SENATE QUALIFIES ARTICLE TEN FOR LEAGUE COVENANT

Standing Behind President Reservations Put Reservation Through.
FOUR DEMOCRATS HELP TO CHANGE IN PURPOSE
Republicans Vote to Limit Discussion on the Entire League Covenant

Washington, Nov. 14.—Squaring the issue with President Wilson, the senate adopted today a reservation qualifying the obligations of the United States under article ten of the League of Nations covenant.

A solid Republican lineup, reinforced by four Democratic votes, put the reservation across exactly as it came from the foreign relations committee and in virtually the language which the president declared on his Western tour would cut the heart out of the covenant and mean the rejection of the treaty. The vote by which the reservation won was 46 to 33.

The fight for reservations having thus been carried to a climax the Republicans presented for future action a closure proposal designed to bring final action on the question of ratification within a week. A sweeping measure, proposing limitation on the reservation debate only, had been put in by the Democrats earlier in the day, but rejected when the Republicans voted to sustain a point of order against it.

A vote on the question of closing down a debate will come Saturday morning and the Republican leaders say it will depend entirely on the Democrats whether the move rallies the necessary two-thirds to make closure effective. The Democratic leadership were not ready tonight to say how they would vote, being fearful that agreement to so sweeping a program might imperil their chances to secure action on a ratification resolution of their own.

The article ten reservation as adopted by the senate follows: "The United States assumes no obligation to preserve the territorial integrity or political independence of any other country or to interfere with controversies between nations—whether members of the league or not—under the provisions of article ten, or to employ the military or naval forces of the United States under any article of the treaty for any purpose unless in any particular case the congress, which, under the Constitution, has the sole power to declare war or authorize the employment of the military or naval forces of the United States, shall by act or joint resolution so provide."

In only two particulars does this language differ from the proposed reservation which the President declared at Cheyenne, Wyo., he would be obliged to regard as a rejection. As read by Mr. Wilson, the phrase "under the provisions of article ten" occurred at a different place, and the final word "provide" was changed to "declare."

GREAT BRITAIN AND FRANCE WILL DISREGARD RESERVATION

Paris, Nov. 14.—Great Britain and France will disregard reservations to the peace treaty adopted by the United States senate. It has been learned from semi-official sources. In the French foreign office the idea prevails that, while ratification has been delayed by the senate, it will doubtless ultimately be voted and that Allies need not be concerned over manifestations of American internal politicians or directions to government as to how to apply the treaty, but should the American government request Allies to take notice of reservations and assent to them formally, it is understood from the semi-official reports that neither London nor Paris will acquiesce.

BALTIC STATES CONFERENCE TO HELP CAPTURE PETROGRAD

Helsinki, Nov. 14.—The Baltic States conference at Dorpat has advised Finland it has decided to aid General Yudenitch with thirty thousand volunteers in a new attempt to take Petrograd within the next few weeks.

SEVERAL CASES IN THURSDAY SESSION OF CIRCUIT COURT

Court Officials Down to Business After Long Issues Had Been Settled.
FOUR DIVORCE CHARGES RECEIVE CONSIDERATION
Two Other Minor Actions Completed Activities of Eventful Occasion.

Shortly after the verdict had been returned in the Mayo libel case and action had been taken in the Kettles' murder case, criminal court of Pitt county settled down to business under more favorable conditions yesterday evening, and was able to relax from the tension created by the hard fought cases which had been consuming the time of officials ever since the past Wednesday morning, without only intermissions interrupting the incessant grind attending the actions. Several cases of minor importance received direct disposition during the evening session, including four divorce cases instituted by members of the colored race, and two other actions which have been pending for hearing for the past several days.

Court work for the past three days has been held up to no little extent by the long drawn out libel case against J. L. Mayo, of the Greenville Publishing company, in which examination of witnesses and argument of both state and defense required more than usual time, resulting in speedy work on the part of closing features of the controversy. It was expected that the attention of the court for the remainder of the week would be continued.

LOVE COMEDY HAS BEEN SECURED TO PLAY GREENVILLE

"I Love You" Scheduled to Appear at White's Theatre on Tuesday Night.

"I Love You," which comes to White's theatre for next Tuesday night is a welcome relief from the bedroom-bathroom type of farce which has flooded the stage for the past year. G. M. Anderson's sparkling satirical farce comedy, from the pen of William Le Baron, offers a rebuff to those who hold to the opinion that to be funny a modern farce must continually glide over the thin ice which lies between respectability and vulgarity.

To use the words of Charles Collins, the able reviewer on the Chicago Post, "I Love You" does not place its faith in doors, or beds, or the dire aftermath of a night out with the boys, or the ridiculous fears of a fat man afraid of his wife. It does not endeavor to communicate mirth through shrieks and tumult. Its plot cannot be stopped at any moment by a single honest word. It dispenses altogether with the hokey, old-fashioned Gallic formula of incredibilities. It represents the New Movement in farce—it is a consistent dramatization of a whimsical idea."

The plot of the play concerns the wager of a man who holds that love is purely a matter of circumstance; that any two beings of the opposite sex can be brought to admire each other in an unbelievably short time provided that they are placed in an atmosphere agreeable to the processes of the bow-and-arrow baby. To prove his case the man in question permits the gentleman with whom he wagered to pick out any two healthy candidates, regardless of their social or intellectual differences. Then he sets to work to conduct his experiment with some paltry thousands hanging on the success or failure of the test. To collect his bet he enlists the aid of a wandering violin-player, a union electrician who agrees to wear a dress-suit and act as the male portion of the conspiracy.

PLATOON OF FIFTH REGIMENT MEN TO VISIT THIS PLACE

Members of Famous Fifth Artillery Will Arrive Here Sunday, Nov. 16th.
MEN ARE SENT OUT IN INTEREST OF THE ARMY
Native Carolinian Will be in Charge of Soldiers on Arrival Here.

The Chamber of Commerce has received the following letter from Captain Shutter of Camp Bragg, N. C. Chamber of Commerce, Gentlemen:

"This office is in receipt of a number of communications from the Chambers of Commerce of various cities and towns in North Carolina, anent the platoons from the Fifth Field Artillery Brigade, Regular Army, which are leaving Camp Bragg for a tour of the state. So much friendly interest has already been shown, that it is felt safe to assume that the people of your community will feel no less an interest. I therefore, take the liberty of enclosing a tentative schedule of the line of march of the platoon which is to visit your community, from which you will be able to ascertain the dates on which they expect to be with you. And with the end in view of further acquainting you with the prominent part which this Brigade has played in the present war, I am enclosing a brief outline of the overseas history of this unit.

"The policy of the War Department in having these platoons make the tours on which they are now engaged, is primarily, to bring the people of North Carolina into closer touch with the army."

TWO MONKEY RUM JOINTS RAIDED BY SHERIFF AND MEN

Still Captured Last Night and Traffic Member and Rum Taken this Morning.

Notwithstanding the numerous activities falling to their lot during court week, Sheriff Dudley and deputies have found enough time within the last twenty-four hours in which to effect the capture of two monkey rum stills, one keg of wine, three gallons of monkey rum and destroying of practically 500 gallons of beer. D. P. Moseley, of the Falkland vicinity, was the only whiskey traffic member apprehended with the two hauls, being placed under \$500 bond for his appearance in a preliminary hearing in this city Saturday. The first of the raids occurred last night when the officers left this city about 7 o'clock, arriving in the Falkland vicinity shortly before 8 o'clock. They went immediately to the home of Moseley where, after a short search three gallons of whiskey were found in the house and the keg of wine later discovered in the smokehouse after some little time spent in examining the premises.

The officers left the city at an early hour this morning for the Black Jack territory, and even before people were stirring around, had captured a still located in the woods between Black Jack and Hudson's X Roads. No whiskey was found in this haul, but there were several barrels of beer, totalling possibly 500 gallons. The owners of the still have not been apprehended up to this time, but it is believed that arrests will follow shortly as the officers have pretty good information concerning their identity.

These two hauls speak favorably of the splendid effort being put forward by Sheriff Dudley in suppressing the enormous proportions of the monkey rum traffic in many parts of the county, and shows that when they go after the offenders of the law they generally get them.

DISTRICT MEETING OF ODD FELLOWS HELD IN THIS CITY

Several Members of Second in District in Convention With Local Lodge.
ELLINGTON ELECTED PRESIDENT FOR YEAR
Next Meeting to be Held in Belhaven the Second Thursday in March.

The second district convention of Independent Order of Odd Fellows which convened in this city yesterday afternoon at 2:30 o'clock was brought to a conclusion last night following several interesting occurrences during the activities of the afternoon and night sessions, including several addresses by prominent members of the fraternity, and the election of A. B. Ellington of this city as president for the ensuing year. Practically every lodge in the district was represented, and for that reason, the event was one of more than general interest in every instance.

The meeting was called to order in the local lodge rooms yesterday evening by President S. B. Currin, of Coramant lodge, and was followed immediately by prayer by D. G. Berry of Ayden. The roll call showed that every lodge of the district was well represented, the various members reporting everything in splendid and flourishing condition with good increase in membership and interest pleasing in every particular. A committee was appointed to draft resolution on the death of Moore, Widdell and Deacon who died during the last session of the convention.

The afternoon session was concluded at 10 o'clock.

ARTICLE SAYS THE ARMISTICE DANCE FEATURED IN RUM

Washington Daily Newspaper Carries Reflection on Dance in This City.

The following clipping, taken from Thursday's edition of The Washington Daily News under a Greenville date line, referring to the Armistice dance here Wednesday night, will be read with interest by people in this city, owing to the entirely new sentiment expressed in the same:

"A combination of monkey-ram, jazz music, the shimmy and a number of original variations of that newest offspring of Telemachus helped to create a dance at Barnes & Morton's warehouse last night that was a howling success. During the latter part of the dance the "success" was eliminated and it was pure "howling."

It was a very aristocratic affair. Punch a la Monk was served during the course of the evening. It wasn't long before the monk made its punch felt. And that's where the dance began to hit the high spots. It soon became noticeable that several couples were suffering from a severe attack of the chills, ague and St. Vitus dance. Later, during the course of the dance, a number of versatile couples began to improvise upon Professor de Shimmy's mode of stepping. The improvements were interesting, to say the least.

The dance grew more joyous as it went along, the music grew jazzier and the monk grew monicker. It wound up in a whirlwind finish. Many of the dancers were still wound up this morning.

MAYO FOUND \$100 AND COSTS BY THE COURT.

Shortly after noon today Judge J. H. Koss, returned his decision in the case against J. L. Mayo of the Greenville Publishing Company, who was yesterday found guilty of libel. The sum involved being \$100 and costs.

FINANCIAL REPORT OF MEXICO SHOWS SLIGHT DEFICIENCY

Louis Cabrera, in Submitting Report, Sees No Reason for Pessimism.
HEAVY REVENUE OF 1920 IS ESTIMATED IN REPORT
Secretary Admits that His Nation Is Dependent Upon Foreign Capital.

Washington, Nov. 14.—Luis Cabrera, secretary of the Mexican treasury, discussing the economic conditions in Mexico in his annual report to Congress, details of which have reached Washington through official channels, declares that there is no reason for "extraordinary optimism or for black pessimism." He estimated the revenue for the year 1919 at 149,384,000 pesos, although President Carranza, in message to Congress Sept. 1, 1919, estimated it at 162,000,000, basing his estimate on the returns for the ten months from September, 1918 to June of this year. The revenue for 1920 is estimated at 167,000,000 pesos.

In submitting this report to the House of Deputies, Secretary Cabrera says that "while the difficulties experienced by the Federal Treasury, due to causes well known to all, are far from having disappeared, unmistakable signs of improvement have been noted in many aspects of the economic conditions of the nation and hence in the financial situation of the Federal government." He admits that Mexico was formerly and still is dependent upon foreign capital, including conditions in all the so-called "young nations" of the world which.

RED CROSS DOING SPLENDID WORK IN GERMAN SILESCIA

In Land of Bitter Boundary Controversy Organization is Doing Splendidly.

Grodziec, Poland, Nov. 14.—Down here in former German Silesia, where Poland and Germany are engaged in a bitter controversy on boundary questions, American Red Cross workers have been delivering their supplies under the unfriendly supervision of a long line of German observation balloons. These supplies, unloaded on the Polish side of the frontier, were for Polish refugees who have passed and are still passing into Poland from Silesia.

When the boundary question first became acute, Germany started to make a warlike show along the frontier. There were German troops engaged in military manoeuvres just across the river from Grodziec; there were many raincoats of field artillery ostentatiously brought to the frontier and planted in hidden emplacements behind the hills; there were scores of airplanes and observation balloons, the latter on display every morning, bobbing at their slender strings. By night also there was a continual bustle on the German side of the line,—signalling and night manoeuvres. The frontier which here lies along the little River Brynles, bristled with armed guards and pickets. It was the show-window of war's preliminaries, designed to impress the people across the border with Germany's power and earnestness.

The Polish authorities estimate that 35,000 Polish refugees have fled across from German occupied Silesia since August 18. At first the Germans made no objection to this wholesale exodus; rather, they favored it. But now they have strengthened their guard at the frontier and shoot on sight anyone attempting to cross the line in either direction. Yet from 500 to 700 refugees are crossing the border into Poland every twenty-four hours, mostly at night.

MANY VICTIMS OF RUSSIAN OUTRAGE FOUND NEAR KIEV

Bodies of 4000 Persons of Bolshevik Reign of Terror Are Found Daily.
THREE IRISH OBSERVERS RELATE HORRIBLE CRIME
Awful Proceedings of Court Verdicts Graphically Portrayed in Story.

Kiev, Nov. 14.—Bodies of victims executed by the Bolsheviks during their occupancy of this city are constantly being found and the first estimate of 4000 is evidently much below the real total.

Three Irish girls, Eva, May and Eileen Healy, who lived in Kiev during the last six months of Bolshevik rule, gave the correspondent an account of Bolshevik operations. "The atrocity of the Romanoffs, with all its evils," they said, "was paradise compared to the Bolshevik. The last few months, in the shades we have been living through a majority of the members of the Kiev Committee of Public Safety, were always under the influence of drinks or drugs, transcended all conceivable awfulness. After every meeting, huge heaps of empty spirit and wine bottles and scores of morphine and cocaine bottles were found.

"The members of the chief of the committee sat before a cage with wooden bars reaching to the ceiling. The prisoners were marched through the cage to be reviled and sentenced to death. Victims were made to stand naked and carried off to the slaughter house.

"Another committee conducted its proceedings in the open air in a beautiful garden. The judges sprawled over a table and pronounced death sentences wholesale, drinking champagne in the intervals. "One woman over 60 years old was arrested and taken out several successive nights to a firing wall against which she was placed while shots were fired around her head. This was done to extract information as to the whereabouts of an officer's son whom she didn't even know. She was finally executed. A priest was crucified."

TWO HUNDRED I. W. W. MEMBERS ARE PLACED UNDER ARREST

Seattle, Nov. 14.—Nearly two hundred men suspected of being members of Industrial Workers of the World are in jails in various cities and towns in the Pacific northwest today as a result of raids growing out of armistice day shooting at Centralia, Wash. An additional twenty-six men of the Industrial Workers are in jail at Centralia and Chehalis in connection with the shooting.

RIO DE JANEIRO HAS NEW WOMAN OFFICER

Rio De Janeiro, Nov. 14.—The first woman to seek election to public office in Rio de Janeiro is Dolinda Daltro, a professor in the public schools, who announces her candidacy as representative in the city council in the next municipal elections.

Me. Daltro frankly admitted in an interview that she has not much hope of winning. She declared, however, that defeat at the polls was of less importance than the fact that she will be making a fight for the emancipation of her sex. Her main object, she said, will be to provoke debates on what she considers the most serious problem of obtaining political rights for the women of Brazil, who at present are not entitled to vote.

Mrs. Daltro, who is a widow, has been prominently identified with educational and welfare work in Brazil for many years.

Are You a Dangler?

A dangler is one who dangles, that is one who awaits the decisions of other people instead of choosing his own course and making circumstances conform to it. The dangler may be found any day in the open market, complaining because nobody hires him, or her, as the case may be. Our most celebrated and successful laborers asked no odds of anybody. They simply went to work, somewhere, anywhere that offered opportunity, and then they helped to build up the community that supported them and so became in time "grand old men," who to undiscerning minds seemed to have been wonderfully favored by fortune. They did not dangle, but became the strong supports upon which folk of a weaker sort leaned, and not in vain, that virtue would come out of them.

Artificial Sponge Propagation.

The growing scarcity of sponges has warned those familiar with harvesting them that unless means are provided to augment the natural supply the sponge industry will be seriously crippled in a few years more. An Englishman, living in Florida, some time ago selected a site off the Florida coast, where he started a sponge farm. At present he has about 600,000 sponges, which are capable by subdivision of increasing about tenfold every three years. At the end of three years an annual yield of 2,000,000 sponges can be had. — Portsmouth Chronicle.

The Big Mistake.

The only big mistake the Lord ever made, writes Aunt Mandy in the Paris Mercury, wuz in leavin' so many places to put things. I've been lyin' to the major ever Saturday night for fifty years about his red flannel underwear an' he always ketches me in it. No woman kin keep her religion an' have the job uv puttin' a man's things away once a week fer that long. It 'll make a liar out uv the best woman that ever lived, an' it makes me ashamed ever time I think uv how the major has kept his confidence in me. — Kansas City Star.

Habitual Tendency.

"This show was written for the tired business man," remarked the manager. "The production cost a fortune."

"That's the one thing," replied Mr. Dustin Stax, "that bothered me. I'm a tired business man myself, and I got so busy figuring how you are going to pay interest on your investment that I couldn't keep my mind on the performance."

McG. MANNING FARM

TO BE SOLD AT AUCTION

IDEAL SMALL FARMS, McG. MANNING FARM, SUBDIVIDED, NOW OWNED BY W. J. MANNING, ON GREENVILLE AND BETHEL HIGHWAY, FIVE MILES FROM BETHEL, N. C. TEN MILES FROM GREENVILLE, N. C.

Thursday November 20th.

AT 10:30 A. M.

DESCRIPTION OF THE PROPERTY TO BE OFFERED

Some of the best and most productive farming land in Pitt county... The McG. Manning farm, now owned by W. J. Manning, subdivided into small acreage tracts, located on the Greenville and Bethel Public Highway, 5 miles from Bethel, N. C., 10 miles from Greenville, N. C., centrally located, stores, churches, banking facilities and railroad connections nearby. This farm consists of about 700 acres, with about 300 acres cleared and in a high state of cultivation. The soil of this farm is adapted to all crops produced in this section, such as corn, cotton, tobacco and potatoes. This is also a very fine stock raising section; sufficient timber on the property for erecting additional buildings if you so desire, also cord wood in abundance. Improvements on the place consist of a main dwelling, a number of tenant houses, barns, stables, pack houses, tobacco barns and other outbuildings which are in good condition.

We believe an inspection of the tracts into which this farm has been subdivided on your part will be justifiable. We believe it will be the means of your attending this sale Thursday, November 20th, at 10:30 A. M., and making a purchase. Remember this land is as good as any in the country and it is going to be sold absolutely at the purchasers' prices on easy terms to be announced on day of sale. For further information our representative in Greenville will be glad to accompany you over the property. Free barbecue dinner served to all attending.

Methodist Church Enters Ypres and Brussels

GREAT MEMORIAL CHURCH WILL
BE ERECTED IN DEVASTATED
BELGIAN CITY.

Brussels To Be Center of Large Enter-
prise On the Part of South-
erners.

Nashville, Tenn.—A great Methodist
Church, erected and maintained by the
Methodist Episcopal Church, South,
will be erected amid the ruins of
Ypres, in Belgium. This was stated
by Dr. W. B. Beauchamp, director-
general of the Centenary Commission,
who, with Bishop James Atkins, the
bishop in charge of European mission
fields, just returned from Belgium.

The city of Ypres, terribly devas-
tated, will not be rebuilt in its entirety.
The once magnificent Cloth Hall, the
finest in the world, the Cathedral, the
town hall, the churches, and other
large ruins will be left as a perpetual
memorial.

Of these the city mayor has caused
signs to be erected, reading: "This
is holy ground. No stone of this fab-
ric may be taken away. It is a heri-
tage for all civilized peoples."

A City of Memorials.

Ypres is a city of memorials. The
British government has selected a site
and will erect a great museum as a
monument to her fallen heroes.

Similar buildings will be built by
Canada, New Zealand, Australia and
Belgium.

In the midst of these memorials the
Southern Methodist Church will be
erected. It will contain a library,
reading room and social equipment,
in addition to its auditorium and
class room.

"Ypres will always be a mecca for
travelers," said Dr. Beauchamp.
"Thousands and millions will flock to
that battlefield. Our Church will not
only minister to the people of Ypres
and the surrounding territory, but it
will also serve these visitors."

Great Plant in Brussels.

The Methodists have also purchased
a great building in Brussels, which
will be their headquarters for Europe.

It will contain offices, an auditorium,
reading and lecture rooms, a publish-
ing plant and social equipment.

The general secretaries of the two
Protestant bodies of Belgium, the
state Church and the free Church, will
have offices in this building, thus
making it the Protestant center of
Belgium.

Southern Methodists have also pur-
chased a half interest in the Protest-
ant hospital of Brussels. It will be
enlarged and its capacity will be
doubled.

Relief Stations Established.

Dr. Beauchamp reported that thou-
sands of children will freeze to death
this winter, because the Germans
flooded the mines and filled them with
concrete, thus making it impossible
for the people to obtain fuel.

"Children, with their mothers," said
Dr. Beauchamp, "are now living in
the abandoned trenches and dug-outs
left by the enemy."

In order to cope with the situation
the Methodists have arranged to open
relief stations at Ypres, St. Quentin,
Montdidier, Belgrade and other points.

A full contingent of physicians,
nurses, directors and social workers
will be sent abroad as soon as they
can be found.

The Church has a fund of \$5,000,000
for European construction work. This
will be spent in Servia, France, Bel-
gium, Poland and Bohemia.

Revival Planned For Entire South

Widest Evangelistic Effort Ever Made
Will Be Launched Soon.

Nashville, Tenn.—Plans for an evan-
gelistic movement which will cover
the entire South and operate in 20,000
churches at the same time are being
formulated by the Centenary Commis-
sion and the evangelistic committee of
the M. E. Church, South.

Bishop U. V. W. Darlington is the
chairman of the joint directing com-
mittee and Dr. O. E. Goddard is the
executive secretary.

Standard Plan Made.

The movement will operate accord-
ing to a standard plan. This plan pro-
vides for a preliminary survey of the
entire South to discover what persons
are not affiliated with any religious
denomination.

Dr. A. C. Zumbrennen is in charge
of the survey, and he has made pre-
liminary investigations in a large
number of typical sections as samples
to guide pastors in surveying their
own fields.

When these surveys are completed
the evangelistic movement will be
launched in an effort to interest all
non-church members whose names
have been secured.

It has been estimated that half a
million workers will be enlisted to
personally interview the persons who
have no church membership.

FRIDAY, NOV. 14TH, 1919.

New laws are approved by everybody when they do not effect anyone in particular.

Profiteering may be mighty easy to some merchants but it's a mighty perilous undertaking these days.

Snakes in the grass are all right just as long as they remain in the grass and do nothing but play.

Some men were born great, while others, of course, have never found out just why they were put here.

There's many a "Red" changing colors during these days while Uncle Sam is cleaning up the country of such trash.

If there's not enough monkey rum already in evidence, why some good distiller will open up another joint, of course.

Some people may like the idea of trifling with the law, but then they tire mighty soon when they feel its effects.

Some women may have been created for ornamental purposes, but they afford a hungry man mighty little consolation.

The Russians may like the idea of fighting and starving, but one of these days maybe they will learn better sense.

Although practically all senators and members of congress claim to be chivalrous they are just like any other human being in the hotel lobby. Don't take our word—ask the clerk.

Millions of people have been glad to hear of the improvement of President Wilson's condition and to know that he will soon be able to appear in official circles in the interest of the nation. Many things have transpired during his illness, but very few have passed by without his attention. His activity will be hailed with gladness in every locality where the true value of his efforts is fully realized and people are every ready to agree with his clear vision for the future.

When capital punishment is abolished in every part of the country the old tree limb, too, will be forgotten it is hoped. Such ruthless methods of punishment will soon be abandoned when people learn to know the actual torture of long prison sentences.

The supreme council appears to think the last note from Rumania is evasive and unsatisfactory. In fact, late news reports appear to indicate that new notes will be exchanged with demands surpassing those of first consideration. It looks like Rumania has enough trouble without bringing about other occurrences probably more serious than those of the present time.

If shortage of news from Mexico indicates that the country is in peaceful channels we are hoping no further information will be released from that territory in some time to come, for the relief from Mexican outrages is so pleasant one almost wishes it could continue for all time. Carranza may be feeding the bandits with a new kind of hot air, therefore, there is little telling when they will break out anew.

It is to be hoped promoters will get busy immediately and see to it that Greenville is to have a fair next year. The county missed splendid business opportunities this year by not handling such an occurrence, therefore, one for next year should be worthy of every consideration. The time to begin such an undertaking is now, and while it may sound rather early to some, those acquainted with such work know that several months are required for the establishment of such a project.

The slowness with which coal strikers are returning to work in various parts of the country has caused unusual activity on the part of government officials in bringing about negotiations for a legitimate wage increase. The miners, in many localities, have almost refused to respond to the order of officials to return to work at the old scale, but there is little doubt they will accept the situation much better when they fully realize the position taken by government agents in their interest. Unrequited toil is not appreciated by any set of people, therefore, it is only natural the miners should anticipate the promised increase.

It was probably appropriate and just that Pitt county superior court accepted Kettles' submittal for second degree murder instead of trying him in the first degree. The deed in murdering his wife was one of the most ruthless occurring in this part of the state in some time, but we believe he will be more thoroughly punished through thirty years of labor in the state penitentiary than he would have been through capital punishment. The tragedy was a very unfortunate one, committed as it was on account of supposed ill health of himself and wife, therefore, death in the electric chair would have been only monetary punishment to a man placing little value on his future and little would have been accomplished.

The senate may like the idea of wrangling over the peace treaty reservations from day to day, but it is a sure thing they cannot possibly know just how tired people are getting in the long delay which they are occasioning through indecision. The Republican leaders, it is certain, will never be able to satisfactorily settle the question, in fact, if they should settle it at all, the issue will be without its intended effect with other nations involved. The reservations assuredly would remove the possibility of this nation retaining its present position in commercial intercourse, and for that

reason, if for no other, it is imperative that all reservations possible be omitted. Some of the best informed men of the age have said the conditions of the compact could not be improved, although imperfect to a certain extent, and if this be the case, we cannot see why wrangling over the matter further is necessary. It is not, and the sooner it is settled the better off will be all parties interested.

DISTRICT MEETING OF ODD FELLOWS HELD IN THIS CITY

(Continued from page one.)
Following the selection of a meeting place of the convention next year, Belhaven was decided upon after short consideration, with the second Thursday in March being chosen as date for the meeting.

The convention re-convened at 7:30 o'clock, being called to order by the newly-elected president, Mr. Ellington, and after invocation by chaplain of the local lodge, S. B. Currin of Covington lodge delivered an address of welcome which was responded to by C. G. Morris, of Phalanx lodge, Washington, N. C. Shortly after the address of welcome, Honorable P. C. Harding, of this city delivered an inspiring address dealing with progress of the fraternity in this part of the country, enumerating various things so essential in uninterrupted progress and development of future work.

A voluntary offering was taken for the I. O. O. F. orphanage at Goldsboro, which amounted to a good sum and showed the direct interest of individual members in the success of the institution. Following the report of the committee on resolutions the convention adjourned. A social and smoker following, with the concluding activities of the evening proving possibly the most enjoyable which have occurred in several past years.

SEVERAL CASES IN THURSDAY SESSION OF CIRCUIT COURT

(Continued from page one.)
sumed in the hearing of the first degree murder charge against W. B. Kettles, but owing to plea of the defense that maximum sentence of second degree murder be imposed upon him, the court, after short consideration returned favorable decision in the matter, eliminating all probability of the remaining session being delayed through such issues featuring first sessions of the week.

In the case of Charlie Stocks, a young white man of this city about 19 years of age, who has been confined in the county jail for several months charged with several implications of larceny, the court yesterday evening suspended judgment of two years on the roads, agreeing to turn the young fellow over to J. L. Mayo with understanding that he is to be on good behavior and in employment of the Mr. Mayo for the next two years.

In the action against John G. Ashe, white man from Virginia, charged with driving an automobile without license from either this state or Virginia, the court suspended judgment upon the payment of cost. The following divorce suits received favorable consideration, absolute divorce being granted to all parties concerned: William Whitmore vs. Roxie Whitmore; Eulyses Hemby vs. Maggie Hemby; Dock House vs. Mamie House; Fannie Edwards vs. Thomas Edwards.

A brief outline of the overseas activities of the Fifth Field Artillery will be published in this paper tomorrow. They have a very creditable record as soldiers in the World War. ATLANTIC COAST REALTY CO. CONDUCTS TWO SUCCESSFUL SALES YESTERDAY

The Atlantic Coast Realty Company conducted two more satisfactory sales on yesterday when they sold the Howard farm near Bethel, and the R. L. Smith Lee farm, near this city for Mr. Henry Sheppard. The Bethel farm sold for \$40,800 and the R. L. Smith Lee farm brought \$30,000. Several other sales are scheduled for this season, and it is a certainty that they will be successful sales.

SPLENDID SMALL FARMS, WILLIE BROWN OR JULIUS ARNOLD FARM, SUBDIVIDED, ON VANCEBORO-NEW BERN BY STREET'S FERRY ROAD, ADJOINING VANCEBORO, N. C.

Tuesday, November 18th. 10:30 A. M.

DESCRIPTION OF THE PROPERTY TO BE OFFERED

Splendid small farms. Willie Brown or Julius Arnold Farm, subdivided, located on Vanceboro to New Bern road, by Street's Ferry, adjoining Vanceboro, N. C., 1-4 mile from the railroad station. Very fine neighborhood with the best of stores, schools, banking facilities and warehouses furnished by Vanceboro. Also railroad connections to all points. This property consists of about 325 acres, of which 126 acres are cleared and in an excellent state of cultivation. This land produces very fine crops of all kinds adapted to this section. There are about 200 acres in woods with a considerable amount of timber and an unlimited supply of cord wood. The buildings on the property consist of one main dwelling, 2 story, eight rooms; five tenant houses, two tobacco barns and other necessary outbuildings which are in good condition; sufficient buildings to care for farm needs.

These small farms are especially desirable on account of their proximity to Vanceboro, which furnishes all conveniences for the farmer. We honestly believe that an inspection of these small acreage tracts on your part will be justifiable. Our representative in Vanceboro will be pleased to accompany you over the property. Pick out those tracts which you desire to purchase on day of sale and meet us there Tuesday, November 18th at 10:30 A. M. Your price will do the buying on extremely easy terms.

the high prices of commodities deemed essential.

In Portugal the government, in an attempt to lower the cost of living, has placed, through the Minister of Finance, a part of its gold reserves in the banks of Lisbon.

In England, the cost of living above pre-war level is figured at 115 per cent for September and 120 per cent for October, as to actual necessities of life and based upon average living conditions of wage-earners. A more distinct rise has occurred in the cost of commodities so far as the other elements of population in England are concerned, being unofficially estimated by some at approximately 135 per cent with a steady upward trend.

In Sweden, figures furnished by the Swedish government indicates that the cost of living has increased 157 per cent over the cost in June 1914. In the cities the increase has been very much greater than the average for the country.

The Argentine government has suggested to other South American countries and discussed with them an international arrangement with a view to doing away with import duties on unmanufactured food products as one means of cutting down the high cost of living. Information which has reached the State Department regarding this plan is to the effect that a suggestion has been made that a conference be called by the Argentine Minister for Foreign Affairs to discuss this question of exchange of real necessities of life free of customs charges.

In Brazil the tariff is being revised with a view to reducing the cost of living in that country. In Uruguay the percentage of increase of present cost of living over the cost in June, 1914, is estimated by the Uruguayan government at: food 52 per cent, fuel 48 per cent, light 75 per cent, rent no increase.

Washington, Nov. 13.—That the whole world is struggling with the increased cost of living, is indicated in reports to the State Department. The increases in Europe are particularly high although in Latin-America the governments are anxious over the situation and are trying to find means of combatting the difficulties presented by

MARTIN COUNTY SHERIFF

DIED THURSDAY MORNING

Sheriff James Page, of Martin county, died at his home in Williamston Thursday morning after a confinement of four weeks with Brights disease. He was a native of Pitt county and a son of the late ex-county commissioner, John W. Page. He was serving his second term as sheriff of Martin county and made an excellent officer. The funeral was conducted this afternoon.

FINANCIAL REPORT OF MEXICO SHOWS SLIGHT DEFICIENCY

By THEODORE W. POPE

he says have experienced "the suspension of the influx of capital from countries economically stronger" and are exerting "vigorous efforts to be self-supporting."

Effects of both of these influences have been felt in Mexico, he says, and will continue to be felt, in part at least, during 1920. The report confesses that "our economic life was based formerly on a continuous stream of capital from abroad, this resource not being open to us at present except in a very limited way."

Secretary Cabrera says the imports for the first four months of the year amounted to 78,000,000 pesos, as against 54,000,000, in the corresponding period last year. The exports show a decrease from 122,230,000 pesos from the first four months of 1918 to 108,500,000 for the corresponding period this year. Mexican experts point out that this means that the balance of trade was so favorable to Mexico because of the crying need of the world for raw products which to a large extent still exists through the reconstruction days following the war, but that Mexico is unable to take ad-

vantage of these conditions because of the serious situation within her borders.

The report caused some disappointment because it did not indicate what steps will be taken to meet the currency situation resulting from the increase in the price of silver. The subsidiary coinage, which under the best conditions was never great in Mexico, is now leaving the country rapidly. Constructive suggestions were expected from the Secretary of the Treasury to meet this great financial problem.
