

## SENATE DEBATE IN TREATY HAS RISEN TO HOTTEST POINT

### Senator McCumber Denounces Fall's Statement as Absolutely False. DENIES HE JUSTIFIED ACTION OF THE GERMAN NEW MEXICO SENATOR CHARGES FELLOW REPUBLICAN OF DEFENDING SHANTUNG.

(By The Associated Press.) Washington, Aug. 28.—Senate debate on the peace treaty rose to the bitterest point today since the document was presented by President Wilson. Facing at a distance of a few feet, Senator Fall, Republican, of New Mexico, who had just asserted that Senator McCumber, Republican, of North Dakota, had in his address yesterday on Shantung defended on the ground of justice the award to Japan of "goods stolen from China," the North Dakota Senator declared the assertion was "unqualifiedly false" and that he had not justified Germany's action. This brought a quick retort from Senator Fall that Senator McCumber had defended the Shantung provision and had claimed that Japan had the right to take Shantung. By this time both Senators had raised their voices to a high pitch and were pounding their desks. Senator McCumber, replying shouted to Senator Fall that Japan derived the right to Shantung under a solemn pledge to return it, "but you leave that out of your statement," referring to the assertion regarding Japan's unqualified right. Previously Senator Fall who was defending the action of the Foreign Relations committee in adopting an amendment to give German rights in Shantung to China instead of Japan, was interrupted by Senator Nelson, Republican Minnesota, who declared that if the committee had made "mince meat" of the treaty the Senate would brush the action aside. When Senator Fall said he would not enter into discussion with the Minnesota Senator because of the latter's age, Senator Nelson responded that the Senator could consider him "the youngest man in the Senate," and as one who matter.

## IMPROVEMENT REPORTED IN STRIKE ALONG THE PACIFIC

Washington, Aug. 28.—An improvement in the strike situation on the Pacific Coast is reported to the railroad administration today although the traffic is still tied up at Los Angeles, and embargoes are in effect. It is understood that the railroad brotherhood officials have set a time limit for men to return to work and the railroad administration is willing for action by the union before taking steps in operating the lines. Gompers went into conference here with 15 representatives of the railroad union, discussing President Wilson's decision that there should be no general increase in the employees' wages while the government is combating the high cost of living.

## CARNEGIE'S WILL MADE PUBLIC WIDOWS SHARE IN PROPERTY

New York, Aug. 28.—Carnegie's will was made public today. It is estimated that the value of the estate will be between twenty-five and thirty million. All works of art and real estate are left to his widow. Annuities of ten thousand dollars are bequeathed to former President Taft and Premier Lloyd George, annuities of five thousand to Mrs. Theodore Roosevelt and Mrs. Thomas J. Preston, widows of former presidents.

## SEVERE SENTENCE IMPOSED ON FOUR WHISKEY DEALERS

### Criminal Session of Court Deals Severely With Old Offenders of Law. WHISKEY TRAFFIC GETS EFFECTIVE BLOW, SAID

Stirring Scenes in Court Room When Sentences Were Passed in Cases. The liquor traffic of this section if the country was given several effective blows in yesterday's criminal session of Pitt county superior court in which sentences in deferred cases of the earlier part of the week were taken up during the afternoon session with result that practically five men who have been connected with the traffic in various parts of the county were given road and jail sentences for a period of one year and others of eighteen months' duration. Several pathetic scenes transpired during the evening session when the wives and kindred of the liquor traffic members gave way under the strain in frequent examinations, resulting in much weeping from time to time and the subsequent fainting of one woman whose husband was given an 18 months road sentence after being found guilty of connection with the traffic earlier during the week with sentence being deferred until yesterday. The entire five cases have featured largely in the sensational captures effected by the sheriff of the county and his crew within the past several months.

## TO TAKE TURN ON DOWNWARD PATHS

### Movement Has Not Gathered Momentum for Immediate Purchases, Is Said. DECLINE RATHER SLOW BUT WILL GAIN RAPIDLY

Change for the Better Is Expected at An Early Date, It Is Thought. Washington, Aug. 28.—Prices are beginning to turn downward in various parts of the country, but the slump has not yet gathered momentum sufficient to affect purchases being made for immediate use, according to reports to the department of justice. Attorney General Palmer asked today how soon results could be expected from the campaign to reduce the cost of living, the outcome of which railroad employes have been requested to await before pressing demands for wage increases, said all the government wanted was a fair chance to show what could be done to take the artificial inflation out of the market. He said officials were well pleased with the success so far attained and that cumulative results were expected when congress enacts amendments to the food control law, by which criminal penalties can be imposed on profiteers and hoarders. "We hope the public will begin to reap the benefit of our efforts before long," Mr. Palmer said. "For instance, we are making progress in obtaining promises from shoe manufacturers as to fixing a limit beyond which prices shall not go."

## FRANCE HAS GOOD FUTURE IN GREAT NATIONAL WEALTH

### Nine Million Horse-Power in Water is Given Out by the Census.

Paris, Aug. 28.—Nine million horse power is the total capacity of the natural waterfalls of France, according to a complete census made by Monsieur Jules Cels, Under Secretary of Public Works. Of that total 750,000 horse power was utilized before the war and about a half million has been put in operation since 1914. The Chamber of Deputies is now discussing a bill regulating the cession of water power privileges which, it is hoped, will facilitate the utilization of the remaining seven and three quarters million. The advantage France may draw from full exploitation of this rich resource in power appears clearly when it is recalled that Germany has only 1,500,000 horse-power in hydraulic resources, that coal costs three times as much as it did before the war, and that the French water power corresponds to a total annual coal consumption of seventy-eight million tons-eighteen million tons more than France consumed annually before the war. France requires twenty million tons of coal yearly in excess of her own production, at its maximum. At the present cost, the purchase of such a quantity means the payment abroad of billion two hundred million francs annually, materially aggravating the situation of French exchange. The programs of utilization of the unimproved water power comprise the manufacture of nitrate fertilizers so much needed to increase agricultural production in France. NEW MEXICO ELMINATES SEVERAL PETROLEUM LAWS. Mexico City, Aug. 28.—The petroleum committee of the senate has presented a report on the legislation elimination the features of the existing law which were found objectionable by American and other oil interests.

## OTHER CITIES ARE TO BE CLEANED UP AT AN EARLY DATE

### Attorney General Palmer Says Prohibition Law Will be Enforced. PLANS TO GO STRONG AGAINST THE TRAFFIC

Will Strictly Enforce Law in Localities Requiring Urgent Action. (By The Associated Press.) Washington, Aug. 28.—Recent arrests in New York for violation of the prohibition law will be followed immediately by "clean-ups" in other cities Attorney General Palmer announced today. He declared that liquor dealers who thought the law enforcement activities of the department of justice had been laid aside for the high cost of living investigation would be shown that they were mistaken. "Some cities opened wide when it was thought we were so busy with reducing prices that we could not see anything else," Mr. Palmer said with a smile. "We are going to change that condition. The people out where the fields are green are obeying the law because it is the law, while in the cities there apparently is an attitude that prohibition will be evaded. We will show them differently." Mr. Palmer expressed the opinion that the chief offenders against the prohibition law would be found to be saloon keepers who have maintained their organization intact in the hope of the raising of the war-time ban before constitutional prohibition makes the country permanently dry. Enforcement of the war prohibition is being conducted entirely by the Bureau of investigation of the department of justice. Constitutional prohibition, however, will be enforced by a staff of men in the department of justice and the Treasury Bureau of Internal Revenue entirely separate from the work of those governments agencies. Complete divorcement of prohibition work from all other activities is planned.

## REVOLUTION BREAKS OUT IN MONTENEGRO, IS STATED

London, Aug. 28.—A revolution has broken out in Montenegro and the Servians are making a determined effort to suppress the fighting which has occurred throughout the country. A recurrence of the Balkan trouble is predicted in statement to the Associated Press from authoritative sources. The Montenegrins have cut a railway between Virpazar and Antivari on the coast. The Servians are receiving reinforcements but not meeting with success in putting down the revolution, the reports indicate. The Montegrian spirit it is reported is thoroughly aroused against the proposed union with Serbia.

## REPORT SAYS HUNGARIAN GOVERNMENT NOT FORMED

Vienna, Aug. 28.—A Budapest report states that a new Hungarian government has not been formed. Former Premier Freidrich declares that majority of the people want him as leader.

## ARMY REDUCTION OF HIGH COST OF LIVING PROMISED

Washington, Aug. 28.—An army reduction in the high cost of living is promised by the attorney general following a promise of the shoe manufacturers to fix maximum prices for footwear. Palmer has warned the public against extensive buying of necessities, saying this would needlessly reduce the supplies and thereby cause the continuance of high prices. The river has got in condition for fishing again. The nights are taking on fall coolness. If you wish to have your measure taken by expert tailors, attend Harry G. Morgan's opening August 29th, 30th at Greenville Tailoring Co.

## THE NEGROES ARE ASKING AN AMENDMENT TO PEACE TREATY

Washington, Aug. 28.—Delegation of negroes are asking for an amendment to the peace treaty guaranteeing racial equality. It was told the senate foreign committee today that serious trouble might be expected unless the negroes are given better treatment in United States. The kind of trouble was not specified nor any particular section mentioned. Two expert tailors will be with Harry G. Morgan at his tailoring opening at Greenville Tailoring Co., Aug. 29th, 30th. **LOCAL TOBACCO SITUATION.**  
THURSDAY, AUG. 28, 1919

**WALT MASON CONVERTED BY THE SALVATION ARMY.**

Walt Mason, one of our best beloved poets, has been converted by the Salvation Army workers in Los Angeles, California. Mason, who is a genius, has tramped every section of the country. He has been friendly with the Salvation Army for a long while, but recently Corps No. 1, of Los Angeles was engaged in street services as Mason passed by and the call of the Army drum was too much for him, and he became converted. Brigadier Boyd, of Los Angeles, is loud in his praises for Walt Mason.

In his characteristic style, Mason wrote the following poem about his conversion by the Salvation Army.

"One night while walking down the street, my mind on pleasure bent—I sought the pleasures of the world, but my soul was not content—I saw the bright lights of the theatre: they beckoned me to come, as did the music and the song in the place where they sold rum. I stepped into a pool hall and found a vacant chair, and thought that I would rest a bit and drive away dull care; but my mind it still persisted in turning memory sod, reminding me of the time when I was winning glory for God. I couldn't find that rest and peace—satisfaction would not come when suddenly I heard the sound of the good old Army drum. Its voice it called me closer, and I found an open-air, and once more I could see myself kneeling there in prayer. For I had been a soldier, and known the Saviour's smile, but now I was a deserter—a sinner weak and vile. But, in spite of all my meanness, I went to the hall that night. My intentions they were proper—I meant to do the right. But a deserter is a coward—always ready with some excuse—or perhaps a careless person, and wonders, What's the use? But the prayers of God's faithful people won my hard and stony heart, and at the front that night I made another start. And today—praise God!—I'm fighting; Jesus took me back, and now once more I'm travelling in the good old Calvary track."

She knows what will please them and will hold their attention from the beginning of her stories until the end.

This is a splendid opportunity for the children to hear good stories and every mother should avail herself of the opportunity and send her children to hear Mrs. Ranson Friday evening.

**FARMER FRIENDS**

We understand that some of the warehousemen are advising the farmers to sell this crop as soon as possible. This is bad advice. The parties giving it either are not posted as to conditions or are doing it for a selfish motive. The writer has just returned from the "Old Belt" and from what he could see and learn the crop there is very short both as to quality and pounds. This means that there can be but a small per cent of it cigarette tobacco. For the first five months of 1919 there were manufactured in the United States one billion one hundred million more cigarettes than in the five months of 1918. These were made in the United States in eleven months of 1918-19 thirty-six billion cigarettes. The government report shows one hundred million pounds less Virginia and Carolina tobacco on hand July 1st., than there was on hand January 1st, 1918. The largest part of this is fillers and granulating stock. The American and foreign markets are bare of cigarette tobacco and the consumption of cigarettes is growing in all parts of the world.

The tobacco grown in this section of North Carolina for the most part is cigarette tobacco. You know what this section crop is this year.

The South Carolina markets averaged last week around 28 cents, which is much higher than it was two weeks ago, for now they have not the color they then had. Knowing the situation as above stated, you are bound to agree that it will be nothing but foolish to rush this crop on the markets, when the labor situation is as it is at present; for if a buyer can not take care of his purchases, he will not pay his limits even though he has the best of orders.

In our opinion prices on all tobacco except the very "dog tail" will be higher around and after Christmas than it will be before and our advice is to sell slowly, avoiding the "cluts" if you want full value for your tobacco.

Those of our friends who have followed our advice in past years have made money and we see no chance for any decline but look for an improving market throughout this season.

GENTRY & GORMAN.

### SEVERE SENTENCE IMPOSED ON FOUR WHISKEY DEALERS

(Continued from page one.) and it is possible that the occurrences have created more than unusual attention from the fact that all of the participants are white people, well known in their particular localities. The court did not show the slightest tendency of becoming lenient in a single one of the cases, and consequently, every man guilty of being associated with either the manufacture, sale or transportation of whiskey was given adequate jail and road sentences without show of mitigation at any time throughout the hearings.

The first case of the day was that of T. H. Bowen and wife, who were recently arrested by county officials charged with selling whiskey. The case was heard earlier during the week with sentence being withheld until yesterday. Bowen was given 12 months on the road with his wife being placed under a \$500 bond for her appearance at each term of court for a period of two years to answer for good conduct and behavior.

The next case was that of W. L. Simon, of Bethel, who was also arrested some time ago for selling liquor, and resisting officers who made the arrest. He was given 18 months on the roads.

Ransom Mobley and son H. T. Mobley, were arrested several months ago for manufacturing whiskey stills and selling whiskey were the next given hearing during the evening. Young Mobley was given two years on the road, with judgment being suspended in the case against the father on account of his old age.

M. J. McLawhorn, of near Ayden, was given 18 months on the road for selling whiskey.

Willie Atkins, colored, charged with larceny, was given 12 months on the roads to be hired out to Mr. G. A. Clark.

Ola Atkinson, charged with assault and disturbing religious worship, was given 10 months on the roads.

GREENVILLE AVERAGED MORE THAN ANY MARKET IN NORTH CAROLINA LAST YEAR.

Gentry and Gorman are the Leaders of Greenville  
 The Market will open September 2nd.

WE EXPECT VERY LARGE SALES THE FIRST DAY, AND THEREFORE ADVISE SOME OF THE FARMERS TO DELAY SELLING UNTIL THE LAST OF THE WEEK AS WE BELIEVE PRICES WILL THEN BE ESTABLISHED AND HIGHER. WHEN YOU DO SELL, DRIVE TO GENTRY AND GORMAN'S AND YOU WILL GO HOME SATISFIED.
