## AMERICA EXPECTS FALL OF CARRANZA WITHIN FEW DAYS

### Flotilla of Destroyers Sent to Key West for Mexican Service.

### REBEL FORCES DOUBLE STRENGTH IN ALL PARTS

### Request for Naval Protection on Coast of Mexico Through Precautionary.

Washington, May 5.—Recognition of Carranza's rapidly diminishing power in Mexico was admitted by government officials today, but the dispatch of a flotilla of destroyers to southern water was not taken to indicate that foreigners are in immediate danger. The six destroyers which sailed from New York will arrive at Key West tomorrow and will be used along the east coast only in the event that necessity arises. Before his departure, Captain Byron Long, commanding the flotilla, conferred with the Secretary of the Navy who gave him instructions as to the policy to be pursued.

Development of the revolution as reported to the government has been so rapid as to convince many officials and especially army officers, that Carranza cannot maintain his authority much longer, not so much because he is opposed by a formidable military force as because he commands an army that is daily dissolving before the rebels' advance instead of offering battle.

Information obtained through official channels has been the basis of an estimate that places the strength of the rebels at almost double that of the government. The co-ordination of the rebel forces has been hindered rather than aided by the rapidly with which new groups form in the different states and by the promptness with which the Federal garrisons have joined in the movement even before being directly threatened.

Rebels claim that Carranza would have difficulty now in leaving the country are supported by reports from official sources. East and West coast ports are closed to him by the operations of rebel units at various places along the connecting lines. His entry into the United States might yet be effected over the long line of railroad from the Capital to Laredo and the possibility of escape through the Tehuantepec Isthmus into Guatemala remains although such a route is regarded as impracticable on account of rebel operations in zones he would have to cross. In any event, the revolutionists assert, his departure would have to be made after the manner of an ordinary fugitive and not like that of so many deposed Latin-American rulers.

Such information as was available here continued to indicate the bloodless character of the revolution. The southward movement of the rebel forces along the west coast was continued but no reports of any engagement were received.

The request for naval protection at ports on the east coast was construed by the government as precautionary. Although no overt act had been recorded in the vicinity of any of the ports, it is understood British consular officers concurred with American representatives that ships should be available near Tampico, Tuxpan, Vera Cruz and Fronteras to afford a refuge for foreigners if conflict made temporary retirement advisable.

## COMMUNIST LABOR PARTY CAN ACCEPT ALL ALIEN FACTION

### Secretary Wilson Rules Membership in it Not Ground for Deportation.

### NO EVIDENCE SUBMITTED OF GOVERNMENT HATRED

### Department of Justice Frankly Deplores Statements of the Secretary.

Washington, May 5.—Secretary of Labor Wilson ruled today that membership in the Communist Labor party does not of itself constitute sufficient ground for deportation of aliens.

In ordering cancellation of a warrant under which Carl Miller, a German, was held because of such membership, the secretary declared that while extracts from the organization's platform indicated an extremely radical objective, there was no evidence of intention to use force or violence toward organized government.

The department of justice frankly deplored the labor secretary's decision. Assistant Attorney General Garvin, in charge of raids on radical elements asserting that because of it all undesirable aliens could enter the folds of the Communist Labor party and be free from government interference.

Since Mr. Wilson already has held that an alien could not be deported because of membership in the I. W. W., only membership in the Communist party now brings an alien within the purview of the law providing deportation for those affiliated with existing organizations that believe in or advocate the overthrow by force or violence of the government.

Although Mr. Wilson declared that (Continued on page eight.)

## KNOX TALKS ABOUT ISSUES CONNECTED WITH PEACE PLANS

### Former Secretary of State Starts Debate in Senate on Treaty Move.

Washington, May 5.—Senator Knox of Pennsylvania today opened the Republican fight in the Senate for peace. Urging adoption of his resolution repealing the declaration of war against Germany and Austria, the former Secretary of State spoke for an hour and a half to a crowded chamber.

The peace resolution, which Senate Republicans propose to substitute for the House measure declaring peace with Germany alone, was not formally brought before the Senate and after Mr. Knox's address, other business was taken up.

With a veto of the peace resolution by President Wilson predicted by both Republican and Democratic leaders, desultory procedure with the measure is in prospect. The Republicans do not plan to call up the resolution until late next week, and Senator Hitchcock, of Nebraska, administration spokesman, will defer his remarks until that time. Senator McCumber, of North Dakota, Republican member of the Foreign Relations committee, plans to speak soon, however, in opposition.

Senator Knox charged President Wilson with contending arbitrarily that the nation still was at war and with denying peace to America in order to coerce the Senate into ratifying with out changing the treaty of Versailles. The Senator declared that peace, legally as well as actually, now existed and that the proposed peace resolution was needed to end a "paper" war status and to strip the President of war powers.

## LOCAL FIRM SELLS RICHMOND LOTS AT ENORMOUS FIGURE

### Over Twenty-One Business Lots Sold by Coast Company for \$453,987.

### PROMINENT BUSINESS MEN AMONG PURCHASERS

### Several of the Lots Were on Broad Street in West End District.

Twenty-one business lots, located on West Broad Street, were bid in at \$453,987 yesterday afternoon at an auction sale conducted by the Atlantic Coast Realty Company. Bids on the lots will be confirmed or rejected by noon today. One of the largest crowds that has attended an auction sale in Richmond for many months was on hand, and the bidding was brisk throughout.

Many prominent business men were present, two of the largest banks in the city being represented by their vice-presidents, who purchased several of the lots.

Ten lots opposite the new Broad Street Station brought a total of \$176,981.40, and \$277,006.00 was bid for eleven lots located on the south side of Broad, between Laurel and Shafer Streets.

Eleven lots between Laurel and Shafer Street, on Broad Street, were sold. Two with fifty-foot fronts on Broad Street were bid in at \$1,075 per front foot. One lot fronting twenty five feet on Broad Street brought \$1,000 a foot, and two fronting fifty feet on Broad Street were bid in at \$810 a front foot. One lot fronting almost forty-three feet on Broad Street brought bids of \$1,040 per front foot. (Continued on page eight.)

## MAKES EFFORT TO STOP SUSPICION OF MONROE DOCTRINE

### Porto Rican Senator Makes Tour of Country Explaining to People.

Buenos Aires, May 6.—Martin Travieso, member of the Porto Rican senate and who has temporarily served as governor of that island has been making a tour of South America and endeavoring to allay suspicions of Latin-Americans concerning the Monroe doctrine.

Senator Travieso appealed to Americans in South America, an address before the American Club here, to use their best efforts to prove to citizens of South American countries that the Monroe Doctrine was not the expression of an imperialistic policy on the part of the United States.

Mr. Travieso said that the conduct of the United States toward Cuba and Porto Rico were examples that could be cited to show that the United States had no imperialistic aims.

Speaking as a Latin American, he declared that it was very important to allay the unfounded suspicions of many Latin-Americans that the motives of the United States in maintaining the Monroe Doctrine were not to protect Latin-American countries from European interference, but rather to obtain political control of them which would be to the benefit of the United States commercially. He declared that his country was not only far more independent than any of the states of the union but was virtually an independent state as far as the administration of its own affairs were concerned.

"Perhaps in the future," he said, "the United States may constitute us into a sovereign people, but that is a problem which will have to be resolved by future generations. We enjoy today all the rights and liberties of the freest people of the world and we have no reason for complaint to protest in our present situation."

## AMERICANS URGED TO DISPLAY GOODS IN FOREIGN PORTS

### Manufacturers Asked to Adopt Plan of Japan and England in Advertising.

### EXHIBITION SHIPS ARE NECESSARY FOR PLANS

### H. H. McLean, Foreign Traffic Manager, Makes Suggestion to Business.

Louisville, Ky., May 6.—American manufacturers and commercial organizations are being urged to adopt the idea of the British and Japanese and send exhibition ships abroad to display American goods in foreign ports. The idea has been proposed to the American business men by H. G. McLean, assistant foreign traffic manager of the Southern Railway System, who has headquarters here. Mr. McLean has suggested that shipping board vessels be fitted out as exhibition ships to carry American products to new markets and thus meet the competition to the British and Japanese manufacturers.

Mr. McLean has called the attention of various commercial organizations to the fact that Japan as well as Great Britain has adopted this plan in her race for the world's trade and that Japanese ships will be sent around the world carrying exhibits of Japanese manufactured goods. These vessels will be operated by a co-operative organization embracing a large number of Japanese manufacturers.

Mr. McLean, who also is regarded among railroad men as an authority on international trade, points out another feature in this connection which he regards of great importance. British and Japanese manufacturers, he asserts, through the co-operation of labor leaders in their countries have persuaded labor that "strikeless production" on their part with "strikes against production" in the United States would soon enable those countries to capture German trade markets aggregating nearly \$6,000,000,000 annually with a consequent addition of \$3,000,000,000 in wages paid British and Japanese workmen.

## CHILE TAKES FIRST RANK IN SUPPLYING LAND WITH NITRATE

### Exportation of Products to Europe Features Largely in Commerce.

Valparaiso, May 6.—The Association of Producers of Nitrate have made public certain statistics concerning the consumption of this product, which is the principal article of exportation of Chile.

In the month of February there was on hand in Europe a stock of nitrate of 150,000 tons, and during this same month there was imported into Europe 237,000 tons. Of this total of 387,000 tons there was delivered to the consumer during February a total of 155,000 tons, which left on hand for the month of March a total of 232,000 tons.

The visible supply of nitrate reaches 2,102,000 tons, composed as follows: 1,252,000 from Chile, 492,000 in Europe, 277,000 in the United States and 81,000 in Japan and other countries.

To the 27,000 tons imported by foreign markets during February there should be added 12,500 tons transhipped in the United Kingdom. This gives a total for imports in February of 249,000 tons. The distribution of these imports was as follows: United Kingdom, 11,000; France, 90,000; Belgium, 21,500; Holland, 22,000; Spain and Portugal, 18,000; Italy, 30,000; Scandinavia, 31,000; Egypt, 7,500; Germany and Baltic ports, 9,000.

## BREAD LINES WILL BE COMMON SIGHTS IN LARGER CITIES

### Prominent Agricultural Leader Tells Result of Inspection Tours.

### LOWER PRODUCTION TO FEATURE COMING YEAR

### Easy Hours and Plenty Money in Cities Have Drained Farm of Help.

Washington, May 5.—Bread lines in the not distant future will be common sights in the larger cities of the country, according to J. B. Howard, president of the American Farm Bureau Federation.

Mr. Howard has just completed a tour of the agricultural states, where he has made a study of the food production situation.

"Every immediate condition indicates lower agricultural production," says Mr. Howard. "Under present conditions of marketing and transportation, costs of living must go higher until the time comes when limits are reached and belts of hungry urbanites can be no further shortened."

"Then a back-to-the-land movement will begin in such volume that industry will suffer. In the meantime, undesirable national elements will flourish and radicalism grow rampant."

"Easy hours and high wages in the city have drained the farm of its labor supply. It is reported that in New York state alone 25,000 farms will be unworked this year for lack of labor. Alabama farmers are leaving idle 1,000,000 acres of tillable land for want of man-power."

"Iowa is 150,000 farm workers short of her needs. Throughout the entire country farmers are letting their fields stand in hay or pasture because they either cannot get or cannot afford to pay the prices demanded by farm labor. To make matters more acute just at this time, the recent railroad strike held up shipments of fertilizer, farm machinery and seeds just when they were needed worst, in many instances proving the last straw which made the farmer cut his acreage or quite entirely."

"There must be a readjustment between the city and the country—and (Continued on page four.)"

Arter, of Cleveland, Ohio, started consideration of the amusement section of the discipline of the church by introducing a resolution asking the judiciary committee to rule on the constitutionality of the article. Dr. B. P. Bennett, of California, opposed the resolution and it finally went to the committee on the state of the church.

## JOHNSON PLANS TO GET MORE SOLID IN SOUTHERN STATES

### California Aspirant Begins Mapping Out Tour for Getting Big Vote.

### LONG SHOT CONSIDERED NECESSARY BY MANAGER

### Will Make Open Fight for Part of North Carolina, So It is Said.

Washington, May 5.—Confronted with the knowledge that he is obliged to play long shots from now until the Chicago convention in order to make fast his grip on the Republican party, Senator Hiram Johnson is planning an invasion of the "Solid South" within the next few days.

Having already indicated his intention of making an open fight for a part of the North Carolina delegates to Chicago the California favorite this afternoon began mapping out a trip that includes Richmond, Raleigh, Atlanta, Birmingham and other Southern cities. He would break the ice himself and let Messrs. Kenyon and Borah, Johnson champions in the Senate, follow with an appeal to Southern delegates to shake loose from the clutches of the bosses and take a hand in things at the coming convention.

Information coming to Johnson managers within the past few days has convinced the campaign managers of the Senator that Frank Hitchcock no longer exercises a "magic" power over the Southern delegates. National campaigners have long counted the Republican party in the South a sure thing quantity and, as a rule, they expected the first man to invade the State for delegates to "sew it up." Such rumors have been coming to Washington regarding the delegates elected by the Republicans at Greensboro. Wood's managers, with the huddle behind the copper, the steel and the oil interests, have been in North Carolina and they ask—"why is it that we hear of Johnson sentiment in North Carolina?"

Tredell Mears was the first person to bring a personal report and he arrived here tonight from Pittsburgh just a short while after Johnson reached the city from his recent Western tour. A conference between the two is scheduled for tomorrow when, it is said, definite details of the coming campaign in the South will be arranged.

Johnson's surprising success in California, winning out over Hoover in the State that politicians expected to do most for the former food administrator, has spurred the Senator on as has no development of the campaign. The result has made certain the suspicion that the G. O. P. will be unable to "pull him down" at Chicago by a tender of second place on the ticket.

It is really beginning to look as if Johnson will hold the convention until Hoover "bolts" with his following and leads off to a third party. It is said seriously in Washington that many Johnson preference votes are being cast with this thing in mind. Certainly, this prospect is in a way responsible for the few scattering Democratic votes which were given to Johnson in the California primary yesterday.

Right now, the Republican party is headed for a split far more serious than it encountered in 1912. There is nothing idle about statements. Administration Democrats are elated over things as they are going now. They do not think the Republicans are going to split over Johnson but over Hoover. Johnson has said that one experience bolting the party is enough for him and his managers echo the thought. But "this man Hoover" is another story.

Mr. H. L. Hodges, who has been in a Richmond hospital for treatment, has returned home.

Mrs. T. J. Ewell, of Durham, arrived yesterday afternoon to visit Mr. and Mrs. N. W. Jackson.

### ANNOUNCEMENT.

To the Democratic voters of the Fifth  
Judicial District:  
I have entered the Primary for the  
office of Judge in this District.  
I have practiced law for the past  
18 years, during which time I have  
assisted in the prosecution of the Fed-  
eral docket for about 7 years. Since  
entering my name for the judgeship I  
have resigned the office of Assistant U.  
S. attorney.  
Before beginning the practice of the  
law I had fourteen years experience  
in business, beginning life as bank book-  
keeper at the age of 13 years.  
I shall not make a canvass of the  
district, for the Judgeship. My con-  
ception of the duties and responsibil-  
ities of the high office of judge is such  
that in my view a canvass, and the  
methods of the political campaign,  
usual and perfectly proper for other  
offices—purely political, tend to cheap-  
en and lower its tone. I would rather  
lose the nomination and never hold the  
office than lower it a hair's breadth from  
the high plane of honor and dignity on  
which our fathers have placed and kept  
it in North Carolina.  
I shall appreciate the support of all  
democrats in the district; and if by  
their sufferages I should be elevated to  
the Superior Court bench, I assure  
them that its high traditions shall be  
upheld, and in the administration of  
the office justice shall be meted out to  
all men alike.  
This April 28th, 1920.  
ERNEST M. GREEN.

# SALVATION ARMY BUDGET BEFORE PUBLIC TODAY

\$10,000,000 NEEDED TO CONTINUE  
WORK AMONG POOR AND  
UNFORTUNATE.

### FRANKLIN K. LANE HAS GIVEN OPENING SIGNAL

THE "LASSIE" ASKS, "WILL WORK  
GO ON?" AMERICA GIVES HER  
ANSWER BETWEEN TODAY  
AND MAY 20.

The Salvation Army needs \$10,000,  
000 with which to carry out next year  
its plans for aiding the poor and un-  
fortunate in the United States.  
It has laid its budget before the  
people, who will be asked to provide  
the required funds during the next ten  
days. On the answer to this plea  
hangs the future of the organization  
with its forty years of heroic, sacrific-  
ing service in the cause of Humanity  
and America.

Franklin K. Lane, former Secretary  
of the Interior in President Wilson's  
cabinet, who is chairman of the effort  
to bring \$10,000,000 into the Home  
Service fund has given the opening sig-  
nal and today the work of fund-raising  
was put fairly under way. The  
volunteer workers and Salvationists  
have gone out to carry the appeal of  
the great organization they serve to  
the hearts and homes of all America.  
Yesterday was "Salvation Army  
Sunday." In thousands of pulpits the  
story of The Army's achievements and  
plans for the future was told. Min-  
isters and lay workers are co-operat-  
ing the country over, to make the ap-  
peal successful.

Salvation Army officials hope not  
only to continue all their present hu-  
manitarian activities, but to widen  
the scope of many of them. If the  
answer falls short, the plans for ex-  
pansion and extension must be aban-  
doned and the present work perhaps  
curtailed.  
Only a small portion of The Army's  
work is self-supporting. The rescue  
homes for unfortunate women; the  
hospitals, including the maternity hos-  
pitals which care for thousands of  
mothers of the poorer classes; the  
slum settlements which are such  
bright spots in the squalor of the ten-  
ement districts, demand constant finan-  
cial aid. The fresh air camps, the  
prison work, and the foundling homes  
are supported wholly from the Home  
Service fund. The evangelical work,  
the bureaus which yearly give away  
great amounts of food, clothing and  
supplies to those in dire need, as well  
as many other activities and institu-  
tions of the Salvationists, derive their  
means of existence from the same  
source.

The name of the fund indicates the  
purpose for which subscriptions are  
sought. It is to make possible the  
Home Service of the Army in Amer-  
ica, to insure the continuation of its  
labors in the communities of America.  
The amount sought was not deter-  
mined arbitrarily, but by compiling  
the estimated financial needs of the  
districts and corps throughout the  
United States. These individual  
amounts are required to carry for-  
ward the work in the different local-  
ities. The effort of each community,  
therefore, will be to raise the sum  
named in its own budget, rather than  
an arbitrarily fixed portion of the  
whole \$10,000,000, and practically all  
the money raised in a given section  
will be spent there.

In its work The Salvation Army acts  
only as a steward for the people. It  
uses their money to relieve misery  
and sorrow in an efficient, economical  
way. The lassies know where real  
need and suffering exist and they  
know the means of reaching it. They  
have never been known to be afraid  
of service, no matter what sacrifices  
or hardships it entailed upon them,  
and they have always kept faith with  
the people of America whose work  
they do.

The lassie has asked, "Will my work  
go on?"  
Between today and May 20, America  
gives her answer.

# COMMUNIST LABOR PARTY CAN ACCEPT ALL ALIEN FACTION

(Continued from page one.)  
examination of their platform showed  
"some very substantial differences" be-  
tween the Communist and the Com-  
munist Labor parties, Mr. Garvin as-  
serted tonight that in principle they  
were "absolutely the same" and pre-  
dicted that members of the Commu-  
nist party, now outlawed, would affiliate  
with the Communist Labor party to  
evade deportation proceedings.

In a general review of the case, Secre-  
tary Wilson said it had been argued  
by counsel that the antics of the Com-  
munist party in Russia "are the meth-  
ods intended to be pursued by the Com-  
munist Labor party of America, and  
that certain statements of prominent  
Communists relative to the objects of  
the Communist Labor party should be  
taken as showing the intent of the  
party of the party itself."

"The tactics of the Communist party  
in Russia," he added, "can have no  
bearing upon the Communist Labor  
party in the United States except in  
so far as those tactics are accepted or  
adopted by the Communist Labor  
party," nor can the statements made  
by prominent members of the party  
be accepted as the expressions of the  
organization unless the party by its  
own action adopts the statements.

THURSDAY, MAY 6, 1920.

Herbert Hoover may have made an excellent food administrator, but then that doesn't mean he is going to make a good president.

One more day intervening before circus day in Greenville, and truly the proverbial red lemonade and popcorn will come into its own.

In transferring the Kaiser to Dorff, it may be to advantage of the Dutch government to not forget the woodpile. Constant exercise probably will have a tendency of keeping the old boy out of trouble, and that in itself is worthy of no little consideration.

Eight women will represent the Democratic state convention in Kentucky this year, according to reports from that territory, so what would be more natural than to hear of the incorporation certain suffrage principles in platforms not altogether necessary to the political affiliations of the state and the country as a whole.

If you are of the impression that you should make the Greenville baseball club a donation, why not do it right away and help the boys have the winning team of the league. This will be easy with proper financial backing, so it is up to enthusiasts to get behind the club and see to it that nothing is lacking in any way.

The senate will continue to debate the advisability of the Knox resolution for peace today, so we are informed, but even with this it will be a mighty long time before there's really any peace in this country. Too much friction in the senate for that, and when this is eliminated, we may anticipate peace, and not until then.

Delaware will reconsider ratification of woman suffrage at the opening session of the General Assembly of that state today, so we may expect much suspense in the ranks of fair femininity until the legislature has definitely acted upon the measure. Some say it will receive favorable consideration, but what some say does not help the situation in the slightest sense of the word and might have a tendency of causing an accentuated state of affairs in general opinion at the present time.

William G. McAdoo states specifically and finally that he is not a candidate for the presidency but he is of the opinion that the welfare of the people should determine the selection of the next president more than any other one thing. The welfare of the people, if Mr. McAdoo remembers, is not based entirely upon the president's shoulders, for if it were this nation would be in a pretty muddle today with that controlling Republican influence in the senate, ready and anxious to do something to humiliate the present efficient president in the White House. The idea of keeping the people at heart is a good one, and no doubt will meet with more than general approval from many admirers of the former secretary of the treasury.

## CREDIT STRINGENCY UN-RELIEVED.

Although the extent of the recent movement of gold to this country is not apparent it cannot be expected to afford a basis of relief from the present credit stringency, the National Bank of Commerce in New York says in its monthly review of the money market published in the May number of its magazine, Commerce Monthly. After referring to the recent issues of 7 per cent. bonds and equipment trust certificates by the Pennsylvania and New York Central railroads and the recessions in the prices of other bonds, including Liberty issues, the review says:

"Meanwhile it is well recognized that a tremendous volume of financing, railroads, corporate and foreign, is waiting a favorable market. The difficulty is that there is not available sufficient new capital to meet the requirements for it. The situation requires skilful handling in order that available capital may be directed into those undertakings whose development is most essential to the restoration of normal conditions of production and commerce."

In the course of its comments on the general market situation, the bank says:

"Commercial activity has continued during the month, but a feeling of hesitancy still prevails. Although credit is still available only for essential lines, the volume is sufficient for legitimate business. It is questionable, however, whether the limitation of credit has checked commercial speculation as effectively as it has checked speculation in securities. This is due to the fact that the purchasing power level that demand in many lines is still in excess of supply. Although the retail trade reported the heaviest Easter trade known, increasing uncertainty is felt as to advance business. Imported goods are appearing on the market in larger quantities, but it is doubtful as to whether they will be available in quantities sufficient to affect the market greatly. Uncertainty as to the price future is also shown by hesitation on the part of manufacturers in making future commitments for raw materials. Although a gradual recession of prices would have a beneficial effect upon the many industries now retarded by high costs, no marked lowering of prices can be anticipated while present high production costs prevail."

Dr. E. C. Brooks, superintendent of public instruction, heartily advocates higher salaries for school teachers throughout this state. In fact, he thinks so much of the idea that it is set forth as one of the principal things in educational development for the future. No doubt but that he's right, for no one can render efficient and competent services when depressed on account of financial restraints, and this is so with the teacher as any other class of people, therefore, it is only perfectly natural that the director of state education to make plea in the interest of that absolutely essential in placing the Carolina school record in the front ranks of the country.

Wilmington women have asked the state legislature to ratify the suffrage amendment to the national constitution and for that reason it is expected members of the assembly will feel more imperatively impressed by the importance of the issue than ever before. The subject is getting to be an interesting one in hundreds of homes throughout the state, and it is only natural to expect that many anxious letters will reach members of the legislature, requesting ratification from a man's standpoint.

If Carranza generals continue to join rebel troops, as recently reported, it will only be a short time before we hear of a change in the Mexican policies, and not quite so much warfare. The situation in that country is truly deplorable, but certainly it must come to a conclusion sooner or later, either through intervention or natural settlement of question in dispute by leading men of the country.

A New York man swallowed two tacks while drinking soup in a cafe in that city, and a jury recently gave him a verdict of \$25,000 damage. Most anybody would swallow tacks for that much money, in fact, some of the monkey rum imbibers in this section of the country would swallow an entire still for a much smaller sum.

## BREAD LINES WILL BE COMMON SIGHTS IN LARGER CITIES

(Continued from page one.)  
that very soon—or the city will eventually be the sufferer. The farmer can "get along" for a time if need be by merely growing enough for his own use, but the city, its industries and the nation as a whole would soon be in a bad plight if food production be not maintained.

"This is no time for labor and industry to be talking about a forty-four-hour week, expecting to charge enough extra for their products to bring up the total income and cover its costs. The simple fact is that "the clothe the world. And it must be forty-four-hour week will not feed and membered that the farmers' production is subject to the same economic laws as govern other industries. "Some encouragement must be given the farmer to produce, or some one will go hungry before long, I fear."

**FOR THE LEGISLATURE.**

At the solicitation of many of the leading men of Pitt county, I have decided to become a candidate for the House of Representatives. I have long nourished an ambition to serve the people of my county in the legislature, and now that the opportunity has presented itself I will offer my candidacy subject to the primary to be held on June 4th, 1920. In announcing my candidacy I wish to state to the voters of Pitt county that the work to be done in the legislature is not new to me. I know every detail. I was engrossing clerk of the senate of North Carolina for six years, from 1900 to 1915 and the experience I received in this position will be worth lots to me as a member of the house of Representatives. Pitt county is a great county, one of the richest in North Carolina, and as such is entitled to recognition. If you the good people of this county feel that I can be of service in helping to place Pitt county at the head of the list where she rightfully belongs, I will take great pleasure in serving you.

Yours to serve,  
W. E. HOOKS,  
Ayden, N. C.
