JAPAN LOSES TRADE WITH CHINA SINCE BOYCOTT ON GOODS

Over 90 Per Cent of Her Trade Has Been Lost With China Since Last May.

COMMISSIONER MAKES A TOUR OF AMERICA

Since the Boycott the Great Cotton Market Has Been Left Open.

San Francisco, Feb. 13.—Japan has lost 90 percent of her trade with China since the imposition of the boycott on Japanese goods last May, according to Mohan T. Y. Zi, of Shanghai, delegate of the Chinese General Chamber of Commerce to the national foreign trade convention to be held here in May.

Commissioner Zi, a member of one of the greatest importing and exporting houses in China, is making a tour of leading American cities, and will return here in time for the convention.

Speaking of Japan's loss of the trade it had built up with China during the year, reaching a volume of hundreds of millions of dollars, Commissioner Zi told of the opportunities offered to Americans.

"As a condition precedent to this great trade opportunity for America in China, the primary considerations are better cable facilities and more ships," he said. "American cotton exports to China up to the time when this country entered the war, approximated \$1,000,000,000. The great bulk of this trade, immediately upon your exports stopping, was secured by Japan, which obtaining the raw product from China, manufactured the cotton and sent the finished product back for Chinese markets."

"Since the boycott, due to the Shantung situation, this great cotton market has been left practically open, and one of my chief missions to this country is to establish connections with the big cotton exporters. China is urgently in need of materials of hardware and of electrical equipment. In the latter line Japanese products again are suffering from the boycott and the field is wide open."

"While to the outside world the trouble between Northern and Southern China seems important, it has no great bearing on the mercantile and industrial life of China. These factional differences are the product of political groups seeking power."

"The automobile industry is capable of tremendous development, as the Chinese are very partial to American motors of good modern style and quality and at the lowest price consistent with these qualifications."

Chinese are also making strides in the development of industries and building up the manufacturers of their own country, Commissioner Zi said. He also pointed out that American business men made a mistake in dealing with compradores (native commission merchants) at Chinese ports, rather than with Chinese importing and exporting houses, who, better understanding their problems, talking the language of their clients, operated more economically and efficiently in behalf of foreign traders.

BLIZZARD IS SWEEPING OVER THE BLACK SEA

Constantinople, Feb. 12.—A blizzard is general over the Black Sea.

The Russian steamer Gregorieff ran aground near the Killia life saving station at the Black Sea entrance to the Bosphorus. One hundred and fifty of her passengers were rescued in the raging storm by means of a line landed from the ship by a rocket, and efforts are continuing for the rescue of the 200 remaining passengers and crew. The Gregorieff is a 7,000-ton vessel. She left Odessa Sunday.

SUPREME COUNCIL TO PRESS DEMANDS ACCUSED GERMANS

Surrender of Germans Accused of War Crimes Will be Pressed, It is Stated

POSITION OF ALLIES TO BE SET FORTH SOON

Council Decides that Headquarters Shall Remain in Paris for the Present.

London, Feb. 12.—The allied supreme council has decided to press its demands for the surrender of Germans accused of war crimes, despite the protests of the government at Berlin, it was stated tonight. It had been reported that there were differences between France and Great Britain as to whether the demands should be modified.

It is probable that the position of the allies will be set forth soon in a statement. This may take the form of another communication to Germany, or possibly one to Holland. As far as can be ascertained, however, nothing definite has been decided regarding any further steps to be taken toward Holland.

The council in dealing with other questions, decided that financial experts of the allied governments, many of whom are here, should meet soon to discuss the problem of international exchange in an effort to devise a plan for its stabilization. It was not settled when the first meeting of these experts should be held.

The council decided finally that its headquarters should remain in Paris. For the convenience of the British governmental authorities, however, it will continue to sit here for the present, probably through the coming fortnight. It is expected that Premiers Lloyd George and Nitti will be in constant attendance. Premier Millerand probably will be called home before long, in which case France will be represented by Philippe Berthelot, political director of the foreign office and Paul Cambon, ambassador of Great Britain.

PLANS BEING MADE FOR DIRECT LINES OF SAILING VESSEL

Leading Business Men Desire to Open Lines of Sailing Vessels Between Japan

Tokio, Feb. 13.—Plans for the opening of direct lines of sailing vessels between Japan and America are being made by leading business men of the two nations. With this object in view a shipping firm to be capitalized at over \$1,000,000, is being promoted with the intention to buy or build six sailing vessels, each of about 5,000 tons, and to be equipped with auxiliary engines.

Francisco Rivas, minister of Chile to Japan, has been encouraging the project since he reached this country two years ago.

Japan is one of the principal consumers of Chilean nitrates, and imports a great deal of copper and iron ores and other raw material abundant in Chile. On the other hand, there is understood to be a great demand in Chile for Japanese cotton goods, glass wares, porcelain and other products; but their exportation to Chile is hampered by high freight rates.

Japan is now assiduously engaged in extending her trade to the South Pacific Islands, the Straits Settlements and other places and it has been suggested that the proposed lines of sailing vessels could be outlined for this purpose.

The many friends of little Miss Nannie Johnson Rowlett and Master Robert Moye, will be pleased to know that they are improving from an attack of influenza. It is hoped that they will soon be out again.

BANKING POWER OF UNITED STATES SHOWS INCREASE

Comptroller Williams Tells People Prosperity May Become Artificial

LARGE VOLUME OF MONEY DOES NOT MEAN WEALTH

In 1919 Not a National Bank Failure Involving Loss to Its Depositors

Washington, Feb. 12.—Warning that the prosperity and activity indicated by banking figures may become artificial and deceptive was given today by John Skelton Williams in his annual report as comptroller of the currency.

Remarking that in 1919 there was not a national bank failure involving loss to depositors and that the banking power of the country has increased 900 per cent in the last thirty years, Mr. Williams added:

"A large volume of money cannot mean increase of real wealth while there is decrease of production and the accumulation and movement of securities and currency represent abnormally inflated values put on diminished supplies of essentials."

"It is clear that no country can be enriched by merely increasing prices of products produced and consumed by its own people. We might prosper for the moment if we could sell our products abroad at the higher prices and take payment in gold or in goods at normal we sell and buy at corresponding abnormal prices."

All the gold in the world, aside from \$3,135,000,000 held by the country, was estimated by the comptroller at \$6,000,000,000 or only about 40 per cent of the credit balance of this country in the last six years. For that reason, he urged that this country should adopt a policy of reasonable help and encourage ment toward debtor countries, with no assets immediately available, but having fair prospects of being able to pay out if given time.

Praise for the part played by the (Continued on page four.)

NAMES OF LINERS PERPETUATED IN MANY NEW VESSELS

New Vessels Will be Named for Ships Sunk During the War, It is Said

Liverpool, Feb. 13.—Names of several large Cunard ocean liners sunk by enemy submarines during the war are to be perpetuated in new vessels now under construction, it is announced by the Cunard Company. The company has nearly 500,000 tons of passenger ships now building.

Of the vessels whose names are given none will approach the size of the Mauretania or Aquitania, but they will be big liners of intermediate type, ranging from 520 to 600 feet in length. They will have spacious accommodation for passengers, and will also be able to carry large quantities of cargo.

There are four ships of the 600-foot class, the Franconia, the Laconia, the Seythia, and the Samaria. There is only one vessel under construction in the 550-foot class, the Tiburnia, a name which appears for the first time among the company's ships. The 520-foot class comprises seven vessels, the Alania, Ardanis, Aurania, Ansonia, Ascaria, Albania and Antonia. Of these the first five are the names of vessels lost in the war and the Antonia appears for the first time.

We have 32 of Pitt county's best farms listed with us. We are in a position to sell these farms on very easy terms. All are well located. We have customers wanting city property, if you have anything to offer, see us.

GREENVILLE PITT LAND CO. K. W. Cobb, Manager, Phone 113, Reflector Building.

DEATH RATE DROPS BUT PNEUMONIA IS TAKING NEW HOLD

Only 19 Deaths Yesterday but Pneumonia Increased to 122 Cases.

INFLUENZA CASES ARE ON A SLIGHT DECREASE

More Counties Reports Than Before, but Situation is Well in Hand.

Raleigh, N. C., Feb. 12.—Pneumonia took a new grip on the State yesterday with a total of 122 new cases developed, according to the reports made from 46 counties to the State Board of Health. Influenza cases and the death rate from influenza-pneumonia dropped slightly in the report compared with the previous day with 4,388 cases of influenza and 19 deaths. Reports were received from four counties that had not previously reported, although the disease had been prevalent for several days.

Health authorities were unwilling to venture a prediction yesterday as to whether the worst of the influenza epidemic is passed, but were of the opinion that the outbreak of pneumonia has not yet reached its climax. Yet further daily increases are expected, especially in view of the present weather conditions, before there is any definite improvement. It was more widespread yesterday than in any day since influenza became epidemic January 26.

The present outbreak has found most communities hitherto reported that they were in 1918 to fight the disease and to care for those who are stricken. There have been materially fewer appeals for outside assistance and in most places communities have been able to take care of their sick with local organizations. Some cities have appealed for outside nurses and doctors. Now there are more physicians listed with the State Board than are required for immediate service, and officers are hopeful that their help will not be needed.

PRICES THROUGHOUT GERMANY ARE ON A GREAT INCREASE

Shortage of Raw Material and Cost of Coal and Wages Are Reflected

American Headquarters, Coblenz, Germany, Feb. 13.—Continued shortage of raw material, increased cost of coal and wages is being reflected in a general increase in prices throughout Germany according to the German newspapers.

A Hamburg rubber goods company has announced a 30 percent increase in the cost of all goods. Leather goods have gone up in price enormously. Some dealers say the price has reached such a stage that they believe it will virtually be impossible to do business in the leather line if the price takes another jump. Trade papers have recommended that leather goods be permitted to be imported free of luxury tax.

German newspapers are contemplating an increase both in the rate of subscription and of advertising.

Despite the wall of high prices German newspapers published long accounts recently to the effect that many foreigners, especially, Russians, have been flocking to Germany to take advantage of the low cost of living due to the low value of the mark. One newspaper says: "The cost of living for a foreigner in Germany today is probably one-fourth of that abroad. Naturally, foreigners attracted by the cheapness of living conditions are flocking to various parts of Germany. Many of these are Russian emigrants who escaped from Stockholm or Copenhagen with money enough to last them a year or so but who, by coming to Germany, find themselves provided

THE ENACTMENT OF RAILROAD BILL NOW SEEMS BE CERTAIN

The Leaders Say that it Will be on the Statute, Books Before March 1st

FINAL DRAFT OF REPORT IS NOW BEING MADE

The House Will Take Up the Report Next Monday or Tuesday, It is Stated

Washington, Feb. 12.—While some opposition to the railroad bill as finally agreed upon in conference has developed senate and house leaders predicted today that the conference report on the measure would be promptly adopted so that the legislation would be on the statute books before the roads are returned to private control March 1.

The final draft of the conference report is now being made and it will be presented to the senate Saturday or Monday. The house expects to take the report up Monday or Tuesday at the latest and leaders said today it would be disposed of in two days.

Chairman Esch, of the house interstate commerce committee, one of the authors of the railroad bill, and other leaders expressed confidence that opposition by house democrats would not delay passage of the measure.

They based their prediction upon the fact that the bill as rewritten in conference is substantially the same as the Esch bill recently passed by the house. Senate provisions to which there was objection, including the anti-strike section, creation of a transportation board and compulsory consolidations were stricken out in conference. The essential addition to the house bill was the fixing of a guaranteed return of 5 1/2 per cent.

"With the time already fixed by President Wilson for return of the roads and the widespread demand from the people that they be handed back," Chairman Esch said today, "failure to enact necessary legislation before (Continued on page four.)"

74 NEW CASES OF INFLUENZA IN THE REPORT THURSDAY

Members of Basket Ball Team Are Given Physical Examination by Dr. Chester

The report from the Pitt county health office today, shows quite a decrease of influenza cases reported yesterday compared to the Wednesday report. On Wednesday 130 cases were reported, and yesterday's report contained only 74 new cases. Few cases of pneumonia have developed and as warmer weather approaches, it is hoped that the epidemic will soon be checked. Yesterday's report contained three cases of smallpox and three cases of measles.

The basket ball team left this morning for Elizabeth City. Before departing, Dr. P. J. Chester, the county health officer, gave each a physical examination to see if they were free from the influenza. They all passed the 100 per cent mark and left here in a splendid condition. This was a wise step to take and will prevent citizens of our city from carrying the influenza into another city.

MR. F. A. HASKINS IMPROVING.

The friend of F. A. Haskins will be pleased to know that he is improving from an attack of influenza. It was feared that pneumonia would develop, but, with careful nursing, this has been avoided, and it is thought that he will soon be out again.

CITY CH. COMMERCE DIRECTORS HOLD A SPLENDID SESSION

Talked Over Development of Things in Greenville and Pitt Co., During Year.

GOING TO OPERATE UNDER MOST EFFECTIVE PLAN

Phamplet to be Prepared to Set Forth Data About This City and County

With all but two members present, the directors of the Chamber of Commerce held a fine meeting last night. The gentlemen talked over the development of things in Greenville and Pitt county during the last year and expressed joy they were to be allowed the privilege of being the servants of the citizens who should help to promote the general development and welfare of the town and county during the coming year. As one gentleman said, "We people here at home do not realize what we have at hand. We have more to advertise than any commonwealth that can be thought of. Our people should have this thing put before them until they begin to live in the realization that we have everything here that will make this one of the best counties in the United States."

They should be made to see this thing so plainly that they will do everything in their power to develop what we have here and make our own people richer and more progressive instead of going outside to draw in new people at the same time losing sight of some of the best that we have at home and let them slip from our grasp. We may need new industries; but first, we need to appreciate those things which we have and advertise them at home and abroad. So the board of directors has decided that a great deal of the work that shall be done by the Chamber this year shall be toward this end. It takes newspaper talk, bulletins, county fairs or what not, the Chamber of Commerce means that people everywhere shall be more familiar with Pitt county and Greenville in a few months from now.

The organization is going to operate under a most effective plan during the coming year. There will be seven departments each having a chairman and a sub-chairman. The membership will be divided between these seven departments and when a problem comes up it will be assigned to that department which can best work it out. In this way more effective work can be done and by every member feeling the responsibility which is involved upon him with this assigned duty, a great deal can be accomplished. A large chart showing the organization plan and the names of members will be given to every member.

The publicity department is starting now to prepare a phamplet setting out data about Greenville and Pitt county. This material will be published in the most attractive manner possible and it will take quite a long time to prepare it; but when the citizens see the booklet they will say it was well worth waiting for.

A motion was made that the organization here join the Chamber of Commerce of the United States. It was voted upon favorably.

Miss Maude Lee was re-elected as executive secretary of the Greenville Chamber of Commerce and Mr. R. E. Ranson as advisory secretary. Mr. Ranson expressed himself as being glad to give suggestions to the organization without any salary for his services. He said he wanted to do that much for Greenville and was willing to help both the town and county whenever he could be of assistance.

We need more citizens with this same fine spirit which Mr. Ranson is showing. Every officer of the Chamber of Commerce appreciates a suggestion. If you want anything done, tell them about it and then come along and help to do the thing.

That organization which should be the center of all community interest is determined to work for the upbuilding of this commonwealth during the coming months and you should give it your co-operation.

If there is anything in a man's prosperity will bring it out.

FRIDAY, FEBRUARY 12, 1920

Friday, thirteenth. May it be good.

Bet a nickel Sims wishes he hadn't started it.

Don't forget to put in some Pitt county fair talk. There ought to be one.

Another drop out west of fifty cents a barrel on flour, makes biscuit lovers down this way feel more hopeful.

The New York legislature is about to consume all of its time investigating the case of the Socialist members who were denied the privilege of their seats.

Judge George P. Pell, of the State Corporation Commission, is being urged for appointment on the Interstate Commerce Commission. He is capable of filling the place all right.

Congressman Claude Kitchin denounced an article in the Washington Post as "a wilful, deliberate, shameless, venomous, malicious, incorrigible perversion of the truth and the facts." That was several ways of calling a reporter a liar, for sure.

The laboring class do not want to work but eight hours a day and are trying to cut that down to six. At the same time they want doctors to stay on the job twenty-four to be at their call; they want drug stores and cafes to be open all day, all night and Sundays for their convenience; they want trains and street cars to run without a lay-off; they want all places having a closing schedule to remain open longer hours just to let them come in at any old time. Not much consistency in that.

CROWN PRINCE AGAIN IN LIMELIGHT.

The Crown Prince, who hasn't had front-page for almost a year, breaks back into the limelight with a proposal that he surrender himself to the Allies in lieu of the hundreds of submarine commanders and other violators of the international rules of warfare. The former heir apparent of Germany says if the Allies demand a victim, he stands ready to sacrifice himself for the 900 who "have committed no offense other than that of serving their country during the war."

As a means of quickly making an example of German militarism, the Crown Prince's suggestion has much to commend it; but there are some of the Huns for whom no substitute is acceptable. It is said that the U-boat commander who sunk the Lusitania is dead; but there must be left among the naval officers some one connected with and partially responsible for this heinous crime against humanity. If punishment is to be meted out to anybody, let's see some of those who helped with the sea schrecklichkeit strung up.

As for the Crown Prince, hanging is, as the Irishman said of the horse-thieves, too good for him; he ought to be kicked.

No martyr's Crown will fit him.—Ledger-Dispatch.

THE CAROLINA PLAN.

A uniform system of health work, embraced in eight separate units covering all the activities of whole-time county health officers is recommended to the State Board of Health in the resolution prepared and adopted yesterday at the concluding session of the Co-operating County Health officers in Raleigh. The State Board will consider the resolution at its meeting next Monday.

There are at present 16 counties in the State that have the whole-time co-operative health officer and there are at present in the hands of the State board applications from four additional counties for the whole-time service that will bring the number to within one of the authorized list of 20 counties. Applications are pending from Union, Harnett, Nash and Vance counties.

The co-operative service was established three years ago and since that time the work has outgrown its original scope and in each county has developed along somewhat independent lines. The object of the conference held yesterday was to unify the work and place it upon a more sound and efficient basis. Each of the 16 counties at present supporting the work was represented at the conference.—University News Letter.

FEES FOR CAPTURING STILLS GO TO SHERIFF.

Sheriffs of the State will be interested in a ruling made by the Attorney General last week, that the law does not contemplate the turning of the twenty dollars allowed for capturing blockade stills into the county treasury where officers are on a salary basis. The commissioners of Orange county it seems, ruled otherwise, requiring the sheriff to account for this twenty dollars.

The Attorney General says, the officer who goes to the extra expense and peril of enforcing this special law, is entitled to the special fee provided in such cases, regardless of whether he is on salary or on the fee basis. This ruling, while being nothing but right and commonsense, an official remarked when he read it, is a blow to block-aders, for the law must necessarily be enforced in the main by alert county officers, and to penalize them for doing their duty as would have been the case under the Orange county construction, would decidedly discourage their attention to the moonshine industry of their constituents.—Raleigh News and Observer.

MARRIAGE LICENSES.

The following licenses have been issued since last report:
Colored—Oliver Henry to Ethel Lee Tyson, Winterville, N. C.
Charles Lewis, Chicod to Mattie Green, Winterville.
Clarence Johnson to Alma Mayo, Winterville.

G. F. REDDICK MAKES ANOTHER

CATCH WITH BLOOD HOUNDS

(Reported for The Reflector.)
On the 6th of February Mr. Amos McGlohon was away from his home, working in the near by woods, and when he returned home about noon he discovered that his house had been robbed of about twenty dollars and a pistol. He consulted the police of Ayclen at once and was advised to secure Mr. Riddick's blood hounds, of Greene county. Mr. Riddick was right on the job and arrived about 11 o'clock Friday night, and proceeded to the place where the goods had been stolen. He packed his dog and trailed the person to near-by house and found a boy by the name of Oscar Cox in bed. The dog did not stop until he jumped in bed with the boy.

Mr. Riddick has had several chases with his dogs, in this section, and has never failed to get his victim. We have got to hand it to him for the well training of his dogs.

AN OLD CONFEDERATE SOLDIER 77 YEARS OF AGE VICTOR, AFTER 35 YEARS OF WAR

TO WHOM IT MAY CONCERN:

I am an old Confederate Soldier seventy-seven years old. Have suffered with Rupture for thirty-five years. Wore a truss most of this time. Could find nothing else to do until I heard of Dr. Dunn of New Bern, and his wonderful treatment. I decided to try his treatment, and to the astonishment of all, the treatment seems to be a success. I carried out his instructions to the letter, and when I put off the truss I began to feel like a different man. I really believe I am perfectly cured. It is wonderful.

PERSONAL

Mr. and Mrs. W. L. Hall have returned from an extended trip through several southern states.

Miss Ruth Herring, who has for sometime been in the office of Drs. Skinner and Smith, left yesterday for her home in Burgaw.

Messrs. E. V. Carter, Charles Rackley, Lee Johnson, W. B. Davie and W. L. Whichard returned last night from Detroit, each one driving a car back.

Dr. and Mrs. R. L. Carr and little daughter, Elizabeth, returned today from a trip of several weeks in Louisiana and Florida, stopping for a few days in Norfolk on their return.

Mr. Tom Dupree, of Williamsport, Pa., who has been visiting his mother, Mrs. R. Hyman, left yesterday for Robersonville.

HELLEN-TYSON.

Engagement Announced at St. Valentine Party.

Mrs. R. C. Flanagan delightfully entertained a number of friends Thursday afternoon at an attractive St. Valentine party. The pretty home on 5th street was appropriately decorated to carry out the Valentine idea and a red color scheme was used. The dining table was especially pretty with its ebony covers, center piece of red carnations and red heart mints. Red tulle intertwined with smilax was suspended from the chandelier above the table and tied in bows on the four silver candle sticks holding red tapers. As the guests arrived they were welcomed by the hostess and Miss Christine Tyson. Mrs. T. M. Hooker showed them to the rear hall, where Mrs. W. L. Hall and Miss Martha Tyson served tea and sandwiches. Six tables were placed in the drawing room and dining room for progressive hearts. The tables were marked with Valentines and salted nuts were served throughout the games. The table prizes were red surprise packages, upon opening which the winners found pretty boxes of powder and cards bearing the following: "Hellen-Tyson, March 24th." This was to announce the approaching wedding

of Miss Christine Tyson and Mr. Earl Hellen. The table prizes fell to Mrs. S. L. Bridgers, Mrs. G. J. Woodward, Miss Pattie Wooten, Miss Martha Tyson, Miss Ernestine Forbes and Miss Anne Bruce. The guests were then asked to cut for the Valentines on the tables. They fell to Mrs. S. L. Bridgers, Miss Rubelle Forbes, Mrs. E. M. Williams, Miss Martha Tyson, Miss Nelle White and Miss Lucy Rowe. The hostess presented the bride-elect a pair of white silk hose. She was also presented a corsage of sweet peas, a gift from the groom-elect. An ice course, with mints cleverly carrying out the Valentine idea with hearts and arrows, was then served by Misses Mary Gaskill Flanagan, Willie Skinner, Blanche Davenport, Frances Moseley and Rosamond Flanagan. It was one of the most attractive occasions of the season.

Miss Tyson is the pretty and attractive daughter of Mr. J. C. Tyson, of this city. She was born and reared here and numbers her friends by the score. Mr. Hellen is a native of Beaufort, but has held a position here with the Imperial Tobacco Company for the past few years. During his stay here his sterling character has won him many friends. He is a veteran of the world war, having seen many months of service. The host of friends of the popular couple are looking forward to the approaching wedding with much interest.

MISCELLANEOUS SHOWER

In Honor of Mr. and Mrs. F. W. Sherwood of Raleigh.

One of the most unique and attractive parties of the season was a miscellaneous shower given at the home of Mr. and Mrs. J. F. Brinkley on Chestnut street last evening in honor of Mr. and Mrs. F. W. Sherwood, of Raleigh, who have just returned from their bridal tour of northern cities.

The party came as a complete surprise to all the family as preparations were made in secret by a goodly number of Mr. and Mrs. Sherwood's friends. A letter addressed to "Frank and Ruth" was thrown in the hall bearing this inscription:

A pair of newly weds—for we have proof,
Are resting beneath the Brinkley roof,
If they are looking for lots of fun
Then to the dining room door please run."

They of course, then went to the

dining room and found there many friends waiting to shower them with congratulations and good wishes.

Mrs. W. S. Dail in an amusing manner made an outcry that he was hungry and suggested that Mr. and Mrs. Sherwood search until they found something to eat. This carried much laughter but after much searching they found cream and cake hidden behind a bank of ferns. Miss Doris Garris then came from the music room holding a card with the following rhyme written thereon:

"We want to see how excited you'll be
So a big red number you'll find on me."

Peeping up from her little white shoes was a heart with 1100 and the following words:

"The bride and groom must look till they find
The corresponding number of eleven-o-nine."

In one corner of the room a table covered with a lovely linen cover was this No. 1100 pinned so that the seekers might see. On this card was written:

"Expressions of love you'll find under this cover
From some of your friends for you and your lover."

When the cover was lifted they found there a beautiful display of silver, China, cut glass, linens and a complete kitchen shower. On each article advice was written to the new housewife which she was requested to read aloud.

Miss Kemp House then passed around hearts and each guest wrote advice to the bride "How to keep Hubby's love" after which Mrs. Sherwood read.

A continued uproar of laughter prevailed throughout the entire evening and the hour for good night came all too soon.

The occasion will long be remembered by those present for everyone had a genuine good time.

Mr. and Mrs. Sherwood were married in Durham January 31st.

Before marriage Mrs. Sherwood was Miss Ruth Brinkley the charming and accomplished daughter of Mr. and Mrs. J. F. Brinkley.

Mr. Sherwood is from Raleigh and is associated with the Burroughs Adding Machine Co., of that city.

They expect to remain in the city until Sunday after then they will receive their friends at 401 New Bern Avenue, Raleigh, N. C.

RUPTURE EXPERT HERE

Seeley, Famous in This Specialty, Called to Washington.

F. H. Seeley of Chicago and Philadelphia, the noted truss expert, will personally be at the Louise Hotel and will remain Friday only, February 20. Mr. Seeley says: "The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast improvement over all former methods—exemplifying instantaneous effects, immediately appreciable and withstanding any strain or position. This instrument received the only award in England and in Spain producing results without surgery, injections, medical treatment or prescriptions. Mr. Seeley has documents from the United States Government, Washington, D. C., for inspection. All charity cases without charge, or if any interested call, he will be glad to show same without charge or fit them if desired. Business demands prevent stopping at any other place in this section.

P. S.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. Seeley. 13-18-19

THE ENACTMENT OF RAILROAD

BILL NOW SEEMS BE CERTAIN

(Continued from page one.) national banks in financing the world during a time of stress was given unstintingly by the comptroller. He expressed hope that the conservative influence of the banks would lead manufacturers and business men to accept for the present smaller profits with a view to building up general prosperity and the habit of thrift and economy among the masses of the people. I have made no effort to ascertain what its fate there will be."

Senator Pomerene, Democrat, of Ohio, one of the Senate conferees, said he was "very confident that the conference report would be approved."

"White I have not undertaken any canvass of the House," said Senator Robinson, Democrat, Arkansas, another conferee, "I am sure it will pass that body and I am sure a large number of Democrats will vote for the report."

THE BANKING POWER OF U. STATES SHOWS INCREASE

(Continued from page one.)

March 1 would be disastrous. I am satisfied, however, that the house will adopt the conference report without delay."

Chairman Cummins of the Senate interstate commerce committee, and one of the framers of the bill, said, there was no doubt of the acceptance of the conference report by the senate.

"There is no opposition to the bill in the senate other than which was expressed when the bill originally was up for consideration," he said. "As far as the house is concerned, however,

PRESIDENT MAY PRESIDE AT NEXT CABINET MEETING

Washington, Feb. 12.—The next meeting of the cabinet probably will be called and presided over by President Wilson.

Secretary Lansing, who has been issuing the calls for the meetings for several months, said today he had written cabinet officers that there would be no more regular sessions of the president's official family for the present. He would offer no explanation, but it was understood that his letter was written in direction of Mr. Wilson.

Throughout the president's illness the cabinet has not regularly and when the coal strike situation became acute the meetings increased from one to two weekly. There was no meeting yesterday and none will be held tomorrow.

For several weeks now the president has been taking more and more of a hand in the conduct of official business. Secretary Tumulty said he had never seen Mr. Wilson looking better.
