

SCHOOL TEACHER HANGS HERSELF IN GRIP OF DESPAIR

Body of Neta Harris, Found Hanging From Tree by Searching Party Yesterday Quarter Mile of School

FACTS SHOW TRAGEDY WAS COMMITTED IN FIT OF MENTAL DESPERATION

Body Taken to Home in Pungo, N. C. This Afternoon for Burial in Family Burying Ground

Miss Neta Harris, young woman of Pungo, N. C., who has been teaching in the primary department at Fleming's School house near House Station, committed suicide shortly after the noon hour yesterday by hanging herself by a rope from a tree about a quarter of a mile from the school.

The remains of the young woman were shipped to her home this morning, accompanied by Mr. L. A. Mayo, principal of the school at which Miss Harris taught.

Varied reports concerning the tragedy have been in circulation, but principal facts brought out at an investigation conducted over the body by the coroner's jury yesterday afternoon about five o'clock.

Dr. Chester advised the young woman to go home immediately and rest up. She consulted with S. B. Underwood, superintendent of public schools, who urged her to take Dr. Chester's advice as her work would be looked after while she was away.

Yesterday at noon according to facts brought out at the inquest, Miss Harris who boarded at the home of Mrs. J. H. Randolph, told members of the family that she was going to the school house to make out some reports.

When about a quarter of a mile from the school the young woman left the main road and penetrated the woods for a short distance. She climbed about fifteen feet up a tall spruce tree, and after tying the rope securely to a limb, knotted it tightly around her throat and sprang from the tree.

Miss Harris was 23 years of age and is survived by a mother and father and brother. She had been teaching at the Fleming school for several months, and throughout the entire time appeared to be subject to protracted spells of mel-

BIG COPPER STILL FALLS INTO HANDS OF AUTHORITIES

60 Gallon Copper Still Captured 13 Miles Southeast of City by Deputy Corbett and Williams

The illicit whiskey traffic of this county was given another decisive blow yesterday afternoon when Deputy Sheriff Corbett and Williams succeeded in capturing a sixty gallon copper still in a swamp between the farms of Claude Hardee and Dunk Stocks, about thirteen miles southeast of this city.

The still was superior to the usual type employed in the manufacture of contraband whiskey in this part of the state, being entirely constructed of copper with all auxiliaries.

County officials so far have established a mighty fine record in the capture of stills for this year, and it is probably the great record of last year will be surpassed.

Movement of distillers and blind tigers, however, is becoming more surreptitious and valpine than ever and it is believed that with the hearty cooperation the traffic may be reduced considerably.

City Phythians Enjoy Annual Banquet Held At Carolina Club

Wives of Members Also Participate in Splendid Program At Carolina Club Last Night

The annual banquet of the Phythians lodge of this city was conducted in the rooms of the Carolina Club last night attended by practically every member of the organization and their wives and friends.

The exercises were opened by invocation and song 'America' which was followed by an address of welcome delivered by Mayor D. M. Clark, H. A. White spoke on the history of the lodge, showing the great progress since organizations several years ago.

Impromptu talks were made by J. R. Kittrell, J. C. Lanier, W. L. Hall, A. B. Ellington, F. H. Scattergood and C. S. Forbes. Each talk conformed well with the occasion and displayed the active interest which each member feels in the welfare of the lodge.

She was faithful to her duties and won many friends in the community in which she taught.

MONTHLY REPORT OF FARM ACTIVITY SHOWS INCREASES

Report of W. B. Pace, County Agent, Shows Much Work Has Been Accomplished in Interest Farmers

That the farm demonstration department is playing an important part in the development of agriculture in this county is set forth in an interesting way in the regular monthly report of W. B. Pace, county agent, submitted to the State Extension department the first of this month.

The report in detail follows: Letter written 98; Newspaper Articles 6; Calls at office 56; Visits to demonstrations 15; Visits to other farmers 44; Total visits to farmers 59; State bulletins given out 76; Government attendances at meetings 720; Orchards inspected 6; Trees pruned 74; Trees sprayed 59; Hogs vaccinated 29; Circulars sent out 200; Total miles traveled by automobile 75.

Mr. Pace has been a source of much help to planters in every part of the county at this time when many perplexing problems confront the industry and in practically every instance his advice has led to constructive measures which should be of great benefit in the days to come.

In the co-operative marketing campaign Mr. Pace has been an active figure. He accompanied speaking committees on every trip, and at this time is planning definitely for the success of the soliciting drive which it to begin at an early date.

Probably one of the greatest things that has transpired under his administration is the formation of the county board of agriculture which was organized several weeks ago.

PLAYGROUNDS OF BIG CITIES HELP PROTECT CHILDREN

4,000 Recreation Centers in Various Sections of Country Prove of Aid in Solving Child Problem

New York, April 6.—More than 4,000 playgrounds and recreational centers in the United States are helping to keep boys out of mischief, teaching girls swimming and other athletics and showing adults how to benefit themselves physically and mentally by play.

The effect they have in keeping boys out of trouble with the police is emphasized in reports which have come to the Playground and Recreation Association from all over the country as one of the most important results of the establishment of playgrounds in cities.

Mrs. J. L. Rumley, of Farmville, spent today with her parents Mr. and Mrs. D. D. Haskett.

ILLINOIS FARMERS READY TO RATIFY MARKETING PLAN

National Co-operative Marketing of Grain to be Considered at Meeting Immediately

Chicago, April 6.—Ratification of a national cooperative grain marketing plan proposed by the Farmers' Grain Marketing Committee of Seventeen will be taken up for consideration here tomorrow at a conference of farmer representatives from the 25 important grain producing states of the country.

The final report of this committee will be presented tomorrow by its chairman, C. H. Gustafson, a Nebraska farmer who heads several large farmers' cooperative organizations.

If the marketing plan and the recommendations of the committee are accepted by the conference, it will result in the immediate formation of a farmers' national grain marketing company, Mr. Gustafson said.

Although the committee of Seventeen is made up of representatives from many different farmers' organizations who have been trying to solve the farmers' marketing problems in many different ways every member of the committee agreed upon the proposed plan.

SPEECH FAILS TO BRING RESULTS IN HOUSE OF COMMONS

Fluency of Speech Fails to Get Statesmen Anything, According to Borah Law

Glasgow, April 6.—Contrary to a popular idea nowhere does fluency of speech count for less than in the House of Commons, according to Andrew Bonar Law, who for 20 years, has been a member of Parliament and, until his recent resignation, was the government leader in the House.

In Parliament it is not the speaker, but the debating speech which is effective, he said, in the course of his inaugural speech as Lord Rector of Glasgow University. As in war the guns which may secure victory are not necessarily the biggest, but those which are placed in the best position so in Parliament the heavier the calibre of the guns the better but at all costs they must be quick firing.

There is a great difference between men in the facility with which they speak. Some men speak far above their general ability and some men far below it but a natural gift of speech is not necessary to secure success in public life.

There have always been, and there are now in Parliament, men whose speaking when they began seemed hopelessly bad, but who, nevertheless, have taken their place in the front rank of statesmen. They did so because intellect is not a tool, but a hand, and they used their innate intellect and force to master the tool which was necessary for their work.

Mr. S. M. Barnes, of Greensboro, was among business visitors in the city yesterday evening.

SPLENDID CROWD ATTENDS BAPTIST REVIVAL SERVICES

Dr. Vines Delivered Another Splendid Sermon at Immanuel Baptist Church Last Night

The revival service in the Immanuel Baptist church was well attended last evening even if the weather was inclement, and Dr. Vines preached a splendid sermon on the subject, 'The Greatness of the church of the living God,' taking his text from a part of the 22 verse of the 11th chapter of 1 Cor. 'Despise ye the church of God'. Dr. Vines showed that the church came from the Greek word, 'Called out', and God touched it and made it holy. Any man that despises the church shows the lack of intellectuality and displays his ignorance.

In the third place—its infnecpe is universal. Without the church of God this world would soon go to the devil. Civilization would be demoralized. Here Dr. Vines brought in the great world war, declaring that a nation without God would perish.

Dr. Vines' subject for this evening will be the Paradox of the Christian life. On Thursday evening he will preach a special sermon to the young people and their parents on 'Home Sweet Home'. On Sunday afternoon at 4 o'clock he will preach a special sermon to men only.

The public is cordially invited to attend all services.

DR. VINES TO PREACH TO YOUNG FOLKS THURSDAY

At the Immanuel Baptist church Thursday night Dr. Vines will preach a special sermon to the young people and their parents. His subject will be Home Sweet Home. The Sunday School pupils are especially urged to be present Sunday afternoon at four o'clock. Dr. Vines preaches a special sermon to men only. His subject will be Royal Manhood. Come and bring your neighbor

BETHEL FARMERS READY TO SUPPORT MARKETING PLAN

Seventeen Farmers Sign Contract for Better Way of Marketing During Yesterday

CAMPAIGN TO START IN REAL EARNEST IN COURSE OF FEW DAYS

Prominent Leaders Believe It Is Most Definite Way of Relieving Deporable Conditions

Reports from Bethel section indicate that considerable interest is being manifested in the co-operative marketing campaign which has been in progress in this county for several days, and it seems quite probable at this time that Bethel farmers will be the first to go over the top.

Those signing the contract are: H. V. Staton, M. O. Blount, S. M. Jones, G. L. Moore, J. B. Corey, Tom Andrews, W. J. Taylor, R. L. Barnhill, J. H. Bullock, N. J. Smith, J. R. Whitchard, J. W. Whitchard, George James, B. A. Beyers, W. O. Manning, Theo. Carson and R. L. Morris.

That the co-operative marketing plan is one of the most direct mediums for handling products of the farm is generally conceded by practically every business man and farmer throughout the United States.

The movement first originated in Switzerland. Dr. Clarence Poe, of Raleigh, editor of the Progressive Farmer, went to that country several months ago for the purpose of studying the practicability of the plan and found to his surprise that it surpassed anything ever before contemplated in this country.

Pitt county is one of the greatest agricultural regions in North Carolina. Its total crop value goes into millions of dollars yearly, but the past year has proved beyond question that its planters are in no position to handle their crops as should be.

SEVERAL CASES BEFORE MAYOR D. M. CLARK TODAY

The following cases were disposed of in police court this morning: Charlie Curry, allowing cows and sheep to run at large, paid costs of action; Ira Boyd, riding bicycle on sidewalk, paid the costs; Arthur Salsbery, speeding, \$10 and costs; G. S. Ross, leaving motor of automobile running without an attendant, paid the cost of action; Henry Knox, riding bicycle on sidewalk, paid the costs.

MERCHANTS ASSOCIATION TO MEET THURSDAY

The Merchants Association will meet Thursday at 10 o'clock. Every member is urged to be present.

Wednesday Afternoon, April 6th

Brilliant's whiskey bill increased considerably last year. America's did too, but not for the intoxicating kind.

News reports say President Harding has taken up the railroad situation. We make no predictions, but it's a safe bet he will be glad to put it down, too.

The coal strike in England is becoming critical according to the latest reports received from that country. America at least has something to be thankful for in not depending on England for supplies.

When the Allies get through collecting customs and taxes in Germany maybe the independents will be more in favor of coming across. Germany may now know it, but the Allies are getting tired of parleying and mean to accomplish something definite concerning the indemnity in a short time.

People who have been wondering when rents are going to take a tumble may rest assured it will not be long. The general decline in the cost of living and labor will change things materially, and if the rent agent hasn't found it out yet, he will later, and that is a safe go.

It is said President Harding favors the Knox resolution for peace. This may be so, but it is difficult to understand how peace is going to be declared until the treaty with Germany has been signed. About the best way the president can please the people is to first establish a state of peace with Germany and then consult Mr. Knox for his opinion.

Wage reductions seem to be in progress in practically every part of the United States at the present time, and this justifies the belief that conditions are going to be adjusted sooner than expected. The best way the laborer can help the country become normal is to accept wage reductions in a good spirit, realizing that the kite is bound to come down.

The important thing at the present time regardless of hard time talk, is to make the schools safe for children. There are thousands of children daily attending school in buildings that are nothing more than fire traps, and as a consequence are subject to great danger. Every town and county should make the school of first consideration and let other things come later.

The Reflector has the largest circulation of any daily paper in this immediate territory, and consequently offers a great inducement to the business man desiring to reach the greatest number of best homes. Practically every subscriber on our list is voluntary, and that means they take the paper because they realize its real value to the community. We have had no cause to resort to the contest plan to increase our subscription lists, because we realize that voluntary subscribers are of more value to our advertisers. They take the paper because they want it. They do not subscribe merely to gratify somebody else wishing to realize some direct benefit by securing the greatest number of subscribers. This is the reason advertisers get such quick results, and invariably finds cause for commending the paper.

GERMANY MUST PAY

Secretary of State Hughes has taken a commendable position regarding the reparations question. In a statement issued to the public yesterday he declared that Germany must pay to the limit before the world will be satisfied that its crime to some extent has been atoned. That this is true is beyond doubt, for ever since the question has been under consideration it has been evident that people of every country believe in the wisdom of the demands of the Allies and are willing to submit to Germany's attempt to dodge real issues at hand only because they believe the nation will eventually agree to the treaty in original form.

It's probable the issue would have been closed months ago had the United States taken part in formation of the terms. But since it did not Germany finds a loophole for parleying, denying the right to the Allies to take over possessions which justly fall to them as indemnities of war. The question has created possibly more interest than any other in years, but consensus opinion concedes the right of collections to the Allies, believing as is fair and just that the time for final settlement has come.

In his declaration concerning the question, Secretary Hughes says this government believes in recognizing in the memorandum of Dr. Simons a sincere desire on part of the German government to re-open negotiations with the Allies on a new basis and hopes that such negotiations, once resumed, may lead to a prompt settlement which will at the same time satisfy the just claims of the Allies and permit Germany to hopefully renew its productive activity with the remainder of the world.

It is to be hoped he has summed up the situation in its true light, for if ever there was a time when one matter should be closed it is here. Germany has not been altogether free enough in expressions concerning the indemnity and consequently the Allies have been forced to form their own conclusions and do what they thought was right. The demand may appear unjust and harsh to those unacquainted with the situation, but when the great loss which Germany has caused the world is taken under consideration it is hardly probable any intelligent person will dispute the right of the Allies to demand reparations in proportion to damage.

The matter has been aired enough in every part of the world for nearly every country to be fully familiar with principal issues at hand, and there are very few unless of course, they happen to be Germany's allies who will question the fairness of the demand. The situation, as we stated before, is anything but pleasing, but if Germany regards its own future in the proper light its statesmen will yield immediately and in the best way advisable pay off that which she justly owes to other nations suffering because of wild ambition to dominate Europe.

The farmer must not forget that reduction of acreage is absolutely imperative this year. It has been recognized as the only definite way of creating better conditions in other states, and as North Carolina is one of the greatest agricultural centers in the country it is perfectly natural that its farmers should take a progressive stand on every issue. Curtailed acreage is very necessary indeed if conditions are improved, and the sooner the planter gets this firmly fixed in his mind the better off he will be.

The present price of farm products causes the keen business man to believe that the co-operative marketing plan is the only definite means of increasing prices in the future. The farmer has been sufficiently impressing a marketing association possessed with this fact and ought to respond readily to the campaign for a similar plan in North Carolina. It's the greatest proposition yet presented and deserves serious consideration.

Pitt county farmers should be guided by advice sent out from the county board of agriculture, as it is one of the most direct means of creating better conditions in the days to come. Right at this time there are many problems of vital importance, and the board is in position to help in many ways. It is for the agricultural development of this locality and the farmer ought to resort to it freely.

NOTICE

SALE OF VALUABLE PROPERTY. By virtue of the power of sale contained in that certain deed of trust made on Oct. 18th, 1919 by J. B. Hardee to J. L. Simmons, trustee for the benefit of the Carolina-Virginia Land Corporation and recorded in book 1-13, page 287 of the Public Registry of Pitt county, default having been made in the payment thereof, the undersigned will offer at public sale for cash to the highest bidder at the Court House door in Greenville on Monday, the 25th

day of April, 1921 at twelve o'clock noon, the following described tract or parcels of land to wit: All those certain lots of land lying and being situated in the county of Pitt and state of North Carolina in the town of Greenville, and being lots No. 15, 16 and 18 in Block No. 3 Nos. 2-4-6-8-10-12-14-16-18, 20 in Block on plat of land formerly owned by the United Development Corporation, and known as Greenville Heights, as surveyed and platted by A. I. Schlier, C. E., plat of which is on record in Pitt county Register of Deeds office in Book Maps 2, page 49 to which said plat reference is hereby made for a more perfect description.

Term of sale cash. This the 26th day of March, 1921. J. L. Simmons, Trustee J. C. Lanier, Attorney

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache Is Sign You Have Been Eating Too Much Meat

When you wake up with backache and dull misery in the kidney region it generally means that you have been eating too much meat, says a well-

known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; re moving all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are often obliged to seek relief two or three times during the night.

Either consult a good reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes, lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad salts is a life saver for regular meat eaters. It is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink. Greenville Drug Co, special agent.

As Old as His Arteries

The doctor can't help it. He knows that the man has hard arteries, high blood pressure, and the beginning of kidney and heart disease, due to long neglected, chronic constipation.

It isn't the other man's fault—directly. He never realized that constipation was a serious thing. Year in and year out he has taken pills, castor oil, mineral waters and salts—and now he wonders why his health is so bad.

Nujol is for just such cases as this. It works on an entirely new principle. Instead of forcing or irritating the system, it simply softens the food waste. This enables the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to squeeze the food waste along so that it passes naturally out of the system. Nujol thus prevents constipation because it helps Nature maintain easy, thorough bowel movements at regular intervals—the healthiest habit in the world. Nujol is absolutely harmless and pleasant to take. Try it.

Nujol For Constipation

ONE MARRIAGE LICENSE ISSUED DURING YESTERDAY

Only one marriage license was issued by the register of deeds yesterday, that being to J. E. Pittman to Miss Gladys Joyner, both of Swift Creek township.

The sale of China Life Saving Stamps will be conducted by the Woman's Missionary Societies of Greenville this week and next (April 5th to 16th). The stamps are sold for the small amount of three cents which will save the life of one Chinese for one day. This seems a very small sum to give, but who can tell the good which may result from it. Let each one do his bit.

DR. ALFRED SCHULTZ TO LOCATE HERE

Dr. Alfred Schultz, one of Greenville's young men who has made good in the dental profession and who has for the past several months been connected with the state department of health, having charge of dental clinics throughout the state, has returned to Greenville and will be permanently located in the National Bank Building. Dr. Schultz needs no introduction to the people of this city and county, as he was born and reared in this city. He obtained his education at Chapel Hill and the University of Pennsylvania. For several months prior to entering the world war, Dr. Schultz practiced in Greenville, but when the call came for dentists he enlisted and gave his services to his country. After returning from the war service he went with the State's Department of Health, a position which he has held efficiently and satisfactorily. At the urgent request of friends he gave this up to return home. He is one of the youngest dentists in the state and considered one of the best.

WOMAN'S CLUB TO MEET THURSDAY AFTERNOON

The Woman's club will meet tomorrow at 4 o'clock in the Princeton Hotel Executive meeting at 3:30 o'clock

REDUCTION ON COAL AND ICE

The Greenville Ice and Coal Co., announces a reduction on ice and coal to become effective today, 5 ct.

SENIOR CLASS TO PRESENT PLAY 'MONSIEUR BEAUCRE'

The Senior Class of the Training School is working hard and effectively on the Senior play, Monsieur Beaudre which will be presented on April 22, just a little over two weeks from now. Mark the date on your calendar and do not make any other arrangements for that evening. Promise yourself one evening of the enjoyment of a good play full of interesting situations. Fine lines pretty scenes and one that has a thrilling story that unfolds clearly as the play goes on while the eye is delighted with the handsome costumes and attractive stage setting.

Monsieur Beaudre is a charming young Frenchman who is in disguise in another land and is caught in a maze of misunderstanding. He is running away from what seems to him a proxy match and is seeking romance and love. A surprise ending to the play is given by what he hands out. It is a clean wholesome play, that proves that the hearts that beat under brocade a century ago are very much like the hearts that beat today.

BATTERY SERVICE COMPANY NEW BUSINESS FIRM HERE

The Battery Service Company located on Ninth Street in front of the Liberty warehouse is one of Greenville's newest business firms. They have efficient mechanics and are prepared to

give the very best of service. For further particulars concerning this new business we call attention to their ad which appears elsewhere in this paper.

AMERICAN LEGION MINSTREL TO APPEAR HERE TONIGHT

The American Legion Minstrel, of Kinston, N. C., under the direct supervision of 'Deep C.' Green will arrive this afternoon and will on tonight appear at White's Theatre. The cast is composed of some of Kinston's best talent.

The 'Conscriptomists' a clever military comedy sketch, will be presented by Green, Herbert Long, Fred Mallison, Julian Hassell and Earl Brewer. This quintet has the minstrel spirit and the act is said to be a scream.

The Legion quartette will be present. Their songs will please every one.

There will be nurses, soldiers and sailors, and Liston Mallard as an interlocutor is great. Among the specialties 'Deep C.' Green will give a black face monologue.

'Dick Rhodes' in song specialty is without doubt one of the best acts ever put on in a home talent show. There is no sweeter baritone voice than Rhodes' Calkins and Richardson will keep the audience convulsed for several minutes if reports are true.

Every one who attends the show will be helping a worthy cause also, they will have an evening of entertainment and fun.

THE TRAINING SCHOOL SENIOR PLAY

FRIDAY, APRIL 22

"Monsieur Beaucaire"

Admission 75c and \$1.00

Exide BATTERIES

For Every Man Who Owns a Car

Whatever make of battery you have, we believe we can prolong its life if you give us the chance.

Come here at regular intervals and we will keep tabs on the condition of your battery. Our policy is to make every battery last as long as possible. We are manned and equipped to do this.

When—and not until—you really need a new battery, we will be glad to sell you a new Exide, the battery of long-lasting power.
