

WILSON WILL NOT PERMIT LANDING OF CABLE IN FLORIDA

Four Destroyers Patrolling Miami Entrance to Prevent Landing Of Wire BRITISH SHIP DUE TO ARRIVE DURING DAY Government Wants to Prevent Establishment Of Monopoly By Britain

MIAMI, Fla., Aug. 5.—The British cable ship, Colonia, chartered to land a cable line from the Barbadoes here, will not enter American waters until permission is granted by the State Department. The British ambassador telegraphed the vice-consul here to keep the ship outside the three mile limit until further orders. President Wilson ordered the navy to prevent the landing of the cable.

WASHINGTON, D. C., Aug. 5.—Four destroyers are patrolling the entrance to the Miami, Fla., harbor under orders from President Wilson to prevent, by force if necessary, the landing of a cable the Western Union Telegraph Company is having laid from Barbadoes, a British possession in the West Indies.

A British cable ship, the Colonia, has been chartered by the Western Union Telegraph Company to land the American end of the cable which would connect with a British cable line from the Barbadoes to South America. At the State Department it was stated today that the British embassy had been asked to inform the master of the ship that such a landing would be in violation of American law. Officials explained that there was no significance in the fact that the vessel was British; that she probably was the only cable craft available to the American company when she was chartered.

Work on the cable line from Barbadoes was begun last summer. Some time ago the Western Union Telegraph Company applied to the State Department for an executive permit to land the wire at Havana, but officials said action on it had been delayed pending the holding of the international communications congress called to meet in Washington September 15th. A British cable company, it was explained, now has a monopoly of cable rights in Brazilian waters. An American concern desires to construct a direct cable line from the United States to Brazil, and it was stated that the American government desired to know, before issuing the permit to the Western Union Telegraph Company whether the arrangement entered into by that company with the British concern, the Western Cable Company controlling the line from Barbadoes to Brazil would add to this monopoly.

NEW YORK MAYOR RESTRAINED FROM BARRING REPORTER

New York, Aug. 5.—The press is the lever that moves the world as no other earthly power could move it, said Supreme Court Justice Faucette in Brooklyn today, when he continued the preliminary injunction granted in favor of a Brooklyn newspaper, restraining Mayor Hylan from banning from the reporters well in the board of estimate chamber a representative of the paper with whom he had a difference. "The press should not be hampered while in the lawful pursuit of gathering news, or interfered with while honestly disseminating really important information for its readers," Justice Faucette ruled.

THREE PERSONS ARE KILLED IN STREETS OF VALENCIA, SPAIN

Madrid, Spain, Aug. 5.—Count De-Salvatierra, former civil governor of Barcelona and wife were seriously wounded, and Marquis De La Jares was killed in Valencia by five men firing into their carriages. The minister of the interior says the assassins were trade unionists.

Sergeant-at-Arms of the Democratic convention.

SHORTAGE OF FOOD IS GRAVE QUESTION IN JAPAN DISTRICT

Gravity of Situation Heightened By Annual Increase in Population

SITUATION INTENSIFIED BY SHORT PRODUCTION

TOKIO, Japan, Aug. 5.—The gravity of the food question in Europe finds its echo in Japan where the problem of how to feed the population, which is increasing annually by 600,000, is becoming yearly more pressing. Japan has ample living space for its people but cannot produce enough food for them, especially rice. Every bit of land is cultivated to the limit of its capacity. The land of Formosa, the island colony, is worked to its full capacity by the two million Chinese farmers who cultivate the rice fields with great skill. In Korea, also, the grain harvest is considerable, though the failure of the Koreans to use fertilizer prevents greater harvests. To meet the food menace Japan, by a special arrangement with France, is making heavy rice imports from Indo-China. This is a costly operation, however, the Japanese government losing \$20,000,000 last year in supplying Indo-China rice to the Japanese people at a moderate price.

A solution to which the government is turning its attention is that of inducing the people to eat less rice and more wheat, because of the great wheat fields of Manchuria which would be ample as a food supply, if the people would eat wheat. The enormous output of Manchuria is handled by the South Manchuria railway which, at the same time transports yearly some 300,000 Chinese coolies from Shantung province to Manchuria, where they labor in the rice lands of the northern province. Siberia is the great belt extending south from Irkutsk and Omsk is a wonderful grain field, if regularly cultivated, capable of helping in the solution of the world food problem.

DAYTON TAKING ON HOLIDAY GARB FOR NOTIFICATION DAY

Dayton, O., Aug. 5.—Democratic leaders are enroute here for Cox notification ceremonies to take place Saturday. Hotels are filling up fast and the entire city is taking on a holiday garb. Dayton residents have been asked to throw open their homes to care for the expected throngs, and every provision will be provided for those who arrive rather late.

We can make immediate deliveries on Buick automobiles. Hines Bros. Motor Company.—Adv.

PLANS TO PREVENT SHIPPING EXPERTS DISPUTE IN LABOR REPORT SHORTAGE MAKING PROGRESS OF BOARD'S FUNDS

State of Washington Reports Shipping Board Representative Excellent Progress Along This Line Now SAYS "Systematic Fleecing" in Progress AMERICAN INTERESTS DEFRAUDED OF FUNDS COMMISSION GATHERS DATA ON LATE STRIKE "Shipping Board is Rich," They Say; "We'll Get What We Can Now"

TACOMA, Wash., Aug. 5.—Progress is reported in the movement in the state of Washington to devise a better way to settle industrial disputes than through strikes and lockouts.

The Washington Industrial Code Commission for more than a year has been gathering data from employers and employees to be used as the basis for a new law to be presented to the state legislature when it convenes next January. The Commission was instructed to frame a law which will settle disputes between capital and labor without recourse to the cumbersome weapons of the past that so often work a hardship on the public at large.

Before the law is written this fall the Commission plans to give a hearing to every person in Washington who thinks he has a solution and will have studied the statutes of every state in the union that has attempted to better the relations between labor and capital. Already hearings have been held in most of the larger cities of the state and the Commission made a special trip to Vancouver, B. C., where labor leaders and employers were met and where the Canadian Industrial Disputes Act was thoroughly studied. (Continued on page eight.)

BUENOS AIRES, Aug. 5.—The United States Shipping Board has been defrauded of many thousands of dollars through practices which amount to "systematic fleecing" of Shipping Board vessels in the River Plata trade, according to reports to the board by Captain G. L. Carden, special representative of the Shipping Board Emergency Fleet in Buenos Aires.

Captain Carden, accompanied by Captain of Engineers L. C. Farwell, arrived here a month ago to take charge and protect the board's interest. "When I arrived here," he said to the Associated Press correspondent, "ship chandlers, repairmen and others connected with the shipping industry seemed to be in a general agreement to unlet the Shipping Board vessels to the limit."

"The Shipping Board is rich," they said. "We will get what we can." Accordingly the board was charged for things not received, and overcharged for things received until it became so obvious that I was ordered to this port to take charge. In receiving my orders I mentioned that while the board's expenses of all sorts were high in Buenos Aires (Continued on page eight.)

Poland Accedes To Red Demand For Conferences

JAMES A. REED

United States senator from Missouri.

COMMISSION WILL MEET AT MINSH TO HALT HOSTILITIES

Bolshevik Troops, in the Meantime, Are Rushing Toward Polish Capital SAYS SOVIET FACTION CONCLUDED A SILENT TREATY WITH HUNS Secret Pact Provided Provision For Conquering of Poland By Russia

WARSAW, Aug. 5.—Poland has decided to accede to the Bolshevik demands for a peace conference at Minsk, and the Polish armistice commission will go there in an attempt to halt hostilities.

In the meantime the Bolsheviks are rushing toward Warsaw at the rate of six miles per day. They are being held back in the south, however, and some divisions are being pushed back from districts east of Lodz. American aviators with the Poles are fighting along the Serath river. Warsaw is being shelled by American and other foreign residents. The Russians are only 55 miles from Warsaw, reports indicate.

LONDON, Aug. 5.—The Evening News says the government is considering the mobilization of the navy, but the cabinet is not yet decided. The same paper says the British may have to call for volunteers during the next few days to aid in the preservation of the Versailles treaty, and that large quantities of ammunition will be sent to Poland immediately.

SAYS REDS HAD SECRET TREATY WITH GERMANS

LONDON, Aug. 5.—The Soviets concluded a secret treaty with Germany, says a London Times correspondent, who claims to have received information on the excellent authority. The treaty is asserted to claim production of Russia conquer Poland, many who vacate it in favor of Germany which would hold the country with guarantee against future credits to Russia. It is said that Russia is now trying to avoid the terms of the treaty by creating a Polish-Bolshevik army.

DIPLOMATS CONCERNED OVER POLISH SITUATION

LONDON, Aug. 5.—British officials and diplomats of other nations feel undisguised anxiety concerning the Polish situation. One high official said that "the situation is as grave as it was in 1914."

Leo Kamenoff, president of the Moscow Soviet, is reported to have sent a message to his government, asking Russia to accept the original British proposals for the armistice with Poland.

GREAT BRITAIN TO SEND 2 DIVISIONS TROOPS TO AID

PARIS, Aug. 5.—Le Matin says that Great Britain has taken steps to mobilize two divisions of troops for service in Poland.

SUFFRAGE FORCES CAUSE REPUBLICAN FACTIONS TROUBLE

Candidate Harding Refuses To Take Further Steps in The Tennessee Fight

MARION, O., Aug. 5.—Senator Harding has sent a telegram to the chairman of the Tennessee Republican Suffrage Committee, urging immediate ratification, and to Mrs. Carrie Chapman Catt, saying he is not discouraged over the Tennessee outlook.

WASHINGTON, Aug. 5.—Republican leaders are beginning to quarrel among themselves and with Senator Harding over the suffrage ratification outlook in Tennessee and the refusal of the party nominee to exert further influence for ratification.

The headquarters of the National Woman's party announced tonight that alarm over the suffrage ratification situation in Tennessee, and reported defections of G. O. P. members, have caused Republicans to send renewed appeals to Senator Harding to intercede. This Senator Harding has declined to do.

It begins to look more and more that North Carolina will have to save the "suffrage bacon" if it is saved before the November elections.

"Senator Harding, however, continues to refuse to exert his influence," complain the suffragists. "In response to a telegram from the Harding and Coolidge Republican League of the District of Columbia, pointing out the difficulties in Tennessee and urging him to appeal to Republicans of the legislature, he wired:

"You can understand why I cannot consistently urge Tennessee legislators to vote for ratification without knowing their reasons or such commitments as they have made. The situation is being reported to National headquarters, where it will be given attention at once."

BLACK CREEK BANK ROBBED OF \$12,000 IN LIBERTY BONDS

Robbers Steal Bonds and Make Get-Away, Leaving Money Box Abandoned

From ten to fifteen thousand dollars in Liberty Bonds were stolen from the bank at Black Creek, N. C., last night by robbers, who completely emptied the large time vault of its contents and then made a safe escape in the direction of Goldsboro by automobile. The box containing hundreds of dollars was lifted bodily from the vault and carried out into the street, but its large size and great weight caused the robbers to abandon it completely, leaving without securing its contents.

Chief of Police Jones of Greenville this morning received a telegram from Black Creek authorities, requesting him to warn local banks to be on the lookout for the bonds taken in the robbery there, and to preserve continued vigilance for their probable appearance in this section of the state. The telegram did not state how much was taken in the haul, but a telephone message from Wilson later in the day placed the loss at about \$12,000.

No information as to the identity of the persons implicated in the robbery had been secured by the authorities up to a late hour this afternoon, but it is believed they headed directly for Goldsboro immediately after leaving Black Creek. A farmer, curing tobacco near the main road a short distance from Black Creek, declared that he saw a Ford car pass his barn going toward Goldsboro between one and two o'clock last night, and that it was running at an unusually rapid rate of speed, as if to escape from some one in pursuit.

Authorities believe that this car contained the men connected with the robbery, and as a result a vigorous search is being instituted in the vicinity of Goldsboro and Wilmington.

ANNUAL CENSUS OF SEALS WILL SHOW DECIDED INCREASE

Bureau of Fisheries Predicts Increase in Industry For Score of Years SAYS INCREASE SHOWS TEN PER CENT YEARLY

WASHINGTON, D. C., August 5.—The annual census of the seals, now being taken by the Bureau of Fisheries is expected to show about 600,000 of the animals, or three times as many as when the government undertook the custody of them a half score years ago.

Although the seal spends much of its life at sea, its habits make the census-taking comparatively easy. Hugh M. Smith, commissioner of the Bureau of Fisheries, explains the "count of noses" is of importance to prevent "blind killing" of the animals for their furs, possibly resulting in their extinction. Under present government control, Mr. Smith asserts that the seals are increasing about ten or 12 per cent of their number annually. Last year's count showed 350,000 of which 20,000 were killed for their pelts.

In the middle of the Bering Sea, lying 40 miles apart, are two islands—St. George and St. Paul—the only land to which the seals ever resort. Every spring they visit the islands to raise their young, leaving in the fall to winter the north Pacific, and it is during the summer that the census is taken.

The killing of the animals is also done in the summer, this under law being confined to the surplus males. Last year lack of labor resulted in 10,000 fewer animals being killed than government officials had planned. Japan and Great Britain, along with the United States, share the revenue produced from the seal-kill, a treaty giving this country seventy per cent of the animals, with the other two countries each receiving 15 per cent.

POLICE APPREHEND THE KIDNAPPERS OF NORRISTOWN BABY?

Philadelphia, Aug. 5.—August Pascol, of French and Italian extraction, is the kidnapper of Baby Coughlin, of Norristown, Pa., and is bartering to exchange the child which officers say he admits is in hiding in Atlantic City, for his freedom. Pascol was placed under arrest at New Gretna.

Senator Harding has said enough to convince people that he has nothing important to say, so what he will say in the future cannot possibly receive more than ordinary attention.

Senator Harding eventually will be impressed by the fact that not everybody likes the idea of visiting his front porch. In fact, it is apparent now that there is much uncertainty in the air which may soon develop into decided aversion to that kind of campaigning.

Sensational developments in the wheat market are about as surprising as such things usually are, but the public will be more agreeably surprised when they hear of commodities taking a decline.

If the government will receive a hundred million dollars as its proportion of the rate increase of American railroads, it really looks like the railroads are going to do some figuring to prevent another demand in the near future. Uncle Sam must have his, and if the public is forced to bear the brunt of the issue, it is gratifying to vote that the government will get its share too.

The announcement that Ty Cobb, veteran ball player, will take the stump in the interest of Cox and Roosevelt assures the public that followers of the baseball fraternity will line up for Democracy. If such a man as Tyrus Raymond Cobb believes that the Democratic candidates are the right ones for the White House, then everyone else should feel that he is capable of making decisions about as quick as he does when facing a pitcher with the Detroit Americans—and he generally figures things out right at the bat.

The revaluation tax issue appears to be receiving favorable attention in communities which have already had an opportunity of really witnessing the increased value of property brought about through a correct filing of taxes. Wake county has just reported double value in real and personal properties, other sections have done the same, so it is perfectly natural to anticipate much good from the issue after all. Each community should co-operate with those determining property value, for in this way the state's real greatness and resources will be presented to the outside world in much more comprehensive form.

It's a pity that a discussion of woman suffrage cannot be conducted principally upon its merits, for if this were so the country would be much better informed regarding the issue than it now is. There are many persons endeavoring to defeat women's opportunity for enfranchisement, and they are employing means detrimental to themselves as well as to the object of their attack. There is nothing being left undone by the "antislaves" that would in any way detract from the chance of victory, but after all, suffrage is daily gaining support from many unexpected sources, and there is a strong probability that the amendment to the national constitution will be ratified. North Carolina and Tennessee are two states in doubt, but it is believed when Governor Cox comes out more directly in the interest of the issue that sentiment will undergo even a greater change than ever. The situation deserves consideration of those intensely interested in the future of the country, for support of women in their effort for recognition should be appreciated and heartily approved.

association are so favorably impressed with provisions of the peace treaty with Germany and the League of Nations that they can come out and publicly recommend acceptance by the American people, it really looks like the ordinary citizen might have time to do the same. The fact is, it is essential to the entire country that the treaty of peace receive favorable action at the earliest possible date, for other countries have signed and are waiting on America's action before feeling confident of ultimate success. Both issues should be ratified without amendments for present provisions are acceptable to other countries and should be equally so to America.

Combined efforts of all nations must be so forcibly asserted that future war and devastation shall become a thing of the past, and every force and energy directed for more constructive forms of government. The League of Nations can bring about wonderful changes in every territory when functioning with the influence of the United States, for our influence has been acknowledged and people naturally look forward to us for leadership. The sooner both matters are closed, the better it will be for all parties concerned, and particularly to Americans who have watched developments so interestedly for the past several months.

The report just presented by the county board of health in regard to the typhoid fever situation in this county is most pleasing, for it shows plainly that those who took necessary precautions against the malady by being vaccinated have passed through one of the worst parts of the year, without being affected in the slightest sense of the word. If every person would regard warnings sent out by the health department from time to time, there would not be near so much sickness and the entire section would profit to a greater extent than most people seem to think. Dr. Chester, director of the county health department, is doing everything possible in preventing sickness of every kind, and if the people would only cooperate with him more fully it is safe to say there would be very little illness throughout the entire year. The department has done remarkably well for the past several months, and it is to be hoped that those who appreciate its work will do everything possible to assist in the future.

The movement now on foot to have schools of the state teach more state history is one that should receive attention everywhere, for there are many historical features connected with North Carolina's development and industrial progress that ought to be interesting to the young student of the present era. The Tar Heel state has established an enviable record in almost everything of public interest, and its early growth and expansion into one of the most prosperous states of the Union shows conclusively what has been accomplished since the destruction of life and property during the Civil war. It is to be hoped that the schools will more fully consider the importance of the history of their own state for in this way the student will receive additional impetus for future activities and be among those who, in the future, must mold the state's destinies.

Senator Harding may be bidding for the labor vote, but bidding and getting are different altogether. He stands very little show with the laboring man, for the simple fact that his platform gives very little encouragement for the future, and fails completely to show in a direct way where the laboring class of people will be profited by voting the Republican ticket. The Democrats haven't met every demand presented by the party, but they have said enough to justify laboring men in believing that their business will be the nation's business also. President Wilson has encouraged this spirit of confidence and it is easy to believe that it will continue to be as much in evidence in the future as in the past.

North Carolina, Pitt County
Julia Baker
vs.
J. E. Baker.
In Superior Court, August Term 1920.
The defendant above named will take notice that an action entitled as above has been commenced in the Superior Court of Pitt county by plaintiff to obtain an absolute divorce from the defendant, and the defendant will further take notice that he is required to appear at the next term of the superior court of Pitt county to be held on the 3rd Monday in August, 1920, at the 10th day of August, 1920, at the court house of said county in Greenville. This 13th day of July, 1920.

WILL BE INVOLVED IN RATE ADVANCES

**Treasury Expects This Amount
To Go To Government
Because of Increases
EXPECTED INCOME TO
COME FROM TAXATION
Transportation Taxes Last Year
Amounted To A Quarter
Billion Dollars**

WASHINGTON, D. C., August 3.—Increased revenues officially estimated at \$100,000,000 annually, will accrue to the Treasury as the result of the advance in transportation rates allowed the railroads. The added income for the government, officials said tonight, would be derived from increased transportation taxes which are paid by the public as well as through operation of the income and excess provisions of the revenue laws.

Transportation taxes for the fiscal year ending June 30, aggregated approximately \$231,000,000. This sum was made up from the 3 per cent tax on freight charges amounting to \$125,000,000, the 8 per cent tax on passenger tickets supplying \$100,000,000 and the 8 per cent on Pullman charges producing \$6,500,000.

Should railroad traffic continue at its present volume all of these amounts would be increased correspondingly with the advance permitted by the Interstate Commerce Commission in its rate decision last Saturday. On this basis officials of the bureau of internal revenue calculate the additional taxes will aggregate \$38,550,000 on freight, \$18,700,000 on passenger and \$3,500,000 on Pullman charges.

Another source of revenue would be from income taxes levied against the railroad corporations. Railroad executives expect many of the carriers to earn sufficiently large returns under the new rates to compel the payment of income taxes for the first time since pre-war days. It is from this source that the treasury expects to obtain a large portion of the remaining

What Is the best Occupation For Your Daughter

A man in the employ of the U. S. Government, whose two daughters have made telephone operating their profession, said: "If I had ten daughters, I would want all of them to be telephone operators. Aside from the fact that they work under the direct supervision of women only and that every provision is made for their comfort, the training they receive is a great developer of tact, resourcefulness and initiative."

Telephone operating is more than a job. It is a young woman's profession and the work is essentially a woman's work. At the present time it offers unusual opportunities for advancement.

In most young women's professions months of preliminary training are necessary at the learner's expense. But in telephone operating the beginner pays nothing for her training. On the contrary, she is placed on the pay-roll as soon as she begins the brief course of instruction. Her salary is increased at the completion of this course and thereafter at regular and frequent intervals.

Some of the features of the work are: Good salaries from the start; permanent positions; regular and frequent increases; special opportunities for promotion; high grade, cleanly work; congenial and carefully chosen associates; light and airy central offices; comfortable recreation rooms; annual vacations with pay, and sick benefits and pensions without cost.

If you have a daughter who would like to apply for a position as telephone operator, or know of another young woman who may be interested, we shall be glad to see her and talk the matter over in detail.

Call Chief Operator.

GREENVILLE TAKES GREAT GAME FROM THE TARBORO CLUB

Locals Defeat Tarboro in Fifteen Inning Contest By Score of 4 to 1

In decidedly one of the best and most skillfully contested games staged in the entire league this season, Greenville yesterday afternoon won out over Tarboro in a fifteen inning contest by the score of 4 to 1. The clubs battled determinedly and untiringly for fourteen innings without breaking the 1 to 1 tie which had prevailed up to that moment, but in the first half of the fifteenth the visitors handled the willow in an unusually effective way, and succeeded in sending three runners around the home circuit by sheer hard work and an indomitable batting spirit after the first runner was gotten on base.

The game was the first to be played between the two clubs since the board of directors amicably settled the dispute occurring a short time prior to the game scheduled for last Monday, and therefore, Greenville and Tarboro entered the field yesterday probably more determined than ever to assert their superiority. The contest was simply a pitchers' battle from the first inning until the last, which, coupled with unusually fast work in the infield and outfield, made the exhibition stand out distinctly as one of the fastest and most determinedly contested of the season. The visitors showed surprising form and perseverance every inning, in fact, it is possible that the concluding innings tested their ability more than ever, for with victory and defeat swinging dangerously from one side to the other, they battled on the decisive fifteenth, when the timely batting rally sent the winning runs across the rubber.

Saxe Barnes, who for a long time has been almost idolized by Greenville fans for his excellent work on the mound, found an entirely new niche in the hearts of those who witnessed his splendid work against the Tarborians yesterday, for he proved almost invincible every inning, and absolutely refused to yield anything in the shape of a hit when it would have given the Tarboro boys a decided lead. His offerings were more puzzling and baffling to the Tarboro batters in the last part of the contest than in the first, for virtually every time a runner was gotten on bases, he settled down to work more earnestly than ever, retiring side after side in a way that drew constant, unrestrained applause from the grandstand. Wrenn showed his usual good form behind the bat, accepting several chances and making them every one good. His work was of an exceptionally fine nature and assisted Barnes to no little extent in handling the Tarboro batters in such an effective way.

Mark Webb, a former southpaw mound artist from Pinetops, pitched a good game for Tarboro, and looked as if he intended to defeat the visitors, but in the fifteenth his offerings were handled in a startling way, and hardly before cheering crowds from the grandstand realized what had happened, Greenville had sent one runner down the home circuit, and with the other two following in rapid succession, Tarboro tried hard to overtake the lead in the last half of the fifteenth, but without the slightest success, as Greenville handled the sphere in a fast, assuring way and absolutely refused to permit a runner to threaten the home circuit.

The decisions of the board of directors provided for a double-header between the two clubs, but it was so late when the first game was concluded that the second game was not considered advisable. Tarboro however, insisted that a five-inning game could be played before darkness and rushed an entirely new set of players to the field. Greenville of course, was wearied from exertion of the first game, but entered the second game and played for two innings, the game being called at that time on account of darkness, with the score standing 3 to 2 in favor of Greenville.

A double-header is scheduled between the two clubs in Tarboro today, and it is expected that Greenville will be represented. The game yesterday revived interest in Greenville's chances of winning the last half of the series, 5, Tarboro 9.

STANDING OF THE CLUBS

Eastern Carolina League			
Clubs:	W.	L.	Pct.
Greenville	12	4	.750
Washington	11	8	.579
Williamston	10	11	.476
Tarboro	8	9	.471
Pinetops	9	11	.450
Scotland Neck	8	13	.381

WILLIAMSTON TEAM WINS FROM HYPHENATED CLUB

Williamston, Aug. 4.—Williamston won from the Scotland Neck-Hobgood aggregation here this afternoon in a fourteen-inning contest by the score of 2 to 1. Both clubs showed unusually splendid form, but by hitting opportunely in the last half of the fourteenth the locals were able to send the winning run across the rubber.

WASHINGTON DIVES DOUBLE HEADER WITH PINE TOPS

Pine Tops, Aug. 4.—Pine Tops and Washington broke even in a double-header here this afternoon, the locals winning the first game by the score of 5 to 3 and the visitors taking the last by the score of 3 to 1. Both games were contested in a determined, interesting way, but the inability of the visitors to hit opportunely in the last game was principally responsible for the locals' failure to capture both contests. Score by innings:

First game:		R. H. E.	
Washington	5-0-0	011	010-3 8 4
Pinetops	3-0-0	020	000-5 13 3

Second game:		R. H. E.	
Washington	3-0-0	001	000-3 8 2
Pinetops	1-0-0	010	000-1 1 1

Greenville at Washington.

August 12, 13, 14.
Pine Tops at Tarboro.
Washington at Scotland Neck.

PASSPORT PRICES RAISED

SHANGHAI, China, Aug. 4.—The American consulate has announced that in the future charges imposed for the issuance of American passports and fees for approving officially passports held by nationals other than Americans will be increased to \$10 in accordance with orders issued by the Department of State. The charge in both cases in the past has been \$2.

and for that reason those who have followed the club persistently since the opening of the season, will be present this afternoon to do their part in the winning of another game.

The box score:

Greenville	A	B	R	H	O	A	E
Stringfield, ss	6	0	1	2	2	0	0
Berlie, 3b	4	0	0	4	1	2	0
Ellis, 2b	5	0	1	2	1	2	0
Massey, 1b	6	1	0	10	1	0	0
Duncan, lf	5	0	2	2	0	0	0
Frazier, rf	5	1	2	4	0	0	0
Dennehey, cf	4	2	1	1	0	0	0
Wrenn, c	5	0	0	13	0	0	0
Barnes, p	6	0	1	7	2	1	0

Totals		R. H. E.		
Greenville	46	4	8	45

"SAND!" IS TITLE OF LATEST WILLIAM S. HART PHOTOPLAY

Celebrated Star Has Pleasing Role In Story of Life in the Old West.—White's Theatre Tonight

William S. Hart has a characteristic western role in his new picture, "Sand," which is the attraction at White's Theatre tonight. The film adapted from a magazine story and scenarized by Lambert Hillier, who also directed.

The central figure, played by Mr. Hart, is a picturesque railroader and cowboy called Dan Kurrie. He drifts into a job as station agent at a small border town and becomes intimate with the former agent, "Pop" Young and his daughter, Margaret, who have been installed as managers of the general store owned by the unscrupulous local boss, Garber. Dan has a run-in with Garber over the cracking of the station safe and loses his job through the boss' machinations. He joins a cowboy outfit nearby. Meanwhile the countryside has been stirred by a daring and mysterious hold-up of an express car. Garber makes strenuous efforts to marry Margaret and she runs away to avoid him. Her train is held up by robbers who are after the money it carries. Of course, Dan Kurrie is on the job and foils the thieves, then reveals them as Garber and his gang. A happy future is in sight for Margaret and her cowboy lover. Mary Thurman is the leading woman and it is a Paramount-Artcraft picture.

We can make immediate deliveries on Buick automobiles. Hines Bros. Motor Company.—Adv.

BOSQUE IS ELECTED TO SUCCEED PROF. CARTER

West Raleigh, Aug. 5.—Mr. R. E. Bosque has been elected to succeed Prof. Deane G. Carter as head of the Department of Agricultural Engineering at State College. Prof. Carter will return to Iowa to engage in extensive farming operations.

Mr. Bosque is a graduate of the A. & M. College of Texas, class of 1917. In addition to completing the course of study in the Agricultural Engineering School, Mr. Bosque also finished the general course in agriculture given at Texas A. & M., thus broadening his agricultural education. Prior to entering college, he was engaged in field work in drainage and irrigation, and general farming, where he secured valuable basic experience.

PHOTOGRAPH OF WASHINGTON PAINTED ON MARBLE SLAB

NEW YORK, August 5.—A rare and comparatively known portrait of Geo. Washington, painted in oils, on a marble slab, by Archibald Robertson, has been deposited in the New York Historical Society by Tarrant Putman, a lineal descendant of the artist, it was announced today.

A notation by the artist on the back-board filling indicates the portrait in Philadelphia in December, 1791. The artist had written that when the painting was made Washington did not wear his false teeth.

RHODA ROYAL CIRCUS TO SHOW HERE AUGUST 21ST

The Rhoda Royal Circus will show in this city Saturday, August 21, at the Fair grounds. Agents are in the city today looking after the renting of the grounds and purchasing hay, oats, bread and other things which are necessary for a large circus. The Rhoda Royal circus has visited Greenville before, but it comes this time with many new features, it is said.

The attraction has been increased from a two-act circus to a three-act show. The manager is much larger with many new additions. The agents stated this morning that so many new attractions had been secured for this season that in order to carry them nine new cars have been added to the already long show train.

Legion will meet next Tuesday night, August 10, at eight o'clock in the Court House at Greenville. At this meeting the following matters will come up for discussion:

1. The North Carolina Legion Encampment at Camp Glenn for two weeks beginning August 15.

2. The Annual Meeting of the North Carolina Legion, to be held September 1-3 at Wrightsville Beach. Delegates are to be elected to attend this meeting.

3. The formation of a Rifle Club among the members of the local post. The War Department has agreed to furnish rifles to Legion Posts.

4. The summer "Jamboree" or picnic.

All members of the Legion who are not receiving their Legion Weekly are requested to notify Adjt. J. H. Rose, Greenville, N. C.

Ex-soldiers who are not members of the Legion, but who desire to become members, are also invited to be present.

PLANS TO PREVENT DISPUTE IN LABOR MAKING PROGRESS

(Continued from Page 1)

"It was found in British Columbia," Secretary Dewitt M. Evans of the Commission said, "that councils of employers and employes with an industry are proving beneficial. These councils are more important in getting the two interests together than are the tribunals provided in the British Columbia act."

Naturally, according to Mr. Evans, there is some discrepancy between employers and employes regarding the best way amicably to settle disputes, but both are agreed that the huge economic loss resultant from strikes should be prevented. This desire to abolish strikes and lockouts, Mr. Evans believes, is the best indication that the Commission will be able to draw up a workable piece of legislation.

"The Commission realized it cannot create a law that will abolish the underlying causes of contention between labor and capital," said Mr. Evans, "but it does believe it can frame a set of rules and regulations for handling disputes so that the interest of the public and both parties to the contention will not be disastrously affected."

REPORT SHORTAGE OF BOARD'S FUNDS

(Continued from Page 1)

and Montevideo, still, it felt that there must be something wrong when their vessels paid such prices, for instance, as \$4 a pound for butter.

"It seems that the practice was, when a Shipping Board vessel appeared in the roads, and signalled its desire to enter, for those who had hopes of selling the vessels supplies to prepare for a plucking of the golden goose. The result was that when the vessel cleared bills were presented to the steamship agents and promptly paid, since it was Shipping Board money, for every conceivable item at prices based on nothing except a desire to obtain easy money.

"Our arrival put a quick and effective stop to all this. We now have all Shipping Board vessels calling at this port, report directly to us, we alone having the right to authorize purchases of supplies or expenditures for repairs. All repairs at present must have my signature before it will be paid, and the result of this has been a saving of as much as 50 percent on many items. Conditions formerly were so bad that I have even heard that in some cases food was thrown overboard in order to create a shortage so that purchases could be made."

DEEDS OF TRANSFER FILED SINCE REPORT OF MONDAY

The following deeds of transfer have been filed in the office of the register of deeds for registration since the report of Monday afternoon:

H. C. Edwards and wife to C. H. Edwards. Consideration \$600.

Wiley Cherry to Martie Cherry. Consideration \$500.

SPEAKING CLOCK INFORMS SUITORS WHEN TO BEAT IT

Philadelphia, Aug. 5.—A clock that speaks instead of striking is the invention of Vincent Pinto. He has it running in his home at 1624 South Eighth street.

Pinto studied clock-making in Italy, and with his 24-year old son, completed the clock after eighteen months hard work. At present the clock, at 11 o'clock in the night, says: "It's eleven o'clock, time to go home." This is because Rosa, the eighteen year old daughter, entertains many friends. The remark is Mr. Pinto's little joke.

The clock is about the size of a

to fit into a case the size of an alarm clock. The clock is a thirty-day movement. It can be made to call the hour, half or quarter hours, or all of them with the phonograph mechanism, and has, chimes in addition. It would be invaluable, says Mr. Pinto, where there was a blind person in the home.
