Det

Only N

Affection is a beautiful thing, but affection is born in the brain and confined to the brain.

A young woman looks at a splendid creature in a soldier's uniform. Her heart beats fast and she imagines, F G. J as all antiquity has imagined, that the heart is the seat of the emotions. Nonsense!

The emotion is in the barin, which has just received through the optic nerve, a connection of the lovely vision in brass buttons. The heart is ordered to pump more blood to the head of the young lady, to supply mental activity and the becoming blush.

If you hear bad news you feel the effect on your heart; sometimes you fall unconscious. That is because the brain sensation is so strong as to interfere with the heart's action. You feel the shock that the brain sends to the heart.

The idea that cultivation of the mind interferes with a woman's mor- E. G. Flanagan, Pres. al, sentimental or motherly qualities
