Senate Hurriedly Sweeps the Treaty Amendment Aside by Unparalleled Vote

MAJORITY OF CHANGES MET INSTANT DEFEAT

Several Days to Pass Yet Before Another Vote Will be Taken, Said.

(By The Associated Press.)

New York, Oct. 3.—The King and Queen of the Belgians with Prince Leopold, heir apparent to the throne, were the guests of the United States in New York tonight. They have come as his majesty expressed it to voice their gratitude and that of their people for the generous aid given them by this country in years of direct need when their nation was threatened with extermination.

Their first hours on American soil were spent quietly at their hotel, resting after their voyage across the Atlantic and celebrating their nineteenth wedding anniversary. By their express wish their official welcome to New York will not begin until noon tomorrow. At that hour will start an arduous round of receptions and sightseeing which eventually will take them to San Francisco and back to Washington, where they will be guests at the White House.

The Belgian royalty were given the official freedom of the United States by Vice President Marshall when they stepped ashore from the transport George Washington on the government pier at Hoboken at noon yesterday.

As the George Washington was warped into her berth, a fanfare of trumpets proclaimed the coming of the King. Dressed in the uniform of a lieutenant-general in the Belgian army, with not a single decoration on his breast, he walked unattended down the gang plank.

Behind him, seeming scarcely half his height, came Queen Elizabeth. She wore a long traveling coat of white broadcloth over a white gown, a white fur stole and a close-fitting hat with a white chiffon veil.

Washington, Oct. 3.—The senate swept aside in quick succession today thirty-six of the forty-five amendments which had been written into the peace treaty by the Foreign Relations Committee.

The smallest majority recorded against any of the committee proposals was fifteen, and the largest was twenty-eight. All of the amendments considered had been introduced by Senator Fall, Republican, of New Mexico, and were designed to curtail American participation in European settlements resulting from the war.

Of the nine amendments yet to be acted on, six relate to the Shantung section, two propose to equalize voting power in the League of Nations and one would limit American representation on the reparations commission.

In the absence of a definite agreement for disposition of these proposals, Senate leaders thought that the debate might run on for several days before another roll call is taken.

Throughout the day's voting the Democrats presented a solid front against the amendments except for Senators Gore, of Oklahoma, and Thomas, of Colorado. Seventeen Republicans, on the other hand lined up against the first committee proposal to be considered and most of them stood with the Democrats on all succeeding roll calls.

Many of them announced they were for reservations which they believed would cover the same ground without endangering the treaty.

Palo Alto, Oct. 3.—"If the League of Nations is to break down, we must at once prepare to fight," Herbert Hoover, formerly Economic Director for the Supreme War Council, told the students of Stanford University in an address he delivered here tonight.

The peace treaties, he said, "cannot be carried out without the league. If the league of nations, we will have if the balance of power is to supplant the league of nations, we will have torn asunder the only hope that Europe will not break into further wars of races, classes and combinations that will take civilization back to the middle ages."

"I am confident that if we attempt to revise the treaty we shall tread a road through European chaos. If we manage to keep our soldiers out of it we will not escape fearful economic losses."

"The Allies may, themselves, revise this treaty without us and then assemble a council of nations of their own in an endeavor to solve the problems of Europe. It would be a council of Europe and in the midst of these terrible times, considering the debts they owe us, the material they must have from us or starve, I would rather that we be represented therein less it become a league of Europe against the western hemisphere. A peace without us means more army and navy for us, the old treadmill of taxes and dangers for us."

Mr. Hoover said that few people

The first regular meeting of the Woman's Club for the season of 1919-20 was held Thursday afternoon in the High School auditorium, with good attendance.

Satisfactory reports were made by the officers and chairmen of departments, and the programs offered by the departments of civics and social service, and health and education are especially attractive. Every club member is urged to connect herself with at least one department so that she may have a share in some specific work.

It was reported that our Home Demonstrator, Miss Bradsher, will conduct several meetings for the department of Home Economics. Three new members were admitted. Reports of work done during the summer, which the club was not holding regular sessions included the opening of the public rest room, the contribution of \$22.25 to the soldiers hospital at Otter for special sick soldiers, and the plans made for the Redpath Lyceum Course to be given during the winter.

The rest room was opened in the Chamber of Commerce apartments on July 16th, the day of the Home Coming Celebration. This room has been constantly used by women and children, mostly from the country, ever since it was opened, and has afforded grateful rest and comfort to many a tired mother which waiting for her companions to transact business. The Woman's Club furnished the room and keep a

Some little discussion was brought about concerning the promiscuous scattering of handbills along principal thoroughfares of the city and the placing of cloth signs in front of stores in congested business centers. The objectionable features were considered at length but no action was taken; and the matter was turned over to the ordinance committee for future consideration.

It was moved that two notes of the city for \$10,000 each should be renewed for six months.

There was only a slight change noticeable in prices this morning. Superior grades were clinging tenaciously to the high price mark established during the earlier part of the season with little fluctuation in evidence. A general mixture of grades appears to hold supreme sway and while there is much good tobacco here today, it is apparent that the ordinary grades are in ascendancy. No change has occurred in prices for inferior grades, in

Mr. Hoover said that few people

REFLECTOR'S BALL REPORTS CREATING GENERAL INTEREST

BRAZIL IS PROVING BIG DRAWING CARD TO OTHER NATIONS

EXAMINATIONS FOR TEACHERS ARE TO BEGIN OCTOBER 7

J. W. HIGGS HURT WHEN RUN DOWN BY SPEEDING MACHINE

Inning Telegraphic Flashes of Big League Games Drawing Crowds.

The Reflector's telegraphic reports of the world series ball games during the past two days have created no little interest among fans of the city, and as a result are to be found gathered around the bulletin board every afternoon, watching interestedly the outcome of every inning as flashed from the ball park to this city. Every game throughout the entire series will be given from day to day, including the game Sunday afternoon, which will prove the concluding contest in the event Cincinnati keeps up the winning streak of the past two days. Five straights will win the championship, and unless Chicago makes a little stronger contention than in the last two days, there is very little doubt but what the "Red Stockings" will walk away with the banner.

Growing Commercial Importance of Country Attracting Wide Attention.

Rio De Janeiro, Brazil, Oct. 3.—That countries other than the United States realize the growing commercial importance of Brazil and the advantage of establishing new or more extended relations with the largest and perhaps the richest of all South American countries is indicated by the large number of foreign concerns establishing offices or agencies here, or seeking Federal permission to carry on business in Brazil.

Every steamer from Europe and the United States brings its quota of business representatives who come prepared to embark in business at once, or to survey the situation and decide upon the desirability of entering the field.

During the last few months an unusual number of new concerns have been authorized to do business here. These include not only companies organized in Brazil with both local and foreign capital, but also many organized and financed in the United States and Europe.

The new enterprises will cover wide fields of activities, ranging from banking insurance and shipbuilding to the establishment of seaside resorts. The greater number of them, however, will engage in the business of importing and exporting. One of the new companies is organized with Lisbon and Oporto capital amounting to \$6,000,000 and proposes to foster trade between Brazil and Portugal and her colonies in West Africa.

Mr. T. R. Freeman, of Raleigh, is among the visitors here today.

Examinations Will Be Held at Each County Seat Beginning on 7th.

The October examinations for those applying for certificates to teach in the public schools will be held at each county seat next Tuesday and Wednesday, October 7th, and 8th. The examination will embrace two days. In Pitt county the examinations will be held in Greenville, the white teachers reporting at Room 13, East Carolina Teachers' Training School, and colored teachers at the colored graded school building. The first day's work will begin promptly at 9:30. Applicants are expected to bring only pencil and paper.

This is the regular October examination. The next examination will not be until April.

Applicants for county second grade certificates will report at same time.

Local Man Painfully Injured by Unknown Autoist Yesterday Evening.

Yesterday afternoon while riding his bicycle on Dickinson avenue, near his home Mr. J. W. Higgs, of this city, was knocked from his wheel by an unknown automobile and received painful injuries.

Several cars were passing at the time of the accident, and it isn't yet known who struck the bicycle. People who saw the accident say that a Ford car driven by Fred Hill, of Greene county, stopped at the cotton mill and changed tires, after which the car went down Dickinson avenue at a rate which far exceeded the speed limit. It is thought that it was the Ford which ran into the bicycle, so Mr. R. E. Currin has been sent in search of Hill with a warrant for his arrest.

Mr. Higgs had one finger broken, head cut, and his left leg badly bruised. He spent a quiet night last night and is resting well today. It is thought that although his injuries are painful they are not serious, and it is hoped by his many friends that he will soon be out again.

ITALY READY TO RATIFY PEACE TREATY WITH ALLIES

Paris, Oct. 3.—Since parliament dissolved Italy will ratify the treaty between Allies and Germany by royal decree, assuring prompt exchange of ratification which will make treaty effective, according to the Echo de Paris. No sessions of supreme council will be held today or tomorrow, it was announced this morning.

MILITARY CONTROL FULLY ESTABLISHED AROUND ELAINE

Helena, Ark., Oct. 3.—With military control established at Elaine and other villages where negro population predominates and where disorder was rampant during the last two days, the task of pacification is declared well under way today. Two negroes who failed to obey command of military patrol, were this morning fired on by soldiers near Elaine and killed, another being wounded, and a fourth arrested. While casualties as result of the clashes include five dead and five wounded. Known negroes dead is fifteen, with other bodies reported in cane-brakes and underbrush about Elaine where most of the fighting occurred. More than two hundred negroes have been arrested by soldiers and are under guard at Elaine. A large amount of literature tending to show that outbreak was due to propaganda circulated among negro tenant farmers making rescue promises if negroes should organize and arm themselves, has been seized by authorities.

NO IMPROVEMENT NOTICEABLE IN CONDITION OF PRESIDENT

Washington, Oct. 4.—No improvement in the president's condition has been reported this morning and Greyson has held another consultation with Rear Admiral Sitt, chief of naval medical school and Dr. Ruffin, Mrs. Wilson's family physician, who participated in yesterday's consultation with Dr. Doremus, of Philadelphia. The president slept some last night. With him is a trained nurse who is assisting Mrs. Wilson in caring for him. There is no temperature and his heart action is good, it was said at the White House.

Mrs. William G. McAdoo, Mrs. Francis Sayre, daughters of the president, are enroute to Washington, it is said. While members of the family were not summoned, the daughters expressed a desire to come. Miss Margaret Wilson, third daughter, is now in Washington.

STILL HIGHER

The Liberty was blocked out Friday, which will give it first sale Monday, the 6th.

The market is in fine shape now, and prices are higher than at any time this season, some grades being from 8 to 10 dollars per hundred higher. Our Tuesday's sale averaged \$57.30 which is the highest average the Greenville market ever made.

Carry your next lead to the Liberty and you will get the highest sale you ever made. Don't forget, First Sale Monday. Phone 395.

TO BAPTIST OF PITT COUNTY

Dr. George Pruett, of Dallas, Texas, south's greatest preacher will speak at Raleigh Tuesday, October 7th, 3:30 P. M. Miss Kathleen Mallory, Carolina Secretary of N. W. U., Baltimore, Md., will speak at Raleigh Tuesday, October 7th, 11 A. M.

Make your plans to hear these gifted speakers who will speak in the interest of the \$75,000,000 campaign.

QUINN-MILLER & CO

OPENS WONDER PLACE

Automobile Road to Span Ten Thousand Smokes.

Will Give Tourists Access to Territory Where Nature Freaks Are Seen.

Cordova, Alaska.—Completion of a projected automobile road of 18 miles up the beds of "painted streams" is expected to open to tourists from all parts of the world the valley of Ten Thousand Smokes, in the Mount Katmai region of Alaska, about eighty miles north of Kodiak island.

Enterprising motion picture producers, following scientific expeditions into the strange valley, have returned here with films of the myriad "smokes" and with reports of a shorter and easier route into the district.

When the Katmai volcano erupted in 1912 and covered thousands of square miles with ash and pumice, killing all vegetation and game, and wiping out more than one settlement, it was regarded as a great calamity. But the eruption uncovered a strange formation which is declared to be one of the wonders of the world.

The "smokes" literally thousands of them, are clouds or jets of steam under various pressures, emitted from holes and remarkably colored caverns in the solidified volcanic clay. The entire valley, which is shaped somewhat like a clover leaf, seems to be gradually solidifying. The Indian who recently guided a motion picture party said many square miles, covered with semi-liquid hot mud a year ago, are now crossed without difficulty.

In one of the three arms of the valley is a "live" glacier, at the foot of which is a beautiful cobalt-blue lake of hot water. In another arm is the Falling mountain, down whose face roll continually huge boulders broken off near the snow-capped peaks by variations of temperature.

Besides the scenic possibilities the valley is said to possess vast deposits of virtually pure sulphur, arsenic and other chemicals. Black sand was found in the many streams indicating possibilities of gold.

Rheumatism Was Needle and Thread in Hip

Cape Girardeau, Mo.—Mrs. Helen Curry of this city has been relieved of a long-standing pain in her hip by an operation, in which a needle and thread were removed.

Some months ago she began to notice pain in her hip. She consulted several doctors, who treated her for rheumatism. An X-ray revealed the presence of the needle and thread. How they got there is a mystery.

EVERY COACH A SMOKING CAR

English Railroads Make Concessions to the Increasing Use of Tobacco by Women.

London.—So many Englishwomen have become confirmed smokers that in recent months railway employees have hesitated to enforce the rules against smoking in certain carriages, and it has come to be accepted that if the women passengers do not object every compartment becomes a "smoking car."

The Great Eastern railroad, whose general manager is Gen. Henry Thornton, formerly of the Pennsylvania and Long Island systems in America, is the first of the railroads to change the existing order and move for a return to prewar conditions.

By a recent order only such compartments as are designated "smoking" can be used for that purpose, and even though all the passengers may consent, no concessions are made to women. If they want to smoke they are to be referred to regular smoking compartments.

\$100-A WEEK FOR YANKS HURT

Colonel Woods Tells of Opportunities for Disabled Service Men in Shipyards.

New York.—Men disabled in the United States service during the world war can become proficient shipworkers after a short apprenticeship and earn salaries ranging from \$75 to \$100 a week, according to a statement issued here by Col. Arthur Woods, assistant to the secretary of war.

Colonel Woods, who is in charge of the re-employment of former service men, said that the best opportunities were provided by the Submarine Boat corporation of Newark, N. J., which offers from 46 to 56 cents an hour to men while they are learning the shipbuilding trade. Members of the shipbuilding school become competent workers within six weeks to two months, Colonel Woods declared.

Men interested are asked to communicate with Colonel Woods at the war department, Washington.

Indian Gives Girl Saddle.

Tynfall, S. D.—What without doubt is one of the finest and most valuable saddles in the whole Northwest has been presented to Miss Anna Kirk of this city by an old Indian friend. The saddle is entirely covered with beads, red, white and blue, fashioned in different designs. The saddle shows wear, and evidently had been in use in the tribe for some years. The work on it indicates that many months and perhaps years, were required to make the saddle and fashion the beadwork designs upon it. Miss Kirk refused an offer of \$150 for the saddle, which thought to be one of the finest examples of Indian work in existence.

Poisoned Barley for Rodents.

Los Angeles.—Four tons of strychnine-coated barley were received recently by County Horticultural commissioner Ryan to be used in a war upon rodents, especially of the squirrel variety. The campaign against the rodents will begin at once, the district between Los Angeles and Long Beach being attacked first. Poison will then be spread over the grain and fruit growing sections from the San Gabriel river to San Bernardino county lines.

GERMANS TRY TO EVADE TAX

Several Wealthy Families Have Arrived in North Slesvig to Escape Levy.

Copenhagen.—Several wealthy Germans have arrived in North Slesvig trying to escape the high taxes and confiscation of property in Germany. According to the peace treaty Denmark need not make these persons Danish subjects, and the German government has declared harsh measures are to be taken before the evacuation of North Slesvig to hinder flight from the consequences of the war.

FAT POLICEMAN IS DISAPPEARING

New York Officers Who Fail to Keep Fit Labeled Incompetent.

MUST BE TRAINED ATHLETES

Gotham School for Policemen Uses Same System of Training as is Employed at West Point—Schooling is Thorough.

New York.—The day of the fat-footed, obese copper is waning. The New York department officials label all men who do not keep themselves in proper physical and mental condition as incompetent, and as a result the last decade has witnessed a change in the Eastern city's policemen who, instead of being impediments to themselves and the force, are athletes, able to run when they have to catch a criminal.

In the inspection of the New York police system, the aldermen of the Chicago city council police committee, who have been cherishing a dream of establishing a police college in Chicago, learned several vital particulars in which the training of policemen for the Chicago department can be improved.

The details of the operation of the school were gleaned from Inspector James O'Brien, who, despite his youthful appearance, has been a member of the department for 27 years. In demonstrating the agility his own system of physical training has given him, the inspector stood stiff-kneed and put his cleaved fists against the floor.

No Value Unless Physically Fit. "No policeman is of value to the department unless he is physically fit," said the inspector. "The system of training in our school is the same as that employed in West Point, including boxing, wrestling, jiu jitsu, wall climbing, the proper method of walking, the manual of arms and target practice.

No candidate can take the course until he has first passed mental and physical examination. He is then placed on probation for six months, three months of which is spent in school. Aside from bodily training the men are given intensive courses in first aid to the injured and instruction in the laws, ordinances and regulations of both city and state. Experts in the department are assigned to give lectures on their subjects, including detection of crime, the operations of criminals, anarchists and bolsheviks.

Given Incentive. "The length of time in the school is none too long to learn all that a policeman should know when he undertakes the task of becoming the public's protector. Prior to graduation the records each man has made in all studies are carefully gone over, and the highest man is awarded a regulation revolver. This is an incentive for them to do their best in school.

"After the preliminary schooling the ordinances of the city provide that the commanding officers of each precinct continue the instruction of officers, and every day a few minutes is devoted to calisthenics under the leadership of a sergeant.

"The transformation from fat officers to athletes in the New York department has been going on for ten years. Every possible encouragement is given the policeman to keep in first-class condition."

FOR SALE.

FRIDAY, OCTOBER 3, 1919.

We would certainly be glad to see some organization begin promoting a fair to be held in this county next year, for if there is one thing Pitt county needs to insure more rapid development for the future, it is such an attraction. Other counties have realized the splendid advantages direct ly resulting from the fairs from year to year, and if they experience any direct benefit, we are at a loss to understand why the matter has not been given more serious consideration by business men of the section. It is by far too late to contemplate such an endeavor for the present season, but it is not too soon in the least to begin preparations to bring about the occurrence for the approaching year. It is to be hoped that some organization will immediately begin to advocate a fair association so that ample time will be given in securing appropriate grounds and necessary attractions to make the event complete. Pitt county is experiencing great loss every year the fair is not given attention, therefore, it is up to the thinking men of the county to get behind the movement and see that it become a reality for next year.

It is certainly pleasing to note that Mexico has at least endeavored to express the American people of its sincerity by denying former statements accusing its troops of firing upon American aviators flying over that section of the country. The statement has just been presented to American headquarters, and while being serious consideration, of course, it is indeed a pity that the country could not have forwarded a denial before this late hour and saved itself from being subjected to deserved criticism. There is little doubt now that there is not something wrong in that locality, and even in the face of such a refutation as has been presented, we are led to believe that the situation should be investigated so thoroughly that not a single incident connected with the occurrence will be left obscured. There is all the reason in the world for such action, and if it is not taken, the responsibility of future depredations will rest solely upon the shoulders of governmental officials.

The announcement that the Vienna cabinet will not sign the peace treaty probably does more to accentuate the

Italian situation than any other one thing occurring in some time. In fact, the attitude is so absolutely contrary to what has been expected through the change in governmental officials that other nations are somewhat puzzled over the outcome of the situation. It is true that Italy is completely disrupted without the slightest prospect of relief at any early date, but it is also certain that if the treaty had been accepted action would have been taken to relieve the social unrest gaining in intensity from day to day. Prolonging the issue will have very little effect with the present terms of the treaty, and time alone will prove the correctness of the statement.

It is certainly desirable that some of those men who spend a greater portion of their time in determining the price of onions would come out and put some of their surplus effort in solving the high cost of living, for if there is any one thing at this time imperatively demanding attention, it's extortionate prices charged for the necessities of life. Of course, we do not mean to assert that there is any profiteering going on—not in the least, but we do wish that some real reliable men would get out in the center of high prices, square his shoulders, ball up his fists and go to it. Whether or not this would accomplish very much is not known but it is assured that the results would be just about as good as those derived from recent investigations. And everybody knows about that.

The reports coming from the various schools throughout the city are more than pleasing to those who have been watching the development of all branches of the work during the past several months. Superintendent Swanson and faculty are doing everything within their power to make the year a notable success, and if they should receive the proper encouragement from parents there is very little reason why Greenville should not directly realize more from the year's work than any other town of the size in this part of the country. Co-operative effort is going to be an indispensable asset in bringing this about, and for that reason, it is hoped that all persons will do everything possible to assist the faculty in making their endeavors the greatest possible success.

It is certainly a matter of no little interest to note the indecision of both factions connected with the steel strikes in progress in various parts of this country, for at this time both sides are claiming an advantage with even the manufacturers persisting that they have a majority of the workmen still on the job. It is to be hoped that the latter statement is true, for if so, there is not the slightest change of the great strike continuing for any great duration. Little disorder has been reported as a result, but then, there is never any telling when eventualities may arise from which many days will be required to restore order as a result of the restlessness. The only alternative open to the owners is to continue with the same demeanor and when at last the spirit has been broken greater success will be in store for the future.

With such prominent men as General Pershing and Admiral Simms discussing "the meaning of the war to the church" at a convention of delegates of the Episcopal church to be conducted in Detroit this month, there is every reason to expect that the meeting will terminate with unusual success in every way. If there are men more able to discuss such an important subject we are at a loss to know where they are to be found as both played a conspicuous part in the past great conflict with Germany and are fully informed regarding every fact pertaining to the war.

ing to the eventual occurrence. The sessions will certainly prove interesting, and will undoubtedly mean much in the future work of the church throughout that section of the country.

If you are of the boosting kind of fellow indispensable to commercial development of every city, why not boost the local chamber of commerce and boost just as much as you please. Members of this organization, however, are doing something else besides boosting, for they are accomplishing more in developing every interest of the city than any other organization of the kind in this part of the state. See to it that you get in action with the progressives—join the chamber of commerce and watch Greenville grow.

There are hundreds of men who fuss and fume over the fact that they use just a little more rouge than ordinary getting her pretty face ready for some social function or other, when, in former days, she might have pined on the whole box and he would never have known the difference. Strange how intelligence along certain lines of feminine toilet deprived ignorance of its real bliss, isn't it, but as it all comes along in married life what's the use of worrying—everything gets pretty well informed in the long run.

You may be a long ways from home, without a cent, no where to rest your weary head, but if you happen to be in Greenville and have a desire for real honest labor—opportunities are unlimited. Business of every description beckons to the young business man throughout every part of the city and if you are constructed of the right kind of stuff, you can just bet your last dollar that you can get everything coming to you if you know how to keep it when it gets in your possession.

HOOVER SPEAKS IN INTERESTS OF THE TREATY OF PEACE

Continued from Page 1
seem to realize the desperation to which Europe has been reduced. "During the coming winter some of them will look with longing eyes to the rich, fat nation, with its surplus of every human necessity," he said. "We cannot fiddle while Rome burns. If we believe we can see our neighbors return to another 30 years war through the break down of this treaty, and we still maintain our progress, it is the egotism of insanity. Our expansion overseas has entangled us for good or ill, and I stand for an honest attempt to join with Europe's better spirits to prevent these entanglements from involving us in war. We are not dealing with perfection, we are dealing with the lesser of evils."

"For us to refuse to enter into a joint attempt with the well-thinking sections of a large part of the world to establish a continuing moral conscience against war is the utmost folly in our own interests."

Washington, Oct. 3.—Charges of union labor leaders that the United States Steel Corporation employed large numbers of foreigners in order to prevent the unionizing of its men were denied today by Elbert H. Gary, chairman of the corporation's board, when he resumed his testimony before the senate committee investigating the steel strike.

Judge Gary was questioned at length on foreign labor by Chairman Kenyon.

Chairman Kenyon read principles of the war labor board promulgated during the war, guaranteeing the right of collective bargaining to employees, informed regarding every fact pertaining to the war.

CINCINNATI ENDING UP 52ND SEASON IN AMERICAN SPORTS

Red Stockings Was Organized Shortly After Ending of the Civil War.

Cincinnati, Oct. 3.—Fifty-two years ago when the H. C. L. caused by the Civil War was beginning to drop and baseball players were discarding their "long pants" for uniforms, Harry Wright, a star of the "National" team of Washington, landed in Cincinnati and put red hose on his players and they became the "Red Stockings." To be more exact, historians tell us that the designation originated in 1867 and the Cincinnati's have been "Reds" up to this, their year of glory.

Three years later after the "Red Stockings" had had remarkable success with their professional team Chicago men were inspired to organize a rival professional club. The Chicago team was called the "White Stockings" because they wore white hose in contrast to that of carmine color worn by their rivals. Later their name was changed to White Sox but the Cincinnati did not become "Red Sox." That name was adopted by the Boston club of the American league. In time the Cincinnati "Red Stockings" became the "Reds."

The Cincinnati Reds made a great pennant race this season but Pat Moran's bunch of ball tossers had nothing on the original Cincinnati "Red Stockings" back in 1869. Their record that year was unapproachable. The team toured the country from Boston to San Francisco and never lost a game. Sixty-nine games were played before the team met defeat at the hands of the "Atlantics" of Brooklyn in 1870.

On this famous tour of the Cincinnati team it is recorded that Harry Wright the owner, made money and thus was styled the first baseball magnate.

The first year's salary roll of the "Red Stockings" is still on record. It reads like this: Harry Wright, center fielder, \$1,200; George Wright, shortstop, (then greatest all round player in the country) \$1,500; Asa Brainard, pitcher, \$1,000; Fred Waterman, third base, \$1,000; Charles Sweasey, second base, \$800; Charles Gould, first base, \$800; Douglas Allison, catcher, \$800; Andy Leonard, left fielder, \$800; Call McVey, right fielder, \$800 and Richard Hurley, utility, \$600.

In 1870 Cincinnati played a disastrous series with the Chicago White Sox. It was no world's series—only a two game affair but the two victories of the White Sox so disheartened the Red Stockings that the following year the club disbanded. They took defeat hard in those days, the histories tell. But no one can blame the Cincinnati players for being discouraged seeing that just a year before they had won sixty-nine games without a loss from teams in all parts of the United States. They just naturally hated to lose.

Storm Cures a Paralytic.
Boston.—Frightened by a crash of thunder and a bolt of lightning during a storm at North Adams, Mrs. William Paddock of Jacksonville, Vt., who had been a paralytic for over a year, jumped from her chair in the kitchen and walked across the floor.

Band Weighs 3½ Tons.
Los Angeles, Cal.—Los Angeles claims the world's heaviest band. It is the police band of 32 members, the lightest weighing 200 pounds. Total weight, three and a half tons.

Lazy Husband Roundup Due at Yakima, Wash.
Yakima, Wash.—A round-up of "lazy husbands" is threatened here by local officials. Washington state has a law which puts lazy husbands at work and gives the family of such men their earnings. Officials say the county is no plagued with men liable for prosecution under the law that a round-up will soon start. One case cited here was of a husband who rode around the reservation in an automobile while his wife drove a hay rick for a laborer's wage.

Yield to Aged Wooser.
St. Louis.—Winning consent from 30 parents to marry one woman is the experience of George E. Carnes, sixty-eight years old, who recently was married to Mrs. Anna Walte, fifty-five, a widow. The couple has resided at the Memorial Home for the Aged here for two years, and lately Carnes proposed marriage to Mrs. Walte. Under a rule of the institution she was compelled to refer him to the board of directors, composed of 30 members. Carnes communicated with each one separately and gained unanimous consent.

Cashier Old Check.
Omaha, Neb.—D. T. Beane, paymaster of the C. B. and Q., recently cashed a pay check for \$112, which he issued to A. M. Smith, Dec. 31, 1894. The check was among the first Mr. Beane issued upon assuming the office of paymaster of the road. Where it has been for more than twenty-four years Mr. Beane is unable to state. He said he had forgotten the purpose of the check. The check came here from Broken Bow, Neb.

AROUND THE WORLD WITH THE AMERICAN RED CROSS.

In the Arctic Circle.

Wherever American soldiers went during the war and after, there also went the American Red Cross. This policy carried Red Cross workers to far corners of the globe and here they are seen near the rim of everlasting ice and snow in North Russia. Automobiles were used whenever possible but on many journeys the reindeer pictured here proved most effective.

AROUND THE WORLD WITH THE AMERICAN RED CROSS.

Home Service.

One of the finest constructive activities of the American Red Cross in the war was Home Service in the United States, the friendly connecting link between the soldier far from home and his loved ones. This branch of the work which under the peace program of the Red Cross will be expanded to benefit all who need the assistance it can provide, is directed by scientifically trained social workers. Since instituted Home Service has assisted 800,000 soldiers' and sailors' families. This photograph shows one of the innumerable Home Service information bureaus where service men and their families could bring their problems for solution.

AROUND THE WORLD WITH THE AMERICAN RED CROSS
In Roumania.

Soon after the entrance of the United States in the war the successes of the Central Powers in Roumania had reduced that country to a most tragic condition and in the summer of 1917, the American Red Cross dispatched its first Roumanian relief contingent. Two hospitals were at once taken over and operated by the Red Cross, a canteen for the starving refugees established and food and clothing distributed over a large area. Transportation was one of the toughest problems with which the Red Cross workers in Roumania had to deal. Here is seen an oxcart used by the Red Cross to carry its relief supplies up into the mountains.

VANISHES, TIES UP ESTATE

Soldier Administrator Disappears Between Brooklyn and West Point.

Brooklyn, N. Y.—When Surrogate Cohalan signed an order directing a missing man to show cause why he should not be removed as administrator of the estate of Thomas J. Gilbert, who died November 18 last, a family mystery that has tied up the affairs of the estate was disclosed.

The missing administrator is Thomas J. Gilbert, Jr., and the application for the removal is made by his brother, William S. Gilbert. He states that when his father died he was in the army in Germany, and on his return his brother was appointed administrator of their father's estate.

He says that on the morning of February 1 last his brother bid the family good-by, saying he had been ordered to the army engineering corps at West Point. That was the last heard of him. Efforts to trace him through army authorities have failed.

GHOULS IN ANCIENT EGYPT

Grave Robbers Piled Trade 2,000 Years Ago, Famous Egyptologist Finds.

New York.—Ghouls flourished in ancient Egypt, plying their trade with enough cunning to put modern grave robbers to shame, according to Ambrose Lansing of the Museum of Art, who returned here from Thebes with personal effects of Pedu Bost, mayor and chief priest of that city in about 700 B. C.

"After excavating in Pedu Bost's tomb," said Mr. Lansing, "I found evidences that grave robbers had cut their way there on their own account 2,000 years before us, apparently very soon after burial, and had made off with a number of jewels."

GIVE DRUGGED CIGARETTES

Scotland Yard Hunts Robbers Who Use Novel "Chloroform" on Victims.

London.—Criminals who rob their victims after giving them drugged cigarettes are attracting the attention of Scotland Yard.

In one instance a man in a railway carriage was robbed after he had smoked a cigarette given him by a fellow passenger. A discharged soldier was robbed of his money and clothing and left naked by the roadside near a suburban village.

DAMONDS GO UP ON EUROPE MART

Antwerp Clubs Reveal Efforts of Germans to Control Gem Trade.

MONEY DEPRECIATION HELPS

Men of Wealth, Nervous as to Financial Outlook, Buy Diamonds Instead of Securities Because the Safest Investment.

Antwerp.—Antwerp is in the throes of a "diamond fever" such as has never been known anywhere before. Not less than six "diamond clubs" have been opened in the last three months.

These are "clubs" only in name, for they have nothing of the usual comfortable accommodation generally associated in our minds with such institutions. Their main feature is a large room filled with rows of small card tables. The room looks for all the world like a card playing establishment.

It is the guests, however, who present the strangest appearance. There are smart young men dressed in the latest styles, and important looking men bearing the unmistakable mark of the stock exchange habitus and peculiar old men with long beards and soiled linen and ancient Prince Albert suits all mingled together and driving bargains among themselves at figures that would rejoice any banker even in America.

Handling Diamonds.

Two by two they sit, opposite each other at the little green tables, carefully fingering handfuls of uncut diamonds as if they were common poker chips.

The conversations are pretty much the same all over the room:

"How much did you pay for this lot?"

"Two hundred thousand crowns."

"All right; I'll buy it with 8 per cent profit for you."

"Done."

And the money is handed over at once in cash. Then the seller looks around and having nothing better to do, leans over the shoulder of an acquaintance at another table, driving another bargain. And the gambler fever gets him again and he feels sorry he has sold. So he buys another lot and sometimes he buys back the very one he has sold.

Thus the prices are pushed up in this extraordinary "diamond exchange" of the world.

One of the oldest firms has given the following figures, concerning diamond prices:

Before the war the uncut stone cost \$23 a karat and \$32 after cutting. Immediately after the declaration of war the price slumped to \$23 and remained that low as long as 1915, when the Germans, beginning to get nervous about the value of paper money, started buying all the diamonds they could find on the market.

France, Switzerland, Italy and England followed suit, and the price went up by leaps and bounds. On the eve of the armistice the karat was worth \$70 and fell again to \$34 within a few weeks of the cessation of hostilities.

Since the beginning of the year the diamond market has boomed, owing to the general depreciation of European money, the difficulty of exchange and the embargo on export of currencies from one to another European country.

Demand Is Heavy.

Today a karat of uncut stone finds an easy market at \$150. Merchants need no longer seek customers. Credit is no longer given. As soon as a new consignment arrives from London the diamond clubs are filled to overflowing and the bidding starts with unheard of zest. Many accounts are settled in America, and even there merchants prefer to be paid in kind rather than in money.

It seems certain that the price of diamonds will continue to rise until the economic condition of the world is better balanced than at present. In every country there is an astonishing number of rich men who are still very nervous as to the financial outlook, especially in relation to possible labor troubles. These men do not buy securities and do not keep large bank balances. They buy diamonds because they know they are the safest investment and the easiest to transport.

The fact that Germans have been the heaviest purchasers of cut and uncut stones since 1915 is beginning to worry the allies who find in it the explanation of the apparent optimism shown in Germany as to the economic future of the country. It is said that the greatest supply of diamonds in the world is now safely stored by Germans who, when they choose, are in a position to command the market.

Young Joyrider.

Sharon, Pa.—"Billy" Burns, three years of age, can lay claim to being one of the country's youngest joyriders. A machine drove up in front of the Burns home recently and little Billy got aboard the running board and clung on to the extra tire. When the driver started away he failed to notice the child and carried him five miles. Meanwhile the Burns family had the police hunting for a supposed kidnaper.

One Legged Parrot Is Never Peg Leg Polly

Cleveland, O.—"Come on, Polly, one-two-three-jump. One-two-three-jump! One-two-three-jump!"

It is Dr. F. W. Shaffer, 7612 Carnegie avenue, S. E., teaching a parrot to navigate on one leg. The other leg was amputated after the bird caught its foot in the wire of the cage and twisted the bone into a compound fracture.

Polly squawks as he tries to walk, but he is progressing nicely, thank you, and his physician predicts 100 per cent navigation within the week.

In his practice Doctor Shaffer has recovered combs, nails, hatpins, button hooks, and—whisper! a diamond necklace from the inwards of household pets.

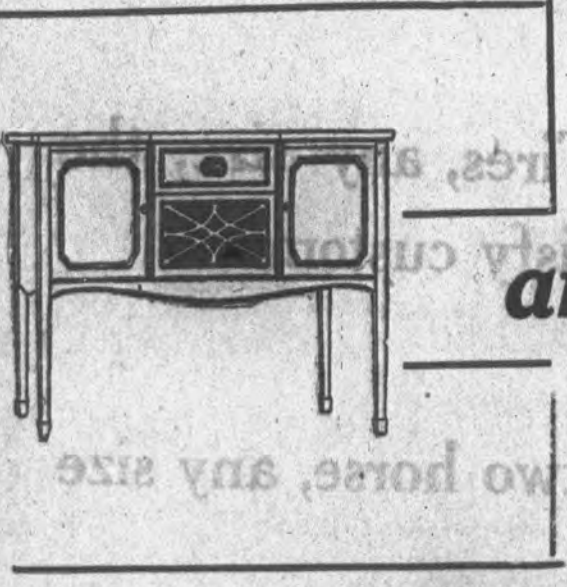

"But Polly probably is the most interesting patient I've ever had," the doctor added.

APPLICATION FOR PARDON OF W. L. SIMONS

Application will be made to the Governor of North Carolina for the pardon of W. L. Simons, convicted at the August Term, 1919, of Pitt Superior Court for having in his possession for the purpose of sale a quantity of whiskey, and sentenced to eighteen months in the county jail.

All persons who oppose the granting of his pardon are invited to forward their protest without delay. This September 29th, 1919.

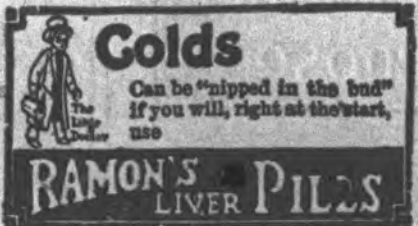

W. L. SIMONS

A NEGRO BADLY CUT ON CIRCUS GROUNDS

Last night, while in an intoxicated condition, a negro, name unknown, climbed into an automobile on the circus grounds, and went to sleep. After the show the owner of the car found the negro and commanded that he get out of the car. Upon refusal to do so, the infuriated owner, drew his knife and cut the temple artery and nearly severed the ear, of the drunken man. The negro almost dead from the loss of blood, was taken to office of Drs. Skinner and Smith, where he was given medical attention.

"PRETTY BABY."

Ask any well posted person about things theatrical which are the real musical successes of this season and amongst the first three or four he will mention Jimmie Hodges new 1919 version of "Pretty Baby" which will be seen at White's Theatre October 8th. With all its dazzling splendor of the up to the minute New York success, its celebrated principals of singers, dancers, comedians, and of course, a brigade of blonde and brunette beauties, each a dainty daughter of the south-land imagine a whole evening of comedy, perfect scenic, environment, electrical novelties and entrancing music from the pen of the best known writers in songland, it is just one whistly catch air after another, it is the old opera in many new ways which is the secret of its success, the most celebrated artists, director-costumers, property men known on the stage today had a hand in the ultimate success of "Pretty Baby" the production is a marvel of spectacular scenery and gorgeous costumes. The color schemes so important in latter day productions has been studied up to a completeness absolutely marvelous. The show from beginning to end is delight to the eye as well as to the ear, that is what counts for success. "Pretty Baby" is one of the individual successes.

Camel CIGARETTES

Cigarettes made to meet your taste!

Camels are offered you as a cigarette entirely out of the ordinary—a flavor and smoothness never before attained. To best realize their quality compare Camels with any cigarette in the world at any price!

Camels flavor is so refreshing, so enticing, it will win you at once—it is so new and unusual. That's what Camels expert blend of choice Turkish and choice Domestic tobacco gives you! You'll prefer this blend to either kind of tobacco smoked straight!

As you smoke Camels, you'll note absence of any unpleasant cigarettey aftertaste or any unpleasant cigarettey odor. And, you'll be delighted to discover that you can smoke Camels liberally without tiring your taste!

Take Camels at any angle—they surely supply cigarette contentment beyond anything you ever experienced. *They're a cigarette revelation!* You do not miss coupons, premiums or gifts. *You'll prefer Camels quality!*

18 cents a package

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply or when you travel.

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

One of the season's biggest musical hits that will appear in this city will be the new Jimmie Hodges 1919 version of "Pretty Baby" which will be the attraction at White's Theatre Wednesday, October 8th. The comedy this season is in two acts and as the last three successors of Jimmie Hodges it is a riot of fun, songs and terpsichorean revelries from start to finish, the settings are magnificent. No attempt has been made to be just gaudy with a mere color background before which the vivid costumes of the chorus and still more vivid principles cavort to catch the eye. There is an art to the background of "Pretty Baby" which has helped to make it the one big musical hit of the year. The costumes are a delight to the eye, syncopated beautiful and lend themselves readily to discernible color designs, so that the stage is never a moment without a picture.

"Pretty Baby" is a musical show that makes the audience laugh uproariously, and will strain the sides and bring a catch to the throat and tears to the eye.

The same well known cast is with "Pretty Baby" including Eddie Page, Eva Lappin, Johnnie O'Neil, Tom Williams, Norman Coudy, Ted Schaffer, Eddie O'Neil and the Jimmie Hodges "Original Dixie Chorus." Jimmie Hodges' New 1919 version of "Pretty Baby" is coming to the local playgoers have been looking forward with pleasurable anticipation to the appearance of this musical comedy success, and from all indications they will not be disappointed. For it is coming with its complete number one cast including George Twyman, Eva Lappin, Johnnie O'Neil, Tom Williams, Norman Coudy, Ted Schaffer Eddie O'Neil. The Pretty baby Trio and his handsome Dixie Chorus, which is known as the handsomest and best trained in the field of musical comedy.

Women's Frocks for Fall

Expressive of Autumn are the rich copper tones, which are one reason why the new Frocks are so distinctive. Gaily contrasting and harmonizing embroideries beautify Frocks that are emphatically Fall-like in line and fabric. Silks—those who are happily familiar with and some which now make their bow for the first time—appear in modes of delightful colorfulness. In equal profusion here are comfortable and modish woolen styles, Dresses that characterize their wearers as women of discrimination and taste \$15.00 \$75.00.

BLOUSES—SMART, NEW

Deviating from a semi-tailored path, which they no doubt, intended to pursue, a number of the very newest Blouses flaunt novel revers, edged daintily with imitation filet lace. They are developed—need we say it—of Georgette crepe and so are the countless overblouse novelties and Russian effects. And certainly on dreary Autumn days no one will scorn the cheering brightness of vivid reds, greens, orange and deep blues, which are shown in abundance here. Price \$5.50 to \$25.00.

NEW SEPARATE SKIRTS

That Fashion sponsors the vogue for Separate Skirts is confirmed by the great variety of smart new Skirts modes shown. If ever there was a day for sportive plaids, certainly this is it. But not for one associate them with the plaids of bygone days, for in tones and styling they are ever so different. Perhaps in the Silk Skirts will one find the most surprises and diversity \$1.00 to \$30.00

FURS

You can't afford to be without one of our desirable Fur Scarfs, Taupe Fox, Black Fox, Brown Fox, Manchurian Wolf, Biret Wolf, Skunk, Lynx, Givic, Cat, O'possum and various other varmints. Let us show you.

CITY ALDERMEN IN REGULAR SESSIONS HERE LAST NIGHT

(Continued from page one.)
Mr. R. E. Webb, fire truck driver, appeared before the board requesting an increase in salary from \$85 per month to \$100, which was granted.

The chairman of the water and light commission was requested to furnish the board with an estimate of cost for an extension of sewer lines to Fourth street which has been considered for some time, the report to be presented at the next meeting.

The recent legislation regarding the sale and distribution of milk throughout the city was adopted. Repairs of fire engine and apparatus as requested by the department were turned over to the fire department for action.

After the reports of officers had been read and approved, the mayor was instructed to get a list of automobile owners of county with accompanying tags. Several members of Hope Fire Department were exempted from poll tax.

REGULAR MEETING OF WOMAN'S CLUB FULL OF INTEREST

(Continued from page one.)
colored woman in attendance, the use of the room being given by the Chamber of Commerce, and the business men of Greenville contribute monthly to its support. It is estimated that over 100 people visited the room on the opening day, and the average attendance on Saturdays is about 25, varying on the other dates. The club voted to re-furnish this room in suitable style as soon as possible and this will be the first work of the club this season.

The swimming pool at the High School was operated by the club for a few weeks during the summer, but an attendant had to be paid, and the patronage was so small it had to be given up for lack of support.

About 25 poor children were given a treat by the managers of a carnival which was here in June, collected and chaperoned by members of the club. An inspiring address was made to

the club by Mr. H. A. White, president of the Chamber of Commerce, in which he not only commended the club for past efforts, but made several very helpful suggestions for the future work, among which were the improvement of the cemetery, support of the movement for a memorial hospital, and assistance in providing a community building for Greenville.

He concluded his remarks by giving to the club a very substantial token of appreciation from the Chamber of Commerce for the establishment of the Rest Room, and a nucleus of a fund for new furniture, a check for \$50.

Mrs. S. K. Phillips, chairman of ticket selling for the lyceum course, reported splendid success, and the club congratulates itself upon being so fortunate as to secure these splendid entertainments for themselves and their friends.

MUCH TOBACCO IN OPENING OF SALES ON MARKET TODAY

(Continued from page three.)
fact, there has not been any increase in demand since the early stages of the season, which is accountable for the low prices paid for this product today. Planters, however, are more than pleased with final averages as the shortage is amply replaced by the splendid figures commanded by fine brands.

Evidence of the growing popularity of the Greenville market is graphically portrayed by farmers every day who come into the city from other sections, and acknowledge the superiority of this market over many others of the territory. Consensus of opinion appears to be fixed on the fact that Greenville offers greater opportunities to the farmer than all other sections, and the fact that many counties are represented daily in sales here shows how quickly the opinion is becoming general in every community where tobacco is grown.

Tobacco men of the city believe that sales will continue heavy until the holiday season, in fact, this is almost assured by statements from farmers concerning the supply of bright leaf still in their possession. The reported shortage during the earlier part of the

season has not been noticeable to any great extent up to this time, and has occurred only in inferior leaves brought by heavy rains before fields had been cleared of the product. A continuance of good sales, therefore, is expected for some little time, as also are good prices for the remainder of the season.

TRANSFER SERVICE.

Night or day. Call Andrew Smith, phone 154 or leave message at Proctor Hotel. 16-1m

ATTENTION MACCABEES

Greenville Tent No. 10, Knights of the Maccabees decided at their last Review to move the Tent to K. of P. Hall, over Key Brown's drug store, and to meet every Monday night at 8 o'clock, beginning next Monday night, October 6th. By order of the Sir Knight Commander. 29-6t

SELL AT GORMANS

Large sale in for today and we fear there will be a block 2nd is about two-thirds full. Gorman's sold Tuesday \$51.20 for the entire sale. We had in this sale 31,290 pounds which sold from 1c to 15c and this averaged \$9.95. Deduct this from the total sale and it gives us 201,250 pounds at an average of \$57.59. This gives you an idea of how a small amount of common tobacco affects an average. We never saw medium and fine tobacco so high. Get the dead black leaves out and keep the colors together and it goes out of sight. The only tobacco that fails to sell high is the mixed colors and when the dead black leaves are not taken out. Watch the order of your tobacco. Some tobacco is being sold with Gorman's come see our sales and you will drive to us next time regardless of what sale we have.

A few sales made Wednesday. Note we change these daily to keep you posted.
