

BITUMINOUS COAL OPERATORS PLEDGE THEIR SUPPORT TO ATTORNEY GENERAL IN ELIMINATING UNREASONABLE PRICES

PLAN TO ACTIVELY ASSIST IN CUTTING HIGH LIVING COSTS

Will Also Aid in Putting Stop to Any Unwise Practices in Business.

RESOLUTION ADOPTED AT OPEN MEETING IN CITY OF CLEVELAND

Over One Thousand Coal Miners to Stand Behind Efforts of Government.

Cleveland, Oct. 26.—At an open meeting here today of approximately one thousand coal operators, representing 7,000 soft coal operators in the country and three-fourths of the total production, a resolution was unanimously adopted, pledging their support to Attorney-General Palmer to eliminate unreasonably high prices and unwise practices, where such exist.

This action was taken following the receipt of a message today from the Attorney General, requesting the bituminous coal operators of the country to co-operate with the Department of Justice in bringing about the elimination of unreasonably high prices for coal.

Today's general meeting was called by Colonel D. B. Wentz, president of the National Coal Association, to consider a telegram sent by the Attorney General to the association last week urging that steps be taken to eliminate exorbitant prices for soft coal.

Members of the National Coal Association held a meeting this morning, considered the Attorney General's request and the soft coal situation in general and voted to maintain their fixed policy against taking any action touching upon coal prices, because of restrictions in their charter. The association voted to refer the communication from the Attorney General to a second meeting, comprising individual coal operators from all parts of the country, both in and out of the association.

This general open meeting was called to order immediately upon adjournment of the association meeting, and, after a short adjournment, to give a committee of nine time to prepare a suitable resolution pledging the Attorney General their support in eliminating unreasonably high prices and unwise practices, where such exist, the following resolution was unanimously adopted, a copy of which was wired to the Attorney General:

"Whereas, an abnormal condition for sometime past has existed in the bituminous coal industry of this country, due to inadequate transportation facilities, labor difficulties and shortage and other causes beyond the control of the bituminous coal operators of the country; and,

"Whereas, the Attorney General has requested the bituminous coal operators of the country to co-operate with the Department of Justice in bringing about the elimination of unreasonably high prices for coal where such exist; and,

"Whereas, it is the sense of the bituminous coal operators of the country that unreasonably high prices and unwise practices, where such exist in the industry, be eliminated.

OVER 4000 WOMEN OF GASTON COUNTY PREPARE TO VOTE

Report of Registration Shows That 4,000 Have Registered for Election.

Lexington, Oct. 26.—Four thousand or more women of Davidson county have their names on the registration books, according to estimates made here by political observers in receipt of information from various precincts in the county. This is perhaps at least a thousand more than the most conservative onlooker would have predicted a week before the books closed and double the number expected at the beginning of registration.

Suffrage at first was undoubtedly not popular in this county but it appears that it has been generally accepted and the women will accompany their husbands and brothers to the polls in great numbers next Tuesday. Both parties made strong drives to register all women of their party sympathy and both met with success, the Democrats making their greatest spurt in the closing days.

As a result of the heavy registration throughout the county the Democrats are hopeful of winning back the county offices now held by Republicans throughout, as well as a member of the legislature. Another thing that has heartened the Democrats is the turn taken by the revaluation issue. It is now demonstrated that a great many taxpayers in the county, perhaps a goodly majority, will pay less taxes than last year. Many farmers in particular who had been told they would pay more taxes now find that they were misinformed. The Republican campaign in the county has laid special emphasis on revaluation and the Democrats say they have plunged the opposition's big gun.

BARNETT TERRIBLY SHOCKED AT THINGS DISCLOSED IN HAITI

Washington, Oct. 27.—Brigadier General George Barnett, former commandant of marine corps told the naval court of inquiry that he was "terribly shocked" by conditions in Haiti as disclosed at the trial of two privates last year. He said the "existing state of minds" made it possible for any one to be killed. He also stated that 2,250 natives were killed and that the previous announcement placing the number at 3,000 was erroneous. The causally record office said only a few had fallen in action with marines or native troops.

ALBANIA DISTRICT AT LAST FREE FROM FOREIGN SOLDIERS

Withdrawal of Italian Troops Concludes Hostilities in Avolona.

DESIRES FOR LIBERTY PARTICULARLY QUICK AND HOPEFUL TODAY

Never Before Has There Been Such Tranquility Throughout the Country.

Scutari, Albania, Oct. 27.—With the withdrawal of Italian troops from Avolona and the cessation of hostile invasions by the Serbs and Montenegrins, Albania is free of foreign occupation for the first time in her turbulent history. Albanians feel that they have at last reached the goal of their national independence. Their unending love of liberty which has persisted through all their centuries of struggle against Turk and Christian, is particularly quick and hopeful today. The people hope that the great Powers will protect them from future designs on the part of selfish foreign countries. Perhaps never before was there such a state of tranquility within the borders of the little Albanian state. In the streets of Scutari one sees the Albanian colors displayed for the first time, and listens to patriotic demonstrations by local groups of citizens and societies. Enthusiasm and patriotic fervor are at a high pitch. Even the native tribes, who usually are engaged in feuds, are at peace. (Continued on page eight.)

SAYS BIG EASTERN STATES CERTAIN TO SUPPORT GOV. COX

George White Says Victory Is Coming So Fast It Can be Almost Seen.

New York, Oct. 26.—In a statement made public here tonight, George White, chairman of the Democratic National Committee, declared that "victory is coming our way so fast now that we cannot only feel it and hear it, but we can see it."

Mr. White's statement, in part follows: "Developments of the past two days insure that the Democrats will carry New York, New Jersey, Connecticut, Massachusetts, and Rhode Island. New Hampshire we already have. The Democratic tide has struck the East and has demolished the false barriers erected by Republican propaganda and money.

"There has been almost a revolution going on in the states I mentioned during the last two days. Awakened finally to the methods of the Republican managers, the people of these states have been coming to the Democratic support in such numbers that I am advised tonight that the Republican state leaders confess their inability to prevent a stampede.

Mrs. Seth Hooker left this morning for a visit in Wallace.

SAYS ENGLAND HAS LOST OPPORTUNITY OF LEADING WORLD

By Breaking of Relations With Russia Political Status Is Changed.

POLITICAL PEACE WITH SOVIET RUSSIA SHOULD HAVE BEEN EFFECTED

Karl Radek, Radical Leader, Gives Opinion of Situation in Section.

Moscow, Oct. 27.—England by breaking off negotiations with Leo Kameneff, the former Russian trade commissioner in London, has lost an opportunity to play the leading role in world politics, says Karl Radek, radical leader.

"The political sceptre has fallen from the hands of Lloyd George, from the hands of England," he asserts in an article in the Ivestia.

"Trade negotiations with soviet Russia would have represented for England a victory over French and American imperialism over French imperialism because French creditors would have been obliged to allow the gold which the French capitalists consider their property to pass into English coffers, over American imperialism because the English government would receive supplies and raw materials not under the control of American monopolies.

"To realize this victory it was necessary to establish political peace with soviet Russia.

"The breaking off of diplomatic negotiations means that the political initiative passes into the hands of France which is openly supporting Wrangel," Radek continued. "Simultaneously the republican party of the United States and its presidential candidate, Harding have declared in favor of the recognition of Soviet Russia, demonstrating that American capital intends to put England in the second place by beginning trade relations with Russia (Continued on page eight.)

HARVARD UNIT HAS COMPLETED WORK IN DEVASTATED AREA

Construction Unit Returns to America After Doing Splendid Work.

Paris, Oct. 27.—The Harvard reconstruction unit which came to France in July has completed its work in the devastated regions and many of its members have returned to America. Considerable work was accomplished by the organization which consisted of 25 persons. The American architects planned an entirely new town to take the place of Boureilles and a new site has been selected. This plan was drawn up by Hale Walker of Carthage, O., George Lee of Boston and Prentiss French of Williamstown, Mass. The new town plan has received the enthusiastic approval of the mayor.

A number of the members of the mission who were living at Chermont-en-Argonne, close to the point where America made its most successful effort in the war, completed a new survey and map of that village. This work was done by National Knowles of Philadelphia, Joseph Hayner of Cleveland, Rupert Giddings of New York and Thomas Wilder of Connecticut.

Two schools have been designed and measurements of the church of Saint Jacques at Rheims have been compiled. This latter work was done under the direction of Isadore Richmond, of Boston and Myron Dasset, of Minneapolis. At Somme-Py, Hale Walker co-operated with the town architect in making changes in the town plan itself while Merritt Farren and Leon Keach, both of Boston, completed drawings and plans for a new town school. DUTCH PEOPLE ARE STILL CLINGING TO PAGEANTRY FORMS

Opening of Parliament Shows That Old Ideas of Queen's Observed.

The Hague, Oct. 27.—The Dutch people cling to the pageantry that surrounds the movements of their Queen on state occasions though sturdy democrats in their business life. The opening of the Dutch parliament exemplified this.

This parliament opening is a quaint old ceremony. The Queen rides in a gilded carriage through the streets of the Hague to the old Knights Hall in Parliament Square and, with her crown on her head and her gold-braided Prince consort at her side, sits on her throne for once each year.

At this ceremony the Dutch cabinet ministers are compelled by tradition to wear giddy uniforms resembling an old time minstrel man in an admiral's hat. For some reason this tradition decreed that the ministers on this solemn occasion must wear long white duck trousers which contrast strangely with their tremendous black, gold and orange hats shaped an in gray dish.

After this one day of pomp the ministers and members of parliament put on their working clothes and get down to business while the Queen, who prides herself on being a typical Dutch woman with domestic tastes, lays her crown aside for another year.

This year's ceremony had one note at discord with its ancient pomp. Through the crowds who watched the parade marched a number of discontented minor government employees of the post and telegraph department carrying placards asking when this parliament was going to raise their pay.

COAL MINERS STRIKE WILL END IN BRITAIN EARLY HOUR TONIGHT

London, Oct. 27.—The coal miners strike is expected to end tonight as it is reported that mine leaders have accepted government terms and will submit to a conference of miners delegates.

JURY DECLARES MAYOR OF CORK DIED RESULT OF HIS HUNGER STRIKE

London, Oct. 27.—A jury of ten men returned a verdict at the MacSweeney inquest, saying the mayor died from heart failure due to dilated heart and acute delium following scury which was also due from exhaustion from prolonged refusal to take food.

URGES SUPPORT OF DEMOCRATS LINED UP BEHIND LEAGUE

Governor Cox Leads for Election of Candidates Supporting League.

REITERATES STATEMENT OF THIS PLAN TO MAKE AGREEMENT ON LEAGUE

Characterizes Harding as One of Conspirators Who Strangled Issue.

Cincinnati, O., Oct. 26.—Special pleas for election of Senatorial candidates favoring the League of Nations were made by Governor Cox today in a tri-State tour touching West Virginia and Kentucky and closing tonight with an address here, where he began his career as a newspaper reporter twenty-five years ago.

The Democratic Presidential candidate, reiterating that he would construe his election—in which he expressed utmost confidence—as a positive mandate for American entrance into the league, asked support for Democratic candidates here in Ohio and in Kentucky also whom, he said, stood "four-square" upon the league issue. "Don't tie my hands by electing a hostile Senator," he urged, reiterating statements made in his formal announcement yesterday that he believed he would "reach an agreement with the Senate regarding the league."

"I have found that America is not so much concerned in the words we use in keeping our pledge," said the governor, "as it is that the meaning be clear and that the only possible step now available be taken to keep wars from being in the future."

Governor Cox also continued his attack upon Senator Harding, his Republican opponent, as a "conspirator" against the league by virtue of the Senator's signature to the "round robin." "I think you will agree," said the governor, "that a conspiracy was formed in the Senate to strangle the League of Nations to death. Now we are asked to upset the conspiracy and the Senatorial crowd proposes as the official upsetter, a member of the conspirators himself. When a case is tried in court the man under charge never sits in the judge's chair, and he never sits in the jury box, and the American people, in their desire to overturn this base conspiracy, are not going to designate one of the conspirators himself to carry out the job."

SAYS LABOR, CHURCHES AND WOMEN IN FAVOR OF LEAGUE

Kenova, W. Va., Oct. 26.—Governor Cox, of Ohio, closed his West Virginia campaign tour here today with another appeal for the League of Nations and a statement that the churches, labor and women were together in the movement, which he said, was "sweeping the country."

In this connection the Democratic Presidential candidate called attention to statements a year ago of former President Taft which, the governor said prophesied his present view of the situation.

CONSTANTINE FIRMLY DISPUTES RIGHTS TO THRONE OF GECIANS

London, Oct. 27.—Former King Constantine, of Greece, maintains at attitude that he is rightful occupant to the throne and may not consent to accession of his son Prince Paul, says a London dispatch. Former Queen Sophia is prostrated with grief over the death of her son Alexander.

WEDNESDAY, OCT. 27, 1920.

ROADS AND HEALTH.

In speaking of the movement for a state system of intrastate surfaced highways for North Carolina, to be so built and so constructed as to interconnect and inter-join every county seat with every other county seat and principal town, Col. Kirkpatrick, chairman of the Citizens Highway Association, stated that such a system of modern highways could be built and maintained without any great burden to the taxpayers of the Commonwealth.

Col. Kirkpatrick said that the tax values on all assessable properties of the State under the re-valuation act was approximately \$3,500,000,000. By levying one million assessable values for the property of the State we could obtain an annual income of \$3,500,000. The proposed levy of one mill for North Carolina seems infinitesimal for the taxpayer of North Carolina to pay when States like Florida is proposing five cents, Kentucky five cents, Virginia seven cents and Minnesota five cents. It is estimated that the farmers, the merchants and other citizens of the State pay an annual Mud Tax of \$100,000,000 annually.

That 3-4 of this one mill would yield annually under the present assessment \$2,500,000, which said sum would be sufficient to meet the annual principal account of a \$50,000,000 Bond Issue, said bonds being serial bonds and payable in twenty annual installments, and that the remaining 1-4 mill or \$1,000,000 plus the automobile tax would prove a sufficient sum to meet the annual interest account on the said \$50,000,000 bond issue. Assuming that the \$50,000,000 was issued at one time, which would not be the case, as the bonds ought not to be issued and the money ought not to be expended as material and men could be secured to do the work, and consistent with sound economic business principles; that after the paying of the first years account there would be an automatic saving on the interest account of \$125,000.00, that by levying one half of one cent tax on gasoline and other volatile oils (excluding kerosene, which is the poor man's friend) that the sum derived from the tax on gasoline as above mentioned together with the saving of the \$125,000.00 annually

on the interest account, that there would be given an ample revenue which to provide a permanent maintenance fund for all hard surfaced highways constructed by the state under this program.
Col. Kirkpatrick further stated that if North Carolina expected to compete commercially, agriculturally and economically with her sister, states that the citizens of the commonwealth must put North Carolina on a competitive basis so that our state could be in a position to offer the same advantages by the means of good roads and hard-surfaced highways that the other states were offering to new capital.

States like California which in the past ten years, has spent \$73,000,000 a net gain in population of 44 per cent in addition to enormously increasing her wealth. Also states like Wyoming, Arizona and Florida which have followed the example of California, have shown gain in population in past ten years of 33 per cent, and 29 per cent respectively, while North Carolina with better natural advantages, equal in scenic beauty and ahead of these states in wealth and industrial development has only increased 15.9 per cent. He who runs may read.

Col. Kirkpatrick further stated that North Carolina during the past twelve months had paid to the Federal Government in excess profits tax \$60,000 per capita and for state purposes, Roads, Education, etc. \$6.00 per capita, in other words we have paid to the Federal Government eleven times more than for state purposes. In biblical language, "He who provideth not for his own household is worse than an infidel and has denied the faith."

North Carolina is the second richest state per capita in the Union. We are first in the manufacture of raw cotton, fourth as an agricultural state, first in production of tobacco, sixth as a revenue producer to the federal government, twenty-third as a stock raising state, but are weighed in the scale and found wanting when it comes to educating our children and building good roads.

May we not ask ourselves seriously the question "What are we doing with our wealth?" Why are we willing to spend the pitiful sum of \$7.16 to educate our children, \$34.00 per dog, \$185 for luxuries and nothing for a state system of modern highways. If the legislature of 1921 and the Governor Elect, backed up by the taxpayers of the state will provide the necessary ways and means for the construction of an intra state trunk system of hard surfaced highways interconnecting every county seat with every other county seat in the state and also provide sufficient funds to pay the school teacher and educate the boys and girls by 1930 we can double both our wealth per capita and our population.

COTTON IMPROVEMENT.

The value of cotton fiber to the manufacturer is to a large extent dependent upon its length and uniformity. The very short fiber that is furnished by such varieties as Half and Half, King Hicks, and the poor strains of Cook must be used in making yarn and cotton goods of low quality, according to a new publication just issued by the Agricultural Extension Service on "Community Cotton Improvement in North Carolina," from which the following extracts are taken.

Varieties that are not selected each year and kept free from mixtures at the gin usually furnish lint very irregular in length. One will often find samples from such cotton containing fibers three-fourths of an inch long, others seven-eighths, and still others, fifteen-sixteenths of an inch in length. The manufacture of cotton goods from such mixture is accompanied by a large amount of waste and more labor is re-

quired to attend machinery with which it is being handled.

In most communities where no action has been taken to improve their seed, one will find several varieties in the same community, in fact, two or three varieties are often grown on the same farm. On account of the growth of poor unimproved varieties certain communities get the reputation of growing a poor grade of cotton. The writer recently visited a community that was forced to sell its cotton at one-half to one-cent per pound below the market price on account of the short staple and low quality. Ten miles away growers of a neighboring community were selling their cotton at two to three cents per pound above

using improved seed. More than ninety-five per cent of our cotton is ginned at public gins, or on private gins that handle two or more varieties of cotton; and no other operation in the handling of cotton is attended with so much mixing of seed. The ginning machinery and seed conveyors are so constructed as to make it difficult to gin several varieties and keep them free from mixtures. In time, the public gins are likely to be used more generally since they are better prepared to put in improved

machinery and labor-saving devices. The communities that the handling this problem to best advantage are those that are choosing one variety for the community. In such communities the ginners have given splendid cooperation by having certain days to gin the cotton chosen by the community. A few ginners are planning to put in small power gins and cleaners that may be used for handling field selected seed.

There is a belief among some cotton growers and most buyers that North Carolina cannot produce cotton of as good quality as that produced in Georgia or in the Delta Region of the Mississippi. Some attribute this to our soil, others to our climate. The improvement has been demonstrated that with improved seed and proper handling our soil and climate will produce cotton of the best quality.

UNION PRAYER SERVICE.

There will be a union prayer service at the Jarvis Memorial Methodist church tonight at 7:30. Mr. Carroll, the leader of the singing at the Mc-Lendon meetings will conduct the service.

After the service Mr. Carroll desires to meet all the members of the committees.

Cottage prayer services will be held Thursday night.

SENATOR SIMMONS TO SPEAK IN COURT HOUSE TONIGHT

Senator F. M. Simmons will speak to the Democratic voters tonight at 8 o'clock in the court house. The women voters are especially invited to attend and hear this gifted speaker explain the issues of the day.

DAUGHTERS OF CONFEDERACY TO MEET.

The Daughters of Confederacy will meet Thursday afternoon at 3 o'clock with Mrs. F. C. Harding. Every member is urged to be present.

McLENDON MEETINGS BEGIN NEXT SUNDAY

The McLendon meetings will open in Greenville, Sunday, October 31st, at 3 P. M. in the big tent at rear of post-office. Everybody is invited to hear this man of God preach a life-saving Gospel. Cyclone Mack is a living dynamo of power for God. He has the wit of Sam Jones, the intense earnestness of Pinney, and the convincing logic of Whitfield.

Be fair with yourself and God, give God a chance. Meetings each day at 3:00 and 7:30 P. M. No. 3:00 P. M. services Mondays and Saturdays.

Given by Philathea Class of Memorial Baptist Church.

The Philathea class of the Memorial Baptist church entertained the members of the church last evening at an attractive Hallowe'en party, complimentary to Rev. and Mrs. W. H. Moore, who will soon leave for Richmond. The Sunday school rooms were artistically decorated for the occasion and carried out the idea of the Hallowe'en season, with pumpkins, shaded lights, brooms, witches, cats and other decorations of yellow and black. Each class room was used for the entertainment, and the whole presented a lovely appearance. Apples suspended from strings, and apples in water, were in evidence, and much merriment was caused by the children's games.

Upon arrival the guests were given a most cordial welcome by Rev. and Mrs. Moore, Miss Ward Moore, President of the class and Mr. W. T. Lipscomb, Jr., Supt. of the Sunday school.

From the main entrance they were invited into a beautifully decorated class room in which the registration book was arranged and each person was allowed to register without telling their age.

Over a hundred guests registered. In the Witches' Hollow, could be found the fortune teller, Mrs. Roy Batchelor guarded the entrance and she proved that a woman can keep a secret, as she would not tell the curious "past and future" hunters who the fortune teller was. Mrs. L. A. Stroud, the real fortune teller was splendid and kept her identity a secret until the departing hour.

In one room the guests were served pop corn balls by Misses Emily Little and Lillian Hales, in another they were served peanuts by Miss Nell Savage, and in another, candies, by Miss Dovie Burnette. In the Baracca class, the Cauldron pot was arranged from which refreshing lemonade and ginger snaps were served by Mrs. Lipa Baker, Mrs. R. T. Burnette, assisted by Misses Stella Phelps, Helen Joyner and Gladys Bagwell.

Several contests were engaged in, the first being an interesting string and candy contest. Two people, a man and woman were given a string with a piece of candy in the middle and each had to chew the string until they reached the candy. Much merriment was caused, as several contestants proved that they were not used to "chewing strings," and in each case the candy landed on the floor.

Mrs. S. L. Bridgers, Miss Gladys Bagwell and Mr. Frank Patrick being the successful contestants were awarded "Hallowe'en souvenirs." "Progressive conversation," was the next contest. Each person had to remember the different topics on which they talked, and Miss Nannie Bowling, Mr. Frank Patrick and Master Calvin Gorman, being the successful contestants in this were also awarded "Hallowe'en souvenirs." Several other interesting contests were also engaged in. The entertainment as a whole was one of the best ever given in this city and the members of the Philathea class are to be congratulated upon its success, and the wonderful manner in which it was conducted.

Arrive to take part in McLendon meetings. Mrs. Mary Steidley, of East St. Louis, prayer meeting leader and Bible class leader, Mr. L. B. Abernathy, of Connelly Springs, advertising manager, Mr. Fred Seibert, of California, tent man and personal worker, Mrs. Fred Seibert, of California, pianist, Mrs. Breward Goode, of Connelly Springs, pianist, and Mr. J. C. Carroll, of California, who will have charge of the singing, have arrived to take part in the McLendon evangelistic campaign which begins in Greenville Sunday. Mr. McLendon is expected to arrive Saturday.

MRS. JAMES B. TURNER, HOSTESS.

One of the most delightful meetings ever enjoyed by the Bound Table was held Tuesday afternoon at the home of Mrs. James B. Turner on Dickinson avenue. Mrs. Turner received the guests and presented each in turn to her mother, Mrs. Quattlebaum, of Aiken, S. C., who is visiting in the home. The business of the club was brief and following the report of the library committee the special committee reported on constitutional amendments. These were adopted and will be put in form to be placed in back of year books.

The literary program was unusually attractive—the main topic "Art in the Home" being taken up. The first number, "Furniture and Its Making" by Mrs. S. G. Clifford was greatly enjoyed by all. In part she told of the real beginnings of furniture and it is interesting indeed to follow the development of the human race as reflected in furniture. Their talk led up to "American Colonial Furniture," when Mrs. S. B. Underwood took up the subject and entertained all by giving us an insight into some real colonial homes showing residence of decided English lines following the graceful French curves we had just been seeing. Mrs. Whitford then took up the line of thought and gave us a real treat in "Furniture of the Revolutionary Period. This showed a vital characteristic of this young nation in turning from English to a decided acceptance of "American Made" furniture. This was followed by a reading "Grandfathers Block," by Mrs. H. L. Carr. The club was delighted to have Mrs. Quattlebaum as guest of honor, and to welcome Miss Louise Goggins as club guest for the winter. The hostess assisted by her mother and Miss Janie Bryan served a delicious salad course.

DEMOCRATIC HOPE BECOMES BRIGHTER FOR FINAL SUCCESS

President Wilson is Assured of Election of Governor Cox, of Ohio.
STRONG EVIDENCE OF GREAT MORAL CHANGE EVIDENT EVERYWHERE
Entire Country Apparently Swinging to Democratic Principles.

Washington, Oct. 25.—Democratic prospects continue to brighten. It is reported that President Wilson told some members of the cabinet, who visited the White House today, that he now felt very sure of the election of Governor Cox. Reports, it is said, have been pouring into the White House

showing a great undercurrent of change going on. This change is especially active in Missouri, Kansas, Nebraska, Colorado, Iowa, Minnesota, Indiana and Ohio. The Middle West is afire with desire for the League of Nations, comes the report.

The President is said to be in possession of a great deal of concrete evidence that the revolution in sentiment is very similar to that which took place in his own election in 1916 four weeks before the election occurred and it is going on in the Middle States of the West that he swung into the Democratic column with such immense majorities. It is a moral change in the viewpoint of the people.

It is pointed out here that not until Senator Harding made his Des Moines speech rejecting outright the League of Nations did the masses of the people begin to understand what was the real issue between the two parties. Then it was that the President urged Governor Cox to drop everything but the covenant of the league and collateral ideas in his speeches. It is also felt here that Hiram Johnson's speeches in the East are doing the Democratic cause almost as much good as the speeches of the Democratic candidate himself. Johnson and Borah are classed as the only two honest straightforward speakers on the Republican side in the campaign. They are miserably wrong, say

Democrats, but they are honest and many Republicans who want the league see that these two men will have to be reckoned with if Harding is elected.

Pro-league Republicans everywhere are asking this question: Just what do we get if Harding is elected? Johnson is telling them they will get no league of any kind and hosts of them in fear that he is telling the truth will take no chance. On the other hand, Governor Cox has broadened the scope of the reservations that he will accept in the ratification of the covenant of the league. In his New York speech on Saturday night he was more specific and direct in his reservation on Article Ten than ever. If Cox is elected the people will know just what they will get.

Ten Textile Concerns Report Largest Business During Entire History.

Berlin, Oct. 26.—Ten large German textile concerns earned larger profits for the year ended April, 1920, than in the best years before the war.

One Bremen concern increased its profits as compared with last year from 4,400,000 marks to 16,800,000 marks. Including shares allotted gratis to the shareholders, the divi-

dend paid is 62 percent.

A cotton company increased its profits from 2,000,000 to 9,700,000 marks.

Of the other companies the minimum dividend is 16 percent and there are several dividends exceeding 30 and one exceeding 40 percent.

The profits are due to the big price rise of last winter. All finished goods put on the market during the winter were priced on the basis of the price of raw cotton at time of their sale, and as raw cotton rapidly advanced in price the public was charged several hundred percent more than the actual production cost.

Physical Fitness of Students to be Determined by Complete Examination.

New York, Oct. 26.—School teachers will examine every pupil in New York November 9 to determine their physical fitness. The department of health set aside the day to stimulate interest of the teachers in their work, expecting them to more quickly detect physical defectives and report them promptly to the school physician.

For 23 years a department of health doctor or nurse has visited each public and parochial school in New York daily. The teachers report to them

any child exhibiting signs of illness. Nurses examine all pupils monthly for contagious eye and skin diseases and pronounced physical shortcomings. Those having symptoms of contagious disease are immediately sent home.

In this way contagious diseases have been held under control here. This was shown in the influenza epidemics which were checked in the schools so forcibly that attendance was proportionately as great as during the same period in other years, and the sickness and death rate was lower in the five to fifteen-year-old group than for any other period of 11ef

If Democrats win Complication of Vote Will Take Place in Electorate.

Boston, Oct. 26.—A complication in the vote of the Massachusetts members of the electoral college in the event that this state should go democratic in the November election is possible. This because of the inclusion on the ballot, among the democratic candidates for electors for Cox and Roosevelt, the name of Charles Francis Adams, 2nd, treasurer of Harvard College and skipper of the yacht Resolute in the America's Cup races, who had requested that his name be withdrawn.

Mr. Adams said that he had been selected by the democratic state convention without his knowledge, and that he did not wish to stand as a candidate for elector.

The letter requesting withdrawal of his name, according to Michael A. O'Leary, chairman of the Democratic State committee, did not reach the committee headquarters until 25 minutes before the expiration of the time for withdrawals on September 30. Mr. Adams was notified immediately by telephone that withdrawal could be accomplished only by sworn statements by the candidate, according to the chairman, but the time limit expired without action, and the name of Mr. Adams was placed on the ballot.

The vote of Mr. Adams, should he be elected, is in question. He has said that he understood an elector had a legal right to vote as he wished. Chairman O'Leary expressed the opinion that Mr. Adams, if elected, would vote in accordance with the apparent wish of the people who elected him.

COAL OPERATORS TO MEET TO CONSIDER PALMER'S MESSAGE

Cleveland, Oct. 26.—Approximately a thousand coal operators are meeting here to consider Attorney General Palmer's telegram to the National Coal Association, urging steps to eliminate exorbitant prices at the mines.

GOVERNOR COX ENDS WEST VIRGINIA TOUR WITH LEAGUE PLEAS

Kenova, W. Va., Oct. 26.—Cox closed his West Virginia tour with another appeal for the league of nations, declaring that the churches, labor and women were together in a movement which was sweeping the country. He said that the miners were thoroughly familiar with the league, and that the Republicans are having trouble with women meetings.

NOTICE OF DISSOLUTION.

Notice is hereby given that the partnership heretofore existing between L. L. Hearne and P. O. SAYS ENGLAND HAS LOST OPPORTUNITY OF LEADING WORLD

(Continued from page one.) and cutting off England's only non-American source of oil supply." Radek concludes the article by saying that the action of the British government was induced not so much by the defeats of the red army as by the victories of the communist idea" in London and Warsaw. "The English government has concluded that we are too strong to be further strengthened by official recognition and diplomatic pourparlers and it is too weak to tolerate in London political representatives of Soviet Russia," he added. "The voice of Soviet Russia has been stifled in London but it will be heard not only in London but among the millions of workers in the East."

ALBANIAN DISTRICT AT LAST FREE FROM FOREIGN SOLDIERS

(Continued from page one.) gaged in factional combat among themselves, are living in a state of peace. This peace is based upon nothing more than a word of honor given with the

approval of the people between two or more chiefs.

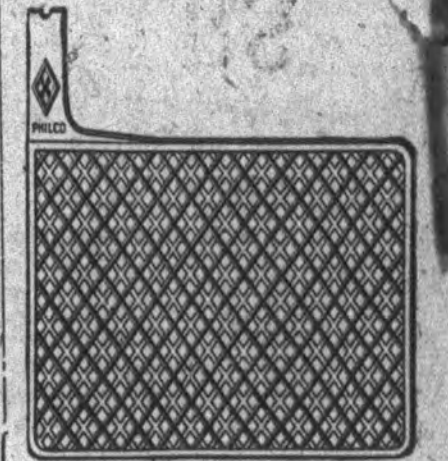

The Albanian's word, which he calls "bessa," is absolutely binding. It is customary for families within a tribe, for tribes and for large groups of tribes to arrange between themselves a "bessa;" that is an agreement by which all matters of personal vengeance are suspended for a given length of time.

Except in a few communities in the South, the Albanians live in tribal organizations, in scattered communities in the mountains, where each man defends his home and his rights with his rifle; which he never lays down when out of doors. They are governed by a sort of common law, which is known as the Law of Lek. Lek was a more or less traditional law-giver of the once powerful family of Dukajini.

MOSELEY BROTHERS

REAL ESTATE AGENTS

Gentry & Gorman

Gormans sold Tuesday 117000 pounds with 3rd sale, finishing about three-thirty.

The sales today are much smaller than yesterday and with 2nd sale

Gormans will get to selling before ten o'clock.

Prices Tuesday were about like Monday's but at times it was necessary for the "house" to buy to sustain prices.

We look for light sales until we get two or three days rain.
