NUMBER 238

DEEP CHANNEL FOR TAR RIVER

A Government Engineer is Now Here

WORK WILL COMMENCE SOON

The Channel Between Greenville and Washington Is To Be Six Feet Deep At Low Water

The much needed and hoped for improvement for navigation purposes in Tar river will be tackled by Uncle Sam within three months. With the new year the necessary dredging machinery will be here and the work commenced to make a channel 6 feet deep at low water from the county bridge to Washington.

Considering that it is not so very long ago that we announced that an appropriation had been made for this purpose, we must congratulate ourselves for having such a congressman as Mr. John Small.

Mr. Frank D. Perrin, an engineer from the U. S. Engineering Department, and sent from the Washington headquarters, although he resides in New Bern, arrived in town yesterday and is at present busy meeting owners of property along the river banks. He is soliciting their consent to dump back into their river property the material dredged from the river bed. There is no doubt but that every property owner will readily agree to this, as the improvement on the river to them as property owners will be most felt.

The government does not contemplate to actually do the work of dredging Tar river and making the channel as above mentioned, but will as soon as everything is arranged satisfactorily give the work in contract to some firm of experts in such a branch of engineering.

To what extent we will benefit by the construction of the channel, need not be gone into at length. Suffice it to say that another excellent means of communication from and to Greenville will be opened and opened to stay so.

Fall Carnival in Omaha

OMAHA, Neb., Sept. 28.—Omaha is dressed in her gayest attire in readiness for the beginning of the Ak-Sar-Ben festivities, which will continue through the coming week. The program this year is the most elaborate ever prepared for the annual carnival in this city. Beginning Monday and continuing until Saturday there will be a succession of parades and pageants. The big features of the week will be the automobile floral parade, the industrial parade, the electrical pageant, the battle of roses and the coronation ball. Thousands of visitors are already in the city.

Serious Motor Car Accident Occurs in Scotland Neck

SCOTLAND NECK, Sept. 27.—While a party was out in Dr. J. P. Wimberley's automobile, returning to town they passed a party of negroes, who began to yell at them to stop, endeavoring to warn them of the danger ahead, a bridge in the road having been carried away by the heavy rains. Mistaking the yell, Dr. Wimberley, who was driving the car, put on more speed and ran into a large ditch five feet wide. In the party were Dr. J. P. Wimberley, owner of the car; Mrs. Wimberley and little son, Joe; Miss Lucy Coppedge, of Greensboro; Miss Olivia Lawrence, Miss Helen Hilliard, Miss Kathleen Tillery and S. A. Dunn.

Fortunately, no one was seriously hurt, Miss Lawrence receiving a dislocation of the arm, and Mr. Dunn and Master Joe Wimberley receiving a number of minor cuts and scratches, the other members of the party escaping without injury save being badly shaken up.

Dr. Hyatt Coming

Dr. H. O. Hyatt will be at Hotel Bertha, Monday, October 7th, to treat diseases of the eye and fit glasses

N. Y. REPUBLICANS NAME LEADER

Successful Against Field of Five Candidates

HEDGES LED FROM THE FIRST

Job E. Hedges Finally Voted on Unanimously For the Office of Governor of Empire State

SARATOGA, N. Y., Sept. 27.—Job E. Hedges was nominated Republican candidate for Governor of New York today. Three ballots were taken.

Hedges led from the first and when the third ballot showed him steadily gaining strength the delegates flocked to him so fast that the tally clerk could not keep the record.

Before the vote could be announced the motion to make the nomination unanimous was put and carried with enthusiasm.

James W. Wardsworth, Jr., the young former speaker of the assembly gave Hedges the hardest fight for the nomination and former Representative William S. Bennett was third.

The platform having been adopted yesterday, the way was cleared for nominations for governor. In quick succession speeches were made presenting the names and merits of former Speaker of the Assembly James W. Wardsworth, Jr., Job E. Hedges and former Representative William H. Bennett, of New York; William H. Daniels, of Buffalo; P. W. Cullinan, of Oswego, former state excise commissioner, and E. T. Brackett, of Saratoga former state senator.

As the balloting proceeded scattered votes were cast for State Senator H. S. Hinman of Binghamton, and Igbert Woodbury, of Jamestown.

Jas. W. Wadsworth, Jr., was nominated for Lieutenant Governor without opposition.

End of the Century Club

The End of the Century Club will meet with Mrs. J. L. Wooten Wednesday afternoon at 3 o'clock.

Mrs. B. W. Moseley, Sec.

MEXICAN GOVERNMENT WISHES TO CROSS BORDER

PERMISSION TO BE ASKED UNCLE SAM TO COME INTO U. S. A. AND PURSUE REBELS.

OROZCO'S ARMY RAID'S AIM

MEXICO CITY, Sept. 27.—Congress today granted Madero's request for authority to ask permission of the United States to again transport Mexican troops through American territory.

Unless the authority is refused by Washington, troops under General Tracy Aubert, now at Ojinaga, will be transported. Part of the command will be sent over the Southern Pacific Railroad entering Mexico at Del Rio, Sonora and the others will be sent to Ciudad Porfirio Diaz to cooperate with General Blanquet, in command at Sabinas.

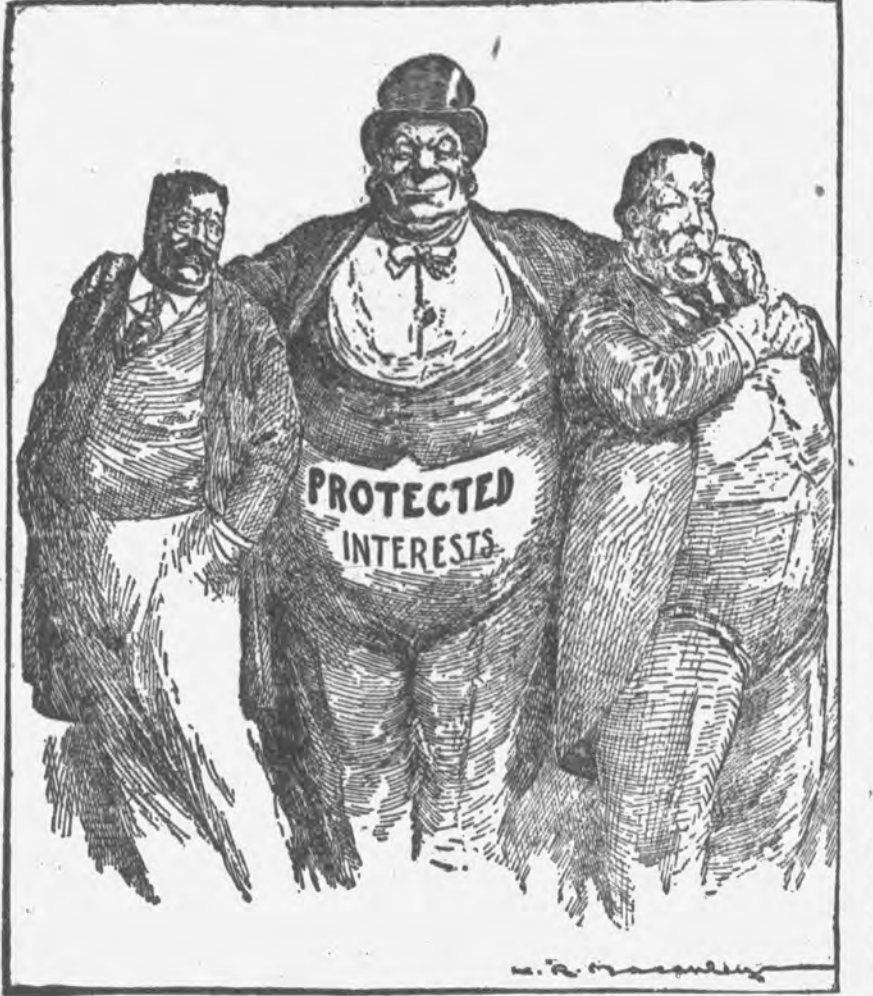

Orozco's army is now occupying positions among the haciendas near Labalia and Piedra Blanca and in the range of hills known as Sierra Burro, which offers excellent opportunities for defense. The government expects to send three columns against the rebel positions. Increased rebel activity in the States of Chihuahua make it impracticable to reduce the Federal forces there. Brick skirmishes continue about Tlanguistango in the State of Mexico, but the rebels this morning are reported falling back.

Mr. F. C. Harding, Elector

The Democratic convention of this district, held in Elizabeth City last May, nominated Mr. Albion Dunn, of Greenville, as presidential elector of the district. Recently Mr. Dunn tendered his resignation to the district executive committee and at a local meeting of the committee in Elizabeth City last Wednesday, Mr. F. C. Harding, of Greenville, was chosen to fill the vacancy.

"The choice which the voters have to make is simply this: Shall they have a government free to serve them, free to serve ALL of them, or shall they continue to have a government which dispenses SPECIAL favors and which is always controlled by those to whom the SPECIAL favors are dispensed?"

WOODROW WILSON.

"THEY Are Good Enough For Me."

Up To Shoppers to Enforce The Pure Food Law, Says Dr. Barnard

WASHINGTON, Sept. 27.—Most of the pure food work of the future lies with the women who do the buying, asserted Dr. H. E. Barnard, Indiana food commissioner, today, before the Fifteenth International Congress on Hygiene and Demography.

If there is any fault with cold storage, it is financial and economic, not hygienic, said Dr. H. D. Pease of New York.

He declared that if the financial saving which refrigeration adds to the nation's wealth was not properly divided, it was a question for the economics, not for the canitarians. It was a mistake he said, to believe that the only advantage of cold storage was a means of trying to corner the market on eggs, poultry or some other products. He recommended hard freezing as opposed to the chilled process as the more hygienic.

Sir Thomas Oliver, England's expert on the smoke and dust problem announced that on Monday he would go to Pittsburg to study smoke conditions there.

The death rate from pneumonia and other lung affections in Pittsburg is increasing, according to Dr. William Charles White, of the University of Pittsburg, who declared that was due, doubtless, to smoke conditions.

Judge Cline Adjourns Court After Two Week's Work

After two week's work in which several important cases were cleared from the docket, Judge E. B. Cline adjourned court a little before noon this morning.

Judge Cline will be with us again in November, when he will only preside during one of the two weeks, as he wishes to be home for election.

Judge Cline's efficiency and courtesy in the discharge of the duties of his high office were again the feature of the term just ended, and we feel sure we voice the sentiment of Pitt county's people in voting him an exemplary judge and a very pleasant gentleman.

The International Association of Machinists reports that during the last twelve months, fifty-four new agreements providing for an increase in wages and a shorter workday.

Literally Fished Money From Bank, With Pole and Hook

NEWARK, N. J., Sept. 27.—It became known today that \$11,500 in gold was mysteriously stolen about noon on Sept. 18., from the National Newark Banking Co.

The money, in 3 bags, was taken from the teller's cage while most of the employees were at luncheon.

The theft was apparently accomplished from the corridor by means of a long pole and hook.

Another Ten Dollars Contributed by Pitt Countians

Contributions from Pitt county to the Wilson Campaign Fund lacks just \$6.50 of the century. The list as published in Thursday's issue of the Reflector showed a total of \$83.50. It has been strengthened in the last two days with an extra \$10.00, one contribution being sent from the National capital to the editor of the Reflector, from a Pitt county man now there.

Mr. Gardner Dead in Ayden

Mr. Walter Gardner who has been sick a long time with typhoid fever, died about one o'clock today. Will be buried in Ayden cemetery at 3 o'clock Sunday afternoon with Masonic honors.

The American Federation of Labor is conducting an active campaign of organization among the workers of the iron and steel industry.

ANTHRACNOSE A NEW COTTON PEST

Threatens Ruin to One of Money Crops

MANY COUNTIES SUFFER IT

Government Experts Called in to Diagnose Latest Evil to the Great Industry of the South

Mr. Zeno Moore, of Whitakers, who is agent of farm demonstration work in Edgecombe county, was in Greenville Friday and showed us several bolls of cotton infected with a disease which the United States department of agriculture has pronounced anthracnose. This disease in cotton has appeared in several sections of Edgecombe and does much damage to the crop. We see from an article in the New Bern Journal that the disease also prevails in Craven, Jones and some other counties. We have so far heard it not reported in Pitt, but it may be in sections of this county also.

Where the trouble has been referred to government experts, they advise that nothing can be done to stop the spread of the disease in the present season, but measures can be taken now to prevent a recurrence of the trouble in future years. Anthracnose is a disease that is carried to large extent in infected seed and does not remain in the soil longer than a year.

To avoid this disease the greatest care should be exercised to get uninfected seed for planting the next crop. These seed should be selected carefully from thoroughly healthy bolls by reliable pickers, and the cotton kept separate and ginned separately from the main crop, especially from any that has been in the least infected. Another safeguard and one that will rid fields of infection is to plant no land in cotton next year which is in that crop this year.

It will result in great loss to the cotton crop if this disease becomes general, and every precaution should be taken to check it.

ARREST MAN FOR CANADA BANK THEFT

MAN IMPLICATED IN BANK ROBBERY OF \$320,000 TAKEN IN ST. LOUIS AFTER A YEAR.

AGAIN A WOMAN LEADS TO YEGGMAN

ST. LOUIS, Sept. 27.—A year's following the \$320,000 bank robbery in New Westminster, B. C., ended in St. Louis in the arrest of J. C. Adams who was declared today to be wanted as one of the robbers.

The arrest of his supposed wife, known to the police as Jeanette Little, in Edwardsville, Ills., early today, completed the task of the local police and private detectives who had been holding Adams since his arrest early Wednesday morning.

Adams, who is known as Walter Stacy, was declared by the detectives to be one of the two men who beat Police Lieutenant Burns of Chicago, into insensibility in a saloon when he tried, single-handed, to capture them on the night of September 19th.

When Adams was arrested by the St. Louis police he was entered on the books under the name of Stacy, and a charge of murder was placed against him as a suspect in a local case.

In the meantime his photograph was sent to Chicago, where it was identified Thursday as the picture of one of Lieutenant Burns' assailants.

The man arrested as Adams or Stacy is believed by the local Bertillon officers to be George West, reputed leader of the Canadian bank robbery.

At the time of the man's arrest the detectives could have arrested his woman companion, who was walking ahead of him. They hoped that by leaving her at liberty longer they would catch another of the gang, she was not molested, but was kept under surveillance.

NORFOLK SOUTHERN DESERTS THE RAIL

Passenger Train Arrives Eight Hours Late

DERAILMENT NEAR WILSON

Two Cars Topple Over to Either Side of the Tracks. Baggage-man Was the Only Person Hurt

The train due at the Norfolk Southern depot at 1 a. m. steamed in this morning about eight hours behind schedule, or a little after nine o'clock. Reason for the unlooked for delay being one of those unhappy circumstances that cause railroad cars to stray from the straight and narrow steel path.

Everything on the train was love-ly until a point between Wilson and Simmis was reached. Here the star that shines over the Norfolk Southern passenger schedule shamefully winked and a couple of cars flopped over to either side of the track. The usual excitement prevailed for a little while, but fortunately it did not take long to ascertain that no passenger had sustained injury, the baggage-man, however, annexing a few bumps.

The routine of coaxing the cars back to the line of work they were built for was tackled with the skill lent by experience and some few hours later the snorting iron horse was again let loose Greenvilleward. One of the lucky passengers on this fateful train was Mr. Roscoe Cox, the well known traveling man with headquarters here.

It is supposed that the recent heavy rains are to be credited with the mishap.

To Christen Decies Baby

LONDON, Sept. 28.—Many prominent society folk, including practically all of the leaders of the American colony in London, are preparing for an exodus to Windsor tomorrow to attend the christening of the baby born to Lord and Lady Decies, who before her marriage in February of last year was Miss Vivien Gould, daughter of Mr. and Mrs. George J. Gould of New York. The christening ceremony is to take place at the Stokes Poges church, a few miles from the royal borough.

Redmond to Speak in New York

NEW YORK, Sept. 28.—What is expected to be the biggest demonstration for Irish Home Rule ever held in New York will take place in Carnegie Hall tomorrow evening. Representatives of every creed and political faith have been invited to take part. Supreme Court Judge Martin J. Keough will preside and the principal speaker will be William H. K. Redmond, brother of John Redmond, the Irish leader.

Eddy Goodman is Really a Bad Man. He Forged a Check

SALISBURG, Sept. 27.—Charged with forging the name of W. S. Nicholson, a Salisbury business man, to a check for \$10, Edward Goodman, a young white man, was lodged in jail in default of \$200 bond required by Judge Miller in Rowan court, before whom he was tried.

Goodman was arrested late last night by Deputy Frank Tolbert and Officer W. M. Julain. He had passed the check on a barber and was apparently leaving town. He claims the check was traded to him by a man who has left the city.

Missouri State Fair

SEDALIA, Mo., Sept. 28.—The enormous fruit crop which Missouri is gathering this year is illustrated as one of the most striking features of the annual state fair, which had its formal opening here today. The horticultural and agricultural exhibits are the best on record. The Ozarks, ahead of him. They hoped that by leaving her at liberty longer they would catch another of the gang, she was not molested, but was kept under surveillance.

TARIFF MAKES LIVING HIGH

The real facts about the present tariff are being published by the New York World in a series of articles based upon information gathered by the tariff reform committee of the Reform club of New York, a non-partisan organization.

There are about 22 million households in the United States. That not one of them escapes the greed of the tariff-protected manufacturer will be very plainly seen by comparing export and domestic prices on articles of common use in the home.

Nearly everybody is familiar with the discrimination that has been practiced by the "Watch Trust" against the American consumer, resulting in some merchants buying Elgin, Waltham and other American watches cheaper in Europe than the trust sold them here and shipping them back to this country. But clocks are too bulky to make this practice profitable, and the American is helpless.

THE KITCHEN FEELS IT

The American family meets tariff discrimination at every turn. To get breakfast they use a kitchen coffee mill which is offered for export at ninety cents, but to the American purchaser not under \$1.13—one fourth added to the price—while the tariff permits the American manufacturer to do business without competition from abroad.

The oil heater on which the workingman's family might make a hasty cut of coffee and boil the eggs for breakfast—if they could afford eggs—is sold for export at \$2.20, but for the "protected" American purchaser the price is 40 per cent higher, or \$3.08.

A 2-quart aluminum coffee pot, on which there is protection of 45 per cent, is sold in this country for \$1.50 which is 44 per cent more than the American manufacturer asks for it for export to any place not under protection's wing.

On Monday morning the American mother puts the wash boiler on the tariff-taxed cook stove. A Peekskill, N. Y., manufacturer quoted the tariff reform committee's "export agent" \$15 as the foreign price for the stove he charges \$20 for in this country because the government has decreed a tax of 45 per cent on cook stoves.

TAX THE BABY CARRIAGE

If the American mother wishes to let her baby sleep in the baby carriage in the yard she meets the tariff

again. For Newfoundland a leading American manufacturer quoted \$9.50 for his baby carriage, but for all those who enjoy the blessings of "protection" the wholesale price is \$12.67, or one-third more. By a duty of 45 per cent the American baby is often protected out of having any carriage at all. For the poor the protective tariff has made a go-cart a luxury.

Tuesday is ironing day, which the kind hearted protectionists have tried to make happier for the house mother by compelling her to pay nearly a third more for her flatirons, as is proved by the export prices quoted by Philadelphia manufacturers. The heavier the iron the greater the weight of protection, as it is fixed at four-fifths of a cent per pound. The set of flatirons these honest Quaker City people offer for export at ninety-three cents they will sell to the "protected" Americans for \$1.23.

MORE OF THE KITCHEN GRAFT

The meat chopper costs just double the export price, the slaw and vegetable cutter and the potato shredder cost two-fifths more than they would sell for across the line of Canada, and the pots and pans of aluminum come 50 per cent dearer. It is chiefly due to that 45 per cent duty.

Even the vanilla flavoring extract for the cornstarch pudding costs the American family a third more than for export to the foreign family.

The children's clothes have to be made and the domestic sewing machine is handy. It would be just as handy, however, if the American family could get it for the export price, \$18.62, instead of the \$30 or more they have to pay. The \$11.38 extra charged his wife for this machine is a week's wages for many millions of American workingmen.

TIME FOR ACTIVITY

If Greenville does not take advantage of the tide of prosperity now flooding the country it is her own fault. Business and manufacturing enterprises are seeking desirable locations and this town should be alert to secure a full share of them. Such institutions do not usually go around begging admission, but come where they are invited. If Greenville has the mind to do so she can hold out as good inducements as any town. Our business people ought to be coming together more and consulting over matters of this kind. Let outsiders know we are awake and active and more of them will be coming to cast their lot with us.

ORANGE WILL GET ROADS

Not long ago Orange county voted to issue \$250,000 of bonds for the purpose of building good roads. Somebody who was opposed to the bonds brought suit to prevent their issue on the ground that the election was held irregularly. The superior court sustained the plaintiff and the

matter went on to the supreme court where the lower court was reversed. The higher court held that building good roads is a necessary expense and the bond issue proposed in the above case is valid. So Orange county will go ahead and build roads.

Pick up almost any newspaper you will and you will find the banks the most liberal advertisers. It pays them, of course, or they would not pay out good money for it. Merchants and other business men would find profit in following the example of the banks.

President Taft says the country will go to ruin if Democrats win the next election. He seems to think the country's business salvation is lodged in him, but he has made a poor showing in that direction in his administration.

If politics could be relegated to oblivion for about 'steen years and the time devoted to business and progress, the office seekers would not recognize the country when they got back.

They are claiming to have discovered the lost painting "Mona Lisa" hanging in a private gallery in St. Petersburg. It may be the original and again it may be only a fake copy.

It will not be many years before some people will be wondering why they were ever such back numbers as to be opposed to good roads and stock law.

Craig has settled Settle so far as a joint debate is concerned and will settle him still further on election day.

In the West they are already having frost. Republicans all over the country will get one early in November.

Throw off the rush long enough to attend church tomorrow in a spirit of worship.

The detectives received \$12,500 for capturing the Allens. Not an unprofitable job at all.

We hear it hinted that a large storage and distributing warehouse is looking Greenville's way.

Electric lights ought to quit blinking and keep their eyes open.

What We Never Forget

according to science are things associated with our early home life, such as Bucklen's Arnica Salve, that mother or grandmother used to cure our burns, boils, scalds, skin eruptions, cuts, sprains or bruises. Forty years of cures proves its merit. Unrivaled for piles, corns or cold sores. Only 25 cents at all druggists.

Shoe Repairing.

There was a large crowd in town today.

Two circuses next week, one Tuesday and one Friday.

The evenings are getting dark early.

Mr. Blount Pearce Dead

Though the end had been expected for some days, it carried sadness to every heart who knew him when it was told that Mr. Blount C. Pearce had passed away. He died about 4 o'clock Friday afternoon, at the home of his mother, Mrs. Georgia James, and is survived by the mother and two half brothers, Masters Will and Dink James.

Blount Pearce was nearly 24 years old, and the death of one so young whose life was once so full of promise, is sad beyond expression in words. About four years ago that dread destroyer, tuberculosis, fastened its fangs upon him and though everything holding out any hope was done to check it, the progress of the disease continued until it sapped his young life away. He suffered much in these four years, yet bore it all with patience and Christian resignation. For weeks before the end he realized that he must die and was prepared for it. While he hated to give up life, death held no fears for him, and he met it with a trust in Christ that assured him "There'll be no dark valley when Jesus comes."

Blount was a good boy and his devotion to his mother and little brothers and his solicitude for them, was beautiful. For some years before his sickness he was a clerk in the postoffice where he was exceedingly popular. Everybody esteemed him for his uprightness, his courtesy, and he never was lacking friends.

The funeral took place at 4 o'clock this afternoon conducted by Rev. E. M. Hoyle. The pall bearers were Messrs. J. B. Jaes, John Shelburn, N. S. Warren, R. A. Tyson, Jr., M. H. White, Chas. Horne, A. L. Blow, Jr., R. C. Flanagan, F. M. Wooten, J. I. Smith, C. B. Whichard, J. L. Starkey, Roy Hearne, J. L. Anderson.

Mr. Pearce was a member of the Improved Order of Red Men and the local tribe attended the funeral and took part with their burial ceremony.

Bridge Club Has Barbecue

The Bridge Club gave a barbecue Thursday afternoon in honor of Mrs. J. W. Ferrell whose score during the season just closed footed up higher than any other member. This last meeting of the season was held at Mrs. J. G. Moye's and after a final game and congratulations to the score leader a barbecue feast was enjoyed. This was furnished by Mr. "Dick" Moye, who keeps opposite the market house and the ladies say they never tasted better barbecue than he supplies. They recommend him to any one wanting the best.
