CONGRESS TO END PRESENT SESSIONS DURING SATURDAY

Adjournment Decided Upon After Assurance of no Summer Session.

BOTH PARTY LEADERS FAVOR ADJOURNMENT

Wilson Will Not Call Extra Session Unless Grave Emergency Arises

Washington, D. C., June 3.—The resolution to end the present session of congress Saturday, already approved by the House, was adopted in the Senate today after Democratic Senators had given assurances that President Wilson had no present intention of calling an extra session during the summer.

Republican and Democratic leaders joined forces in bringing the resolution to passage, but a score of Senators, thirteen of them Republican and seven of them Democrats, made a vigorous fight to attach an amendment by which congress would re-assemble after the national political convention.

On the final roll call the vote was 44 to 24, twenty-four Democrats and twenty Republicans against it.

Announcement of the President's position, which had been the cause of much disquietude during the framing of adjournment plans, was made from the Senate floor by Senator Underwood, of Alabama, the administration leader. He said he had been authorized by Secretary Tamm to say that Mr. Wilson would not call congress back into session unless a grave emergency arises.

The announcement was contrary to the expectations of many of the Republican Senators and some of the leaders on that side still believed tonight that Senator Underwood's statement left enough leeway for a special session call should the President decide it to be advisable after the conventions. There was no debate on the floor however, regarding the President's attitude.

Pleasing with their party leaders for a recess instead of an adjournment, the twenty insurgent Republicans and Democrats declared congress had no moral right to desert its post for the fascinations of summer resorts or the lure of politics. The curbing of profiteers, the enactment of relief measures for postal employees, legislation for a merchant marine, repeal of war time legislation, levy of new tax schedules and appropriation of funds to carry on river and harbor improvements were among the unfinished tasks for which special pleas were made.

An amendment by Senator Kenyon, Republican, of Iowa, providing that congress should re-assemble on July 12, was voted down, 47 to 20, and one by Senator Trammel, Democrat, of Florida, to reconvene on August 2, was lost by the same count.

The leaders said at least some of the measures made the basis of complaints today would be passed before Saturday and announced that sessions of the Senate would be held tonight and tomorrow night. The only appropriation bill likely to fail, they said, was the River and Harbor budget on which the conferees are deadlocked.

COUNTY POLITICAL SITUATION GETTING MORE THAN LIVELY

Primary Tomorrow Promises Greater Interest Than in Many Years.

COUNTY CANDIDATES IN FINAL LAP OF CAMPAIGN

Great Division in Sentiment Regarding Gubernatorial Candidates.

With the state primaries set for tomorrow the political situation in this county today is at fever heat and gives every indication of being one of the most interesting that has occurred in this section in many years. Sentiment in both state and county tickets appears to be divided more than ever before, in fact, supporters of all candidates are unusually staunch-hearted and have rallied for tomorrow's encounter in a way that promises to make the day one long to be remembered.

Both state and county tickets have been receiving great attention for the past several days, but the situation failed to warm up to any extent until the beginning of the week when canvassing among county candidates became more intensive and sentiment probably more divided than ever. Both the state and county tickets have received due attention, but not until today did the division in sentiment towards state candidates become so noticeable. The gubernatorial fight has created such a division in sentiment in practically every part of the county.

The gubernatorial fight will be featured by much uncertainty in fact the Page, Gardner and Morrison elements are doing everything possible to line up votes for their respective candidates, but it is believed that the vote tomorrow will not give either a decided

GOMPERS FAILS TO APPROVE PRESENT MEXICAN POLICIES

Severely Criticizes Report of Sub-Committee Regarding the Issue.

Washington, June 3.—Samuel Gompers, president of the American Federation of Labor, declared in a formal statement tonight that war between the United States and Mexico would result from the carrying out of the recommendations of the Senate committee which investigated Mexican affairs.

"The report of the sub-committee investigating conditions in Mexico under the championship of Senator Albert B. Fall," Mr. Gompers said, "amounts to a declaration that unless the government of Mexico re-writes its constitution in accord with the ideas of American oil and mining interests, the government of the United States will intervene in Mexico."

"The report of Senator Fall's committee demands a number of specified changes in the Mexican constitution. These changes will be the consummation of what has been long the hopes of the great oil and mining interests, as well as the land and timber interests, which have fomented the bitterness between the people of the United States and Mexico."

"It is difficult to believe that the Senate will give serious consideration to a report so out of harmony with the best thought of our time, and so full of the possibilities of dire consequence to our people and our Nation, as well as to a neighbor republic with which we are at peace."

"The report calls for American aid to exiles providing Mexico agrees to the terms of the report. This is not an American proposition. It is a Prussian proposition. It must be set aside by the popular opinion and fair judgment of our people."

ADVANCE GUARD OF REPUBLICAN PARTY LANDS IN CHICAGO

Arrival of Johnson and Harding Marks Beginning of Active Encounter.

HERBERT HOOVER NOT EXPECTED AT MEETING

Practically Every Delegate Expected, With Steady Stream by Sunday.

Chicago, June 3.—Two republican presidential candidates—Senator Johnson, of California, and Senator Harding, of Ohio—arrived in Chicago today and their coming marked the beginning of the active days of the pre-convention period.

Five days remain before the Republican party assemblies in the Coliseum to pick its candidate and those five days are expected to contain crowded hours of conferences, last minute alignment of forces, and final decisions among the campaign managers. Every one of the candidates except Herbert Hoover is expected here at some time.

The advance guards of the delegates are beginning to arrive and by Sunday they will be coming in a steady stream.

The majority of them, to be sure, are technically unpledged, but most of the chairman of the incoming delegations have their leanings. Some of the are announcing their preferences in prepared statements which became the confidence of success, but the political managers standing on the sidelines and making up their staves have found no reason for changing their opinion that while some of the candidates have enough delegates to give them formidable fighting strength in the convention, it is going to take more than two or three ballots to show where the forces of conciliation and compromise

HOUSE VOTES FOR EARLY REPEAL OF WAR RESTRICTIONS

Resolution for Repeal of War-time Legislation Passed Overwhelmingly.

Washington, June 3.—All war laws, excepting the Lever Food Control Act and the Trading With the Enemy Act, would be repealed by a resolution adopted today by the House 323 to 3. The only negative votes were cast by Representatives Garrett and Sims of Tennessee and Welling of Utah, all Democrats.

Approximately sixty laws, most of them conferring broad discretionary authority on the President as long as the technical state of war continues, would be removed from the statute books by the resolution.

With the House's action the repeal resolution was sent to the Senate, where action on it is expected the adjournment of congress Saturday. House Democrats predicted that President Wilson would approve the measure. Representative Connally of Texas, asserting that the President was first to suggest the nullification of the war acts. The Texas member added that the Democrats were ready to override a veto, if necessary.

The retention of the Lever act was explained by Representative Walsh, Republican of Massachusetts, in charge of the repeal legislation, as necessary to give the government an effective law for curbing profiteering in necessities, including food and fuel.

Messrs. W. H. Robertson, D. R. Steele, E. B. Bryan and T. S. Hatch, of Rocky Mount, were in Greenville several hours yesterday.

REPORT ASKS FOR BETTER WAGES TO FEDERAL WORKERS

Republican Committee Asks Several Matters of Interest that Present "Chaotic" State be Relieved.

DEMANDS FOR SERVICE HAVE REACHED CLIMAX

Employers Declared by the Committee to Be Greatly Dissatisfied.

New York, June 4.—Payment of fair wages to employes in the Federal Civil Service was recommended as a remedy for conditions in that service characterized as "chaotic" in a report made public today of a sub-committee on Civil Service and Retirement of the Republican committee's advisory committee on policies and platform. The sub-committee which makes the report is headed by James R. Garfield, of Ohio. The report has been adopted by the executive committee of the advisory committee and will be submitted to the platform committee of the Republican convention to be held in Chicago.

The report stated that criticism of the Federal Civil Service and demands for its reforms "seem to be reaching a climax. A common charge brought against the service is that it is inefficient and extravagantly administered, that many workers are unfit for their work and not a few too old to render satisfactory service."

Employees were declared by the committee to have become so dissatisfied with the present salary and employment conditions that they are leaving the service in alarmingly large numbers. Signs of impaired morale are declared to have been noted and are considered "a reliable index of inefficient personnel administration." Service for the government is declared to have fallen into disrepute.

WOMAN MAYOR IN COMPLETE CHARGE OF GROWING TOWN

Jackson, Wyoming, is Now Thriving Under Direction First Woman Mayor

Cheyenne, Wyo., June 4.—A woman mayor, Mrs. Grace Miller, now rules in Jackson, the population center of the Jackson's Hole country which long was famous in fact and fiction as the resort of outlaws, cattle rustlers, horse thieves and other bad men of the west that once was. For what is said to be the first time in history, there is not a man in the city hall of an American municipality; for a city administration composed entirely of women has been sworn into office as a result of the election in May. There is not a man in Jackson's city hall.

Jackson is a diminutive city—with a population of not quite 300. Perhaps no other section of the United States is so far isolated from the railroads and from all-year traffic. The nearest rail way station is 75 miles away, and from November until May the highway to that station is virtually impassable. Surrounded by the high mountains in the range south of Yellowstone National Park, the residents of Jackson make little or no attempt to travel during the winter months.

It was in Jackson's Hole that the bad men made their last stand against the advancing wave of civilization 30 or 40 years ago. There they flocked after stealing cattle or horses or other robberies or hold-ups and banded themselves together for mutual protection. Today Jackson, itself, has surrendered to the feminist movement and made a clean sweep of every male officeholder.

CITY ALDERMEN IN REGULAR SESSIONS HERE LAST NIGHT

Taken up in Monthly Session of Board.

SEWER EXTENSION ARE ORDERED ON PARIS AVE.

Pitt Street to be Paved from Present Pavement to the River Bridge.

Several matters of direct importance to the improvement of conditions throughout the city were taken up at the regular monthly session of city aldermen conducted in the city hall last night. The meeting was presided over by Mayor D. M. Clark, and as every member of the board was present regular routine work was disposed of rapidly as were the other matters coming up for consideration during the evening.

It was moved and carried that the ditch between Evans and 8th streets be enclosed by the usual size tiling used in other such places throughout the city, with one-third of the expense to be borne by the city and the remaining two-thirds to be paid by property owners of that district. J. T. Summerlin was elected as driver of the city fire truck at a salary of \$110 per month.

An ordinance was passed making it unlawful for any person, firm, or corporation to construct or repair any roof by placing tin or metal coverings over old shingle roofings. The measure also provided that any roof may be repaired after removing the shingles, and that it would not apply to any roofs already covered by metal unless the roof should be entirely removed. Section three of the ordinance declared that any violation would be punished.

MEXICAN TROUBLE ATTENDED BY MANY DISQUIETING FACTS

Several Sidelights Thrown on Recent Trouble in That Territory.

Mexico City, June 4.—The revolution which overthrew President Carranza and culminated in his death was attended by many interesting or exciting episodes which could not be reported to the outside while the coup was in progress. Some of the discoveries which have followed the installation of new authority in the capital city, too, have been entertaining.

Notable was that revealed by an interim officials of the Treasury Department who announced they had found evidence of a fraud which had netted somebody an amount estimated at about 1,000,000 pesos. The papers here say that, when the infalible (paper money with which the country was flooded) during the last previous revolution) were burned, about one-quarter of the amount officially reported to have been destroyed had been previously extracted and sold at the current rate of 10 centavos on the peso. The Carranza government had been taking the old paper money in as a sort of supertax on import duties and other taxes. Later it was supposed to be burned.

While no disorders occurred in the capital during the evacuation by the Carranza government and the occupation by the liberal revolutionary forces, nor did public service cease functioning for an instant, the inhabitants of the capital were victims both of inconveniences and profiteers. Food prices increased and change, which has been the bugbear of everybody since silver began its sensational rise months ago, sold at a 15 per cent premium.

LEAGUE SEASON TO OPEN IN CITY NEXT TUESDAY EVENING

First Game of Season to be Played Between Greenville and Washington

DIRECTORS IN SESSION HERE THURSDAY EVENING

Schedule Changed Allowing Six Games a Week Instead of Proposed Four.

A special meeting of the directors of the Eastern Carolina baseball association was conducted in the chamber of commerce rooms in this city yesterday evening to consider several questions relative to the opening of league season next Tuesday evening. The meeting was recently called by Mr. Hayward Dail, president of the association, to definitely settle all questions of importance before the opening of the season and to re-arrange the schedule so as to provide for six games a week instead of four.

The meeting was well attended by members of the association, and practically every director brought some encouraging remark from his particular district showing that much enthusiasm is in evidence for the opening of the season. An expression of confidence that the association would be above the average in this section of the state was presented in many different ways, in fact, all six towns are now in readiness for the opening and have their clubs in prime condition.

Some indecision has been in evidence concerning certain provisions of the by-laws governing the league, and the directors were especially anxious to points in order to prevent the team from deviating from the regulations to be closely adhered to all through the season. The facts were noted and will be explained to all members of the league before the opening so there will be no confusion in evidence. Several other minor matters were taken up, including the forfeits, but these had no direct bearing upon the opening and consequently were handled in short order.

The opening of the league was designated for next Tuesday evening, with initial games being played by Washington and Greenville, in Greenville, Pinetops in Tarboro and Scotland Neck-Hobgood in Williamston. These games will be followed on Thursday by an observance of the regular schedule provided for the entire season.

Reports from all members of the association indicate that there is much enthusiasm in evidence for opening games. Practically all players have been signed up and practice has been in progress for several days. Most clubs with the exception of one or two have a majority of college players. This fact, with the strenuous training season, gives strong evidence for some splendid exhibitions throughout the entire season, and it is expected that each contest will be warmly contested.

Greenville is in splendid condition. The club has been in active training for several days, and Manager Lanier has been afforded ample opportunity for choosing his material and for that reason enthusiasts who have followed the club's activities until the present time are confident that the opening game will be one of the hottest contested exhibition of the season. The players have inherited the same spirit of optimism and confidence, so it is safe to say the game will be a good one.

SAYS PALMER HAD NO AUTHORITY FOR PRICE OVER SUGAR

Sugar Investigating Committee in Report Tells of Price Fixing.

Washington, June 2.—The sugar investigating committee, in a majority report presented to the House today, declared that Attorney General Palmer had used his power as chief prosecuting officer of the government "for the purpose of fixing maximum selling prices of sugar in Louisiana, and in so doing acted wholly without authority of law and in violation of his own construction of his official duty."

The report, prepared by Representative Husted, Republican, of New York, as chairman, charged that the legalistic method adopted by the attorney general was "wholly ineffective as a means of price control" and that "it gave apparent governmental sanction to extremely high sugar prices, which excited the cupidity of Cuban producers and caused an advance in the Cuban market."

Representative Whaley, of South Carolina, and Representative Summers, of Texas, Democratic members of the Judiciary sub-committee, which conducted the investigation, refused to sign the report and announced that they would file a minority report. Republican members, including Chairman Husted, who agreed in the findings, were Representatives Clason, of Wisconsin, and Boies, of Iowa.

Mr. Palmer insisted before the committee that he had not fixed sugar prices, but had merely stated the position of the department as to prosecution for profiteering—that Louisiana planters selling at more than 17 and 18 cents wholesale would be prosecuted under the Lever law.

To NORTH CAROLINA DEMOCRATS:

Gentlemen:—

For nearly forty years New Hanover County and the Cape Fear Section have had no representation among our Democratic State Officials.

In presenting Senator W. B. Cooper for Lieutenant-Governor, we offer a man fully competent and qualified to fill the position, one who has always voted the Democratic ticket. We ask you to support him, and protect his interest at the polls on June 5th, especially since the good County of Pitt has furnished our very efficient Secretary of State for many years, and no opposition is offered in the present primary.

One State official from Pitt and one from New Hanover would seem reasonable.

Try A Want Ad Once

John Humphrey Small

An Editorial Which Appeared in Last Week's Edition of The Elizabeth City Independent.

JOHN HUMPHREY SMALL

To the voters of the First Congressional District of North Carolina this newspaper says: When a better man than John H. Small appears, send that man to Congress and retire John H. Small. A better man than John H. Small does not appear on the political horizon at this time. Even the enemies of Mr. Small must concede that he is infinitely superior to that fellow townsman of his who is opposing him for the Congressional nomination.

Let it be admitted that John H. Small is not a big man in Congress. That much is to his credit. John H. Small would be a bigger man in Congress—as men are measured by the rule of practical politics—if he played the same as others have played it and licked the boots of the bosses. The fact is that John H. Small is respected in Congress and every door in Washington is open to his courteous knock.

Let it be admitted that John H. Small has been in Congress a long time. This is no time to throw out an honest, hard-working, courteous and faithful servant and install a jester in his place. The Hon. Hallet S. Ward would make an interesting spectacle in Congress in normal times when nothing mattered much. But these are serious times, and the stuff that Mr. Ward uses in entertaining bucolic juries in the First District would not go at all on the floor of the Congress of the United States today.

This newspaper would like to see this district represented in Congress by a red-blooded, liberal man. This newspaper would like to see this district represented by a man who would fight special privilege in season and out of season though it meant his political damnation. This newspaper would like to see this district represented in Congress by a man who would fight

for the restoration of the freedom of speech and the press and oppose every encroachment upon these rights. This newspaper would like to see this district represented in Congress by a man who would fight the monster militarism and all the evils that accompany it. This newspaper would like to see this district represented in Congress by a man who would be fearless enough to attack the Congress itself and work for those reforms in the organization of Congress itself which would make for a better and more representative government. Such a man does not appear. If Mr. Small will hesitate in being as aggressive as he should, H. S. Ward may be counted upon to be aggressive in the opposite direction. When Ward fights, he takes pains to fight something that will not fight back. When Ward raises a lot of dust it is when there isn't a street sprinkler or a stretch of lawn hose in the vicinity. H. S. Ward in Congress would fill the Congressional Record with a lot of blatant and semi-humorous speeches on Woman's Suffrage, Inland Waterways and the Holy Jumpers and the voters of the First District wouldn't even so much as get a packet of seed from him. Mr. Ward would be so busy making himself conspicuous, preening himself, airing himself and blowing himself that he wouldn't even find time to answer a letter from one of his constituents unless there was a fee in it. No one ever wrote John H. Small a letter, who did not get a reply; and no matter how unreasonable or how trivial your business may be, John Small will humbly drop whatever he has in hand and trot his legs off around Washington to get the thing done for you.

This newspaper has no idea that Mr. Ward will cut any considerable figure in the June Primary. At a time when the people are eager and anxious to hear any man who has anything

to offer them, Mr. Ward has come with a full mouth an empty head. He talks about the people being out of patience with Congress, but he doesn't explain why the people are out of patience with Congress, because he doesn't understand. He condemns Mr. Small for the years he has labored in trying to get an inland waterway through these North Carolina sounds and says we need roads worse than we need waterways. Mr. Ward does not tell us how he will give us more roads and fails to note that North Carolina is already getting more Federal money for road building today than most other states, wealth and population considered, only four other states standing ahead of us. Does Mr. Ward mean to say that he can jump into a Republican Congress in one ter mand get more roads built than any one else? If he means that then he is indeed a bigger fool than he appears to be—which may or may not be saying a great deal.

Some day John H. Small will be retired to private life, but not to make an office for Mr. Ward. The people of this district are not going to make that sort of trade. Most of us like H. S. Ward for his eccentricities, his abruptness, his erraticism and his mannerisms. These things are interesting in private life and help to enliven the monotony of a country court room; they have no place in the serious affairs of state. The world needs statesmen, not clowns. The times demands workers, not spouters of speeches.

For all of his conservatism and caution John H. Small will carry the large majority of Democrats in this district with him. In him are combined many qualities that are admirable. He is honest he is truthful, he is candid, he is loyal to his friends. His loyalty to his friends perhaps explains his unpopularity with certain elements in this district.

THURSDAY, JUNE 3, 1920.

There's one thing about the Socialists choice for the presidency, they will always know where to find him, and that much should be a matter of much consolation even though he is in prison.

Probably by this time some of those opponents to woman suffrage in Delaware are somewhat relieved in the comforting thought that the issue has finally been rejected by the state, but it might be advisable to remember that other states have got to give the matter consideration before the amendment meets with disastrous defeat.

Republican presidential candidates, as it is stated, have spent enormous sums of money in the south without getting any decided support whatever. The fact however, is nothing new for it is safe to say that only one candidate had an idea that he could take the state by storm, and by this time indications point to disappointment on his part.

The Republican convention in Chicago evidently thought it was going to be an easy matter to pick its preference for the coming presidential race, but since the big guns have been gotten in action it seems that practically all chances of selecting the right man has been set aside.

The almost continuous demand for advance in wages among laboring elements of the country is evidence enough that the situation continues to be as serious now as ever, although we are not faced by strikes such as those occurring the earlier part of the year.

FRENCH METHODS OF FORESTRY.

Since their European experience our ex-service men have new ideas of what forestry is and its value alike to the State and the people.

Those who have served in Southern France will remember the fire lines in the pine forests crossing each other at right angles every few hundred yards, kept clear to prevent the spread of occasional fires.

Many of our men have undoubtedly seen the reason for this and have determined that we can should adopt some of the French practices so far as they are adapted to our American conditions.

Colonel Joseph Hyde Pratt, Director of the North Carolina Geological and Economic Survey, will make a short talk on "What we can learn from French Forestry," and will then lead a discussion on this important question.

The state primary Saturday will be a notable day in this state, for people as never before are impressed by the fact that their vote is going to mean more to them than any other time in the history of the state.

majority. It is generally conceded that Harding is leading in the race for the office of lieutenant governor, and that his vote in the county will be unusually heavy.

There are only a few new candidates for office in the county. Opposition appears to be more noticeable for the office of county judge there being three candidates, and for solicitor of county court, sheriff, House of Representatives and the senate.

The Moline Mower is the only mower that I was able to cut this clover with, and I have tried them all. I consider the Moline Mower the best that is built. From the hall the guests entered the library where they were received and welcomed by Mrs. J. R. Moye and Mrs. F. C. Harding, and served punch by Misses Betsy Greene, Bessie Harding, Mrs. S. T. White and Mrs. Frank Wooten. This room was beautifully decorated with cut flowers and yellow tapers, carrying out the color scheme of yellow. From the library the guests passed back into the reception hall and were introduced to the receiving line in which were Mrs. M. D. Higgs, mother of the bride-elect, Mrs. J. B. Harding, Miss Elizabeth Higgs, Mesdames E. D. Bullock, William Gup-ton, of Rocky Mount, De Lane Car-son, of Salisbury, sisters of Mr. Winstead and Mrs. Henry Harding, of Washington. The hall was artistically decorated with sweet peas, pink roses and burning tapers. From the recep-tion hall the guests passed into the dining room where they were welcom-ed by Mrs. N. S. H. S. WARD WRONGLY ACCUSES JOHN H. SMALL

Mr. H. S. Ward, the opponent of Congressman John H. Small, in an advertisement makes an attack on the latter because a recent editorial in The Elizabeth City Independent was published in The Reflector yesterday, and accuses Mr. Small of having this done. The matter as published in this paper was done by friends of Mr. Small and without his knowledge. Wonder why Mr. Ward could not say something about the same editorial be-ing copied in the paper of his home town. He is proving himself unworthy the confidence or votes of the people.

Good Clothes a National Cash Register

You may be carrying only a medium weight balance in the First National or you may be fleece lined with the world's goods.

You may be patching your own blow-outs or planning a hike to Havana — but you are neither too rich nor too lean that you can afford to forego the influence of a good appearance.

If you have made a million in oil—look the part. If you haven't — look as tho' you had and perhaps you will.

We sell the clothing—the neat refined success coax-ing suits, hats and furnish-ings and we think enough of your progress to publish the above inside informa-tion.

ADVANCE GUARD OF REPUBLICAN PARTY LANDS IN CHICAGO

(By W. A. B. HEARNE.)
 A captured profiteer on exhibition would draw a crowd. Everybody is in-terested in the H. C. of L. Take an ar-ticle on the weekly budget—fish, for instance. The price of shad has risen some nine hundred per cent in a few years. If we hung the fish dealers by the neck until they were dead, dead, dead, as the court says, we would still be paying a high price for shad. But there is a way to bring the price down. Provide enough shad to go round and satisfy the demand.

It takes a chicken egg to make chick-en; and it takes a shad egg to make a shad. To get shad eggs where they will produce shad the fish must be al-lowed to reach spawning grounds, Shad, salt-water fish, lay their eggs in fresh water, up the rivers. Oh, every-body knows that. But we have acted as though we didn't know it. We have allowed a system of netting that op-erates twenty-four hours a day, seven days a week, that stops practically every shad that starts up te river. We are not dealing fairly with the fish, with ourselves, nor with those to come after us.

I don't love a profiteer any more than you do. I don't like a Dutch net, nor any other contrivance that means the extermination of a great natural resource. There is some sort of ex-cuse for a fellow who takes a big price. It is yielding to a temptation that calls mighty hard sometime. But I can't think of any extenuating cir-cumstances for us who are allowing the shad to follow the buffalo and the wild pigeon.

If the people will show a little in-terest the next legislature will do something to save the shad. Or would it be better to let John do it? Or shall we leave the whole matter to a special dispensation of Providence?

SPLENDID EXHIBITION AT COLORED GRADED SCHOOL

Yesterday at the colored graded school, one of our reporters had the pleasure of witnessing one of the best exhibitions ever shown in the school. It was a credit to the school, the teachers and the pupils. The sewing was beautiful and well done. In the cook-ing department the young girls have been taught to cook, and the things which they had made would tempt the appetite, cakes, pies and other good things to eat were on exhibition. In the basketry works could be seen the signs of great skill at this kind of work.

There will be no graduating class this year. Iva McDonnell has had charge of the music department and Bertha McDonnell the domestic science class. Prof. Epkes has accomplished a splendid work this year.

Do Your Feet Hurt?

From our daily observa-tions we find that there are perhaps seven or eight persons out of ten who suffer with some kind of soreness in their feet; and a great many people be-lieve they have rheuma-tism, and, also, according to their ideas, they spend money for various lini-ments and other treat-ments in order to get re-lief. But, in our observa-tion, as we come daily in direct contact with their foot troubles, we find that most of their troubles is in their arches or across the ball of their feet.

We could tell you right here what causes your trouble and offer you also a remedy, but since we made arrangements with a foot Specialist to come here at great expense we prefer to let him demon-strate to you the facts of your condition. It will not cost you a cent for exami-nation. All we wish to do is to demonstrate as shoe men, our ability in this line and if you do not care to be cured, it will not cost you anything for the ad-vice.

Perhaps your shoes have helped to bring this trou-ble on, but the shoes are not to blame in all cases, and this is what this spe-cialist will tell you, why you suffer and what causes your trouble.

In justice to yourself don't forget the date next week, 9, 10, 10 and come in.

Belgian Veterans Band On Tour

Composer of "Birth of a Nation" Music is Director

Marital music by veteran soldiers; One's blood fairly tingles in anticipation. Some way the martial spirit in music thrills and sways an audience as little else does.

Marital music by a Belgian Veterans' Band! One thinks of heroic Belgium blocking Germany's road to the sudden victory she had planned; of Belgium holding vast armies at bay while the allies could leap to arms; of Belgium ravaged, burned, devastated, suffering as few nations have suffered; of the soul of Belgium too honorable to yield, willing to endure martyrdom rather than compromise with militarism and oppression: And in the martial music of this band there is that unconquerable, uncompromising soul of Belgium surging in heroic devotion, crashing in sublime protest, sobbing in heartbreaking pathos, and at last singing its psalm of triumph.

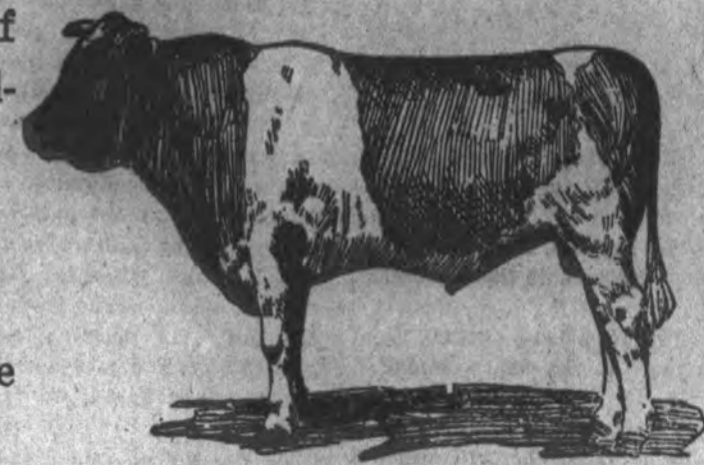

Emile Michaux, the talented director, is, like most of his men, a veteran of the Royal Belgian Army, of one of whose bands he was a member. He has more than sixty meritorious musical compositions to his credit, a few of which will be played at Chautauque. American audiences will be interested in the fact that he composed the distinctive and remarkably effective musical accompaniment for the famous "Birth of a Nation" movie film.

Directed by this musical genius, the Belgian Veterans' Band will render not only the greatest musical offering of the week, but also the most elaborate musical treat ever presented to Chautauque patrons. The program will not be devoted entirely, nor perhaps principally to martial music, but will include selections of all kinds ranging from the popular to the classic. There will be numerous special features, including a cornet solo by M. Michaux, horn duets, quartets, and sextets, beside the great arias sung by Miss Florence Withrow, the American soprano whom M. Michaux has selected and coached especially for this tour.

The Third Day is Band Day—Belgian Veterans' Band Day. Don't forget it.

A Million Dollar Bull

Here is shown the King of the Royal Family of Holsteins—

"Rag Apple Korndyke 8th."

"The Greatest Bull in the World."

A Dominant, history-making sire, and the founder of a record-breaking family, which, in the past four years, has brought more than \$1,000,000.

Three years ago the owner of this bull, Mr. A. W. Green, of Middlefield, Ohio, was just an ordinary farmer, with an Idea:— It was this—that there is a dividend in good blood, and he went to work demonstrating it.

Today Mr. Green is known as the greatest breeder of Holsteins in America, and he proves it by bringing to the live stock world richer blood and more of it.

What Mr. Green did is only typical of what any farmer in this county could do.

Let us have some "Green Success" and some "Rag Apple Parallels" in this county.

There are just two things necessary to make like stock a success—a desire and the money. Bring your desire to us—we have the money.

FOR COUNTY COMMISSIONERS.
We the undersigned commissioners announce our candidacy for re-election to the office of county commissioners, subject to the Democratic primary.
H. V. STATON,
J. J. ELKS,
R. L. WORTHINGTON,
DR. W. W. DAWSON,
S. T. WHITE.

ANNOUNCEMENT.
To the Democratic voters of the Fifth Judicial District:
I have entered the Primary for the office of Judge in this District.
I have practiced law for the past 18 years, during which time I have assisted in the prosecution of the Federal docket for about 7 years. Since entering my name for the judgeship I have resigned the office of Assistant U. S. attorney.

Before beginning the practice of the law I had fourteen years experience in business, beginning life as bank book-keeper at the age of 16 years.
I shall not make a canvass of the district for the Judgeship. My conception of the duties and responsibilities of the high office of judge is such that in my view a canvass, and the methods of the political campaign, usual and perfectly proper for other offices—purely political, tend to cheapen and lower its tone. I would rather lose the nomination and never hold the office than lower it a hair's breadth from the high plane of honor and dignity on which our fathers have played and kept it in North Carolina.

I shall appreciate the support of all democrats in the district; and if by their sufferages I should be elevated to the Superior Court bench, I assure them that its high traditions shall be upheld, and in the administration of the office justice shall be meted out to all men alike.

This April 28th, 1920.

Noted Speaker to Address Conference on Christian Spirit in Industry

Atlanta, Ga., June 3.—(Special)—A special course on the Christian spirit in industrial relations, to be delivered by Rev. Samuel McCrea Cavert, of New York, is announced for inclusion in the program of the Blue Ridge Missionary Education conference to be held at Blue Ridge, N. C., from June 23 to July 5. Dr. Howard T. Cree, the conference secretary, today made the announcement.

Rev. Cavert, who is assistant secretary Federal Council of churches, is one of the leading authorities on his subject in the American churches, and has devoted many years to industrial problems. The question of industrial relationships enters so deeply into home mission work in the larger urban centers that the subject will be one of the most important to be presented at the conference, especially during this time of industrial unrest.

More than half the space available for delegates has already been reserved according to Dr. Cree, with the date of the opening almost a month distant. Indications point to a record enrollment.

MORRISON IS SELF-MADE, BUT WELL MADE

Fought a Glorious Fight for the Cause of White Supremacy in North Carolina in 1898-1900 in Company With a number of the State's Greatest Leaders and Statesmen.
The State has shown its gratitude by giving to a number of these conspicuous leaders the highest offices in the gift of the state.

MORRISON The Thanks of the People

Even some of the younger group of Democratic leaders have been generously rewarded by continuance in high office.
North Carolinians are not ungrateful, and the time has come when they will pay their debt to the statesman of 28 years valiant service to the Democratic party of the state. Public opinion is moving like a tide in support of

CAMERON MORRISON

and for the following reasons it cannot be swept back:

- As a clear thinker on public questions, he is without a superior in North Carolina.
- As an Orator he probably has no equal since Aycock.
- As a bold champion of what he believes to be right, regardless of consequences to himself, he is unsurpassed.
- He has been one of the guiding hands in framing the policies of the Democratic party in North Carolina, which have brought us such marvelous prosperity.
- You can always tell where Morrison stands on every public question.
- For more than twenty years he has devoted himself to public affairs and to upbuilding of North Carolina, without asking for political office.
- Morrison has given more time and thought to public questions than any other man of his State.
- Morrison is a candidate for Governor in response to the demand of thousands of the solid and clear-headed farmers and business men, who realize that the times demand a strong man.
- He was originally opposed to Woman Suffrage, and his record in the White Supremacy campaign is sufficient to guarantee that he will safeguard the State against negro women voters.
- He has declared himself in favor of keeping down taxes and Constitutional Amendments to that end.
- He is in favor of a wise revision of the Revaluation Act.
- He has declared himself in favor of universal education and better pay for teachers.
- Morrison has declared for a scientific system of good roads to connect the various parts of the State.
- Morrison is heartily in favor of local self-government for towns, cities, and counties.
- He is opposed to class legislation of all sorts.
- Morrison's record shows that he is free from all control by special interests.
- He is opposed to Socialism in all forms, and to the socialization of business by whatever name called.
- He has given years of thought to the development of country life, and one of his great aims will be the improvement of rural conditions.
- He is a wise, generous, experienced Democrat, qualified in every way for the great office of Governor.
- His friends are rallying to him by the thousands. His manager's office is besieged every day with requests for him to speak. He is growing stronger every hour. If nominated, as he will be, he will meet his Republican opponent, and no Democrat need fear the result.

American Interests, However, Will be Given First Choice of Ships.

Washington, June 2-While giving American shipping interests preference in the acquisition of government owned tonnage, merchant marine legislation as agreed on today by Senate and House conferees would authorize the Shipping Board to sell vessels to foreign interests should "diligent efforts" to dispose of the craft in this country fail.

Sales to foreign concerns, however, could be made under the compromise bill on a vote of five of the seven members of the Shipping Board.

The legislation as agreed on would direct the sale of the government-owned vessels "as soon as practicable with good business methods," but no time limit for the sale is fixed. Pending sale of the ships, the board would be authorized to charter them to American concerns.

Consideration of the conference report will be taken up in the House tomorrow and following expected adoption, will be called up without delay in the senate in an effort to secure final action before the expected adjournment of Congress Saturday.

WHY VOTE FOR PAGE

Hon. Robert N. Page for Governor—A balance wheel for business.

You owe it to the Democratic Party to nominate for Governor a candidate who will elements of the party can support without reservation. Mr. Page has embittered the friends of no candidate, and won the respect of all men.

A Business

Man For Governor

NINE CLEAR REASONS WHY YOU SHOULD VOTE FOR ROBERT N. PAGE.

Mr. Page is the only candidate for Governor who has declared for changing the date of tax-listing for farmers back to May 1st.

TO THE DEMOCRATS OF NORTH CAROLINA

When you go to the polls next Saturday, June 5, I hope you will make up your mind beforehand that you are going to mark a ballot for ROBERT N. PAGE for GOVERNOR—and that you are going to do so regardless of any pressure that may be brought to bear by politicians working for other candidates.

I ask you to do this simply because I believe Mr. Page is the best man for Governor—and for reasons which I submit to your own thoughtful consideration and judgment. Here are nine definite and explicit reasons why I believe this:

1. Mr. Page tells where he stands. He started out by announcing a definite platform for State progress and development and he was the first candidate to answer frankly and explicitly the questions asked by the organized farmers and laborers of the State. Governor Bickett answered such a questionnaire four years ago; so did Mr. Daughtridge. Mr. McAdoo has just answered such a questionnaire. So have Mr. Hoover and other presidential candidates. Mr. Page has never dodged any request for his views on public questions.

2. Mr. Page proposes to make economy and efficiency the keynote of his administration. North Carolinians now pay several million dollars a year in taxes. Any other great business having such vast expenditures would get the wisest judgment of organization experts as to how best to promote efficiency and economy in every line. If elected Governor, Mr. Page promises not only to give his own time to this end, but to employ the country's best experts to help him. Our systems of county government can also be made much more economical, and Mr. Page will formulate an advocate policies to this end.

3. Mr. Page has the training needed to make his program a success. As Mr. J. Z. Green says:

"He began his business career when his enterprising family was seriously embarrassed by debts due to the general poverty of the South, and it was only after years of labor with both muscle and mind, on the farm and at lumber camp, that Mr. Page at last achieved his business success. He knows what it is to toil, knows the work and sweat back of a dollar, and in the great task of administering our State government and its millions of dollars in tax money, he will carry out his pledge to 'make efficiency and economy the keynote of his administration.'"

because his training fits him for this task. The life-training of the other two candidates has been as lawyers. Without any reflection on

that worthy profession, will not such training as Mr. Page has had better fit a Governor for the great business of administering the State's business the next four years?

4. He has the best program of rural progress—and this interests city voters also. He has been all his life an advocate of rural progress—good schools, good roads, better marketing methods, and all the other agencies needed for the development of North Carolina farming. As he has well said: "Unless country life is made more attractive, the continual migration from the rural sections to the cities will inevitably result in such underproduction that there will be undernourishment and suffering in the cities."

5. As Mr. J. Z. Green says: "Mr. Page has no political machines back of him. He has relied not on lining up leading politicians at every county seat but on direct appeal to the farmers and voters of North Carolina."

6. He has conducted a clean campaign. He has not played the demagogue before the people, but has met every issue courageously and he has always opposed the use of money in politics. "Men will not buy votes if they cannot see them delivered," and Mr. Page favors the secret ballot as the most effective remedy for political corruption.

7. His platform on taxation is the soundest proposed by any candidate. He advocates (1) larger inheritance and income taxes, so as to put a larger proportion of the tax-burden on those most able to bear it. (2) Favors lower tax rate on homes occupied by owners, so as to encourage home-ownership and discourage absentee landlordism. (3) Favors raising State revenues by inheritance, income, and corporation taxes so that real and personal property would be taxed only for county and local purposes and to insure an ample school term for all rural districts. Favors changing tax-listing date for farmers from January 1 back to May 1 as formerly.

8. He is not a factional candidate but would unify all elements in the party. One of Mr. Page's opponents is running with the widely-advertised endorsement of ex-Governor Kitchin, the other candidate as the favorite of Senator Simmons. Factional lines are being sharply drawn. Is it not the duty of all Democrats who place the good of the party above faction to unite on Mr. Page—a man whom Simmons men and Kitchin men alike acknowledge would make a great Governor and who is objectionable to neither faction?

9. Last but not least, Mr. Page is a man of highest character. No breath of suspicion has ever been uttered against him. Free from cant, pretense or hypocrisy, the simple dignity, honor and uprightness of the man have won him honors both from State and church.

IF THESE NINE REASONS FOR SUPPORTING MR. PAGE convince you that he should be our next Governor, then I repeat that you should make up your own mind beforehand to vote for Mr. Page and let no paid or unpaid workers for other candidates prevent you from doing so.

More than this, you should SEE YOUR NEIGHBORS and get them to go to the polls and vote for Mr. Page. He has no political machine behind him. No powerful corporation influences are supporting him. He is also opposed to the use of money as a means of getting the nomination, and the law also forbids it. To you and to all other independent voters therefore he makes this direct appeal and ASKS NOT ONLY FOR YOUR VOTE BUT FOR YOUR SERVICE IN GETTING OUT OTHER VOTERS IN HIS BEHALF.
