SENATOR SIMMONS ACTIVE IN EFFORT TO MOVE TOBACCO

Starts Movement that He Feels Sure Will Result in Relief to Farmers.

SECRETARY DANIELS RETURNS FROM MAINE WITH GOOD REPORTS

Expresses Confidence that Cox Will Carry States of Indiana and Ohio.

Washington, Sept. 13.—Senator Simmons today issued a statement to the effect that he had begun a movement that he felt sure would result in the relief of the critical financial situation of the farmers and business men in North Carolina. The Senator's statement was issued from his office late today by his secretary, Frank A. Hampton. The Senator today has held conferences with a number of high officials of the government. The critical situation as regards the tobacco market in eastern North Carolina was considered. For the last two weeks the Senator has been seeking a way by which he hopes the strain on the banks will be removed though he says the matter is not yet in a satisfactory condition.

Secretary Daniels was eagerly sought by Washington newspaper men for his opinion on the course of the campaign on his return from a week's speech-making in Indiana and Maine and a visit to Ohio and other pivotal States. The secretary is one of the strongest hustling speakers in the cabinet and one of the most accurate gaugers of political sentiment wherever he speaks. He has had practical experience in every Democratic presidential campaign for the last quarter of a century, and he has only to get into the atmosphere of a State, county or community to know what the people think.

If the election were held today, he feels confident that Governor Cox would carry both Ohio and Indiana. He saw many unfailing signs in both States that the Democrats are now leading. He addressed great multitudes of people whose response was never more enthusiastic. He talked to all sorts of men and women too on the trains, in the shop, in the streets and homes, many of them Republicans who were heart and soul for the League of Nations. The women will roll up a tremendous vote for the Democrats on this issue. With Democrats they say they know they will get a League. With the Republicans they do not know what they will get.

In spite of the fact that Maine is as reliably a Republican State as Texas is reliably Democratic, in some quarters the fiction persists that the result of the Maine election in November for county and state officers has some important bearing upon the November national elections. Undoubtedly, if upon national issues Maine should go Democratic in September, it would be significant. But the size of the majority for State officers in September does not foreshadow anything as to the November result. As an example four years ago the Republican majority in Maine was twice as large in September as in November. Some years local issues greatly reduce the Republican majority.

REPUBLICANS REPORT INCREASED LEADS IN ELECTION YESTERDAY

Portland, Sept. 14.—The Republican can majority of yesterday's election increased to \$65,000 today with a few remotes towns and districts missing. Mrs. Margaret Dyer, Democrat, the only woman candidate, was defeated for probate register of Hancock county.

STRIKE LEADER SAYS STRIKING SWITCHMAN HAVE RESUMED WORK

Chicago, Sept. 14.—John Grunau, leader of the striking switchmen and yardmen engineers admitted that the men had been called out.

MAJ. JOHN T. AXTON

Maj. John T. Axton of Utah is chief "sky pilot" of the army, the first chief of chaplains to be appointed by Secretary Baker. Major Axton, who will rank as colonel in his new appointment, was awarded the Distinguished Service medal for welfare work in March, 1919.

TWO LARGE STILLS TAKEN BY OFFICERS IN MONDAY'S RAID

Sheriff Dudley and Deputies Also Destroy 2000 Gallons Beer

In probably one of the most effective raids launched against the illicit whiskey traffic of this section of the state Sheriff Ernest Dudley and deputies yesterday evening succeeded in capturing two large stills immediately in the rear of the old Pitt county court house, about four miles east of this city. The two stills were in operation at the time the capture was effected and showed signs of constant operation for the past several weeks.

It is not often that copper stills find their way into the hands of officials during these days when the ordinary gasoline drum is playing such an ascendant part in the manufacture of "monkey rum," but these taken by the officers in the raid yesterday were of the very finest type ever seen in this section, and evinced the fact that much care had been required in early stages of construction. The worms and virtually every requisite for producing the best kind of rum were in splendid condition, easily handled, smoothly attached, presenting a showing that may be considered unusual indeed in contrast to the inferior forms of manufacture coming under inspection of the officials.

Both stills were of a 150 gallon capacity, and while no whiskey had been turned out during the day, the officers succeeded in capturing about two thousand gallons of beer, which was immediately destroyed. The operators, stated the officers, evidently intended to make an unusual output, for everything evidenced unusual activity and preparation for something out of the ordinary. The still was located in a dense forest immediately in the rear of the old court house, and has probably been in operation for sometime.

Sheriff Dudley and deputies are making every effort to reduce the traffic in this section of the country, and while they have been probably more successful than any other set of officers in the state, their work of late has been arduous to the extreme, not permitting the usual attention to the whiskey traffic. However, it is expected that the next several weeks will witness a determine campaign, for with official business about cleared, more time can be put into the work and the violators of the law can be looked after as they should be.

The board of county commissioners held a special session today. Odd Fellows meet tonight.

NATIONAL BALLOON RACE EXPECTED TO SET NEW RECORDS

International Contest to Start From Birmingham Filled With Possibilities.

FIFTEEN CONTENDERS WILL DEFEND GORDON BENNETT CUP FOR U. S.

Second Race Will Start October 23 for Completing the Circuit.

New York, Sept. 14.—The national balloon race scheduled to start from Birmingham, Ala., this month and the international contest for balloonists to start from the same city in October are expected by Aero Club officials in charge of the races to set new records. This hope is based upon the greater gas capacity of the balloons and lessons of construction learned in the war.

The national event, due to start September 25, will see 15 contenders lined up, each aspiring to be one of three who will defend the Gordon Bennett Cup which has been in America since being lifted from France in 1913 by Ralph Upton, of Akron, Ohio. Upton, present international title holder, made his entry as soon as the race was announced. Three bags have been entered by the army air service, one by the navy and another by the army balloon school, Fort Omaha. The other 11 balloons have been entered by civilians. The entry of the balloon school will be piloted by A. Leo Stevens, who with Professor David Todd, of Amherst College, won fame last spring by an attempt to pick up radio-electric waves.

CITY SCHOOLS OPEN FOR SESSION TODAY IN FAVORABLE WAY

Enrollment at All Schools Said to be Heaviest in Several Years.

The Greenville city schools opened this morning under the most favorable circumstances. The enrollment at the High school took place yesterday. The students were assigned to their respective courses, and this morning the work moved off without a hitch. The High school now offers one of the most varied programs of any school in the state, and from its many subjects offered the needs of any child can be met.

The teachers of the City Schools were at their posts this morning. The enrollment of the various building is about as follows:

Model School, 225; Evans Street, 450; High School, 215.

The Cotton Mill school will enroll about forty, and the colored schools will enroll about five hundred, bringing the city enrollment up to about 1300.

The Evans Street School is more than full. The school office has been converted into a classroom, and still another room will have to be found somewhere to take care of one of the present classes which numbers fifty.

NEGRO MURDERER IS SURROUNDED BY MOB IN GEORGIA SWAMPS

Monticello, Ga., Sept. 14.—John Spillers, negro who killed James Faulkner and probably fatally wounded John Faulkner, farmers, was still surrounded today in a swamp near here. Lynching is freely predicted if the negro is captured.

GAMBLING FINALLY CHECKED IN MANY PORTUGAL HOUSES

Government Headed by Premier Baptista Brings Number of Changes

MANIA FOR GAMBLING STARTED IMMEDIATELY FOLLOWING ARMISTICE

Robberies Resulting from Gambling Brought About Instant Action.

Lisbon, Portugal, Sept. 14.—Gambling which flourished here to an extraordinary degree after the armistice has suffered a severe check at the hands of the new government headed by Premier Baptista. Up to two months ago, the gambling houses remained undisturbed but since Baptista's government took office the law has been rigorously enforced and today there are few visible signs of the prosperity the gamblers have enjoyed for a year.

The gambling mania began to manifest itself as soon as the war ended. Magnificent clubs on which big fortunes must have been spent suddenly sprang up like mushrooms; gilded, glittering clubs, splendidly furnished, such as Lisbon never dreamed of possessing. Palaces belonging to the old aristocracy were rented at incredible prices and transformed into "The Majestic," "The Palace Club," "Maxim's," "Palais Royal" and dozens of others on the same scale, with restaurants, ballrooms and gambling rooms; everything being perfectly planned and carried out on the most modern and expensive lines. Hundreds of smaller imitations followed, until it may with truth be said, that

HARVARD COLLEGE CLAIMS GREATEST CAMERA IN WORLD

South American Observatory Said to Contain Largest Photographic Outfit.

Santiago, Sept. 14.—The South American station of Harvard University's observatory, tucked away in the Peruvian Andes near the city of Arequipa, in the old Inca empire, boasts of the largest photographic apparatus in the world. It is a huge telescope camera with a 24-inch lens which has been of great aid to science in its observations of the southern skies.

The station was founded 30 years ago and is located near the base of the famous Andean Volcano, Misti. The Arequipan Indians, descendants of the Inca civilization, frequently speak of themselves as the sons and daughters of old Misti. It is said the Indians in the surrounding country still worship the mountain with much reverence, regarding it as the source of earthquake which are felt in the region. The volcano erupted seven years ago.

Superstitions in regard to the mountain date back to prehistoric times. The ruins of the ancient pagan temples, a writer says, have been found in the crater of the volcano and even today near the top may be seen a great iron mass placed there in 1677 when a party of Spanish priests exorcised and pleaded with it not to erupt again and destroy their cities.

The clear atmosphere of the Arequipa region is said to have afforded an excellent site for an observing station.

JACK JOHNSON GIVEN PENITENTIARY TERM BY JUDGE CARPENTER

Chicago, Sept. 14.—Jack Johnson, negro pugilist, was sentenced to one year and a day in Leavenworth penitentiary and fined thousands of dollars by Federal Judge Carpenter for violation of the White Slave act.

MRS. COX AND HER BABY

A new and charming picture of Mrs. James M. Cox, wife of the Democratic presidential candidate, with her baby daughter Anne. This photograph was made at the governor's home in Dayton, O.

MANY FARMERS OF COUNTY ATTENDING MEETING IN WILSON

Hundreds of Prominent Planters Go to City for Discussing Tobacco Prices.

Several hundred farmers from this section of the state are attending the special session of the Wilson chamber of commerce conducted in that place today relative to the low tobacco prices prevailing throughout the country. Pitt county's delegation will probably be the largest from any other district of the state, for they are probably more seriously affected than all others because of the great amount of tobacco produced here and its splendid quality.

The Wilson meeting, it is believed, may relieve the situation to no little extent because it will have direct bearing on the situation from every angle and no doubt will result in plans which will play an important part which the eastern planter is to take to combat the low prices. Planters in his district have organized in a determined and convincing way to meet the situation, and while nothing of any definite nature has been accomplished, it is expected, however, that ideas will be presented at the Wilson meeting today that will mean much to those taking a leading part in bringing about an early increase in prices.

Since the mass meeting in this city several days ago, planters have consistently adhered to the decision of holding their product until readjustment occurred, and although right much tobacco is being marketed, this is of an inferior grade and far below the splendid average that could be established under conditions justified such. Business men of every description are doing everything possible to help the planter over the first perilous situation occurring in this late in a number of the years, and it is quite probable that combined influences will have a telling effect before the season comes to a close, or probably within the next several weeks.

The excitement which prevailed virtually in every home of the section following the opening of the tobacco market has finally subsided, being replaced by a spirit of determination to make the best of a bad situation. The planter who recently resolved to hold his tobacco in a state of preparation until prices changed is as firmly determined in this course as ever, in fact, fully determined that tobacco markets everywhere appear desolated in comparison to usual activity featuring ally sales. The situation is truly unprecedented, and every force that has been presented in the interest of better prices is being watched anxiously, hopeful that, after all, something will happen to change things in a favorable way.

ALDERMEN GRANT SPECIAL TAX LEVY FOR CITY SCHOOLS

Increased Tax to Meet Emergency Set at 33 1-2 Cents on Property, \$1 on Poll

YEAR'S BUDGET FOR CITY SCHOOLS FOUND DECIDEDLY INADEQUATE

School Maintenance Naturally Increased Under Revaluation of Property.

Under the revaluation act passed by the last legislature, the valuation of property in Greenville increased about three fold over the former value, the total reaching approximately \$11,000,000. The law providing that in levying taxes on this new valuation the rate shall not increase the total tax to be collected more than ten percent above what it was the past year, the board of aldermen at a recent meeting in planning the needs of the city administration, made a levy for all purposes aggregating 90 cents on each \$100 valuation and \$2.70 on each poll. Of this levy 20 cents on property valuation and 60 cents on the poll was designated for the maintenance of the city schools.

The board of trustees of the city schools in making out their budget of operating expenses for the current year, were of the opinion that the amount of revenue arising from this levy for maintenance made by the alderman would not be more than enough to keep the schools open longer than four months, while the law specifies that the term shall not be less than six months, and a term of eight months is desired for the town.

In order to go in to this matter fully a special meeting of the aldermen was held last night, seven members of the board being present, several members of the board of school trustees also being in attendance to lay the claim of the schools before the aldermen. Ex-Judge H. W. Whedbee spoke for the trustees, read a detailed budget of the expenses calculated for operating the schools, and declared that the trustees still have more money than provided in the levy made to run the schools or they could not be kept open for a longer time than four months.

Judge Whedbee also stated that the board of school trustees had gone over the matter carefully to ascertain the needs for running the schools, and a resolution was first adopted by the trustees to request the aldermen to increase the levy for school purposes to 60 cents on property valuation and \$1.20 on the poll. Before adjourning their meeting, however, the trustees reconsidered this resolution and voted to request a levy of 33 1-2 cents on property valuation and \$1.00 on poll. In presenting the matter for the trustees Judge Whedbee declared the schools could not possibly get along on a smaller levy than this last mentioned, and he doubted if they would be able to squeeze through on that without levying a deficit.

Some discussion followed between the aldermen and trustees present as to the legality of making a higher levy than that already made, and this point being argued to the satisfaction of the aldermen the board voted to reconsider the former levy and make the levy for all purposes \$1.03 1-2 cents on property valuation and \$3.10 on poll, the amount of this designated for school maintenance being 33 1-2 cents on property valuation and \$1.00 on poll.

It is believed that this levy will meet the approval of the tax payers of the town, for no greater misfortune could come than for our excellent city schools to be materially cut down in length of term by reason of insufficient funds on which to keep them open. The schools are doing splendid work for the children of the community and their efficiency should be increased rather than diminished.

Mr. J. H. Dudley, of Washington, is pending the day in this city.

Mr. W. C. Thomas has returned from business trip to New York.

TUESDAY, SEPT. 14, 1920.

Mr. Bryan seems to be "sulking in his tent" so far as his attitude toward the present presidential campaign is concerned.

If candidate Harding keeps on shifting he may strike eight more different positions on his league of nations attitude before election day comes.

The Republicans are welcome to all the satisfaction they can get out of the election in Maine yesterday. The outcome shows that there is not much for them to crow over.

Former Emperor Wilhelm is reported to be building a fence around himself. He ought to have been cooped long ago, but by other than his own hands.

Early in November candidate Harding will change his seat from the front porch to the back porch, or he may seek seclusion in the wood shed. At any rate it will be anywhere except in the White House.

The last report on the cotton crop of the country shows a depreciation of ten percent in condition between August 25th and September 10th. This is due to adverse weather conditions and serious insect damage which has befallen the crop.

Greenville's city schools must be maintained at the high standard they have attained, and the board of aldermen in a special meeting last night did the wise thing in making a tax levy sufficient to keep the schools at least up to their present mark.

GROWING WINE GRAPES.

The growing of wine grapes will probably receive a great stimulus in this country in spite of prohibition, as a result of the exhibit to be held in conjunction with the Fifteenth International congress against alcoholism.

An entire section of the exhibit is to be devoted to non-alcoholic uses of the wine grape. Jellies, syrups, marmalades, breakfast cereals, confections, and even breads made from wine grapes will be on display in addition to not less than two dozen different varieties of drinks, such as wines, liquors, and others heretofore considered impossible to make without alcohol.

Signer Eudo Monti, who once was head of a chemical laboratory in this country, and is now consulting chemist of the leading agricultural associations of Europe, is bringing over a huge consignment of all the new drinks he has invented and introduces them to America for the first time.

Monti's discovery of cereal uses for the grape, as well as beverage uses, have removed a big barrier to prohibition in the wine growing countries abroad. He expects to make a tour of America after the exhibit is over.

More than forty national and international scientific, religious, temperance and publishing organizations are also to participate in the exhibit. The wine industry will be represented by one or two leading manufacturers. The exhibit will be under the direction of a

committee of which Thomas Quinn, secretary of Washington, D. C., is chairman, and Cora Frances Stoddard of Boston is secretary. The exhibit will be held at the Raleigh Hotel of this city.

CHICAGO POLES ORGANIZE POLITICALLY.

The Poles of Chicago, who number about 400,000, have undertaken to organize themselves into a political league which will cover the entire city and include supporters of both the Republican and Democratic parties.

"Whoever lives in America and is served by its institutions should respect its laws and take part in promoting its welfare. No resident of this country has the right to neglect this duty, much less so those who are its citizens. This duty has always been well understood by the Poles in America and they have tried to fulfil it to the best of their ability, giving many and convincing proofs of this within recent times.

"But the Poles, American citizens, not wholly satisfied with what has been accomplished, desire to serve their adopted country in a better and bigger way. And since individual effort is not capable of bringing this about, they have decided to form a strong civic organization to be known as Kosciuszko League."

The organizing committee of the League has selected the following officers: Stanislaw Kunz, chairman; Anthony Czarnecki, Secretary, and Stephen E. could easily use this right of voting. They ought to get busy and get on the job to become citizens."

"These are typical expressions on the subject, and in startling contrast to the following pessimistic—not to say, misogynistic—viewpoint which appears in 'Narodni List,' a Croatian Democratic daily of New York.

"Politics of our times are defending case lies by means of laws. Everything in our century is based upon the might and lying coquetry of some rotten legislation, and the woman in this democratic corruption has become fox; she is revengeful, ridiculing, disturbing, demolishing and prostituting the whole human society."

"Politics have fooled us all. They have made us dissatisfied, desperate workers, who are producing only for others. They have promised us much and given us dollars to cure with them the sick body and offended soul."

"Politics will also fool the women. Let the women have the suffrage, let them also throw themselves into the whirlpool of life, let them speak in the parliaments, let them be lawyers and judges. Let them also do the corruption and help to ruin the deceitful social structure."

"But let the women know well that the right of law is not by far the right of nature. Just as the law has not given us up to date the possibility of humane living, so that politics will not give the women anything good. "The main thing women need today is the culture of heart and not politics of deceitful representation. It is too bad because woman in politics will spoil her already poisoned natural character."

NOTICE.

North Carolina, Pitt County, In the Superior Court. Ben Hill, Plaintiff.

vs.

Annis Hill, Defendant.

The defendant above named will take notice that an action entitled as above as been commenced against her in the Superior Court of Pitt County, N. C., for the purpose of obtaining an absolute divorce.

And the defendant will further take notice that she is required to appear before the clerk of the Superior Court of Pitt county, N. C., within twenty days from the 13th day of October, 1920 and answer the complaint which will be filed in the office of said clerk of the Superior Court of Pitt county within the time prescribed by law, or the plaintiff will apply to the court for the relief demanded in the complaint.

J. F. HARRINGTON,

Clerk Superior Court, Pitt County. This Sept. 13th, 1920. 11-taw4wks

Budapest, Sept. 11.—The cost of travel for Americans in Central European and Balkan countries is reaching extortionate proportions through the tendency to charge Americans the same rate for passport visas as that of the American government for foreigners, which recently was increased from \$1 to \$10. If this tendency is continued, an American in the course of a few days' journey passing several frontiers, may have to pay \$30 to \$50 in fees.

"THE INFERIOR SEX" WITH

MILDRED HARRIS CHAPLIN

It is an entertaining picture—suspense creating and sympathy arousing. The story deals with a young woman who loves her husband too much. He becomes bored. She decides to arouse his jealousy, and thus make him show her more love. While carrying out her plan, she becomes the victim of her sister-in-law's intrigues. The latter is a married woman, but has relations with a young man. In order to cover her own indiscrete conduct, she lets the suspicion fall on the heroine. She shortly quarrels with her husband, and leaves him, following her lover.

Evidence falls into the heroine's hands proving that her sister-in-law's lover does not care for her, all she wants being information about some Wall street stock in which her husband is interested. The heroine follows the pair and informs the sister-in-law. Their husbands arrive on the scene, but the heroine, to save her sister-in-law, takes the blame, making herself appear as the runaway. Her husband, the hero, becomes aware of her sacrifice, and for that, he now loves her all the more.

The heroine's act of taking the blame on herself to save somebody else, wins your warm sympathy.

No offensive sex situations are shown White's Theatre Thursday.

FIFTH ANNUAL MEETING OF

MASONS BE HELD IN GRIFTON

THURSDAY, SEPTEMBER 16

The Fifth Masonic District of the Grand Lodge of North Carolina A. F. and A. M. will hold its Fifth annual meeting Thursday, September 16th, 10 o'clock A. M. at Grifton, N. C.

Complete arrangements have been made by the local committee and a most pleasant occasion is anticipated.

These meetings have been most enjoyable in the past and the district deputy grand master urges every member of the craft to be present and to extend this notice as widely as possible among the masons of the district.

The following program has been arranged by the committee:

- 1. Opening Grifton Lodge No. 452 A. F. and A. M.
2. Address of welcome.
Hon. Brother G. T. Gardner, master (Grifton Lodge).
3. Response—Hon. Brother T. C. Galloway, master Grimesland Lodge, No. 475.
4. Roll call and reports from lodges of the Fifth Masonic district.
5. Report of treasurer Fifth District Masonic Endowment Fund, Bro. R. H. Wright, Greenville, N. C.
6. Message of the District Deputy Grand Master to the Lodge of the Fifth district.
7. In Memoriam—Most Hon. Brother John H. Cheek, P. S. S. G. M. Brother E. T. Phillips, Ayden Lodge.
8. Election of officers.
9. Closing Grifton Lodge No. 452.
Annual Address.
10. The Challenge of the Present World Conditions to Masonry, Most Hon. Brother J. B. Turner, Associate Grand Chaplain, Grand Lodge of North Carolina.
Dinner.

M. K. BLOUNT, Chairman County Board of Elections. 13-1wk.

PETITION FOR NEW VOTING PRECINCT.

A petition signed by one hundred and fifty voters of a part of Ayden township and Swift Creek township has been submitted to the county board of elections for Pitt county for the establishment of a voting precinct at Grifton for the convenience of the voters who reside within the territory outlined below:

The line of said voting precinct to begin on Contentnea Creek in Ayden township, being the corner between the lands of W. L. McLawhorn and Mark Ferguson, and running in a northerly direction with said line to the road in front of J. P. Dawson's thence continuing and line of Swift Creek township, leading from Hanrahan's to Roundtree's church, thence down said road in an easterly direction to Hanrahan's crossing and line of Swift Creek township, hence in a northerly direction up said road with the line of Swift Creek township to Garris Crossing on Swift Creek, thence down the run of Swift Creek until you reach Craven county line near Gardner's Bridge, thence with the Craven county line and Swift Creek township to Neuse river; thence up Neuse river to Contentnea Creek thence Contentnea Creek to the beginning."

The county board of elections will give a hearing in the court house in Greenville next Monday, September 20, 1920, at 10 A. M. for the purpose of determining whether or not this precinct shall be established. All voters interested for or against the creation of this precinct are urgently requested to be present.

M. K. BLOUNT, Chairman County Board of Elections. 13-1wk.

**PREVENTING ALCOHOLISM.**

The sessions of the Fifteenth International Congress Against Alcoholism, to be held in Washington, September 1 to 26, are expected to have a direct relation to the development of aviation in this and other countries, due to discussions which will be had of the relationship of alcohol to the health of the individual, and to the nervous reaction which follows the use of it. Dominance in the world of aviation, which promises to be one of the goals sought by many nations, according to scientists who will participate in the International congress, will depend to such an extent as few appreciate upon the use or non use of alcohol.

Dr. Eugene L. Flisk, medical director, Life Extension Institute, New York City, will have as his subject on the program for Tuesday, September 21, "The Relationship of Alcohol to Modern Health Ideals," in which the effect of alcohol on judgment is to be analyzed. Other scientists, notably Dr. Charles B. Stockard of Cornell University, will discuss, directly, scientific investigations of the action of alcohol on the brain and the nervous system. It is possible that other modern callings, developed in great part by the experiences of the war, and particularly those involving risk to human life will, like aviation be made the subject of detailed inquiry and discussion.

Victoring, it has also been suggested, with its countless opportunities for injury to drivers and others, has attained such tremendous vogue in most countries that special discussion of its relation to alcohol will occur as incidental to the main themes on the program.

**GETTING STOCK SALESMEN.**

People are responding to requests from the Insurance Department to report all stock salesmen who solicit and who fail to show a license. Monday one arrest was made of a fellow who had sold and collected stock in a corporation that had never been organized. Friday, three arrests were made at widely divergent points, Asheville, Sandborne and Wilson, two alleged wild cat oil stock operators, and one fertilizer stock salesman. Records at the Insurance Department showing that neither company had been licensed, the men were arrested on wired information from Deputy Commissioner Tary Wade.

The uphill fight which Commissioner Young has been making against the indiscriminate purchasing of stock from any kind of promoter or solicitor has attracted attention in all parts of the country and is being commended generally. The president of the American Banking Association, Mr. Richard Hawes, recommends a general effort in every state for the enactment of a more stringent Blue Law by the coming legislatures.

# INDIA INDIFFERENT TOWARD FUTURE OF PRINCE OF WALES

Director of Bureau of Information Declares County is Really Hostile.

New York, Sept. 13.—India's attitude toward the Prince of Wales is one of cold indifference if not actual hostility," according to Dr. N. S. Hardiker, director of the India Information Bureau, who made public here today certain phases of the Nationalist movement which, he said, had caused King George to cancel by royal decree on August 17 the proposed visit of his heir apparent to India next winter.

It had been announced that the prince would go to the purpose of inaugurating reform legislation in connection with elaborate Durbar ceremonies at Delhi. The Duke of Connaught, formerly Governor General of Canada, the decree stated, will perform the royal function in the prince's place.

"Developments in the next few months in India," said Dr. Hardiker, "promise to be more fundamentally significant than any that have occurred since the Indian war of Independence or Sepoy Rebellion of 1857. The year 1920 has been filled with excitement and change. From last March until May, a period of about 60 days, 125 strikes occurred, 85 of them in the Bombay district alone. These labor outbreaks typify a new phase in the discontent of the masses.

"The second great movement of the present year has been the attitude of people toward the Turkish peace treaty settlement, India has besides its Hindu population of 230,000,000, a Mohammedan population of 10,000,000. Previous to 1910 the British government weakened the Nationalist movement by encouraging the separation of the Hindu and Mohammedan. Today, for the first time in its long history, the Hindu and Mohammedan are united.

# CAMPAIGN TO MAKE SCOTLAND DRY HAS BEGUN IN EARNEST

Temperance Enthusiasts Believe County Will be Dry Within Year.

Edinburgh, Sept. 13.—The campaign to make Scotland dry has been started in earnest by the National Citizens' Council. Under the provisions of the Temperance (Scotland) Act which enables the electors to decide by a vote whether the country shall go dry, requisition forms demanding a poll on the no-license question have been issued. In order to secure a poll ten percent of the electors in each area must sign the requisition forms. Should this be forthcoming the next stage will be the taking of the vote which will decide whether the people shall have no licenses, or fewer licenses in their own areas, or there shall be no change.

Temperance enthusiasts believe that although Scotland may not go dry this year the no-license resolution will be carried in many municipal wards. They have obtained the services of W. (Pussyfoot) Johnson who will address a number of meetings next month in the other hand, the liquor tradesmen are also arranging for a series of meetings at which prominent speakers will describe the effects of prohibition in America. The dealers charge that the act aims "a deadly blow at the hard won liberty of the people."

## NOTICE OF SERVICE BY PUBLICATION.

North Carolina, Pitt County.  
L. F. Davis  
vs.  
J. V. Worthington.  
The defendant above named will take notice, that an action entitled as above has been commenced in county court of Pitt county, North Carolina, to obtain judgment for the non-payment of three promissory notes in the sum of \$275.00 executed by the defendant to the plaintiff above named; and the said defendant will take notice that he is required to appear before the clerk of the Superior Court of Pitt county, North Carolina, on the 26th day of August, 1920 at the court house in Greenville, then and there to answer or demur to the complaint of the plaintiff in said action, or the plaintiff will apply for the relief demanded in said complaint.  
This the 16th day of Aug., 1920.  
Clerk of the Superior Court of Pitt County.  
19-26

# TELEGRAPH HAS RAPID GROWTH

Government Report Shows 1,888,793 Miles of Wire Used by 21 Companies.

## BIG INCREASE IN MESSAGES

Last Five-Year Period Shows 45.7 Per Cent More Telegrams—Par Value of the Capital Stock is \$106,360,237.

Washington.—According to a report just issued by Director Sam L. Rogers of the bureau of the census, department of commerce, the 21 commercial land telegraph systems in the United States in 1917 operated 241,012 miles of pole line, comprising 1,888,793 miles of wire; sent 151,725,238 messages, and employed 47,227 persons, to whom were paid salaries and wages amounting to \$36,392,140.

This report, which is issued under the title, "Telegraphs and Municipal Electric Fire Alarm and Police Patrol Signaling Systems," was prepared under the supervision of Eugene F. Hartley, chief statistician for manufacturers, and is the fourth of a series of quinquennial reports on the telegraph systems of the country.

The pole-line mileage in 1917 was less by 2.6 per cent than in 1912, but was greater by six-tenths of 1 per cent than in 1907. The wire mileage, however, showed an increase of 4.1 per cent as compared with 1912 and of 19.7 per cent over 1907.

**Big Increase in Messages.**  
The increase in the number of messages was much greater—45.7 per cent during the last five-year period and 53.1 per cent during the ten years from 1907 to 1917. The number of employees increased by 39.2 per cent between 1912 and 1917, and by 84.9 per cent during the period 1907-17 and the corresponding percentages of increase in their salaries and wages were 59.2 and 124.2.

The number of telegraph offices in 1917 was 28,865, a decrease of 6.2 per cent as compared with 1912 and of seven-tenths of 1 per cent as compared with 1907. The total income from telegraph traffic was \$91,812,567, an increase of 74.5 per cent over 1912 and of 140.8 per cent as compared with 1907; the income from all other sources was \$1,641,808; the total expenses, including charges for depreciation and sinking funds, were \$80,828,070, an increase of 52.9 per cent over 1912 and of 111.4 per cent over 1907, and the net income was \$12,125,400, an increase of 253.4 per cent as compared with 1912 and of 113.7 per cent over 1907.

The par value of the outstanding capital stock of the companies was \$106,360,237, a decrease of 1.7 per cent as compared with 1912, but an increase of 4 per cent over 1907.

**Printing Telegraph Comes In.**  
The foregoing figures relate only to commercial telegraph companies, and thus exclude the wire and pole line wholly owned and operated by railroads, and also exclude the equipment and telegraph business of the various press associations which lease and operate wires for dispensing news.

During the five-year period 1912-1917 the printing telegraph came into extended use by telegraph companies, press associations and railroads. The printing telegraph consists essentially of a sending instrument equipped with a keyboard similar to that of a typewriter, electrically connected with a receiving instrument in such a manner that the latter automatically reproduces what is typewritten on the sending instrument. Without the printing telegraph it would have been difficult or impossible to handle the increased telegraph business during the great war.

## CHILDREN ARE MOVIE FANS

Domestic Films Take First Place. With Cowboy Adventures Second, Inquiry Shows.

London.—London school children like the movies, more than 90 per cent, it was developed by a recent investigation, being more or less regular in their attendance upon such exhibitions.

Analysis of replies from 6,500 youngsters who were asked to write their preferences show that domestic stories have first place. Others in order of preference are cowboy adventure, comics, war films, serials, crimes, love stories, educational.

The popularity of moving pictures in London is proved by the fact that a new corporation will soon invest \$10,000,000 in picture palaces.

## Large Yield of Cabbage.

Emporia, Kan.—Farmers and gardeners who have seen the cabbage patch in Jason Austin's garden are unanimous in giving Austin the title of Lyon County Cabbage King. Mr. Austin, a hotel proprietor, has grown 1,200 pounds of cabbage on a patch of ground containing nearly 2,000 square feet. The cabbages average three pounds each, and are free from insects.

## Judges Played Safe.

Cedar Falls, Ia.—Baby-show judges here showed rare talent for the job. They awarded every contestant a prize. "No irate mothers for us," they said in unison.

### IT'S EASY TO FALL DOWN STAIRS

What we are going to say in the next 50 words or so IS SO.

It's a little signal of warning that will keep you out of hot water if you let it run thru' your memory and splash around in your spending sense.

#### DON'T FALL TOO HARD FOR A PRICE THAT IS EASY TO PAY

The cost of GOOD Fall clothing is established the same as the price of good milk, butter and eggs and no store will give you a reliable suit at a ridiculous price—any more than you would sell your home for \$2,000 less than it is worth.

\$45, \$50 and \$60 are the prices you should pay for satisfaction. \$30 and \$35 sound sweeter but watch your step this Fall—it's easy to fall downstairs.

Kuppenheimer Suits, Stetson Hats, Manhattan Shirts, Edwin Clapp Shoes.

### SOCIAL - PERSONAL

#### FULL MANY A MAN

Full many a man has jumped to get The spotlight on the stage, Where human beings storm and fret, The actors of their age, Full many a man with conscious pride Has leaped into the glare, And thought the world was satisfied To have him linger there.

Full many a man dejected gropes Back where the shadows teem, And finds his self-approving hopes Are but an empty dream. Full many a man Fate puts on view Where all the crowd may look; Then lets him speak a line or two, And murmurs, "Get te hook."

—Philander Johnson.

Mrs. C. L. Porter and children have returned from a visit in Charlotte.

Mrs. J. B. James and children have returned from Greenville, Tenn., where they have been spending the summer.

Misses Lillian Joyner, Josephine Skinner, Mary Andrews, Mary Harding, Mary Louise Langley, Helene Higgs and Lillian Hooker left this morning for Raleigh where they will enter St. Mary's College.

Miss Grace Whitaker has returned from a visit in Rocky Mount.

Misses Ada James, Emily Moya, and Virginia Arthur left this morning for Salem where they will attend College.

Mrs. James Hines, Mrs. R. Williams, Mrs. Ada Cherry, Mrs. Bryan and Mrs. O. F. Clark left this morning for Chapel Hill to attend the State Convention of King's Daughters.

Mrs. Everett Stroud and daughter, Miss Lillian have returned from Asheville where they spent the summer.

Misses Alma Rightsell, Velma Martin and Mae McCurry, have arrived to resume their work in the Greenville graded schools.

Miss Mary Perkins Norman has returned from spending the summer.

Mr. T. O'H. Dupree, who has been visiting his mother, Mrs. R. Hyman, left yesterday evening for New Orleans.

Misses Elizabeth Hinton, Arnette Hathaway and Clara Carroll have arrived to resume their work in the Greenville Graded Schools.

Mr. and Mrs. H. E. Austin have returned from a month's visit in Worcester and Jefferson, Mass., and Baltimore, Md.

#### BRINGING UP FATHER TO APPEAR TWICE FRIDAY

"Bringing up Father at the Seashore" will arrive in this city Friday and will appear twice that day in White's Theatre. In the afternoon at 3 o'clock there will be a matinee to which the admission for children will be 55 cents and grown ups \$1.10. This includes war tax and the privilege to sit anywhere in the house.

#### RECRUITING OFFICE OPENED IN LOCAL POST OFFICE BUILDING

A navy recruiting office has been opened in the post office building, Greenville, N. C., for the purpose of securing recruits for the navy.

All ex-service men, naval reservists, and others interested are requested to call and secure any information they desire on the navy.

Enlistments are being made for all branches of the service of young men between the ages of 17 and 35 years.

#### WURLITZER ORCHESTRA PIANO INSTALLED IN WHITE'S THEATRE

Mr. S. T. White has just installed a Wurlitzer orchestra piano in his theatre, and the music which it affords is exceptionally good. Mr. White gives his patrons the privilege of seeing the best pictures and with this new addition to his theatre it will become more popular than ever.

#### MR. E. F. TUCKER ILL IN WILSON HOSPITAL

Many friends of Mr. E. F. Tucker will be grieved to learn that he is confined in Moore-Herring hospital, Wilsop, suffering from an attack of appendicitis. It is hoped that his recovery will be speedy, and that he will soon be home again.

#### MRS. J. WELLS SMITH ANNOUNCES OPENING 16TH AND 17TH

Special showing of ladies' ready-to-wear and millinery Thursday and Friday, September 16th and 17th.

MRS. J. WELLS SMITH, Farmville, N. C.

#### PITT COUNTY FAIR NEXT WEEK

A week from today the Pitt county fair will open, beginning on the 21st and continuing four days. Persons who are contemplating making exhibits should be getting them ready. It is going to be a great fair and a large crowd is expected every day.

The little folks are now pulling for the school room.

#### RUSSIAN SOVIETS HAVE TAKEN FULL SWAY ABOUT BRODY

London, Sept. 14.—The Russian Soviet forces of Moscow report that they have taken the offensive on both sides of Brody, near the old Galician border, and are marching on Lemberg. An exchange telegraph to the Berlin Dispatch says that the Polish and Ukrainian troops have been driven back by the Russian calvary.

#### AMERICAN SOLDIERS CONFESS WHOLESALE THEFTS IN NEAR EAST

Constantinople, Sept. 14.—Six former American soldiers virtually confessed a part in thefts said to amount to hundreds of thousands of dollars from the American committee for relief in the Near East. Officials say investigators declare that thefts also involve officers of other charity war organizations who worked temporarily with the Near East committee.

# Market Report

SALES SCHEDULE

Wednesday, September 15 ----- 2nd Sale  
Thursday, September 16th ----- 1st Sale  
Friday, September 17th ----- 3rd Sale

Our Board of Trade decided Friday to keep open the tobacco market until March 15th, and urge the slow marketing of this crop. The tobacco on our sale Thursday was what was left over from opening sale Tuesday, most of which was put on floor Monday. This tobacco was badly trampled upon and bruised, and of course showed up to great disadvantage. Sales Friday were light, averaging much better. We sold a few piles of tobacco around 70c. The real common grades continue to sell low, whereas, some of the better grades show an increase of 25 per cent over the opening. We urge holding off the marketing of the real common grades, and marketing very slowly the better grades.

## STAR WAREHOUSE

SMITH and SUGG,

Owners and Proprietors

### BRITISH INFORMED OF DESTRUCTION OF EXPENSIVE FILMS

Government Committee Reports Destroying Films Calued at \$117,000.

London, Sept. 14.—The British public has just learned from the report of a government committee that a moving picture film prepared by direction of the War office at a cost of \$117,000 was destroyed after the armistice by government order because it was considered unsuitable for exhibition in peace time. The film was intended by the government to show what might have happened if England had been invaded by the Germans but it was not ready to be exhibited before the signing of the armistice and consequently was never publicly produced.

The Star reports that the film was a masterpiece of realism. There were

many scenes depicting the British countryside under enemy rule, taken from real incidents obtained from Belgium and France and "battles" were arranged in which actual army corps took part.

William Davies, a well-known pageant producer was given carte blanche by the war office, which supplied all accoutrements needed and a staff of naval and military officers to ensure every detail being correct. German uniforms, helmets, rifles and other paraphernalia from prisoners of war were appropriated to equip the "invading force."

A special cinema camp was established in the neighborhood of the inland town of Chester, so that airplane and Zeppelin raids should not interfere with the production. For two or three hours on a number of days, a railway station at Chester was closed to the public, in order that British and "German" troops might be filmed entraining and detraining. One of the principal difficulties was to induce British soldiers to appear in German uniforms. The mimic fights were far real than the biggest fighting action films have ever shown, says the report.

### ALABAMA LEGISLATURE MEETS TO FRAME LAW FOR SUFFRAGE ISSUE

Montgomery, Sept. 14.—The Alabama legislature met today in special session to frame legislation giving woman the ballot in conformity with the federal suffrage amendment.

### NATIONAL BALLOON RACE EXPECTED TO SET NEW RECORDS

(Continued from page one.)  
from Mars through a receiving station 30,000 feet above the earth.

The second race, which is to start October 23, will be the fourth occasion on which the United States has defended the Gordon Bennett international trophy since its foundation in 1906. The entries, six in all, are: Italy two, United States, three and Belgium one.

Although America is the title holder by virtue of winning the last race, France has an unbeaten record for distance, made in 1912 when Maurice Bienaime covered 1,361 miles without touching land, besting the American record of 1,172 miles set in 1910 by Alan R. Hawley.

The balloon "Belgica," of 2,000 cubic meters capacity, has been entered by the Aero Club of Belgium. It will be piloted by Ernest Demuyter, who contested in the race of 1912.

### GAMBLING FINALLY CHECKED IN MANY PORTUGAL HOUSES

(Continued from page one.)  
not a street in Lisbon was without two of three gambling houses.

A great change came over the humdrum social life of Lisbon, where nothing in the way of amusement ever happens beyond theatres and moving picture shows. The club-restaurant's excellent cuisine, attracted fashionable crowds, constant relays of American and English tourists spent their money lavishly and smartly dressed women coming nobody knows from where were a doubtful source of attraction in the streets by day and at the clubs by night.

This condition existed for well over a year. Then well-known firms were robbed by trusted employes.

Which is the

"It Is So Much BETTER"

# Gentry & Gorman

### A FEW AVERAGES MADE MONDAY

Gorman's gets it's first first sale so far since opening today and we have fully half of what is in town

Our Monday's sale of 46082 pounds averaged twenty-two dollars per hundred. We had several to tell us it was the highest sale they saw in town and some who had sold on other markets claimed prices were five to ten dollars higher. If you have got to sell, we advise grading the tobacco that has body; that is skipping the first and last curings.

Green and common tobacco have no friends and we feel sure that these and also the thin primings with color will do better later on.

Drive to Gorman's and you will get the top of the market. No house in town protects your tobacco as we do.

We attach a few averages made Monday:

Gorman's has first sale Tuesday, 4th Wednesday, 3rd Thursday and 2nd Friday.

# PRINCIPAL EXHIBITION BUILDINGS TO BE BIG ATTRACTION TO THOUSANDS ATTENDING THE PITT COUNTY FAIR

Many Things of Interest from Various Parts of the Country Will Be on Display, Including a Number of Features That Will Be of More Than Ordinary Interest to People in This Particular Locality.

The main exhibit building at the Greenville Fair will be one of the show places of the big exposition and thousands of people will visit this during the week and view the scores of exhibits therein and the attractive booths which local merchants and manufacturers will have in the building during the week.

The main exhibit building is one of the show places of the fair grounds. Located on the west side of the grounds, right near one of the entrances, it is easily accessible and everyone visits the exposition will doubtless drop in there for a short stay and look around.

It is down near the center of the large and well lighted building that the exhibits are to be seen. There will be found the handiwork of scores of Pitt county people, the products of the soil and specimens of fish and crustaceans taken from local waters. There also will be found the exhibits put in by the public schools of the county, and the whole will prove most interesting.

And special attention will be called to the booths of the local merchants and manufacturers. In these will be seen the display of their goods and wares. Souvenirs galore will be presented to the visitors and everyone will be made to feel at home and that their presence is welcomed and appreciated.

And not only in the main exhibit buildings, but also in the buildings in which are located the swine and poultry shows, will there be found things of interest. In these will be found the finest specimens of fowl and swine that are to be located in the eastern part of the state, and the farmers particularly are invited to visit these and look them over.

In the building devoted to agricultural machinery will also be found many implements of interest to the farmer and those interested in agricultural development and a trip to the fair grounds will not be complete without a visit to each and every one of these show places.

Incidentally, while the fair grounds will be open at night, the exhibit buildings will be closed after 6 o'clock and the visitor must inspect the displays each day before that hour.

## NATIONAL BALLOON RACE EXPECTED TO SET NEW RECORDS

International Contest to Start From Birmingham Filled With Possibilities.

New York, Sept. 1.—The national balloon race scheduled to start from Birmingham, Ala., this month and the international contest for balloonists to start from the same city in October are expected by Aero Club officials in charge of the races to set new records. This hope is based upon the greater gas capacity of the balloons and lessons of construction learned in the war.

The national event, due to start September 25, will see 15 contenders lined up, each aspiring to be one of three who will defend the Gordon Bennett Cup which has been in America since being lifted from France in 1913 by Ralph Upson, of Akron, Ohio. Upson, present international title holder, made his entry as soon as the race was announced. Three bags have been entered by the army air service, one by the navy and another by the army balloon school, Fort Omaha. The other balloons have been entered by civilians.

## CAMPAIGN TO MAKE SCOTLAND DRY HAS BEGUN IN EARNEST

Temperance Enthusiasts Believe County Will be Dry Within Year.

Edinburgh, Sept. 1.—The campaign to make Scotland dry has been started in earnest by the National Citizens' Council. Under the provisions of the Temperance (Scotland) Act which enables the electors to decide by a vote whether the country shall go dry, requisition forms demanding a poll on the no-license question have been issued. In order to secure a poll ten percent of the electors in each area must sign the requisition forms. Should this be forthcoming the next stage will be the taking of the vote which will decide whether the people shall have no licenses, or fewer licenses in their own towns, or there shall be no change.

Temperance enthusiasts believe that although Scotland may not go dry this year the no-license resolution will be carried in many municipal wards. They have obtained the services of W. (Pussyfoot) Johnson who will address a number of meetings next month. On the other hand, the liquor traders are also arranging for a series of meetings at which prominent speakers will describe the effects of the

## ONE OF FIVE FREE ACTS TO BE PRESENTED DAILY AT THE PITT COUNTY FAIR

The above picture shows one of the five big free acts in progress to be given at the Pitt County Fair to be conducted in this city September 21, 22, 23, 24. These acts will contribute largely to the success of the fair which will be one of the largest to be conducted in this section of the state. In fact, there will be something going on all the time in the way of horse racing, shows, midway performances and hundreds of interesting exhibits from every part of the country. Promoters plan to make the attraction a true representative of one of the richest and most thriving farming districts of the country, and everyone who attends may rest assured that nothing will be left undone to detract from their enjoyment.

## FOURTH OF JULY RACES ATTENDED BY LARGE CROWDS FROM SEVERAL TERRITORIES THROUGHOUT STATE

Hundreds of People Attended the First Registered Horse Races Conducted in Greenville Following Completion of the Fair Ground Track. Races at the Fair to be Prominent Feature and Will be Participated in by Many Fast Horses.

The following clipping taken from The Daily Reflector of July 6th will prove of more than general interest to the paper's many readers because it deals with the first registered horse races conducted shortly after the completion of Fair Grounds track. The races at the Fair will be one of the outstanding features as some of the fastest horses of the county have been entered for participation throughout the entire four days.

The article follows: It is estimated that some over five thousand people attended the Fourth of July horse races conducted at the fair grounds in this city yesterday afternoon, and all reports indicate that the crowd was the most orderly for its size in many years. The races began at one o'clock with the final heats being concluded shortly before six o'clock. The event consisted of four classes with from six to eight of the fastest horses in this section of the state participating in each race.

The fair grounds was completely thronged with people as early as one o'clock, with every seat in the large grandstand being occupied. The grandstand in the ball park was also completely packed at two o'clock, while throngs gathered on the inside of the track and around the track rails to witness the occurrence. Each mile heat was closely contested, and interest was intense until the last horse passed under the wire in the final heat. The ball game slightly augmented the crowd at five o'clock, and there was so much interest manifested in the game that the field would hardly accommodate the crowds. The outfield and side lines were literally swarming with spectators, and playing at times became rather difficult on account of the crowd unintentionally pushing too near the outfield lines.

More than general interest was manifested in the races, for races, for practically every horse had been in training at the local track for several weeks, and had established enviable records in recent matinees. They showed careful training in every heat yesterday, and circled the track in a way that held interest of the spectators in a pleasing way until the final heat.

The following horses and drivers participated in the races, with their position when they passed under the wire at the judges' stand:

2.17 Pace—"The Autocrat," driven by Staton; heats, 1-1-1, "O'brian Boy," driven by Becker, heats 3-4-4; "Toney Mack," driven by Johnson, heats 4-2-2; "Cornstalk," driven by Wingate, 2-3-3. Time 2:21.1-4.

2.18 Trot—"Lyndon," driven by Becker, heat 3-4-1-1; "Chiquita," driven by Johnson, heats 4-2-2-2; "Don Aristocrat," driven by Causey, heats 1-1-3; "Edith Watts," driven by Staton, heats 2-3-4. Time 2:23.1-4.

2.24 Pace—"Beverly Axworthy," driven by Ford, heats 7-2-7-7; "Dan Joyner," driven by Ford, heats 6-7-3-2; "Dean," driven by Savage, heat 5-6-6-4; "Marie Dewey," driven by Anderson, heats 2-3-5-3; "Willie B.," driven by Causey, heats 1-5-2-2; "March Ann," driven by Barnhill, heats 3-1-1-1. Time 2:24.3-4.

2.27 Trot—"Joe W.," driven by Ford, heats 4-4-4-4; "Geisboro," driven by Welch, heats 2-1-2-3-2-1; "Peter Elkin," driven by Becker, heats 5-3-5-5; "General Funston," driven by Staton, heats 2-1-3-1-2-1; "Golden Heart," driven by Johnson, heats 3-5-3-1-1-2. Time 2:24.1-4.

## MIDWAY TO BE AMONG PRINCIPAL ATTRACTIONS DURING FOUR DAYS OF PITT COUNTY'S FIRST FAIR

Great Krause Shows Have Been Secured to Provide Splendid Features—Something Will Be Doing Virtually Every Minute—Many Concessions, Candy Wheels, Ferris Wheel, Merry-Go-Round and Other Things Will Be Included.

The midway of any fair is one of the stellar attractions, and the Pitt County Fair is fortunate this year in having the best and most interesting "joyway" that ever visited the eastern section of the state, and that it will make a big hit with those who visit the grounds is assured.

The Krause greater shows, the whole aggregation, has been secured for the "midway" at the fair this year, and this means that there is going to be something doing every minute during the entire big week.

There will be the usual shows and a lot of unusual ones. There will be one of the best plantation shows ever gotten together, an illusion attraction, a menageries in which the fat woman, the human skeleton and a score of others will be seen and many others, all of these being of the very highest class.

Of course the concessions will be there, the candy wheel, the cane and knife racks and the full list of others, all going to make up a complete midway.

All in all the visitors to the fair will find that this part of the exposition will be the biggest, best and most joyful they have ever seen, one that will please all and one which will make a hit with every visitor to the grounds.

Incidentally the midway will be open at night and the shadows of evening, when they fall, will find everything there in full blast.

## GAMBLING FINALLY CHECKED IN MANY PORTUGAL HOUSES

Government Headed by Premier Baptista Brings Number of Changes

Lisbon, Portugal, Sept. 11.—Gambling which flourished here to an extraordinary degree after the armistice has offered a severe check at the hands of the new government headed by Premier Baptista. Up to two months ago, the gambling houses remained undisturbed but since Baptista's government took office the law has been rigorously enforced and today there are few visible signs of the prosperity the gamblers have enjoyed for a year.

The gambling mania began to manifest itself as soon as the war ended. Magnificent clubs on which big fortunes must have been spent suddenly sprang up like mushrooms; gilded, glittering clubs, splendidly furnished, such as Lisbon never dreamed of possessing. Palaces belonging to the old aristocracy were rented at incredible prices and transformed into "The Majestic," "The Palace Club," "Maxim's," "Palais Royal" and dozen of others on the same scale, with restaurants, ballrooms and gambling rooms; everything being perfectly planned and carried out on the most modern and expensive lines. Hundreds of smaller imitations followed.

## HARVARD COLLEGE CLAIMS GREATEST CAMERA IN WORLD

South American Observatory Said to Contain Largest Photographic Outfit.

Santiago, Sept. 11.—The South American station of Harvard University's observatory, tucked away in the Peruvian Andes near the city of Arequipa, in the old Inca empire, boasts of the largest photogenic apparatus in the world. It is a huge telescopic camera with a 24-inch lens which has been of great aid to science in its observations of the southern skies.

The station was founded 30 years ago and is located near the base of the famous Andean Volcano, Misti. The Arecupian Indians, descendants of the Inca civilization, frequently speak of themselves as the sons and daughters of old Misti. It is said the Indians in the surrounding country still worship the mountain with much reverence, regarding it as the source of earthquake which are felt in the region.

The volcano erupted seven years ago. Superstitions in regard to the mountain date back to prehistoric times. The ruins of the ancient pagan temples, a writer says, have been found in the crater of the volcano and even today near the top may be seen a great iron cross placed there in 167.

## "Bulldogging" a Steer

"Oklahoma Curry" "bulldogging" a steer during the Wichita Falls round up. This is a favorite stunt among cowboys. It consists of leaping from their horse and grabbing the steer by the horns, wrestling with him until he falls.

ONE OF FIVE FREE ACTS  
TO BE PRESENTED DAILY  
AT THE PITT COUNTY FAIR

The above picture shows one of the five big free acts in progress to be given at the Pitt County Fair to be conducted in this city September 21, 22, 23, 24. These acts will contribute largely to the success of the fair which will be one of the largest to be conducted in this section of the state. In fact, there will be something going on all the time in the way of horse racing, shows, midway performances and hundreds of interesting exhibits from every part of the country. Promoters plan to make the attraction a true representative of one of the richest and most thriving farming districts of the country, and everyone who attends may rest assured that nothing will be left undone to detract from their enjoyment.

## ERECT MEMORIALS IN HONOR OF TWO CIVIL WAR HEROES

## AMERICANS PAYING EXCESSIVE PRICES IN BALKAN STATES

Virginians to Unveil Memorial in Honor of Generals Ramseur and Pettigrew

DEDICATION TO TAKE PLACE IN TERRITORY WHERE VETERANS DIED

Major Steadman to Speak at Memorial Dedication of Ramseur Monument.

Winchester, Va., Sept. 11.—Memorials to two Confederate Generals, Stephen Dodson Ramseur and James Johnston Pettigrew, both North Carolinians, will be unveiled near here during the coming week at the places where they died. Many southerners, principally North Carolinians, are expected here for the exercises which will be under the joint auspices of the North Carolina Division of United Confederate Veterans and the North Carolina Division of United Daughters of the Confederacy and the North Carolina Historical Commission. The memorial to General Ramseur which marks the Belle Grove House where the general died October 20, 1864, will be dedicated on the afternoon of September 16. The memorial to General Pettigrew which marks the Lloyd House where he died July 17, 1863, will be dedicated on the morning of September 17.

The two memorials consist of granite columns, the gift of the late Colonel P. H. Mayo, of Richmond, Va. At the Ramseur memorial dedication on Thursday afternoon the speakers will include Major Charles M. Steadman, formerly a member of General Ramseur's staff and former Senator Henry A. duPont, of Delaware, who was a classmate of General Ramseur at West Point, afterward an officer in the Union army.

### GETTING STOCK SALESMEN.

People are responding to requests from the Insurance Department to report all stock salesmen who solicit and who fail to show a license. Monday one arrest was made of a fellow who had sold and collected stock in a corporation that had never been organized. Friday, three arrests were made at widely divergent points, Asheville, Chadborne and Wilson, two alleged wild cat oil stock operators, and one fertilizer stock salesman. Records at the Insurance Department showing that neither company had been licensed, the men were arrested on wired information from Deputy Commissioner Tracy Wade.

The up-hill fight which Commissioner Young has been making against the indiscriminate purchasing of stock from any kind of promoter or solicitor has attracted attention in all parts of the country and is being commended generally. The president of the American Banking Association, Mr. Richard Hawes, recommends a general effort in every state for the enactment of a more stringent Blue Law by the coming legislatures.

Cost of Travel Becoming Exorbitant in Every Section of Country.

Budapest, Sept. 11.—The cost of travel for Americans in Central European and Balkan countries is reaching extortionate proportions through the tendency to charge Americans the same price for passport visas as that of the American government for foreigners, which recently was increased from \$1.00 to \$10. If this tendency is continued, an American in the course of a few days' journey passing several frontiers, may have to pay \$30 to \$50 in visas.

For travellers of all nationalities, however, the charge has been rapidly increasing during the past six months. The Germans began the high charges demanding \$5. Then Austria followed suit with the same charge and Hungary and other countries have been obliged to make like charges. Because of the huge revenue so obtainable, passports are severely examined, more so than in war time.

### PREVENTING ALCOHOLISM.

The sessions of the Fifteenth International Congress Against Alcoholism, to be held in Washington, September 1 to 28, are expected to have a direct relation to the development of aviation in this and other countries, due to discussions which will be had of the relationship of alcohol to the health of the individual, and to the nervous reaction which follows the use of it. Dominance in the world of aviation, which promises to be one of the goals sought by many nations, according to scientists who will participate in the international congress, will depend to such an extent as few appreciate upon the use or non use of alcohol.

Dr. Eugene L. Fisk, medical director, Life Extension Institute, New York City, will have as his subject on the program for Tuesday, September 21, "The Relationship of Alcohol to Modern Health Ideals," in which the effect of alcohol on judgment is to be analyzed. Other scientists, notably Dr. Charles R. Stockard of Cornell University, will discuss, directly, scientific investigations of the action of alcohol on the brain and the nervous system. It is possible that other modern callings, developed in great part by the experiences of the war, and particularly those involving risk to human life will, like aviation be made the subject of detailed inquiry and discussion.

Motoring, it has also been suggested, with its countless opportunities for injury to drivers and others, has attained such tremendous vogue in most countries that special discussion of its relation to alcohol will occur as incidental to the main themes on the program.

# In the Name of Quality--

We Present

Hickey-Freeman Clothes

For Men

Phone 38

In the name of quality! That is at once the simplest and Most fitting introduction we can give to these celebrated clothes.

Models can wait. Woolens can be presented after. But the quality of Hickey-Freeman workmanship clamors for attention now!

The season dictates the general outlines of its styles. Mills loom the fabrics from which they are made. But workmanship alone can demonstrate whether or not an artist is greater than his tools. Hickey-Freeman workmanship, customized by the liberal use of the finest hand-tailoring, reveals the delicacy and feeling of true artists, and there is no appeal from the appeal of its quality.

FIRST:

In the name of Quality we urge

you to examine the new

Hickey-Freeman models

now ready for fall wear
