

STOCK LAW GETS FAVORABLE ACTION IN LEGISLATURE

Bill Passes Both Houses of Legislature About Forty Years of Constant Fighting

PRACTICALLY EVERY AMENDMENT EXCEPT COUNTIES DEFEATED

State-Wide Stock Law to Become Effective Next Year, According to Provisions

Raleigh, Feb. 19.—Mathews of Bertie fought a losing battle with Murray, of Rowan yesterday and the House successively declined to allow the State-wide stock law bill to go to a vote of the people in the territory involved, except any county from the provision law or to kill the law outright. Stock law as an actuality in every county in eastern North Carolina.

And with the passage of the act, the House put behind it all thought of cattle ticks and sacred scrub heifers for the term, and no more, by common consent will be said about ticks. The house had killed eradication overwhelmingly, and no note will be taken of the Senate's enactment, other than to take the measure when it is reported over.

Thus passed a vexation that has plagued every session of the General Assembly to the past generation. The last bulwark of the sacred scrub heifer and the hony pine wood roofer went down before the implacable driving of the resolute Murphy, and beginning next January, the sacred beast of the East must be confined within fences.

Yesterday's battle was surpassingly bitter in vain did Mr. Matthews hurl his very notable oratorical gifts against the unyielding line of Murphy's defense, pleading for the right of the people in the counties involved to speak their wishes. In vain did Crisp of Dare loose his lightnings against the legions of the stock law. Victory was hindered for three hours, but at no time was it apparent that the losers had a chance.

Nothing else engaged the morning session although Speaker Grier held up a warning calendar, chocked with more than a hundred bills that cried for immediate attention. Mr. Matthews fought his fight and sat down, but not so Crisp. The Governor of Dare, as Member Wright must call him continued to obstruct the Murphy machine until it finally drove over him a little after 2 o'clock.

"SOME GIRL" TO APPEAR IN CITY NEXT THURSDAY NIGHT

"Some Girl", the very latest of America made musical comedies, is announced by Le Comte and Flesher for a presentation at the White's Theatre, Thursday night, Feb. 24.

Lilting melodies, a rapid change of scenes, a plot with a climax and a "sunshine" chorus, all combine to ensure a full evening of pleasure.

The music is the whistling sort that you will remember.

The plot provides for a proper amount of love scenes, carries the audience to sunny Brittany, the Riviera, picturesque Mexico and busy New York and ends happily.

Much care and attention has been bestowed by the management in the selection of its "beauty chorus", and it is claimed they not only look sweet, but they sing and dance just as sweetly.

Among the principals may be mentioned such well known names as Gudrun Walberg, Allan Carter, Leona Starter, Bessie Delmore, Tom Crowley and Gilbert Tossack.

The musical numbers include such popular gems as the theme song, "My Sunshine Lady", "I Miss You Honey", "Deed I do", "Mere Man", "The Vampire Lady" and half a score more of sure fire hits.

This engagement is for one day only.

TO PERFECT PLANS FOR BASEBALL CLUB WEDNESDAY NIGHT

Local Baseball Association to Meet On Next Wednesday Night in the Chamber of Commerce Rooms

The baseball meeting held in Kinston Thursday was one of the most successful of its kind ever held in this section. About forty representatives from the various towns were present to indicate their willingness to stand behind a base ball league for the coming season, and tentative plans were unanimously agreed upon. Another meeting will be held in New Bern Friday night at which time a permanent organization will be formed and the necessary arrangements be made for the starting of the season.

In the meantime it is absolutely necessary for the towns desiring to come into the league to whip their local organization in shape. If we are to have a team we must get busy now, and line up players that we wish to have this summer. Also it is necessary that we secure some financial backing in order to make the matter successful.

Under the temporary plans the league will be formed of Greenville, Washington, New Bern, Kinston, Goldsboro, and Wilmington. The Wilmington club will make concessions in regard to paying a part of the expenses of the various teams on account of the long distance. Greenville will be the smallest town in this league, and it is chance of a life time to get real ball and get in a real league. Under the plans now being worked out the local club will not cost as much as last year's club, and yet we hope to have a better team than last year's.

Every man, woman and child who is at all interested in seeing Greenville in the league is asked to be at the Chamber of Commerce rooms on Wednesday night at eight o'clock. This is our last call, because if we are going to do anything, now is the time to do it. A large crowd of fans present will go far toward making the meeting a success. If you don't come it will mean that you don't want base ball, and unless this league idea is supported by the fans at large it will be impossible for a few men to carry the burden. We want you all at this meeting next Wednesday night.

PROFESSIONAL CROOK TURNED OVER TO POLICE

William Peacock, who was arrested in this city Thursday afternoon charged with larceny of an automobile and obtaining money from the local chapter of the American Red Cross by a bogus discharge from the army, was turned over to New Hanover county authorities this morning after it had been ascertained that he was wanted. William Beebe arrested with Peacock, as a deserter from the naval base at Norfolk, is still being held for disposition by the government.

Confessions made to the police department immediately after the capture of the two men helped considerably in clearing up the case, and information from the government and New Hanover authorities has set at rest a doubt concerning their identity as presented in the confession.

Both men and automobile were captured by the police at the same time, and evinced no desire to effect release by untrue stories.

DECLARES JAPAN DEMANDS GREATER ECONOMIC FUTURE

University Leaders Says Increasing Population Demands an Outlet for Some Kind

Feb. 19.—Japan's Economic future demands more territory as an outlet for her increasing population in the opinion of Professor Horiye of Keio University, in a discussion of the economic conditions of the Empire. He said: "Whatever justifiable cause there may have been for the wars modern Japan has fought there can be no doubt that this consciousness of territorial limitations have played no small part in bringing them to successful issues."

With Formosa, Korea, and also practically a part of Manchuria added to the Empire is the nation now free from all economic apprehensions? The answer is of course "no." Should Japan then look about for a fresh acquisition of territory? What about immigration. Japan proposed and failed to put through the principles of racial equality at the recent Peace Conference in Paris. The proposal deserved approval if its aim was to establish an abstract principle, but was wrong in its motive if it was intended to afford a solution of the immigration problem.

Again to send people abroad in order to profit by their savings is a mean way to enrich a country. And it is only natural that a country of higher civilization should object to such emigrants. Such a solution of the problem of over population is unworthy of Japan which claims to be a great power, besides being quite impracticable under present day international conditions.

EARTHQUAKES DO GREAT DAMAGE IN CHILEAN SECTION

One Hundred and Ninety-Two Shocks Register in Six Days in One Affected Volcanic Disturbances

Santiago, Chile, Feb. 19.—One hundred and ninety-two earthquake shocks were registered in six days in the zone affected by the seismic and volcanic disturbances in the mountainous region of the provinces of Valdivia and Cautin, in southern Chile, a few weeks ago, according to belated advice to the Ministry of Interior. So far as known there was no loss of life.

The official reports now available supplementing the earlier information forwarded by cable, lay stress upon the violence of the shocks and the changes in the conformation of the country which resulted.

The disturbance is believed to have been due to an explosive eruption of the snow capped volcano Millarica, 9,000 feet high, which is near the town of Pucon, in Valdivia. It is thought the crater of the volcano became plugged during the periods of inactivity and that the mountain blew its head off with the accompaniment of the violent earthquakes. The volcano is said to be of the type that, as a rule, does not emit molten lava, but ejects pumice and volcanic ash.

The shocks began shortly before midnight on December 9 and for three hours were almost continuous, terrifying the population, most of which are Indians. The most violent quake lasted 20 seconds. The whole region vibrated intermittently during the next five days.

Entire hills were razed and many cattle were killed by falling trees. Much of the town of Pucon, which is a part of the damage done to small buildings in of entry from Argentina; parts of the international highway to Argentina

COMING VISIT OF JAPANESE RULER CREATES INTEREST

Crown Prince Plans to Visit Europe and United States Sometime in Near Future

FACTS REGARDING LIFE OF CROWN PRINCE TOLD IN INTERESTING MANNER

Hirohito Interested in Development of the World and Is Well Informed Along All Lines

Tokio, Feb. 19.—The reported forthcoming visit to Europe and the United States of Hirohito, the future ruler of Japan has created additional interest in the personality of the young heir to the throne of Japan. This is the first time that a Jap Crown Prince will have gone abroad.

His Imperial Highness, the Crown Prince, the latest eldest son of His Imperial Majesty the Emperor, was born on April 29th, 1901.

On the 30th of July, when His Majesty succeeded to the throne, his Imperial Highness was proclaimed Crown Prince.

The Crown Prince is today a major of infantry in the Imperial army and a lieutenant-commander in the navy. As major, His Highness is attached to the first regiment of the Imperial guards and a lieutenant commander, to the headquarters of the first squadron of the Imperial navy.

At the age of six his Highness was enrolled among the pupils of the Primary Section of the Peers' School and received the customary common-school education, in daily association with other pupils of this famous school, who are in the main the children of the aristocracy. In March 1924 the young prince was graduated and then there established the Imperial education institute in the precinct of the Crown Prince's residence. Here His Highness during a course of several years, has received a higher grade of education in matters military and civil. The course was spread over seven years and His Highness is now in the last year of his course.

As an officer of the Imperial services, the young Prince began his career as sub-lieutenant in the army and second sub-lieutenant in the navy. In October 1914 came his first promotion to infantry lieutenant and naval sub-lieutenant; in October 1916 the second promotion, to infantry captain and naval first lieutenant; and in October 1920, the third promotion, to infantry major and naval lieutenant commander.

"MY GOLDEN GIRL" PLEASES IN APPEARANCE HERE

"My Golden Girl", which played this city last night at White's Theatre was above the average and pleased the large crowd of theatre-goers who went out to witness it. The orchestra was perhaps the most attractive feature of the show. The voices were taken as a whole, very good and the scenic effects and costumes were pretty and attractive.

MEMORIAL BAPTIST SERVICES TO BE CONDUCTED IN HIGH SCHOOL BEGINNING FEB. 27TH

Beginning Sunday Feb. 27, and continuing through Sunday, March 13th, the Memorial Baptist Church will hold their services in the High School Auditorium. The change is made on account of extensive improvements which are being made in the church auditorium and the Sunday School rooms.

The revival meeting will begin Sunday morning, March 20th. These meetings will be conducted by the pastor, Rev. Leland W. Smith, assisted by a trained Evangelist Singer.

The public is cordially invited to all the services.

DECLARE AUSTRIAN CHILDREN IN NEED OF EARLY RELIEF

Physicians Declare Children Will Remain Permanently Stunted Unless Aid Is Given

ISSUE STATEMENT OF CONDITIONS HOLDING SWAY IN ALL SECTIONS

Says Children Will Never Have Normal Weight and Size If Continued to be Neglected

Vienna, Feb. 19.—Three internationally known Austrian physicians have joined in a statement to the effect that Austrian children will remain permanently stunted in growth unless adequate relief is given immediately. The physicians are Dr. Eislerberg, Vienna brain specialist and one of the leading surgeons of the city, and Drs. Lorenz and Pirquet, the latter inventor of the tuberculin test and for two years professor at Johns Hopkins University.

The statement which was made by request says:

"We, the undersigned, wish to bring to the attention of the world that recent statistics gathered in Vienna show Austrian children subnormal in weight and height. Recent examination of apprentices in Vienna revealed that boys of 17 years of age have an average height of five feet, two inches, instead of the normal height of five feet, six inches, and that their weight averaged 101 pounds, instead of a normal weight of 114 1/2 pounds.

Altogether we may state that at the end of juvenile growth the average boys of Vienna are about four inches below normal height and about 16 pounds below normal weight. Girls are correspondingly stunted.

"We also believe, from a medical standpoint, these children will never have their normal weight and height but will go through life in this stunted condition. We believe that children of succeeding age and classes, unless given sufficient food will also remain underdeveloped and so go through life.

"An awful proof of undernourishment is great distortion caused by rickets, or limbs of nearly all the children who come to orthopedic wards.

"A most depressing fact is the frequent occurrence that young boys and girls, asking for relief of severe pains in their feet or legs, are ascertained to be dragging themselves on broken bones which had cracked senselessly and given way on account of the unhealthy condition of their emaciated systems. Such deplorable developments were unheard of before the war and can now only be combated by giving the children adequate and sufficient food."

THREE THOUSAND PERSONS HEAR KU KLUX KLAN MAN IN RALEIGH LAST NIGHT

Raleigh, Feb. 19.—More than three thousand persons, including about three hundred negroes, heard the doctrines of the revived Knights of the Ku Klux Klan eloquently and forcefully expounded here last night in an address delivered in the city auditorium by the Imperial Kludge of the Order.

The Imperial Kludge came to Raleigh as representative of Col. William J. Simmons, Imperial Wizard of the Knights of the Ku Klux Klan, who was scheduled to speak on the Knights of the Ku Klux Klan yesterday today and forever, but was unable to be present on account of illness.

The meeting was preceded by a parade through the streets of Raleigh, which was witnessed by thousands through in automobiles, special coaches attached to regular trains having brought a large number of persons into the city for the address. The Imperial Kludge was introduced by Capt. J. J. Laughinghouse, of Greenville, N. C., one of the original Ku Klux Klan, 70 years old, who was given a tremendous ovation during the entire course in which the aims and purposes of the Ku Klux were set forth.

Customs in Africa prevent men from seeing their brides before the day of the wedding. In America, there are probably thousands who wish they had never seen her at all. At least divorce proceedings indicate such.

A Kansas labor leader has been sentenced to a long term in prison. If a few more were handled in the same way labor conditions might improve in this country. The trouble now is that we have too many leaders and not enough workers. When this has been improved we may look for a general improvement along all lines of industry.

Confectioners estimate that prohibition has increased demand for their wares at least thirty per cent. That being the case they are suffering down in this section because contraband liquor is sold as freely as if there was no prohibition law in force. It looks like confectionery supply houses had better begin war on the whiskey traffic and help their own trade.

Numbers of critics believe Pitt county farmers are not going to reduce the tobacco acreage this year. But to be convinced they are wrong it might be advisable to ask some of the planters about it. Prices have convinced everyone that curtailed acreage is necessary and there will be very few who fail to do as advised by State and National organizations.

The Sinn Fein party has entered charges of cruelty against officials of a prison camp near Dublin. This is not surprising if we consider the disturbed conditions of that part of the country. The Sinn Feiners, however, ought to be last people in the world to speak of cruelty. They have seen so much of it in their own country that it seems to be more of a custom than anything else.

Pitt county might conduct an investigation to ascertain why courts are so lax in sentences to whiskey dealers and other violators of the law. Several were recently released when every member of the court knew the principals were guilty. Juries seem rather indifferent to the importance of their duty, and fail to agree when evidence is sufficient for conviction. The situation is sufficiently serious to justify momentary consideration at least, and ought to be improved.

An authority on railroad problems in Great Britain declares practically every road in that country is insolvent. The way American railwaymen are howling causes one to believe they are on the brink of insolvency too. Misery loves company, and Britain may feel better in knowing she's not alone.

Raleigh's women have organized a club for teaching women how to make their own hats and millinery. The step is one of the most progressive in several years, and is destined to be a complete success. If more women had an opportunity of learning to make their clothes there are thousands who would gladly take advantage of it, although many wouldn't find time on account of social activities. American women at least the general run, are industrious and ambitious, and when given a chance to learn anything thrifty, always get busy and learn it. Raleigh has taken a progressive step, and may have the way for extending the plan to other communities.

A recent report of the County Board of Public Welfare shows that service during the month of January was very commendable, and deserving of consideration by every person interested in the welfare of county children. The reports say twenty cases, dealing with delinquent, dependent, and neglected children were handled and disposed of in a satisfactory way to members of the board and parents. The organization has been a mighty good factor for better environments, and if people will support it there is little reason why Pitt county should not take first rank among other State institutions. Mr. Futrelle, public school attendance officer, is doing everything possible to make the board's influence felt in every part of the county where there is need for such, and so far has succeeded in an admirable way. His work along the charity line has been gratifying, and instrumental in preventing much suffering and misery among persons unable to care for themselves. The State Welfare board is one of the most useful mediums for decreasing crime and preventing suffering the people have, and if they will only lend their undivided support the work may be extended considerably.

Import duties carried by the Fordney tariff measure which passed the Senate yesterday are sufficiently comprehensive to cover everything of interest to the American people and oppress them more and more than ever. The measure is one of the most unnecessary presented before the body in a long time, and is more of an imposition than people appear to think. The question has been discussed from every angle, and should it be enacted into law, the public may rest satisfied the lawmakers knew what they were about although they do not have to bear the responsibility of their action. The bill is designed to add to the cost of living in this country, as its provisions are far-reaching. The newspaper and many other branches of industry will be affected, and are able to do nothing but protest and accept the inevitable. The situation is deplorable and shows to what extent disagreeable elements of the Senate may carry their grievances.

Burlington plans to take action for more complete law enforcement, if a campaign now in progress there means anything. That is what every city in the State should do, for in a short while the great wave of criminality would undergo a noticeable decrease. Determination to better conditions is the only way law will ever be enforced, and any city desirous of improving its moral atmosphere had better find them out if it means business before beginning work. The courts and juries, becoming too negligent in performance of their duties just at this time, and unless this is eliminated law enforcement will never be what it should. The situation is deserving of earnest consideration, and people interested in community welfare had better get busy and impress the lawless element and the courts that continued violations will not be tolerated.

The national debt of France is considerably greater than at signing of the armistice. The way the United States is raising money through taxation indicates it has done better than France. The war, however, will be a burden to all nations involved for many years to come, and should be a lesson that peace pays at all times.

That little section of Pitt street from the end of the paving to the river bridge certainly ought to be given some kind of hard surface. Another place that needs improving is that section between the end of the paving on Dickinson avenue and the beginning of the brick road leading to Farmville. These two neglected spots are eyesores.

William Jennings Bryan has announced his proposition for a national legislative program to reorganize the Democratic party. His proposal contains twenty-two plans, twenty of which are hot air and the remaining two simply propaganda. The party does not require reorganization as the Commoner thinks. It needs less contention and more honest labor, two factors which have been noticeably lacking since Mr. Bryan left the cabinet.

It is said Afghanistan has a traditional law that no man physically afflicted may hold a public job of honor or profit. If the United States had such a law there would certainly be a house cleaning in congress, as those not physically affected have minor disorders of the brain which cause them to act strangely at times, particularly in important matters.

WASHINGTON'S BIRTHDAY
A LEGAL HOLIDAY

Next Tuesday, February 22nd, is the anniversary of Washington's birthday and it is a national holiday.

In observance of the day the local post office will be closed with the exception of the general delivery and parcel windows being open from 11:30 a. m. to 1:00 p. m. Between these hours any one can call at the windows for their mail. The city carriers will make the morning delivery and collection, but will not go out on the afternoon trip. The rural carriers will not serve their routes that day.

VALENTINE PARTY

The Jr. B. Y. P. U. of the Memorial Baptist church had a glorious time last night at the home of Mr. W. Z. Morton where promptly at eight o'clock all the class gathered for a valentine party. The house was decorated appropriately for the occasion.

With plenty of good things to eat and many amusing games the boys and girls had a delightful time. We will have something for a good time every quarter.

The Jr. B. Y. P. U. is a very enthusiastic and interesting class and they are learning wonderful things about God and His great care for them, inspiring them to come to him and yearning to do some service for him. How glorious to have our children get this training that they may grow into God-loving ready to serve men and women that may become a great blessing to this lost world making the Heavenly Father proud that he created them. Mother this is our responsibility and one of our greatest opportunities to show God how we appreciate his most wonderful blessing "Our precious children".

That he give them the training that will inspire them to do the services we have failed to do, making them worth while to the world. We meet every Sunday evening at 6:30 at the church and all boys and girls from 10 to 16 are cordially invited to join us.

STATE COLLEGE BAND AT

TRAINING SCHOOL TONIGHT

The State College Band concert at the Training School tonight will begin at eight o'clock. Admission is \$1 for adults and 50c for children.

The Senior Class is bringing the band here. The town should give them a full house. Everybody loves a brass band, and the people of Greenville seldom have the chance to hear a good band.

The school and the people of the town last year seemed to enjoy this band so much that the Senior thought it would be the most enjoyable entertainment they could offer. Last year the authorities of the school met the expenses and gave it to the public free of charge. The class will have to meet the expenses this year, which will be heavy, therefore, they are obliged to charge admission.

Everybody go out and have a good time this evening.

METHODIST SUNDAY SCHOOL ESTABLISHED FINE RECORD

Last Sunday the Jarvis Memorial Methodist Sunday School had the time of its existence in that the school hung up another record in attendance. There were 523 present for the roll call, and the sides of the church fairly bulged in the attempt to take care of the enthusiastic crowd. The most noticeable increase last Sunday was in the class taught by Miss Sallie Joyner Davis. This is a class of women which has grown steadily from an attendance of about ten or fifteen to the attendance last Sunday of 61. This class overflowed its room and part of the number were taken to the main body of the church, where they were attached to Mr. Underwood's class temporarily. Among the new members of this class last Sunday was Mrs. T. J. Jarvis who came and saw and was conquered by the Sunday School spirit. The class of men taught by Mr. Wright reached its high water mark. There were 77 men present in this class, and when that bunch of fine men start singing over in their part of the building, the rest of the school stops to listen. The other class of men, thirty strong, taught by Mr. J. B. James had an interesting session. They planned to pull off some stunts in the near future and to do quite a bit of constructive work. This class has grown some nearly every Sunday. The Junior Philathea Class taught by Mrs. W. E. Hooker made about the best record in school last Sunday. They had new members, old ones back, visitors present, good collection, and a good spirit of study and co-operation. The class of girls, taught by Miss Ross had three new members, everybody present and on time, and also won the banner for the first Sunday's contest in the matter of bringing parents and adults to Sunday School. Mrs. Milton White's class had a splendid mark. So did Marvin Blount's class of boys. Practically every class in Sunday School had nearly every member present.

For tomorrow the following is expected, rain or shine: 550 present; a lot of parents who have not yet been able to find their way to the school, and every regular member of the school in place. The contest among the classes for the parents' attendance will be kept up with just as much spirit as was displayed last Sunday. Sunday School will begin at 9:45 and will end at 10:45. One hour of music, enthusiasm, study of the Bible and prayer. For the music there will be the piano, violin and French horn.

MRS. MARTHA TAYLOR DIES AT HOME IN EDGEcombe

Mrs. Taylor was born March 4, 1840. Died February 11, 1921. Living 80 years, 11 months and 23 days.

1866 she was happily married to Mr. B. H. Taylor, with whom she traveled in the pleasant paths of domestic duties for 55 years, in the sweet and harmonious companionship that belongs only to those whose hearts are one in the great responsibilities of life.

To this happy union was born five children, three sons and two daughters as follows: J. H. Taylor, deceased; W. W. Taylor, R. I. Taylor, Mrs. R. J. Nelson and Mrs. J. R. Bunting. All these with their children and a host of friends mourn her loss.

Her husband survives her at the ripe old age of 82, but her death has been a great blow, keenly felt and he will miss her gentle ministrations and lively council. The community will miss her for a good woman has gone.

But the power of her life and her home is still living in the lives of her children and grandchildren, whose lives are blessings to communities in which they live. They rise up and call her blessed.

And like the oil that ran down Aaron's beard her life flows out over the community through the lives of her

progeny, and she leaves behind her a monument erected to her memory by her own hands that will never be effaced by the storied time and that which cannot be purchased with money—a good name.

She was laid to rest in the family burying ground at her country home near Bethel, N. C. The large contributions of beautiful flowers and gathering of a multitude of friends proved good evidence of the high esteem in which she was held.

Active pallbearers—W. O. Grimes, Baker Warwick, E. A. Tripp, J. C. Moore, J. L. Gurganus, F. L. Blount. Honorary pallbearers—W. G. Keel, Robert Staton, Jim Polluck, B. A. Beverly.
