ALLIES DEMAND U-BOAT COMMANDERS FROM GERMANY

Twelve Admirals, Thirty U-Boat Captains Are Included in the List

OUT OF 500 COMMANDERS ONLY 30 ARE DEMANDED

These Are Suspected of Having Exceeded Their Legitimate Instructions.

Paris, Feb. 9.—Delivery to the German government by the French charge in Berlin of the list of Germans whose extradition is demanded by the allies in the proper course to pursue in the existing circumstances, the council of ambassadors decided today. Its action was made known through an official communiqué.

Berlin, Feb. 9.—Twelve admirals, two high seas fleet commanders, thirty U-boat captains and numerous other active officers of the German navy are included in the list of Germans whose extradition is demanded by the entente powers. The names of virtually all the officials on the naval home and high seas staffs are found in the list.

Admiral von Mueller, chief of the secret naval cabinet, was permanently attached to great headquarters, where he was counted among former Emperor William's personal confidential advisers. In addition the allies demand Admiral von Tirpitz, Admiral von Capelle and Admiral von Trotha, who were successively secretaries of the navy.

Admiralty officers who will discuss the list charge that the wholesale demand for German naval officers indicates the entente's desire to "permanently paralyze German naval aspirations," and the presence of names like those of Admiral von Tirpitz and Admiral von Mueller is ridiculed.

Admiral von Schroeder commanded the Flanders naval base and it was under his jurisdiction that Captain Fryatt, later executed, was captured.

Out of a total of 500 German submarine commanders, the entente powers have called for only thirty, who, presumably, are suspected of having exceeded their legitimate instructions. These comprise all the prominent U-boat operators. The admiralty admitted losing two hundred U-boats, and it is estimated 100 were left at the close of the conflict.

Commander Becker is an aviator who attempted a sensational Zeppelin flight to the German colony in the heart of Africa. Officials are unable to account for the absence of the names of Zeppelin commanders who bombed London.

Captain Neger, whose name was included in the list, was commander of the German commerce raider Wolff.

Astonishment has been caused in French circles by a change of attitude on the part of the British government regarding the extradition of Germans accused of violations of the laws of war.

While it was understood that Great Britain was the most insistent of all powers represented at the peace conference in demanding the trial of former Emperor William and other prominent Germans, information has been received that the British are showing a tendency to leave the initiative as to further measures in the process of extradition to others.

Premier Millerand declared in the Chamber of Deputies last evening the allies would not evacuate the left bank of the Rhine until Germany has fulfilled all the terms of the Versailles treaty.

Lieut. Col. D. S. Wilson, who has been visiting his father, Mr. W. B. Wilson, returned to Camp Lee this morning.

WEIGHTY ISSUES WILL BE TACKLED BY PARLIAMENT

Says that Congress Has Failed to Do Its Duty and Appoints Campaign Com.

FOUR WOMEN INCLUDED IN NATIONAL COMMITTEE

Announcement of the Decision Was Made in an Official Circular Recently

London, Feb. 9.—The British parliament will reassemble on Tuesday with several of the weightiest problems of reconstruction still hanging over its head. The financial situation, the question of nationalization of mines and railroads and the Irish problem are three of the most important subjects with which the session is expected to grapple without delay.

Forecasts of King George's speech predict that it will be an unusually long and important pronouncement. The King's speech, read by His Majesty, but framed by the cabinet, customarily, points out the principal topics of national interest and frequently foreshadows the course of legislation. The full dress debate which follows the King's speech gives an opportunity for members of Parliament to engage in free discussion over a range of subjects.

Premier Lloyd George is expected to begin the session with a review of the general state of Europe and of the British policy toward various developments such as relations with Russia and the Polish and Italian situation.

The Laborites promise to move an amendment providing for nationalization of mines, while the small delegation of the Irish Nationalist party still left in the House of Commons is expected to attack the government's policy of repression, which they blame for Irish disorders.

Among announcements expected at the opening session is a statement of whether the government favors the proposed international conference for discussing the world's financial ailments. Confirmation also is expected of the government's previous statement.

RUSSIAN REFUGEES SUFFER ON ACCOUNT SHANGHAI'S FEARS

Employers in Shanghai Fear Bolshevism and Refugees Suffer.

Shanghai, Feb. 9.—Fear of Bolshevism entertained by employers in Shanghai is a factor which is making more difficult the hard lot of the hundreds of Russian refugees who have been fleeing in increasing numbers out of Siberia into China.

The growing colony of these Russian refugees, whose numbers swelled after the Siberian capital of Omsk fell into the hands of the Bolsheviks, has become a problem in the city of Shanghai. One handicap upon their efforts to obtain employment has been the reluctance of employers give work to persons from Siberia believed to have been exposed to the Bolshevik infection.

Members of the colony here which numbers several hundreds have established a school where English is being taught to the newcomers. At first one or two of the colony itself acted as instructors. After a few weeks volunteer teachers came forward and classes are now being held day and night in the shabby and cramped quarters provided at No. 73 Range Road. Another undertaking in the colony is a community food kitchen.

Unwillingness on the part of many of the Russian newcomers to recognize government of Russia has kept many from registering at the Russian consulate, which, it is stated, can extend aid only to regularly registered Russian citizens.

PASSENGERS SAFELY LANDED FROM LINER PRINCESS ANNE

Captain Seay Injured Was Among Those Taken to N. Y. by Rescuers

TRANSFER EFFECTED BY BOATS MANNED BY POLICE

Passengers Were Not Worried and Assembled in Saloon for Impromptu Concert

New York, Feb. 9.—Thirty-two passengers and twenty-eight members of the crew of the Princess Anne, which stranded on a sand bar at Rockaway Point, Thursday night, while bound from Norfolk, Va., to this city, were landed at the Battery by the police patrol shortly after 1 o'clock this afternoon. Forty-four members of the crew remained aboard the distressed vessel.

Captain Frank Seay of Norfolk, who was injured while navigating the boat through the storm, was among those landed.

The transfer from the stranded ship to the patrol was effected by small boats manned by the police crew, without accident.

The passengers said they were in their bunks when the ship grounded. They were assured by the officers that there was no danger and there was no sign of panic. It was not until yesterday morning, when the ship's position was obtained by navy radio, that those on board knew where they were.

There was no discomfort at any time, they said. There was plenty food, light and heat.

So little were they worried by the situation that last night they assembled in the saloon for an impromptu concert.

The grounding of the ship was occasioned by the heavy snow storm which made observation of lights and course markers impossible. A heavy northeast swell helped to sweep the vessel inland as she made toward the entrance to Ambrose channel.

Officials of the Old Dominion Line who went to the vessel on the patrol said she could be floated if the weather continued favorable. She is about two-thirds loaded with cargo.

DAVID JOHNSON A MEMBER OF U. S. ARMY IN THIS CITY

Located in Postoffice and is Prepared to Give Information to Ex-Soldiers.

Mr. David H. Johnson, a member of the United States army is here and will be in town until February 14th. He is prepared to give information to former soldiers concerning government insurance, unpaid allotments and travel pay, issue of victory buttons and any other information which the soldiers wish to obtain. While he will give information to the ex-soldier, he will also be glad to welcome relatives of the men who were in service. The government is offering unusual educational and vocational opportunities to soldiers, and Mr. Johnson, who is well acquainted with these facts will be glad to give detailed information concerning them. Young men who are not making over \$100 a month and who do not see prospects of a raise to \$200 inside of three years will do well to consider what the army has to offer.

Mr. Johnson can be found in uniform at the postoffice, from 4 P. M. until 6 P. M. and from 7:30 P. M. until 8:30 P. M. every day until February 14th.

LOCAL BASKET BALL TEAM DEFEATS THE RED OAK SQUAD

One of the Most Interesting Games of the Season Played Saturday Evening

FIRST DEFEAT OF THE RED OAK TEAM IN YEARS

The Ball Was Passed With Precision and Every Man Was on His Job.

When it was advertised that Greenville would play Red Oak Saturday night, a lot of people doubtless paid little attention to the fact because they thought that it would be a walk-over for Greenville. Such was not the case. The game was the hardest fought and by far the most interesting that has been played on the local court in years. The Red Oak team had not suffered a defeat during the whole season. In fact for years, it has had a proud record in athletics. The school is a State Farm Life school and has a number of boarding pupils.

The team that they sent to Greenville Saturday night was made up of players ranging in height from 5 feet 9 inches to 6 feet 6 inches and weighing from 160 to 215 pounds. The Greenville team were midgets compared to their opponents, and yet the local lads came off with the long end of the score, winning by a score of 22 to 16.

The game started off with a couple of sensational field goals by the Greenville team. The first half ended 13 to 6 in favor of the locals. Red Oak was stronger in the last half. At one time she threatened to win the score. With

ANOTHER CITIZEN OBJECTS TO SALE OF CAROLINA AVE.

Mr. C. T. Munford Explains Why He Objects to Selling of Carolina Avenue

Mr. Editor:—In your paper of February 6th you gave an account of the meeting of the aldermen of the Town on Thursday night and the transactions that took place at this meeting. I wish to protest through your columns against one action of our city fathers.

In your article (which in reality I surmised was the minutes of the meeting) you state that they sold to the Imperial Tobacco Co., that part of Carolina street east of the Atlantic Coast Line tracks to Atlantic Avenue. I feel that I have a right to speak at this time as I formerly owned the land as Clark's Old Field which is on each side of the Atlantic Coast Line and including the site of the present Imperial Tobacco Co.'s plant. In 1890 I had this field platted and mapped locating the following streets and avenues:

Grand Avenue running from Virginia street southeast to the Atlantic Coast Line depot, Pamlico Avenue and Albemarle Avenue running North and South on the west side of the Atlantic Coast Line tracks to connect with Grand Avenue and Bonner's Lane; also Atlantic Avenue on the east side of the Atlantic Coast Line running north and Bonner's Lane, being the same street that the Imperial plant now faces; also Virginia street, Carolina street and South Alley, running east and west through the property to connect on both sides of the railroad, connecting Atlantic Avenue and Pamlico Avenue.

Now about the street in question: Carolina street is the only street among these streets that it is possible to extend to connect this property with Dickinson Avenue. If extended, which can be done at a reasonable cost, it would come into Pitt street just about opposite the Farmers Bank Building now being built on Dickinson Avenue.

GREENVILLE WILL HAVE RACE TRACK IN NEAR FUTURE

Work is Already Well Under Way and Training Will Begin About Mar. 1.

FIRST RACE MEET TO TAKE PLACE JULY 4TH

To be Located on Site Formerly Known as Old Race Track Smith Property

Greenville citizens again come forward in the interest of our city and the consequences are that we are to have, in the near future, a race track. Messrs. W. H. Dail, R. L. Smith and Dr. Price have already begun work on having the track for our city. It will be located on the Smith property west of this city on the Farmville road, better known as the site of the old race track. Work on the track is already well underway. The large sum of \$20,000 will be expended in order to get it in a perfect condition and to support the racing after the track is completed. Training will begin on the 1st of March and the first race meet will take place on July 4th. The gentlemen, in whose minds the idea of the race track had its origin, are some of our cities most influential men. They are experienced in buying and selling horses and in fact own some of the blue ribbon horses of the state. They are deeply interested in the project and with them to back the racing, Greenville will be afforded a great deal of amusement. After the July 4th race, Greenville will then take her turns at the races, and will figure prominently in the fall races.

SUNDAY REPORTS CONTAINED FORTY CASES INFLUENZA

Smallpox on a Decrease in the County, 631 Vaccinated Last Week.

The influenza situation in Pitt is improving, but several new cases are reported each day. It is being carefully watched and very few cases of pneumonia are developing. On Saturday forty-nine cases were reported and yesterday forty cases were reported.

The smallpox cases are falling off, and improving in several localities. Five new cases were reported from Farmville this morning. During last week six hundred and thirty-one persons were vaccinated and this no doubt accounts for the decrease of this dread disease.

With the influenza and smallpox cases gradually decreasing, a measles epidemic is on hand. Several cases were reported from the Farmville section this morning. The county health officer is giving this report his undivided attention and it is hoped that it will not spread. With so many epidemics spreading over the county the citizens of the county should lend all aid possible to help check it. It is your duty to protect yourself, and by so doing you will render an invaluable aid to the county physicians, the county health officer, and your community.

ORGANIZED LABOR MILLIONS STRONG FOR UNION FRIENDS

Will Reassemble on Tuesday With Reconstruction Problems Hanging Over It

PREMIER LLOYD GEORGE WILL BEGIN THE SESSION

Laborites Promise to Move an Amendment Providing for Nationalization Mines

Washington, Feb. 9.—Organized labor, three million strong, has thrown its hat into the political ring. Vigorously denouncing congress, which it said, "has failed to do its duty," the American Federation of Labor today announced the appointment of a national non-partisan political campaign committee, which will mobilize trade unionists and "all lovers of freedom" in an effort to defeat candidates indifferent or hostile to labor and to elect "true and tried" friends of the trade union movement. Not waiting for the general election in November, the campaign will be started immediately and pursued without relaxation through the primaries, in which it is stated all aspirants for office will have their records "analyzed, stated in unmistakable language and given the widest possible publicity." This program applies to all candidates, from Presidential nominees down.

Samuel Gompers, president of the American Federation; Frank Morrison, secretary, and James O'Connell, president of the Federation's Metal Trades Department were appointed an executive committee empowered to obtain such assistance as necessary. Four women are included in the national committee.

A national crisis, threatening the free institutions of the country by the "reactionary attitude of congress, it was said, impelled organized labor to apply this year the non-partisan policy formulated in 1906 and used in several subsequent campaigns. Announcement of the decision was made in an official circular embodying the conclusions of the federation's general committee which has been in session for several days circular will be distributed to trade unionists in every State through the local unions, by which it will be called also to the attention of friends of organized labor.

"The inherent rights and principles of our people are threatened," the circular begins. It says in part: "The free institutions of our country are menaced."

"The ideals of democracy are in danger."

"The congress of the United States has failed to do its duty. It has failed to meet the emergency. It has given encouragement and support to autocratic and reactionary policies. Its dominating thought has been the repression of labor."

"Every effort to secure remedial and constructive legislation has been straggled. Every appeal for redress has met with subtle and open hostility."

"The hour has arrived when those who believe in the maintenance of democratic institutions must marshal their forces in defense of their rights and ideals."

"It is intolerable that a people who spared no cost to make the world safe for democracy should be forced to submit to any restriction of the glorious liberties inherited from the founders of our nation. The perpetuation of our fundamental rights and the enactment of essential constructive legislation demand the election of men, regardless of their political affiliations, who are truly representative of American ideals of liberty."

MONDAY, FEB. 9TH, 1920.

A Washington City paper says it is a case of "some head" with Admiral Simes.

New York is in the midst of snow shoveling, and it takes thousands of men to clear it off the streets.

Some of the congressmen are jumping on the weather bureau for incorrect forecasts. They certainly do miss the mark had sometimes in predictions.

Secretary Franklin K. Lane of the Interior Department has tendered his resignation to President Wilson to become effective March first. As yet there is no suggestion as to who will succeed him.

A BLESSED PEOPLE.

People in this section of the South are advised to make careful reading of the storm reports from New York and other localities up that way and then make mental contrast of conditions. The visitation of snow and ice and windy weather has been little short of the blizzard of 1888, the like of which has never been known in southern regions and never will be. Traffic in New York has been paralyzed for three days and it will be a week, probably, before anything like normal conditions are restored. One serious aspect of the situation is that the city has been cut off from supply trains and may run short of provisions. In view of this prospective emergency householders are advised to curtail and conserve food of all kinds. The newspapers are cut off from paper shipments and are compelled to cut down their usual run of pages and to eliminate some of the extra editions. Meanwhile, the scenes along the coast continue to develop much human suffering and destruction of property, one incident being the stranding of an Old Dominion liner, upon which the passengers and crew were helplessly confined for two days, and with very good prospect of a total loss of the steamer. The more our people reflect upon present weather conditions here and there, the deeper the conviction should seize them that they are fortunate people.—Charlotte Observer.

THEY KNOW NOTHING ABOUT COTTON.

"The South used to get from 6 to 8 cents per pound for cotton. That was too little. For last season's crop it will get about 35 cents per pound," says The Buffalo Express, and dogmatically adds: "That is too much." How does this Northern Journal know that 35 cents is too much? Has it taken into consideration the higher cost of everything entering into the production of cotton? Does it know that land values have advanced in the South, and that the best cotton land in the blackland counties of Texas sells for \$200 or more per acre? Does it know that labor costs have advanced to four or five times the cost of pre-war days, and that the Southern farmer is declining to put his wife and children in the cotton patch to work for nothing, as he formerly did? Does it

know that the corn a cotton plantation mule consumes costs \$2 or more per bushel and that all other stock feed is high in proportion? That farming machinery has doubled in costs as steel and city labor prices have advanced? That the farmer's living is costing him 100 per cent more than five years ago? That taxes have been increased materially? In fact, does not The Express and other Northern newspapers which are continually harping on the alleged excessive price of cotton realize that the cotton farmer is affected by the general rise in costs just as everybody else is, and that he must have a price for his product in keeping with the general level of values, if he is to stay in business? The Express says the Southern farmers are getting four times as much for cotton now as they did for the big crops of a few years ago. Probably so, but nearly everything entering into the making of those great crops was about four times as cheap as it is now. If 8-cent cotton was relatively too low 20 years ago, then 35-cent cotton is relatively not too high now. There would be less criticism of Southern cotton prices if the critics would consider them as relative to other commodity prices, rather than to compare prices today with those of former years, ignoring general conditions entirely.—The Houston Post.

RAILS AND TIES OF AMUR LINE

BADLY TORN UP BY BOLSHEVIKI

Shanghai, Feb. 9. — Bolshevik sympathizers in Siberia have so torn up rails and ties along the Amur line of the Trans-Siberian Railway that it will take two years to repair it, according to Colonel J. L. Lantry of the American Railway Mission to Siberia who came to Shanghai early in the winter on his way home to America. That particular section of the railway, he said, had been under the care of the Japanese.

"What will happen in Siberia this winter," said Colonel Lantry, "is terrible to contemplate. Thousands and thousands of people there are going to die of privation. They have worn their only suits of clothing all summer and they have nothing more.

"In spite of all that the American Red Cross is doing there, and it is a tremendous work," he added, "uncounted numbers will perish from cold and hunger. There is no warm clothing, no footwear and very, very little food."

Colonel Lantry, next to Colonel

Emerson, has been in charge of the actual operating work attempted by the American railway experts. He has ended his work in Russia. Formerly he was first assistant to the vice president of the Northern Pacific Railway.

Colonel Lantry said the Americans had made little improvement of the Siberian lines, due to the many difficulties encountered.

"Semenoff, the Cossack leader under Admiral Kolchak, who guarded part of the railway in the Chita district," Colonel Lantry said, "has been one of the many obstacles." General Semenoff has since been appointed Commander-in-Chief of the All-Russian armies.

"When I was on my way to Shanghai," Colonel Lantry added, "I passed through Andrianovka, 200 miles west of the Manchurian border and I learned that just a few days before General Semenoff had ordered the executions of 340 persons in that little town in a single day."

Colonel Lantry expressed the greatest admiration for the Russian railway workman.

"They have been entirely loyal," he declared, "working for three or four months without pay, riding on tops of trains in bitter weather with never a caboose for shelter, poorly clad and taking trains daily through regions marked by frequent wreck and derailments caused by a hostile peasantry. Through it all the Russian railroader has done his work. "With the right kind of co-operation," Colonel Lantry declared, "the American Railway Corps, working with these men could have rehabilitated the railway and made it a marvel of efficiency."

PRETTY FACE CAUSES WRECK

Aviator Hits Tree While Throwing Kisses to Swarthmore Co-eds.

Swarthmore, Pa., Feb. 9.—The Curtiss mail plane R-30, which dropped into a cluster of trees on the Swarthmore College campus, is rapidly disappearing at the hands of souvenir hunters in spite of the efficient guarding of the local Police Department.

An eye witness furnished an account of the mishap. According to his story the pilot was flying low and waving to a group of co-eds. All went well, it is alleged, until he loosened his hold of the controlling rod for the purpose of throwing kisses with both hands. In an instant his plane dropped into the trees, and it was another case of a pretty face causing the downfall of man.

AGREEMENT

"I Guarantee to pay for any injuries that my automobile may cause, whether it be to a person, or to a man's property, real or personal, regardless of whether I am driving it, and regardless of whether I am in the car at the time of the accident.

"In this I agree to pay all hospital bills, doctor bills, nurse bills, costs of judicial proceedings, lawyer's fees and any other cost or expense, as well as any judgment regardless of amount, that grows out of an injury produced by my car.

"As a further guarantee to this contract, I pledge as security all my real estate, chattels, and property of any kind which I now own, and

"Still further guarantee to the performance of this contract all real estate personal chattels, and property of any kind which I may hereafter acquire, accumulate or possess."

Signature

Witness

This is a pretty broad contract, but nevertheless every man that buys an automobile assumes it and regardless of whether he likes the conditions of this contract or not, he is bound unto it. A man would shudder if this contract was placed before him for his signature, and he would do anything he could to sidestep such an agreement. Men don't like to bind themselves on contracts like these. They don't like to give away the property that they have accumulated, because of the carelessness of others.

Why not let The Belt Automobile Indemnity Association of El Paso, Illinois, assume all this responsibility, pay all this expense, do all the work and relieve you of all this worry?

LOCAL BASKET BALL TEAM DEFEATS THE RED OAK SQUAD

(Continued from page one.)

only two minutes to play the score stood 18 to 16 in favor of Greenville. At this point, however, the local team spurted forward and threw two field goals in quick succession, and there the game ended and then Greenville fans took a good breath for the first time in ten minutes.

The locals had won the game because they played together as team. The ball was passed with precision and every man was onto his job.

The features of the game for the visitors was the work of Edwards at right forward and the guarding of Everett who held Hadley of the local team scoreless (and Hadley usually gets in a large number of field goals.)

For the locals the outstanding features were the playing of Bryan at forward, who shot three field goals and two foul goals. Also the very excellent work of Brown, M.; at guard who in addition to holding his man to one field goal, threw three himself and was always on top of the ball. Gaskins also did good work throwing two field goals. While at center threw one sensational goal.

Summary—Field goals, Bryan 3, Brown, M.; 3, Edwards 5; Gaskins 2; White 2, Faulkland, B. 2; Faulkland, F. 1. Foul goals, Bryan 2. Time 20 minutes. Referee, Kennedy.

The local team so far has played six games and lost only one. They will go to Elizabeth City this week end to try their luck. They have high hope of being eastern North Carolina champions.

ANOTHER CITIZEN OBJECTS TO SALE OF CAROLINA AVENUE

(Continued from page one.)

and Pitt street. This street if opened would be a great means to eliminate the congestion on Dickinson avenue. It would also enhance the value of real estate in the western section of the town, and undoubtedly be of great benefit to the people west of Dickinson avenue. Furthermore this chance the aldermen seem to be throwing away is the only chance they will ever have to give the people living west of Dickinson avenue, an outlet into the avenue with the exception of Fifth street, and Grand Avenue as they now stand. This leaves the only two thoroughfares that are now open approximately 21,000 feet apart. Instead of selling or closing any street we should open up all the streets we can as traffic now is so congested that constantly people are being run over, and serious accidents occur frequently.

I do not want to be misjudged in this article as I am strictly in favor of doing anything possible to further the tobacco interest or any other interest in this town but when it comes to giving something over to an individual or a firm that is public property, and is needed now and also for the future growth of our town, I don't mind standing up and saying I'm against it.

ments that Great Britain has not considered asking further loans from the United States.

The Home Rule bill probably will be brought forward at an early day, the cabinet having overhauled it during the past week at conferences with Viscount French, Lord Lieutenant and Governor General of Ireland, and James Ian MacPherson, Chief Secretary for Ireland.

GERMAN LEADERS

AGREE ON ACTION

Berlin, Feb. 9.—A secret meeting of army and navy leaders a month ago in anticipation of the allies demand for extradition of those guilty of war crimes, compiled a set of regulations for common action. These instructions which are signed by Generals von Heeringen, von Kluck and Falkenhavn, as well as others, declare that it is no violation of honor for one to place himself outside the pale of seizure by his own government or the entente.

Therefore, they must refuse to surrender, refuse to recognize the legality of a foreign court and do nothing in the shape of personal defense, or otherwise acknowledge such court but make the following common declaration in the German language:

"I have merely done my duty as a German soldier. As such I refuse to recognize a foreign and also decline to make any further statement."
