

GARDNER FRIENDS NOW IN FAVOR OF SENATOR HARDING

Gossip Says They Are Seeking Support of Pitt County State Senator

OLD CUSTOMS ARE GIVEN HARD JOLT IN CHANGES

Greenville Attorney Is Actively in the Race for Lieutenant Governor.

Washington, D. C., Oct. 10.—The newest wrinkle in the North Carolina gubernatorial campaign, vouched for by Eastern Carolina Democrats coming to Washington (is a plan of the Gardner forces to draw ex-Senator F. C. Harding, of Pitt, to open support of the Shelby man by the assurance that once the precedent which has kept Lieutenant Governors from going up is broken, it will be easy enough to break again.

The Pitt county Senator, once President pro-tem of the Senate, is regarded as a strong supporter of Cameron Morrison. He has recently announced that he would make the race for Lieutenant Governor and this, according to a long established political custom, will make heavy demands on his neutrality.

Having previously intimated his preference for Mr. Morrison, however, it is easy enough to see the aim of the Gardner folks. Since Senator Harding is going to make the race for Lieutenant Governor, they can argue to him that his best bet is on a Gardner ticket and that once nominated on that ticket, the Governorship four years later can be had for the asking.

Because, they will reason, if Mr. Gardner breaks it he will perfect for himself a machine that will carry more for precedent than the Tar Heel boys did for the Hindenburg line. Four years of Gardner would serve to build it and the only thing Senator Harding would have to do during that time would be to preside over two sessions of the North Carolina legislature and then pick the plum which is now temptingly dangled before him.

Senator Harding is already actively in the race for the Lieutenant Governorship. Mr. Morrison has been in the race for the Governor's job some time dictated positively his ambition, he was and long before Senator Harding is counted as a Morrison man. He served with Mr. Gardner twice in the Senate and if he will couple with the present Lieutenant Governor, he is said to have been assured that the governorship in 1920 is easy enough.

That is, undoubtedly, his ambition. Friends from his home county have said this since the first suggestion of his candidacy was made. His announcement was held up for a long time, the easterners say, because he feared that the precedent which so far has kept Lieutenant Governors from progressing could not be broken. Mr. Gardner and his friends haven't the slightest doubt that it can be broken and once it is, they point out, it will be just as natural for a Lieutenant Governor to become the chief executive as it is for the President to deliver his address to congress in person.—Washington Correspondent to News and Observer.

CIGAR FACTORY IS BEING CONSIDERED AS CITY INDUSTRY

John T. Reese Appears Before Chamber of Commerce to Present Plans.

CITY ALSO CONSIDERED SITE CHOWAN COLLEGE

Chamber of Commerce Also Considers Location of College in This City.

Representatives of the El-Reese Cigar Co., met with the directors of the Chamber of Commerce last night to discuss the matter of opening up a branch factory for the manufacturing of their well-known cigar. The President, Mr. John T. Reese told the Chamber that he was looking for a place where he could get labor. He stated that the matter of getting workers would be his chief consideration when he is determining where to build his new plant. Both Mr. Reese and the treasurer, Mr. B. B. Morgan set forth many facts as to how their plants are managed and operated. They say that they work girls and boys from the ages of sixteen and up. These young people are taught a paying profession. In six or eight weeks they are so well educated to their job that they can earn from eighteen to thirty dollars per week. They work eight hours daily, having an hour for dinner. The factory is provided with a recreation hall and Victrolas so that the works may have sufficient amusement and recreation. The company will install a cafe in its new plant in order that workers who come from a distance may have lunch without going home.

Mr. Reese put special stress upon the fact that the factory will be operated on a non-union basis. (Continued on page eight.)

VALUABLE FARMS TO BE SOLD NEAR GREENVILLE SOON

Captain White Farm to be Sold at Auction by Atlantic Coast Realty Co.

Mr. K. W. Cobb, publicity representative of the Atlantic Coast Realty Company, has everything in readiness for one of the largest land sales which he has put on this season in the interest of the above company. The sale will take place Monday, October 13th, when the farm recently owned by the late Captain White, but which is now owned by Luther Manning and L. F. Weathering will be subdivided and sold at public auction.

The farm, which is now subdivided into small farms is located on the road between Reedy Branch Church and Warren Bell's Store, one mile from Warren Bell's Store, 4 miles from Greenville, N. C., and 3 miles from Winterville, N. C.

It is in a splendid neighborhood, prosperous community, one of the best tobacco sections in Eastern Carolina, and all conveniences furnished by Greenville, N. C., as well as convenient railroad schedules to all points.

The property consists of 230 acres, of which about eighty are cleared and in a high state of cultivation of the remaining 150 acres some can be made ready for the plow in a short time. The buildings on the place consists of one new six room residence, two tenant houses, four tobacco barns, and one large new pack house.

Mr. Cobb is confident that the land will sell well as no one can do better than buy one of these small farms, and he invites the public to attend the sale, Monday, October 13th at 10:30 A. M.

CAROLINA WOMEN HEARTILY ENDORSE TREATY OF PEACE

Daughters of Confederacy Approve of U. S. Participation in League.

FUNDS PROVIDED FOR NURSE WOMAN'S HOME

Mrs. C. F. Harvey, of Kinston, Re-elected President for Ensuing Year.

High Point, Oct. 10.—Perhaps it can be stated very truly that more significant business has been crowded into today's sessions of the Daughters of the Confederacy than any one day of previous conventions could record. During the afternoon resolutions endorsing the league of nations were adopted, officers for the ensuing year were elected. \$1,200 was raised on the floor to provide a nurse for sick inmates at the Confederate women's home at Fayetteville and much other business of importance transacted.

Every officer was elected without an opposing candidate. Those who will form the new cabinet are Mrs. J. F. Harvey, of Kinston, president; Mrs. J. F. Hayden, of High Point, first vice president; Mrs. J. M. Gudger, of Asheville, second vice president; Mrs. L. R. Barwell, of Hendersonville, third vice president; Mrs. John Huke Anderson, of Fayetteville, recording secretary; Mrs. J. F. Taylor, of Kinston, corresponding secretary; Mrs. L. F. Long, of Newton, treasurer; Mrs. S. W. Harrill, of Tarboro, recorder of crosses; Mrs. L. E. Fisher, of Asheville, registrar; Miss Lowery Shuford, of Gastonia, historian; Mrs. Fred Woodward, of Wilson, chaplain and Mrs. H. G. Straphorn, of Thomasville, director of children's chapter.

SENATE PROBABLY TO RESUME STRIKE HEARINGS MONDAY

Indication Appear in Favor of Early Resumption of Hearings, Said.

Pittsburg, Oct. 10.—The proposal made at the industrial conference at Washington by Samuel Gompers, president of the American Federation of Labor, that the steel strike be immediately arbitrated and that the idle men go back to work at once, was received here today with considerable interest, although the offer is not new. It has been understood here that the strikers were ready to arbitrate at any time since the industrial struggle started.

E. H. Gary, chairman of the board of the United States Steel Corporation, however, is said to be opposed to arbitration at this time because he contends the union leaders represent only a minority of the employes of the Steel corporation.

A telegram received at headquarters tonight from John Fitzpatrick, chairman of the national committee, announced that the senate investigating committee would be in Pittsburg tomorrow. The national committee is prepared, it was said, to lay before the senators much evidence to support the claims of the strikers as to the treatment they have received from the steel companies and the police authorities in some of the towns of Western Pennsylvania.

ASKS CONFERENCE TO APPROVE PLAN FOR ARBITRATION

Gompers in Favor of Bringing About Settlement of Nation-Wide Steel Strike

BARUCH WANTS TRUCE OF ABOUT 3 MONTHS

Creation of Arbitration Board by the President and Congress Favored.

Washington, Oct. 10.—Concrete proposals designed to bring about better relations between employers and their employed were laid before the National industrial conference today by members of the various groups making up the gathering. The proposals included: Arbitration of the nation-wide steel strike with return of the men to work pending settlement; an industrial truce starting immediately and continuing three months; creation of an arbitration board by the President and congress and including among its members all ex-Presidents; and a comprehensive plan for adjudication of industrial disputes through boards of arbitration in the various industries.

The conference today also took its first concrete action in adopting a motion, offered by Thomas L. Chadbourne, a representative of the public, providing that a committee consisting of three members from each of the groups of Employers, Labor and the Public be appointed to investigate the high cost of living.

The proposal for settlement of the steel strike, introduced by Samuel Gompers, president of the American Federation of Labor, and one of the delegates, soon after the conference. (Continued on page eight.)

CHAUTAQUA WILL OPEN IN THIS CITY SATURDAY EVENING

Radcliffe Chautauqua Will Give Initial Program Tomorrow Evening

The Radcliffe Chautauqua one of the best three days Chautauqua on the road will open in this city tomorrow afternoon.

The Radcliffe Chautauqua comes to our city with a splendid reputation and the guarantors are doing all in their power to make it a great success. It only lasts for three days, but those attending get as much out of the three days as they get from other chautauqs which last a longer time, as the directors of the Radcliffe Chautauqua get the best talent that can be secured for its programs.

On tomorrow afternoon their opening number will consist of a concert under the direction of the David Dugan Concert Company and a concert which promises to please the entire audience. After the concert comes a lecture by Dr. Robert Webber Moore, of Colgate University on "The Lamp of Aladdin" or "What is Education?" Dr. Moore has established an enviable reputation as a Chautauqua lecturer and a treat is in store for those who hear him.

Tomorrow night Dr. Moore will deliver a lecture on "The Greatest Thing a Man May Know" or "The Purpose of Education." He has made a special study of man as related to education, and the need and importance of educated men, and he will state it in such a way that every one can understand him. After his lecture the David Dugan Concert Company will again appear and delight the audience with another concert.

Tickets are on sale, and anyone desiring to buy them can secure them from the guarantors. All receipts over expenses will remain in our city and will go to some charitable institution. If you haven't yet secured your ticket, do so now.

ENGLISH INDUSTRY FOCUSED ON QUICK ACTION IN FUTURE

Indications Are That England Will Continue Manufacture Many Lines.

SPEEDING UP IN EVERY BRANCH IS CONSIDERED

Awakened Interest in Every Section Is Noticeable, It Is Believed.

Washington, Oct. 10.—The attention of English industry is focused on speeding up production in order to restore the balance of trade, and there are indications that England will be able to continue to manufacture many lines of goods more cheaply than the United States, according to H. G. Brock, acting assistant chief of the Bureau of Foreign and Domestic Commerce, who has just returned to America after fifteen months' residence in England, where he was commercial attaché.

"It is more or less of a commonplace to say that there is an awakened interest in England as to the desirability, indeed the necessity of an increased export trade," Mr. Brock said. "The diminished production of coal, in that country, however, coupled with the recent decision to add six shillings a ton to the price have served to especially focus the attention of Englishmen on the difficulties of the export situation. In pre-war years England's ability to export coal had of course been an important factor in the development of her foreign trade.

The man who wants to buy land these days, and he could not make a better investment, should keep an eye on the situation which may get us Reflector.

WIRELESS SYSTEM TO RECEIVE GREAT EXTENSIONS SOON

Germany Plans Extension of Systems in the Future, So It Is Stated.

Berlin, Oct. 10.—The use of the wireless is to be widely extended in Germany, in especial for the press, if the plans of the Ministry of Posts and Telegraph mature. It is proposed to establish a collection central in Berlin, and wireless plants in various wireless districts into which the empire will be apportioned. For this year the construction of 35 wireless stations and 50 receiving stations situated in important trade centers is planned.

Germany needs such an arrangement for its telegraph service is severely criticized, and in addition to greatly increased prices, it is now necessary to telegraph the simplest, shortest message urgent—at three times the ordinary rate. The wireless, will be expensive, but it will be worth it to newspapers and business houses to be sure of speed.

The German papers that comment on the innovation are hopeful but call attention to the unreliability of the wireless and raise the objection that anyone may pick up a message, so that a paper having a apparatus might easily steal the news of another paper.

This is partially controlled by the fact that the wireless for the present is subject to the Imperial Ministry of Posts and Telegraphs, and no one may have a wireless without official permission. A private plant that misuses its apparatus will be suspended immediately—if its owner is caught. The press message thefts could be prevented, it is suggested, by the proper publicity regarding the offender. Ciphertext dispatches will be a feature of the plan, whereby the same bit of news can be sent to any number of stations at once.

SHARP SPEECH BY MARSHALL BRINGS APPLAUSE TO END

Barking Command From Vice-President Quiets Senate Demonstration.

ADDRESS FROM WALSH CAUSES DEMONSTRATION

Massachusetts Senator Speaks Eloquenty Against the Peace Treaty.

Washington, Oct. 10.—A quick barking command from Vice-President Marshall at the conclusion late today of a dramatic appeal by Senator Walsh, Democrat, of Massachusetts, for a League of Nations that would do justice to oppressed nations of the world and for reservations to the pending League covenant broke up in its very beginning a demonstration that threatened for a moment to sweep through the senate galleries.

For more than an hour senators and visitors had listened intently to the address and as Senator Walsh laid down the last page of his manuscript, and with arms raised high, pleaded against approval of the Shantung settlement "and the dangers lurking in Article Ten" of the League covenant, a faint ripple of applause was instantly followed by a more pronounced outburst.

But it was as quickly subdued. The strident voice of the Vice-President was heard above the rising din.

"Remove from the galleries those who have violated the rules of the senate," the Vice-President shouted, at which gallery guards, apparently bewildered endeavored to suppress the growing desire of many persons to make known their approval of the Massachusetts senator's views with hands and feet. In the confusion which spread to the floor, the crowds began to move away and a few offenders, whose conduct was noted by the guards were hustled out.

The regulation motion to adjourn was held up after Republican Leader Lodge had made it, the Vice-President explaining that he wanted to find out first what the senate was going to do about the violation of its standing rules against applause.

Then quite unexpectedly, when Senator Lodge a moment later, renewed his motion, Senator Hitchcock, of Nebraska, leading the Democratic fight for treaty ratification jumped to his feet with a demand for the eyes and nays.

There had been no intimation that the Democrats were preparing to put the majority party on record in the matter of fixing a time for daily adjournment, and the demand added to the general excitement. The balls called Senators to the chamber, and on the count the motion prevailed thirty-eight to thirty-six. It followed party lines except that Senator Reed, Democrat, of Missouri, back today from a speaking trip against the treaty in the West, voted with the Republicans.

STATE SANITARY INSPECTORS BEGIN THEIR WORK

In nine different sections of the State the people of North Carolina, on October 1, became acquainted with an entirely new experience. The State Sanitary Inspectors began their work in their respective districts on that date, and this was the first instance of exactly this kind in the history of the nation. It happens that in this step, which is considered generally as the most progressive step ever taken by any State, North Carolina leads the way, as usual. The visitation of the State Sanitary Inspectors, therefore, is a new experience to both the people and to the inspectors themselves.

There has been much speculation on the part of the people as to how they would get along with the inspectors, and vice versa. And, contrary to the views of pessimists, the people and the inspectors are liking each other well, and are working in perfect harmony. This could not be otherwise among those people who understand the purpose of the inspectors. The object of the law itself is simply to protect one man against his careless or ignorant neighbor, and the inspector is merely charged with the faithful execution of the law. Any one, therefore, who desires such protection as he is unable to get otherwise from those about him will hail the inspector as his friend and deliverer. Already the working of the law has shown conclusively that the people of North Carolina are not questioning its value and necessity, but, without exception, the one question that arises is this: "What is the best type of construction to meet our needs and show and where are we to obtain it?" The Sanitary Inspector, in most instances, is able to give such advice and guidance as may be required.

Society Brand Clothes

Have Initiative

So had Columbus. That's the reason he discovered something worth while. That's the reason Society Brand Clothes are constantly discovering something worth while—new friends among men who have style initiative. When Christopher C sailed out to make a flat world round, a lot of folks lacking initiative said he couldn't do it. But he had the foresight and far-flung dare to go on and make good. Ditto Society Brand Clothes. In defiance of some who said it couldn't be done, Society Brand makers held true to their convictions, and today their product is known and worn wherever well dressed men move and have their being.

SOCIETY BRAND CLOTHES

You'll be buying clothes soon—suit and overcoat, perhaps. Take a convenient hour and come in here for a rummage thru our stock. It will prove a pleasant hour well spent to you, because it is practically impossible for a wide-awake man to realize the real worth of Society Brand Clothes without falling in line. You may be eighteen, eighty, or anywhere between—our variety will take care of you. Neither does it matter if you reach is up and down or across, we have the size.

AROUND THE WORLD WITH THE AMERICAN RED CROSS.

Repatriating Prisoners.

When hostilities ceased these were in the hands of their Teuton captors millions of prisoners of war of all Allied countries, the terrible plight of whom is well known to all the world. Red Cross workers, carrying relief supplies of clothing, medicines and supplementary foodstuffs, penetrated the Central Powers as soon after the armistice as the military authorities would permit, and the work of getting the prisoners started back to their own countries was soon begun. In this photograph a group of these men are seen packed up and restored to something like normal health, awaiting the train that will carry them out of bondage.

STORE VEGETABLES FOR WINTER USE.

Washington, D. C., October 9.—Jack garden crops, even in the south, and home gardeners are advised not to delay in caring for vegetables now in the garden.

A storage cellar or outdoor pit is, of course, the most desirable place to store vegetables, but not every home gardener has a storage cellar or pit at his disposal and some simple and inexpensive method must be provided. A very effective storage, recommended by the United States department of agriculture, may be made by partially burying a wooden box or a large barrel or nits side in a well-drained spot in the garden. Irish potatoes, carrots, parsnips, salsify, turnips, beets, and winter radishes can be stored in this manner. Cabbage, as a rule, can be stored to best advantage by burying it in the ground, while celery can be placed in a trench and covered with boards and straw or leaves, with an outer layer of soil to keep out frost. Sweet potatoes should always be stored in a warm, dry place, such as a room over the kitchen where there will be plenty of both heat and ventilation.

If no cellar or storage pit is available a temporary storage should be provided at once, and the various vegetables that are adapted to storage should be cared for before it gets cold enough to injure them. Full information regarding the storage of garden vegetables is contained in the department of agriculture farmers' bulletin No. 879, "Home Storage of Vegetables," which will be sent free on application. The horticultural departments of the state agricultural colleges also have valuable bulletins and circulars on the home storage of vegetables.

CIGAR FACTORY IS BEING CONSIDERED AS CITY INDUSTRY

girls and boys to work for him. He
prefers those with a high school educa-
tion. He says they will like the work
because it is clean and fascinating and
brings good pay to those who learn it.
Of course, Greenville wants this
new factory, but it all depends upon
whether or not a sufficient amount of
labor can be secured in the vicinity to
operate it. The Chamber of Commerce
will devise some means of finding out
just how many girls and boys can be
secured for this work. After the find-
ings are reported to the El-Reeso
Company, we hope they will build their
branch factory in Greenville.

While this meeting of the directors
was in session, the matter of trying
to get Chowan College to Greenville
came up again. Other towns are put-
ting up a stiff fight in order that they
may have this institution in their
midst; but Greenville is straight be-
hind the proposition. It is not a sure
fact that the College will be moved;
but sometime during the last of this
month the board of trustees will meet
to determine this matter. They have
invited those who are interested in the
college being moved to come to this
meeting. The Chamber of Commerce
will send representatives to this meet-
ing and on the same minute that the
trustees decide to move the school at
that same minute the gentlemen from
Greenville, the best town in Eastern
North Carolina, are ready to show them
that this is the ideal spot for the Col-
lege. Every one knows that the East
Carolina Teachers Training School is
our most valuable asset and we will
remember how our people fought to get
this school. We believe the people
would work just as untiringly for
Chowan and that their efforts will be
crowned with success.

A paper manufacturing plant is also
corresponding with the Chamber of
Commerce with the view of putting up
a factory here. We hope we can land
this project too; for our town needs
more manufacturing interests, as the
citizens should begin to see the im-
portance of this need and do what-
ever it takes to draw these enterprises
to our town.

INDUSTRIAL BODIES STILL LABORING ON IMPORTANT PLANTS

Way of Procedure Is Still Holding Ascendant Sway in Conference.

BARRETT SAYS PLANTER NOT GIVEN FAIR SHOW

Several Resolutions Will be Introduced in Show Down Session Today.

Washington, Oct. 9.—After three days spent in organization, the Industrial conference called by President Wilson will come to a showdown tomorrow on the business to be transacted.

Only a brief session was held today, adjournment being taken to permit the groups representing Capital, Labor and the Public, to formulate such suggestions and proposals as they wish to submit for consideration. None was ready for submission today except the preamble of a resolution to be introduced by Charles S. Barrett, of Georgia, representing the Farmers' Union. The resolution will demand a comprehensive national agricultural policy. The preamble asserted the farmers were not being given due consideration the present conference and the failure of any attempt to settle National questions without the consent of the agricultural element of the population was predicted.

All the groups were busy after adjournment considering suggestions of their members to be submitted to the conference. Apparently with an agreed unanimity of action not otherwise characterizing the deliberations, the three groups refused to discuss specifically what was under discussion or what would be presented to the conference.

CHILEAN CENTERS WILL INVESTIGATE HIGH PRICE LIVING

Government Endeavoring to Relieve Pressure of Prevailing High Prices.

Santiago, Chile, Oct. 9.—The Chilean government is endeavoring to relieve the pressure of the high cost of living by stabilizing the rate of exchange. It has proposed the adoption of a gold standard and that Chilean currency should be made convertible at sight. This would be attended by the organization of a central bank to act in the same way as the Federal Reserve Bank of the United States. It is argued that this would put the economical resources of the country on a steady financial basis and eliminate the private speculation in gold which is felt to have much influence on the present exchange rates.

The rise of sterling exchange is attributed in part to an adverse balance of trade against Chile in 1918 to the amount of about \$7,000,000. This difference has to be paid in gold, consequently the peso declines in value.

Chilians have been affected by the increased cost of living like the rest of the world and there have been public demonstrations, meeting of labor men and congressional debates on restrictions of experts of foodstuffs and upon providing work for the unemployed.

Nitrate which is the main stay of Chilean industry, has been out of the market for several months owing to the slump in the demand resulting from the ending of the war and the scarcity of freight steamers. This threw thousands of workers out of employment. To meet this labor situation the government proposed measures providing for the expenditure of several million dollars in construction of highways and railways.

Oh Ma Honey—

WHAT BISCUITS

Light as a feather, gold-brown and oh, so good. Make them with Occo-nee-chee Self-Rising Flour and save the cost of baking-powder, salt and soda. This flour contains these ingredients in exact proportions for perfect baking results.

Just measure out enough flour for the morning's biscuits, mix with water or milk, place in the oven and your work is over.

It is more economical to buy baking-powder, soda or salt already mixed with the flour, and many times more accurate. For biscuits, hot-cakes, waffles, use Occo-nee-chee Self-Rising Flour.

ENGLISH PUBLIC IS PLAINLY FAVORING THE AMERICAN CAR

Lloyd George's Action in Eliminating Restrictions Receives Approval.

DESPERATE SHORTAGES OF CARS RESPONSIBLE

High Grade and Value of American Car Appreciated in Many Centers.

London, Sept. 9. — Premier Lloyd George's announcement of the suspension of board of trade licensing restrictions on the importation of American automobiles was the result of an increasing preference on the part of English motorists for the American cars quite as much as the urgency of increased motor transport to supplement other means of conveyance.

Formerly in England there was considerable prejudice against American made motor cars. This prejudice is now ascribed either to ignorance of their true worth or to snobbery. One contributor to a British motor trade journal declares:

"Quite honestly, there is no better value for money in the motor world than the average American car. The point at the moment, however, is not exactly one of sheer value, but whether, in our own best interests in the long run, we should admit the vehicles freely, ration their import, or bar them altogether.

"At the present time there is a

desperate shortage of motors in this country. Our own manufacturers, owing chiefly to circumstances over which they have no control are unable to meet the demand and so, to some extent, we benefit immediately by importing motor vehicles from the United States.

"At the same time, the fact remains that the American factories cannot for a considerable time, meet even their own demands, yet they are willing to their own market short in their attempt to consolidate and increase their foreign markets. There is ample food for thought in this fact."

DIAMONDS GO UP ON EUROPE MART

Antwerp Clubs Reveal Efforts of Germans to Control Gem Trade.

MONEY DEPRECIATION HELPS

Men of Wealth, Nervous as to Financial Outlook, Buy Diamonds Instead of Securities Because the Safest Investment.

Antwerp.—Antwerp is in the throes of a "diamond fever" such as has never been known anywhere before. Not less than six "diamond clubs" have been opened in the last three months.

These are "clubs" only in name, for they have nothing of the usual comfortable accommodation generally associated in our minds with such institutions. Their main feature is a large room filled with rows of small card tables. The room looks for all the world like a card playing establishment.

It is the guests, however, who present the strangest appearance. There are smart young men dressed in the latest styles, and important looking men bearing the unmistakable mark of the stock exchange habitue and peculiar old men with long beards and soiled linen and ancient Prince Albert suits all mingled together and driving bargains among themselves at figures that would rejoice any banker even in America.

Handling Diamonds.

Two by two they sit, opposite each other at the little green tables, carelessly fingering handfuls of uncut diamonds as if they were common poker chips.

The conversations are pretty much the same all over the room:

"How much did you pay for this lot?"

"Two hundred thousand crowns."

"All right; I'll buy it with 8 per cent profit for you."

"Done."

And the money is handed over at once in cash. Then the seller looks around and having nothing better to do, leans over the shoulder of an acquaintance at another table, driving another bargain. And the gambler fever gets him again and he feels sorry he has sold. So he buys another lot and sometimes he buys back the very one he has sold.

Thus the prices are pushed up in this extraordinary "diamond exchange" of the world.

One of the oldest firms has given the following figures concerning diamond prices:

Before the war the uncut stone cost \$23 a karat and \$82 after cutting. Immediately after the declaration of war the price slumped to \$23 and remained that low as long as 1915, when the Germans, beginning to get nervous about the value of paper money, started buying all the diamonds they could find on the market.

France, Switzerland, Italy and England followed suit, and the price went up by leaps and bounds. On the eve of the armistice the karat was worth \$70 and fell again to \$34 within a few weeks of the cessation of hostilities.

Since the beginning of the year the diamond market has boomed, owing to the general depreciation of European money, the difficulty of exchange and the embargo on export of currencies from one to another European country.

Demand is Heavy.

Today a karat of uncut stone finds an easy market at \$150. Merchants need no longer seek customers. Credit is no longer given. As soon as a new consignment arrives from London the diamond clubs are filled to overflowing and the bidding starts with unheard of zest. Many accounts are settled in America, and even there merchants prefer to be paid in kind rather than in money.

It seems certain that the price of diamonds will continue to rise until the economic condition of the world is better balanced than at present. In every country there is an astonishing number of rich men who are still very nervous as to the financial outlook, especially in relation to possible labor troubles. These men do not buy securities and do not keep large bank balances. They buy diamonds because they know they are the safest investment and the easiest to transport.

The fact that Germans have been the heaviest purchasers of cut and uncut stones since 1915 is beginning to worry the allies who find in it the explanation of the apparent optimism shown in Germany as to the economic future of the country. It is said that the greatest supply of diamonds in the world is now safely stored by Germans who, when they choose, are in a position to command the market.

Young Joyrider.

Sharon, Pa.—"Billy" Burns, three years of age, can lay claim to being one of the country's youngest joyriders. A machine drove up in front of the Burns home recently and little Billy got aboard the running board and hung on to the extra tire. When the driver started away he failed to notice the child and carried him five miles. The Burns family had been hunting for a supposed kidnaper.

AROUND THE WORLD WITH THE AMERICAN RED CROSS.

In Italy.

Arriving at one of the most critical stages of the war, when the Teutons were forcing the Italian army back to the Piave, the American Red Cross rushed emergency relief from Paris and revived the drooping spirits of the whole country. In addition to furnishing rations and comforts and medical attention to the fighting men, the American Red Cross instituted 42 soup kitchens, 86 children's hospitals, 10 children's dispensaries, 14 artificial limb factories, five homes for refugee children, 10 rest stations for refugees.

This photograph shows a group of Italian refugee children being fed by the American Red Cross at one of the numerous relief stations.
