MONDAY, MAR. 22, 1920.

Gustav Noske hasn't a very pleasant sounding name, but it means a "strong man" in Germany.

The present price of eggs ought to cause an energetic and industrious hen to increase her daily production.

If shoes and clothing continue to advance it will certainly be advisable for the weather man to let the whole year be summer season.

News reports indicate that Berlin has assumed a normal aspect, but it was not stated how long will be in evidence.

The union of religious denominations of the world sounds about as impossible as emptying the ocean with a water bucket. And there would be little less work involved.

Belligerency in Russia has become momentarily paralyzed by happenings in Germany, and it may be that "merry days in Berlin" will attract Russian troops to join in the fray.

Gompers says he doesn't favor a national industrial board as proposed by the late industrial conference in Washington. That's all right, too, we suppose, because he probably won't be consulted in the matter.

Henry Ford has told the newspapers that he has nothing to say regarding conviction of Senator Newberry and confederates, but he is probably wondering why he didn't discover the conspiracy in campaign days.

Holland probably by this time realize that the "kaiser" is rather a big proposition after all. She has warned him to be good, however, and of course such a request could not be refused when there are lots of sturdy men who would be glad to look after the gentleman.

Greenville is being somewhat relieved of house shortages in the completion of several buildings within the past few weeks, and while residences are rather difficult to secure in any locality, it is believed that this condition will be remedied in a few months when erection of homes becomes more general in every part of the city.

Cleveland county expects to send six women to the next Democratic State convention, if present plans are favorably concluded, according to news reports from that section of the state. The action is approved by O. Max Gardner, too, so there is little reason to believe a seat will not be provided, and a precedent established for other years to try to excel.

The conviction of Senator Newberry and sixteen confederates for conspiracy in the 1918 senatorial campaign in Michigan probably may cause other political aspirants to clear their skirts of anything tending to give them two years in Leavenworth. The decision of federal court came about after exhaustive consideration of facts presented in the case, and therefore there is little doubt that the conspirators received just penalties.

## URUGUAY HAS LARGE BUILDING PROGRAM.

The next few years will afford opportunities for the sale of many kinds of construction materials in Uruguay, according to a report just issued by the Bureau of Foreign and Domestic Commerce, department of commerce. Uruguay is financially solid, its business is on a high plane, good workmanship is available, and there is a steady spirit of progress.

The biggest single project now being considered is a proposal for an international power plant to be erected on the Uruguay River by Argentina, Brazil, and Uruguay jointly, with guaranties for the equitable distribution of power to the three countries concerned. On the site being considered it is calculated that 2,500,000,000 kilowatt hours per annum could be developed, or an energy equivalent to that of 3,000,000 tons of coal. The project contemplates the construction of two dams, one movable and one fixed, with canals to the power plant. It will utilize a fall of 77 feet. The installation would also open for navigation 419 miles of river which today is inaccessible, and would permit the inundation of adjoining zones which are suitable for agriculture.

Other projects for the development of water power are also being con-

sidered by private persons and corporations. An official commission has prepared a plan for the irrigation of a 37,000-acre tract not far from Montevideo, to serve as an experiment and example. "Up to the present time," says the report, "nothing has been done in Uruguay in the way of taking advantage of the county's watercourses for irrigation and power."

Fifteen cities of Uruguay are able to install water and sewerage plants within the next few years, says Trade Commissioner W. W. Ewing, who writes the report. The pre-war estimates for this work totaled about \$15,000,000. In 1916, American engineers contracted for the installation of water and sewerage systems in three of the largest cities in Uruguay at a cost of \$5,000,000. The work was completed twelve months before the contract date and the bonds have now been retired by the Uruguayan government. It is probable that a part of the new work of this nature will be given to American interests.

There is a present need in Montevideo for a large number of workmen's houses, for at least ten new business structures, a hotel, an opera house, cold storage facilities, and a number of factories, the total cost of immediate needs in private construction of these kinds being estimated by architects at

\$16,300,000. Within the next few years the government will need new and modern edifices to the value of \$23,000,000. The chief imports which this program of construction will require are steel and finishing materials.

Senator Walsh, of Massachusetts, has stated that he will not be a candidate for Democratic nomination for President. He might at least have the honor of being nominated, but the presidency wouldn't be forced on him, however.

If defeat of the peace treaty in any way came about through support which southern senators gave President Wilson's position, it is obviously clear that nothing better could have happened. The chief executive disfavor proposed reservations, one of which would cut the heart out of the pact, and it is only natural that he should receive steadfast support from men who probably know more about real issues involved than Senator Lodge ever will be able to conceive. Determined opposition by partisan influences have been more responsible for the treaty's defeat than any other thing, and regardless of all future attempts at compromise, settlement will be impossible until these influences cease to be a dominant note in the controversy.

**SHEPPARD-SMITH.**

The social event of the season at Arthur was the marriage, Wednesday evening, March 17th, of Miss Trilby Smith the popular daughter of Mr. Ivey Smith, to Mr. Walter Glasgow Sheppard, a prominent young business lawyer of Farmville, being a member of the firm of Martin & Sheppard, attorneys, the event being solemnized in Arthur Christian church, by Rev. C. B. Mashburn.

The church was unusually attractive. A profusion of jonquils, together with ferns and ivy, transferred the entire church into a veritable spring bower, while numerous candles enhanced the loveliness of the scene.

An inspiring musical program preceding the ceremony was a decided feature. The pianist, Miss Gladys Warren, accompanied by Mr. John P. Schroeder, violinist, rendered several selections, "O Promise Me," "Will You Remember Me," and "Sweetest Story Ever Told." Miss Ada Grey Dixon, who has a wondrously sweet voice sang "Because."

The bridal party entered as the first note of Lohengrin's Processional was played, as follows: Mr. Troy Myatt, of Smithfield, and Mr. Harvey Turnage, Miss Annie Laurie Lang and Miss Ruth Smith, Mr. E. H. Spruill, Miss Maude Lassiter, Mr. David Turnage and Mr. James R. Smith, Miss Thelma Flanagan and Miss Eva Gainer, Mrs. Joseph Smith, of Greenville, Dame of Honor, stood just at the left of the altar. Then came Miss Mary Alice Beaman as ring bearer, followed by Misses Margaret Smith and Elizabeth Lang, flower girls.

Instantly the music changed to Mendelssohn's Wedding march, when the bride entered on the arm of her father, Mr. Ivey Smith. She wore a gown of white Liberty satin and lace. A coronet of orange blossoms adorned her head. The groom entered with Dr. Paul E. Jones. As they stood facing the altar the music changed and "To A Wild Rose" was softly played while the minister performed the ceremony.

After the ceremony the bridal party and a host of friends went to the home of the bride where an elegant reception was given. The bridal couple left for Norfolk, Washington and Baltimore immediately after the reception. They will be at home in Farmville after April 1st.

## SOUTHERN STATES SHOW BIG INCREASE IN FARM PRODUCTS

(Continued from page one.) according to the Southern Alluvial Land Association. The assistance given by the federal government in the building of levees to end overflows by the Mississippi River, and the development of drainage on a big scale has made possible the reclamation and cultivation of idle lands which now are producing the added crop wealth of lower valley states.

As showing big strides in general farming and live stock raising, it is

pointed out that none of the states of the lower valley formerly shipped more than 10,000 head of hogs a year to outside markets, whereas the one state of Mississippi last year shipped nearly \$5,000,000 worth of hogs to market.

To inroads of the cotton boll weevil a few years ago is attributed the rapid change from the one-crop system to the diversified system now being practiced. It is declared that farmers no longer depend wholly upon their cotton but back it with general farm crops.

December 21, 1919 (new style to January 1st, 1920; with reference from March 1st to 12th.  
Notice Labor of age: to the elders and nobles:  
Greetings—And as far as the church extends, the word begins 1, 2, 3, 4, 5 and 6—thus the heavens and earth were finished and all the host of them, and on the seventh day God ended his work which he had made, and he rested on the seventh day from all His work which he had made. And God blessed the seventh day and sanctified it because that in it he had rested from all work which He created and made. Six divided into 312 equals 52, plus 32, or multiply 52 by 7, the answer will be 364. Or multiply 52 by 49 and the answer will be 2548; divided by seven equals 364. Answer the word complete.  
Notice the First Epistle General of John, Fifth chapter and verses 6, 7, 8, 9, 10, 11, 12 with references.

Also Matthew: Fifth chapter and verses 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 with references, and Dr. McDowell declared that the fifteenth verse of the eighteenth chapter of Matthew constituted the law of brotherhood and that the teachings of Christ will solve industrial problems. Now in reply to Dr. McDowell the 25th chapter of Matthew and the fifteenth verse will help to solve the problem with references. What sum can be multiplied that will make its answer equal to a sum. Divided by a number equal, each answer the same. Not over 400, not under 300 for the answer.

**SWANSON DELIVERS TALK TO STUDENTS OF LOCAL SCHOOL**  
(continued from page one.)  
tion of a short time before there will be a department of education established.  
He was greatly impressed by the speech of one of the great educational leaders on the question of the shortage of teachers. One million school children in America went to school last fall and found the doors closed because there were not enough teachers. Part of the blame for this condition was put on the superintendents who have not done their part in encouraging high school students to prepare themselves for teachers.  
President Wright had give interesting reports of many of the great speeches and discussions he heard during the conference and the students had been thoroughly interested in the great meeting. It meant a great deal to them to get impressions of the meeting from another point of view, also.
