## SENATE PLANS TO BREAK PREVAILING TREATY DEADLOCK

**Leaders of Both Parties Hold Conferences With Members of Main Body.**  
**SENATOR LODGE WON'T CONFER WITH HITCHCOCK**  
**First Move of Compromise Continues to be Warmly Discussed in Senate**

Washington, Jan. 3.—Efforts to break the peace treaty deadlock in the Senate were renewed today as Senators of both parties began returning from their holiday trips preparatory to the reconvening Monday of congress.

The only surface developments to indicate the trend of the negotiations were a number of conferences in which both Senator Lodge, of Massachusetts, the Republican leader, and Senator Hitchcock, of Nebraska, acting leader of the Democrats, were prominent figures, though they did not see one another. All of the conferees declined to go into details, but they gave an impression of hopefulness that the day's work had advanced the situation toward an agreement.

Who should make the first open move for a compromise, however, continued to be a warmly debated question, each side apparently maneuvering while the negotiations went on under the surface, to force the other side to be the first to break from its former position. Senator Lodge still maintained that any compromise move should come from the Democrats, and Senator Hitchcock insisted that the initiative should be taken by the Republicans.

In declaring formal compromise offers must come from the Democrats, the Republican leaders reiterated that enough Senators to defeat ratification would pledge to accept no compromise that would impair materially the majority reservation program of last session. To this Senator Hitchcock replied that there were enough on his side of the chamber to defeat ratification who were pledged against any compromise that did not impair materially the majority program.

Yet both sides betrayed confidence that in the end enough Senators to ratify would be able to agree in their definitions of the word "materially" as applied to modification of the reservations.

## CAPITAL AND LABOR WILL NOT REMOVE HUMANITY

Tokio, Jan. 3.—A co-operative organization of capital and labor which would not ignore human instincts and feelings should be established throughout the world, in the opinion of Mrs. Ko-ko Tanaka, woman adviser to the Japanese labor delegation in the International Labor Conference at Washington.

Contributing her views on the labor question to a Japanese women's magazine, Mrs. Tanaka says that if such a system were inaugurated, the laborer would be emancipated from the position of a wage-earner and would employ his energy with hope and zeal. She continues:

"This is no mere paper argument. Such a system is actually practiced in a ticket manufactory at Tokio. It is a small factory with less than 50 hands. The owner leaves the management entirely to his employees. The profits are divided equally between owner and employees. The experiment has stood the test of several years and it could be applied to any factory on a much larger scale."

## CENSUS TAKING IS BEGUN IN SEVERAL SECTIONS COUNTRY

**Enumerators in This District Started Work Beginning Yesterday Morning.**  
**EVERYTHING IS RUNNING SMOOTHLY IN ELEVENTH SUPERVISOR BIGGS EXPECTS TO COMPLETE WORK IN SECTION IN TWO WEEKS.**

The enumeration of the census for 1920 started yesterday and for the first time in ten years an official and accurate statement of the population of Greenville and vicinity will be made possible through unusual exertion on the part of many enumerators of this district.

John D. Biggs, supervisor of census of the eleventh district of North Carolina, had his staff fully organized yesterday morning, and immediately after enumerators had reported to him in the morning first steps were taken in census taking. Mr. Biggs says that the weather will play an important part in the final outcome of efforts of his staff in this locality during the next two weeks, and if no inclement weather is incurred, it is expected that the work will be completed in the time designated, although it is possible delay will be experienced in many parts of the country and will not be confined to any particular locality. Three or four months will be required to complete the nation's census after the expiration of the enumerators' work, while, it is (Continued on page four.)

## FRANCE PREPARING TO RECEIVE GREAT NUMBER SCHOLARS

**Influx of American Students Looked for by French Universities.**

Paris, Jan. 3.—Next year is likely to see a great influx of American students to French universities, in the opinion of H. S. Krans, secretary of the American University Union in Europe. Mr. Krans' new Paris headquarters, facing the Luxembourg Gardens, are being fitted up to receive and advise seekers after knowledge from overseas.

Founded shortly after American entrance in the war, by fifteen of the leading American universities and colleges, the union now has 33 American and institutions on its membership list, including Harvard, Yale, Columbia, Johns Hopkins, Princeton and other leading universities and colleges throughout the United States.

"Paris is destined to become the brain of the world," said Mr. Krans, a correspondent of The Associated Press. "German universities will be completely avoided by Americans. Dogged determination was shown by one young New York student who arrived here with the problem how to board and live on six francs a day. Through the medium of the Union, a French landlady gave him a small room for 40 francs a day. The young man cooks his own meals, and is 'passing' on four francs a day."

French teachers and students are constant and eager inquiries at the Union's Paris home. Many of them are anxious to take a course of studies in the United States. Fourteen French students are already studying in American universities on free scholarships from a fund collected by 6,000 American students in recognition of the hospitality extended to them by French universities during the war.

The Society for American Fellowships in French universities is planning to send 20 Americans each year to the Sorbonne and other French seats of learning; nor will the Alsatian University of Strasbourg be neglected. Twenty-five scholarships for American students in France are already filled.

## SAYS STRIKES ARE DIRECT RESULT OF DAYS OF IDLENESS

**Ninety-Five Percent of Labor Troubles Produced by "Snowballing."**  
**DIFFERENT TRADES ARE FAILING IN AGREEMENT LABOR OUTLOOK FOR THE FUTURE PROMISES GREATER STABILITY THAN FORMERLY.**

New York, Jan. 3.—Ninety-five percent of the strikes and 75 per cent of the days of idleness in the building trades in the past, have occurred through what is known as "snowballing" or controversies between wage-earners themselves as to which trade should do the work, says Franklin T. Miller, president of the F. W. Dodge company of formerly Director of the division of public works and construction of the United States Department of Labor. Only 5 per cent, he declares, have been on questions between employer and employe.

Mr. Miller, who has been in touch with the construction industry in this country for 25 years, cited the case of a big Chicago hotel costing millions, work on which had been delayed more than a year because of disagreement between skilled workers as to who should handle certain doors because of the preponderance of metal over wood. This he said was an inevitable consequence of the rapid development of the industry. Analyzing the situation and the building outlook for 1920, Mr. Miller said: (Continued on page three.)

## BELIEVES FRANCE TO MODIFY DECREE IN MOVING BODIES

**National Assembly Probably Will Permit Removal of Bodies in War Area**

Washington, Jan. 3.—The belief that the French National Assembly will modify soon the present ministerial decree prohibiting the removal of bodies from the battle areas of France for a period of three years is expressed in a cablegram received by the War Department today from General W. D. Connor, commanding officer of the American forces in France.

General Connor's message said he had been advised by the French Minister of the Interior that the United States government could remove immediately bodies of American soldiers buried outside of the zone of the armies, but permission to exhume the bodies in the battle area was withheld until similar permission is extended to the families of French dead.

Secretary of War Baker recently authorized the following statement, based on information received from General Connor:

"The commanding general, American forces in France, cables to the War Department the French Minister of the Interior, on behalf of the council of ministers, has authorized the removal and shipment of bodies of American soldiers buried in France outside the old zone of the armies, but that pending the grouping and identification of bodies of French dead the French government has forbidden the removal of bodies of French soldiers from the old zone of the armies and therefore is unwilling to authorize the exhumation and removal of American dead from the old zone of the armies, so long as such privilege cannot be extended to families of French dead."

General Connor's cable adds he is confident the present ministerial decree prohibiting the removal of bodies from the old zone of the armies for a period of three years may be modified by the French Parliament so as to permit removals at an earlier date.

## CHICAGO CONDUCTS PSYCHOLOGY TEST OF BIG CRIMINALS

**Experiment of Hardened Criminals Conducted in County Jail of State.**  
**PRISONERS FORCED TO SEE CRIMINAL KILLED SHERIFF CONTENTED THAT SIGHT OF HANGING WOULD REVEAL SOMETHING NEW.**

Chicago, Jan. 3.—An experiment in psychology was conducted this morning at the county jail, in the dim hour of dawn, when two hundred prisoners were forced to witness the hanging of itafalo Durrage, convicted murderer.

Hardened criminals—selected from among murderers and felons, whose expiration is not yet the gallows—were placed in cells, tier on tier of which surrounded the square in which the scaffold had been erected.

It was the contention of Sheriff Peters that the sight of the gruesome trappings would have a most salutary effect upon those in whose life might come future temptations to slay or to rob.

And so firmly the sheriff believed in the efficacy of this idea that he persisted in it despite the request from Governor Lowden that he abandon the plan, and the added protests from scores of other persons who thought the scheme unnecessarily brutal.

Accordingly the stage was set and Durrage was led forth. The quiet in the death chamber became absolute (Continued on page two.)

## IRELAND SLIGHTLY SURPRISED BY THE DEVALERA SPEECH

**Address Delivered in America Read by Irish With Great Surprise.**

Dublin, Jan. 3.—Eamonn De Valera's speeches in America with regard to the part played by Irish soldiers in the war have been read in Ireland with some surprise, and it is pointed out here that in this matter Mr. De Valera's sentiments differ a good deal from those of his supporters. Captain M'Walter, a Dublin physician and member of the Dublin Municipal Council, who served throughout the war in the army medical corps, writes as follows in the Dublin Press:

"All the ex-service men, and there are over 40,000 of us, were pleased to find Mr. De Valera assuring his American audience that we fought for a principle and that Irishmen in the earlier days of the war rushed to the ranks in overwhelming numbers. But whilst Mr. De Valera rightly interprets our position to the Americans his followers and supporters in Dublin never cease to pour contempt upon Irish soldiers and to heap every indignity possible upon them.

"Returned soldiers are treated as lepers rather than as heroes. Men who had not the manliness to fight either in the army or in the rebellion now find courage to persecute by every means in their power those army or ex-army men whom De Valera lauds, and even carry their vindictiveness against every man who helps them.

## BAPTISTS OF CITY DESIRE TO ASSIST CHOWAN COLLEGE

**Immanuel Baptist Church Deacons Resolve to Help to Get School Here.**  
**BELIEVE INSTITUTION WOULD BE PROSPEROUS Education Outlook in City Offers Greater Opportunities Than Ever.**

The deacons of Immanuel Baptist church of Greenville in a special meeting, having had brought to our attention the removal of Chowan College from Murfreesboro with the possibility and a hope of moving it to Greenville, and being desirous of rendering all the assistance to this end, be it resolved:

1. That our church believes that it would be an advantage to that institution to be located in Greenville by reason of the educational institutions located here and by reason of the loyal, appreciative spirit of the people of Greenville and Pitt county for educational institutions.

2. That by reason of two active, aggressive and well sustained Baptist churches in Greenville, we believe that locating here will be advantageous from the point of view of church support, practically impossible at any other place in eastern North Carolina, and this church will, on its part, heartily welcome this institution to this town and county.

3. That this church will give its support as such, and such support financially, as it is able and conditions demand. (Continued on page three)

## CITY ALDERMEN IN FIRST SESSION OF YEAR LAST NIGHT

**Several Matters of Importance Considered at Regular Meeting Friday.**

The first regular monthly meeting of the year was conducted by the board of aldermen in the city hall here last night, and while there were a number of matters up for consideration these were disposed of, within less than one hour's time, making the first meeting of the new year the shortest in many sessions. Mayor Clark presided over the meeting, and practically every ward of the city was represented.

City authorities were authorized to purchase another mule to replace the one that died some time ago, and also to provide a dog net for catching stray dogs. A place for keeping these dogs was ordered to be erected, and all dogs taken up by the dog catcher.

The following water extensions were granted: Six inch main on Clark street to go to the town limit in order that people at the end of that street may be supplied with water. The Williams' slaughter pen so that the place may be kept in a sanitary condition. Jack Tell, in east Greenville, was granted an extension, the pipe to be supplied by the town. Extensions were also granted to the home of Dr. Thigpen, on Fourth street and to the home of Frank Lily on Myrtle street and Raleigh avenue.

Action was deferred regarding the recent resignation of City Clerk J. C. Tyson, the matter to be considered at the next meeting. Miss Spencer acted in the capacity of city stenographer at the meeting.

## SEVERAL HUNDRED RADICAL LEADERS ARRESTED FRIDAY

**Raids in 33 Cities of Nation Result in Rounding Up of Communists.**  
**DEPORTATION PLAN IS NOW BEING CONSIDERED General Charge of Attempting to Overthrow Government Principal Issue.**

Washington, Jan. 3.—The greatest round up of radicals in the nation's history was conducted tonight by the government acting through Department of Justice agents in 33 cities, stretching from coast to coast.

At midnight reports indicated that more than 1,500 members of communist and communist labor parties, against whom the raids were directed, were in custody and department of justice officials expressed the opinion that daylight would see twice that number behind the bars.

Not alone was the round up the largest yet conducted by the government in its efforts to rid the country of radicalism, but in the view of officials it was the most thoroughly carried out. Department of justice agents had been instructed several days ago and at 9 o'clock tonight the move was begun on the radical headquarters, whether in Portland, Maine, or in Portland, Oregon.

Raids were conducted in the following cities: New York, Baltimore, Boston, Buffalo, Chicago, Cleveland, Denver, Des Moines, Detroit, Grand Rapids, Hartford, Indianapolis, Jacksonville, Fla., Kansas City, Los Angeles, Louisville, Milwaukee, Newark, Omaha, Philadelphia, Pittsburgh, Portland, Maine, Portland, Oregon, Providence, San Francisco, Scranton, Spokane, St. Louis, St. Paul, Springfield, Mass., Syracuse, Toledo and Trenton.

The object of the raids, Assistant Attorney General Garvan said, was to obtain for submission to the department of Labor cases for deportation of "a very large number of our most dangerous anarchists and radical agitators." Agents of the department, he added, went out prepared to catch the radicals "with the goods."

The general charge of attempting to overthrow the government by force and violence was placed against the persons arrested during the raids.

Officials here declared the nationwide round up was the most completely planned and the machinery was the best oiled for this of any raids launched against the radical element in the country. It was arranged some ten days ago that the raid should take place tonight and confidential communications were sent to Department of Justice representatives and United States attorneys in the thirty-three cities.

Department of Justice agents desired most of all to capture incriminating documents, not so much of the literature and propaganda, but papers showing details of the communist organizations in each city. It was indicated that if such evidence were obtained, deportation of the persons concerned would be an easy matter. As in the case of the members of the Union of Russia workers, several score of whom were aboard the transport Buford, which sailed from New York ten days ago, membership cards in the organization were regarded by officials as constituting the best documentary evidence on which to base deportation cases.

**DENIKINE GOVERNMENT IS OVERTHROWN BY ROMANOVSKY**  
London, Jan. 3.—General Denikin's government in southern Russia has been overthrown and General Romanovskiy has been chosen to replace Denikin as Anti-Bolshevik chief, according to Moscow wireless dispatches quoting advices from Taganrog.

**QUESTION NO. 13.**

What Pitt county newspaper has for thirty-eight years been an ardent advocate of prohibition, took up the fight against Greenville's fourteen liquor saloons and kept it up until the last one of them were displaced with a dispensary, then later led in the movement to have the dispensary voted out and the legal sale of liquor in Greenville forever stopped? Ask any prohibitionist.

And the new year is getting old even now.

Who ever thought the American dollar would become so insignificant.

The thrift habit appears to be pretty well understood in every section.

People who have been boasting a Pitt county fair for this year have not got busy immediately.

Now that census taking has begun it is only natural to expect that business will be pretty lively for the enumerator.

And one of these days we are going to have the pleasure of seeing the high cost of living fall uncomfortably lower than expected.

The wood alcohol traffic seems to have been suppressed suddenly. Whiskey drinkers must have found something more appropriate.

Four applicants are after postmaster-ship at Reidsville. Which causes one to believe that they pay a pretty good price in that locality.

Greensboro, so it is stated, is going to have a cigar factory valued at a quarter of a million dollars. The town is certainly getting up a reputation in the tobacco industry.

If bringing up father is such a great task to Maggie she might get better results by turning the gentleman over to some of these leap year candidates for matrimony.

Railroad building in this country is virtually at a standstill, according to recent statistics. But if the railways keep pace with other branches of industry, they must go forward.

The commander of the battleship Arizona recently presented with a \$10,000 silver service probably feels his opportunities will be of a golden hue if such gifts continue.

Women's dresses and the high cost of living are trying to out do one another. The former appears to have a fair chance of winning out if present reports are true.

New York automobile driver narrowly escaped death when his automobile skidded and crashed into a fence at the fair grounds. He probably has learned now it would be better to drive home.

**THE LEAGUE OPPONENTS.**

It has been a matter of great surprise that such prominent statesmen as Senators Borah and Lodge should continue to treat the real issues of the peace treaty and league of nations with such little consideration. They have, of course, undoubtedly expressed their convictions, as far as such convictions go, but it cannot be that they have considered either issue in their true light and then can come out and denounce principles which calm-minded, thoughtful persons have found advisable.

Various attacks made by the two senators on the league of nations, however, have detracted very little from the principal issues at hand, and scathing denunciations have had very little to do with public opinion in districts where community leaders have been able to dispute their arguments in the interest of helping the ordinary thinker form his own ideas as to what the league will mean to all parties concerned. The fight has been featured by undisguised efforts to humiliate President Wilson, but through it all this executive has maintained an unruffled composure that has been displeasing to the Republican leaders in the senate.

Senator Borah has at last taken a step against the league that gives almost any individual an opportunity of seeing through his plans from beginning to end. He has declared that "Powerful American and European interests are co-operating to draw the United States into European affairs, through the league of nations if possible, and if not by secret tacit agreements." He advises the necessity of personal views of presidential candidates, which, by the way, will bring a great number of Republican presidential booms into the argument.

The secret agreement referred to by the senator causes one to smile, although such is possible. For it can be easily seen that America's participation would not mean anything to either American or European interests, for the league will not be governed by sleek politicians and unprincipled and unscrupulous business men, but on the other hand will be directly governed by the principal executives of all nations involved. It is true all countries would be benefitted by the alliance to no little extent, and it is surprising indeed that Senator Borah should admit the fact while endeavoring to convince us that the entire issue would be "crooked" from the day of America's entrance until the time for its withdrawal.

Both opponents of the league, it appears to us, should by this time be ready to bury the hatchet and call it quits. But as it is certain there is no such idea entertained, it is to be hoped they will in the least refrain from torturing people with expressions both inappropriate and displeasing to the majority of American people.

**CHOWAN COLLEGE AGAIN.**

Although very little has been said concerning Greenville's chance of getting Chowan college established in our midst, we believe that the public can rest assured that business men and educational leaders of the city are doing everything possible in this interest. It is not known just what offers have been presented college authorities up to this time, but it is expected that Greenville will have as good show in acquiring the new possession as any other locality in the state.

It is plain that other cities of the state are going to make Chowan authorities proposals probably surpassing those presented by Greenville, but it is not generally believed that any other one city can receive more favorable consideration, if advantages and opportunities of the section are given due thought. Greenville people want the college, and if it is to be moved from Murfreesboro, it is only natural to expect that officers desire to go into a community where educational advantages are greater than the section they propose to leave. Greenville offers everything necessary to success of the project, choosing the place for its future home Chowan will firmly establish itself preparatory to a great city.

It is necessary that people boost better proposals than have already been made for the school, for in this way authorities will be impressed by the spirit behind Greenville's offer and cannot fail to

realize what this will mean to their future and the future of the institution they represent. Little time is left in which to make this impression and it is necessary that action be immediate and concerted so that the spirit of the movement will be lasting.

Good road conventions played a good part in 1919, and if they should become so popular this year Pitt county eventually will have splendid highway just like other sections.

Every town in the state claims to have enjoyed its share of prosperity during 1919, and no one has any right to discredit the statement as good fortune appeared to be in evidence everywhere.

Wilson evidently anticipates doing some mighty, big things this year, judging from the correspondent of the Raleigh News and Observer. And Wilson is just the kind of town capable of doing things, too.

Wilmington's threat to put automobile speeders on the road is not out of season in the least. A direct reduction of speeding cars would be noticeable immediately if the threat should be put into action.

With several splendid buildings under erection and the prospect of several others being announced for erection before the summer, Greenville stands a pretty good chance of bettering that 1919 record, although we are sure it is going to be a pretty big job.

Prosperity in the United States is general in ever section, but in Europe, it is not so marked just at this time. However, the more powerful nations are recovering rapidly from effects of the past war, and will soon be on the old road to prosperity, too.

Nothing has been given out as to what Greenville intends to do about getting Chowan college established here, but if the same spirit is put behind the issue as in other instances, the college will certainly be an established factor in educational development soon.

If high prices failed to cut down the consumption of paper during October and November of the year just past we are at a loss to know what will be necessary to stop unnecessary use and waste of the present supply. It is possible, however, that not so much paper will be used during the earlier part of this year as many papers are not as generous as they have been.

**CHICAGO CONDUCTS PSYCHOLOGY TEST OF BIG CRIMINALS**

(Continued from page one.)

for a moment. Then the noise was slipped over the murderer's head. From one of the higher tiers came a strident shout: "When do we eat?" Tier by tier, cell by cell, the cry was taken up. It became a roar above which the warders' voices could not be heard. Then the trap was sprung and Durrage dropped into the space beneath the scaffold.

Sheriff Peters declared after the execution that Governor Lowden's secretary telephoned the jail and asked regarding plans for the hanging but did not object to the sheriff's program.

Sheriff Chas. W. Peters later issued a statement answering critics who opposed his action. The statement reads: "In my opinion the modern codding of criminals by well-meaning, but misguided, sympathetic, theoretical reformers and self-constituted organizations, is one of the greatest causes of the present crime wave in this city. Their interference with the vigorous enforcement of the law has destroyed the fear of punishment by criminals to the extent that it is no longer a deterrent to the further commission of crime to be incarcerated in our penal institutions. A large number of prisoners openly acknowledge that they would prefer to be incarcerated in the county jail where they are better fed and where sanitary conditions are far better than in their ordinary environments.

**OFFICIALS THINK BACKBONE OF RADICALISM IS BROKEN**

Washington, Jan. 3.—In the sweeping drive against radicalism, agents of the department of justice were completing the nation-wide raids today against communist organization in which upward of several thousand radicals were taken into custody with view of deportation. The raids were ordered in 33 cities. The government hopes to fill another "Soviet Ark" and send the radicals to their home countries. Officials estimated that three thousand radicals would be taken and with their deportation, it is believed the backbone of radicalism in America will be broken.

**SAYS STRIKES ARE DIRECT RESULT OF DAYS OF IDLENESS**

(Continued from page one.)

The creation of a board of jurisdictional award by the United States department of Labor, a board composed of architects, engineers, contractors, material men and wage-earners, promises a solution of one of the most difficult labor problems in the building industry. As a result of it decreased cost of construction may be expected. The board of jurisdictional award has formulated with the full approval of all interests concerned, who seem to have entered into it without reservation.

The labor outlook in the building industry thus promises a condition of greater stability during the coming year because of the organized dealings between employers and employees, with recognition of the term contract and arbitration principles.

"The first serious labor troubles in the building industry," said Mr. Miller, in reviewing the national construction shortage, "occurred in the latter part of October 1918, through a strike of carpenters on government work in Brooklyn in violation of the Baker-Campers agreement, a pact between the department and the American Federation of labor."

**CENSUS TAKING IS**  
**BEGUN IN SEVERAL**  
**SECTIONS COUN**

Continued from page 1  
possible, of course, that this may be  
accomplished in less time.  
Every person visited by the enu-  
merators, and all who will be called  
in the next two weeks, is expected  
to answer questions as to sex; color;  
race; age at last birthday; whether  
single, married, widowed or divorced;  
birthplace of person enumerated;  
birthplaces of father and mother;  
and the names of both country and

if foreign born; occupation, specifying  
trade or profession, also industry in  
which employed; whether attending  
school; whether able to read; whether  
able to write; whether able to speak  
English; whether home is owned or  
rented, and if owned whether home is  
of encumbrance or is mortgaged.  
Persons of foreign birth will be re-  
quired to answer questions concerning  
the following additional points: Year  
of immigration to the United States;  
whether naturalized, and if so, the  
year of naturalization; mother tongue  
or native language. These questions  
practically complete the list with the  
exceptions of a few minor ones having  
a direct bearing upon community con-  
ditions.

The enumerator also will call at  
every farm in this section to secure  
information absolutely necessary to  
fill out the questions contained on the  
agriculture schedule. Each farmer  
will be asked questions concerning the  
acreage and value of his farm; whether  
he owns, rents or partly owns and  
partly rents the land he farms; the  
value of the buildings, machinery and  
implements belonging to his farm; the  
quantity of all crops raised on his  
farm during the year 1919; and many  
other questions which cover all possi-  
ble farm operations.

An absolutely accurate and complete  
census vitally concerns the welfare of  
the entire country, not being confined  
to any particular locality, for the of-  
ficial population for the next ten  
years will be determined by the cen-  
sus this year. It is requested that you  
be ready with your answer when the  
enumerator comes around as in this  
way the work will be facilitated to no  
little extent and an official statement  
will be made possible earlier than  
expected.
