Daredevil Strother Unable To Make Flight Here Today; Aeroplane Meets Accident

Propeller of Machine Broken Off In Mud While Trying to Make Flight After Arrival Today.

"HUMAN SPIDER" TO CLIMB THE COURTHOUSE BUILDING HERE SATURDAY AFTERNOON

Flight Will be Made Immediately After Machine Can Be Repaired, It Is Stated.

The aeroplane flight which was scheduled to be pulled off in this city today by Bill Strother and Lieutenant Treat has been indefinitely postponed on account of an accident to the plane that occurred shortly after landing at the fair ground this morning.

Flying at an altitude of about 2,000 feet the large N-4 Curtiss plane arrived in Greenville from Washington this morning at 11:55, landing at the fair grounds where a number of people had gathered to witness the landing.

Members of the party, and particularly Strothers, who is a former resident of Greenville, expressed regrets over the accident as he desired to make flight as scheduled this afternoon by all means.

People will look forward with interest to the program scheduled for tomorrow, as the "Human Spider's" reputation has traveled from coast to coast.

His feats are considered the most daring and interlarded ever performed as some novel feature generally is added after climbing that draws gasps of astonishment and awe from the thousands witnessing the attraction.

BIRMINGHAM, ALABAMA HAS LARGE INCREASE IN COLORED POPULATIONS

Washington, Dec. 17.—Negro population of Birmingham has been announced by the census to be 70,217, an increase of 17,912.

See Bill Strothers climb the courthouse wall and go to the top of the steeple tomorrow.

"HUMAN SPIDER" SCALING WALLS OF BELVIDERE HOTEL, 18 STORIES, WHILE IN BALTIMORE, MARYLAND

The above picture shows "Bill" Strothers performing one of the daring climbing acts which have won him national recognition. "Bill" will climb the court house here tomorrow afternoon at 2:30 in the interest of "Pay-Up and Trade Weeks" campaign.

MEDICAL MEN OF CZECHO SLOVAKIA VISIT GREENVILLE

Five Foreign Doctors and Two Members of State and National Health Boards Here Today.

Members of the State and National Boards of Health, accompanied by five members of the Ministry of Public Health and Physical Education, of Prague, Czecho Slovakia, are in the city today investigating health conditions in this part of the country.

The party arrived in Greenville this morning, since that time has been actively engaged in inspecting various branches of work such as afforded by the county health department.

Members of the Prague party are here under the supervision of the Rockefeller Foundation movement, Greenville being the first place to be visited after arriving in the State.

Many parts of Czecho Slovakia are thickly populated, the interpreter stated, and in such districts great difficulty was incurred in curbing ravages of disease.

The entire delegation appeared to be pleased with the investigation, and expressed themselves in a gratifying way to Dr. Chester.

URGE GREATER CREDIT AND BETTER MARKETING FOR NATION'S PLANTERS

St. Louis, Dec. 17.—Credits and systematized marketing was considered at a conference of farmers called by the national board of farm organizations.

SPARTANBURG MILLS ANNOUNCE REDUCTION IN EMPLOYEES' WAGES

Spartanburg, Dec. 17.—The Spartan Mills have announced an additional wage reduction of 20 cents.

FREDERICK GREAT NO LONGER GREAT IN HOME DISTRICT

Visitors to Imperial Palace in Germany Not Impressed as They Were Several Years Ago.

Potsdam, Oct. 17.—Frederick the Great is no longer Frederick the Great to the attendants who show visitors through the various palaces of the late Imperial German family.

On the whole the Potsdam palaces have undergone few changes under the new government.

The new palace, where William II lived, is now open to the public on certain days.

PRESIDENT WILSON PURCHASES HOME IN WASHINGTON CITY

Washington, Dec. 17.—President Wilson purchased a residence here for his home after Harding's inauguration.

LIBAU TRADESMEN SELLING PLUNDER TAKEN BY ARMIES

War Loot Displayed in Hundreds of Windows Received from Every Section of Europe.

Libau, Latvia, Dec. 17.—The appearance of the shop windows here indicate that the Libau tradesmen have received some of the plunder taken by the various armies that have swept over the Baltic states.

English dealer in antiques overran the Baltic states after they first freed themselves of the Bolshevik regime.

Besides the war loot the shops carry an amazing lot of second-hand wares which were the property of persons impoverished by the war.

It is common for prosperous looking strangers who are inspecting shop windows to be approached by owners of rare old furniture or works of art.

The shops of Libau are much the same as those in Riga, Windau and the cities of Esthonia and Lithuania.

GERMANS IN FAVOR OF SOCIALIZATION OF COAL DISTRICTS

Federation of Miners Intends to Force Law Through Reichstag to Further the Issue.

ASK GOVERNMENT FOR UNEQUIVOCAL REPLY TO URGENT DEMANDS

Charge Assembly With Procrastination And Deception in Recent Deliberations.

Bochm, Germany, uDec. 17.—The General Committee of the German Coal Miners' Federation has notified Chancellor Fehrenbach that they intend to force through the Reichstag a law for the socialization of the national coal fields.

In an open letter to the Chancellor, the Committee called upon the government to make an unequivocal declaration on the issue.

The miners' letter to the Chancellor sets forth that, in view of the promise given to the miners by the government last March and in order to fulfill the Spa agreement and supply the home demands for fuel, the miners have willingly agreed to work overtime in order to stimulate production.

They now charge the government with procrastination and allege that they have been deceived in the deliberations carried on by the Socialization Commission and the conference in committee sessions of the Imperial Economic Council.

TOBACCO FARMERS IN CHICOD PLEDGE CROP REDUCTIONS

Organizations Formed at Chicod and Winterville at Enthusiastic Meeting Last Night.

MEMBERSHIP CAMPAIGN TO BE CONDUCTED FOR ROUNDING UP FARMERS

W. B. Pace, Farm Demonstration Agent, Pleased With Outcome of Campaign So Far.

Tobacco growers of Pitt county are rapidly falling in line with proposed plans of the State Tobacco Growers association for one-third reduction in acreage next year.

The campaign yesterday was carried into Chicod and Winterville townships, resulting in organizations being formed in both places and active officers appointed to carry on the membership campaign to be waged today.

In the meeting conducted in Chicod township yesterday afternoon the following officers were appointed to direct an intensive membership drive to begin today and continue indefinitely.

Officers appointed last night at Winterville were F. F. Cox, president; G. F. Little, vice-president; Manley Jackson, secretary-treasurer.

Mr. Pace said this morning that one of the largest gatherings of tobacco planters ever attending a meeting here will be expected tomorrow.

Subscriptions taken to all newspapers and magazines. There is no more suitable Christmas present.

**UNITED STATES AND

WANTED GOOD SERVICE**

Hard Stricken Europeans Determined  
To Back Up Voting Power to Receive Results.

Madrid, Oct. 15.—The slogan of the European delegates to the Postal Congress held here appeared to be "we want revenue," while that of the delegates both from the United States and Latin America was clearly "we seek to exchange public service."

The discussions all through the long committee stages of the congress were tinged with opposite ideas and led to the formation of two solid blocks among the delegates—the Western Hemisphere against the Eastern. Friendly feeling was not lost at any time but the determination of the hard-stricken Europeans was backed by their voting power and the new Convention of Madrid contains the authorization to raise the postal rates.

Like the old Convention at Rome, the freshly-drafted agreement leaves it open to members of the Union to make separate agreements between themselves. Out of the opening has arisen the Pan-American Postal Union, comprising every republic in northern, central and south America, as well as Spain, by which they agree to interchange mutually at domestic rates all matter, just as through all the countries signing formed a single territory.

The delegates of the European countries and their colonies in search of revenue seemed to consider it their duty to secure as much for each of their countries as it was possible to extract from the congress.

EARLY REUNION OF  
CHINA TERRITORIES**

Chief Executive of Nation Issues Proclamation Demanding Union of  
North and South.

Peking, Nov. 16.—A proclamation of the reunion of North and South China has just been issued by President Shingchang. The mandate orders the various provincial authorities to exert themselves to the end that the democratic government may be promoted and announces that the republic "will henceforth be united."

The proclamation is practically coincident with a declaration from Canton by Tsen-Chau-hsuan and others of the "Executive Committee of the Southern Military government" announcing the dissolution of that government and cancellation of the "independence" of the southwest provinces.

The reunion mandate loses much of its force due to the fact that another independent faction is in control of the territory which the "military government" relinquishes, and that the sign-

## CHRISTMAS TREES TO BRIGHTEN MANY HOMES THIS YEAR

Between Four and Five Million Trees  
Will Be Felled Over Nations  
This Christmas  
FOREST OFFICIALS TO  
ENCOURAGE YEARLY USE  
OF NATION'S SUPPLY  
Over 1,500,000 Trees Will be Used in  
New York State and New  
England

Washington, Dec. 11.—Between four and five million Christmas trees will be felled this year to brighten American homes, churches and community centers, and delight the hearts of the children. This is the estimate each yuletide season equals approximately the combined consumption of England, Scotland and Wales and is about 25 percent greater than that of Germany.

Forest service officials are opposed to any movement to discourage the use of the trees for Christmas purposes. To the argument that the cutting and use of the trees is a great waste, they say that the custom is so old, so well grounded, and so venerated that even if it were economically somewhat indefensible, these aspects will and should continue to outweigh economic considerations.

Placed all together, the four or five millions of trees used annually would make a mighty forest, but forest service officers point out that many of them come from fields which are being cleared for farming purposes or from forests which need thinning to protect the more sturdy trees. They also argue that trees are for use and that there is no other use to which they could be put that would contribute so much to the joy of mankind as their use by children on this one great holiday.

### Walter Camp Announces Names of All-American Team in Current Issue of Colliers.

"Outside of the development of the open play and forward pass, the most striking feature of the season was the great interest shown by coaches and enthusiasts in the East as to what the West and South were doing, and in the South and West as to what the East was teaching. This had been brought about by the great growth in favor of the intersectional game led by Harvard's trip to the coast last New Year's Day, and by the signing up of agreements between Princeton and Chicago for games in 1921 and 1922. Perhaps the greatest factor of all, however, was the very definite increase, already referred to, in the knowledge of the game by the football public. The spectator in the stands now is an educated spectator.

Don't forget the Red Cross Christmas Seals while shopping. They have a mission no one can afford to neglect.

It is stated now that relief funds for Ireland are very necessary. That isn't surprising after disturbances around Cork.

New York has introduced an ordinance regulating air traffic over the city. It might now introduce a police patrol to prevent the boys from turning corners without blowing their horns.

Greenville welcomes Bill Strother, known throughout the country as the "Human Spider." The young fellow has won deserving recognition for daring and intrepidity wherever he has visited, and it is up to Greenville people to see that they pay him due honor while he is visiting here.

Representative Kitchin denies reports that he intends to retire from his duties in Washington. The news is gratifying to many friends in this section of the country, as he is well informed concerning North Carolina's needs and is always ready to do his best in its interest.

President-elect Harding has urged mothers of the country to begin training their children at home instead of leaving it so much to the school teacher. The advice is mighty good, and if applied, would have splendid effect in thousands of homes made embarrassing by a precocious child.

Austria was elected a member of the league of nations without any noticeable opposition, yet Armenia was denied the privilege. However, it is hoped President Wilson will be able to establish a stable government, in which case the country will be admitted. The league seems to be choice in selection, but its members are capable men and understand what they are about.

A supreme court justice has handed down a decision compelling purchasers to pay original prices of goods which had declined in price since the purchase. If the courts would follow the example old contracts would not suffer so seriously as in hundreds of cases since the market tumbled from its lofty position. And this is what the country needs.

North Carolina may be stinting along many lines just now but it certainly is looking out for its schools. Quite a number of cities have announced improvements at an early date, which goes to show that the State will not lag behind in education in the future. The awakening has come in due time and communities are to be commended for their splendid efforts.

The announcement that trade restrictions with Russia will be removed in a short time will be received with pleasure by business men in this country, for if there are possibilities in Russia such as conservative men think trade relations will be decidedly profitable to America. Russia demands many things manufactured in this country and revival of trade should have a stimulating effect along virtually every branch of commerce. This fact alone shows that production is more imperative now than ever, and unless it becomes more manifest trade relations with any country will not measure up to standard.

SUPPORTING THE WOMEN

Mary Anderson, Director of the Women's Bureau of the United States Department of Labor, does not believe that legislation controlling the hours of women's work should deprive them of any jobs they are claiming a theirs. She has the statistics to prove her position—which is more than the other side has, that contends against special laws for women lest the women be restricted to special jobs.

The annual report of the Women's Bureau has just been released. This is the youngest of the United States Bureaus, was created on the last ray of the last session of Congress, and therefore was but three weeks old when the fiscal year ended. But the Bureau is the permanent continuation of the "Women in Industry War Service," of which Mary Von Kleck was director, was appointed in her place.

The past year's work of the Bureau has been a survey of the transition of women in war service to women in peace service. Hours of work, conditions of work, wages, the relation of women workers to men workers expressed or implied, are the subjects of discussion, and will be the subjects of legislation in these changing times—because women have never before voted in the American world. Already the women world tends to divide into two camps.

To quote from the report: "The employment of women in many occupations and efforts to protect them from the ill effects of long hours have resulted in a certain amount of conflict between those who would have no special laws for women, and those who feel that a certain amount of protection is necessary of women are not to suffer from industrial exploitation with accompanying injury to themselves and future generations. This conflict has resulted in some instances in assertions from the former group that special legislation was resulting in the shutting out of women from any occupations where they had a right to work and where they could be employed to a great advantage both to themselves and to the industry."

Two pieces of investigation into widely scattered territories for similar occupations was undertaken by the Women's Bureau under the direction first of Miss Van Kleck then of Miss Anderson.

Women who have been employed in New York and Brooklyn as street car conductors and ticket agents were being dismissed because of local restrictions. The Bureau of Women Industry of New York State undertook an investigation into the local facts. The Federal Women's Bureau made an investigation in four other cities where women were employed in transportation, Boston, Detroit, Kansas City, Chicago.

"It was found that women ticket agents were being employed in Boston and Chicago under conditions far in advance of the local legal requirements, and of the requirements in New York, which, according to the statements of the employers, it had been impossible to meet.

The campaign to organize every township of the county as members of the county branch of the North Carolina Tobacco Growers association is destined to have much to do with the reduction of acreage in this county next year. In fact, it is certain that no farmer will go ahead and plant the usual size crop when he has been warned repeatedly against overplanting. The only way to bring about an improvement is to follow suggestions already outlined, cut acreage to one-third and confine every effort to production of better grade tobacco. The world market, authoritative reports say, is overstocked because of Europe's failure to demand usual supplies and prices have taken a tumble the planter will not soon forget. Organization is the only way out of a bad situation, and if crops are cut an improvement will be noticeable in the next several months.

It is not surprising that President Wilson would choose Henry Morgenthau as his personal representative mediating between Armenia and the Turkish Nationalists. The selection is one that shows how carefully Mr. Wilson must have considered conditions before going deeper into Armenia's fate. Mr. Morgenthau as former American ambassador to Turkey, is probably better informed as to conditions existing in that part of the world than any other person, and if he should be successful in his mission whatever he succeeds in accomplishing will result from his deep insight into characteristics and demands of both nations.

If you can't pay up your accounts in full during "Pay-Up and Trade Weeks" why not make an effort of paying part of them and in that way receive an opportunity of winning the automobile to be given away. A coupon will be given with every dollar paid on accounts or cash purchases. The Reflector has issued many to subscribers since the campaign opened and has many more waiting for those who have failed to pay up.

Senator Smith, of South Carolina, has informed the senate that cotton mills are in better position to make profits now than they were when prices were so high. He charges mills with failure to reduce prices in conformity with decreased wages and price of the staple which places the profit in many instances over 300 per cent. Conditions he says are frightful for instead of profiteering in commodities manufacturers are today profiteering in dollars. These facts cover the situation in a nutshell, and show conclusively that the county has far to go yet before price adjustment becomes evident.

The old saying that charity begins at home is very applicable indeed, but it cannot stop where it begins if civilization realizes from it. The prosperous people of the United States have been asked to give thirty million dollars for relief of starving children in Central Europe. The plea has been extended throughout the United States, and if it should not be heeded by the generous-hearted thousands of children will die from privation during the winter. See your local committee at once and contribute liberally in the name of humanity.

There are hundreds of people who carry large sums of money in their pockets from day to day without a thought of placing it in banks where it would be in circulation. In fact, numbers of farmers are doing it, afraid the banks will go under and leave them in the lurch. That's poor judgment, and is one of the reasons why so many are complaining of money panics. If you want conditions to improve, deposit your money where it will be in circulation. Loans will become better and the country as a whole will be better off.

The money stringency in this section of the State, to hear some people talk, is more severe than any part of the country. But that isn't so. There are too many people under influence of the panic spirit, and haven't given the matter consideration enough to justify the same action. It is imperative that something be done to eliminate so much useless talk, and the sooner people are impressed with the futility of it the better off the nation will be.

LAND SALE

By virtue of the power of sale, contained in a certain deed of trust, executed by Thomas Jackson to J. B. James, trustee, on the first day of December, 1919, which deed of trust was duly recorded in the office of the register of deeds of Pitt county in book 1-13, page 571, the undersigned will sell, for cash, before the courthouse in Greenville, on Saturday, January 1st, 1921, at noon: The following described real estate, to-wit:

That tract of land in Greenville township somewhat known as Tar road: beginning at the intersection of the Kinston and Tar roads; thence in a southerly direction on the west side of Tar road, about 600 yards to a stake in Ed Blount's line at a corner thence a westerly direction with Blount's line about 300 yards to Atlantic Coast Line R. R. right of way, at a corner; thence a southerly course with the east side of said right of way, about 25 yards to the Kinston road, a corner; thence a north-easterly course with the second boundary of the Kinston road, about 375 yards to the intersection of the road he beginning. Containing 25 acres.

Also one other tract of land in said county and state, bounded as follows: Beginning at the A. C. L. railroad right of way to a stake; thence southerly with the said right of way 18 poles to a stake; thence S 84 1-2 E to Tar road; thence northwardly with the western boundary of said road 14 poles to a stake; thence N. 84 1-2 W to a stake on A. C. L. railroad right of way, the beginning. Containing 6 acres. Being the same two pieces of land conveyed to Thomas Jackson by H. C. Edwards and same conveyed by L. M. Manning and wife to H. C. Edwards by deed recorded in book U-42 page 185

Said sale is made to satisfy said deed of trust which was given to secure purchase money due for said land.

This 1st day of December, 1920.  
J. B. JAMES, Trustee.

## IF ALL WHO HATE WOULD LOVE

(From the Editor's own Scrap Book)  
 If all who hate would love us,  
 And all our loves were true,  
 The stars that swing above us  
 Would brighten in the blue;  
 If the cruel words were kisses,  
 And every scowl a smile,  
 A better world than this is  
 Would hardly be worth while;  
 If purses would not tighten  
 To meet a brother's need,  
 The load we bear would brighten  
 Above the greave of greed.

If those who whine would whistle,  
 And those who languish laugh,  
 The rose would rout the thistle,  
 The grain outrun the chaff,  
 If hearts were only jolly,  
 If grieving were forgot,  
 And tears of melancholy  
 Were things that now are not;  
 Then love would kneel to duty,  
 And all the world would seem  
 A bridal bower of beauty,  
 A dream within a dream.

If men would cease to worry,  
 And women cease to sigh,  
 And all be glad to bury  
 Whatever has to die;  
 If neighbor spake to neighbor,  
 As love demands of all,  
 The rust would eat the saber,  
 The spear stay on the wall,  
 Then every day would glisten,  
 And every eye would shine,  
 And God would pause to listen,  
 And life would be divine.

## PRESBYTERIAN CHURCH TO PRESENT CHRISTMAS PROGRAM SUNDAY NIGHT

Tentative Program Promises to be One of the Most Unique of Holiday Season.

The Presbyterian church will have its Christmas program on Sunday night at 7:30 and it promises to be unique as well as helpful and representative of the real spirit of Christmas. It will be in charge of the Sunday school, which is now going some, under the careful direction of the Superintendent and his Weekly Workers Conference.

Instead of having a tree on which are hung presents for the children, who in good old Greenville always have plenty of Christmas at home, the tree will be used to remind the children that there are those in the world who will have no Christmas unless the Sunday school and church provide it.

The service will be a White Gift service and every pupil as well as members of the church is to bring some white gift to be presented to the King, and used in His name to bless someone else. The orphanage at Barium Springs is to receive these gifts.

The church will be suitably decorated and the Men's Bible Class will present a short play, in Oriental costume showing the King upon his throne, with his attendants and herald, and his subjects bowing a this throne with suitable gifts. There will be special music and Christmas Carols by the congregation, and Mrs. Goode will play the piano.

This program will take the place of the regular Sunday evening preaching service, and the public are most cordially invited to be present.

With today's sale the tobacco market closes until January 11th.

## Prices Too High Here

In Greenville higher prices are charged for beef, pork, sausage and all fresh meats than in any of the neighboring towns. First thing the dealers know house keepers will be investigating this overcharge, for they can see no reason why meats should not sell as low here as elsewhere. And the local cafes are charges unreasonable prices for dishes served.

## Wages Must Fall, Too

Some local employers are giving notice to employees that there will be a reduction in wages beginning January 1st. This is in keeping with the decline taking place in prices generally and wage-earners must expect to bear their part in the readjustment of conditions. Employers should pay no more than business justifies.

## NOTE TO PARCEL POST SHOPPERS

Placards in the lobby of the local post office give the timely advice that parcels should be wrapped securely, addressed plainly and shipped early. Postmaster D. J. Whichard says the mails are already feeling the effects of this injunction, for as Christmas draws nearer the bulk of mail handled is increasing daily. In the few days next preceding Christmas the rush will be at its height, and people can avoid this if they will send their parcels early and not hold them until the last day or two. Parcels sent should have written on them "Do Not Open Until Christmas" or any similar words. People who ship early will also avoid the possibility of parcels not reaching destination in time for delivery by Christmas Day. Do the wise thing by getting parcels ready and ship them early so as to avoid the congestion that comes later.

## BRITAIN AND JAPAN WANT AMERICA TO JOIN BUILDING CUT

Senators Request Counter Proposal to See If Powers Mean Real Business This Time.

Washington, Dec. 14.—Rumored intentions of Great Britain and Japan to seek an agreement with the United States for limitation of warship building program came up today. Offered by Senator Borah, of Utah, requesting the President to seek an agreement with these powers for a five-year building truce, with construction programs cut in half during that period. It would, he said, "develop whether England and Japan were sincere in their talk of reductions. Before the House Naval Committee, Secretary of the Navy Daniels presented recommendations for naval construction and said, "I believe that the United States cannot afford to take a five-year "naval holiday as it has been rumored that England and Japan will suggest to this country."

Senator Borah's resolution went to the foreign relations committee without debate.

## FARMERS DECLARE PRESENT PRICES MEAN BANKRUPTCY

St. Louis, Dec. 17.—Farmers representing sixteen farmers' organizations throughout the United States are in conference here today seeking relief from falling prices of farm products. Delegates declared that present prices mean bankruptcy and not due to law of supply and demand. Plans include a national market and establishment of banks and through co-operation with farm organizations.

## FLORIDA GOVERNOR THREATENS TO SEE PUBLISHER WITH GUN

Tallahassee, Fla., Dec. 17.—In an open letter, Governor Cates threatens to go to West Palm Beach with his double barrel shotgun, loaded with buck shot and have a final settlement with Joe L. Erman, president of the State Board of Health, and publisher of the Palm Beach Post. The letter follows publication in the Post a story regarding the reinstatement of the State attorney a Wes Palm Beach.

### THE TOBACCO FARMER

Every individual, as well as every business industry, in the Bright Tobacco Belt should actively support the movement of the tobacco farmers to organize to control production and secure a living price for tobacco.

With this object in view we contemplate the publication of a weekly paper, "THE TOBACCO FARMER," beginning about Jan. 1st, 1921. The object of this paper will be to publish letters from farmers and other interested business men, and information from whatever source that will help farmers form correct conclusions as to what to do, when to do it and how to do it to protect their interest.

We have assurance from Mr. O. L. Joyner, one of the best informed men in the state on this question, that he will help in the editorial work of this paper.

Every one who is interested in this vital question, affecting the happiness and prosperity of all the people of this great bright tobacco country, should fill out and mail at once the attached coupon.

Nine Members of Air Services Presented With Medals and Kissed On Cheek by General.

Lemberg, Nov. 25.—Nine members of the Kosciuszko air squadron, made up chiefly of Americans, were decorated recently with the highest military honors of Poland and, simultaneously with the presentation of the medals, each aviator was kissed on the cheek as is the Polish custom by General Stanislaus Haller, commander of the Sixth Polish army. The presentation took place at the squadron aerodrome near Lemberg which city was defended by the Americans during the Bolshevik drive in August.

Those decorated were Captain Geo. M. Crawford, Brooklyn, N. Y.; Lieutenant Elliott W. Chess, El Paso, Tex.; Lieutenant Harmon C. Borison, Wilmington, N. C.; Lieutenant Kenneth O. Shrewsbury, Charleston, W. Va.; Lieutenant Carl Clark, Tulsa, Okla.; Lieutenant George Weber, Peking, China; Lieutenant Wladyslaw Kouopka and Alexander Senkowski, the last two named being liaison officers.

The list of those decorated included the name of Captain Meria G. Cooper, of Jacksonville, Fla., who at last accounts was a prisoner in the hands of the Bolsheviks; having been shot down in his airplane last summer.

Lieutenant Colonel Cedric E. Faunteroy, of Chicago, and McGehee, Ark., commander of the air forces of the southern front, and Lieutenant Edwin Noble, of Boston, wounded early in the spring, were decorated previously.

Annual Report of Commissioner General Shows Heavy Increase from Canada and Mexico.

90,000 ALIENS FROM CANADA ADMITTED IN PERIOD OF ONE YEAR

Admission of Aliens from Mexico Totalled 52,361, Against 6,1606 From United States.

Washington, Dec. 16.—Immigration from Canada during the last fiscal year broke all records, and there was a tremendous increase in immigration from

Mexico as well as from the European countries, Anthony Caminetti, Commissioner General of Immigration, says in his annual report made public today.

Aliens from Canada admitted to the country, the report says, numbered 90,025 while aliens departing numbered 7,000 leaving an excess of 82,357. In addition 19,336 aliens in Canada who applied for admission were debarred while 5,328 were refused examination, the report says, because of inability or unwillingness to meet the head tax requirement.

Admission of aliens from Mexico totalled 52,361 while the number of aliens going to Mexico from the United States numbered 6,006, leaving an excess of 45,755. During the previous fiscal year the admissions of immigrant aliens from Mexico numbered 29,818.

Europe sent a total of 246,205 immigrant aliens to the United States in the past fiscal year while 256,433 emigrant aliens left the United States for Europe, causing a decrease in alien population of 10,138. Immigrant aliens
