W. C. THOMAS TO HEAD BIG VIRGINIA TOBACCO CONCERN

Local Man Becomes Vice-president of John E. Hughes Company, a \$3,000,000 Corporation

Abusiness transaction of considerable interest to people in this section of the country, particularly members of the tobacco industry, is contained in the announcement of the recent formation of a new tobacco corporation known as the John E. Hughes Company with main office in Danville, Va. The new concern has purchased the entire holdings of the John E. Hughes Tobacco Company and the Hughes and Thomas Company, the latter corporation which has been in operation in this city for a number of years.

The corporation, which will be one of the largest operating in the South, is capitalized at \$3,000,000 and will retain branch offices in virtually every city in which the merged corporations have heretofore operated. It is headed by John E. Hughes, of Danville and Mr. W. C. Thomas of Greenville who has been appointed to vice-presidency. Mr. Thomas will leave the middle of next month for Europe to begin negotiations in interest of the Co., but will not move his family to Danville until the latter part of the summer.

Mr. Thomas has been connected with the tobacco industry in this city for several years and succeeded in expanding his firm's business to considerable proportions. He is well informed concerning conditions affecting the industry both in this country and abroad and assumes the vice-presidency of the new corporation fully prepared to handle its business in a wise judicious way. The corporation will begin business immediately, it is understood, and be in position to offer strong competition by opening of the market this year.

CITY BOY SCOUTS IN CAMPAIGN TRIP TO ROTARY CLUB

Last night the Boy Scouts went out for a camp and returned this morning. The scouts gathered at the Rotary building immediately after church services, and there they spent the time until eleven o'clock in basket ball games, wrestling matches, and boxing bouts, and gymnastic stunts. Then the building was made quite dark, and those who wanted to were allowed to go to bed and sleep. Some of the scouts decided to sleep on the floor of the gymnasium on the mats provided for gymnastic purposes. Others decided to place their cots on the spacious front portico to the building. Still others desired to sleep in the woods about two hundred yards in the rear of the building. There they built campfires and placed their canvas cots and pretended to sleep. They slept some maybe, but a lot of time was utilized in talking of the bears and wild beasts that were prowling around just outside of the circle of light. Others spent most of the night cooking and eating. At five o'clock every body was awakened up, and breakfast was cooked back in the woods. Coffee, bacon and eggs, and bread comprised the menu. After breakfast the camp was policed, packs rolled and the hike back to home and work.

The scout organization now consists the town of Greenville affords. The work is going forward with leaps and bounds and the scouts appreciate the way the Rotary club and the other citizens of the town are standing behind the movement. The following are the officers of the organization:

Scout Master: J. H. Ross, Assistant Scoutmasters, T. J. Sacre, S. K. Phillips, and P. J. Chester. The regular two weeks summer camp will be held this year sometime in June.

SOLOMON CHARGED WITH EMBEZZLING MEXICAN WORKMEN

Local Serian Merchant Released From Jail Under Bond of \$1,000 On Charge Misappropriating Funds

Paul Solomon, local Serian Merchant who was confined in the county jail yesterday charged with embezzling Mexican laborers employed by the county highway commission was released last night under bond of \$1,000 until the case is either settled by compromise or in court. The bill of indictment issued yesterday morning charged Solomon with misappropriating approximately six or seven hundred dollars which the laborers had placed with him from time to time for safe keeping but efforts are under foot this morning to bring about a compromise in case the defendant agrees to pay over to legal representatives of the laborers the sum of \$500.

The case was brought to the attention of the public probably earlier than otherwise on account of Solomon attempting to leave town without acquainting the Mexicans of his intention. In fact, he had packed all belongings preparatory for shipment during the day when the indictment prevented further action. He attempted to show that the Mexicans had traded out the amount which had been placed on deposit, but the laborers contended that they had placed about \$500 with him, all of which had been traded out in supplies except the amount stipulated in the indictment.

The Mexicans congregated at Solomon's place of business every night during the week, and believing in his integrity placed the remainder of their weekly earnings with him until they should call for it. This continued for several weeks, or since the hard surface road from the city to Farmville has been under construction, and consequently the amount accumulated quickly. An extensive trade was conducted with the store, of course, but each account was deducted from the amount placed on deposit. When the laborers applied for a settlement several days ago Solomon claimed they had exhausted the money in trade. The laborers didn't know what to do until they saw him packing up preparing to leave, then they got busy and secured the services of an attorney, and had the Serian behind the bars before he had an opportunity of leaving.

CARDINAL'S BODY TO LIE IN STATE UNTIL NEXT WEEK

Will Be placed in Cathedral Crypt After Funeral Service to Be Attended by People Everywhere

Baltimore, Mar. 26.—Preparations for the funeral next Thursday of Cardinal Gibbons were nearing completion at the archiepiscopal residence today. Meanwhile the body of the prelate will remain in the chamber where he died yesterday until next Sunday evening when it will be taken to the Cathedral and there lie in state until it is removed to its resting place in the crypt under the chancel after the final services.

Monsignor Bonzano, apostolic delegate at Washington, has been chosen to pontificate at the solemn requiem mass on Thursday, and Archbishop J. J. Glennon, of St. Louis, who delivered the sermon at Cardinal Gibbons golden jubilee here in 1911, also will preach the funeral sermon.

The occasion will bring the greatest gathering of Catholic church dignitaries and clergy ever assembled in this country.

Baltimoreans probably will continue to call the gray home at Charles and Mulberry streets, The Cardinal's residence for many years, but in the opinion of persons well versed in Catholic church affairs is likely to be a long time before the house will be able to claim another cardinal as its permanent occupant. In view of the fact that there are two American cardinals now and both in the east, such a probability seems remote, they are convinced.

The funeral of Cardinal Gibbons will be held Thursday.

The throne in the Cathedral upon which Cardinal Gibbons, who died yesterday, performed the ecclesiastical functions of his high office since receiving the red hat in 1886 will be divested of its brilliant hangings of cardinal red which will be replaced with the deep purple of an archbishop.

COLLEGE WOMEN EXPRESS DESIRE FOR SHORT DRESS

Women of Smith College, Massachusetts, Plan Campaign for More Modesty in Dress

Northampton, Mass., Mar. 26.—Desire for more modest and more becoming clothes expressed by the sophomore class of Smith College took shape in a fashion show held in the Students building at which 115 young women of the college entered their favorite gowns.

The competition was limited to gown for after noon and evening occasions but many girls came with clothes that were held to be more nearly appropriate for street wear and were ruled out. A prize was offered by Dr. Joel E. Goldthwait of Boston.

The student competitions were their own makings, wearing the gowns that they had entered for the prize, walking across the stage before a numerous and critical audience, and turning this way and that on a low platform for better display, then seating themselves in an arm chair and repeating the moves before passing out.

Marking for lines, color, modesty, suitability and becomingness, the judges, of whom three were ungraduated found their choice difficult to make. After several re-exhibits, the first award was given to a girl of the East, Carolyn Hinman, of East Orange N. J., a senior with honorable mention for a representative of the Middle-West in Dorothea Hickman of Lafayette, Ind., another senior.

Each wore an evening gown, the prize winners being white lace dress with a jade green girdle and train. Miss Hickman wore a flowered white with a very full skirt and simple bodice.

AMERICAN TELLS OF CONDITIONS IN CITIES IN ITALY

Says Imagine Congested Main Street in Constantinople Being Tied Up by Man Driving Flock Sheep

Constantinople, Mar. 26.—There are many curious things in this ancient city of the Turk which are unknown to most people. It has remained for a while aboard a United States warship scorpion to classify some of these oddities for the readers of Far Seas, the paper published by an American blue-jacket in Nea reEastern waters.

Just imagine he writes tying up traffic of the main thoroughfares of a big city during the busiest hours of the day by driving a flock of sheep slow down the street. But they do it over here.

Some other alleged strange things done by the Constantinopolitans he cites as follows.

A street car passenger often bargains with the conductor about the price he will pay for a ride.

If a youth takes a girl to the movies once or twice her parents expects him to marry her.

Turkish saleswomen, even in the smallest shops, are required to understand to speak seven or eight languages.

Native men are accustomed to rent a pipe to smoke while they slip their afternoon tea.

A policeman, if he finds a pickpocket at work, may beat him almost insensate and then let his prisoner go.

Some Constantinople stores have signs in as many as eight languages over their doors.

A tourist may engage a boatman to row him for two miles for two or three cents.

As American paper money in Turkey is worth 15 to 20 per cent more than Turkish gold, it is possible for one to buy a \$20 gold piece for 17 paper dollars.

Christmas is celebrated four times a year, once for each of the different religious calendars.

A man walking along the street often may be followed, five or ten paces in the rear, by a few of his swives.

A bootblack will give you a good shine for a cigarette.

There is no limit to an automobile speeding in any part of Constantinople but it's a case of all you can make.

A Turkish barber is courteous but when he shaves you he never washes off the lather but covers your face with powder.

A suit of pajamas, or its equivalent is enough evening dress, at a Grand Ball.

SECOND TUNNEL UNDER ALPS TO BE READY SOON

Simpleton Tunnel Between Alps and Switzerland Will Be Completed By the Last of July

Geneva, Mar. 26.—The second simpleton tunnel under the Alps between Switzerland and Italy will be completed by the end of July engineers say. Railroad traffic will be diverted thru it immediately and repairs made in the first tunnel, opened 20 years ago. Both will be used sometime in 1922.

The first tunnel, 2 1-4 miles long, cost \$2,940,000. The new bore will cost only about one third that amount. Construction was begun before the war but work was abandoned because the workmen were nearly all mobilized. Half way through subterranean boiling springs were uncovered and many workmen were killed.

MASS AT CATHOLIC CHURCH TOMORROW MORNING 9 A. M.

Mass will be conducted at the Catholic church tomorrow morning from 9 to 11 o'clock by Rev. Zaytoun.

EUROPE READY TO OPEN UP TRADE IN OTHER LOCALITIES

Disposition of Russia to Trade Brings About Great Change in That Part of World

New York, Mar. 26.—The apparent disposition of Russia to renew trade with the outside world and the fact that at least one of the principal trading countries of Europe has opened its doors to such trade lends interest to some figures compiled by The National City Bank of New York as to Russia's trade, past, present and prospective.

While no official trade figures of the Soviet government are available it is possible, says a statement by the Bank to at least get a glimpse as to what has been happening in this line of down to the end of 1920. Official trade figures of the principal commercial nations show their respective records of trade with Russia down to a very late date. Curiously their total is not much below that of the year preceding the war as might be expected and shows an aggregate of their trade with Russia in 1920 only about 25 per cent below that of 1913. Trade of the United States with Russia in 1920 according to our 1920 approximately \$40,000,000 against \$50,000,000 in 1913; that of Great Britain with Russia \$247,000,000 in 1920 as compared with \$330,000,000 in 1913; Japan nearly \$10,000,000 in 1920 against \$3,000,000 in 1913, and Switzerland in 1919 the latest figures available, \$24,000,000 against \$25,000,000 in 1913.

METHODISTS ESTABLISH ANOTHER GOOD RECORD

S. S. ATTENDANCE 463 Present at Sunday School Last Sunday; Record May Be Better Tomorrow

Last Sunday was another good day for the Jarvis Memorial Sunday School. There were 463 present. This was not as large an attendance as the Sunday before, but nevertheless a careful analysis of the attendance last Sunday shows that the Sunday school really enlarged itself last Sunday in spite of the decreased attendance. For instance, the Baraca class taught by Mr. Wright did not have its customary attendance. There were only 50 present in this class as against an attendance of 70 or 75 usually. This accounted for the fact that a great many of the members of this class took the opportunity to go over to Conetoe to hear Cyclone Mack. However, the other class of men taught by Mr. J. B. James hung up a wonderful record. Last Sunday this class brought in 51 men most of the men in this class two months ago never thought of attending Sunday School. In fact two months ago, this class did not exist. When it is considered it is really a wonderful piece of work. And the end is not yet for the men are saying that they are going to bring in one hundred. The class taught by Mrs. Milton White took all the ribbons last Sunday for attendance and on time basis. This class had every member present and every member on time. The class of boys taught by Mr. Futrell had every member present save one, and that one was in quarantine, also every member on time. The class of boys taught by M. K. Blount had 20 out of an enrollment of 22. One of these absentees was Calvin Gorman who was disabled the day previous by an accident. 6 B class of boys also hung up a good record. The class of ladies taught by Miss Sallie Joyner Davis had 48 present which was almost a record attendance. Mrs. Zahniers class of girls had every member present save one and all on time. The Young Ladies class taught by Mrs. W. E. Hooker had 30 present.

At the close of the lesson period the Baraca class came into the assembly room, and sang, Throw Out the Life Line as only a bunch of men can sing. The piece was thoroughly enjoyed.

Sunday school begins tomorrow at 9:45 and ends at 10:15. Good music and a good spirit of friendship, and fellowship. Rally around.

SPLENDID CROWD ATTENDS BAPTIST REVIVAL SERVICES

Largest Attendance of Series Present at Services at Memorial Baptist Church Last Night

The largest crowd that has attended the revival services in the Memorial Baptist church was present last night and enjoyed a splendid program consisting of songs by the juniors, solo by Mr. Montgomery and a duet by Mr. and Mrs. Montgomery with the choir to help in the chorus singing.

Rev. Smith preached a strong sermon on "Excuses which people offer for not accepting Christ", taking his text from Luke 14-18, "And they all with one consent began to make excuse". Dr. Smith developed his sermon from the excuses made by the ones invited to the feast, namely, one had bought a piece of ground and had to go see it. Another had bought five yoke of oxen and had to go to prove them, and the third had married a wife, and could not go. "All these excuses" stated Dr. Smith, were ridiculous and we all know they were absurd. No good business man would buy land without first seeing it, no man would buy oxen without trying them first, and even if a man had married a wife that alone should have made him want to attend the feast. These excuses, although silly, were not any more ridiculous than those made today, and then Dr. Smith brought out the excuses made today, namely, too young, not good enough, afraid they can't hold out, sometime in the future, and some say there are too many hypocrites in the church. "Those who say they are too young are wrong," stated Mr. Smith, "no one is too young to love God and trust Him. Remember thy Creator in the days of thy youth." "Those who say they are not good enough, and that they are afraid they can't hold out are correct," declared Mr. Smith, "no one can hold out in his own strength but God gives them strength."

Those who say, "Sometime I will," are making a mistake. God promises no man a stated length of time to live. Every minute may be the last. Now is the accepted time." Those who say there are too many hypocrites in the church don't stop and think that Hell will be peopled with all hypocrites. "Hadn't you rather stay in the church with a few hypocrites than in Hell with all the hypocrites?" was asked by the speaker.

His sermon was enjoyed by all present, and at the conclusion three little girls were received into the membership of the church.

Mr. Montgomery delighted the large audience with a solo "Will the circle be unbroken?" Thea Mr. and Mrs. Montgomery sang, "You are drifting."

There will be no services tonight, but there will be two sermons tomorrow, at 11 A. M. and 7:45 P. M.

The public is cordially invited to attend these services.

Saturday Afternoon March 26

It is gratifying to note that funds
continue to increase in various parts
of the nation for the starving people
of China. The situation is one of the
most unusual in many years, and ought
to be considered seriously by people
able to lend valuable assistance. Amer-
ica has responded in an admirable way
to famine stricken regions, and it is
pleasing to note that every state has
gone over the top in practically every
instance. It shows a spirit that is
commendable in every sense of the
word.

Community signs that are being con-
ducted in other cities of the State ought
to prove mighty beneficial to Green-
ville, because they bring people to
gather for the purpose of creating great
er interest in community improvement
and finally better every one that takes
part. Ministers of the city might do
well to begin agitating such a move-
ment. It will have a tendency toward
improving church work and cause peo-
ple who don't attend worship to take
more interest.

It seems mighty easy for men to
equate the affection of other men's
wives judging by reports coming from
every part of the country, and if things
keep on like they've started it looks
like the courts are going to have more
than they can handle along. The Bel-
lamy legislation requiring physical ex-
amination before marriage in North
Carolina ought to be instrumental in
bettering this situation, because it
makes marriage rather difficult and
gives applicants plenty of time to con-
sider the question of the kind, because
they are demoralizing society and pro-
ducing conditions from which the cou-
ntry will be long in recovering.

Greenville has inaugurated a cam-
paign for the purpose of arousing great
er interest in improved highways, and
proposes to continue agitating the ques-
tion until it gets what it wants. That's
the right way to go about it, and ought
to finally bring results. Good roads
are essential to every progressive com-
munity. They help increase industry
along every line, and eventually pay
the cost of construction in the long
run. Pitt county in the course of a
few years will be linked up by hard
surface roads, and when that time
comes there will be much more travel-
ing and certainly more business from
surrounding communities. The good
road question ought to be of first con-
sideration to every county, for they im-
prove living conditions and help in
many ways in bettering community
life.

There are many cities of the State
disturbed over the high gas rates which
have prevailed for the past several
months, and are petitioning the corpor-
ation commission for a reduction. Com-
parative prices from other states in-
dicate that North Carolina has been the
goat, is the goat, and will continue to
be the goat unless a change is granted
by the commission. The situation is
certainly deserving of the most severe
criticism and every city bearing the
brunt of such prices out to institute
the most severe action until gas com-
panies get in notion to grant a de-
crease. It is certain everything that
goes into the making of gas has been
reduced, so there is no reason in the
world why North Carolina alone should
be subject to such extortionate rates.
Its enough to create disfavor all over
the State, and should be hammered
on until a change becomes evident.

BETTER CROPS NECESSARY

That farmers of the state, and parti-
cularly North Carolina, have sustained
enormous losses by reason of the un-
expected shrinkage in crop values has
been set forth from time to time in
statements by various agricultural
departments. Yet the real truth of the
situation will not dawn upon the pub-
lic until actual figures alone tell the
story more forcefully and conclusively
than any thing else which might be
presented.

Farmers of North Carolina alone lost
over \$168,000,000 last year. The cotton
and tobacco farmers were the most
vitaly affected by the unfavorable tran-
saction on the world market, yet they
sustained no greater loss than other
communities depending upon other
crops. The loss, however, has been
felt by practically every industry of the
nation. Economic conditions have been
upset in a way that promises no early
relief, and generally business condition
cannot possibly be expected to return
to normal until business is stabilized
again and abnormality eliminated.

The unparalleled slump in prices
form a strange comparison to those of
1919. In fact, there is no comparison
at all, for while the grower that year
received prices in keeping with cost of
production his profit this year was
too slim to consider, if perchance, he
happens to be fortunate enough to reap
any profit. The 1919 cotton crop of
832,000 bales alone brought approxi-
mately \$154,000,000 at the current price
of 36 cents a pound, while the 1920
crop of 840,000 bales at 15 cent brought
only approximately \$58,000,000.

The change in the tobacco industry
is similar in proportion to that experi-
enced by the cotton farmer. The
swift change in conditions on markets
in the United States and in foreign
countries affected both almost alike,
and as a consequence the opening of
the 1920 season produced an accentu-
ated state of affairs extraordinary indeed
compared to any other situation of
the kind occurring in recent years. Ev-
en men well acquainted with general
trend of the market acknowledged they

had never before contemplated such
rapid transmutation, and today they
are at probably greater loss than any-
one else concerning the probability of
a favorable change anytime soon.

The 1919 tobacco crop with average
price ranging around 50 cents per
pound, brought a total of \$163,000,000
for the 326,000,000 pounds disposed of
on the various bright leaf markets,
while the 1920 crop dropped to 21 1-2
cents and yielded a return of only \$90-
515,000 for its increased acreage and
production of 421,000,000 pounds. There
was practically no difference in prices
on either the small or large market,
and only the best grades of tobacco
were acceptable.

These facts ought to inspire the cot-
ton and tobacco growers of Pitt coun-
ty to abide by suggestions presented
by leading men of the day, for it is re-
alized unless the crop is curtailed at
least one half this year that conditions
will be even more serious in coming
beyond hope of relief at any early date,
years. The world market is congested
but the farmers can still make the in-
dustry yield him a handsome income
by devoting his time to the cultivation
of a better grade of tobacco desired
by all dealers. The crop should be
more intensively cultivated, with sur-
plus acreage planted in food crops
such as will provide the town and the
farm with something to eat even if
principal crops should continue to sell
low.

It is also indubitable plain that mar-
keting should be conducted more care-
fully, and the old plan of dumping
products on the market eliminated so
far as possible. The co-operative plan
is the most practical for both the cot-
ton and tobacco planter, because it
looks to definite control of the market
and also prices. It is realized a su-
preme factor in other states, and if
Pitt county desires to see things im-
prove it is imperative that its prin-
ciples be accepted in full and adhered
to. This plan combined with curtail-
ed acreage promises relief but even this
will fail without co-operative of busi-
ness men, bankers and farmers.

E. G. oss, one of the leading tobacco
men in this section of the country
claims it pays to fertilize tobacco, and
that the farmer derives greater bene-
fit by larger yields. In this he is per-
fectly right, for it has been realized
by farmers in this section that tobacco
with body requires proper fertilization,
and that the land is placed in proper
The best grades of tobacco have to be
carefully looked after from planting
to the market, but it is highly import-
ant that the land is placed in proper
state of cultivation before planting time

comes. It is probable numbers of
growers neglect this part, and that is
the reason so much common tobacco
is brought to the market. This year,
however, has practically revolutioniz-
ed the industry and given farmers
many pointers of value. Decreased
acreage and better tobacco will be the
slogan in the future, and as a result
price conditions will be altogether dif-
ferent from those prevailing this sea-
son.

DEVOL

MARBLE FLOOR FINISH

If you could only see your unvarnished floors through a microscope—!

If you could see the millions of tiny holes in which the dirt and germs accumulate—

If you could see how every one of the thousand daily steps wears away the fiber of the wood—(that's what makes scrubbing so hard)—you'd varnish the floor before the day was over.

Devol Marble Finish is ideal for this purpose. It puts a hard, durable film between the feet and the floor. It fills the pores of the wood; gives it a smooth, glossy surface, easily cleaned with mop and broom.

DEVOL PRODUCTS are time-tested and proven—backed by 160 years' experience of the oldest paint manufacturing concern in the U.S. Founded 1754.
