

Russian Forces Are Gaining Rapidly on Warsaw

Suffrage Wins Initial Battle In the North Carolina Legislature

RUSSIAN SOLDIERS GAIN MUCH GROUND ON WARSAW FRONT

Reports Say They Have Reached Point Within 25 Miles of Polish Capitol.

CIVILIANS OF CITY NOT PERMITTED GO ON STREET AT NIGHT

Authorities to Leave Saturday to Negotiate for Preliminary Treaty.

Warsaw, Aug. 13.—Russian forces have reached a point within 25 miles of Warsaw, and the state of siege declared here that civilians would not be permitted on the streets after ten o'clock at night. Polish successes have been reported on the southern front where the Russians have been reported to be pushing on the southern front of Limberg. Authorities with power to negotiate on the preliminary peace treaty will leave Saturday night to meet the Bolshevik plenipotentiaries.

GREEK ASSAILANTS ACTED THRU PERSONAL MOTIVES

Paris, Aug. 13.—Aug. 13.—Greek assailants of Premier Benizelos who was wounded here yesterday acted through personal motives, the Greek legation says. They were removed from the Greek army and navy because of pro-German sentiments, it is stated. Benizelos is in no danger.

AMERICA MAY PERMIT POLAND BUYING SUPPLIES

Washington, Aug. 12.—Moved by the reiterated pleas for aid from the Polish government, the War Department had under serious consideration the request of Prince Lubomirski, Polish Minister, for permission to purchase war materials from the United States.

After successive conferences yesterday and today between the Polish minister and Secretary Colby, the State Department also took up the problem of finding means of reinvigorating the fast-ebbing strength of the Polish state and thereby of fulfilling the assurance of support to the Poles contained in the recent American note to the Italian Ambassador.

Polish officials here explained today that in addition to the desire for war materials they were most anxious to obtain authorization of the United States to permit recruiting by Poles in America for the Polish army. It was said that not only had many offers of enlistment been received by the legation from Polish citizens, resident in the United States but many offers had come from former American veterans of the world war.

While a statute forbids enlistment of armed expeditions in the United States for employment against a friendly power some officials claimed the President had authority to suspend operation of the law under his war time powers. The raising of recruits by Poland under the leadership of Paderewski before the United States entered the war, it was recalled, was agreed to by the American government and large numbers of Poles, enlisted to fight under their allies were removed from the United States and trained in Canada and abroad.

CHILD LABOR SAID TO BE INCREASING IN MIDDLE STATES

General Increase Noted in Practically Every Middle Atlantic State.

FOUR THOUSAND MORE CHILDREN REPORTED AT WORK IN CHICAGO

Minnesota Reports that Child Labor Has Virtually Doubled This Year.

Chicago, Aug. 13.—Four thousand more children are working in Chicago today than a year ago, according to Clyde A. Brown, acting director of the city vocational guidance bureau. The increase in child labor is said to be general in the Middle West but exceptions are noted in Missouri, Kansas and North Dakota.

Necessity of the child helping the family meet the high cost of living, the pulling power of higher wages and scarcity of adult labor together with the discovery by employers that women and children often could take the place of men were cited by Mr. Brown among reasons for a similar increase in child labor in other parts of the country.

VIENNA ABOLISHES CONTROL OF GRAIN IN EVERY SECTION

Austrian Government Does Away With Control After Bitter Fight.

ACT DECLARED TO BE REACTIONARY ISSUE

Vienna, Aug. 13.—Austria has abolished government control of her domestic grain supply after a bitter political fight in which the advanced parties were defeated by an overwhelming vote of the combined Christian Socialist-Grosse Deutsch parties. Government control, it was alleged, was a "farce."

While the grain of Austria is negligible in the world's supply and but a fraction of her own need, passage of the decontrol act is interesting as a popular demonstration of the line of demarcation between the two great political factions.

The economic experts of the Socialist wing declared the decontrol act a reactionary measure in favor of the agrarian element and predicted that bread prices would rise because of it. Advocates of the measure, on the other hand, insisted that in spite of laws the farmer withheld his foodstuffs from the government requisition and sold to the "left hand" trade, which in turn profited by the risk they undertook and ballooned prices. These men say that decontrol means a normal adjustment of prices to demand and the sale of breadstuffs being legalized, the farmer and miller will again enter open competition in a fair market.

The Decentral Act brought the resignation of Food Controller Lowenfeldt. Under his leadership the Social Democrats fought the bill stage by stage. In its final shape the bill provides that when the individual farmer has given up three-tenths of his crop the rest of it is freed. The bill also abolishes milling permits.

FRENCH COUNTESS HERE

A passenger on the "La Savole" of the French line recently was "Le Comtesse de Turenne, here on a visit to friends in this country.

PROSPECTS BRIGHT FOR SUFFRAGE IN STATE TENNESSEE

Governor Roberts Declares Its Adoption Certain From Indications.

Washington, Aug. 13.—The Tennessee Senate ratified the suffrage amendment this afternoon by a vote of 25 to 4. The House is yet to act.

Nashville, Aug. 13.—A long debate was in prospect when the Tennessee senate began consideration of woman suffrage amendment today. There was not an inch of available space in the galleries or on the floor and pro-suffrage members had prominent suffrage workers with them at their desks. The House is not expected to vote on the measure until next week. Suffragists have been victors in preliminary skirmishes.

Nashville, Tenn., Aug. 12.—The committee on constitutional conventions and amendments of the Tennessee Senate after a hearing on the federal woman suffrage amendment ratification resolution announced shortly before midnight that it would return a favorable report on the resolution tomorrow.

A similar committee of the house, which conducted a joint hearing with the Senate committee, announced that it would not report until Monday. This action means that the suffrage amendments will not be finally disposed of tomorrow as suffrage leaders had planned.

There was no indication as to the nature of the report the House committee would render, members merely stating they desired time for proper consideration.

Nashville, Tenn., Aug. 12.—With Governor Roberts declaring ratification of the federal woman suffrage amendment by the Tennessee legislature tomorrow was certain "unless something miraculous occurred," and suffrage leaders in both houses reporting further accessions to the ranks of the suffrage forces from the unpledged membership, optimism among suffragists tonight was rampant.

Even contentions of the sole anti-ratificationists that the combination of Friday the thirteenth would be a "hoax" to ratification failed to cause a ripple of apprehension in the suffrage ranks.

The Senate and House committees on constitutional conventions and amendments, to which the ratification resolution was referred, conducted a joint hearing tonight in the chamber of the House at the capitol. Proponents of ratification were given one hour and a half for argument and a similar period was allowed the opposition.

IMPROVEMENT FOR HUDSON RIVER PIER IS BEING PLANNED

Removal of 32 Antiquated Piers for Vastly Larger Structure Planned.

TOTAL IMPROVEMENTS WILL INVOLVE OUTLAY OF OVER \$50,000,000

Several Developments Take Place Since the Game Yesterday Afternoon

New York, Aug. 13.—The greatest water-front improvement here in 50 years, involving the removal of 32 antiquated piers along the Hudson River, and the erection in their stead of 18 new and vastly larger piers of latest design, has been planned by Murray Hulbert, commissioner of docks, and approved by the Sinking Fund Commission. The improvement will cost \$50,000,000 and will require 10 years to complete. Work is expected to be started next Spring.

This with the proposed vehicular tunnel to New Jersey is expected to solve New York's west side dock problem. The new water-front system is to consist of wide piers, slips and marginal streets, with warehouses and tracks where available in the rear. "The cost of construction is expected to pay for itself within four years time," according to Deputy Dock Commissioner Michael Cosgrove. "A permanent sea wall has been built along (Continued on Page 4)

SALARY BILLS ARE BROUGHT TO HOUSE FOR FINAL ACTION

Crisp Produces One Set While W. O. Saunders Present Another.

The third day's work of the lower branch of the General Assembly found the committee hall submitting the constitutional amendments to be voted his fall passed and on its way to the Senate. There were seventy-eight votes cast for and twenty-four cast against on final roll call yesterday morning.

Otherwise, the session was rather tame. True, Crisp, of Dare, offered bills raising the salaries of all the State officers, some one else offered one to make Major W. A. Graham, Commissioner of Agriculture, a member of the council of State, and Representative Bryant introduced the school bills but he burning question—suffrage—continued to hold the center of the stage.

It was practically a solid Republican vote against the amendment bill. The lone two Democrats voting against the proposal were Brown, of Pitt, and Shaw, of Scotland. There were several who have answered the roll call who did not vote at all. Col. Benehan Cameron still peeved over the fifteen cents limitation, voted "No" on the first roll call and, later, after a conference with Representative Harry Grier, changed his vote to the affirmative.

Having already offered bills to increase the salaries of the constitutional officers to \$6,000, barring a raise to \$5,000 for the Attorney General, Representative Crisp yesterday offered several new salary bills which went to the Salaries and Fees committee for consideration with the prospect that a sub-committee will handle the matter.

SUFFRAGE WINS FIRST FIGHT IN LEGISLATURE BY VOTE SEVEN TO ONE

Raleigh, Aug. 13.—Suffrage won the initial battle in the North Carolina legislature today when by a vote of seven to one the constitutional amendment committee of the upper house reported favorably the ratification resolution. The amendments committee of the upper house favorably reported the ratification resolution.

Bickett Favors Issue.

Raleigh, Aug. 13.—Declaring that women should have the right to speak when an issue is whether the world "shall henceforth be ruled by reason and righteousness or by blood and iron," Governor Bickett in a special message to day called upon the North Carolina legislature to "accept the inevitable and ratify the federal woman suffrage amendment." He said that the most opponents could do was to delay for six months a movement "we are powerless to defeat."

LARGEST DIRIGIBLE IN WORLD NEARING FINAL COMPLETION

United States Navy Airship to be Completed by Bedford Co. in November.

SAID TO BE LARGEST PRODUCED BY ZEPPELIN

Washington, Aug. 13.—Latest reports received at the Navy Department are that the dirigible, R-38, now being constructed for the American navy by the Royal Airship Works, at Bedford, Eng., is more than 60 per cent completed and probably will be ready to take the air by the latter part of November.

When the great dirigible, which will surpass in size any airship ever constructed, thrusts her nose out of the hangar at Bedford for the first time there will be a trained-to-the-immense American crew aboard to put her through her trial flight. Several training cruises on the British dirigible R-33, offered by the British government for that purpose, already have been made by American naval personnel who will form the R-38's crew and the mammoth airship will be manned by experienced sailors of the air when she sets out on her trans-Atlantic flight, which officials say will be made next April or May.

With a gas volume of 2,724,000 cubic feet, the R-38 will surpass in size the largest rigid airship yet turned out by the Zeppelin Company, the L-71 by 304,000 cubic feet and the British dirigible R-34, which crossed the Atlantic last year, by 711,000 cubic feet. Her six engines will develop 1950 horsepower, or 130 more than the most powerful Zeppelin craft and drive the great gas bag at an estimated maximum speed of 75 miles an hour.

To accommodate the 694-foot stretch of the R-38, the naval airship hangar at Cape May, N. J., already had been lengthened to 700 feet and also increased in height. The two large hangars now under construction at Lakehurst, N. J., probably will not be completed until July 1921 or after the R-38's arrival.

FELLOW EDITORS IN CONFERENCE WITH REPUBLICAN LEADER

Marion, Aug. 13.—Republican fellow editors of Senator Harding throughout Ohio went to Marion to talk shop and politics at a luncheon in honor of the nominee. The delegation gathered in a down town hall where it was arranged for the senator to make a speech instead of on the front porch.

SENATOR SIMMONS URGES SOLONS TO RATIFY SUFFRAGE

Appeals to State Legislators to Vote for Woman's Enfranchisement.

PUBLIC OPINION OF WORLD AND NATION SETTLED MATTER

Senator Simmons in Message Speaks Clearly and Unequivocally of Issue.

Washington, Aug. 12.—Though declaring himself both personally opposed to woman suffrage and undesirous of pressing his views upon North Carolina legislators, Senator Simmons, of that State, in a statement tonight declared that "public opinion of the world and his nation" had settled the controversy over the subject in favor of ratification. The statement, which touched upon the situation in North Carolina, where the Federal suffrage amendment has been put before a special session of the legislature, was sought by the suffrage supporters as an aid in the fight they are now making.

Senator Simmons repeated what he had said to the North Carolina State Democratic convention this spring, that a defeat for ratification in North Carolina "would not defeat but, only delay the final result," and that it is the general opinion of the Democratic leaders in Washington that "if women were permitted to vote this fall they would naturally sympathize with the Democratic party's attitude on certain leading questions involved in this year's national campaign."

Senator Simmons' statement follows: "I have always been and still am opposed to a woman suffrage. In the interview I gave the press immediately preceding the meeting of the Democratic State convention I emphasized this fact and confined my observations to a statement of the outstanding facts of the situation with respect to that question as understood and interpreted by me and as reflected in the discussions and opinions of leaders of both parties at Washington. The substance of that statement, in brief, was as follows:

"That it was generally conceded by leaders of both political parties at the national capital that the public opinion of the world and of this country settled the question of equal female suffrage, and that the ultimate ratification of the proposed suffrage amendment was inevitable; that while favorable action by North Carolina at the adjourned session of the legislature would consummate this eventuality in time for women to vote in the approaching national election, unfavorable action by it in this regard would not defeat, but only delay the final result; that in these conditions the only remaining question was whether female suffrage should be conferred now or later. In this connection I also stated that it was generally agreed among the Democratic leaders at Washington that if the women were permitted to vote this year, they would naturally sympathize with the attitude.

FRANCE PLEASED AT POSITION OF U. S. IN RUSSIAN SITUATIONS

Paris, Aug. 13.—France is sending a note to the United States expressing pleasure over the French and American view on the Russo-Polish situation. They are in complete accord, it was learned today. It has been also learned that plans are under consideration for renewal of conference recently held between the British and French premiers and that others might attend.

WEDNESDAY AUG. 12, 1920.

**GERMAN IN THE HIGH SCHOOLS.**

Dr. F. W. Ballou, the new superintendent of schools of Washington, D. C., chosen to this position after a stormy passage between the former superintendent and the president of the Board of Education, and an investigation by a special committee of the United States Senate, will be called upon among other things early in his new work to decide whether the German language shall be taught in the Washington high schools. In this connection it is interesting to suggest that a lack of demand for German in the high schools caused its teaching to be dropped from the Washington institutions before the world war.

As this question is being raised in cities in many sections of the country, the position taken by Dr. Ballou will be of interest in view of the fact that it is to be decided for the National Capital schools. It is stated in Washington several high school principals, presumably unaware of the decision Dr. Ballou will reach, are working on plans for re-organization of the schools in preparation for September, but that none has considered the reinstallation of German in the curriculum.

The great preparations being made for foreign trade by United States exporters as the reconstruction wrinkles gradually are ironed out has caused suggestions in some quarters to the effect a knowledge of German as well as of other foreign languages would aid high school students to equip themselves for business careers. On the other hand, the memory of the war still is so fresh in the minds of many that instantly the reintroduction of German in the public school is suggested there is opposition to it.

Due to these conditions interest in the action taken in Washington as well as in other cities on this matter will be keen.

**BACK OF EDUCATIONAL MOVE-**

The Supreme Council of the Ancient and Accepted Scottish Rite of Freemasonry for the Southern Jurisdiction in session recently passed vigorous resolutions, according to a statement made upon the authority of the Supreme Council, calling upon its entire membership of nearly 200,000 to use its influence and endeavor for the better education of the citizens of this country. A statement from the Supreme Council says:

"The Supreme Council approves the establishment of a Department of Education, with the head of the department a member of the President's cabinet. It believes that such a department, with the education of the future citizens of the country as its object, would be of equal importance with several of the present departments of the government with cabinet officers at their heads.

"It does not mean by this action the federalization of education, as belief being it comes within the bounds of the constitution, without violating it at any point, for our national government to have a Department of Education to collect and plan out the very best possible methods of education and to supply the states with the same. It surely is legitimate for the national government to contribute to each state for this purpose a fixed amount, provided that each state will do its part in the interest of education, as it is for the government to go fifty-fifty on other propositions recognized as of sufficient worth to receive such aid.

The Supreme Council also has endorsed the movement for a national university in the Capital of the Nation, situated in its financial support. Such an university should be one of the

greatest in the world, so that from it would go out an influence for democracy which would accomplish more in enlightening the peoples, abolishing war, etc., than any other power. "The students of a university such as this would have the advantages of observation and experience in the government departments and branches of the same such as for example the Bureau of Standards, the Chemical Divisions, etc. It also would offer opportunities for workers in the government departments and others to be trained for the consular, diplomatic and other services.

"The Supreme Council believes in the constant and continued improvement of the public schools of the nation, both as regards the methods of teaching, and the curriculum and the teachers, themselves. It believes that the public schools in each state should have the best thought and attention of the best people of each state.

**GROWTH IN AUTOMOBILE EXPORTS.**

The automobile manufacturers of the United States made, in the fiscal year just ended, their highest record in supplying foreign markets. The total value of automobiles and accessories such as tires, engines, and other separate parts, exported in the fiscal year 1920, says a statement by the National City Bank of New York, aggregates \$275,000,000 against \$138,000,000 two years ago, and \$80,000,000 in the year preceding the war. Thus, the value of automobiles and accessories exported in the fiscal year 1920 are nine times as much as in the year before the war, and more than double that of the closing year of the war.

The whole world, adds the Bank's statement, seems to be demanding motor vehicles for passenger and freight purposes, and looking to the United States for its supply. The number of commercial cars exported in the first 11 months of the fiscal year 1920 was, according to the official reports of the government, 21,656, against 11,154 in the same months of 1919, and the number of passenger cars, 103,146, against 33,412 in the corresponding months of 1919. Great Britain, which saw the practical qualities of the American commercial automobile during the war, took in the first 11 months of the fiscal year 1920, according to the above authority, over \$5,500,000 worth of our commercial automobiles, against \$2,500,000 worth in the same months of the preceding year. Cuba, which recognized the convenience and practicability in a tropical climate of the power-driven vehicle, as against that driven by animals, took of our commercial automobiles in the 11 months of the fiscal year 1920, 1,419 machines, valued at over \$3,000,000, against 610 machines valued at a little over \$1,000,000 in the same months of the preceding year. To the distant Dutch East Indies, the number of commercial machines sent was 440 against 300 in the same months of 1919, and only 68 in the corresponding months of 1918, and to our own Philippine Islands, 698 commercial machines in the 1920 period against 159 in the same period of 1919, while British Oceania, which consists chiefly of Australia and New Zealand, took 929 commercial machines in the 11 months of the fiscal year 1920, against 271 in the same months of 1919, and 178 in the corresponding months of 1918.

In passenger machines the growth is equally striking, the total number exported to all parts of the world in the 11 months ending with May having been, according to the official records, 103,146 against 33,412 in the same months of the immediately pre-

ceding year, and the stated value for the 11 months of 1920, \$111,000,000 against \$36,000,000 in the same months of 1919. This increase in the number of passenger machines is especially marked in the movement to the tropics, to British India the number of passenger machines sent in the 11 months of the fiscal year 1920 is 7,002, valued at \$7,580,000, against only 349 machines valued at \$422,000 in the same months of the preceding year, and 59 machines valued at \$40,000 in the corresponding months of 1918. To Argentina the number sent in the 11 months of the fiscal year 1920, is 3,040 against 1,470 in the same months of the preceding year; to Brazil 5,610 against 1,168 in the corresponding months of 1919; to Peru, 860 machines against 485 in the same months of the preceding year; to the Philippines 2,073 against 1,601, and to British South Africa, 5,110 against 1,161 in the same months of the preceding year, practically all the countries above named being, with the exception of Argentina, distinctly tropical, and illustrating the growing demand of the tropics for the horseless vehicle, Mexico, despite the unsettled conditions, took in the 11 months of 1920, 2,489 machines against 1,951 in the same months of the preceding year; Cuba 4,218 passenger machines, against 1,887 in the same months of the year preceding.

How Would You Like to Save Half the Work Time and Cost of Mowing?

HERE is the only successful wide-cut mower. It saves 50% of your mowing cost by cutting twice as much in the same time. Compensating lever and spring carries the cutter bar on the drive wheels instead of dragging it on the ground. This increases traction, does away with side draft and weight on horses' necks—greatly lengthens life of machine.

**E-B Standard Mower**

This mower is as easy on your horses as plowing corn, and will cut two acres of hay in every mile the horses travel. Come in and see it. Bring your boy along.

# Williamston Declines To Complete Series Here

## League President Accentuates Situation Between the Two Towns

# SPORTS

### WILLIAMSTON CLUB REFUSES TO PLAY WITH GREENVILLE

### GREENVILLE FINDS WILLIAMSTON CLUB EASIEST OF SEASON

Several Developments Take Place Since the Game Yesterday

It is now a settled fact that Greenville is the winner of the last half of the series as a message this morning received by Manager T. T. Hollingsworth from Manager Powden of the Williamston club, stated that Williamston would not appear here to play the concluding games of the series scheduled for today and tomorrow, the first being played yesterday, terminating in Greenville's favor. The Williamston manager merely stated that Greenville's desire not to have official league umpire brought about his decision not to continue the series, but as the umpires used in yesterday's game were composed of Williamston and Greenville men it is not supposed that Williamston has any argument in support of the action, and consequently the games are automatically forfeited to Greenville.

Following receipt of the telegram Mr. Hollingsworth immediately informed the Williamston manager to come on over with his club this afternoon, bring the umpire who was not used yesterday according to mutual agreement, and that he would be protected in every way. The Williamston manager failed to reply definitely, but a short time later the following telegram was received from Clayton Moore, president of the league, regarding the situation.

President Greenville Baseball Club, Greenville, N. C.,

Because you refuse to accept and protect official umpire sent you, I have ordered the Williamston Club not to go to Greenville today and tomorrow.

CLAYTON MOORE, President Eastern Carolina Baseball League.

This telegram was received with surprise by members of the local club here, because Williamston yesterday agreed to the use of an umpire each town and failed to raise the slightest kind of objection to any decision during the entire game. The work of both umpires proved entirely satisfactory, and Williamston failed to say anything at all regarding the issue until the telephone message this morning. The position is of such an unusual character that people here are amazed. In reply to the telegram from the president Mayor Clark wired the following, which eliminates the possibility of any further excuse from Williamston, as it guarantees perfect safety to anything the clubs want to bring over, the same courtesy that has been shown all clubs playing on the diamond this season:

The message follows:  
Mr. Clayton Moore, President, and Mr. Pete Powden, Manager, Williamston, N. C.

As mayor of Greenville and director of the police department, I hereby guarantee full and ample protection for your baseball team, your umpires and any and all citizens that may visit Greenville or participate in any games of ball scheduled for Friday or Saturday of this week or at any other time.

A cordial invitation is extended to you to come.

D. M. CLARK, Mayor.

The action of the Williamston manager has produced great disappointment among people in this city who have been looking forward to the last games of the series with much interest, for it was expected that Williamston would at least prove a game contender for the last half although Greenville, it is true, succeeded in gaining a decided lead for honors in taking yesterday's game. This fact however, is small indeed in comparison to the gate receipts to be lost by the Greenville club as a result of Williamston's last minute action, for up until this time the club has played almost to the limit of its resources, and needed the receipts to complete the championship series with Scotland Neck.

The action of Manager Powden in

Greenville's Only Opposition for Last Half Completely Walked Over Yesterday.

Greenville found Williamston so easy here yesterday that the opening game of the closing of the series was taken by the score of 11 to 1 without apparent trouble, for the visitors were completely outclassed at every stage of the game, and would have been completely shut out if Greenville had righted up sufficiently in the seventh inning to have prevented the score. As it were, however, the single runner successfully rounded the home circuit, saving the club from the humiliation of going down in overwhelming defeat at the hands of the club that proved decidedly a more able contender for the last half than Williamston had supposed.

The game was interesting, however, regardless of Williamston's inability to hit when hits would have resulted in runs, for Greenville found both Lamb and Brown easy and batted the ball almost at will. Hardly an inning passed that runners were not getting on bases and most times they rounded the circuit without receiving serious or determined opposition. Practically every man on the local club increased his batting average considerably, for it is certain that not another game has been played here this season in which slugging was so dominant and the players is such mastery of virtually every part of the game.

Williamston came here yesterday with the intention of more definitely establishing its chances for honors of the last half of the series, Greenville being the only contender in the way, and after its victories over the strong Tarboro aggregation naturally everyone expected to see one of the most stubbornly contested games of the season, but as it were, Williamston's hopes of victory were blasted in the very beginning by Greenville's ability to hit the ball clean out of reach of the fielders and at times when hits meant that runners invariably crossed the rubber. The game was a good one to Greenville fans, just the same, and instead of being slow, proved considerably faster than one would assume. Williamston played in pretty fair form in the field, but proved absolutely unable to hit when timely hits would no doubt have changed the tide of victory in a decisive way.

"Sack" Barnes probably pitched one of the greatest games that has been witnessed in this city since the opening of the season, for from the first inning until the last he had the visitors completely in power and at no time yielded anything in the shape of a hit that would have been instrumental in increasing the score. He worked to perfection every inning, and with Wrenn's assistance behind the bat, the

refusing to play the last games of the series with Greenville shows conclusively that it was realized that Greenville had the superior club, in fact, this fact was proven indisputably in the game yesterday when Williamston was completely outclassed in every way. The umpires were chosen with Williamston's approval, and the fact that not a single dissenting voice was raised in objection to any decisions proves conclusively that Williamston's argument about the official umpire is without foundation. The game was one of the cleanest exhibitions staged here this season, as hundreds of fans will agree, and Greenville overwhelmingly defeated the visitors simply by hitting the ball almost at will. Williamston failed to do this, and naturally, the defeat was stinging and disappointing.

Greenville is admittedly the winner of the last half, and all that can be done and all that can be said by those who have offered the greatest opposition cannot in any way change the fact. Greenville won by playing fair, fast ball, and there is no twinge of conscience connected with ultimate glory of the victory.

#### EASTERN CAROLINA

Clubs	W.	L.	Pct.
Greenville	17	7	.708
Williamston	17	12	.586
Pinetops	14	14	.500
Scotland Neck	14	15	.483
Washington	12	15	.444
Tarboro	9	16	.360

#### SCOTLAND NECK WINS OUT OVER WASHINGTON

Scotland Neck, Aug. 12.—Scotland Neck defeated Washington here this afternoon in a decidedly fast and interesting game by the score of 2 to 0. The visitors handled the sphere in a fast and interesting way, but proved unable to hit when hits would have resulted in runs.

#### TARBORO TAKES ONE FROM PINETOPS CLUB

Tarboro, Aug. 12.—Tarboro defeated the hefty aggregation from Pinetops here this afternoon by the score of 3 to 0. Both clubs played in their usual fast and snappy way, but Pinetops found it impossible to hit when hits would have resulted in runs.

combination just couldn't be beat. Lamb started off on the firing line for the visitors, and after being batted unmercifully from one part of the lot to another, was relieved by Brown who fared little better, being hit almost at will. The exhibition was nothing more than a complete slaughter, giving Greenville the desired lead for the last half of the series.

Greenville started its scoring in the first inning when Stringfield singled, getting out at second on an attempted sacrifice by Berhle. Ellis came along with a timely single. Frazier doubled, scoring Berhle. Frazier later scored on Carson's throw to second in an attempt to catch Duncan. Scoring was continued in the fourth inning. Duncan singled, going to second on error by right fielder. Lamb issued Dennehey a free pass to first; Wrenn singled, scoring Duncan. Barnes was issued a pass to first. Stringfield singled, the ball bounding directly through the hands of the rightfielder, Dennehey, Wrenn and Barnes scoring, Stringfield himself going to third. In the fifth inning Ellis started things off with a single, Frazier hit through pitcher, single, Frazier hit through pitcher, by error got safe; Massey hit to pitcher who threw home and caught Ellis; Frazier scored immediately after the ball left the catcher's hand. Dennehey singled, scoring Duncan. Stringfield began the batting rally in the sixth inning with a hit for two bases; Berhle singled. Frazier singled, scoring Berhle and Ellis. Duncan singled, scoring Frazier.

Williamston secured four hits during the game but they were so well scattered that they failed to be productive of runs, with exception of one instance. In the seventh C. Johnson singled, and scored on Grant's single. out of Williamston's four hits C. Johnson secured two of them besides playing an exceptionally fine game in right field.

The box score:

Greenville	A	B	R	H	O	A	E
Stringfield, ss.	4	0	3	2	1	0	
Trust, lf.	1	0	0	1	0	0

### SOCIAL - PERSONAL

#### STANCILL KINSFOLK REUNION.

Mr. and Mrs. T. J. Stancill, Mr. and Mrs. S. T. Stancill, Mr. J. T. Stancill and Mrs. Virginia Forbe attended a reunion of the Stancill kinsfolks about four miles above Tarboro yesterday. The occasion was given in honor of two of Mr. T. J. Stancill's first cousins, Mr. Ruell Stancill of California and Mr. Caswell Stancill, of Mississippi. They reported it as being a grand occasion.

#### MISS PINK MANNING ACCEPTS POSITION IN ROCKY MOUNT

Miss Pink Manning who was formerly with C. D. Tunstall's Ready-to-Wear Clothing Store, has accepted a position with the Fashion Shop in Rocky Mount and will leave at once to take up her new work. Miss Manning is well versed in ladies' clothing and is an efficient saleslady. Greenville reluctantly gives her up and realizes that Greenville's loss is Rocky Mount's gain.

William Duncan's New Serial at WHITE'S THEATRE Saturday, Matinee and Night. Nine reels of fun, laughs and thrills galore—Beginning Saturday night show will start at 7:30.

#### CHILD LABOR SAID TO BE INCREASING IN MIDDLE STATES

(Continued from Page 1)

the United States. Minnesota officials report that child labor is nearly doubled in that state. The greatest increase, they say, is among children of the "white collar" class whose parents have been forced by rising prices to permit their children to work. About 3,000 under 16 years of age are now at work in Minnesota.

Wisconsin statistics on child labor for the year are not yet tabulated but officials say enough returns are in to indicate a considerable increase over previous years. Some boys under 16 years have been reported receiving \$100 a month.

T. C. Jennings, Texas state labor commissioner, reports an increase of about ten per cent in Texas child labor over last year. Postponement of compulsory school attendance he says has been a factor.

State Labor Commission Claude E. Connally of Oklahoma says more violations of child labor laws have been brought to the attention of his office this year than previously, from which he deduces an increase in juvenile workers. Connally said the increase in violations was probably due to the fact that there was 30 per cent more jobs in the state than workers.

A. L. Urick, Iowa state labor commissioner, recently reported that approximately 1,000 more permits had been issued in the past year to children between the ages of 14 and 16 than in the year previous.

Kansas and North Dakota report children labor in those states as almost negligible.

#### IMPROVEMENT FOR HUDSON RIVER PIERS BEING PLANNED

(Continued . . .)

the entire stretch, no rock will be encountered to make a depth of 40 feet and most of the real estate is owned by the city.

"These new piers will increase the pier storage area 50 percent if they are made only one-story," said Mr. Cosgrove. "But because of the high value of this waterfront it will be uneconomic to stop even at two-stories. They will have the most modern appliances for rapid handling of freight, including electric cranes, helpers and hoists of all kinds.

"The present lower North River waterfront is just what it was in 1871. Its slips are so narrow there is not room in them at once for two steamships. To afford relief the War Department has three times permitted the pier headlines to extend further outshore. The more these narrow slips became, because boats have been continually growing bigger."

"The new plan," said President F. H. LaGuardia of the Board of Aldermen, "means that New York is going to have 18 piers from 950 to 1,025 feet

#### URIEL DAVIS ORCHESTRA AT AMUZU PARK

The Uriel Davis orchestra will be here Wednesday night, August 18th, and Wednesday night, August 25th, and will play at the Amuzu Park. The managers of the park are indeed fortunate in securing the services of this splendid orchestra, and two enjoyable evenings are promised those who dance and others who visit the park.
