## SENATE ACTION ON LABOR PLAN GIVEN INEVITABLE DELAY

Central Committee Experiences Deferment, but Another Trial in View.

COLLECTIVE BARGAINING RECEIVES FAIR SUCCESS

Facts Given as to How the Several Groups Voted on the Question.

Washington, Oct. 16.—Despite repeated declarations by employers delegates that they never would approve intervention in the steel strike and inconsistent demand from the same group that the labor arbitration proposal be disposed of definitely, the national industrial conference, voting as an assembly today, deferred action on the central committee of fifteen to agree on the question of collective bargaining.

The motion to defer, made by Bernard Mr. Baruch, chairman of the public delegation was defeated under the group voting plan, the employers group voting against it, and the public and labor group supporting postponement.

Consent of all three groups is required under the conference rules to validate action. On a point of order being raised, Secretary Lane, presiding officer, ruled that the motion involved a question of procedure and not of policy, and therefore should be settled by a simple majority vote of individual delegates.

Judge Elbert H. Gary, chairman of the United States Steel Corporation board, and Ward M. Burgess, of Omaha, Neb., were the only members of the public group opposing postponement, and C. S. Merritt and T. C. Atkinson, farmers' representative alone of the employers group, favored the motion. The labor group was solid for postponement.

The central committee was directed to have a report ready when the conference reconvened at 2:30 o'clock tomorrow afternoon, but it struck a snags late today in attempting to define "collective bargaining" and made but little headway during its three-hour session. The right of employees to organize was generally recognized, it was said, but no agreement could be reached on the question of dealing with non-employees of a company acting as spokesman for the workers.

Copenhagen, Oct. 16.—Lettish forces have fought their way across the Duna river at Riga and operations there now are developing favorably, according to advices received by the Lettish press bureau.

## PACKERS CHARGED WITH DOMINATING GROCERY TRADE

Washington, Oct. 16.—Reiteration of the claims of five big packers of Chicago bid fair to dominate wholesale grocery trade, and already they handle more than two hundred foods unrelated to the meat packing industry, many of them directly competitive as meat substitutes made in part four of the federal trade commissioners report here today.

## MAYNARD WELL IN LEAD OF OTHER FLYERS, SAID

Chicago, Oct. 16.—Almost half way across the country, Maynard, well in lead of four other homeward flyers who doubled back after flying from coast to coast, was almost a day's flight ahead of nearest pursuer from San Francisco. He made record time yesterday and covered one hundred and thirty-six miles in fifty-six minutes, through snow storms, then dashed the additional ninety-three miles in thirty-three minutes.

## GERMAN SOLDIERS CANNOT ENLIST IN AMERICAN TROOPS

Spanish Embassy in Berlin Turns Down All Applications of Enlistment.

EFFORTS HAVE RECEIVED EXTENSIVE DISAPPROVAL

Sell Good Property at an Longer Considered of Any Necessity.

Berlin, Oct. 16.—The Spanish embassy in Berlin which is in charge of American affairs pending the ratification of the peace treaty has received so many applications from regular German army officers who want to serve in the American army that it has posted a big sign on the outer door announcing that such applications will not be accepted and that is useless to apply. The number of applicants since has gradually decreased but still there are some.

Some of those seeking commissions in the American army urged that they could be of value in "teaching the Americans how to fight."

There has been a rush also of German officers to join other former enemy or neutral armies. The applicants (Continued on page five.)

## MANY ANARCHISTS ARE GIVEN SEVERE GRILLING IN COURT

Suspects Under Arrest Will be Examined by Military Authorities.

Gary, Ind., Oct. 16.—More than a dozen men were taken into custody here during the night, by military intelligence authorities and were to be questioned today in connection with the investigation into alleged radical activities including bomb and anti-government plots.

It is also said army intelligence agents have in their possession a list of several hundred alleged radicals, among whom a number are believed to be leaders in the radical movement. Military intelligence authorities are said to have obtained clues regarding radical activities here even before Major General Leonard Wood, commander of the central army department, declared military control after the situation growing out of the steel strike got beyond state officials.

Several men, including Alton Gorski, who was said to be under surveillance in connection with the explosion of a bomb in the Chicago post office in September, 1918, were questioned yesterday and it was stated Alexander Ivanoff, believed to be the maker of the thirty-six bombs sent from New York to prominent men throughout the country last June, was being sought.

The situation in Gary itself is believed to be under control by the federal soldiers here, was evidenced by General Wood granting permission for the first outdoor mass meeting today since he assumed command here. The meeting was to be addressed by John Fitzpatrick chairman of the national committee for organization of steel workers. Edward Nochols, secretary of the Chicago Federation of Labor, and John Walker, former president of the Illinois Federation of Labor.

## GOMPERS IS KEPT CONFINED TO BED BY HIS PHYSICIANS

President American Federation of Labor Breaks Down Under Strain.

MONTHS OF HARD LABOR IS CAUSE OF EXHAUSTION

Labor Leaders Say Unremitting Efforts Have Had Much to do With Illness.

Washington, Oct. 16.—Samuel Gompers, president of the American Federation of Labor, is confined to his home here in a state of nervous exhaustion. His temperature this morning was 101 degrees and his physician has ordered him to remain in bed. Announcement of Mr. Gompers' break down was made by his secretary when the national industrial conference convened today. He issued the following statement:

"Mr. Gompers returned home from the industrial conference last evening very greatly exhausted and went immediately to bed. His physician, Dr. Henry Parker, was called in to see him. He found Mr. Gompers in a state of nervous exhaustion with a temperature of 101. The doctor said (Continued on page four.)

## COTTON LEAGUE IS FAVORED IN MANY SECTIONS COUNTRY

Members of World Cotton Conference Favor a League of Cotton Nations.

New Orleans, Oct. 16.—A League of Cotton Nations was advocated here today by W. Irving Bullard, of the Merchants National Bank of Boston, speaking to the World Cotton Conference.

Urging the necessity of a world cotton federation, Mr. Bullard declared that the world's need of harmony and understanding was no less economic than as an insurance of political peace and progress. The need cries aloud over a war-shaken world, he said, for a spirit of co-operation and mutual service in cotton.

America's task and problem, the speaker pointed out, is primarily the raising of cotton. The spinning of cotton concerns such a nation as England, but the world supply of cotton, of machinery, of yarns and fabrics is a world affair, by a world federation benefits would result to both the consumer and the producer.

Although the Peace Treaty safeguards the Allies from German control of aniline dyes still the fear of German domination in the field remains and the need of a federation is here apparent, he asserted. Individual credit standings in all countries could be kept track of by a federation acting as a general servant and safeguard.

A world federation could do much to better the international handling of cotton, he continued. Better warehouses could be provided, transportation facilitated and, by a co-ordinated system regulating the flow of cotton, warehouses receipts would be much stronger collateral.

All the continued help that science can give is needed by the cotton industry, Mr. Bullard said. By means of a federation the progress made in every country would be at the service of each one. Commercial intelligence

to be raised to a higher degree of efficiency by utilizing the various consular services, departments of commerce and trade commissions.

## EPISCOPAL CHURCH ASKED TO PRESENT MYSTERY PAGEANT

Sunday School of City to Join in Nation-Wide Campaign, Is Said.

EFFORT WILL BE MADE EXPAND CHURCH WORK

Campaign Will be Divided in two Periods, First Beginning Nov. 9th.

Sunday Schools of the Episcopal church in this city are to be asked to present November 30 a mystery play, or pageant, in the chancels of their churches. The pageant is being prepared in connection with the participation of Episcopal Sunday Schools in the Nation-Wide Campaign to expand present Episcopal activities and begin new ones at home and abroad.

It has been announced here that the Rev. Gabriel Farrell, of Newark, N. J., who is in charge of the Sunday Schools' participation in the Nation-Wide Campaign, will ask rectors here, in common with all others in the United States, to forego their customary morning sermons to make time for the mystery play at the service November 30th.

Episcopal Sunday Schools here have been informed that the Nation-Wide Campaign among their members will be divided into two periods called the Period Preparation and the Period of Consecration. The first will open with the morning service of Sunday, November 9th when the theme for study will be "The Purpose of the Campaign," and extending through Sunday, November 10th.

## FRENCH LEADER IS AGAIN UPHELD BY PEOPLE OF NATION

Clemenceau Emerges from Bitter Assault of Adversaries, Is Said.

Paris, Oct. 16.—The Clemenceau ministry was sustained in the Chamber of Deputies this afternoon by a vote of 324 to 132. The premier thus victoriously emerged from the bitterest and best organized assault which the ministry had ever faced. The chamber adopted the cabinet's policy on the chronological order of the elections, placing the legislative election first, of November 16, and the senatorial and municipal elections in that order.

For the first time Aristide Briand, the former premier, came out openly in leading the opposition forces, but M. Clemenceau's majority was the largest he had ever received when the question of confidence was presented.

Preparations had been going on for months for this test of strength, the opposition awaiting the ratification of the peace treaty to make a definite onslaught on the ministry.

Premier Clemenceau had a bitter oratorical duel with M. Briand. The result of the vote makes it positive that M. Clemenceau's platform will go before the people, his opponents avowed intention of forcing a postponement of the mandate of the chamber having failed. In his speech, M. Clemenceau never was in better form.

## CHILDREN OF PIT ASKED TO HELP IN BUILDING HOSPITAL

School Children Requested to Stimulate Interest by Writing Essays.

MEMORIAL HOSPITAL IS TO BE GIVEN SUBJECT

Manuscripts Must be Present ed to Memorial Committee in Competition.

HOSPITAL m? m? m? m? m? m? To the boys and girls of Pitt County: Have you heard that Pitt county is to have a Memorial Hospital? Have you thought of any reasons why this hospital should be built? Do you wish to enter a contest connected with this question, and take your chance at the prizes offered? Then read the remainder of this article and determine that you will try for a prize.

The Pitt County Memorial Committee has decided that the most fitting tribute Pitt county can give to the soldiers who served and made the supreme sacrifice in the Great World War is a hospital, to which the sick and suffering can be brought for better care and treatment. At a called meeting of the Ministers of the county it was decided to launch the campaign for this Memorial Hospital.

As one means of arousing interest in this plan, the committee has decided to offer prizes for the best papers written on the subject, why Pitt County Should Have a Memorial Hospital, and submitted under the conditions listed below:

1. The subject of the essay shall (Continued on page four.)

## SPLENDID LAND TO BE SOLD THROUGH THE COUNTRY SOON

Atlantic Coast Realty Co., to Good Property at an Early Date.

Several residential sites, on Greenville Heights will be sold at public auction by the Atlantic Coast Realty Company Saturday, October 18th, at 10:30 A. M.

This property is located in West Greenville, on Fourth and Third street, six blocks from the business section of the city and one half mile from the depot, and is some of the most desirable property in this city. A part of the lots are furnished with concrete side walks, water works and sewerage, and lights are near enough to be quickly installed.

The Nobles Farm.

The Osborne Nobles farm, near Shelmerdine, will also be sold at auction by the above company Friday, October 17th, and as this property is some of the most desirable farming land in this part of the state it is believed the sale is going to attract no little attention. The property is situated on the Vanceboro-Washington road, three miles from Burgaw, five miles from Shelmerdine and fourteen miles from Greenville, in one of the richest farming districts in Eastern Carolina, and being subdivided into several small farms, it offers opportunities to the tenant that are of much greater than ordinary inducement.

The farm contains about 400 acres and has a good soil which will produce any kind of crops grown in this part of the country, especially tobacco and cotton. There are several buildings on the place, consisting of one bungalow, one tenant house and all necessary outbuildings. Each and every one of the small farms will have a splendid road frontage.

Attend the Auction Sale of the Osborne Nobles Farm, sub-divided near Shelmerdine, Friday, October 17th, at 2:30 P. M. Meet us on the premises.

## SAYS STATISTICAL SYSTEM IS OF BIG ISSUE FOR COTTON

Austin Tells World's Cotton Conference Accurate Facts are Requisite

FRAGMENTARY FACTS ARE OF LITTLE VALUE

Valuable Information Concerning Crop Should be Available at Once.

New Orleans, Oct. 16.—Creation of a competent statistical system to furnish accurate information on the cotton industry of the world was urged here today by O. P. Austin, statistician of the National City Bank of New York, in an address before the World Cotton Conference.

While \$20,000,000 of invested capital is represented in the world crop of cotton, yet Mr. Austin declared only fragmentary information is obtainable of this enormous industry. Though cotton is becoming increasingly more important in world economies, production and consumption today being twice as great as in 1800 and nearly thirty times as much as in 1800, still the valuable information on the crop comes from individuals in all parts of the world, in conflicting terms and lacking in basic sources of information.

Despite recent improvements, government statistics are far from satisfactory, Mr. Austin claimed, as the United States in common with Great Britain state their cotton and imports of cotton goods in yards and values while the reports of continental Europe show the weight alone. Yards of raw cotton in the different countries represent various weights from 100 pounds up to 750 pounds.

In order that the cotton reports of the world may be supplied with accuracy and promptness, an international organization with branches throughout the world should be established, Mr. Austin continued. Conducted by competent men, such an organization, by the use of the telegraphs and cables, could issue statements periodically, covering the world crop at every step from the planting until the finished product is in the hands of the consumer.

Thus the reports of the various countries could be correlated and identity of term maintained. The cost of operation of such a system is not thought to be great in comparison with the value of the service rendered.

## RUSSIAN SOVIET GOVERNMENT SAID TO BE FACING DISASTER

London, Oct. 16.—Forced back on four fronts, armies of the Soviet government of Russia appear to be racing a period pregnant with disaster. Denkine's Cossacks, from south, police forces from northwestern Russia, troops from northwest and northern Russia, troops from the north formed ahead during the last few days, and it now seems that the Bolsheviks are between twenty-five miles of Petrograd and the city seems doomed to capture.

**WELL-FED COW MAKES THE PROFIT.**

West Raleigh, N. C., Oct. 13.—Records of cow-testing associations go to show that it is the well-fed cow that makes the profit. Often the man who is keeping ten cows would make more profit if he sold two or three of the poorest and gave all the feed to the others, says the specialists of the Animal Industry Division, Agricultural Extension Service.

One news should see first of all, says these dairy specialists, that the dairy cow has the necessary raw material from which to make milk. If requires a long experience for some cattle owners to realize that it pays to feed a cow well. The fact is that the dairy cow is a milk factory, and like all factories, requires considerable of what is called, in connection with business enterprises, "overhead charges."

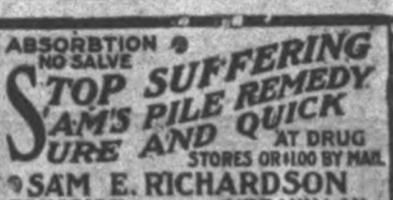

The cow first takes out enough from the ration to maintain her body, and this is about the same, whether she is milking heavy or giving only a few pounds. She can produce milk only with that part of her ration that she receives above what is required to support life. A cow of medium quality uses at least half of a full ration to support her body, and the second half of her ration is the only part she can use to produce milk. If she does not receive a full ration, she does the only thing possible to do—cuts the milk flow to fit the feed.

The point is that, after going to the expense of feeding the cow enough to support her body, and doing chores for her, and giving her a place in the barn, it is anything but wise to fail to give her as much feed as she can use for producing milk.

## GIVING "ALL THE NEWS."

We presume there never was a newspaper in any locality that gave all the local happenings. It is often that someone comes or goes that the reporter does not see. It happens that the family is missed several times. They get the impression that the editor does not care to mention them. This is a mistake.

In most country towns the local work is the hardest work connected with the newspaper. A man may be a good editorial writer but flat failure in the local work, vice versa. Editorial material is obtained by study, by reading newspapers, sometimes, by using scissors.

Personals and local happenings can't be read and clipped from other papers, not by a jugful. It takes physical as well as mental exertion to get out four or six columns of local news in a town of this size. Most people take a local paper to get the local happening. Don't be afraid to tell the editor or reporter that you have friends visiting you. There are lots of people who are interested in your friends. You owe it as a duty to them to let your friends know of their doings. Perhaps you think the paper shows partiality, but just see if the paper doesn't treat you right if you give it a chance.

## HOME OWNERSHIP.

It would be a splendid thing if every family in North Carolina owned its own home. This is a dream that never can be realized, even half way, for some men are indifferent, others shiftless and still others merely unfortunate. Any plan that should place a premium on home owning would be worth while. It would tend to make men and women desire to have homes of their own it would create interest in the immediate surroundings and make for better citizenship. And that after all, is the chief consideration.

We would like to see a home-owning drive started in every community in North Carolina. That would be a campaign worth while. The building and loan associations, which lend money to homes to the amount of two-thirds of the value, will render valuable assistance, but in many cases the other third is what stands in the way of many people.

Some way of assisting such persons

who desire to buy homes in carrying the part which the building and loan associations cannot finance, under their charters, would be the means of helping many. There are hundreds of men in every community willing to scotch or the other fellow. Such a movement throughout the State would bring North Carolina many times better off; if it succeeded in a large way, the benefits could not be measured.

Hickory Record.

One blessing of this warm October weather is the fuel it is saving us.

The farmer who has not made hay in this fine fall weather has certainly missed his opportunity.

People are continually wanting the earth, and after a while each one will occupy his six feet of it unmolested.

Vice President Marshall well says that his nation is in more danger from internal than external troubles.

Uncle Sam received \$73,239 in war taxes on the recent series of ball games for the world championship. If he can coin the money like that it would not be bad to keep some games going all the time.

Tobacco selling from a dollar to a dollar and a half a pound yesterday shows how prices are humming. And it makes some farmers wish they had not rushed the market as they did early in the season. They were warned against that very thing.

GOMPERS IS KEPT CONFINED TO BED BY HIS PHYSICIANS

(Turned from page one) that it would be absolutely necessary for Mr. Gompers to remain in bed."

Mr. Gompers' illness results, labor leaders said, from months of unremitting work at home and abroad in connection with the peace treaty, the international labor congress at Amsterdam and the steel strike.

The veteran labor leader was stricken when he reached his home last night after delivering an attack in the industrial conference on the United States Steel Corporation for its refusal to deal with the strike committee. His friends recalled that the day was the first anniversary of the death of his daughter and they said this fact probably aggravated his condition.

Those who heard Mr. Gompers' impassioned address in the conference yesterday realized that he was laboring under a tremendous nervous strain and the announcement of his illness did not come as a surprise to his associates in the labor group.

Frank Morrison, secretary of the American Federation of Labor, was elected chairman of the labor group in the conference today to act for Mr. Gompers.

Labor leaders said that if Mr. Gompers' illness proved so serious as to make it impossible for him to discharge the duties of president of the federation for any considerable time, the executive council of the federation would be called to elect a temporary successor. It was said that James Duncan, first vice president of the federation, probably would be designated to act.

Later Mr. Gompers sent word to the labor delegation that he would be present at the conference tomorrow.

### LEADS EXERCISES AT THE TRAINING SCHOOL, STATED

Rev. J. M. Daniel, of Dunn, formerly pastor of the Methodist church in Greenville, led the morning exercises at the Training School on Wednesday. His reminiscences and pleasanties were highly entertaining to the girls.

### MRS. J. G. WOODWARD ENTER-TAINS

Complimentary to Her Niece Miss Ruth Cobb,

This afternoon at her home, on

Greene street, Mrs. J. G. Woodward entertained at a rook party complimentary to her niece, Miss Ruth Cobb, a bride-elect.

The house was decorated with cut flowers and potted plants.

Upon arrival the guests were welcomed by Mrs. Woodward and Miss Ruth Cobb, and were shown to the punch bowl by Messmates R. J. Cobb, and C. L. McDowell, where they were served punch and sandwiches by Mrs. Roy Batchelor and Miss Rubelle Forbes.

Nine tables, for rook, had been arranged in the library, parlor, hall and on the porch.

At the conclusion of the games Mrs. Woodward presented Miss Cobb with a beautiful piece of lingerie, and Mrs. McDowell, her house guest with a large bottle of toilet water. The score prize was also a bottle of toilet water.

An ice course was served.

wer ready to serve in either the Amer-

ican, British, Japanese, Argentine or

even the French forces.

Every correspondent in Germany, regardless of his nationality has been bombarded with queries and personal applications. In vain did they assure the officers that their armies would under no circumstances accept German officers. In vain the explanation was made that all the Entente armies were overburdened with officers and were making every effort to demobilize them.

Argentina has become more or less the mecca of the would-be emigrants from Germany because it has advertised through its consulate for agricultural laborers and has offered inducements in the way of free land. However, those who want most to leave Germany want least to go to farming. They de-

clare that the American workmen will oppose German immigration to the utmost because of the possible effect of wages and say a similar induced spirit exists in Australia and other British dominions.

# “Greenville Heights”

Subvivided into Beautiful Residential Lots, Located in West Greenville

N. C., on Fourth and Third Streets, To Be Sold At Auction

## Saturday October 18th

AT 10:30 A. M.

We all believe in the future of Greenville. Just stop for a minute and think what a remarkably healthy growth it has shown during the past five years. It is growing more rapidly today than ever before. New enterprises are being organized every day by substantial men who insure their future which means a Greater Greenville.

Residential and business properties are increasing in value very rapidly. The increase within the next five years is going to be greater than within the past five years. You can possibly name a dozen or more residential or business properties which could have been bought five years ago for a mere song. Today the same properties cannot be bought for double their value at that time. Now, while you have the opportunity, make an investment that will pay good returns and be glad.

Mr. Investor and Homeseeker, think this over. Where can you put your money into anything safer than valuable real estate? Ask the folks who have succeeded in life what they think of business or residential property in a growing city as an investment. They will tell you there is nothing better. Attend the sale of residential lots at auction SATURDAY, OCTOBER 18TH, AT 10:30 A. M., and buy a lot.

### DESCRIPTION OF THE PROPERTY TO BE OFFERED

Beautiful residential sites, Greenville Heights. Property located in West Greenville, N. C., on Fourth and Third Streets, six blocks from the business section of the city and one-half mile from the depot. All conveniences that you can possibly desire are practically at your door. Greenville is especially noted for its fine schools and business institutions. They are among the best in the state. Stores, schools and churches, banks and business institutions of all kinds are within one-half mile of these lots to be offered. The A. C. L. R. R. and the N. S. R. R. furnish convenient railroad connections to all points, as well as good freight and express service. These residential lots to be offered are all high and dry, in one of the best sections of Greenville, N. C. This property is at present the only available, desirable residential property. After these lots are sold at this sale home sites in this vicinity are going to be scarce. A part of these lots are at present furnished with concrete sidewalks, water works and sewerage, electric lights are near the property and can be installed very easily.

Look these beautiful lots over today. They are certainly of a class that will appeal to you. If you buy one of these lots and build you will be just as well located as anyone else in the city. Pick out these lots which you desire to purchase and meet us at the sale SATURDAY, OCTOBER 18TH, at 10:30 A. M., and make a purchase. Your price is going to do the buying on very easy terms, terms which place these lots within your reach.

Former President Shipbuilding  
Expresses Confidence for  
the Future.

London, Oct. 15.—Sir Herbert Rosewell, formerly president of the British Shipbuilding Employers' Federation, who has just returned from a four months' tour of the United States, Japan and China to investigate shipbuilding in those countries, says he is convinced that Great Britain can hold its own place in the struggle for maritime supremacy only by exerting every ounce of its energy and brains.

"While in America," he says, "I felt myself in the midst of circumstances which conveyed conclusively to my mind a real potentiality both in shipbuilding and shipowning. I cannot dispel from my mind the possibility of serious rivalry in the future when I picture the transformation which had taken place in America."

"I was surprised to find that shipbuilding in China and Japan was so far advanced. When China awakens we shall have another serious rival to face."

"Japan," he says, "has not developed her shipbuilding industry in the same degree as the United States. Raw material is her greatest need and difficulty in shipbuilding and, addition, the Japanese have not got commercial enterprise in the same degree as the Americans. Generally speaking, the Japanese will not risk their money as the Americans do."

# FASHION GOSSIP

By the Fashionable Woman's Clothier

To the Woman who wants the most in style, most in value, most in workmanship, we commend our charming dresses—Winsome Suits, Handsome Coats, Saucy Coatees, Snappy Skirts

Bewitching Gowns, Bewildering Blouses, Luxurious Furs, Smart Smocks.

### Coats

There's a terrible scandal in Coatland this fall. Some of the smartest modes refuse to have pockets! And after we've become so accustomed to them, too.

But they are gorgeous enough to be forgiven. One exquisite mode of tin sol-tone, for instance, falls straight and graceful, with a huge beaver collar and a wide belt that wraps round and round before it fastens. But never a sign of a pocket.

And those coats that wouldn't give up their pockets are flaunting them in diverse shapes and sizes—right in the face of their rivals.

Let us show you.

### Suits

"To be or not to be"—that was the question that confronted several yards of exquisite tricotine. Whether 'twas smarter to be a dress and with the dresses hide, or whether a Fall suit stood more chance of winning favor.

The suit finally answered the question, and you'll find it's keeping company with dozens of other stunning Fall models of kordovan cloth, weaves akin to duvetyne, and our old comrade serge.

The many new shades add delightful zest to the entrancing modes.

Spend a leisure hour in their company, the many smart style themes will keep you interested. Let us show you.

Let us show you.

### Furs

If you're inclined "fur-ward" these days, have a look at the newest caprices that we are showing.

Exquisite Scarfs of Fox, Wolf, Lynx and Coney and all the rest that have been "passed by the censor"—Dame Fashion.

Saucy coatees; perfect loves of shoulder capes and stoles—quaint collars to snuggle one's chin into.

Let me whisper it—prices are wonderfully moderate.

Let us show you.

### Dresses

Right into the heart of Femininity flutter the new Fall dresses, and between me, you and the gatepost, we think they're going to prove most popular.

Stunning serges and tricotines; lavishly embroidered satins and exquisitely simple tricolettes. Girdles and sashes that play hide-and-seek; stopping in the back when you look for them on the side, fastening on the side when you have about made up your mind they should be in front.

"Individuality"—that is the dominant note of the charming Fall dresses.

Let us show you.

### Gowns

"All's well that ends well"—so when a shimmering, glimmering satin dinner frock ends in a demurely short train, one finds it very well, indeed. Apricot satin it was—with a hint of rainbow blue at the girdle, and a youthful drapery of silken net to the side.

Dainty dance frocks of frail colors rubbed shoulders with creations in black satins and charmeuse, aglimmer with silver. Will 'o the wisp models, recklessly youthful and sedate ones of quiet elegance—one finds them all in the concourse of new evening frocks for Autumn "doings."

Let us show you.

Don't forget when you come to see us, to ask to see our Gingham House Dresses, Bungalow Aprons, Kiddy Dresses and Rompers, Serge Middy Suits and Twill Middy Blouses, and the thrifty minded will do well to see our Coat Suits and Coats specially priced \$19.95, \$24.95 and \$29.95—all wool and real values.
