PLAN FOR LONGER
SEARCH IN MEXICO

Troops Are Planning for Another Week's Stay in Pursuing Bandits.

FIVE BANDITS REPORTED
KILLED UP TO THIS TIME

Criminal Records Show 900 Convicted Profiteers in the City of Paris.

(By The Associated Press.)

Marfa, Aug. 22.—The American troops, who are pursuing the bandits have prepared for another week's campaign in the Mexico mountains. In the search for Renteria's band the recent storms have made the search difficult. Five bandits have been reported killed to date, and the Mexican troops are co-operating with the American men in bringing the outlaws to account.

MEXICAN TROOPS HELPING

Essen, Aug. 22.—The German commission is investigating conditions in the coal districts, and has reported that the nation is facing an economic catastrophe, on account of the Allies' demand of 40,000,000 tons.

CHATTANOOGA BANKERS ARE
AGAINST HOARDING FOODS

Chattanooga, Tenn., Aug. 22.—The Chattanooga bankers joined in a petition to the Tennessee delegation in congress today asking that the seizure of food in cold storage be stopped. They contend that this process is defeating the ends sought and will eventually create a scarcity and an increase in price.

They also ask that the return of railroads to private ownership be hastened.

CIVIL COURT ENDS
AFTER SESSION OF
ONLY SHORT TIME

August Term Superior Court Ended Yesterday Afternoon at 4 o'clock.

NINE DIVORCE ACTIONS
GET FAVORABLE NOTICE

Several Minor Cases Received Disposition During Two Days' Session.

After making favorable disposition of five divorce suits and five other important actions, the civil term of Pitt county superior court, which convened in this city last Wednesday morning, was brought to a final conclusion yesterday at 4 o'clock on account of the inability of several witnesses to reach the city to take part in various actions scheduled for the term, and for that reason, officials found adjournment advisable instead in persisting in the witnesses making their appearance here and crops of the section urgently demanding their attention at this particular time of the year.

Court was in session for only two days, but doing that time Judge John H. Kerr, of Warrenton, disposed of the cases rapidly, in fact, probably with greater facility and ease than has been noticeable in any session of court here in several months. The entire two days were filled with work, and nothing but work, and immediately following the hearing of the last case at the noon hour yesterday, the court listened attentively to several resolutions and motions presented by the various attorneys participating in the cases which were on the calendar for this term. Practically all resolutions were confined to the cases on hand, and with the motions having an indirect bearing upon the cases that were continued until the next term of civil court.

There were only two divorce cases (Continued on page four.)

ANOTHER WHISKEY
STILL IS TAKEN IN
CHICOD TERRITORY

Practically 1000 Gallons of Beer Destroyed in the Raid, Is Said.

Sheriff Dudley and deputies yesterday afternoon destroyed possibly 1000 gallons of beer following the capture of a monkey rum still on the Stoke's land in Chicod township, and while the officers were unable to effect the capture of the operators, it is more than possible they will be apprehended at almost any time. No monkey rum was taken in the raid, as the appearance of things around the plant indicated that the men had disposed of the rum and made off to safe quarters before the arrival of the sheriff and his men.

The still was constructed out of the usual kind of material used by blockaders in this section of the country, and while only of a 60 gallon capacity it was arranged so that its productive power could be increased when occasion demanded such. There was strong evidence that the outfit had been running regularly and without only slight interruption for the past several months, but the men were evidently short of supplies at the time of the raid, or made pretty quick work in removing everything possible before the appearance of the authorities.

While the officers at this time apparently are unacquainted with the men connected with the still, it is believed, however that the traffic was being by both white and colored persons, and although they have not been apprehended up to the present time, it is a certainty the only a short time will intervene before the leaders are brought to account, and made to pay the penalty for the offense.

SUGAR CONTROL IS
TO BE RESUMED IN
ALL PARTS NATION

Department of Justice and Food Administration Come to Agreement.

ELEVEN CENTS WILL BE
CHARGED THE CONSUMER

Congress Preparing to Act on Extension of controlling Commodities.

Washington, Aug. 22.—Active control of sugar prices was resumed today by the government, through an agreement reached between the department of justice and the Food Administration that licenses will be revoked by the latter when it is shown dealers have been profiteering.

Sugar should reach the consumer at approximately eleven cents a pound, it was announced, based on the ownership of the entire domestic and Cuban crop by the United States Sugar Equalization Board, which is selling to refiners at 7.28 cents a pound. Refiners are under contract with the board to sell at nine cents, less than two percent discount for cash, wholesalers and jobbers are allowed a maximum of 10 cents per 100 pounds for handling and retailers are permitted a profit of one to one and one-half cents per pound, making a fair price, eleven cents, except in cases where dealers have purchased at an "unreasonable" price. When this is a fact, a reasonable advance over the actual cost will be permitted.

With the House Agriculture Committee's amendment for extension of the powers of the Food Control Act before it, the House tonight was prepared to take action tomorrow on the amendment and thereby make its first extensive step toward beating down living costs. The amendment, which was reported to the house today by a unanimous vote, includes retailers among (Continued on page three.)

PLENTY OF MONEY
IS CIRCULATED IN
ENGLISH VILLAGES

More Money Than Ever Before Gaining Circulation in Small Centers.

London, Aug. 22.—More money than ever before is now in circulation in English villages, and its easy expenditure is apparent even to the casual passerby. Extra wages earned by workmen, house maids and farm laborers have brought about an astonishing social change.

One evidence of this is seen in the great increase in bicycles and motorcycles, which has necessitated the establishment of countless garages and repair shops throughout the country. Dancing and other clubs are springing up everywhere. Whist clubs are favorites, and the costliness of the prizes for which the members play would, a few years ago, have constituted almost a scandal. The sense of well being and the demand for a more comfortable life is assigned as the cause for this last development. It is taken by sociologists as a permanent thing which is more likely to increase than to diminish.

UNITED STATES NOT AWARE
OF ANY ARMED INTERFERENCE

Washington, Aug. 22.—The senate was informed today by President Wilson that the United States government was not aware of any armed interference by Nicaragua in Costa Rican affairs, and that the state department repeatedly had urged Nicaraguan officials not to make any such interference. The president's message was in response to a resolution by Senator L. Follette, Republican, Wisconsin.

BUSINESS MEN OF
NATION WILL VISIT
IN SOUTH AMERICA

Representatives of Many American Firms to Make Survey Latin America.

TO ESTABLISH BETTER
RELATIONS IN TRADES

Delegation Will Leave Memphis During the Latter Part of This Year.

Memphis, Tenn., Aug. 22.—A visit to Latin-American countries by Mississippi Valley concerns interested in taking advantage of new trade conditions since the ending of the war and to include representatives of Chicago, St. Louis, Memphis, Cincinnati, New Orleans and many inland cities, is planned for this fall and winter. Not less than 100 commercial, financial and business establishments are to be represented.

It is proposed to make an extensive trip to ascertain by personal observation the business conditions and possibilities in South America and how the Mississippi Valley can best develop its interests with the Latin states.

The movement was started by the New Orleans Association of Commerce, which already has delegated a committee to interest other similar organizations and which also has taken up with the United States Shipping Board the question of obtaining a vessel for the trip.

It is the intent to start about November on a tentative itinerary that will take the delegation to Cuba, Jamaica, Santa Domingo, Haiti, cities in Venezuela, Colombia, Panama, Ecuador, Peru, Chile and back through the Panama Canal.

It is quite certain from local information that Memphis and St. Louis will be well represented and assurance has been obtained that Chicago and Cincinnati will likewise send a number of representatives.

HEAVY PENALTY IS
TO BE IMPOSED IN
BIG PROFIT GAMES

Palmer Urges Greater Latitude for Future Efforts Against the Profiteers.

Washington, Aug. 22.—The house has considered amendments of the food control act requested by the attorney general and is providing penalties of \$5000 and two years imprisonment for profiteering. Palmer has also urged that firms dealing in wearing apparel, food containers and other commodities be brought under the jurisdiction of the food control act. Reports from various sections of the country show that the federal and state authorities are continuing their drive on profiteering.

WAR DEPARTMENT STOPS
SALE OF ARMY BLANKETS

Washington, Aug. 22.—War department distributing centers through which surplus war materials are sold were instructed today to discontinue the sale of army blankets. It was explained that the distribution was not as wide as had been hoped for and that to give all an equal opportunity to purchase the blankets a new distribution system would be worked out.

GREAT AMOUNT OF WOOL
ON MARKETS THIS TIME

Washington, Aug. 22.—Manufacturers and dealers held more wool last June 30 than at any time since the department of agriculture began issuing its quarterly reports on stocks, it was announced today. The report showed a total of 674,000,000 pounds grease equivalent, an increase of 180,000 pounds over stocks on March 31.

CITY BUSINESS TO
OPPOSE PROPOSED
FREIGHT INCREASE

Direct Line of Action Planned at Meeting in Chamber Commerce Last Night

POSTAL TELEGRAPH CO.
TO BE OFFERED OPENING

Chamber of Commerce Will Try for Improvement Coast Line Freight Yard

A considerable number of representative business men gathered in the Chamber of Commerce rooms last night and while they were called together primarily for one object, several matters of importance came up for consideration before adjournment was taken.

The meeting was called by reason of communications that had been received from the secretary of the State Chamber of Commerce calling attention to the petition of the Railroad Administration to the Interstate Commerce Commission to allow the railroads to make a fifteen per cent increase in freight rates in Southern territory, and the local chamber was asked to cooperate with other similar organizations in combatting the increased rate. Already a fight had been waged before the commerce commission as to the discrimination in rates against North Carolina in favor of Virginia cities, and it was construed that this petition for increased southern freight rates was really a move to offset the former measure and get it canceled when it seemed about to be settled in favor of North Carolina. No one present could give any direct information on the increased rate proposition, and after some discussion a motion was unanimously adopted authorizing the appointment of a committee of five to raise a fund of \$150 to help fight the proposition, that being the amount the local chamber had been asked to contribute. PROPOSED TREATY
COMPROMISE HITS
WRONG IN SENATE

Proposed Compromise Put Aside Indefinitely by the Democratic Leaders.

PEACE DECLARATION IS
NOT POSSIBLE JUST YET

Foreign Relations Will Continue Hearings for the Smaller Nations.

(By The Associated Press.)

Washington, Aug. 22.—The compromise proposal to have the Senate adopt peace treaty reservations but keep them separate from the ratification itself was put aside indefinitely today after Democratic leaders had declined to assume responsibility for it and Republicans of all shades of opinions had given notice they could not accept it.

Among the Republicans the development was interpreted as meaning that action never would be sought on the proposal in its present form, and Democratic leaders generally said they had no plans for bringing it to a vote.

Meantime a White House announcement and an executive session of the Foreign Relations committee brought to the surface again two other issues of the treaty fight.

President Wilson, replying to a suggestion that he might put the country on a peace basis by declaring the way at an end, announced that he not only considered himself powerless to take such a step but considered a peace declaration either by himself or Congress prior to ratification of the treaty would "put a stain upon our national honor," by evading responsibility in the world peace settlement.

The Foreign Relations committee got into another argument over prompt committee action on the treaty which ended by a decision, without a record vote, to continue its hearings to receive the cases of the Irish, Greek, Egyptian, Lithuanian, Ukrainian, Estonian and Lettish races.

FRIDAY, AUGUST 22, 1919.

IS INTERVENTION NECESSARY.

The Mexican government may feel perfectly justified in its attitude towards the American troops who crossed the border in hot pursuit of the bandits who captured two aviators of this country and held them for ransom, but we do not believe that it is going to be advisable for certain sources to continue to display the present spirit of arrogance, for, as we see it, such action is not only provocative of anger and impatience on the part of this government, but it brings the officials to a place where they no longer can place the slightest faith or confidence in the action of that nation to protect the interests of our people who are residing within the bounds of Mexico.

Regardless of all former protestations that American life and property was not receiving the required protection so absolutely essential for a country so wild and unsettled, Carranza and his officials have practically disregarded every demand made of them further than to acknowledge the occasional messages and assure this government that its interests would receive adequate protection in the future. There has been no assurance that such has been done, in fact, the lawless, unprincipled people of the nation have continued to threaten destruction to our property all along, without the government giving the slightest interference, as we have seen.

The situation assuredly cannot continue as it is at the present time. American rights must receive public recognition before other atrocities and infringements upon the privileges of the government come about. And this certainly would not do. In fact, such an occurrence would only add additional fuel to the resentment and provocation flaming in the hearts of the American people as a result of repeated depredations, and if something is not done immediately to give assurance of more direct co-operation this nation will be forced to intervene in the interests of the rights of its own people.

It cannot be that Carranza fully comprehends the serious proportions which the situation has assumed in this country, if so, he is far too negligent

and indifferent to our frequent requests for co-operation for his own personal good or benefit. No one is desirous of beginning any war with the Mexicans, but it must be plainly understood that the usual protective features accorded by each nation in friendly intercourse must be strictly observed in the future, and that if such is not done the only thing left for the United States to do is to bring about direct intervention for the protection of its own life and property. Something must be done, and done immediately, therefore, if Mexico is fully determined that it is going to continue indifferent and careless towards our people in that country, drastic action will certainly become absolutely inevitable and the most direct step in bringing about that which has been repeatedly requested but never granted.

THE END OF SPEEDING CARS.

It is a matter of the keenest satisfaction to note the active spirit which the city officials are displaying in an effort to eliminate automobile speeding in this city, and while their efforts at this time are being solely confined in eventually bringing about abandonment of reckless driving along the principal business thoroughfares, it is believed that in a short time the entire city will be under the careful surveillance of the law with direct and forceful energy being applied to those who take pride in showing how fast their cars can go after passing the danger zone of the cop.

Several speeders of the city already have been given rather heavy fines for violating the traffic regulations, and although the officials find it advisable to deal leniently with the offenders when first making the appearance before the mayor, it is an assured fact that such an attitude will not continue long, for when the same laws are violated more than one time, the fines are increased, with repeated violations receiving full and determined action on the part of officials desirous of bringing about more favorable conditions along this line of public safety.

Automobile owners and drivers have never respected the city ordinance governing traffic within the corporate

limits simply because the law has never before this time been fully enforced, and as a consequence, the speeders always have had full sway in every part of the city, and even along the principal business streets. The situation was becoming alarming before the recent action on the part of Mayor Clark and associates, and while many drivers even at this time persist in driving their cars over the specified rate of different localities, we believe the time has come when they necessarily must regard law whether they desire to do so or not, because, as

we see it, the officers are really determined to bring the speed fiend to account and to see that he gets justice in the city court. It is the only way to make the obstinate automobilist realize the law must be considered, and the more stringently the measures are enforced the quicker Greenville will witness a complete departure from the dangerous, reckless speeding cars that jeopardize the life of pedestrians in every part of the city.

The Adriance Mower

One of the distinguishing features of the Adriance Mower is the method of gearing. The large bevel driving gear is placed on the axle, which runs at a slower rate of speed than any of the other shafts. This large bevel gear drives the higher speeded internal gear, which, in turn, drives the straight spur pinion on the crank-shaft. This makes the Adriance the fastest cutting and lightest draft mower on the market.

On the crank-shaft pinion is located the driving clutch. It being thus placed on the highest speeded shaft. It is readily seen that the knife will start instantly when the clutch is thrown into the gear, thus preventing clogging and dragging of the knife.

Buy the Adriance and you will have the very best Mower made.

ADRIANCE RAKES ARE STRONG, WELL CONSTRUCTED AND CONVENIENT AND HAVE PROVEN VERY DURABLE

The axle is a heavy, high carbon steel angle bar, fitted into sockets in end castings, steel spindles for the wheels pass through end castings and are firmly bolted to axle, a construction which will never cause trouble.

The largest standard wheel on the market is used on the Adriaance, and gives most room under the axle, clears a higher windrow and is better for bunching.

The foot lever holds the teeth firmly to the ground, locking them in either one of three adjustments.

The foot resting lightly on the lever, is enough to hold the teeth down for the heaviest raking. The same lever can also be used to hold the teeth up until the rake has entirely cleared the windrow or bunch, avoiding catching or dragging the hay.

SOUTHERNERS PLAN RECONSTRUCTION

IN EUROPE—WORK IS TO BE OPENED IN BELGIUM AT ONCE.

Commission Abroad To Study the Situation.—Extensive Program Is Planned—Church Busy In Other Lands.

Nashville Tenn. (Special Correspondence).—On August 29th a commission composed of Bishop James Atkins, of North Carolina, John R. Pepper, of Tennessee, Dr. Belle H. Bennett, of Kentucky, and Mrs. Luke G. Johnson, of Georgia, sails for Europe to arrange for the opening of extensive religious and philanthropic work in Belgium, France and other war-torn countries.

They represent the Centenary Commission and the Board of Missions of the Methodist Episcopal Church, South, which have set aside \$5,000,000 of Centenary funds for religious reconstruction in Europe.

They go with authority to purchase property and open work at once in Belgium and to make a careful survey of the needs in other countries and recommend an adequate program. Orphanages, schools, social centers, religious literature and direct evangelism will be the methods employed.

In some of the countries to be entered the work will be conducted in co-operation with the Methodist Episcopal Church, which is already operating in France, Italy and the Balkans, and is planning to expand its work greatly as a result of the Centenary, which in the two churches brought missionary pledges aggregating more than \$150,000,000.

METHODISTS REVIVE ANCIENT CUSTOMS

TWO AND ONE-HALF MILLION MEMBERS TO OBSERVE DAY OF FASTING AND PRAYER.

Centenary Commission Starts Movement To Establish 100,000 Family Altars—Following the Plan of Old Circuit Riders.

Nashville Tenn.—The Centenary Commission of the Methodist Episcopal Church, South, has named August 29th as a special day of fasting and prayer for the two and a half million members of the church. The Commission has also started a movement to establish 100,000 Family Altars, by having that many homes pledged to observe daily devotions.

This is the revival of ancient customs in the church. It is the part of an intensive campaign which the church has launched in connection with the spiritual side of the Centenary Movement, through which the Methodists raised \$53,000,000 in an eight-day drive last May.

The object of the present campaign, as stated by Rev. S. A. Neblett, Secretary of the Department of Spiritual Resources, is to enroll at least 40% of the church members in the prayer league known as the Fellowship of Intercession, to establish 100,000 Family Altars, and to assist in finding a thousand young people to go abroad as missionaries.

August 24-31 is known as Enlistment Week. During this period the seven thousand pastors will urge their members to join the Fellowship of Intercession, to establish Family Altars, and to observe the day of fasting and prayer.

JAPAN TO MODIFY KOREAN RULE.

So Predicts Dr. S. E. Hager, 25 Years a Southern Methodist Missionary In The Orient.

Nashville, Tenn.—That Japan will moderate her rule in Korea is the prediction of Dr. S. T. Hager, recently returned missionary of the Methodist Episcopal Church, South. Dr. Hager has spent more than a quarter of a century in Japan doing religious work.

"Japan is learning that her success in giving good government to Korea is fraught with difficulties, and that tolerance and good will must take the place of harsh and severe methods.

"The military leaders aim mainly at making their rule thorough and permanent, and naturally there is great temptation to the man of the sword to make his rule severe.

"But democratic ideas are growing in Japan, and more temperate treatment of the subject race will come about."

Dr. Hager says the Christian missionaries in the Orient are elated at the success of the Centenary movement, through which the church raised \$53,000,000.00 for missionary work in all lands.

Millions of this will be spent in the Orient. Hundreds of new missionaries will be sent and there will be a great advance movement in medical work, education and evangelism.

WAYS OF EARNING MONEY DURING SUMMER VACATION

Many Opportunities Open to Children Who Wish to Encourage Habits of Thrift and Saving.

A great many questions about how children may earn money in order to purchase Thrift and War Savings Stamps during the summer vacation period have come into the War Loan Organization at Richmond, and it is to answer these inquiries that the present article has been prepared.

The suburban or country child probably has the best opportunities for making money, though selling papers and magazines, running errands and doing chores offer several ways for the city child to earn the where-with-all for Thrift Stamps.

In the country there is first of all the garden, and at this time growing food stuffs should receive special attention. It is not too late to plant fall crops which may be marketed with profit. Lettuce and radishes are easily grown and always find good markets, especially in the late summer and fall. There will probably be more of some kinds of vegetables in the garden than can be eaten or canned. These should be sold.

On almost every farm there is a time when much of the fruit ripens at once, and the problem of disposing of it arises. Some of it is eaten, some preserved. A quantity of it not infrequently rots. This should be sold if there is a market near enough, but if such is not the case the children can put it up and sell the canned stuff in the fall.

Pigs, chickens, turkeys or rabbits are easily raised in the summer vacation, and all of them will bring in large returns for the time and labor. Berry picking is another way of making money that children should enjoy, and this year there is a plentiful crop.

Many mothers and fathers will be glad to pay the children for taking care of the yard, cutting wood, running errands or doing daily chores. In fact there are so many ways of earning money during the summer that the list might be indefinitely lengthened. But of course the object of any and all of these ways is not simply to make money, but to make and save money; in other words, enough to buy War Savings Stamps which will bring in four per cent interest, compounded quarterly.

You can do this, every boy and girl in this big country.

BEN FRANKLIN EARLY LEARNED FRUGALITY

Great American Exemplar of Thrift Knew Value of Regular and Systematic Saving For Future.

Thrift is not stinginess. In fact it is more often than not that the thrifty man is the one who is truly generous. Benjamin Franklin, our national exemplar of thrift, was, from boyhood up, always liberal and unselfish. Rene Bache, his great-great-grandson, gives an instance of this characteristic of his ancestor in a story he tells:

"The price of bread two centuries ago was a penny a loaf. Thus it happened that Benjamin Franklin, a boy of seventeen, on arriving in Philadelphia, was able to buy three loaves for three-pence; and with them he walked up Market Street from the wharf, holding one under each arm and eating the third. An hour later he gave two of them to a woman and her child who had been fellow voyagers up the Delaware."

Rene Bache goes on to say of Franklin: "Where his own expenditures were concerned he was always frugal, saving what he could out of his wages as printer, while his fellow-workers spent theirs as fast as they got them, or faster. In this way it came about that, while a mere youngster in a printing office, he lent them money every week."

"Though the earnings of most of them were greater than his, he was capitalist. By the middle of each week they were penniless, and came to him for loans to carry them over until payday. He would accept no interest, but each Saturday, on getting their money they gave back to him what they borrowed—only to repeat the borrowing a day or two later."

The secret of Franklin's success was systematic and persistent saving, from the time he first began to earn money. And always having a savings fund he was ever ready to grasp his opportunities—those of lending a helping hand as well as those of self-betterment.

Let Benjamin Franklin be your exemplar—start saving today. Thrift Stamps are an easy beginning and pave the way to a certain future.

THRIFT

Without me no man has ever achieved success nor has any nation ever become great. I have been the bed-rock of every successful career, and cornerstone of every fortune.

All the world knows me and most of the world needs my warning.

The poor may have me as well as the rich.

My power is limitless, my application boundless.

He who possesses me has contentment in the present and surety for the future.

I am of greater value than pearls, rubies and diamonds.

Once you have me no man can take me away.

I lift my possessor to high planes of living, increase his earning power, and bring to realization the hopes of his life.

I make a man well dressed, well housed and well fed.

I insure absolutely against the rainy day.

I drive want and doubt and care away.

I guarantee those who possess me prosperity and success.

I have exalted those of low degree, and those of high degree have found me a helpful friend.

To attain me you need put out no capital but personal effort, and on all you invest in me I guarantee dividends that last through life and after.

I am as free as air. I am yours if you will take me. I am THRIFT.

War Savings Stamps are better than money because they earn more money.

Tiahuanaco, in Bolivia, Collection of Ruins of Which Even the Incas Knew Nothing.

One of the numerous cities claiming the title "oldest city in the world" is Tiahuanaco, near Lake Titicaca in Bolivia. A thousand years ago, say the scientists, Tiahuanaco was as dead as it is today, and that is practically all that anybody knows of its history. Even the Incas, who hold a record for antiquity in South America, admitted to their first Spanish visitors that they knew nothing about Tiahuanaco, except that it was very probable that the stone images scattered over the ruins were the people of the city turned into stone by some angry god.

There would be nearly as much of the old city visible today as there was in the time of the Incas, had not the stones been so attractive to the Indians of nearby villages. As it is, beautifully carved idols have gone to decorate the door fronts of humble cottages, and polished stones to prop up chimneys and pave floors. The little modern village of Tiahuanaco, near the ruins, is full of stolen souvenirs. Whole houses and churches are built of them.

After several centuries of this plunder the government of Bolivia put a ban on removing stones from the ruins, but there was then little left of old Tiahuanaco. A few stone gods as huge and angular as any deities of Egypt, the sites of a fortress, a palace and many tombs, all vaguely marked by worn carved stones are scattered over a great desolate plain. Yet from these battered relics with their cryptic carvings the archeologists hope some day to reconstruct the story of a mysterious people.

Just Received

A SOLID CARLOAD OF FORDSON TRACTORS. READ WHAT MR. J. J. MAY, OF GREENVILLE, R. F. D. No 2 HAS TO SAY ABOUT HIS FORDSON TRACTOR.

TESTIMONIAL

This is to certify that I bought a Fordson Tractor, one Oliver Tractor Plow and one Disc Harrow for Tractor. I broke up and disced my farm with this Tractor. I have cut all my Oats, Wheat and Grain, ginned my Cotton and thrashed my wheat and oats. I think it is the nicest thing a farmer ever had on his farm.

It has saved me at least \$350.00 in labor alone. I have never had any trouble with the Tractor and it is now in perfect condition. I would not take twice what I paid for the Fordson Tractor if I could not get another.

If you want to save money on your farm I advise you to go to John Flanagan Buggy Co., and buy a Fordson Tractor at once. I bought this Tractor in March, 1919.

J. J. MAY.

N. B.—Mr. May was formerly a member of the board of Pitt County Commissioners.

WE CORDIALLY INVITE THE FARMERS TO CALL AT OUR FACTORY AND INSPECT THESE TRACTORS AND HAVE THEM DEMONSTRATED. WE WILL PROVE TO YOU THAT YOU CAN HAVE THE SAVE EXPERIENCE OF MR. MAY.

THE PRICE OF THESE TRACTORS IS \$750.00 F. O. B. FACTORY. WE INVITE YOU TO GO TO MR. MAY AND HEAR FROM HIM PERSONALLY HIS OPINION OF THE FORDSON TRACTOR. THE FORDSON TRACTOR IS MADE BY HENRY FORD, THE MAKER OF THE FORD CAR.

MISS ELIZABETH BOST ENTERTAINS

Last night at the home Mr. and Mrs. H. A. Bost their little daughter Elizabeth entertained forty of her little friends at a delightful dance.

The house was most beautifully decorated with cut flowers and potted plants. The large and spacious porch had been arranged for the dancing.

During the dances delicious punch was served and at the conclusion of the dances an ice course was served.

Music was furnished by the Victrola. Little Miss Bost proved to be a most charming hostess and at a late hour the little guests reluctantly departed.

BLANKETS TO BE SOLD BY THE WAR DEPARTMENT

Yesterday Postmaster D. J. Whichard received the price list of blankets which the War Department is including in the sale of government supplies. The prices of the blankets are as follows: All wool, new \$6; all wool, reclaimed, \$5; cotton, new, \$3; cotton reclaimed, \$2.75. In bale lots of twenty-five blankets the prices are about 50 cents lower. An additional list of food supplies has also been received at the local office, which can be seen by calling at the office.

TO LOOK OUT AFTER

SLAUGHTER PEN OWNER

On account of the filthy and unsanitary conditions of slaughter pens around Greenville, it has been necessary to serve copies of the following regulations on the slaughter pen owners. The odors rising from slaughter pens have been much complained of by residents of the town.

Greenville, N. C.,
August 21st, 1919.

To all owners, operators or managers of slaughter pens located within the town of Greenville or within one mile of the corporate limits thereof:

You will take notice that the following rules and regulations governing slaughter pens will have to be strictly observed, under penalty of the law.

1. The slaughter pen and surrounding grounds must be kept in a sanitary condition at all times.

2. No waste products of the slaughtered animals shall be allowed to stand in barrels, boxes or other containers for more than twelve hours at any one time.

3. All heads or other waste bony structures shall be either incinerated or removed from premises within 12 hours after animals have been slaughtered.

4. All abdominal contents including maw and other entrails shall be either incinerated or removed from premises

within 12 hours after animals have been slaughtered.

All slaughter pens will be inspected by the county health officer or the sanitary inspector at frequent intervals, and warrants will be issued for all violators of the foregoing sanitary regulations.

This 22nd day of August, 1919.

P. J. CHESTER,
Pitt County Health Officer.

D. M. CLARK,
Mayor of Town of Greenville.

THE VALUE TO THE FARMER

of having his truck equipped with heavy cord pneumatic tires has not been fully understood by him.

Motor trucks must operate continuously in all weather. The oversize pneumatics grip a slippery road and prevent skidding. They permit speed, absorb road shocks, reduce fuel and repair bills, and make comfortable driving.

The thick, tough, broad-faced pneumatics on the Indiana Farm Truck wear long, insure greater traction surface, and in a sandy soil their buoyancy overcomes the heavy drag common to solid tires. Where solid tires would stall in snow and sand and mud the pneumatics have no trouble.

This cushioning feature is also planned to reduce the damage done to the truck and its loads by the severe vibrations and jars on solid tires.

brations and jars on solid tires.

The Indiana Farm Truck also has a standard wagon tread. It has ample road clearance in front, center and rear, and steers as easily as a touring car.

It can be loaded and driven in an open field and neither road nor weather condition affect its day-in and day-out usefulness.

The portable power units which go with the Indiana Farm Truck transform it into an efficient, powerful, economical power plant for operating all the belt-driven machinery that can be used on a farm.

The value of the Indiana Farm Truck, with these various convenient and labor-saving features, is inestimable to the farmer.

The Indiana Farm Truck is distributed in North Carolina by the Carolina Motor Co., of Statesville, N. C., on easy terms of payment.

AFR SESSION OF

(Continued from page one.)
receiving action in the session yester-
day morning, but as both suits received
the favorable attention and consid-
eration of the presiding officer, there
was little latitude for opposition, and
therefore, work continued until the
noon hour without the slightest inter-
mission or break. The additional two
cases made the divorce total for the
two days of this term total nine, each
individual suit receiving the desired
action, with severing of matrimonial
connections coming in as a fitting
climax for disrupted married life. Sev-
eral of the divorce suits were recently
instituted by colored people, but, how-
ever, part of them were also from
white persons, with each individual
something of a similar character for
reasons in demanding divorce.

The following cases were disposed
of in the session yesterday morning:
Virginia King vs. P. S. Simons, suit
for an account of \$115, judgment ren-
dered for \$13.02.
Eva Harris vs. Charlie Harris, col-
ored, divorce absolute. John McCot-
ter vs. Daisy McCotter, colored, divorce
absolute.

ZACK T. BROUGHTON, RALEIGH MAN, DEAD

Former Resident of This City Dies at Daughter's Home in Kittrell.

Mr. Zack T. Broughton, formerly a
resident of this city, died at the home
of his daughter, Mrs. David Pool, at
Kittrell, Thursday at 4 o'clock after a
protracted illness. The funeral ser-
vices will be held from the Taberna-
cle Baptist church of this city, this af-
ternoon at 2 o'clock. Rev. J. D. Moore
will conduct the funeral services, in
the absence of the pastor of the church.
Mr. Broughton was well known in
Raleigh where he made his home for
many years. He was a brother of the
late N. B. J. M. and Gaston Brough-

death was the last surviving mem-
ber of this family. He was a member
of the Tabernacle Baptist church
was also one of the oldest members of
Wm. G. Hill Masonic Lodge. Through-
out Eastern North Carolina. Mr.
Broughton was widely known through
his long experience as a tobacco sales-
man—Raleigh News and Observer.

Mr. Broughton was for several
years a resident of Greenville, engaged
as a tobacco auctioneer on the local
market. He made many friends dur-
ing his stay here.

tribute for that purpose. The commit-
tee appointed consisted of H. H.
Wright, B. W. Moseley, W. H. Nor-
ris, C. W. Hearne and B. B. Sugg.

This matter being disposed of, there
was some discussion of local telegraph
facilities, resulting in a motion to in-
vite the Postal Telegraph Company to
re-open an office in Greenville, and to
appoint a committee of three to assist
the company in securing a suitable lo-
cation for an office should the invita-
tion be accepted. C. W. Hearne, C. S.
Forbes and E. B. Crow were appoint-
ed on this committee.

The next matter discussed was the
condition of the yard around the At-
lantic Coast Line freight depot, and the
secretary of the chamber was on mo-
tion instructed to write the officials of
the railroad requesting them to make
such improvements to the yard as will
render the hauling of freight to and
from the depot less difficult.

The secretary was also instructed on
motion to communicate with the may-
or and aldermen of the town relative
to the availability of some additional
street aving with the view of ascer-
taining if conditions are such that
this can be done.
