pulls it with ease.

A North Carolina invention for North Carolina farmers. The best and most complete cultivator ever made. Has patented expansion-lever and quickly adjusted to suit width of rows. Carries either six or eight Discs as desired. Disc attachments will work on any ordinary cultivators.

We sell them separately if so desired.
