SECRETARY GIVES BRYAN CREDIT FOR STARTING LEAGUE

Daniels Praises William Jennings Bryan at the Jackson Day Dinner.

STATEMENT DRAW FORTH CHIEF INTEREST OF DAY

Living Rights of Liberty and Peace, He Declares, Tribute to Wilson

Washington, Jan. 9.—William Jennings Bryan was given credit by Secretary Daniels, speaking at the Jackson Day banquet here last night, for laying the foundations of the League of Nations covenant through the arbitration treaties negotiated by him as Secretary of State.

In view of published reports that the three times nominee of the Democrats for the presidency again aspires to lead the party in a campaign, Mr. Daniels statement created one of the most interesting moments of the dinner. The naval Secretary's address had proceeded without special incident with applause for recital of Democratic achievements and ripples of amusement at until he began to discuss the war and its results.

The declaration (of independence) and the covenant (of the League of Nations) the Secretary said, "are the two living light fountains of liberty and peace. It is the glory of the Democratic party that through Jefferson and Wilson we have given these safe charts for all time for safe navigation upon all seas.

"Just as surely as Jefferson's declaration and Lincoln's emancipation glorify American statesmanship, the covenant will yet bring free nations into such accord that reason and not force will rule among nations a samong in individuals. A long step toward this ideal was reached in the celebrated and beneficent Bryan treaties, which Germany, alone of European nations, refused and forecasted its action in 1914 in precipitating the war. The principles and spirit of the Bryan treaties in the treaty of peace."

Asserting that no man appreciative of the changing conditions believes the coming presidential election predestines for any party, Secretary Daniels told the banqueters that the record of the last seven years entitles the Democratic party to a renewed lease of power.

"But the Democrats assembled here," he continued, "must bear in mind that virtue is sometimes its only as well as its own reward. A shell shocked world, with unrest and the spirit of change, admonish us that more will be required than a good record of performance. The people are looking not so much to what has been done as to how the problems of the future are to be solved."

Recalling the strenuous antagonism encountered by Presidents Jefferson and Jackson, the speaker continued:

"In this hour the same malevolence of those who think themselves born booted and spurred to ride on the backs of others it aimed at the world leader in the White House. Those Republicans who think they inherited the right to exclusive and perpetual rule at Washington like the admiral at the Washington navy yard, who, many years ago, bequeathed the residence at the navy yard to his descendants, may forgive Woodrow Wilson everything else, but they will never forgive him his supremacy of mind, his supremacy of world confidence, and his supremacy of success in waging the world war and his vision splendid of concluding a noble world peace.

"These last seven years of accomplishment by the national administration will live as the golden era of American power, American wisdom and American vision."

GREAT BRITAIN IS NOT CONCERNED IN AMERICA'S FLYING

United States' Progress in Aviation Circles Causes but Little Fear.

GERMANY APPEARS TO BE GREATEST ENEMY

France Troubles Nation Little for Air Supremacy of the World.

London, Jan. 9.—American progress toward popularizing civil aviation is giving the British government no fears of the United States achieving a supremacy in this line of aeronautics. A White Paper just issued by the government lists France, Italy and Germany as England's most serious competitors in securing an international aircraft trade.

Efforts are being made in Italy to form a combine to strengthen the position of the aircraft industry. A semi-rigid airship of 1,100,000 cubic feet capacity is being constructed for civil aviation and should be ready for service soon. It is believed that in this vessel the Italians will attempt a flight from Italy to Rio de Janeiro. It is intended also to despatch a squadron of airships from Italy to Japan.

The French have adopted the principle of subsidizing airplane service and 18,000,000 francs have been earmarked this year for that purpose. It for the French government to supply is understood that the present policy is the material for a commercial airship later to South America by way of service from Marseilles to Africa and Dakar.

Germany is understood to be developing airship services to Scandinavia. The policy foreshadowed is for all German airships to be in the hands of the state and for a combination to be formed of all firms for working purposes. Each firm is to standardize a type, and

GREEN APPOINTED CHIEF EDITOR FOR EXTENSION BUREAU

Former Bureau of Market Editor to Go in Agricultural Department.

Raleigh, N. C., Jan. 9.—Mr. Ralph W. Green, now in charge of the publicity department of the Federal Bureau of Markets, U. S. Department of Agriculture, Washington, D. C., has been appointed Agricultural Editor for the North Carolina Agricultural Experiment Station and Extension Service to succeed Mr. F. H. Jeter who resigned his position with the State agricultural workers to take up like work with the Soil Improvement committee of the Southern Fertilizer Association, Atlanta, Georgia, on January 1. Mr. Green will come to Raleigh the 1st of February to take up his new work.

Mr. Green is a graduate of Cornell University having specialized in agriculture and in agricultural journalism, afterward, he returned to the college as instructor in agricultural journalism. During the war Mr. Green directed the Liberty Loan publicity in agricultural publications, and later went to Washington with the United States department of agriculture.

The Experiment Station and Extension Service, though sorry to lose Mr. Jeter, feel fortunate in securing the services of Mr. Green as agricultural editor.

REV. A. D. C. NOYE WILL

PREACH HERE NEXT SUNDAY

Rev. A. D. C. Noye, pastor of the Episcopal church of Farmville will preach in this city next Sunday morning at St. Paul's church. Rev. C. H. Baseom, of the local church will fill the pulpit at Farmville.

LEADERS OF UNION CALL OFF ORDERS FOR STEEL STRIKE

All Day Meeting of National Committee Decides to Go No Further.

ALL RIGHTS ARE DENIED THE ANNOUNCEMENT SAYS

Pittsburgh Strike Headquarters Will be Closed Up in Short While.

Pittsburgh, Pa., Jan. 9.—The strike in the steel mills and furnaces called September 22, and which at its inception involved 367,000 men, was officially called off here last night by the national mittee after an all-day meeting.

Announcement that the national committee had decided to proceed no further was contained in a telegram sent to headquarters of the American Federation of Labor in Washington, to the heads of all international unions interested and to the organizers and field men in all strike districts.

"The Steel Corporation," the telegram said, "with the active assistance of the press, the courts, the Federal troops, State police and many public officials, have denied steel workers their rights of free speech, free assembly and the right to organize and by this arbitrary and ruthless misuse of power, have brought about a condition which has compelled the National committee for organizing iron and steel workers to vote today that the active strike phase of the steel campaign is now at an end. A vigorous campaign of education and reorganization will be immediately begun and will not cease until industrial justice in the steel industry has been achieved. All steel workers are now at liberty to return to work, pending preparation for the next big organization movement."

The telegram was signed by John Fitzpatrick, chairman; D. J. Davis, (Continued on page five.)

LUMBER INTEREST IN CHINA PLANNING TO STOP BOYCOTT

Lumber to be Bought from Philippines to Evade Japanese Embargoes.

Shanghai, Jan. 9.—Lumber interests in China and particularly in Shanghai, as a result of the boycott movement against Japan, are reported engaged in a project to obtain raw timber in the future from the Philippines. In former years the volume of Japan's lumber trade with China has run into millions of tales annually.

David S. N. Hsia, a graduate of the Philippine school of Forestry, said to have been sent here by the Philippine government with the approval of governor general Harrison, has just completed a survey of China's lumber market and a study of means by which Philippine lumber may be most economically brought here.

Chinese wood workers, carpenters and builders are said to manifest an increasing aversion against the use of Japanese lumber.

Upon the completion of Mr. Hsia's survey it was announced that in future the Philippines would undertake to supply a large portion, if not the bulk, of China's lumber needs. An intention expressed was to apply to the United States shipping authorities with the request that boats be supplied to encourage the growth of the new business.

RADICALS WILL BE LANDED

NEAR PORT OF COPENHAGEN

Copenhagen, Jan. 9.—Undesirables deported from the United States will be landed here and transhipped to Danzig, according to reports.

SNAKE HOLLOW IS CAUSING NUMBERS FOLKS TO BE RICH

Newly Discovered Oil Field in Pennsylvania Sprouts Natural Gas Freely

OIL INTERESTS TRYING TO EXTEND THE FIELDS

Property Values Soaring to the Sky and Boom Is on in Every Section.

Pittsburgh, Jan. 9.—Spouting natural gas at the rate of almost 100,000,000 cubic feet a day, the Snake Hollow field, which is not yet four months old, already has made a large number of persons comfortably rich, while some thousands of others are anxiously awaiting the outcome of their subterranean gamble in more than 200 wells where the drills are kept going day and night.

The development, which became apparent when a strong flow of gas blew the top off a derrick on September 28 last, covers no more than 100 acres of town lots in the outskirts of the thriving little city of McKeesport, 16 miles from Pittsburgh. Efforts are being made by important oil and gas interests to extend the field. If these test wells, now being drilled, come in gushers, an important addition to the gas producing territory of Allegheny county will have been found. If they are "dusters," geologists say, it will not be long until Snake Hollow will be a thing of the past, and dreams of wealth be nothing more than memory.

Rock pressure, the measure of natural gas at the well, was 1,600 pounds to the square inch when the first well came in. This pressure, experts say, has now been reduced to 600 pounds, indicating that already the field is beginning to decline. However, there are some 20 good wells in the field, and every well which reaches the Speckley sand where the gas is found, comes

(Continued on page two.)

LATEST BULLETIN OF WORLD EVENTS JUST FLASHED IN

Important Features of International Events Occurring During Evening.

Geneva, Jan. 9.—The revolutionary movement in Bulgaria is spreading, according to Belgrade advices received here. King Boris and royal family are secluded in the palace under heavy guard.

London, Jan. 9.—Bokhara, in Central Asia, less than two hundred miles from Afghanistan frontier, has been entered by the Bolsheviks, according to the war office. Reports indicate that the Bolsheviks propose an offensive against the British in Persia and Afghanistan.

New York, Jan. 9.—Damage to American Line steamship St. Louis, burned at Hoboken last night, is estimated at one million dollars. The interior of the ship was completely wrecked. Origin of the fire is undetermined.

Paris, Jan. 9.—The Flume problem was taken up at a meeting held in secret today by the premier and other allied statesmen assembled here today for conference.

El Paso, Texas, Jan. 9.—Villa's forces at the present numbers not more than 250 men. Carranza claims the rebels were today reported in flight in the direction of Durango where federal forces are said to be advancing to intercept retreat.

Portland, Oregon, Jan. 9.—Democrats exhibited interest today in a telegram read last night at the banquet here in which James W. Gerard declared there are plenty of good men for the democratic nomination for president from which the party could make its choice and added "Herbert Hoover is one of them."

REPUBLICANS ARE FREELY CENSURED IN POLITICAL AIRING

Resolutions Endorsing Treaty of Versailles Denounced by Democrats.

SAYS PARTY HAS EARNED CONTEMPT OF THE WORLD

Democratic National Committee Adopts Resolution in Session Yesterday.

Washington, Jan. 9.—Resolutions endorsing the treaty of Versailles and denouncing as unpatriotic the attitude of senators who would defeat it directly or by nullifying reservation was unanimously adopted today by the Democratic national committee in session.

The "arrogant" Republican leadership of the Senate was denounced as having earned the "contempt of the world" by throttling the treaty for seven months, and the senate was called upon to "quit playing politics" with the question of ratification.

Reviewing the legislative record of the two Wilson administrations and the manner in which the war was won, the resolution also expressed gratification that the President was regaining health after a breakdown "due largely to his efforts for world peace."

The resolutions were adopted at the committee's quadrennial meeting to select a time and place for the 1920 convention. The choice will be made late today with the race between Kansas City and San Francisco and with the supporters of the latter claiming they have enough votes pledged to insure beyond question the election of their city.

Concerning the peace treaty the resolution said:

"We affirm our approval of the treaty of Versailles and we condemn as unwise and unpatriotic the attitude of those senators who would defeat its

(Continued on Page Six)

LODGE IS FEARFUL WILSON'S MESSAGE ENDS RATIFICATION

Thinks It Is Now Impossible to Ratify Treaty at Any Early Period.

Washington, Jan. 9.—Senator Lodge, of Massachusetts, the Republican leader, declared in a statement tonight that he feared President Wilson's Jackson day message had made impossible the hope "that in the Senate we might have come together and ratified the treaty protected by the principles set forth in the fourteen reservations."

"The President has made his position very plain," said the Senator. "He rejects absolutely the reservations adopted by a decisive majority of the Senate. He says we must take the treaty without any change which alters its meaning, or leave it. He will permit interpretations, whatever that may mean, expressing its undoubted meaning, when there is hardly a line of it which has not been questioned and given many meanings. This permission is valueless. He stands as he has always stood, for the treaty just as it is."

"The issue is clearly drawn. The reservations intended solely to protect the United States in its sovereignty and independence are discarded by the President. The President places himself squarely in behalf of internationalism against Americanism."

"I had hoped that in the Senate we might have come together and ratified the treaty, protected by the principles set forth in the fourteen reservations. This hope impossible. If it is, then we must bear the delay inseparable from the President's attitude and appeal to the people, which, for one, shall most cordially welcome."

LEAGUE COVENANT CAUSES BRYAN AND WILSON TO DIFFER

Whether League of Nations Should be Made Campaign Issue Causes Split.

BOTH LEADERS FEATURE AT JACKSON DAY DINNER

Wilson, Is Speech, Favors Presenting Issue to Public for Decision.

Washington, Jan. 9.—A split between President Wilson and William Jennings Bryan over whether the League of Nations should be made an issue at the coming election topped off the Jackson Day deliberations of the Democratic party chiefs.

It came at the Jackson Dinner as the climax of a day in which San Francisco had been chosen as the meeting place of the Democratic National Convention on June 28, and it charged the air with political electricity.

President Wilson, in his message read to the diners, assembled in two separate halls, declared that the "clear and single way out" was to submit the question to the voters as "a great and solemn referendum."

Mr. Bryan, showing all the old time vigor with which he led the fight for the President's nomination at Baltimore in 1912, declared that the Democratic party could not go before the country on the issue, because it involved a delay of fourteen months, and meant success only if the Democrats captured a two-thirds majority of the senate.

The party, Mr. Bryan declared, must "secure such compromises as may be possible."

The disagreement between the President and his former Secretary of State, the first in public view since Mr. Bryan left the cabinet because he did not agree with the President's course in the diplomatic negotiations with Germany, was thus disclosed as a fact, although it has been rumored and reported in the underground currents of national politics. In the opinion of the political leaders if crystallized an issue.

President Wilson in his message, said nothing whatever about a third term for himself and neither did he make any formal announcement of his intended retirement to private life, as some had forecast he would. Mr. nothing bearing on any ambition to Bryan, in his prepared address, said ward a fourth presidential nomination but before reading his manuscript he said he had nothing to ask; and that, therefore, the diners would not listen to him with the thought that they were listening to a candidate.

There were a dozen or more other speakers at the dinners and their views on whether the league should be made a campaign issue were either divided in favor of the President's stand or Mr. Bryan's or else they did not touch on the subject at all.

STATE PRESS ASSOCIATION

PASSES FINAL RESOLUTIONS

Greensboro, Jan. 9.—The North Carolina Press Association in a two day midwinter session here before adjourning today unanimously adopted the following resolutions: "Whereas the Press of North Carolina has stood for the uplift of humanity at all times in the largest and best sense and for the betterment of the conditions of our people, therefore, be it resolved, that we endorse this campaign for law enforcement now being waged in North Carolina, and pledge ourselves to help 'cut out the moonshining and spread the sunshine around the world.'"

"The association approves the policy of Supt. of Public Instruction Brooks, on the plan to provide a better grade of teachers and better equipment for common schools in North Carolina, and notes with pleasure his intelligent conclusions for the accomplishment of these vital things."

A resolution was also adopted urging the equipment of the Jackson Training School with printing department and modern equipment for training boys in mechanical work.

FRIDAY, JAN. 9TH, 1920.

QUESTION NO. 18.

What Pitt county newspaper has for thirty-eight years stood by the home boys that have grown up with the town, encouraging them in their aspirations to climb on the ladder of business success, and has taken delight in recording their achievements and how they have become captains of industry and finance, and helped to put Greenville on the map as the best town in eastern North Carolina? Ask E. G. Flanagan.

Hitting the "H. C. L." doesn't come near the goal of reduced prices.

Boost the chamber of commerce and help Greenville go forward.

Americans killed in Mexico is getting to be an ordinary occurrence, judged by investigations.

Never mind about the tax collector, sonny, you'll soon be old enough to know.

Have you done your share in the interest of getting Chowan College established in Greenville?

Probably the Republican party soon will learn that "hedging in" Democrats is not such an easy job after all.

Members of the Harvard Observatory have discovered a new star—and its not a moving picture actress either.

Senator Smoot apparently enjoys raking sugar profiteers, although he cannot have any idea of accomplishing more.

The Tarboro Southerner is advocating a chamber of commerce for Tarboro. The town could not have anything better.

Maybe the peace treaty in the coming presidential campaign will become a balm to Republican sorrows after the campaign is ended.

The revaluation tax plan is causing many people to realize exactly how much property they have owned for several past years.

Another Plumb plan has been proposed by railroad brotherhoods just as if the last Plumb didn't appear cherry in its early stages.

Some men are sorrowful because leap year has come and they haven't been proposed to, forgetting that every dog has his day.

That hunter in Connecticut who set his trap for a raccoon and caught an American eagle, might catch bears in the financial world.

Grecian cigarettes are to be manufactured near London by American manufacturers, and will no longer retain Turkish flavor, although it is possible the harem will still be prevalent in the smoke as a result of fond recollections.

THAT 1920 CENSUS.

The following comment regarding the enumeration of the census throughout the United States set forth by the New York World, contains a number of interesting points suggesting bewilderment of our people in the possible shortage of population to be noted in the final conclusion of census taking. A comparison of the past census and that of the present time is set forth in an interesting way, showing what may be expected when the final tally is presented: The editorial follows:

"The years since 1910 have seen great world events directly affecting the census of 1920, now in progress. The Tripolitan and Balkan wars and the great conflict with Mitteleuropa have so blocked immigration and set up eastward counter-currents that increment possibly smaller than that of 1910 is looked for. Yet if that increment should shrink from 16,000,000 to 14,000,000, what a record will remain!

Few estimates of the population of the United States proper fall much below 106,000,000—and in this swiftly swelling mass the proportion of foreign-born is much lower than it was ten years ago. German scholars should have warned their war lords in 1917 that they were affronting a nation more numerous than that which Spain had fought by an addition greater than the entire Austrian Empire—a nation more nearly native American than it had been for years.

In other respects than numbers the change is startling. National wealth has so leaped upward—both in fact and in appearance, owing to the marking up of assets—that most estimators are probably too timid. Bold ones who guess at \$300,000,000,000 may be nearer right. In twenty years the value of farm products and deposits in banks, unfailing indices, have quadrupled. The value of a single year's manufactured product exceeds the entire wealth of any second-class nation and of some first-class ones. The epoch-making changes in shipping and in national gold-holdings are indices of power.

Unless such bewildering developments shall be accompanied by a sterner sense of public and private duty and of responsibility for our brothermen in every continent, they are a source of weakness, inviting cupidity from without and extravagance and class conflict within. No census can measure or assess the American spirit. This too, we may hope not unreasonably, will continue to share in the growth of Wonder Land."

SACRIFICE AND EDUCATION.

The serious shortage of school teachers which is being experienced in every part of the country at this time is not due entirely to the teacher's dislike for teaching, as proposed in some instances, for present indications show that virtually nine out of ten men and women are forced to abandon educational work simply on account of poor compensation which they receive in this particular branch of service and are forced in many cases, through necessity, to lend their efforts in the promotion of industry because of more inviting pay.

Some people have been so unfair as to criticize teachers for leaving the school room on this account, but no fair-minded person can feel justified in disparagements when they are aware of the condition facing the teacher today. In thousands of instances men and women may be found in the school room, serving their profession faithfully, when they could have been engaged in some other branch of work more lucrative and inviting in every way.

North Carolina is experiencing the severe shortage as much as any other section of the country, and even at this time the situation is so grave and ominous that educational leaders are appalled at what the future may hold. Teachers are forced to pay the same prices for necessities of life as other people, and when their own profession fails to provide adequate funds to sustain them it is only perfectly natural that other sources of compensation should be looked for.

In commenting upon the situation in the State of New York and generally embracing the entire nation, the New York World has the following to say: "Secretary Lane's announcement that more than 143,000 school teachers resigned last year to accept more lucra-

tive positions shows that the war's effect on the teaching profession was worse even than had been supposed. This number is very nearly one-fourth of all the teachers employed in the common schools of the country in 1914. It is almost exactly the number then employed in the common schools of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey and Pennsylvania. What the withdrawal of so large a body of experienced teachers will mean in impairing the efficiency of the public school system if it is not offset is too obvious to be recited.

"At a time when the country must rely more than ever on the influence of the public schools to instill Americanism and counteract the poisonous doctrines of alien discontent, it sees them crippled by the loss of trained teachers. That they were justified in leaving their ill-paid profession for better remunerated work is admitted. That they must be replaced by equally competent persons is manifest if the nation is not to suffer from the deterioration of public education.

"But certainly the pay for teaching must be greatly increased if men and

women of the requisite ability are to be attracted to it. There are no endowment fund drives for their benefit, as for college professors. They must rely on the slower processes of public opinion operating to liberalize public boards and commissions, and therein lies the gravity of the problem."

Unmarried men not contemplating matrimonial bliss any time soon probably will find it advisable to tag themselves like this: "License applied for."

Kentucky farmers, so it is said, are holding tobacco until prices become higher. Pitt county farmers probably will find it advisable to do the same thing.

Reports say the Bolsheviks is operating in the region of Odessa and the Black Sea. We should worry as long as belligerency is kept that far in the distance.

There is certainly some difference in temperature the first half and last half of the present week. From 10 above zero Monday to 65 today is some jump.

SNAKE HOLLOW IS CAUSING NUMBERS FOLKS TO BE RICH

(Continued from page one.)
in a gusher good for 5,000,000 to 10,000,000 cubic feet. This cannot last, for the wells are drilled so close together that the pool will be exhausted very soon unless it is found to extend over a much wider area than that now producing.
But while it lasts Snake Hollow is taking on all the features of a boom district where fortunes are made overnight. Steep hillside lots which six months ago could have been bought for a song have sold for \$10,000, and leases, covering spaces not big enough

to hold a drilling equipment, have brought half that sum. Churches have leased their back yards, and schools have given over their play-grounds to the driller for a consideration. In one instance the township board of education leased a school property, getting \$5,000 down and 30 percent of what the drill might find. The lease of an amusement park was sold for \$160,000. A year ago the land, surface and all that might be under it, could have been bought for \$300 an acre.

NOTICE!
The Hope Fire Company will meet tonight at 8:30 o'clock.

SKATING

Tonight and Saturday night at Forbes & Morton's warehouse. Everybody come. Good exercise for old and young.

If you wish a good pair of skates see Whichard, Proctor Cigar Stand.

MR. FARMER

Before making your plans for this year's crop it will pay you to investigate the good results from the use of Pamlico Fertilizers last year. We are prepared to furnish any material desired, at the right price. Ask G. W. Peed about the results.

Place your orders early with
Local Agent Pamlico Chemical Co.
N. O. Warren

Fertilizer Prices REDUCED

Fertilize All Your Crops

More than ever before, it will pay to fertilize all crops heavily during 1920. The world is short on the two principal crops we produce, TOBACCO AND COTTON.

The best way to overcome the present labor scarcity is to make one acre produce as much as two acres have produced heretofore, and with fertilizer prices lower and Tobacco and Cotton prices higher than ever before it does not require any argument to induce our farmers to fertilize their crops better than ever during the year 1920.

We would suggest that you use only fertilizers which contain ONLY FOREIGN POTASH. It has been proven during the past year that potash produced in our western states has been injurious to crops in many instances, and it would be well to have your fertilizers made with the old and well tried EUROPEAN OR GERMAN POTASH AND KAINIT. We expect to use nothing except foreign potash this season for our tobacco goods, and are in position to use Kainit in all our Cotton goods.

We will be glad to have your orders in plenty time this year in order to avoid a rush at planting time.

Greenville Oil & Fertz. Co.

"RESULTS MORE THAN CLAIMED"

So testifies Mr. J. F. ARENDT,
Box 44, Remlig, Texas

PE-RU-NA
THE REMEDY FOR EVERYDAY ILLS

"I have used Pe-ru-na for years in cases of colds and catarrh. The results have been good, in fact, more than you claimed. Have also taken Lacupia and can easily say it is one of the best blood purifiers I have ever used."

Mr. J. F. Arendt

For Catarrh and Catarrhal Conditions

The evidence of one man like Mr. Arendt is more convincing proof to you of the merits of Pe-ru-na than any written words of ours. For fifty years Pe-ru-na has been the standby of the American family for diseases due to catarrhal inflammation of the mucous membranes lining the organs of the body. Thousands, like Mr. Arendt, have proved the effectiveness of Pe-ru-na for coughs, colds, nasal catarrh, stomach, bowel and liver disorders or any disease characterized by a catarrhal condition. If your suffering is the result of a catarrhal disorder try Pe-ru-na. It is a true, tried medicine.

Sold Everywhere

Tablets or Liquid

Ninety-seven per cent. of the people have catarrh in some form.

QUINN-MILLER & CO

**PALMER EXPLAINS
HOW BIG PACKERS
REACHED DECISION**

Attorney General Says Agreement Meant More Than Formal Decree.

Washington, Jan. 8.—More was accomplished through the government's settlement of its anti-trust proceedings against the five big Chicago meat packers than could have resulted from a court decision adverse to the packers, Attorney General Palmer told the Senate today by invitation of the agricultural committee. He committed in connection with its consideration of what legislation is yet required for the meat packing industry.

The government, the Attorney General declared, surrendered no rights to a further prosecution of the packers, eliminated the packers from the meat packing and does not at present conduct of industries not directly related sent contemplate further proceedings, either civil or criminal as "the cases against them have been won."

There were sharp interchanges between Mr. Palmer and committee members during his appearance. The suggestion of Senator Norris Republican, Nebraska, that criminal counts against the packers, past and prospective, had been "forgiven" by the agreement brought a flat denial.

Senator France, Republican, Maryland, intimated that by bringing civil and not criminal proceedings against the packers, the Department of Justice had "laid itself open to the charge of failing to prosecute multi-millionaires while its agents had been spying upon members of labor unions and making summary arrests."

"It does not lay in the mouth of any man, high or low, to say that the Attorney General of the United States is a respecter of persons," retorted Mr. Palmer, his ire plainly aroused. He added that he had brought civil complaints against the packers exactly as he had brought civil complaints against the miners' union during the recent coal strike.

Commenting upon the general effects of the agreement, Mr. Palmer said he saw no hope of immediate lowering of food prices by reason of it.

"There is much weight in the argument that these large concerns secure greater efficiency and consequent lowerings of costs," he commented. "But if so, it is the efficiency of autocracy. We shall have to depend on gaining results in this direction from the competition between smaller units, and if they are not obtained, then our whole theory of efficiency gained by democratic competition is wrong."

Recounting for the first time the immediate history of the prosecutions against the packers, Mr. Palmer said that while a Chicago grand jury was considering the government's evidence, Robert J. Dunham, vice-president of Armour & Co., had opened negotiations for the settlement, after he had informed the packers that if they desired to come with the idea of surrendering to the government and would state how far they were willing to go in complying with certain requirements by the government, he would be willing to meet their representatives.

Most people know what they don't want—also that they don't often get what they do want.

Nature has arranged things so that a poor man is able to display as many virtues as a millionaire.

A close student of human nature seldom lends money to his friends.

**NEGLECTING THAT
COLD OR COUGH?**

**Why, when Dr. King's New
Discovery so promptly
checks it**

IT'S natural you don't want to be careless and let that old cold or cough drag on or that new attack develop seriously. Not when you can get such a proved successful remedy as Dr. King's New Discovery.

Cold, cough, croup, croup does not resist this standard remedy very long. Its quality is as high today as it always has been—and it's been growing steadily in popularity for more than fifty years. 50c. and \$1.00 a bottle at all druggists. Give it a trial.

Tardy Bowels, Inert Liver

They just won't let you put "pop" into your work or play. Sick headache comes from retaining waste matter and impurities in the body.

Feel right for anything—make the liver lively, the bowels function regularly, with Dr. King's New Life Pills. Smoothly yet positively they produce results that cleanse the system and make the liver and bowels respond to the demands of a strong, healthy body. Still 50c. at all druggists. Try them tonight.

LAND SALE.

By virtue of the power of sale contained in a certain mortgage given by Robert Peel to R. R. Fleming, November 18th, 1914, and recorded in Book A-11, page 508, register's office of Pitt county said mortgage being given to secure the purchase money due for said land, the undersigned will sell, for cash, at public sale before the court house in Greenville, on

**SATURDAY, JANUARY 24TH, 1920,
AT 12 O'CLOCK, M.**

The following described tract of land in Pictious township, known as part of the Grimes farm, and being the same conveyed to Robert Peel by R. R. Fleming.

Being the Southern portion of lots No. 6, 7, 8 and 9 of the division of lands made by I. S. Fleming in December, 1913, and bounded on the North by R. R. Fleming, on the East by Elks land, lot No. 5 of said division; on the South by Thad Tetterton lands, and the run of a branch of White Oak Swamp; on the west by Robert Wilson land, lot No. 10 of said division, more particularly described as follows: Beginning at an iron stake, the North east corner of lot No. 10, Robert Wilson land and in the west line of lot No. 9, thence S. 83 degrees 30' E. with R. R. Fleming's line 804 feet to a stake in a small branch or ditch; thence S. 70 degrees 35' N. with R. R. Fleming's line, 1535 feet to a stake in the West line of lot No. 5 of said division known as Elks line's thence with the west line of lot No. 8, S. 8 degrees 10' west 1528 feet to a stake in the fence corner, the S. W. corner of lot No. 5; thence with the dividing line between the lots Nos. 6 and 7, and the Thad Tetterton land N. 56 degrees 40' W. 1400 feet to a chopped gum, corner on the West edge of a branch leading to the White Oak Swamp; thence up the run of said branch, 1761 feet to a stake, centered by a small oak and laurel, being the S. N. corner of the Robert Wilson land, No. 10 of said division; thence N. 15 degrees N. with the east line of lot No. 10, Robert Wilson land, crossing a small branch and running with a wire fence 1777 feet to the beginning. Containing 76.20 acres by survey.

This December 23rd, 1919.

R. R. FLEMING,

Mortgagee.

F. G. JAMES & SON, Atty. 2414-46

C. HEBER FORBES

NEW YORK CITY TO TRY EXPERIMENTS IN CIVIC PROGRESS

Community Experiment Will
be Conducted on Greater
Scale Than Formerly

New York, Jan. 8.—A community experiment similar to the one which has been carried on in a section of Cincinnati the past two and a half years by the National Social Unit Organization, will be conducted here in 1920, if plans for a merger of that organization and the Community Councils of greater New York, recently formulated by the executive boards of both bodies, are consummated.

Miss Sara Graham-Mulhall, Mrs. Edgerton Wintrop and Dr. Albert Shields, director of the Community Councils of greater New York, are prominent in the proposed enterprise. Wilbur C. Phillips, executive secretary of the National Social Unit Organization, explaining the project, said:

"The work of the Community Councils, already established in 80 sections of New York City, has demonstrated their ability to awaken civic interest, increase neighborliness and promote co-operative endeavor. The Cincinnati unit has shown that the organization of people by small population units, with a representative for each unit, has been extraordinarily successful as a means of enabling the discussion of community needs and programs.

"Development of the work in New York," said Mr. Phillips, "may first center around some common problems, such as infant welfare, the reduction of the cost of living or recreation. This work is to be undertaken insofar as possible by the women of the city acting as volunteers. An effort also will be made to waken the intelligent interest and co-operation of important groups in the population such as business men, wage earners, physicians, nurses, social workers, clergymen and city officials.

Enthusiasm is something that causes a man to shout when the crowd is shouting even if he doesn't know what it is shouting about.

Tax Notice!

To the Tax Payers of Pitt County:

The Legislature of North Carolina in session 1919 passed a law putting a penalty of one per cent on everybody who failed to pay their taxes before the first day of January 1920, and thereafter one per cent in addition for each month it was not paid. The Commissioners of Pitt County, realizing the fact that this was not generally known by the people, have arranged with me not to enforce this penalty until February 1st, 1920. Come in and pay your taxes at once as after that date, under the state law, I will be compelled to add the penalty to your taxes as stated above.

Yours truly,

E. R. Dudley

SHERIFF PITT COUNTY.

PERSONAL

Mr. J. S. Wright, of Boardman, spent evening.

Mr. G. R. Tyson, spent the day in Greenville Thursday.

GREAT BRITAIN IS NOT CONCERNED IN AMERICA'S FLYING

(Continued from page one.) types of planes are to be approved by the government. An air fleet union, modeled on the lines of the German Navy League, has been formed with the object of fostering national interest in aviation.

LEADERS OF UNION CALL OFF ORDERS FOR STEEL STRIKE

(Continued from page one.) vice-president of the Amalgamated Association of Iron, Steel and Tin Workers; Edward J. Evans, International Union of Electrical Workers; Wm. Hannon, International Union of Machinists, and William Z. Foster, secretary of the committee.

The offices of the committee here will be maintained for about a month, while the business of the strike is being wound up, and the commissary department will continue to look after needy former strikers and their families until the men have obtained employment. Steel company executives said they were not surprised that the strike had been called off, as the strikers have been drifting back to work for several months. Many mills, it was added, had long ago been able to operate full time with full forces.

William Z. Foster later announced his resignation as secretary-treasurer of the strike committee and said he would be succeeded by J. G. Brown, of Everett, Wash., former president of the Timber Workers International Union, and one of his chief assistants during the steel strike. Brown is to assume office February 1.

The tobacco market is moving right along. Since the after holiday re-opening Tuesday the sales have been comparatively light, but prices have soared in high figures, much to the gratification of both farmers and warehousemen. There is a considerable quantity of tobacco yet to be sold and the farmers will be selling it as fast as possible to be ready for preparation for the next crop.

NOTICE TO AUTOMOBILE OWNERS

All those who own automobiles and have not paid their one dollar license, please call on the city clerk's office and pay the amount at once.

W. L. BREWER,
Chief of Police.

REPUBLICANS ARE FREELY
CENSURED IN POLITICAL AIRING

(Continued from page one.)
ratification, either directly, or by overwhelming it with reservations that are intended to nullify it.

"The failure of the Senate Republican leaders to offer or to permit consideration of interpretative resolutions that would preserve the general purpose of the treaty and to permit its ratification condemns them to the criticism of the nation and to the contempt of the world."

The resolution said that when the Democrats came into power in 1913 they found "the nation in a condition of comparative industrial and commercial depression" and with "the banking system in the hands of a few men at

whose will panics periodically occurred."

It was added that these and other ills had existed for sixteen years under Republican rule without any relief.

AMERICAN LEGION FAVOR
NATIONAL SAVING MOVEMENT

Members of the American Legion, recently assembled in their first national convention, passed a resolution strongly commending the savings

movement of the United States government. The resolution was sponsored by Major William A. Atkinson, of Amherst, Mass., chairman of the sub-committee on thrift. The work of the war savings organization of the treasury department in promoting wise buying, elimination of waste, intelligent saving and safe investment is endorsed by the Legion in the resolution, which heart-

ly approves "the wonderful, patriotic and efficient work" done as a result of the savings movement.

Silence is anything but golden to the poor girl who is dumb to the entreaties of a wealthy suitor.

Often a man's character would be unable to recognize his reputation if they were to meet.

DR. DUNN MAKES ENVIABLE RECORD AS SPECIALIST—REPUTATION FROM COAST TO MOUNTAINS OF NORTH CAROLINA

Makes Record of 100 Per Cent. on Cures for 1919—Patients From All Parts of N. C., and Inquires from Virginia—Recently Asked to Make Trip to Alabama.

Of all patients treated 95 per cent cured in one treatment, 4 per cent in two treatments, and 1 per cent will need the third treatment, for a Cure. On case refused twice, but he came for treatment just the same and was cured in two treatment. No case treated when in the least doubt a cure. As many cases refused as were treated. Every case taken for treatment is taken for a Life Cure.
