

STATE POLITICS TO FEATURE IN LIVELY CAMPAIGN CONTEST

Palmer and Owen May Contest Simmons for Preferential State Vote.

CONGRESSMAN KITCHIN REPORTED IMPROVING

Attending Physician Says He May be Out Again Within Several Days.

Washington, D. C., April 11.—A vigorous campaign for the preferential votes in the Democratic primaries to be held on June 5 will be waged in North Carolina between Senator Fainfold McLendon Simmons, Attorney General A. Mitchell Palmer and Senator Robert L. Owen.

The North Carolina vote to Senator Simmons will, of course, be complimentary. That for Mr. Palmer will be counted at San Francisco. The Attorney General is making more than a passive campaign for to nomination.

It was learned here today that Herbert Hoover has been in conference with Democrats and Republicans in North Carolina and will make a bid for delegates to the Chicago convention.

Improvement even beyond the optimistic hopes of his physician was noted today in the condition of Representative Claude Kitchin, who suffered a paralytic stroke on the floor of the House of Representatives Friday while delivering a speech against the Republican peace resolution.

"You would be surprised," said Dr. Lewis J. Battle, former Raleigh physician, when asked about Mr. Kitchin's condition late today. "He looks normal, he talks normal, his articulation is almost perfect, and he was able to move his left arm and left leg today."

The astonishing improvement in Mr. Kitchin's condition shows that the blood clot is gradually being dissolved.

Barring the slight probability of a relapse, Representative Kitchin will be up again within ten days and may yet be able to take his post in the house before congress adjourns for the campaign.

Further inquiries as to Mr. Kitchin's condition came today from the White House and from many members of congress in both parties.

The next business before the meeting was that of election of officers for the (Continued on page two.)

ILLINOIS POLITICS TO DECIDE BETWEEN LOWDEN AND WOOD

Republicans Must Express Preference in State Primary Tomorrow.

DEMOCRATS HAVEN'T ANY PRESIDENTIAL CANDIDATE

Unusual Vote Expected as Women Have Been Given State Prerogative.

Chicago, April 12.—Those Republicans of the state of Illinois who exercise a voters prerogative at the Presidential primary tomorrow will decide before nightfall whether their governor, Frank O. Lowden, or General Leonard Wood shall be their choice for the Republican party in the November election.

This will be the only contest of the primary that will be decided by a vote of the entire state. In seven of the congressional districts, however, the contest for district delegates to the Chicago convention promises to be hard fought.

Contesting candidates for delegates are named in the State. They are located in the city of Chicago, and the Tenth, Fifteenth, Sixteenth and Twenty-second districts, located outside of Chicago.

There are no candidates entered for Presidential endorsement honors on the Democratic side, Governor Edward I. Edwards, of New Jersey having with (Continued page two.)

AMERICAN MEDICAL MEN WILL MEET IN ST. LOUIS TUESDAY

Representatives from All Section of Country for Spring Meet.

INCREASED PRODUCTION TO BE FULLY DISCUSSED

Reducing Prices to Minimum to Relieve High Costs to be Considered.

St. Louis, Mo., April 12.—Chemists are arriving from all over the United States for the Spring meeting of the American Chemical Society which opens here tomorrow and will continue six days for discussion of the new developments in chemistry and their effect upon virtually every important industry in the country.

How to increase production, save by-products and lower the cost of living, however, are the chief purposes of the sessions which are expected to be attended by 1,500 or more chemical experts as well as technical advisers of large agricultural and manufacturing interests.

Among the subjects familiar to the layman which are to be analyzed by these scientific explorers will be a report of experiments showing the nutritive value of the peanut; the use of lactic acid from sour milk in non-toxicating beverages as an appetizer and digestive substitute for alcoholic drinks; quicker and cheaper methods of manufacturing sugar and the establishment of a new device known as a "saccharimeter"; utilization of corn cobs for obtaining new dyes equal to those from coal tar; improved formulae and methods of handling rubber for automobile tires.

It is stated that the call from manufacturers for the services of chemists (Continued on page six.)

PLANS READY FOR MEETING TEST IN RAILROAD STRIKES

Sunday Features in Preparations for Struggle Between Opposite Forces

ATTORNEY GENERAL TO CONSIDER ISSUE TODAY

Railroad Managers Mobilize Forces in Effort to Meet Impending Crisis.

New York, April 11.—With the supreme test to date in the strike of railroad switchmen, yard workers and firemen here scheduled for tomorrow morning the operators and strikers today marshalled their forces for battle.

Railroad managers mobilized their armies in every part of the city rearranging working shifts and calling into yard and train service many superintendents and "white collar men" from clerical positions.

Milk trains will be brought in tonight and early tomorrow at all costs, railroad managers declared today.

The non-union strike breakers were used, and announced was made by the railroads that none would be used for the present.

erry service between New York and New Jersey was materially improved today and tomorrow it will be extended to its utmost to care for the rush of commuters, railroad officials said.

The Chicago Express, Eastbound, one of the fastest trains on the Erie Railroad, was abandoned by its crew early this evening at Port Jervis, New York, ninety miles from this city.

Erie Railroad officials declared that the Cleveland express, due at Port Jervis at midnight, may meet a similar fate, strikers on the Erie having been advised, it was learned here, to refuse to handle milk trains which also carry passengers.

When the Chicago express train reached Port Jervis it was run into a siding and left there. The crew alighted and walked to the town hall, where a railroad workers' meeting was in progress. They arrived in time to take part in debate over the formation of an association of yardmen, switchmen, brakemen, conductors and engineers.

Meanwhile, the passengers waited patiently in their coaches. Finally the crew returned and after a protracted argument decided to take the milk and mail cars through to the city, and then to leave the passenger cars stranded, railroad officials said.

The funeral services of the late Mr. W. H. Long were conducted at his home yesterday afternoon at 4 o'clock by Rev. Walter Patten, the interment following in the Episcopal cemetery. The floral tribute was large and beautiful.

BEN ELKS PLACED UNDER ARREST FOR INSULTING LADIES

Negro Arrested by Officers While Telephoning White Woman of City.

Ben Elks, colored, aged 22 years, was arrested by officers Brewer and Jackson, last night, while he was talking to one of the school teachers in this city.

For several weeks this negro has been going to the office of Dr. Capehart while the Dr. was out, and calling for different ladies in the town. After the telephone connections were made, he would attempt to make dates, and in several instances, has used insulting and profane language. The officers, have been on a lookout for him, and have done everything possible to arrest him, but up until last night had failed to catch him in the act.

Sentiment was so strong against him, that he was taken out of the city by the sheriff.

Thursday evening at 8:30 o'clock, in the high school auditorium, the ladies of the Methodist church will present "The Womanless Wedding," for the benefit of the missionary society of that church.

"The Womanless Wedding," is a laugh from start to finish. The cast is composed of 30 men, all dressed to represent a real bridal party. Their costumes are beautiful and the manner in which they present it, is too funny for anything. The ladies of the church have put a great deal of their valuable time on this wedding, and they are especially anxious that the public patronize them. The admission will only be 50c for all, except children under 10 years of age, and the admission for them will only be 25c. It is worth twice the price for the laugh alone, will be well worth the price.

REPUBLICANS CHARGE PARTY DEMOCRATS WITH WASTE

Washington, April 12.—The Republican majority charges that the government lost \$78,000,000 through waste and inefficiency. It holds Secretary Baker responsible, while the Democratic minority defends Baker, saying that his record was an achievement in the report investigating the committee on building the army war camps. The minority declared that average time required in constructing each building of sixteen cantonments was 46 minutes.

MONDAY, APRIL 12, 1920.

It takes a man with steady nerves to hit the high cost of living, as advised by people who feel the high prices but don't want to acknowledge them.

France may be responsible for sending troops to German cities along the Rhine, but in doing so she was taking certain precautions quite advisable even in times of peace.

This week promises to rather a lively one for Greenville, for with two carnivals in progress and the regular April term of Pitt county superior court in session, it is only natural to expect there will be something going on all the time.

Attorney-General Palmer wants to know "if joint action" among employees has anything to do with the unauthorized railroad strike, and while naturally this cannot be ascertained without investigation it is nevertheless plainly evident that the strike was pretty well joined, if not "jointed."

Pitt county will have speaking campaign for "law enforcement" beginning April 11th. This will be under the direction of the state Anti-Saloon League which will send prominent prohibition speakers in various communities of the county throughout the month, dates to be announced in due time. The principal object of campaign will be to break up the "monkey run" traffic through properly enlightening people as to its demoralizing influence in every section in which it is sold. Close co-operation is requested, and if this is given there is little doubt about the final success of the endeavor.

Statements indicate that New York city is confronted by an actually famine unless something is done immediately to relieve disrupted traffic resulting from the unauthorized strike of railwaymen of that district. Transportation has been disrupted and the city is faced by a menacing shortage of food and fuel. The situation is similar in other centers generally affected, and nothing can be done until the government finds a way of relief. Samuel Gompers, president of the American Federation of Labor, says there is no strike, because the government has prohibited such occurrences, but he admits that individuals may quit their jobs if they choose to do so. If such opinion dominated the world it is easily conceivable that powerful organizations could precipitate strikes without actually having anything to do with them. Disrupted transportation inevitably comes about through premeditation directed from some main source for several thousand men to not quit their jobs at the same time without previous contemplation. The present strike may have been "unauthorized" but it is certainly proving as serious to traffic as if it had been directed with due authority.

In telling the House of Representatives that the Southern farmer is unwilling to toll twelve months to the year in the cotton fields unless he can get fair prices for his products, Representative Aswell of Louisiana, opened way for consideration of one of the most vital subjects facing the country today. It is easily seen that the average farmer is making very little, if anything, from his crops although prices appear high and unreasonable. Labor conditions and high prices of essentials in farming remove the slightest possibility of the planter realizing more than making "both ends meet," therefore it is highly important that steps be taken to equalize cotton prices with those of production and then set a specific limit through which the farmer may realize acceptable net earnings. Prominent cotton organizations are fighting for this, but it cannot be fully accomplished until state and national representatives take the issue in hand and do by the farmer as they have done by other organizations whose demands have been imperative and duly recognized.

Reports from the census bureau show that North Carolina towns and cities have been making rapid progress during the past ten years, many of the cities over doubling in population. The South, of which North Carolina is one of its best representatives, has vast resources that have attracted attention of people from every district, and as a consequence, its cities and towns are growing almost marvelously and give strong evidence of continued increases in the next several years. The population of medium cities has not yet been made public, and it is expected that the average person will be given a clearer impression of what the state has been doing when facts connected with its growth are given due publicity.

"The Mascot," the opera to be presented by the Senior class at the Training school on Wednesday evening at 8:30 o'clock, is for the purpose of raising a fund to be left by this class to the school as a gift, not merely to the school, but to the state. Every Senior class since the school was established has given a play and has left the money made by the play for the Loan Fund for young women who wish to prepare themselves as teachers, and have not the money. This fund, has been the means of helping a number of worthy young women through school time as the money with the interest has been paid back, it has been passed on to others, is impossible to estimate the good that has been done.

The seniors have done their utmost to make the opera itself well worth the price of the ticket. Those who purchase tickets can feel that they get full value for the money spent and yet their money goes on working for a worthy cause.

Any Man Can Be A Capitalist

Some philosophers go to great lengths explaining why money is not the only thing to work for in life.

And their contention is a good one.

It is true that some wealthy men are miserable, but no man need be unhappy for having money. A man with money is an influence in his community. He can live well and die happy.

Let Me Take The Risk

There isn't a week goes by in this town that some car owner doesn't have his car or his tires stolen, his car burned up, smashed-up or a collision, or cause an accident to some pedestrian or fellow driver. If insured I settle all damages without trouble or expense to the owner. If not insured you dig deep down into your bank roll to pay the claim. Why take such chances when a few dollars will shift the burden and the expense over to me? You may be out of luck tomorrow. Today is the time to shelter yourself with Auto Fire Insurance, Auto Theft Insurance, Collision, Property Damage or Liability Insurance. I write it all.

STOP THAT ACHE!

Don't worry and complain about a bad back. Get rid of that pain and lameness! Use Doan's Kidney Pills. Many Greenville people have used them and know how effective they are. Here's a Greenville case.
Mrs. W. T. Hunter, 1112 Evans St., says: "My back ached and I was sore in the region of my kidneys. I had headaches and dizzy spells. My kidneys didn't act properly. Seeing Doan's Kidney Pills advertised I got a supply at the Warren Drug Co., and they soon brought me relief, strengthening my back and putting me in good shape again."

The above statement was given July 6, 1914 and on May 29, 1918, Mrs. Hunter said: "I still think as highly of Doan's Kidney Pills as when I recommended them before. Doan's are just as represented and I think a great deal of this medicine."

Price 60c, at all dealers. Don't simply ask for a kidney remedy - get Doan's Kidney Pills - the same that Mrs. Hunter had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. adv.
