AMERICAN COTTON ASSOCIATION SAYS HOLD YOUR COTTON

Cotton on Yesterday Advanced 2c on the Pound and Will Go Higher.

EUROPEAN COUNTRIES ARE SUFFERING A SHORTAGE Must Have Cotton in Order to Carry on Their Many Industries.

The advice to the farmers of Pitt county from the American Cotton Association, this morning, is to hold their cotton.

Cotton has never before, in all the years gone by, been in such demand as now. People are begging for cotton, and the manufacturers are appealing to the people to let their cotton go, but the day for the farmer has arrived, and the advice from the American Cotton Association should be heeded.

Yesterday cotton advanced two cents on the pound. The big state of Texas, the largest state in the Union, is paying 2 cents above the New York market. These facts speak for themselves, and should convince every farmer, that by holding his cotton, it will go to higher and higher prices. All European countries except England are without cotton to run their industries, and they will have to pay in order to get the cotton.

The day of opportunity has arrived, and by co-operation on the part of farmers, they can come into their own. The world must have cotton, and it is only fair that they pay the farmer for his hard and honest work in the cotton industry. The American Cotton Association is for the farmers, and its interest is centered in every farmer of every county, so the advice comes at the right time, and when it says "hold your cotton," they are saying "make your cotton bring money," and they will help the farmers in the following ways:

1. Furnish accurate and reliable crop reports to all local associations.
2. Furnish correct weather reports and forecasts for locals.
3. Help fight the boll weevil and other cotton pests.
4. Furnish accurate market reports every day and sometimes more often.
5. Secure information about spinners needs for raw cotton.
6. Market graded cotton in large quantities direct to spinners.

LABOR CONFERENCE ADJOURNS TODAY STRIKE WILL OCCUR

President Makes a Proposal for Arbitration but Miners Rejected It.

HALF MILLION WILL QUIT WITH NATION'S BINS LOW President Has Done All in His Power to Prevent the Threatened Strike.

Washington, Oct. 25.—The last government effort to avert the coal strike set for November 1, failed utterly tonight and half a million miners will quit work on the very eve of winter, with the nation's bins running dangerously low.

Even an appeal from President Wilson, sick in bed at the White House, was not enough to bring peace to a conference that was torn and on the breaking point half a dozen times during the day. Charges and counter-charges flew thick and fast as the groups of operators and miners filed out of the meeting which began somewhat hopefully four days ago.

While the operators announced that they had accepted the President's offer to wipe the slate clean and negotiate a new wage agreement, the miners charged that the operators had bolted without the consent of Secretary of Labor Wilson, the storm center of an extraordinary fight to save the country untold distress and suffering.

Surrounded by a score of miners, John L. Lewis, president of the United Mine Workers of America, hurried out of the hall without stopping but held long enough to announce that the strike order stood and that the miners would walk out after a full day's work on the closing day of the present month. The final breaking up of the conference, Lewis said, meant that official notice of the failure would be sent.

WEST VIRGINIA MINERS PLAN FOR AN ORGANIZATION

At a Conference of Coal Workers Many Armed, Becomes Effective Nov. 1st.

Charleston, W. Va., Oct. 25.—From 3,000 to 5,000 coal miners of the Lower Cabin Creek district in Kanawha county West Virginia, held a conference here tonight on the question of organizing the Guyan Valley coal fields in Logan county before Nov. 2, the date set for the bituminous coal strike, according to reports from Governor Cornwell's office. Many of the miners taking part in the meeting are armed, the governor's reports indicated.

Possibilities of a march to the Guyan Valley fields similar to the one attempted several weeks ago appeared, and were discussed at the conference. Information as to methods suggested for organizing the fields was unavailable, however as President Frank Kenney, and Secretary Fred Mooney of District 17, were out of the city.

As a restraining influence on the proposal of an armed march state officials believe Governor Cornwell's warning issued after the attempted march in September that any repetition of the demonstration would be regarded as insurrection against the government and treated as such, and the counsel of the more conservative of the miners, might be effective in causing the men to adopt other measures.

The seriousness of the situation was revealed today through a message from Governor Cornwell to John L. Lewis, (Continued on page four.)

RESULT OF EFFORT TO VOTE ON TREATY TODAY UNCERTAIN

Senators Effort to Assemble An Hour Earlier in Hopes of Finishing.

SEVERAL PRESENT HELP TO MAKE IT A LIVE DAY Sharp Words Were Spoken on Both Sides, in a Lively Debate.

Washington, Oct. 25.—After another day of debate on the Johnson amendment to the peace treaty, Senate leaders said tonight that although they would try to bring the proposal to a vote tomorrow they were by no means certain the plan would succeed. They set the time on meeting an hour earlier than usual in the hope that the senate might talk itself out before night.

During most of today's session the debate dragged along without much show of interest but just before adjournment the under current of bitter feeling cropped out in a sharp exchange between Senator Johnson, Republican, of California, author of the amendment, and Senator Hale, Republican, of Maine, opposing it.

Declaring that the amendment which proposes in effect that in any decision by the League of Nations the United States shall have as many votes as Great Britain and her colonies, would not in actual operation be equality in the league, Senator Hale argued that better results could be accomplished by a reservation on the subject. He alluded to Senator Johnson's plea yesterday that his amendment represented the interests of Americans and continued:

"Let me say to the senator from California that the motives of those opposing his proposal are every bit as high as his motives. I am just as

BRIGHT LEAF SOLD FOR HIGH FIGURES HERE DURING WEEK

Market Disposed of 1,874,996 Pounds in This Weeks Sales Period.

The Greenville tobacco market has passed another week in its wonderful progress, with splendid sales and high prices. It sold this week 1,874,996 pounds with one of the highest averages, if not the highest ever made, and in all probability it passed the high average which it made last week, when it made the highest average ever made in eastern North Carolina.

The market hasn't been flooded this week and all tobaccos have been handled without any trouble, with no block sale occurring. The factories are working both night and day, in order to handle the offerings both to the advantage of the warehousemen and farmer.

On next Tuesday, October 28th, the market will be closed on account of John Robinson's circus which will show in this city on that day. This gives the farmers and warehousemen, and buyers a holiday and also gives them an opportunity to attend the circus which is unusually good this year. The market will re-open the next day, Wednesday, and it is expected that it will be a splendid sales day.

Another good week is looked for next week and ever higher prices are predicted.

GREENVILLE BOY SCOUTS ATTENDED THE RALEIGH FAIR

Thirty-one Boys Accompanied by Prof. Rose Went to the Fair Yesterday.

SENIOR CLASS OF THE HIGH SCHOOL ATTENDED Class Accompanied by Miss Mial Had a Good Time at the Fair Yesterday.

(News and Observer.)

Thirty-two of the Greenville troop of Boy Scouts spent yesterday in Raleigh and at the State Fair and enjoyed both. They were in charge of Scout Master J. H. Rose, who is principal of the high school at Greenville. They made the Y. M. C. A. headquarters while here and were shown many courtesies by Mr. Lutman, who is in charge of Boy Scout work in Raleigh, as a member of the staff of the Y. M. C. A. Col. Fred A. Olds took the party to the Fairgrounds and assisted in explaining the exhibits. In the afternoon he took the boys to the Hall of History, the Capitol, the State Museum and other points of interest and gave them a view of the city from the roof of a sky-scraper.

Then the boys had a swim in the fine pool at the Y. M. C. A. and after supper went to the movies. They finished a day full of interesting things by a visit to The News and Observer office and found the big press, the battery of Linotypes and the stereotyping plant well worth the view.

The following boys made the trip: Mack Brown, Barry Jenkins, Willie Perkins, Harry Brown, William Brown, Wyatt Brown, Joe More, Charlie Forbes, Howard More, Edward Wilkerson, Hubert Bagwell, Guy Evans, Edgar Nelson, Alton Perkins, Jesse More, James Fleming, Robert Wright, Wayland Hart, Will Whedbee, Zeno Brown, (Continued on page four.)

MRS. DANIELS WILL SPEAK IN TWIN CITY ON Y. W.C.A. DRIVE

Congressman French and Wife of Secretary of Navy to Open Campaign.

Winston-Salem, Oct. 25.—The campaign for funds for the 1920 budget of the Y. M. C. A. and Y. W. C. A., will be launched Sunday afternoon when a mass-meeting will be held at a local theatre. Mrs. Josephus Daniels, of Washington, D. C., and Congressman Burton L. French, of Idaho, will address the meeting. The local committee will raise \$30,000 for the association during the campaign.

A memorial service to the late Theo. Roosevelt will be held here Sunday afternoon in connection with the Roosevelt memorial fund campaign. Judge Jeter C. Pritchard is expected to deliver the address.

Capt. Burdette S. Wright, of the Department of Aeronautics, has returned to Washington to report on the site selected on the Winston-Salem-Greensboro local aviation field to be known as the Maynard field. Captain Wright stated to the local committee that it would receive favorable recommendations and proper blanks from final information to be sent to Washington were left with the committee. Within a few weeks the field will be ready for landings.

Mrs. Elizabeth Oakley, aged mother of E. C. Oakley, of Greensboro, and L. C. Oakley, prominent realty man of this city, died last night after a lingering illness. The body was taken to Roanoke, Va., for interment.

CURRY SAYS HUFF AND CASTET FIRED UPON REG FULFORD

Eye Witness Voluntarily Goes Back to New Bern and Gives Affidavit.

GREENVILLE MAN SAYS HE WAS EYE WITNESS Fulford Thinking That He Was Dying Bid Farewell to Friend.

Additional evidence in the case of State against Thomas F. Castet, Harry Huff and Harvey Pelham, charged with being responsible for the shooting here early Wednesday morning of Mr. Reginald G. Fulford, of Washington, N. C., was given yesterday in the form of affidavits by one witness each for the State and the defense.

Louis Curry, of Greenville, who was an eye-witness to the trouble, voluntarily came back to the city and appeared before Mayor Dill, the trial justice in the preliminary hearing, at his office. Curry said that he had been to Watson's cafe for some oysters which he intended taking with him, and had just entered the transfer car of Bill Cannon, colored, when he heard the conversation that culminated in the firing of the shots. He said he looked over toward the car owned by Huff, which was parked on the opposite side of the street, and saw Young Fulford with his hand on the door of the car. Castet, Huff and the negro, Pelham, were all out of the car on the street. Castet took hold of Fulford by the front of the coat collar and told him that "this damned car was a private one and we have our own private chauffeur." This was in answer to the question if the car was a public transfer, which Fulford is alleged to have asked. A few seconds passed with Castet still holding to Fulford's collar, but Curry does not

SHERIFF DUDLEY ADDS TWO STILLS TO HIS LONG LIST

Sheriff and Deputies Locate Two Stills in Pactolus Section.

Sheriff Dudley and officers yesterday, added two stills to their list. The sheriff suspecting that something interesting awaited him in the Pactolus section went down to investigate. The first still receiving his undivided attention was located on the farm of Mr. Elsworth Evans. After capturing the still and pouring out several barrels of beer, he and his officers proceeded to the farm owned by Mr. Jules Brown, and here they found another still and several barrels of beer. Neither still was in operation. The operators of course, when absent, weren't apprehended. No monkey rum was found at either still.

Sheriff Dudley and his deputies are determined that the whiskey traffic in this county shall cease and they are leaving no stones unturned to accomplish this end.

GRIFTON GRADED SCHOOL TO HAVE A LARGE PLAYGROUND

Raises \$1,000 With Which to Equip a Playground for School Children.

PROF. UNDERWOOD SPEAKS ON ORGANIZED PLAY School Is Doing Splendid Work And Especially So in Domestic Science.

The progressive citizens of the Grifton school district took another forward step yesterday when they raised a thousand dollars for the purchase of playground equipment for their school. This school has already set the pace for this county and for this section of the state in a great many respects, and this is a new pace setting feat. Grifton was the first school in the county to put in a course in home economics, and has the best equipped department of any school in the state outside the large towns. It is the only school in the county that has a dormitory for both teachers and pupils. This was provided almost exclusively by voluntary community effort. The school itself is housed in a building that would do credit to a town many times the size of Grifton. The furniture and equipment are of the most modern type. The school has a splendid reputation with the colleges of the state. The people of the community are justly proud of their school and consider it their best asset.

Friday a few of the men of the community were invited to partake of a luncheon served by the domestic science department. Mr. A. G. Cox, Chairman of the County Board of Education and County School Superintendent S. B. Underwood were also present. After full justice had been done to a bountiful and well prepared luncheon, Mr. W. G. Coletrae, superintendent of the school, welcomed those present and invited them to a discussion of ways and means for supplying playground equipment for the school and community. He then called on the county superintendent of schools, who spoke for several minutes. He congratulated the men on what had already been accomplished, but said that the end was not yet. He outlined several progressive steps for the future. He discussed as the most pressing need, suitable and adequate playground equipment. He was followed by Dr. W. W. Dawson, Messrs. G. T. Gardner, C. J. Tucker, J. H. Barwick, J. W. Cutz, Chas. May, J. R. Harvey and Mr. A. G. Cox, the chairman of the county board of education.

Each of these gentlemen pledged hearty loyalty to the school and to the work in hand. Subscriptions amounting to \$755 were taken in a very few minutes, every man present subscribing liberally. After the meeting this amount was increased to more than a thousand dollars by those not able to be at the meeting. It was interesting to see the faith in the school expressed by these men. The statement was frequently made that the school was the community's best asset. The

FORGOT HE CHANGED HIS HAT

Aged Restaurant Patron Makes Search for Straw Toppiece, But Finds Own Derby.

Nice old gentleman in the restaurant, with a long line of hat trees running down the center. His dinner finished, he picked up his check and turned to the hat tree back of him and took down his hat, or the hat he had no doubt was his, but when from force of habit he looked inside of it to make sure he found that it wasn't his hat at all!

So he put that hat back on the tree and tried the next most likely one, but with the same result, and it was the same with all the hats on the tree, which he looked into one by one until he had looked into all excepting a black derby, which he did not inspect, for what he was looking for was a straw.

But then, to leave no stone unturned, he took down that black derby and looked into it; and, good gracious! that was the hat he was really looking for; that black derby hat he was now looking into was his very own.

He smiled as he put it on. He had changed that morning from straw to felt and then had forgotten all about it.

SATURDAY, OCT. 25, 1919.

Some people do not seem to care how they get money, just so they get it.

If you fail to set your clock back an hour before retiring tonight you may get up that much too soon in the morning.

The Federal court in Washington this week had several convictions in moonshine cases with prison sentences following. That goes a good way toward putting a stop to this class of lawlessness.

The only change in coming back to sun time Sunday morning will be to move clocks back an hour. Trains, schools and business will go right along on the same schedule as before, observing the same hours by the clock.

A man's conscience, to say nothing of a fear of being overtaken by the law, should deter him from profiteering off his neighbor. Plain, old fashioned honesty seems to have become a thing of the past, yet it is worth more to a man than all the money he can make dishonestly.

If this world was the end of existence some might claim justification in living and acting as they do. With a future existence of either woe or joy to be faced, it is not easily understood why rational people do not think on these things. "What doth it profit a man if he shall gain the whole world and lose his own soul."

A week from today the new series of shares in the Home Building and Loan Association will begin. That applications for more than a thousand shares in this series are already in the hands of the secretary is the best evidence that the people have confidence in the association and appreciate the benefit it brings them. The Reflector gladly makes frequent commendation of this institution because it believes in the building and loan idea, and has seen the good that has come to the community through the local association.

The opposite side of the street is one thing that never comes to the man who waits.

When the weather settles you may look for some that is colder.

GRIFTON GRADED SCHOOL TO HAVE A LARGE PLAY GROUND

(Continued from page one.)
cashier of the bank said that it had created more material wealth for the community than any other institution in it. At least two very desirable new-ers to the community said that the school had attracted them there, and that others would come as soon as homes could be found.
The school is already serving a clientele that is not confined to the local district. The enrollment is considerably larger than the census. Mr. W. G. Coltrane is the principal. The other teachers are Mrs. W. G. Coletrane, Misses Eva Logan, Kathryn Bailey, Ella Bonner, Ruth Hooks, and Laura Newton. Each teacher has the undivided support of the people. In fact, the statement was made by Chairman Cox of the county board of education that so fine was the school spirit at Grifton that there had never been the slightest friction manifested.
The district already pays the highest school tax of any district in the county, and it is paid cheerfully. In addition to the tax, the patrons have contributed thousands of dollars for dormitory, domestic science and music equipment, furniture, library, and finally for playground equipment. Grifton believes absolutely in its school.

RESULT OF EFFORT TO VOTE ON TREATY TODAY UNCERTAIN

(Continued from page one.)
much opposed as he is to inequality in the league, but I believe in meeting it with a reservation which will remedy it, rather than with an amendment which will not."
Senator Johnson replied that the opposition seemed to him to be based on unwillingness to go even as far as his amendment would go, rather than on a fear that it did not go far enough. He repeated that he considered it an embodiment of Americanism and added that before the subject was closed Senators would have an opportunity of showing where they stood on another amendment which would go far enough to suit anybody.
"I am glad," Senator Hale retorted, "to see the senator set up as a test of Americanism his own amendment, but I cannot accept that test for myself. If he has any question of my patriotism, he is welcome to it."
During the session Senator Shields

of Tennessee, a democratic member of the Foreign Relations committee spoke for an amendment or reservation to equalize the league voting strength and Senator Gronna, Republican, North Dakota, made a three hour attack on the treaty and the league. Tomorrow Senator Lodge of Massachusetts, the Republican leader, will speak for the Johnson proposal.

GREENVILLE BOY SCOUTS ATTENDED THE RALEIGH FAIR

Dick Williams, Roger Smith, D. S. Smith, Jr., Sidney Skinner, Justice Everett, Jarvis Tripp, Marvin Sugg, Norman Winslow, Mike Mayo, Johnnie Overton, Robert Arthur, Leslie Humber and Patrick Nelson.
Fourteen of the Senior class girls of the Greenville high school also spent the day here, in charge of one of the teachers, Miss Corinna Mial, of Raleigh, and this group was shown the sights of the town and enjoyed them greatly.

DIAPHANOUS DANCE FROCKS

The list of the latest frock that is entrancing as ever and the best designers of two continents lend their genius to frocks that express the spirit of the dance. We have many new models in Tulle, Chiffon, lace nets and Satins.

We cannot do justice to their beauty in a few lines of cold type. But when you see them you will realize that American Fashions are again at the high water mark of charm and distinction, and that these are indeed the most striking creations shown since the days before the war.

The season of formal evening affairs is approaching and the question of an evening gown becomes important. Then again cupid has been shooting at random and from Dame Rumor we hear that his arrows have taken effect and soon Dame Fashion will have full swing. So let us suggest that you make an inspection and your selection from among the many wonderful dresses we have to show you. Dresses for any and all occasions. Let us show you.

WEST VIRGINIA MINERS PLAN FOR AN ORGANIZATION

president of the United Mine Workers

of America, in which he charged that a second armed invasion of the Guyan Fields was contemplated. He charged also that arms and ammunition had been distributed among the miners and that there had been talk of taking over control of the government. The message was in answer to a dispatch from Mr. Lewis in which he said he would not press for Federal investigation of the Guyan fields at this time.

ATTENTION LADIES

No material has ever been discovered that is better suited to childhood than the gingham you wore when a school girl. You can still buy frocks that are fresh and crisp, made with conscientious thoroughness in sizes 8 to 14 and 12 1-2 to 14 1-2 and 16 1-2 for the junior girls. Prices from \$1.50 to \$5.00. It is not at all difficult to look neat about the house if you will select some of the house dresses. We are showing cool, colorful, simple. They are the personification of personality. Don't forget to ask for bungalow aprons and house dresses.

Separate skirts are going big and our showing is large, the colors do not shriek and the patterns are not noisy; yet these skirts are very attractive to the young miss as well as the sedate matron. There is a snap to the style that can't be beat. Come in—let us show you the many desirable things we have show you.

THE NORTHERN STATES HAVE ADOPTED THE 56" AUTO TRACK WAGON

Which Wagon?

The One that Fits the Road—or the One that Rides the Ridge

The Standardized 56" auto track wagon is the wagon you want to buy.

This Wagon is Out of Date. This 60" auto track wagon no longer fits the roads when they are muddy and soft.

WOULDN'T you rather buy the style of wagon recommended by your Government, especially when it is designed to pull easier, ride smoother, and last longer—the wagon that fits the roads and does not ride the ridge?

The Standardized Weber "Auto-track" Wagon saves wear on itself, other wagons, automobiles, and rubber tires.

The Weber fifth wheel and swivel coupling wagon is either sold at a price much too low or most other wagons are sold at prices much too high, quality considered. Compare and draw your own conclusion.

To date the leading wagon manufacturers of America have sold at the most conservative estimate 100,000 standardized auto-track wagons. From this introduction it is but a step to universal use of this type of wagon. Wouldn't you rather be identified with progress and recognized as an up-to-date farmer by doing your hauling with such a wagon than to be classed as an unprogressive "back number" by buying a 60-inch wide-track wagon, thereby helping some manufacturer and dealer to "unload" an obsolete type? Think it over—and then come and see us about a standardized auto-track Weber.

MRS. A. M. MOSELEY AT HOME.

The home of Mrs. A. M. Mosely was a scene of loveliness on Friday afternoon when she gave a reception in honor of her sister, Mrs. George Burwell Cooper, who has recently returned from London, England.

The guests entered the large and spacious reception hall which was a bower of potted plants, ferns and baskets filled with pink and white chrysanthemums. The rose colored lights shed a ray of loveliness on the beautifully gowned young women who assisted Mrs. Mosely in entertaining. The guests were received at the door by little Misses Polly and Maude Fulford, Mrs. E. B. Ficklen and Mrs. Thos. Moore then gave each guest a hearty welcome greeting.

Mrs. Mosely looking lovely in a gown of blue satin and silver received her guests with her gracious hospitality. Mrs. Cooper welcomed her friends again with the same bright charm of manner, which is peculiarly her own.

Mrs. H. W. Whedbee and Mrs. James Hinos invited the guests into the dining room, which was a veritable bower of beauty, being filled with pink roses and ferns, the table was especially lovely with a silver basket of roses, silver and pink candles and silver shades. Ices were served on large silver platters at each end of the table by Mrs. Albion Dunn and Mrs. S. T. White, Mrs. G. B. W. Hadley and Mrs. A. L. Blow assisted by Misses Helen Laughinghouse, Alice Howison, Nell White and Alice Fulford who served the guests.

Mrs. W. E. Hooker, Mrs. W. L. Best, Mrs. J. N. Gorman and Mrs. Guy Smith were in the hall. About 150 people enjoyed this lovely reception. It was indeed a pleasure to Mrs. Cooper to be given this splendid opportunity of seeing all of her old friends again.

POEMS IN COLOR

The new Fall Blouses are shown in tints as exquisite as the plumage of the tropical song birds. They have risen to such popularity that today many diverse modes and designs are shown. They come in contrasting hues—rich Rubies, transparent turquoise, the yellow of beaten gold, the green of uncut emeralds, the purple of ripened grapes. But don't fail to see our navy and burnt orange combination. We all say it is rhapsody in

expression. Like a burst of splendid music, when a door is suddenly opened—that is how these magnificent blouses impress one at first sight. But on second sight we can easily recognize our old time friends the plain shirt waist in Flesh, White, Navy, Black and Brown, in sober Georgette and Crepe de Chine and at prices that really seem like old times. Don't forget a large showing awaits your inspection or selection. Come to see us.

PITCAIRN ISLAND IS LONELY

Natives Occupying Spot, Peopled by About 150, Have Degenerated Through Intermarriage.

Home is where the heart is, but the heart picks out some most unusual locations at times. Rather near, as Pacific ocean distances go, to the Society Islands, is Pitcairn Island. It is certainly a lonesome spot, says the New York Sun, and as far back as 1856 the British authorities decided that it was no fit place for human habitation. So, the descendants of the mutineers of the "Bounty" who had settled there in 1790 were transferred that year to the more inviting Norfolk Island. Several families, however, were so homesick that they went back to Pitcairn.

The population from these few families has now increased until about 150 people are on the island. Through intermarriage and other evils of isolation these islanders have degenerated and their retrogression undoubtedly will end in their extermination.

Phonograph Repeats Record.

When the needle comes to the end of its travel and the music ceases the owner of a phonograph equipped with a new attachment, says Popular Mechanics magazine, takes no heed, and a moment later the machine is playing the same air over again. This interesting result is achieved by means of a metal arm pivoted at a point outside the turntable, its inner end resting upon the projecting tip of the spindle. At the end of the record the traveling sound box engages a trigger which actuates a vertical screw, and the metal arm rises, lifting the needle from the record. The sound box slides back along the inclined arm to its starting position, the descending arm replaces the needle accurately in the outer groove, and the music goes on.

Wealth in Waste.

The foundation of some of the most prosperous corporations were laid in utilization of what was formerly waste. The field is still open to the southern pine lumbermen. The annual cut averages 15,000,000,000 feet, board measure, and for one foot that goes to the lumber piles two go to waste. Chemists would say this was not waste, but wasted raw material for vast quantities of paper, twine, bags, pulp boards, turpentine, rosin, pine oil, charcoal, tar, varnish, ethyl alcohol and acetic acid. Yet lumbermen throw away this great source of wealth and complain of the high cost of producing lumber.—Wall Street Journal.

Myriad of Snowballs.

A singular phenomenon, reported to science by L. E. Woodman, was witnessed last March around Bangor and Orono, Maine. A four-inch fall of snow was followed by high wind, and occasional gusts caught up large flakes and rolled them over in the damp top layer, forming a myriad of snowballs from two inches to nearly two feet in diameter. The triangular trail of one was 36 feet long. The balls were largest on downward slopes, and a measured one had a horizontal diameter of 20 inches and a vertical diameter of 14 inches.

Pursued.

Nathaniel Hawthorne's handwriting was so illegible that some of his manuscripts remained unpublished because nobody could read them. This was likewise true of Carlyle. The story is told of a type compositor who was employed by a London printing office because of a strong recommendation brought from Scotland. The first piece of manuscript given him to set was by Carlyle.

"My God!" said the new typesetter. "Have you got that man here too? I fled from Scotland to avoid him!"—Ladies' Home Journal.

RED CROSS GIVES FULL ACCOUNTING

War Council Tells How Millions
Contributed by Public Were
Used For Relief.

BIG TASK IS DESCRIBED

In Twenty Months \$454,000,000 Was
Spent Overseas and \$119,000,000
in the United States.

Washington. (Special.)—Through a complete report of the work of the American Red Cross in the war by Chairman Henry F. Davison, on behalf of the war council, the organization on the eve of its annual enrollment of members during the Third Red Cross Roll Call, November 2 to 11, has rendered an accounting of the many millions given it by the American people to help our fighting men and our allies. The statement is, in part, as follows:

"The war council of the American Red Cross is now prepared to make a complete accounting to the American people of money contributed and expended, as well as the work done by the American Red Cross during the period in which the war council was in control of its affairs. The war council was appointed May 19, 1919, and went out of existence February 28, 1919.

"It was the practice of the war council to give complete publicity to its policies and finances, but it is only now that a picture of the war period as a whole can be presented. It is the feeling of the war council that a report in this summarized form should be made directly to the public which provided the money and gave the effort which made the American Red Cross a success.

"A statement of the American Red Cross effort and finances since the war council relinquished its control will be made to the public through the executive committee, and it is important, therefore, that the fact that this report covers the period only until March 1, should be carefully noted."

Following are certain round figures covering American Red Cross participation in the war, as revealed by the war council's report:

LABOR CONFERENCE ADJOURNS TODAY STRIKE WILL OCCUR

(Continued)
forthwith to the unions everywhere to order the men out of the mines at the appointed hour.
The President's appeal was made through Secretary Wilson after the latter had exhausted every possible effort and had pleaded until his throat bled. It pointed out what a strike meant and urged the two sides to get together, negotiate their differences, resorting to arbitration only in the event that negotiations failed. The important point in the proposal, however, was that the mines be kept open and the miners stay at work.

FORBES PROPERTY BRINGS A HIGH PRICE TODAY

The Forbes property which is located in front of the Model School and which was sold at auction today brought the handsome price of \$26,085.

NEVER SO HIGH.

Tobacco was never as high as now. Lots of grades have advanced from 5 to 10 dollars per hundred at the LIBERTY this week. Breaks are light, every house finishing by the dinner hour. We look for light sales from now on, with still higher prices. The LIBERTY is averaging from 90 to 96 dollars per hundred for lots of our customers. Bring me your next load and you shall have the biggest sale you ever made.

Sale card for next week: 1st sale Monday, October 27th.

No sale Tuesday, Circus day.
3rd sale Wednesday.
1st 2nd sale Thursday.
1st sale Friday, October 31st.

SELL AT GORMAN'S

The market sold this week 1,874,996 pounds. Gorman's sold 686,178 pounds of this. Our Friday's sale of 207,156 pounds brought \$123,561.34, average \$60.00. In this sale we had 17,438 pounds which sold from 1c to 17c which averaged \$11.16. Deduct this and we have 189,718 pounds averaging \$64.10. Note what a difference a small lot of common tobacco makes in an average. We never saw good tobacco as high as it has been this week. No sales Tuesday on account of Circus.

We have 1st 2nd sale Wednesday; 1st sale Thursday and 3rd sale Friday.
