COX MAKING GREAT GAINS FROM G. O. P. AND PROGRESSIVES

Leading Figures in Both Parties to Support Democrat in Coming Election. REPRESENTATIVES ASK OTHER REPUBLICANS TO STAND BEHIND TICKET Pledge Vote Also to Senator Candidates Who Stand for the League.

New York, Oct. 17.—A joint statement by "over one hundred representative men and women who have usually supported the Republican and Progressive tickets" announcing their intention to vote for Cox and Roosevelt and Senatorial candidates "who stand honestly and frankly for ratification of the treaty and adherence to the League" was made public here tonight by Hamilton Holt, magazine editor.

This statement set forth that "it is now too late to talk of a new 'Association of Nations' to be created under Republican auspices" and, repudiating the present Republican leadership that "has permitted the Republican party to become a 'little America' party," urged all Republicans and Progressives to "put patriotism above party" and add their names to the list of signers.

This list, according to Mr. Holt, is increasing daily. An analysis given out with the statement said that it included 15 Republican officers of the League to Enforce Peace; clergymen representing all the principal denominations; the presidents of Oberlin, Vassar, Smith, Bryn Mawr and Mount Holyoke colleges; several veterans of the great war and nine former Republican or Progressive party managers and office-holders. In the last classification were listed Charles P. Bjowland, of New York; Violet M. Leroy, New York; Theodore Marlburg, Baltimore; V. H. Nichols, Bennington, Vermont; Herbert Parsons, New York; Elias D. Salesbury, Indianapolis; Edwin E. Slonson, New York; Richard Wheeling, New York and Alice White, Wellesley, Mass.

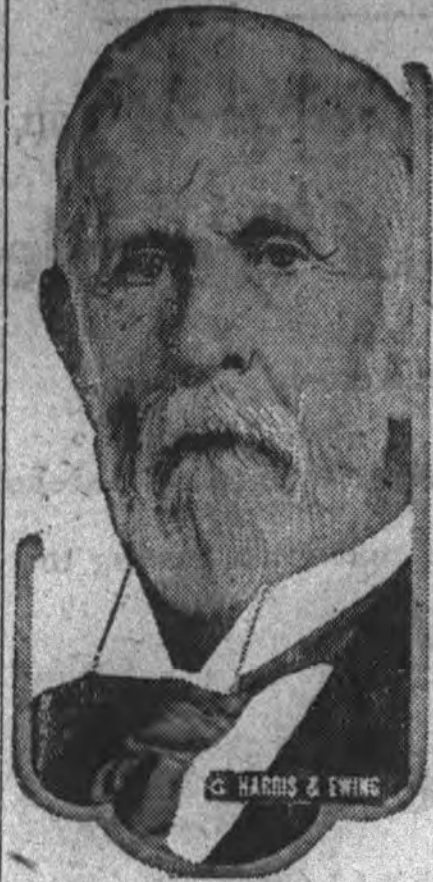

The statement declared that the Republican party is "drifting toward national isolation and had repudiated political traditions under which the emphasizing the international responsibilities of America, from Lincoln to Taft. Asserting that they held no brief for the present administration and did not insist on any particular wording of reservations to any articles of the treaty," the signers set forth that they did not desire that "a cause which should have served to unite all parties in the same spirit of common service which was manifested in the great war should be made a basis of party preference in the present campaign."

REPUBLICAN NOMINEE STRAIGHT "POINTER" ON LEAGUE OF NATIONS

Washington, Oct. 18.—President Wilson addressed a letter to Senator Harding relative to the Republican nominee's statement Saturday. He said he had been approached "informally" by a representative of the French government regarding the association of nations. "I need not point out to you the grave and extraordinary inference to be drawn from such a statement, namely, that the government of France, which is a member of the league of nations, approached by a private citizen of a nation which is not a member of the league with request that the United States lead the way to world fraternity."

Building and Loan shares, 30th series now on sale. Home B. & L. Ass'n.

MAJ. WILLIAM M. KING

That he will live to be one hundred years old may be no idle boast of Maj. William M. King, eighty-year-old United States crop expert, who has been placed on the retired list after 31 years of service with the department of agriculture. As chief of the seed division Major King made the suggestion which prompted congress to authorize the free distribution of seed.

ENGLISH INDUSTRY TIED UP BY STRIKE IN MINING CENTER

Complete Standstill Reported in Coal Mines Throughout Great Britain.

London, Oct. 18.—The coal industry today was at a standstill. After month of negotiation between the miners and the government in which neither side was willing to concede the crucial point the pits are closed and Great Britain seemingly is facing days of industrial chaos, unequalled even during the world war.

Except for the pumpmen and others employees who are to keep the mines free from water and otherwise in good condition for a resumption of work when the strike is ended, all the mines were idle to day. Sunday, however, in view of a large portion of populace, was not an apt day of which to form concise judgment of the potentialities of the strike. When the men dropped their picks Saturday night the question rose as to how many of them on Monday again would be ready to go into the diggings. A feeling of pessimism pervades, notwithstanding the fact that Premier Lloyd George has stated that everything will be done to keep the great industries of the country going. Tomorrow probably will show whether the railway men and the transport workers—the other two wings of labor "triple alliance"—are to join the miners.

COX URGES VOTERS TO VOTE STRAIGHT AMERICA'S TICKET

Syracuse, Oct. 18.—Governor Cox in opening his second eastern campaign by addressing voters here today urged them to disregard partisanship and vote as Americans. He said Americanization was only another word for construction; and to shout America first and then turn our backs on progress and ideals of constitution. He said he found men and mothers insisting that we become members of the league of nations.

INSTRUCTS JURY TO INDICT SOMEONE IN RECENT LYNCHING

Springfield, Oct. 18.—Judge Lovett, of the Effingham county supreme court, in charging the grand jury instructed them to indict someone for lynching Phillip Gathers, negro, for murder of young girl "as lawlessness reigns supreme and the security of the law becomes by word to be scoffed at."

Building and Loan shares, 30th series now on sale. Home B. & L. Ass'n.

NATION'S BANKERS TO BE IN MEETING AT CAPITOL CITY

Bankers from All Parts of County to Attend 46th Annual Convention. CABINET OFFICIALS TO BE SPEAKERS AT OPENING SESSIONS Secretary Houston to Deliver Address on Government's Finances.

Washington, Oct. 18.—Bankers from all parts of the county meet here tomorrow for the opening of the 46th annual convention of the American Bankers' Association, which will continue through the week. The program calls for consideration of all questions of finance, ranging from problems of the country bankers to international relations.

More than a score of committees of the association meet tomorrow, each to consider the particular problem assigned to it, with a report to be made later to the convention proper, which will hold sessions Tuesday, Wednesday, Thursday and Friday mornings. The committees will consider questions of federal and state legislation, public relations, education, gold, Americanization and thrift, insurance and numerous other subjects.

Vice President Marshall will deliver the address of welcome to the bankers at the opening session of the convention proper on Tuesday. The annual address of President Richard S. Hawes, of the association, will follow. Secretary Meredith of the Agriculture Department, also will speak on "Banking" (Continued on page eight.)

FRENCH SCIENTIST TO ASCERTAIN HOW LONG MAN CAN LIVE

Hunger Strike of Mayor MacSweeney Brings About Lively Discussion.

Paris, Oct. 18.—The long hunger strike of Mayor MacSweeney of Cork has caused much discussion here as to how long it is possible for a man to fast. Dr. Socquet, has told the Paris Midi that the record is 63 days without food set by William Grainer in 1831.

"Grainer had been sentenced to death and was confined in the prison of Toulouse," said Dr. Socquet. "He had a horror of the guillotine and to save himself from death by that instrument determined to starve which he did after 63 days. Many hunger-strikers have lived longer than could have been expected," he went on. "There are the cases of Tanner, Succi and Merlati the latter of whom starved for 48 days while he lost one-quarter of his weight. Taylor tells of the case of a worker who was imprisoned in a mine for 60 days without food. He lived three days after his rescue and died as a result of being excessively fed. Many lunatics have refused to take food for 20, 30, or even 40 days.

"No rule can be established as to length of time a man can fast. His endurance will depend upon his previous health, his constitution and also upon his spiritual condition which is very important. It is well known that a starving man may increase his endurance a great deal by drinking water."

Senator Overman and Miss Graham will both speak in Greenville Wednesday.

TUBERCULOSIS HAS GAINED FULL SWAY IN MANY SECTIONS

Disease Said to be More Prevalent Than in Any Other Section of World. TYPHOID DEATH RATE EXCEEDINGLY HIGH IN CAPITOL OF GREECE Prevalence of Disease Due Largely to Inadequate Water Supply and Sewer.

Athens, Oct. 18.—Tuberculosis is more prevalent in Greece than in any other European country for which reliable figures are available, with the possible exception of Serbia. There is no governmental or private program for the control of the disease. The number of physicians in proportion to the population is one to every 1,300.

To deal with the disease the existing agencies are very inadequate. There is little or no hospital provision for the care of the bulk of the population of 5,000,000. There are less than a score of general hospitals in the country.

The prevalence of this disease is due largely to the absence of sewers and of adequate and safe water supply. No (Continued on page eight.)

NEW EQUIPMENT IS ADDED TO VIRGINIA MINING DISTRICTS

Bureau of Mines Adds New Apparatus for Rescuing Entombed Miners.

Charleston, W. Va., Oct. 18.—The West Virginia Bureau of Mines which is credited by experts with the best equipment in the country for rescuing entombed miners has just added to its outfit for that work three new pieces of apparatus—a geophone, a carbon monoxide detector and a brass encased thermometer.

The geophone is similar to a physician's stethoscope. As the stethoscope is used to detect irregularities in the human body by sound, so the geophone is used to detect earth sounds. In this way entombed miners can be located noting the direction from which the sound vibrations come.

The brass-encased thermometer records maximum and minimum temperatures whereby it can be ascertained when it is safe to enter mines sealed to smother fires. Hitherto, it has been a problem to know when to enter the shafts, but with the thermometer dropped through a hole in the barricade, this can be determined easily.

The carbon monoxide detector is considered the most important piece of apparatus from the point of protecting the lives of rescuers. The gas is detected by a color tube and a color scale on the instrument. Formerly canary birds were used, but their use was not entirely satisfactory, as the birds often succumbed to other gases, while a color detector instrument shows no other gas than carbon monoxide present. One tenth of one percent of the gas is said to be fatal to a human being.

High Money Rates Direct Cause For Shrinking in Values

ETHELBERT STEWART

Ethelbert Stewart, assistant chief of the bureau of labor statistics, department of labor, who succeeds Dr. Royal Meeker as chief of the bureau.

ROOSEVELT SHOWS UP ANOTHER PLOT TO DECEIVE PUBLIC

Studied Effort of G. O. P. to Deceive People on League Covenant.

Cincinnati, O., Oct. 18.—Franklin D. Roosevelt, Democratic vice-presidential candidate, with Mrs. Roosevelt, and their party, left Cincinnati late this afternoon for Grand Rapids, Mich., where Mr. Roosevelt will speak tomorrow night. Before leaving Cincinnati Mr. Roosevelt issued a statement in which he accused the Republican party leaders of "placing party advantages above National good." He declared that publications sent out by managers of Republican headquarters were "deliberate attempts to falsify existing facts for the sole purpose of winning voters by creating prejudice."

"One of the best examples is the pamphlet issued from Republican National headquarters with the intention of deceiving voters who have not the opportunity to study the covenant of the League of Nations," he said. "It seeks by a cartoon and by its wording to convey the information that in the League of Nations the British empire is accorded six voters while American will have one if we should enter the league."

"Of course, any person who has even read the covenant of the League of Nations knows that it is a document which, like our constitution, is drawn up on broad lines, and like our constitution will be dependent for its success upon the spirit with which it is developed and carried on by the member nations of the whole civilized world. "In particular, relation to the charges made about the six votes of the British empire to our one, the following is clear:

"The intent of the covenant of the League of Nations is to create a governing body, called the council, that council to be composed of nine members, five great powers, that is, France, Italy, Japan, Great Britain and the United States, and four smaller powers, the smaller powers being at the present time Spain, Brazil, Greece and Belgium. Each of these nine nations has one vote in the council, in other words, the British empire has but one vote and we have but one vote."

Comptroller Williams Criticizes "Unjustifiable" Rates for Demand Loans.

SAYS RATES FIXED BY BODY OF BROKERS OF BIG STOCK EXCHANGE

Declares that an Apparent Loss of Billions Could Have Been Prevented.

Washington, Oct. 17.—"Unjustifiable interest exacted on demand loans" by New York City banks has been an active contributing cause of the "huge shrinkage" in all securities' values during the past year, Comptroller of the Currency Williams declared tonight in a formal statement. He charged that call money rates in New York were the highest in the world, and that "renewal" rates fixed daily by a small "coterie" of stock exchange brokers governed "the interest charged on brokers' loans in nearly all New York banks."

"The raising or lowering of the renewal rates on the exchange," said Mr. Williams, "is frequently accompanied by upward or downward movements in stocks and securities; and those responsible for the fixing of the rate, therefore, have the opportunity, whether exercised or not, of profiting largely by operations on the stock market, which is so often and directly affected by the call money situation. I do not, of course, undertake to say that this formal money committee does take improper advantage of their fore-knowledge; but there are critics who severely censure the existing arrangements. Certainly all prudent and thinking business men will agree that there is danger in the concentration of such opportunity and power in the hands of a few persons. Temptations to use this power for individual profit must arise, and human nature is not changed by high position in the financial world."

"Power to fix money rates for all, or nearly all of the banks in New York City, and to change them daily, is a grip on the heart of our commerce. It permits such interferences as fallible human judgment, whim or interest may direct with the natural and orderly movements of money, the life blood of business. The matter of arbitrary fixing money rates at the money center, possibly reversing the natural and healthy flow and affecting, directly or indirectly, billions of dollars of security values and other property is left to a small and varying number of private citizens without official responsibility, deciding in a moment and in secret."

"The evils and dangers of such methods could be recited indefinitely. They reach to the remotest of the union and its possessions and touch harmfully every class of people. The direct tendency is to reverse one of the fundamental purposes of the Federal Reserve Act, which is to promote orderly distribution of money through the country to meet the needs of commerce and agriculture."

BIG SALE TO TAKE PLACE IN GRIMESLAND.

On Friday, Oct. 22nd, the entire stock of J. O. Proctor and Brother will be sold at and below cost, for cash. This stock consists of a splendid line of ladies' and men's ready-to-wear also a complete line for children. The store is a large department store, and not only carries ready-to-wear, but also shoes, hats, notions, dry goods, faces, underwear, hardware, medicine, Chinaware, and several other things too numerous to mention. This sale will begin promptly at 9 o'clock on October 22nd and will continue for twenty days. It is an opportunity for the people of the country to save money and, with the exception of groceries, the entire stock will go at and below cost. For the prices see their page ad in today's issue.

MONDAY, OCT. 18TH, 1920.

ONE ROTTEN APPLE SPOILS THE BARREL.

There is an old proverb which says
"Behold what a great matter a little
fire kindleth." Another saying in
keeping with this is "one rotten apple
will spoil a barrel." So the common
sense thing to do in either case is to
check the little fire before it starts a
great conflagration, and get rid of the
rotten apple before it spoils the barrel.

Now for the application or moral.
What is true of the fire or the apple
will also apply to people, a small per-
cent of whom may by indiscretion ef-
fect an entire community. A few
calamity howlers, for example, may
keep up so much noise as to disturb
the equilibrium of a town, a county,
or even a state or nation. The business
of this whole southland is very much
disturbed right now, and much of it is
due largely to the clamor of a few
calamity howlers, who are finding
fault with this, that, and everything
that does not run their way, and are
ready to declare that business is at
the bum. They abuse the banking sys-
tem, the laws, and what ever else gets
between them and their greed. Like
Shylock when he lost a pound of flesh,
they howl over something. And the
influence of it, unless checked, will
spread until it is felt far and wide.

Take a census of the calamity how-
lers and they will be found only a
small per cent of the great body of
people. Further they will not be found
in the class of producers or builders,
but are mainly speculators in lands,
bonds, securities and such things as re-
quire considerable sums of money to
handle. Because under the very na-
ture of present rather stringent busi-
ness conditions these fellows cannot
step in the banks and borrow all the
money they want to put in speculation
deals, they howl and try to disturb
business confidence.

This is not a time for calamity
howling and it ought to be shut up.
While the reaction from recent abnor-
mal pre-war prices is going on there
may be temporary inconvenience and
unsettled conditions, but these things
will sooner adjust themselves to nor-
mal if common sense is used instead
of howling. Let everybody keep a

cheerful spirit and make the best of
conditions as they are, and this tem-
porary depression will soon be forgot-
ten.

Just after writing the foregoing we
came across the following splendid
editorial in the Charlotte Observer
which further emphasizes the point in
mind:

"Mr. George E. Roberts, vice presi-
dent of the National City Bank of New
York, made an address before a gath-
ering of business men, at Rock Hill,
Thursday night, when he made state-
ment that should operate to the quiet-
ing of many unduly strained business
nerves. Mr. Roberts gave the assur-
ance of one competent to give it, that
the people are neither faced with dan-
ger of a panic nor of an industrial col-
lapse, and this is because of the fact
that the country is backed by 'one of
the best banking systems in the world.'
He was referring, as a matter of
course, to the Federal Reserve System.
The present financial unrest was creat-
ed not because of any threatened con-
dition, but because of the extraordi-
nary demand for credits from all in-
dustries, from agriculture and all lines
of business in a lump. There is not
money enough in the banks to supply
all these needs at one and the same
time, but there is enough to supply a
liberal share to each—enough at any
rate, to slam the door in the face of
any panic that might be seen approach-
ing. Our government is well-fortified
with money and so long as that is the
case the people have nothing to fear
other than a brief period of tight times
in which all people—manufacturer,
farmer, merchant, banker—must make
up their minds to share in the lowered
profits.

"The one trouble with the people to-
day is that they have become a Na-
tion of grumblers. They have been
accustomed for about four years to
making big money. They have formed a
habit it is hard to get out of. They
do not want to get down to making
money as in ordinary times. They
climb down the ladder regretfully and
only under pressure. The mills must
lose on goods made from cotton bought
at high prices; the farmer stands to
lose on his crop raised under high la-
bor and the merchant who does not
mark down his stock of goods to cor-
respond with the lowered condition of
the country's credit is going to find
himself with a lot of unsold and later
unsalable goods on his hands. We are
in the midst of the readjustment period
and all classes of people might as well
make up their minds to share their
proportion of the losses. Those who
went up with the kite are bound to
come down with it. The day of big
profits is passed and the people as a
whole stand to lose something. That
is the diagnosis in a nutshell. The
sooner the people quit making wry
faces and accept the situation with
good grace the better it will be for all."

SAVINGS PROPOSALS.

The scheme to attract more funds to
the postal savings banks by raising
interest rate invites similar comment.
There is no gain in attracting money
to the postal banks from other savings
banks, and no good reason to believe
that the amount of savings would be in-
creased. The war savings stamps,
which are sold at the post offices, afford
a higher rate of interest. The postal
savings system has never realized the
expectations of its promoters, who pro-
phesied that it would receive billions
of hoarded funds in short order. It
has been in operation about ten years,
and there is no evidence that any large
amount of its receipts have come from
boards. At the present rate of return
on government bonds the government
of course could afford to pay a higher
rate of interest at the postal banks,
but the present return on government
bonds is something temporary; before
many years the government will be re-

funding its debt at a rate probably
below that which the postal savings
enthusiasts are proposing to pay. The
government does not adapt its policies
to changed conditions at all readily,
as witness the exchange rates main-
tained by the post office department,
and it is doubtful policy for it to change
its postal savings policies to suit tem-
porary conditions.

It should be always borne in mind
as a fundamental condition of sound
and helpful banking that the savings
or deposits of each community should
be invested in that community. Here
is the weakness in the whole postal
savings scheme; there is always the
danger that the deposits will be at the
disposal of a central board at Wash-
ington, which will handle them without
any regard for the local interests of
the communities to which the funds
belong. The local savings banks gen-
erally are large lenders of money
upon real estate mortgages, and this
proposal to divert savings from the
local banks to finance the affairs of the
Federal government might seriously
deplete the fund available for local
building operations.

ORGANIZATION WILL WIN.

Back up the American Cotton Assoc-
iation. This great organization is the
only association taking concerned ac-
tion to help the cotton farmer and those
interested in cotton. It is apparent to
every thinking man that the bearish
elements are trying to hammer down
the price. They are working the same
old game of running the price down so
that they can buy in cheap and then
when the world realizes that cotton is
scarce, cotton will go up again.

The American Cotton Association is
in the fight to prevent this game of
trimming the farmer. You should back
it up to the limit. Every cotton in-
terest in the South should stand squar-
ely behind this Cotton Association,
which is the greatest thing organized
in the South since the Civil War. With
the full aid and co-operation of cot-
ton interests it will break the strangle
hold of the speculative elements and
will see that the producers receive a
just and fair return.

Every local branch of the American
Cotton Association should have 100 per
cent membership. If you are not al-
ready a member join your local branch
today. Get into the fight and back up
the big men who are suing the courts,
their brains and their money. See
that you get a legitimate price for
your cotton. Get behind the move-
ment—help save the south.

North Dakota A Game Preserve

A veritable hunter's paradise is pro-
vided in North Dakota this year, with
wild ducks and partridge chickens more
plentiful than ever before, said Joseph
N. Schnell of Bismarck, who added:
"The northern part of the state, where
cheap farm lands are attracting heavy
immigration is filled with little lakes
and streams, and on these wild ducks
have nested and raised their broods.
The result is that they can be found by
the thousands, while one can scarcely
walk a quarter of a mile without flush-
ing a covey of partridge chickens. The in-
crease has been aided by the migratory
bird laws in the recent treaty with
Canada restricting slaughter."

SCATTERGOOD CONDUCTS

TRAINING SCHOOL SERVICES

Rev. F. H. Scattergood conducted the vesper services of the Y. W. C. A. at the Training School Sunday. His text was: "Young men shall see visions and old men shall dream dreams." Nothing is accomplished without visions which precede the work of all great and successful men was a great truth he developed.

Mr. Scattergood brought out three points that are necessary to a true way of success. 1, a true view of the world. 2, a true view of the work. 3, a true view of the worker.

He instilled in the hearts of his listeners the assurance that the Great God of the universe has a call for every one and every one must answer this call.

DON'T LET THE WARM WEATHER KEEP YOU FROM SAVING MONEY

Get your winter needs. Now is your golden opportunity—while we are running this Great Reduction Sale. No where will you find such bargains. Nothing is reserved. Don't wait until the cold weather forces you to buy. Now is the time, when we have full stocks of everything from which to make your selection. Willard & Smith Co.

MASONS TO MEET TOMORROW NIGHT.

There will be a convocation of Greenville Chapter, No. 50, R. A. M., Tuesday evening, Oct. 19, 1920, at 7:30 o'clock P. M. You are urged to be present.

PEACH BLOSSOMS.

Mr. C. W. Exum brought in some beautiful peach blossoms today. They attracted wide attention, being such an unusual thing at this season of the year.

CONFERENCE AT ST. PAUL'S EPISCOPAL CHURCH FOR WOMEN OF THE CHURCH

A conference conducted by Miss A. M. Wadell field secretary of the diocese of East Carolina will be held in St. Paul's church tonight and Tuesday night at eight P. M. all interested in the cause of missions are most cordially invited to attend these inspirational meetings.

MR. S. L. BRIDGERS' BROTHER KILLED.

The Mr. Robert Bridgers, who was named in the Associated Press report to this paper Friday as among those killed by the boiler explosion at Rowland that morning, was a brother of Mr. S. L. Bridgers, of Greenville. The latter with Mrs. Bridgers and their little son were visiting his father at Elrod, which is only a few miles from Rowland, and attended the funeral Saturday. His friends here sympathize with Mr. Bridgers in the sorrow caused by his brother's death.

MR. J. S. JOYNER DIES AT HOME IN BALTIMORE

According to reports received in this city, Mr. J. S. Joyner, a former Pitt countyman and a native North Carolinian, died at his home in Baltimore, Saturday. Mr. Joyner was a brother of Mr. Charles Joyner and Mrs. J. A. Lang, and has a host of friends in this section who will be grieved to hear of his death.

How cheaply can you heat your home with Cole's Original Wood Heaters? Better ask—it will surprise you.

Coal bills are a large part of your living expense—reduce them by using Cole's Hot Blast Heaters.

SENTIMENT SWINGS TO DEMOCRATS AS CAMPAIGN CLOSES

Concluding Days of Campaign
Somewhat Similar to that
Four Years Ago.

PUBLIC OPINION OF
WEST SWINGS DAILY
TOWARDS GOV. COX

Political Observers Report
Rapid Changes, Particu-
larly in Middle West

Washington, Oct. 15.—The campaign is approaching its close on lines somewhat similar to those four years ago, according to observers in Washington. Four years ago the Republicans conducted a negative colorless campaign with Judge Hughes amazingly disappointing the best elements in his own party. All he knew how to do was to abuse Wilson. He offered nothing constructive. Hughes had established such game as a lawyer, governor of the great

state of New York and as judge in the highest court that his failure as a presidential candidate was nothing less than dismal.

Four years ago the country was weighing the critical question whether or not to draw the sword in behalf of humanity just as it is now weighing the great issue whether or not it shall enter the League of Nations. Hughes had no definite program to offer for or against taking a hand in the bloody struggle in Europe just as Harding has nothing definite and constructive to take the place of the League of Nations which he opposes but which some of his distinguished followers insist that he will put through if elected.

Up to the very last week in the campaign Hughes' election seemed to be a foregone conclusion. The betting and the odds were three and four to one in his favor but great changes in the sentiment of the people were seen to be taking place especially in the Middle and the Far West. Observers who come here from the West today claim to see the same changes going on in Kansas, Colorado, Nebraska, Washington, Oregon, Minnesota, Wisconsin, Ohio, Indiana and even in Illinois and Iowa the same changes for Cox that swept Wilson into office. These observers feel that Harding is likely to carry all the eastern Atlantic seaboard states just as Hughes did, but they are positive in their statements that Cox will capture enough of the Central and Far West to elect him.

TO BEGIN INQUIRY OF LATE CHARGES AGAINST MARINES

Secretary Daniels Orders a
Thorough Investigation of
Conduct of Men.

Washington, Oct. 15.—Secretary Daniels announced today that he had appointed a board of inquiry to make a thorough investigation of "all wrongs alleged to have been committed by United States Marines in Haiti and particularly the reference to "indiscriminate killings" in Brigadier General Barnett's confidential letter of a year ago to Col. John H. Russell Marine commander in Haiti.

General Barnett former commandant of the Marine Corps who left Washington yesterday for San Francisco has been recalled to Washington Secretary Daniels said, to appear before the board as a witness. The board, which is composed of Rear Admiral Henry T. Mayo, and J. H. Oliver and Brigadier General J. H. Pendleton, of the Marine Corps, has been directed to "sift every bit of evidence," Mr. Daniels said, to the end that "any man in American uni-

form guilty of wrong-doing shall be brought to trial and punished."

Secretary Daniels at the same time made public Col. Russell's report on the investigation ordered by General Barnett. Although directed to the department under date of March 13 1920 the report never reached there, the Secretary said, until brought back by Major General John A. Lejeune, commandant of the corps, on his recent return from Haiti. A joint report of General Lejeune and Brigadier General Smedley D. Butler who accompanied the Marine Corps commandant to Haiti giving the result of a supplementary investigation made by them during their visit to Haiti also was given out.

DIRECTORS OF CITY CHAMBER IN EXTRA MEETING LAST NIGHT

Chamber of Commerce Adopts
Resolutions Asking N.
S. For Better Service.

A special meeting of the directors of the Chamber of Commerce was held in their rooms last night. Resolutions were adopted requesting the Norfolk Southern railway to maintain a more sanitary passenger station and to furnish heat and lights during the winter months for the accommodations of passengers using their night trains. The stoppage of traffic on Dickinson avenue by both passenger and freight trains operated by the Atlantic Coast Line railway was called to the attention of the proper authorities accompanied by a request that conditions be remedied. Steps were also taken looking to an improvement in the marketing of cotton on the Greenville market. A special committee composed of Messrs. B. W. Moseley, J. E. Winslow, H. W. Whedbee, was appointed to investigate and report on present conditions and make recommendation for improve-

ments. The report of the secretary and treasurer showed that the Chamber was free of debt and had a small working balance in bank.

GOVERNOR COX SPEAKS BEFORE BODY WOMEN IN CLEVELAND, OHIO

Cleveland, Oct. 16.—Governor Cox addressed an audience of women and advocated a national woman's congress to frame a program of social legislation for presentation to President Wilson and congress. He said a baby bill providing for maternity and infant care waited in vain while reactionary leaders spent their time in scrapping over the league. He declared he favored the league not only to save children from war but to turn national resources from ships and armaments to school houses and health.

WAVE OF ECONOMY STRIKES THEATRES IN MANY SECTIONS

New York, Oct. 16. — A wave of economy has struck theatres, said President Harris of producing managers association. Cutting of prices and many failures have been reported.

TUBERCULOSIS HAS GAINED FULL SWAY IN MANY SECTIONS

(Continued from page one.)
improvements in the water supply or
sewerage systems have been made since
1908. The rudimentary sewage system,
where any exists, affords little or no
protection against surface or under-
ground contamination of water supply,
and no safeguard against conveyance
of infection.

In Athens plans have been drawn by
the national government to provide the
city with adequate and modern water
and sewer systems. But the execution
of these plans has been delayed by the
war. The water supply in Athens is at
present brought in through an acqued-
uct built by the Emperor Hadrian
nearly 2,000 years ago. In the summer
months the water is insufficient to car-
ry off the sewage.

REPORTED ATTEMPT TO SETTLE STRIKE RELIEVES BRITISH

London, Oct. 18.—Reports of efforts
to settle coal strike have partially re-
lieved the spirit of anxious uncertain-
ty of the British nation. All available
coal supplies have been placed under
the nation's control. With shipping
steel and other industries crippled
thousands of men are idle.

NOTICE!

North Carolina, Pitt County.
In the Superior Court.
Mamie Williams,
vs.
H. E. Williams.

The defendant above named will
take notice that an action, entitled as
above, has been commenced in the
Superior Court of Pitt county, North
Carolina, for the purpose of procur-
ing an absolute divorce; and the said
defendant will further take notice
that he is required to appear at the
term of the Superior Court of Pitt
County, to be held on the 8th day of
November, 1920, at the court house in
said county, at Greenville, North Caro-
lina, and answer or demur to the com-
plaint filed in said action, or the plain-
tiff will apply to the court for the re-
lief demanded in said complaint.
This 30th day of September, 1920.

J. F. HARRINGTON,
Clerk Superior Court.
F. G. JAMES & SON, Atty. 30-17w4wks

NEXT FOREIGN TRADE CONVENTION GOING TO CLEVELAND

Ohio City to be Host of 1921 Gathering
The National Foreign Trade Council,
at its seventh annual meeting in New
York, selected Cleveland, O., as the
place at which to hold the Eighth Na-
tional Foreign Trade Convention, sche-
duled for the spring of 1921. It was
felt that as the 1920 convention had met
in San Francisco, the 1921 convention
should be held in an inland city. Pre-
vious to the San Francisco meeting,
these gatherings had been held in Wash-
ington, D. C., St. Louis, New Orleans,
Pittsburg, Cincinnati and Chicago.

"In view of the necessity for bring-
ing home to the entire country the many
advantages of foreign trade, the selec-
tion of Cleveland is particularly suita-
ble," said Henry Howard, Grasselli
Chemical Company and a member of
the Foreign Trade Council.

The most productive industrial dis-
trict in our country lies from Buffalo
down to Pittsburg, across to Dayton
and Cincinnati, up to Chicago and De-
troit, and includes such cities as Colum-
bus, Toledo, Youngstown, Akron and
Erie, with Cleveland as a center. The
manufacturers of this district include
steel, iron, clothing, rubber goods, of-
fice equipment, hardware and tools,
automobile accessories, paints and var-
nishes, oils and greases, coal, ships,
machine tools, agricultural implements,
including tractors, chemicals and ma-
chinery, without mentioning the large
shoe industry in parts of Ohio.

"We estimate that the total value of
these products each year is about \$7-
501,319,000.

Government statistics for the year
1919 show that of this amount, \$500-
000,000 was exported from this district
of which Cleveland as a center ship-
ped a large portion. Yet this is only a
small percentage of the whole and
would indicate a tremendous opportuni-
ty to increase these exports."

A Warm Room To Dress In

- No more cold trips to the basement.
- No more dressing in a cold room.
- No more fires to build.
- No more big fuel bills.

COLE'S ORIGINAL HOT BLAST HEATER

is absolutely air-tight and will stay air-
tight. That is why it is guaranteed
to hold fire for 36 hours without
attention.

And remember, every Cole's Hot
Blast Heater is guaranteed to con-
sume one-third less fuel than any
underdraft stove of the same size.
This means money in your pocket.
Let us tell you more about this re-
markable heater.

Quinn-Miller & Co.

Gentry & Gorman

With 2nd sale Gormans has fully half of what is in town
today. Prices are the best so far this season. All
grades show more strength. We look for small sales.
until we have a season.

We advise closer grading, many are tying up the barns, no grading
at all this leaves the colors mixed and effects the price greatly. Throw
out the green and black leaves and get your colors together. It is
but little trouble, or expense to you but will pay you handsomely.

Don't try to get rid of your tobacco too fast, keep off of the markets
when they are glutted.

Drive to Gormans and you will go home with the top of the market.
WE PROTECT YOU.

Gorman's has 1st 2nd sale Monday, 1st Tuesday, 3rd Wednesday 2nd Thursday and 1st Friday.
