Motion in Which All Par- ties Concern	ing Raised its Quota	CANADA CONTRACTOR AND	A Afternoon	Business in Germany	IN CHICOGON
Washington, Oct. 21. — The govern- ment today made a motion before the United States Supreme Court for leave to file a brief "as amicus curiae" and to be heard orally on the appeal of the child labor test case from the United States circuit court. The case originated in the Western District Court of North Carolina. The circuit court sustained Judge Jumes E. Boyd and held the Federal aw imposing a tax on the net profits of mills employing children under four teen years of age to be unconstitution at Litigation until this time has been between the mills and the child labor folks. Now the solicitor general move to interplea dand to be heard orally when the case is argued at the presen- term of the United States Suprem Court.	of the Y. M. C. A. throughout Carolina for a fund of \$80,000 with which it is proposed to multiply the activities of the Association in this State. The campaign is simultaneous with a similar campaign in all the Southern States, including Maryland and the District of Columbia, in which varying amounts, totalling approxi- mately \$1,000,000 will be raised. The big object behind the drive is to carry the wholesome and steadying "Y" infinences into small towns and rural communities, industrial settle- ments, and into the High Schools of the South as well as extending the ac- tivities of City, college and industria Associations. The experiences gained by trained "Y" workers in army campa- and in France will be invaluable in putting into effect this new program In act probably the most compelling influence behind the new movement is the insistent demand from former ser- vice men who have returned to small	by shayor Hymn core in New York until the peace treaty was signed "die Meist- ersinger" was presented in German at the Lexington Theater tonight while thousands of soldiers, sailors, marines and civilians fought with the police in at attempt to reach the theater and top the production. Several shots were fired as the form of the police lines or laid down a barrage of bricks, stones and other missiles in an attempt to force their way through Soon after the performance starter a crowd of about 300 service men were driven away from the vicinity of the theater but after reaching Time Square were reinforced and, about 1 000 strong, started back only to be meet by a squad of mounted police whice scattered them. During the remainder of the performance the crowd fough valiantly to reach the theater, but starter is the stream.	opens the fifty-eighth Great State Fain this afternoon at 1 o'clock, a record crowd will be pouring through the gates and North Carolina's industrial expo- sition, peace jubilee and family re- union will be on. With the Weather Bnreau promising fair weather for the week, and farm prosperity on a high level, Col. Joseph E. Pogue, who has served as secretary for twenty State Fairs, anticipates tha all former State Fair crowds will lood puny beside the throngs that will ta Raleigh's capacity to the limit. Already hotel accommodations ar pushed hard and private homes ar reaching out for State Fair visitors. But i nthis day of the flivver, reasonabl good roads, the great majority of State They will come in, park their card spend the day at the Fair and then g home at dusk, possibly, to return th	perts, though/they groan when they think of the prices. These experts es- timate that American cotton will cost in Germany about nine and one-half marks for the German pound which is somewhat heavier than the Ameri- can. This price is in part owing to the low exchange value of the German mark which before the war was nor- mally worth about 24 cents. Some little American cotton has been landed at Bremen, especially since if has become possible to send orders by wireless and thus avoid delay of five days or more in cabling by the way of England. Experts say the Americ cans are anxious to do business direct ly with Germany and to avoid any in terference by the British but the Ger- man regulations limiting bills of ex- s, change is a serious handicap for prevents the importation of much co- to from America through fear of losses by exchange.	meat packers, Senator Watson de- lared that the open records of some of the commission's employes on that in- evestigation showed them to be respec- tively, ontspoken anarchists, partici- pants in red parades, pro-Germans, ad- mires of Lenine and Trotzky and avowed exponents of soviet govern- ment. Of Stuart Chase, who had general charge of the investigation of the meat packing industry. Senator Watson charged that beside being a well known exponent of socialistic doctrines, Chase
reads the motion, "on behalf of the United States of America and show that in the foregoing case, by the judy ment of the court below, that portion of the revenue act of February 24, 1015 imposing a tax on the net profits of mills and manufacturing establish ments which have employed or per	 munities and have realized the need for enlivening and steadying influence for boys and young men. Supplied Ammunition With Which Continental Army Forced British to Evacuate Boston-Islands Discovered as Result of Ship-

2 wreck.

Washington, D. C .- "The Bermuda islands suggest the adventures of Robinson Crusoe in their colonization and present in their later chronology a curious parallel to United States hiswory, with the events consistently predated by a number of years."

With this statement the National Geographic society prefaces a bulletin on the Bermudas, a principal group of the British West Indies, which some Englishmen suggest should be ceded to the United States in part payment of the American war loans to Great Brit-

"The Robinson Crusoe comparison obtrudes because the islands were discovered and later settled as the direct result of shipwrecks, and the settlers had to build themselves a bark to set sail again," the bulletin continues. "As for the anticipation of American history, on a miniature scale, it may be noted that the colonization took place seven years before the Pilgrins landed at Plymouth, Mass.; that witches were burned, Quakers were persecuted and miscreants were ducked before similar occurrences are recorded in New England, and that slavery was abolished in 1834. The Bermudians protested long before 1776ngainst the mother country's rule, until the island prisons were over full. but relief came, in their case, not through a declaration of freedom but by the accession of Cromwell.

Helped to Start Revolution. "But the essential point of contact of the American with the Bermudian arises from the all-but-forgotten fact that while the immortal Lafayette gallantly helped the colonies conclude their war of independence, the Bermudians supplied the ammunition to

"So acute was the need for powder in 1775 that George Washington wrote to the governor of Rhode Island that 'no quantity of powder, however small, is beneath notice.' Learning that there was a store in Bermuda, and that the islanders were any is to have the empreent of food bargo lifted upo s, Washingsupplies from the ton addressed a lease the people of the island, who had shown themselves e people of sympathetic with the American Revolution, promising them ample supply of provisions and 'every other mark of affection and friendship which the grateful citizens cf a free country can bestow upon its brethren and benefactors if they would make this ammunition available for the Continental army. "It so happened that the powder had been procured hefore the letter was delivered, and with it the Continental army compelled the British to evacuate Boston.

Government Lends Hand to Combat Increasing Cost of Women's Clothing.

London.-Increasingly high prices for women's clothing, forecast by the clothing trade for the coming winter, probably will be combated by the manufacturers under government supervision of 500,000 "standard" costumes and coat frocks such as were manufactured during 1918.

Leeds firms have upward of 2,000,000 yards of material available for the manufacture of these "standardized" garments, but announce that increased costs of production probably will bring the cost price of the new lot to \$18 or 620. Similar garments last year were retailed for \$14 to \$16.

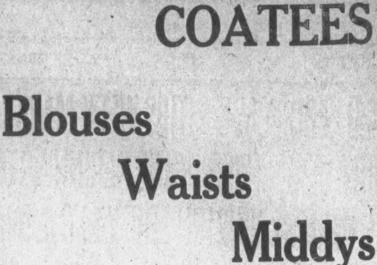

TWO ICE CREAM CONES \$1,000

Parisian Bellboys Steal Necklace From U. S. and Seek Vender.

Paris .- Two ice cream cones was the price which two Parisian bellboys received the other day for a \$1,000 pearl pecklace one of them had stolen from an American Red Cross worker here. The Red Cross girl, whose name is not made public, was t guest at the hotel where the two boys, Albert Marant and Jean Arnal, were employed. They took the necklace to an ice cream vender. Both bellboys and the ice cream man are in La Sante prison.

Prize Pig Delivered to Rookie by Airplane.

A Winthrop Joined Torles.

"Not only the sale of powder but the fact that Bermuda allowed the colonles to have salt, so incensed the governor of Bermuda that he upbraided the citizens for treason, and feeling ran so high that he was removed. His successor was a native of Salem, Mass., whose loyalty to the mother country was such that he gave up large estates in the colonies rather than join the revolutionists, He was connected, both by blood and by marriage, with the Winthrop family. Under his rule the Island's full allegiance to England was restored.

"Browne was succeeded by Henry Hamilton, during whose adminstration the town of Hamilton was founded and named for him. This town today is the seat of the island government. It has a population of less than 3,000.

"Hamilton is on Main island, or Bermuda, while St. George, the former capital, is on the island of the same name. There are more than 300 small islands in the Bermuda group, of which only a score are inhabited. The total population of the Islands in 1916 was little over 20,000, of whom about one-third were white. Bermuda suffered during the war by the cessation of the American tourist patronage, which had doubled the entire island population in preceding seasons.

"The Bermudas attracted visitors because of their mild climate, which knew no frosts, and by their scenic beauty.

"Juan Bermudez, sailing from Spain to Cuba in 1515 with a carge of hogs. discovered the islands when a storm blew him to their shores. Apparently he left some of the hogs there, for later visitors found the animals on the island. From him the Islands were named, and thus originated the 'hog money,' coins stamped with a hog on one side and a ship on the other, which still are preserved in various collections.

"The islands were settled through the efforts of Sir George Somers, who became impressed with their fertility and beauty during a sojourn enforced by the wrecking of the ship which was carrying him to Virginia,"

For Eundreds of years the Nile floods have not warled ten, days in their arrival.

was awarded as a prize to the lucky rookie who drew the right number after enlising during July. A part of the arrangement was that the pig was to be delivered by airplane.

GERMAN TRADE DRIVE IS ON

Commercial Agents Flock to Venezusla, Underseiling Americans.

San Juan, Porto Rico.-American travelers who recently arrived here from Venezuela report that there are open evidences of renewed German activity in that country. Many Germans have been arriving in Venezuela during the last few months and German commercial travelers are reported turned from Venezuela last week explained it:

"If I want to sell clothing at \$15 a suit to the Venezuelan merchants, a German salesman has something just as good for \$12 or \$13. If I offer 90 days or six months' credit the German offers six months or a year. In every line it is the same way: They are offering to take orders for all classes of manufactured goods and promise prompt delivery. Many Germans are arriving in Venezuela, evidently prepared to settle there."

'BLIND TIGER' DEVICE BARED

People of Porto Rico Had Developed Interest in Distribution of Plants.

San Juan, P. R .- The government officials have just discovered the means by which liquor is carted around San Juan and disposed of in contravention of the prohibition law.

The old crude methods were stopped long ago, but the liquor still continued to circulate. Recently an inspector noticed a big boom in the business of peddling growing plants.

People who had been in the liquor busines, it appeared, were particularly interested in horticulture all of a sudden, and the agent got suspicious and investigated. He found that gasoline tins had been arranged with false bottoms, inclosed in which was the contraband liquor.

The upper part of the tin was filled with clay and a growing plant placed in it. The dealer had only to transplant his shrubbery from the filled tin to an empty one and get out the particular form of intoxicant he wanted.

Just before the curtain was raised on the opera, Henry B. Hertz, manager of the opera, rushed to the stage and announced:

"The performance will be given tonight. 1 am arrested. want to thresh this thing out in court."

The fighting between the police and groups of service men lasted until midnight, but only a few persons were injured as far as the police could learn, although scores had felt the weight of 'the officers' night sticks and a few officers had been struck by missiles,

Buy Paint With Your

Eyes Open-

There's as much difference in the character of paints as in p ople. You want paint that not only looks well on your property, but that will give you the best service at lowest cost. That is the reason you should buy a paint containing the greatest amount of zinc. Without it paint rapidly darkens, scales off and decays.

Contains the highest percentage of ZINC, mixed in correct proportion with pure Lead and ground in genuine Linseed Oil. In point of appearance, great covering capacity, and longest wear, Pee Gee Mastic Paint has proved its worth during more than fifty years.

Ask us for Free Paint Book "Homes and How to Paint Them" or write Peaslee-Gaulbert Co., Incorporated, Louisville, Ky.

as long as there's a sack of Occo-nee-chee Self-Rising Flour in the pantry. Very little time and no trouble with this flour. Because the beking powder, salt and soda are already in it and in just the proportions to bring about perfect results.

Direct Comparison is Made With Submarines of Latest German Type-Good Accommodation for Officers and Crew.

Washington.-Elaborate tests carried on by the navy department, the results of which were announced by Acting Secretary Franklin Roosevelt, show that the latest type of American submarine is superior in nearly every respect to the German U-boat.

The American boat is speedier, has greater radius of action and is much more habitable than the German boats. Naval officers are of the opinion that the American submarine is the more seaworthy. Of the characteristics of the two types the navy department says in an authorized statement:

"New and interesting light is thrown on the efficiency of the German submarines by recent tests conducted by officers in the bureau of construction and repair.

"An opportunity recently developed in this country which permitted a direct comparison between a late design of German submarine and a late design of American submarine. While details of the comparative tests cannot be given, sufficient information is available to destroy the much-advertised superiority of the German submarine.

Given Special Trials.

"As is well known, five German submarines of the latest design were brought to the United States for use in the Victory loan campaign. Four of these boats came over under their own power, manned by officers and men of the United States navy. The propulsiye machinery of the fifth was partially destroyed or removed, so that it was necessary to tow the vessel across.

"The best of these German boats was 'tuned up' for special trials. When reported ready for these trials a special board was designated to conduct the trials, following the established practice in carrying out contract trials for submarines of the United States KILLS navy. The boats compared were ex-German submarine U-111, built at the Germania yard, Kiel, Germany (com- Tuberculosis Claims 150,000 pleted in 1918), and S-3, a submarine designed by the navy department; S-3 was built at the Portsmouth navy yard and was commissioned in 1918.

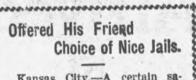

ton class,' U-111 having a surface displacement of 830 tons and S-3 a surace displacement of 854 tons.

very difficult ; frequently it is necessary to take down three installations to overhaul one. "On the contrary, S-3 is a habitable, livable - proposition ; comparatively roomy,' with reasonable accommodations for officers and crew. Her equipment is accessible and her general hab-Itability is vastly superior to the U-111.

"Much has been written of the seaworthiness of the German U-boat. An opportunity to compare the seagoing capabilities of the two vessels occurred during these trials, and the general consensus of opinion among the officers conducting the test is that the S-3 is the more seaworthy vessel. Her decks are drier, her bridge less subject to green seas and her general behavior in a seaway superior. "Referring to the comparative liv-

ing capabilities of the two vessels and general handling there are few differences and those few appear to favor ; the S-3.

"In the reports of the outcome of the comparative tests the bureau officers point out that there should be no idea that 'we have nothing to learn from the Germans.' There are a numher of interesting details in design, construction and in operation that are well worth while studying. A few features are worthy of adoption, for the U-111 is the 'mittel U-boat,' which type is considered by the Germans as by far their best submarine."

Kansas City .-- A certain saloonkeeper entered the office of Sam Hargus, assistant United States district attorney, here, and explained that he wanted to know if he could sell some liquor with his 2.75 per cent beer. Others were getting away with it, he declared, and he wanted to know if he could.

"How far would I get?" he asked. "Well," replied Mr. Hargus,

"seeing that you are an old friend I think I can fix you upso you could get your choice of any jail in the Western district of Missouri. We have some pretty fine ones; some say they have never seen better."

"I'll stick to my near per cent beer," replied the saloonkeeper as he hurriedly left.

Victims a Year.

"These boats both belong to the '800- Burvey Indicates 2,000,000 Unsuspected Sufferers From Disease In Nation.

What a relief to know that waffles, biscuits, hotcakes will be good every time with Occo-nee-chce. The cost is unusually low too, because it's cheaper to buy the extra ingredients this way. Get a sock of Occo-nee-chee Self-Rising Flour-it's a constant help to all housekeepers.

"In the trials the maximum surface speed of the U-111 was 13.8 knots, while able difference in favor of S-3. The committee of the National Tuberculoradius of action of the two boats is sis association. also in favor of S-3, despite all the furor that was created by the advent of the German U-boat on American coasts during the war.

"U-111 can cruise 8,500 miles at 8 knots, while S-3 can cover 10,000 miles at 11 knots. The submerged cruising radius shows an equal preponderance in favor of S-3. Both boats can carry 12 torpedoes. U-111 mounts two 4inch guns, one forward and one aft. S-3 mounts one 4-inch gun forward. this practice of one gun on a submarine being standard practice in the United States navy.

American Boat More Habitable.

vessels to appreciate the radical difference in their habitability, a vital military characteristic, for a submarine is no better than its crews.

> Charlotte, N. C .- A campaign for \$80,000 is being waged throughout North Carolina beginning October 20 and ending October 30, to provide funds with which to very greatly extend and enlarge the activities of the Y. M. C. A. in the state.

A splendid organization has been built up during the past few weeks sociation are confident that the public spirited, thinking people of the state will rally to so manifestly im-

portant and pressing a call. , An Ambitious Program.

The new program of the Y. M. C. A. contemplates these activities: The insuguration of social, educational, recreational and religious activities in small towns and rural com-

The extension of its work in industrial communities.

The extension of its work in col- opportunity both in this country and eges.

work in the several hundred high schools of the state.

The establishment of two permanent boys' summer camps, one in western and one in eastern Carolina. Assistance to the International

Committee in the prosecution of

 $(\cdot) - (\cdot) - (\cdot) - (\cdot)$

Probably no feature of the new program has attracted more attention than the prospective work in small towns and rural communities. This feature of the enlarged work, has been especially insisted upon and emphasized by service men who have returned to their homes in these towns and rural communities after having an opportunity to see the effectiveness and wholesomeness of "Y" activities in the army camps and in France. Four or five counties are already arranging for whole-time secretaries to take up this work which will be extended rapidly.

Importance of Boys Work. There are more than 300,000 boys in North Carolina between the ages of 12 and 20 years. The future of the state will be determined by those 200.000 boys. Thinking men in the state who are strongly supporting the Y. M. C. A. in its new program be-Work, Which Will Carry and Pro- lieve that "Y" activities in industrial communities, high schools, colleges and in towns and rural communities, ences in High Schools, Industrial as well as in the cities, are of the opinion that no agency and no factor can be so instrumental in promot-As in Cities and Towns-To Pro- ing high ideals of citizenship as the Y. M. C: A. Work among the boys is to be emphasized everywhere-in cities, industrial communities and rural districts, as well as in high school and college.

Distinctly Southern.

The new movement of the Y. M. C. A. is distinctly Southern. , The idea was conceived by Southern Y. M. C. A. workers at a conference several months ago and it has been worked on and developed to such a point that it has received the hearty and enthusiastic endorsement of the substantial citizenship of the entire state. From this citizenship must come the voluntary contribution of \$80,000 which is necessary to put on the new program of work.

Secretary Daniels Endorses.

Probably no well known American has had greater opportunity to see the "Y" tested under trying conditions than Secretary of the Navy Josephus Daniels. Secretary Daniels few days ago wrote the following:

"I am greatly interested in the South-wide campaign now being launched by the Young Men's Christian association. I have had excellent among our soldiers and sailors abread The inauguration of a program of to assess the value of the service rendered this organization to the young men in the army and navy and in civil life. It makes an appeal and furnishes inspiration, instruction and education to young men which is invaluable. An investment in this service to young men will pay a dividend larger than we can ever compute."
