ALLIED TROOPS TO ENFORCE PEACE IN THE HUN CENTERS

Supreme Council Threatens to Occupy Germany Unless Treaty Is Signed.

EXTENSION OF FIELD ZONES IS PROBABLE

Germans Appear to Think It Is Safe to Continue Defying the Allies.

London, Dec. 6.—There was a persistent rumor in the stock exchange this morning that the supreme council of the peace conference had threatened Germany that unless the final peace terms were agreed to, allied troops would occupy Essen and Frankfurt. Up to this time the market has not been affected by the report.

Official announcement that Field Marshal Wilson has gone to Paris in response to "an urgent summons to consult Marshal Foch in connection with the peace treaty" is regarded by some morning newspaper as of considerable significance. It is printed alongside the address made in Glasgow last evening by Andrew Bonar Law, in which he said he believed the allies had the power and if necessary will exercise it, to insure ratification of the Versailles treaty by Germany. It is suggested that steps to exert pressure on Germany may be imminent.

"There has been enough solemn finger wagging at the Germans, who have come to believe it safe to defy the allies," says the Daily Mail, in commenting on the situation. "A wise and merciful course would be to tell them plainly that if within a fixed time they do not comply with the allied conditions and fulfill the treaty terms the blockade will be renewed."

It is reported that the marshal undertook to execute the plan he drafted last June, the mere threat of which brought German plenipotentiaries to Versailles.

During the meeting, says the Echo de Paris, Premier Clemenceau and Marshal Foch stated that the unexpected departure of the German delegates from Versailles and the complicated points raised by the enemy left no doubt taking action.

The Petit Parisien says that Germany considers it has gone too far and that an official note has been received from Berlin announcing that new negotiations will leave soon for Versailles.

The supreme council today considered further the note to be sent to Germany regarding the protocol but did not complete the document.

The secret meeting held by the supreme council yesterday with Marshal Foch and General Weigand, the marshal's assistant, in attendance, has provoked a great amount of speculation as to eventual military action across the Rhine in case Germany does not reply satisfactorily to the final note regarding the protocol.

The American troops on the Rhine now number 12,000 men. No question has as yet arisen whether they would participate in any action undertaken by the French and British.

NOTED SINGER IN FIRST APPEARANCE HERE LAST NIGHT

Werrenrath, of Metropolitan Opera Co., Peased Audience in the City.

BARATONE REDITIONS OF SPLENDID FEATURE

Selections from Grand Opera and Other Features Considered Good.

Mr. Reinald Werrenrath, the great baritone singer of the Metropolitan Opera Company, made his initial appearance in this city last evening, in White's theatre, and with his wonderful voice thrilled a large and appreciative audience. From the moment of his appearance on the stage, until two hours later when he was reluctantly hidden good night, he was given a great ovation, and again and again, he came back to sing.

It would be useless to attempt a description of this wonderful baritone singer. He has a voice which is full of tenderness and each and every word can be clearly heard, as his enunciation is well nigh perfect. The splendid program which he rendered last evening was divided into five parts, the largest number of his selections being sung in old English. Several other selections being Irish Melodies. His grand opera selection "Prologue" to Pagliacci and "Vision Fugitive" from Herodias were rendered in a true artistic manner. His program was without a doubt one of the best ever rendered in this city, and if anything could be said against it, it would be that it wasn't long enough, as the entire audience could have heard him for hours without tiring. He came back for his first encore, "Drink to me only with thine eyes." Never did sweeter music fill the hearts of the hearers, and then again with "The Lost Chord." After which fully ten minutes of applause spread throughout the building. At the close of the program and as the

PLYMOUTH GAINING PROMINENCE WITH OCEAN FOLLOWERS

Old City Rapidly Becoming Among First Seaport Cities of Country.

Plymouth, Dec. 6.—Plymouth, from whence may come England's first woman M. P., today is not the little seaport town which the Mayflower left. It is still a seaport, shipping and fishing being the principal sources of revenue, but it is also one of England's most flourishing seaports, boasting of a population of about 200,000.

Despite the city's prosperity and maritime importance, there are many of its customs which have remained unchanged through the three centuries since the Pilgrims waved their farewells.

American blue jackets have dubbed the town as "a nine o'clock town" for at that hour each evening the streets are practically deserted. Blinds are drawn, taxicabs are unavailable and night clerks in the hotels have settled themselves comfortably for the night's slumber behind their desks.

But if it is a nine o'clock town in the evenings, it is certainly "a six o'clock town" in the mornings for that time sees the majority of the people setting about their day's tasks, the fish market and dockyards are in full operation, the shopping districts beginning to open and the streets are lively.

"Famous as a departing point for the N. C. 4 after her flight across the Atlantic, it is appropriate that Plymouth should again get her name into history through sponsoring the feminine invasion of the Commons" commented one of Lady's Actor's Unionist supporters.

WILL INVESTIGATE HEALTH CONDITION IN BRAZIL REGIONS

Physicians and Naturalists Arrive in Peru to Begin Operations.

EXPEDITION IS UNDER COMMAND CAPT. VILLAR

Brazilian Government Making Every Effort to Co-Operate in Movement.

Para, Brazil, Dec. 6.—A party of physicians, engineers and naturalists sent by the Brazilian government arrived here yesterday to investigate conditions of health and industry. They are to report on the sanitary and health of the cities and towns of the Brazilian coast from Para to Rio de Janeiro, study health conditions of the fishermen of that coast, collect specimens of fish and consider the possibility of developing the fishing industry.

The expedition is under the command of Captain Frederico Villar of the Brazilian navy, who is a journalist as well as a sailor, who has been engaged for this work by the Ministry of Marine," according to the local press.

The government, it is said, plans the installation of up-to-date housing accommodations for men engaged in the fishery industry along the coast among whom, according to Dr. de Moura

PASSENGER TRAIN SERVICES WILL BE CURTAILED TODAY

Part of Trains Will be Curtailed in South Probably Next Tuesday.

Atlanta, Ga., Dec. 6.—General curtailment of passenger train service throughout the southern region of the United States Railroad Administration effective at 12:01 a. m. Tuesday, was announced tonight at headquarters here. No specific reduction was announced, it being left to each Federal manager to take off as many trains as may be spared without serious inconvenience to the public.

In addition to taking off passenger trains, it was announced that Federal managers will discontinue many parlor, club and sleeping cars which add to the weight of trains and increased consumption of coal. No special trains of any kind will be operated in the southern region during the coal crisis.

No reduction in freight service is contemplated in the Southern region, it was said because paucity of coal cargoes and a consequent shutting down of many industries already has greatly reduced freight haulage.

Regarding the order to reduce passenger train service, the announcement from the regional director's office said that "there has been no attempt to arbitrarily reduce services on a percentage basis in the region because conditions vary on different roads and in different sections to such an extent that an order of this kind would result in an unnecessary inconvenience to the public in some places and at the same time fail to bring about the greatest practicable curtailment in others."

On some divisions of certain roads, it was explained, it might be possible that no trains would be taken off. On others the reduction might range as high as forty per cent. Figures on reductions on the various roads were not expected here for several days. Federal managers have been working on them, however, for a week or more in preparation for just such an order. The statement also explained that "an immediate and substantial saving of fuel from the curtailment and asks co-operation of the public. It also announced that where local trains are suspended their services will be taken up by trains now operated on through routes.

JENKINS RELEASED FROM PRISON CELL BY THE MEXICANS

American Consul Is Given Release by Mexican Authorities Thursday.

BOND OF \$500 IS PUT UP FOR HIS RELEASE

State Department Claims Released Base Upon Diplomatic Relations.

Washington, Dec. 6.—Van O. Jenkins, the American consular agent, imprisoned at Puebla, Mexico, was released Thursday night.

The American embassy in Mexico City reported his release in an official dispatch received by the State Department this afternoon and almost at the same time news dispatches were received from Mexico City which said a check for \$500 had been deposited with the civil authorities at Puebla.

This difference in the two reports seemed to raise some doubt as to whether Jenkins was released unconditionally on the diplomatic representations of the United States government or whether he had been released on bail, as the Mexican authorities have contended he could.

The State Department, however, took the view that Jenkins had been released on its diplomatic representations and issued this statement:

"The release of William O. Jenkins, the American consular agent at Puebla, Mexico, was reported late this afternoon from American embassy at Mexico City.

The release of Consular Agent Jenkins was brought about by urgent diplomatic representations made by this government and the resulting investigation made by General Pablo Gonzalez who was sent to Puebla by the Mexican government to investigate the facts in the case. The investigations by General Gonzalez, who was at Puebla on December 3, had then practically substantiated the position taken by this government.

EXTRA NUMBER TO BE PRESENTED BY THE NEXT LYCEUM

Two Features Scheduled for Greenville This Month Instead of One.

Owing to some necessary changes made by the Lyceum Company, two numbers of our Lyceum Course come in December.

The next and third number in the course, will be Kryn Orchestral Sextette to appear on Wednesday, Dec. 10th.

The utmost satisfaction has been expressed by the patrons, and the sale of seats, both for the season and single concerts has been beyond expectation. The excellent concert given last Wednesday night by the Great Lakes Quartet was much enjoyed by all who attended, and the two concerts already given have proved the high quality of the Redpath Lyceum Course.

The concert on Wednesday night should be given before a packed house. Each member of the company is an artist, and several perform on more than one instrument. The program will be a popular one, consisting of solos, duets, trios, quartets and ensemble.

STATEMENTS ARE MADE AS REGARDS WOMEN'S CLOTHING

Cleveland, Dec. 6.—Lower prices on women's clothing will be possible only when productiveness of labor increases when the demand for finer grades wool recedes and when styles are adjusted to the supply of fabrics, according to an assertion made by speakers at the annual meeting of the National Cloak, suit and skirt manufacturers association.

It's a poor rule that isn't good for more than one kick.

AMERICAN FARMER LEADS THE WORLD IN CROP RAISINGS

Secretary Houston Explains Conditions in Annual Report Issued Today.

AGGREGATE CROP VALUE REACHES \$15,873,000,000

Average Increase of Production Amounts to 15 Per Cent More Than Ever.

Washington, Dec. 6.—The American farmer leads the world in individual production of crops, Secretary Houston of the Department of Agriculture, asserted today in his annual report. While countries such as Belgium, under intensive farming, get a higher average yield, he said, taking both acreage and yield per acre into account he American agriculturist produces two and a half times as much as his Belgian and German rivals, 2.3 times as much as the British farmer, 3.2 times as much as the French, and more than six times as much as the Italian.

The result of this up of the American farmer's work is shown in the 1919 American crop production, placed at three times greater in value than he average annual output during the five year period preceding the European war. The aggregate value of all crops this year is placed at \$15,873,000,000.

PERSHING IS GIVEN ROUSING WELCOME AT FAYETTEVILLE

Great Concurrence of People Greet Distinguished Visitor Upon Arrival.

Fayetteville, Dec. 6.—Fayetteville North Carolina gave a rousing welcome today to General John J. Pershing, commander in chief of the American Expeditionary Forces, on his visit to the State for the inspection of Camp Bragg. A great concourse of people greeted the General as he rode through the streets of Fayetteville following his inspection of the camp and heard in a brief address delivered from the balcony of the old market in the center of the city. He paid an exceptional tribute to the men of the 30th Division and spoke encouragement for the American Legion.

In this connection General Pershing declared that "in the troublesome time that exists throughout the world and in view of the tide of false notions that has already reached our shores, it is well that we may look to the men who have returned victorious from Europe to maintain the principles upon which our country is founded."

Among the prominent men from other parts of the State who were here were: Lieutenant-Governor O. Max Gardner, who introduced General Pershing; Robert N. Page, of Blissee; General Julian S. Carr, chairman of the State reception committee; Colonel Sidney W. Minor, of the 120th Infantry; Congressman H. L. Godwin, Bishop Thomas C. Dorst, of Wilmington; Mayor Frank R. McIninch, of Charlotte; Mayor T. B. Eldridge, of Raleigh; Mayor T. E. Thompson, of Lillington and Blon H. Butler, of The News and Observer.

General Pershing arrived in the city at 7:30 o'clock this morning accompanied by nine officers of his staff, the party occupying a special train. He was met at the station by the members of the American Legion and a band. The general was not up at the time, but raised the window of his car and waved his acknowledgement.

A concerted man revolves around himself.

STATE GOVERNORS PLANNING TO SAVE SUPPLY OF FUELS

Ten States Are Endeavoring to Alleviate Critical Situation Today.

USE OF ELECTRICITY IS BEING CURTAILED

More Drastic Curtailment of Coal Taking Place in Many Territories.

Chicago, Dec. 6.—Effort of governors of at least ten states to have sufficient coal mined to provide for domestic consumers and absolutely essential industries marked the progress today of the strike of bituminous coal miners.

Restrictions had been placed on consumption of fuel throughout the country from New York city to the Sierra Nevada mountains as the general situation at the mines showed virtually no improvement and the miners maintained their attitude of hostility toward the proffered fourteen per cent wage increase.

Effective at 12:01 Monday morning, the most sweeping reduction of railroad service in history—reduction in passenger service of one-third in "train miles" on all railroads diverging west, southwest and northwest from Chicago, had been ordered. Regional directors of the Central Western, South western and Northwestern regions estimated that that step alone would save 11,000 tons of coal daily. Other curtailments of railroad service were being considered today.

Additional industries faced shut-downs and more drastic conservation rules for cities that would bring them on a parity with Chicago and Kansas City were in prospect. The strict supervision of the use of fuel and power first ordered at Kansas City today was surpassed at Chicago, which went on a 6 1/2 hour business schedule.

Full force of the new restrictions here was expected to be felt today after much confusion yesterday, when at the mines the situation generally was unchanged. A small addition to the net production was looked for, however, when Oklahoma put into effect the Kansas idea that daily is producing several carloads of coal—volunteer operation of mines under troops' protection.

Preparatory to state operation in fifteen Missouri mines had been set under a gubernatorial proclamation. In Arkansas volunteer operation of mining property was promised by the governor on Monday.

Looking toward possible settlement of the coal strike on a state basis the governor of Ohio has called a conference of representatives of the operators, and the approximately 42,000 miners. Ten days' further contraction of the strike would throw out of employment 880,000 men in Ohio, persons in touch with the governor estimated.

Michigan manufacturers anxiously awaited the outcome of the governor's efforts to bring about temporary settlement of the strike in that state. A reply from the miners to the governor's proposal that mines be opened immediately on Fuel Administrator Garfield's terms, terms of the final settlement to be retroactive to the date the Michigan miners resumed work, was expected the condition yesterday.

Tennessee Governor Roberts had called a meeting for tomorrow of operators and miners to consider steps to end the strike without state seizure of the mines.

OIL PRODUCERS ARE TO BE TRIED FOR PROFITTEERING

Washington, Dec. 6.—Prosecution of the western oil producers alleged profiteering was ordered today by Attorney General Palmer on the complaint of Senator Capper. Kansas federal agents were instructed to proceed against producers who have taken advantage of the fuel shortage in an effort to increase the price of their products.

TRYING TO GET RICH

Hundreds Caught Under Stock Market Landslide But Those Who Invested in Government Securities Are Safe.

Whether or not many persons from this section were "caught" in the recent slump of the New York market probably will never be known, and there is no way of estimating the amount of money lost. But it is definitely known that many men and perhaps a number of women were badly "stung" and that their losses ran far into the millions of dollars.

It goes without saying, of course, that their losses came from the market collapse of certain securities or because they were unable to weather the storm when stocks, which they had bought on margin, suddenly depreciated. In other words, much of the loss was because men and women lured by the promise of great profits matched their wits with the old war horses of the speculation game, and as a result many little fortunes were hurriedly wiped out.

Many business men realized some time ago that certain market quotations in Wall Street were abnormal—of course all of them realized the risk of speculating on vague promises of profit—and warning after warning was issued to the men and women of moderate means not to endanger their money in any get-rich-quick scheme which might be offered.

Those persons who invested their savings in such standard securities as Liberty Bonds and Victory Notes, or Treasury Savings Certificates or War Savings Stamps intending to hold to maturity, were not caught in the land slide, for government securities are always redeemed at full face value upon maturity. They provide the best protection in the world and the men or women whose investments are represented by such securities—and who holds these securities—is always absolutely safe regardless of anything that may happen in the speculative stock markets of the country.

Of course the immediate market value of Liberty Bonds and Victory Notes fluctuates, but holders of these securities may rest absolutely easy because the changes in the market prices of these government securities are far less than in other bonds and their intrinsic worth with the Government back of them demands that on maturity they will be paid for at just exactly one hundred cents on the dollar— "Better safe than sorry."

FRIDAY, DEC. 5TH, 1919.

One thing about the people who pay income taxes is that if they did not have the income they would not be called upon to pay it.

The State farm in Halifax county was subdivided and sold a day or two ago, the price obtained being \$520,000. The farm contained about seven thousand acres, and it was the largest real estate sale in the State.

AMERICAN FARMER LEADS THE WORLD IN CROP RAISINGS

Continued from page one.
000,000 as compared to \$14,222,000,000 in 1918 and an average of \$5,820,000,000 during the five year period.

Live stock on farms this year was figured at \$8,830,000,000 as against \$8,284,000,000 in 1918.

The average yield for all crops for the decade ending in 1918 is about 16 per cent greater than for the average for the decade ending with 1890, the report said. The average rate of increase for the past 25 years is about one-half of one per cent a year.

Estimates in the report put the 1919 wheat production at 918,471,000 bushels and corn at 2,910,250,000 bushels. Cotton is expected to reach 10,606,000 bales and tobacco 1,316,553,000 pounds.

"The farmers of the nation in 1919 planted an acreage in leading cereals greater by 33,000,000 than the pre-war annual average which, it is estimated, will yield 635,000,000 than the pre-war average," Mr. Houston said of work on the farms. "They increased the number of milch cows over 1914 by 2,700,000, of other cattle by 8,500,000, of swine by 16,700,000 and of horses and mules by 1,000,000, or a total of 28,000,000.

"The planting operations of the year began before the fighting ceased and the call was still for more wheat. The Department suggested a maximum fall acreage of 47,200,000 acres, an increase of 12 per cent over 1918. There was actually planted 49,261,000, the largest acreage in the nation's history, 6,060,000 acres more than in 1918.

The spring wheat was 22,593,000 combined amounted to 71,854,000 acres or 7,200,000 more than the preceding record.

"It is estimated that the yield will while the winter and spring plantings

exceed that of 1918 by 1,000,000 bushels and will be the nation's second record wheat crop. The estimated corn crop of 2,910,000,000 bushels will be 300,000,000 greater than that of 1918."

NOTED SINGER IN FIRST APPEARANCE HERE LAST NIGHT

Continued from page one.
The first encore, he rendered, in a soul-stirring manner, the famous poem of Kipling's "Danny Deever," which has been set to music. The concert ended when the great singer would not come out again, and even then a large part of the audience retained their seats, hoping that he would return.

In the selection of Mr. Harry Speir, as his accompanist, Mr. Werrenrath has selected a master of the piano. He knows his singer, and anticipates his every mood.

A few weeks ago the Leslie's Weekly carried a photograph of Mr. Werrenrath, stating that he was one of the foremost singers of America. Greenville people who enjoyed the privilege of hearing him last evening, certainly agree with the editor of Leslie's, as they have never before heard any thing to compare with it on our local stage.

Mr. White is to be congratulated in bringing such a treat to our city, and those people who go to Raleigh to hear great singers, can remain at home in the future and hear equally as good singing. It is an assured fact that when Mr. Werrenrath returns, that he will be greeted with another large, appreciative audience.

HEALTH BULLETIN NOW BEING MAILED TO PEOPLE

Raleigh, Dec. 5. — The December number of the Health Bulletin, published monthly by the State Board of Health, is this week being mailed to the treatment of tuberculosis.

The cover is an especially attractive

over fifty thousand persons in the State. The current number is a tuberculosis special of thirty-two pages, the material having been prepared by the staff of the state sanatorium for one in keeping with the holiday season. A border of Red Cross Christmas Seals in three colors surrounds the double barred red cross, the emblem of tuberculosis, set in a border of holly. The sale of Red Cross Christmas Seals to raise the funds for a more intensive fight against tuberculosis in the state started this week, and this issue of the Health Bulletin carries an explanation of the work accomplished and planned.

The outstanding features of the current number are "How To Prevent the Spread of Tuberculosis" and "Rest, the Main Essential," dealing respectively with the prevention and the cure of this disease which last year killed 3,391 North Carolinians. Other articles deal with tuberculosis work by whole time health officers, the training school for tuberculosis nurses, occupational therapy and vocational education for tuberculous patients, the state sanatorium clinics, the proper organization for the fight against tuberculosis for a town and county, a description of the unit of tuberculosis of the State Board of Health, and health work in North Carolina among the negroes. The various subjects are illustrated with appropriate scenes from the state sanatorium.

The Health Bulletin is sent without charge to residents of the State requesting it from the State Board of Health, Raleigh.

WASH DAY AND SMILES

Little Filipino Girls Helping to Do the Family Washing

Their laundering methods are native Philippine, but their smile is pure American, learned along with a lot of other American tricks from missionaries from the United States. Playgrounds, games and toys have been exported by the States to the Philippine children as fitting accompaniments to school and Sunday school, and so it is that Uncle Sam has become a veritable Santa Claus; and a missionary is a flesh-and-blood Prince Charming in the eyes of the youthful Filipinos. In order to develop the work of educating and Christianizing the people of the Philippines, as well as other important social and spiritual activities, the Episcopal Church will launch a National Campaign for \$25,000,000 and 1,500 new workers on December 2.

PLAYS GIVEN BY PUPILS OF EVANS STREET GRADED SCHOOL GREATLY ENJOYED

The pupils of the Evans Street graded school gave two plays "The Rose Dream," and a visit to Mother Goose Island," on Thursday, which were of parents and friends of the children, who attended. The plays showed that the children had received the very best of training. Each character taking his and her part beautifully. The fairies with their magic costumes were present, and Mother Goose with her high cap, and all her little children were present. The acting and singing were a credit to the school. The plays were gotten up by the supervisor of recreation, and the individual teachers. This was the initial appearance, of the pupils of the city schools in a series of plays, and several others will follow. Those who failed to attend certainly missed a treat.

TEACHERS OF PITT COUNTY MET HERE TODAY

The teachers of Pitt county held their regular meeting here today. On account of the sickness of his little son, Supt. S. B. Underwood was absent, and the meeting was in charge of Prof. H. G. Swanson, of the Greenville Graded Schools, and Prof. June Rose, of the faculty of the High School. The meeting was largely attended and each teacher returned home greatly benefited for having been present.

JENKINS RELEASED FROM PRISON CELL BY THE MEXICANS

(Continued from page one.)

ment on behalf of Jenkins. "Two peons from Santa Lucia admitted to General Gonzales that they had made declarations against Jenkins under threat of execution. Other witnesses testified they had been compelled to make false statements against Jenkins under duress. One witness was threatened with a pistol, another suspended by a rope, and still another against Jenkins.

"These facts are shown in the court record of the case."

Every effort was made here today to check up on a cabled report from Mexico City saying that according to a Puebla dispatch to a Mexico City newspaper, Jenkins was released after J. Salter Hansen had deposited a \$500 check for bail. Officials of the State Department said they had no information whatever concerning Hansen or the question of bail, and that they did not know Hansen. They stood on the statement that the consular agent had been released on demand of this government.

Woodmen of the World meet Monday night in Hines' Hall at 7:30. E. B. Lewis is expected to be present.

The Minstrel which comes to White's Theatre next Tuesday, will begin promptly at 8 o'clock.

WILL INVESTIGATE HEALTH CONDITION IN BRAZIL REGIONS

(Continued from page one.) longing to the expedition, there is much intestinal disease and hookworm due to present living conditions and entire lack of sanitation.

Organization of this expedition is in line with the intelligent manner in which the Brazilian government has been working for years past to improve the general health of the nation. These efforts have resulted in entirely eradicating the plague of yellow fever from such ports as Rio, Santos, Pernambuco, Para and Manaus which were once known as "fever holes" dreaded by ocean sailors. The general health conditions of the Amazon Valley have been improved beyond recognition during recent years and yellow fever is as rare today in Para and Manaus as in New Orleans or Galveston. And mala-

ria is no more prevalent here than in the southern part of the United States. The greater part of the valley is now healthy, and the so-called "malarial" districts could be made healthy if attention were paid to the instructions of the authorities in the matter of living conditions, sanitation, hygiene, food and clothing. As these regions are far from the centres of population it is difficult to enforce the public health laws.

The sanitary regulations today in large cities like Para, Manaus, Santarem, along the main Amazon river, are very strict. At Para there is a rigorous examination and fumigation of incoming ships from ports known to be unhealthy and the public markets are under daily supervision by sanitary inspectors who are prompt to condemn meat and fish not absolutely fresh. After the markets close, about noon each day, the buildings are disinfected and washed from ceiling to floor.

LANSING TALKS OF PRESENT RELATION IN MEXICAN CITIES

Strained Relations of United States and Mexico Discussed at Length.

Washington, Dec. 5. — The strained relations between the United States and Mexico were discussed by Secretary Lansing today before the Senate foreign relations committee at a conference which it was said might have an important bearing on the future policy of the American government toward the Carranza regime.

The secretary of state appeared at the request of the committee, which had before it a resolution by Senator Fall, Republican, New Mexico, re-

questing the President to sever diplomatic relations with Mexico, and a substitute by Senator Hitchcock of Nebraska, the acting administration leader, which would assure the President the support of congress should he decide to break with the Carranza government.

Earlier in the day Henry P. Fletcher, American ambassador to Mexico, had discussed the Mexican situation with the committee, particularly the case of William O. Jenkins, American consular agent at Puebla, who is held in the penitentiary awaiting trial on charges that he gave false evidence concerning his abduction by bandits who held him for \$150,000 ransom.

Members of the committee predicted that a proposal in some form regarding a break with Mexico would be given approval late today or tomorrow and would be brought into the senate for prompt action.

When Secretary Lansing appeared before the committee its members were prepared to ask him to what extent the President had been informed regarding the Mexican situation. At the first session of the committee to-

day Senator Hitchcock had insisted that the President had been of the developments from time to time, quoting Secretary Lansing as his authority. Senator Fall was asked by the committee if he had gained that impression in his conferences with the secretary of state replied that he had not.

Congress will take a hand in the situation under a joint resolution introduced by Senator Fall, republican, New Mexico which today was before the senate foreign relations committee. The resolutions request President Wilson to sever diplomatic relations with Mexico. Senator Fall, in submitting it, declared that evidence against the Mexican government would "astound the world" has been discovered.

The state department has received notice of the official receipt by Carranza of its latest note in the Jenkins case and officials are awaiting a reply with a degree of impatience.

Under the Fall resolution the whole Mexican problem will be presented to congress, where there is considerable sentiment in favor of taking the initiative away from the state depart-

ment and without waiting for further provocation from Mexico, urging the President to hand over passports to the Mexican ambassador and shut off further diplomatic parity.

RESOLUTIONS OF RESPECT. COMMISSIONERS SALE OF LAND.

Whereas, It has pleased the Great Spirit to visit the home of our loyal and fraternal Brother Doctor McLawhorn, there to summons the life of his infant child. Be it resolved,

1. That we, the chiefs and members of Momican Tribe No. 56 Improved Order Red Men, do extend our heart-felt sympathy to the bereaved mother and father, but can only refer them to the Great Sachem above for consolation.
2. That a copy of these resolutions be spread on the minutes of our Tribe, a copy sent to the bereaved family and a copy sent to The Daily Reflector for publication.

E. C. HINES,
Com. on Res.

RESOLUTIONS OF RESPECT.

Whereas, The Great Spirit saw fit to call from our midst, our faithful and loyal brother, Joseph Tucker, a member of Mohican Tribe No. 56 Improved Order Red Men, be it resolved,

1. That while we bow in humble submission to the will of Him above, we mourn his loss from our midst.
2. That we as members of Mohican Tribe No. 56 I. O. R. M. extend to the bereaved family our heart-felt sympathy and commend them to the watchful care of the Great Spirit above.
3. That these resolutions be spread on our minutes, a copy sent to The Daily Reflector for publication.

Sell At Gorman's

All sales finished around three o'clock Friday. Prices with us were as good as at any time this season, but at time we had to buy heavily to hold the prices up.

Gormans sold Friday 120,942 pounds for \$87,348.12, average \$72.22
Scrap and common 14,110 pounds for 1,521.16, average 10.77
Leaving 106,832 pounds for \$85,826.96, average 80.34

The market sold for the week 1,430,460 pounds for \$993,649.96, average \$69.46. Gormans sold for the week 520,146 pounds for \$362,485.33, average \$69.69. Note while we sell a much larger per cent of scrap and common tobacco, yet we average more than the market. No house can sell any grade for more than Gormans. Bring us your tobacco and you will go home satisfied with the top of the market.

We have 2nd sale Monday, 1st sale Tuesday, 3rd sale Wednesday, 2nd sale Thursday 1st sale Friday.
