

FALL SAYS MEXICO LOOKS TO AMERICA FOR EARLY RELIEF

Head of Senate Committee Investigating Mexican Situation Returns.

NOT SURPRISED AT BIG REVOLUTION OCCURRING

Would Not Object to Agreement for Intervention in America's Part.

Washington, May 3.—Senator Fall of New Mexico, head of the subcommittee of the senate which has for several months been investigating the Mexican situation, is back in Washington with his report virtually complete. He has just spent many weeks on the border and brings back with him an interesting picture of conditions across the Rio Grande as obtained from Mexicans and Americans, some of whom testified publicly and others privately.

"I am not surprised," said Senator Fall, "at the outbreak in Mexico. I did not, however, expect the revolt to come so soon. Of course, I never believed there would be an election this year even in the Mexican sense. The various leaders in the different states which have at no time recognized the Carranza government are quick to take advantage of the outbreak in Sonora and the result is that throughout the republic with few exceptions the country is in revolution.

"I think that had the Senate passed my resolution and had our government withdrawn recognition from the Carranza government as I proposed several months ago we would be now in a better position to deal fairly with all factions. The Carranza government wouldn't stay in power twenty-four hours if we withdrew recognition."

The senator was asked if he had any preferences among the Mexican leaders.

"I have none," was his reply. "If General Obregon or even Carranza himself were to enter into an agreement with our government guaranteeing the obligations which we have long seen unfulfilled I personally would not object to our government helping Mexico through either one. But we must not extend recognition again without being sure that American interests will be fully protected.

"I really believe the people of Mexico are so sick and tired of revolution that they would welcome American aid. And as between loans and financial aid by American private concerns and a government loan, I would rather see our government extend the aid itself so that there would be no misunderstanding or misconstruing our motives. The people themselves are worn out by revolution and many of the Mexican witnesses tell us that the Mexican people would welcome American help—they would prefer American assistance to the Carranza regime."

The New Mexico senator pointed out, however, that his committee had not yet formulated its recommendations but would surely have some concrete proposals to lay before the senate. The report probably will be presented before the first of June. It will include a list of the Americans killed or injured during the entire period of revolutionary disturbance, a list of American claims, an estimate of damages done American property, and a comprehensive outline of what seems to have been the causes of the periodic revolutions and what would appear to be the remedy.

OFFICERS ARREST MESHAME

ON FRAUDULENT CHARGE

Los Angeles, May 4.—Department Justice agents arrested William F. Meshame, president of the Sutherland Fruit Company, charged with fraudulent transactions involving, according to the agents, four hundred thousand dollars.

Shareholders should attend the annual meeting of the Home Building and Loan Association in the city hall tonight.

PARDONED MEMBER OF LIQUOR TRAFFIC TAKEN BY SHERIFF

Coss Avery Captured Again After Being Off County Roads Six Weeks.

SEVERAL GALLONS OF LIQUOR FOUND IN HOME

Conditional Pardon by Governor Bickett Probably Will be Revoked.

Coss Avery, white man of the Ballard's Bridge district of this county, is confined in the county jail in this city today awaiting preliminary court proceedings for the sale and transportation of intoxicating liquors after being placed under arrest last night by Sheriff Dudley and Deputy Jackson in a quick and effective raid upon his home. From seven to eight gallons of whiskey were found in various parts of the house, and being taken completely by surprise, Avery made no show of resistance and submitted to his home being searched completely by the officers without slightest protestation.

The arrest of Avery brings out several facts connected with a case that are not altogether new to people in this part of the country, for his recent pardon from a road sentence of two years by Governor Bickett, after serving only a short part of the term, created no little surprise, although recommendations for his pardon to the governor were endorsed by several prominent citizens of this section. The charge was similar to that upon which he was arrested last night, and the decision of the court subsequent to the sentence came about following an extension.

YALE STUDENTS TO BE INSTRUCTED IN SANITATION IDEALS

Board of Health Will be Provided to Watch Over Health of Students.

New Haven, Conn., May 4.—The health and sanitary safety of undergraduates of Yale University hereafter are to be guarded by a University board of health patterned after those of large cities. The board will make sanitary and health regulations for the control of the students, will undertake personal supervision of their health and help them to keep it at a maximum.

Dr. J. C. Greenway and a staff composed of medical assistants, a sanitary inspector and two surgeons will do the actual work under the direction of the new board of health. One of these surgeons will have the special care of students injured by participation in athletics.

All students who return to Yale University next fall will be expected to undergo a medical examination to enable them to enjoy the benefits of supervision by the University Health board. No student will be eligible to compete in organized athletics until he has been found to be physically qualified and notice to that effect has been given to the University Athletic Association. To obtain this certificate the under-graduate is required to comply with rules and regulations to be established by the new health board.

There will be strict sanitary supervision of the swimming pool, wrestling mats and other equipment in common use; also bacteriological examinations of water, milk and ice cream used in the dining hall. Communicable diseases which may affect students will be traced to their sources. Those suffering from physical defects will receive corrective training.

The expenses of the new department will be borne proportionately by the University and the Athletic Association.

FIETY KILLED AND HUNDREDS INJURED BY SEVERE STORM

Peggs, in Cherokee County, Virtually Wiped Out by Tornado's Fury.

MANY FAMILIES CRUSHED TO DEATH UNDER HOMES

Heavy Hail and Rain Prevents Rescue Work Being Conducted Hurriedly.

Muskogee, May 3.—More than fifty persons are known to have been killed and approximately 100 were injured in a tornado that virtually wiped out Peggs, a small village in the northwest corner of Cherokee county, about 9 o'clock last night.

Forty-three bodies have been recovered by rescue workers from Muskogee, Tablequah and Locust Grove. More are believed to be in the wreckage.

Only three buildings remained standing after the storm had passed.

Forty-two coffins are being sent to the scene of the storm from Tablequah. This is as many as could be found in the city.

Temporary hospitals have been organized amid the wreckage and scores of severely injured are being given first aid. Those who can stand the trip to Tablequah are being taken there where they will be placed in hospitals.

Whole families were crushed to death when their homes were torn to pieces by the force of the gale. Nine members of the Levens family were killed; seven of the Littlefield family, eight persons by the name of Frank and five members of the Wilkerson family are among the dead.

AMERICANS TO GET CHANCE OF HIGHER FRENCH EDUCATION

University of Paris Makes Arrangements for Accepting Students.

Paris, May 4.—American students are to have an opportunity to obtain an education in the higher domains of knowledge under the direction of the faculties of the University of Paris. This announcement has just been made by Dr. Paul Appell, who has become rector of the great French educational institution, in succession to the late Henri Poincare.

Dr. Appell has just told The Associated Press correspondent that classrooms, laboratories and libraries of Paris are to be opened to young Americans. The city of Paris has given it on the Boulevard St. Germain on which it is proposed to build an American Institute where American students can be lodged, have their club and auditorium.

It is intended also to provide for American students opportunities for athletics and hygienic living such as they have enjoyed in America. Dr. Appell states, that, owing to the heavy war burdens imposed upon France, she would be gratified if America would co-operate with her in a practical way in the creation of the proposed American Institute.

Unbounded admiration for the spirit of the American nation was expressed by Dr. Appell in an interview granted to the correspondent at the Sorbonne. He declared that he desired intensely to promote opportunities for young Americans to pursue or perfect their studies in France.

Dr. Appell said that the Law Faculty of the University of Paris whose fame is worldwide was considering arrangements for receiving foreign students who until now had been entitled only to attend special courses. The Faculty of Medicine also would extend its privilege to foreigners particularly in laboratory research and clinical studies.

ANETTA RIBICOVA WINS APPROVAL IN APPEARANCE HERE

Noted Singer and Kathryn Riggs Thrill Hearers in Splendid Selections

PROGRAM VARIED AND PLEASING TO EVERYONE

Violin and Vocal Selections of Wide Range and Splendidly Rendered.

The concert by the distinguished artists, Annetta Ribicova and Kathryn Riggs was the most brilliant musical event, perhaps, that Greenville has had. The singer was already a great favorite in Greenville, but those who had heard her before were impressed with the wonderful artistic finish and style that she has gained with her maturity and experience in singing before large audiences. She sang dramatic songs, arias, and ballads, that gave her audience a fine idea of the varieties of style and tone qualities of which her voice is capable. The brilliant coloratura singing of the "Kiss Waltz" by Arditi, was the favorite of the lovers of this type, the beautiful tones and artistic singing of "Tes Vieux," delighted the musicians. The lovely interpretation of the two songs from Vessella, "What is Love," and "Once to a Rose," which were sung from the manuscript, appealed to the majority, while others loved best Tosti's "Good-Bye." Yet there was not a song on the program that did not seem to be some one's favorite. The program was divided into 3 parts, first Italian, the second, French, and the last English, although the number from Madame Butterfly, in the first group Italian, the second, French and the last English, were sung by those who had heard her sing both before.

"Butterflies and Hayfield," and "The Star."

The harpist, Miss Kathryn Riggs, of Washington, won the audience at

(Continued on page four.)

ARCHITECTS READY TO IMPROVE CITIES IN EVERY LOCALITY

Congress of Architects Advocates Legislation for Beautifying Cities.

Montevideo, May 4.—World-wide legislation to stop the "hideous deformity" of streets, parks, gardens and plazas and to beautify all cities was advocated at the first congress of Architects which has just closed its sessions here.

Representatives were present from all South American countries as well as from the United States. The congress in proposing legislation for the adoption of regular plans and the location of public buildings and monuments recommended the continuation of the system of uniform squares. Classes in "urbanization" in universities and special schools of architecture were also proposed, a resolution stating that these were indispensable for the culture of the people.

Emphasis was also laid on the need of construction with government aid of cheap and hygienic homes laborers in industrial sections. The congress urged also that there should be established in each country a "National Bank for the Construction of Economic Homes" with funds contributed by employers and capitalists.

MOTHERS' DAY—MAY NINTH.

What shall it be? Flowers or a box of that exquisite Norris Candy? We have just unpacked a fresh shipment of Norris Candy. Sole agents for Durham Floral Nursery. Proctor Cigar and News Stand.

Next Monday will be Memorial Day.

REVOLUTIONISTS IN POWER IN BIGGEST STATE IN MEXICO

Revolt of Juarez Against Carranza Hailed by Leaders as Great Victory.

HEADQUARTERS EXPECT FALL CITY NEAR ELPASO

Fear of Bullets Falling in American City Prevents City's Capture.

Agua Prieta, May 3.—The revolt of Juarez against the Carranza government of Mexico today gave the Revolutionists control of the largest State in the Republic of Mexico.

Only one small Carranza garrison in Chihuahua, that of Casas Grandes, near the Sonora boundary, remains loyal to the Central Government according to a statement issued tonight by Gen. Peltas Calles, commander-in-chief of the Revolutionary armies in the northwest.

The movement of Revolutionists against Casas Grandes already had begun, General Calles said.

The fall of Juarez had been expected for days at military headquarters here. Emissaries from Sonora had been sent to El Paso to confer with Mexican officials for turning the town and soldiers over to the Revolutionists, the commander-in-chief stated.

According to General Calles the delay was caused by the desire to have the revolt of Carranza troops complete and take the city without fighting.

"We did this to avoid any complications with the United States authorities," he said. "We feared that in a battle bullets might fall into American territory."

More than half the length of the international border between the United States and Mexico now was held by the Revolutionists, he added, and conferences are being held through which they hope to soon have the entire international boundary in their hands.

(Continued on page four.)

EXTENSIVE SEARCH MADE FOR SPECIAL MUSEUM FEATURE

Who Stole the Patagonian Dinosaur from Buenos Aires Museum, Asked

Buenos Aires, May 4.—Who stole the great Patagonian dinosaur? This is a question the newspapers are asking and it is also a question which Dr. Carlos Ameghino, director of the Buenos Aires Museum of Natural History, would like to have answered.

The dinosaur, or rather its skeleton, was not stolen from the Museum, it should be explained, but from the Patagonia, near Neuquen, where a remarkable state of preservation, it was discovered by some English engineers a year ago, during the excavation of an irrigation ditch. They notified Arthur Smith Woodward, naturalist of the British Museum of the find who, in turn, communicated with Dr. Ameghino.

From the description of the engineers, it appeared the dinosaur was a monster, even for dinosaur, and of a new species. The Museum lacking funds, Dr. Ameghino at his own expense sent an expedition in charge of a young naturalist, Augusto Tapia, to bring the skeleton to Buenos Aires.

"The English engineers," says Dr. Ameghino, "informed Tapia on his arrival that while they were away on a trip of exploration an unknown person had come to the place, collected all the fossils that had been unearthed, left the rest. Tapia found only a simple pile of bones belonging to animals of various well-known species. The great skeleton of a new species was nowhere."

The expedition cost Dr. Ameghino 2,000 pesos.

AMERICA DEMANDS IMMEDIATE ARREST MEXICAN SLAYERS

Two More Americans Reported Killed in Carranza District in Mexico.

ADDITIONAL SHIPS SENT TO PRINCIPAL SEAPORTS

State Department Intimates Vessels Will Not Take Part in Conflict.

Washington, May 3.—The murder of two more Americans in Mexico, reported today to the State Department, accentuated the concern with which officials here are watching developments beyond the border. There was nothing, however, to indicate to what extent the attitude of the Washington government toward the Sonora revolutionary movement might be affected by the fact that the incidents occurred in Carranza controlled territory.

Requests for additional warship protection at points on the East coast of Mexico already had been forwarded to the navy by the State Department. While this had no relation to the latest murders, it was said, to indicate the view of officials as to the unsettled conditions prevailing in that region, nominally at least, still held by Carranza forces.

On the border, loss of Juarez, officials said would be a serious blow to the Federals, because of its revenue producing capacity. They believed complete rebel control of the state of Chihuahua would be the logical result.

The murder of Eben Francis Greenlaw and his young son by Mexicans near El Oro, only 125 miles from Mexico City, brought from the American embassy in Mexico City a prompt and emphatic demand that the Mexican government arrest and punish the murderers. The American government contends that the Carranza authorities were responsible for the protection of the Greenlaws because of the presence of Mexican troops in the immediate vicinity.

The date of the sailing of the fleet of destroyers to Mexican waters was not made public, but the belief was expressed that they would be sent at once. Destroyers will be stationed at Tampico, Tuxpan, Vera Cruz and Fronteras, ready to take off any Americans who may be in danger either from the Mexican Federal authorities, or the rebels. The State Department specifically stated that these vessels were not to take any part in the struggle between factions in Mexico but were asked for solely to provide a haven in case of need.

Reports were received here today of Obregon, Villa, Manuel Pelaez and Felix Diaz, which indicates that definite co-ordination between the various factions was being arranged. Official information showed that the revolution had been planned for several months. Unofficial advice from Mexico City indicate that the censorship is being exercised more sharply than ever and that newspapers are not permitted to print any news of the rebel activity in the northern part of the country.

STREET CAR MOTORMEN AND CONDUCTORS STRIKE IN OHIO

Cleveland, May 4.—Street car motormen and conductors have voted to go on a strike at midnight tomorrow when the company today offered less wage increase than they demanded. A number of chauffeurs also struck.

TUESDAY, MAY 4TH, 1920.

That old saying, "What goes up is bound to come down" evidently doesn't apply to the high cost of living for it has gone so high already that there isn't any hope of its ever coming down again. Another case when a perfectly good expression goes bad.

South Americans have taken up the overall movement to decrease the high cost of living, so it is only natural to expect that with a few other countries adopting the same measures old high cost of living will take a tumble after a while.

The story of Herbert Hoover no longer appeals to members of the Democratic party, for there are several details connected with the bashful gentleman's recent career that would prove painful subjects, particularly while he was making up his mind of becoming a straight out Republican.

Texas stands solidly behind the Wilson administration, for this was made perfectly clear in the recent presidential convention occurring in that state when a majority of candidates for office favored the present administration in every detail. The vote was won by a good majority, displaying vividly how staunch are the president's supporters throughout that section of the country.

Detroit, Michigan, so it is said, takes the first place in high prices of any other city throughout the country, and naturally people of the place must be consoled with the fact of having won some kind of a record though it must be a very displeasing one. Prices of necessities in that city increased 108 per cent within a year's time, therefore, Pitt county people who have been considering going North will do well to stay in Old North Carolina and enjoy the best afforded at prices not altogether the highest in the world, as some would have us believe.

Another "clean-up" week has been designated for Greenville by proclamation of Mayor D. M. Clark, and it is hoped people will give the campaign for a cleaner, more sanitary city greater attention that given the last occasion of the kind, and that Boy Scouts and Camp Fire Girls will play their parts in making their town have a more presentable appearance. Thus can be done with little effort, so it is to be hoped every section will give the issue with attention as it deserves.

It is pleasing to note that Mr. W. E. Hooks, of Ayden, has announced his candidacy for the state legislature, for his entrance undoubtedly marks the beginning of an active and interesting campaign of other members vying for the same position. Mr. Hooks would do credit to the county in event of his selection by popular vote, for his experience as crossing clerk of the senate and in other official capacities in the state's interest make him perfectly familiar with duties imposed upon the office. He is one of Ayden's most progressive citizens and will give his opponents a rather warm race for the office before the issue is finally concluded in the general election in December.

PAPER CONSUMPTION EXCEEDS PRODUCTION.

Consumption of newsprint paper in the United States has increased 21 per cent, in the last five years, during which period domestic production of the commodity has shown a gain of only 5 per cent., according to a survey of the newsprint paper situation published in the May Commerce Monthly, the magazine of the National Bank of Commerce in New York. Although the present acute newspaper shortage is partly due to greatly increased use of paper in newspaper advertising, this lack of a normal increase in production is one of the principal causes of the stringency, the bank says.

In 1909, it is pointed out, the United States produced all the newsprint paper it used, but by 1919 it had become dependent on foreign sources for a third of its supply. Between 1899 and 1904 production increased 60 per cent. But between 1904 and 1919 the increase amounted only to 45 per cent.

"Canada's recent development as a newsprint producer has been much more marked than our own," the article states. "While only one plant has been constructed in the United States since 1909, Canada has increased her pulp mills 57 per cent. in that time. Her production in 1917 was 689,847 short tons as compared with 1,359,012 tons in the United States. Canada uses between 10 and 15 per cent of her own production and exports the rest almost entirely to the United States. Most of our foreign supply comes from Canada, but small amounts are also imported from Norway and Sweden."

Although imports of newsprint paper increased 98 per cent, in the last five years, this country's exports during the same period increased 81 per cent. Argentina led the countries of the world in purchasing newsprint from the United States. During 1919 this country exported nearly a sixth as much newsprint as it imported.

It appears now that suffrage leaders are becoming somewhat more hopeful of Delaware, and while they are not yet confident the legislature of that state will ratify the amendment to the national constitution, it is believed however that the situation is much brighter than ever, probably giving greater indication of favorable conclusion of the issue. The Delaware legislature, however, cannot be counted on to any great extent, for it is understood that double crossing is in progress among a number of its members which no doubt will eventually terminate with much dissatisfaction on all sides. Suffrage forces will do well to watch other states and not place too much confidence in just one state because, as we have seen, indecision is holding supreme sway among General Assembly members, and as long as this remains so there is little hope of early ratification.

Reports from the navy department indicate that demobilization has been accomplished completely in this country, and that the number of ships and that the number of ships and men too have been decreased considerably within the past few months, giving the nation peace, time forces and an enormous amount of money derived from sale of vessels for which the country had little use. With both army and navy virtually demobilized conditions should become better throughout many territories and production evidently will be much better than heretofore owing to the number of men released for commercial and industrial purposes. The county needs them, and needs them badly, for the shortage of labor is appalling, and call for concentration of all working men in the line of industrial democracy.

We cannot tell just how many persons in this city saw the eclipse of the moon Sunday night, but judging by reports reaching here from New York city two aviators representing the navy department saw too much for they flew to a height of three and one-half miles, remained at that height for an hour and an half, then descended. They did not divulge what they saw, but it is probable the naval observatory will give a detailed account of the trip and observations about time the moon gets ready to eclipse again.

FOR JUDGE COUNTY COURT.

I hereby announce that I am a candidate for Judge of the recorder's court of Pitt county, subject to the Democratic primary to be held in June.

L. A. MAYO, Sr.

32 years a Justice of Peace.

CLEAN UP WEEK, MOSQUITOES.

An hour's investment in attending to water containers around the house will produce enormous dividends in comfort and freedom from mosquitoes during the coming six months. The City of Greenville and the State Board of Health are spending considerable money for cleaning, draining, and oiling ponds, swamps, and ditches in and around town in a systematic campaign to destroy the malaria-carrying mosquito. But unless every householder begins right now to eliminate water containers on his own premises, the campaign cannot be a 100 per cent success.

A sagging, choked-up rain gutter on your roof will hold enough water after a rain to breed thousands of mosquitoes that will annoy your children as well as your neighbors. Examine your rain gutters and remove the leaves and trash that have accumulated. A single tin can holding water will become a mosquito nuisance to your entire block unless removed. Do not leave old paint buckets, barrels, glass jars, bottles, boxes, or any other vessel that can catch rain water standing about and inviting the mosquito to lay her eggs in them. The trash man will collect your useless containers, and necessary vessels should be turned bottom up. Unused wells and cisterns are prolific breeding places, and should be filled with dirt or ashes, but until the filling is completed the wigglers can be destroyed by pouring a little kerosene or other oil on the water once a week.

The mosquitoes you breed by your carelessness will annoy your family. Don't wait for your neighbor.

A. W. FUCHS,

U. S. Public Health Service.

Mr. T. M. Gorman, of Durham, who has been visiting his brother, Mr. J. N. Gorman, left this morning.

Though the weather is cold for it, tobacco plants are being set out in a hurry.

Yes Sir-ee!

We made this cigarette to meet your taste!

Camel CIGARETTES

CAMELS have wonderful full-bodied mellow-mildness and a flavor as refreshing as it is new.

Mrs. Rachel Parker, of Winton, is visiting friends in Greenville today.

Mr. G. H. Crumpler, of Winston-Salem, is visiting in Greenville today.

Mr. T. D. Watson, of Kinston, was in the city for a short time Monday.

Mr. A. E. Hobgood returned this morning from Kinston where he spent a few days.

Mr. J. B. Sharp, of Winston-Salem, is spending several hours in the city today.

Mr. Frank Thomas, of Durham, is among business visitors in Greenville today.

Mr. J. C. Williams, of Goldsboro, was in the city for a short time this morning.

Mr. E. J. Conklin, of Plymouth, was in the city for a short time Monday evening.

Mr. C. M. Marshburn, of Zebulon, was in Greenville yesterday evening on business.

Mr. W. C. Askew, of Farmville, made a short business trip here Monday evening.

Mr. E. W. Woolard, of Scotland Neck, spent several hours in the city Monday on business.

Mr. and Mrs. William McDonald have gone to Darlington, S. C. where Mr. McDonald will be engaged in the tobacco business the coming season.

Messrs. R. C. Bursleson and J. C. Bursleson, of Bakersville, spent several hours in Greenville yesterday.

Mr. J. H. Lashley, of Greensboro, has been spending several days in Greenville in the interest of the Liggett-Myers Tobacco Co.

Messrs. S. J. Everett, E. B. Higgs, S. G. Wilkerson, Mr. and Mrs. Charles Cobb, Mrs. K. W. Cobb and little son Charles, went over in the Fountain section today to attend a picnic.

TURNER WNS OVER HERMAN IN WRESTLING BOUT HERE

Quite a number of people attended the wrestling match conducted in this city last night at the Liberty warehouse and saw Joe Turner, middle light weight champion of the world, throw young Herman, of Norfolk, Va., in two well contested successive bouts. Guy Cayton, local wrestler, came out victorious over Nick Brown, Tennessee wrestler, requiring only one round in which to defeat his opponent. Brown was hurt in the first round, when Cayton lifted him bodily from the platform and then crashed him down with terrific force.

Both exhibitions were well contested, particularly that of Young Herman in which he was vying for the belt held by the world champion. If Turner had been thrown the next match would have occurred in New York city to definitely settle the world championship. Another wrestling match will be staged in the city at an early date, it is stated, and as the participants will be of reputation it is expected quite an unusual crowd will be in attendance.

DEEDS OF TRANSFERS FILED

SINCE REPORTS YESTERDAY

The following deeds of transfer have been filed in the office of the register of deeds since reports of yesterday evening:

J. S. Pittman and wife to L. C. and H. A. Hart, consideration \$2500.

J. L. Simmons to C. T. Munford, consideration \$1000.

William Joyner and wife to Ralph Roberts, wife, et al., consideration \$500.

Louis S. Forbes, et al., to Henry Sheppard, consideration \$200.

W. B. Brown to T. C. Twine and wife, consideration \$1400.

F. G. Dupree and wife to A. H. Joyner, consideration \$300.

J. Y. Monk and wife to C. A. Barrett, consideration \$400.

MARRIAGE LICENSES ISSUED

SINCE REPORTS YESTERDAY

The following marriage licenses have been issued by the register of deeds since the reports of yesterday evening: White—Miss Nancy Rives of Swift Creek to B. R. Hardison, of Rocky Mount.

Colored—May Lee Harrington to Willie Tucker, of Greenville township.

ROUND TABLE CLUB TO MEET TO-MORROW

The Round Table Club will meet to-morrow afternoon at 3:30 o'clock with Mrs. H. L. Carr.

Who is this speaking?

An instance that happened in our store last week reminded us of the maiden lady, who when asked over the telephone, "Will you marry me?" replied, "YES, who is this speaking?"

A Farmville man asked more details about Spring Suits so he picked up his receiver and ordered our number. "Can you fit me in one of those Kuppenheimer Suits you are advertising at \$65?" was his query.

"YOU BET WE CAN" we shouted into the transmitter—"WHO IS THIS SPEAKING, PLEASE?"

Makes little difference to this stock who is at the other end of the line. We have a size for every weight and wheel base.

Frank Wilson

"THE KING CLOTHIER"

Dr. R. L. Carr has started work on a new residence in south-east Greenville.

Greenville can be cleaner if the residents say it shall be.

WHEN a Man Gives His Fiancee a Diamond Engagement Ring and Fails to Give His Wife a Life Insurance Policy, He Needs a Guardian---Not a Wife.

Grocery.

PARDONED MEMBER OF LIQUOR TRAFFIC TAKEN BY SHERIFF

(Continued from page one.)
haustive examination of witnesses appearing in the interest of the prosecution.

Avery was pardoned about six weeks ago, and while there has been everything in evidence tending to convey the impression of a straight life, officials believe the whiskey traffic was resumed immediately following his release and return to this territory. It is not known how Sheriff Dudley became aware of renewed affiliation to the traffic, but the arrest, it is understood, came about after careful observation and satisfactory evidence of his implication.

When the officers entered Avery's home last night they were greeted almost cordially by man himself, who upon being informed of their mission, invited them into the house without slightest signs of trepidation or any show of provocation. The search for whiskey continued only for a short time, as a keg was found in one part of the house with five gallons in it, the other being found in bottles in other sections of the house.

It is not known what will be done with Avery in this second offense, but it is expected that the order for pardon will be revoked and his sentence on the roads renewed. The pardon was conditional, providing for good behavior, so it is believed that soon as Governor Bickett is notified of the second charge he will take immediate action in recalling his first decision.

Next week the Southern Baptist convention will meet in Washington City.

ANNETTA RIBECOVA WINS APPROVAL IN APPEARANCE HRRE

(Continued from page one.)
once and she was greeted with genuine appreciation every time she appeared. She played so that the most beautiful tones of the instrument especially the deep, rich tone, were brought out in the varied selections. The first group was composed of Russian numbers, and the second group of songs and melodies. Hahn's "Jardin Chanson" seemed to be the first choice of the audience, but Hasselman's "Will o' the Wisp," was almost as popular. The encore, "The Music Box," was greatly enjoyed by the audience.

Miss Bertolet accompanied Annetta Ribecova and by her sympathetic playing contributed much to the success of the concert.

The people of Greenville were indeed fortunate in having the opportunity of hearing these artists, and the End of the Century Club should feel well repaid for their efforts in securing them. The club has worked untiringly for the success of the occasion. They worked for a worthy cause, in their attempt to raise money for the student loan fund, but they have perhaps done even a greater service by bringing real artists to the town.

After the concert the members of the Poe Literary Society, who assisted the End of the Century Club in helping to share the financial obligations of the occasion, gave an informal reception serving punch and giving the people of the town and school a chance to meet the distinguished guests.

REVOLUTIONISTS IN POWER IN BIGGEST STATE IN MEXICO

(Continued from page one.)
Thus, Carranza's only communication with the outside world would be by ocean routes.

General Calles announced late today that his troops here would move into Gihuahua immediately. Casas Grandes will be the first objective. At Casas Grandes there are between 300 and 500 Jarranza troops, it was said, and among these have been reported evidences of pro-Revolutionary tendencies.

From Casas Grandes the troops of Calles will be entrained for Juarez.

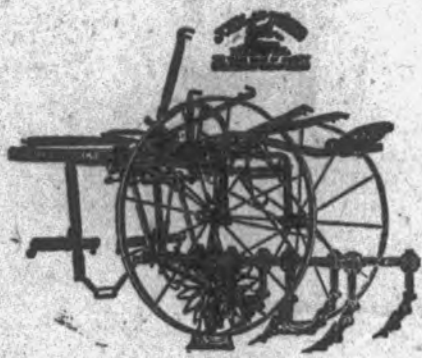

Sonora troops and those at Juarez will immediately move south, General Calles said, to join other Revolutionists on a campaign through the heart of Mexico toward the capital.

Federal troops under Gen. Manuel W. Gonzales, numbering about 1,000 men, stationed at Texcoco, four miles from the outskirts of Mexico City, have been driven out by advance forces c
