No. 115

COMMERCE BODY TO TENDER SMOKER THURSDAY EVENING

Members of Campaign Committee From All over the County to be Present and Join in the Fun

In order that every man in Pitt county will have ample opportunity of hearing all about the movement to expand the Greenville Chamber of Commerce, there will be a Smoker at the Court House tomorrow, Thursday evening.

H. A. White, Chairman of the Campaign Committee, will preside. He will introduce William C. Ewing, Campaign Director, who will outline in a concise manner the plan of campaign and the way the modern Chamber of Commerce will be built up during the next six weeks.

I want it distinctly understood that there will be no soliciting for funds or membership at this meeting, said Mr. White this morning. It will be a get together community conference where the men of Greenville and Pitt county will gather to see how they can help their county and help themselves thru uniting in this work of building a modern Chamber of Commerce.

The election yesterday of the Campaign Committee of an Executive Committee was the most important work that the members took up. Every part of Pitt county was represented at the meeting and the democratic form of election of the Executive Committee showed those present exactly how the majority rule will prevail when the reorganization and expansion campaign of the Chamber of Commerce is completed.

Dr. C. J. Eilen was named Chairman of the Executive Committee. Others elected to serve with him throughout the campaign were, Mrs. H. S. Ragsdale, G. B. W. Hadley, R. W. Moseley and J. E. Winslow.

These five citizens will be in constant and direct touch with the campaign meeting at frequent intervals and guiding in every possible manner the effort to build up the Chamber. They held their first meeting directly after the Campaign Committee had adjourned, suggesting residents of Greenville and other parts of Pitt county for other committees. A Women's Committee, to assist in presenting the ideals of the modern Chamber of Commerce to the women of Pitt county was formed. Those serving on this, all of whom were present at the Campaign Committee meeting were, Mrs. R. R. Cotton, of Bruce, Mrs. Ned Laughinghouse, Mrs. H. S. Ragsdale and Mrs. R. Williams. Announcement will be made later of the date when there will be a special meeting to learn why women should join a Chamber of Commerce.

In order to present clearly to the residents of Pitt county the reason they should take an interest in the present movement, H. A. White, Chairman of the Campaign Committee, and others who are serving on that committee, have issued the following statement:

To the citizens of Pitt county Pitt county I submit to have a Chamber of Commerce that shall be adequate for a county with such great possibilities as ours. The directors of the Greenville Chamber of Commerce have come to the conclusion that the organization will be much more useful if reconstructed with the prime purpose of building up the entire county.

The new Chamber must be representative of every element of the population and every part of the county. It is unquestionably true that no township and no group in our whole county can suffer misfortune without bringing mis-

OBSERVES DEATH OF COMMANDER OF NORTHERN ARMIES

Illinois Today Commemorates Death of Ulysses S. Grant, Illustrious Veteran of Civil War

Springfield, Ill., April 27.—Trials of courage through which Ulysses S. Grant passed and rebuffs he endured before Illinois hesitatingly accepted him and sent him into the Civil War, from which he emerged as the victorious commander-in-chief, are recalled here today on the ninety ninth anniversary of his birth.

Here it was that the future President took command of his first regiment, the Twenty-first Illinois Infantry, as Colonel. This one of the world's greatest soldiers applied three times in Springfield for a chance to serve in the struggle which he foresaw meant the doom of slavery, before his worth was recognized and appointment given him.

Political colonels stood in his way. After organizing a volunteer company in Galena, Ill., he left it, realizing that his nine years in the regular army should be put at once at the service of the union.

Galena, is celebrating Grant's birthday today. This city where General Grant had his home when the war opened and where he left his wife and children honors the day as its greatest. Senator J. Thomas Heflin of Alabama is the speaker of this year's celebration. Even War Governor Richard Yates however, repulsed him, I'm sorry to say captain, he told the former army man, There is nothing for you to do. Call again.

Remaining in Springfield until his finances ran low, Captain Grant called this time at Governor Yates' office. He was given a desk in the adjutant general's office and put to work drawing lines and filling in blanks. Any boy could do my work, history records him as saying. He remained faithfully at the task, however, and on May 14, 1861, was given the title of mustering officer.

fortune to us all. Neither can any grow bigger and finer without the whole county being better for it.

The plans are now for an organization of the most modern type as to form and method. This involves the equal opportunity of every member in the election of directors and in the determination of policy. It means a Chamber whose central purpose is service, and not service of any single group or any one town; but service of every town in the county, service to their schools, the farmers, the health authorities as well as the business men.

If we get together to make a great and progressive county every one of us can trust to securing his individual development as a by-product.

Let us begin this spirit of broader co-operation right now by conferring over the needs of the county and the methods of supplying them. We need your thoughts and assistance. Several public meetings are being planned. Please attend them. No one will be asked for either subscriptions or membership at any of these meetings. They are strictly for the consideration of Pitt county's problems and how to solve them through co-operation.

On behalf of Pitt county we appeal to you to think and act unitedly for her future greatness.

ALLIES' DECISIONS TO GOVERN ACTION BY UNITED STATES

Secretary Hughes Discusses German Reparations Offer With Diplomats

Washington, April 27.—Events here today indicated clearly that the United States, in replying to Germany's counter proposals on reparations, would be guided almost, if not wholly by the decision of the allied governments as to whether the new proposition put forward by Berlin were of such a nature as to form the basis for further negotiations.

Secretary Hughes conferred late today with each of the allied diplomatic representatives, discussing with them briefly the German communications, which was received early in the day from American Commissioner Dresel at Berlin. The foreign envoys immediately reported to their governments by cable and it was understood that the framing of a reply to Germany would await the outcome of these exchanges.

As the allied governments were believed to be in possession of the text of the German proposals, which was made public today at Berlin, it was thought that a reply would not be long delayed. It was suggested, however, that exchanges between Paris and London might be necessary before a final decision was reached.

Discussion of the German memorandum is understood to have occupied much of a two hours session today of President Harding's cabinet.

After returning to the State Department from the White House, Secretary Hughes sent invitations to the allied diplomats to visit him in his office for discussion of the German proposals. These invitations went to: the representatives not only of Great Britain and France, but also of Belgium, Italy and Japan. Each envoy was received separately and each conference was brief, the series of visits being concluded with a little more than an hour.

ONE AIRMAN KILLED AND ANOTHER FATALLY INJURED

Hampton Va., April 27.—Sergeant Noble Bryant was killed and Lieutenant Thomas Ward probably fatally injured at Langley Field when their machine crashed to earth while emerging from low cloud bank. Machine completely demolished. Both Bryant and Ward were Kentuckians.

Miss Onna O'Brien, student of the E. C. T. S., president of the Immanuel Baptist Church returned yesterday from Henderson where she represented her class at the Philathe-Baracca convention.

TO THE VOTERS OF GREENVILLE

To the voters:

You have only four more days in which to make up your minds how you are going to vote. I wanted to see everyone personally, but have not been able to do so, and I am taking this method of getting in touch with you. I have no hired workers out campaigning for me, nor any politicians who work for the hope of political pie. You cannot help noting that every one of the City Hall candidates are working for one or the other of the other two candidates. I am not within their sacred circle. But I am appealing to you, Mr. Voter, to buy the bills and furnish the cash. Here are some of the things that I can and will do if elected your mayor.

I am going to see that every cent of the town's money is spent as economically as possible, and further I am going to let you see how it is spent. You probably have no idea what the condition of the town's finances is, how much the town owes, what provisions are being made to meet the debts, how much the current expenses and receipts of the town are, what the bonded indebtedness is, how much money is collected from taxes, and how much from other sources. You probably did not know that at one time last year the town's check for a laborers weekly wages was turned down by the bank. It will be my purpose to turn the floodlights of publicity upon the town's finances so that you may know what is going on to the end that you who pay the freight may know where the goods are going.

Then again, it will be my purpose to make the mayor's court, a place where the innocent will be vindicated as well as the guilty punished. And in case of an appeal after conviction in this court, I will use my best efforts to have full and complete evidence presented to the higher courts when the case is tried there. Did you know that during the past year in practically every instance of an appeal from Mayor's court, the accused has either been turned loose by the judge for some defect in the pleading, or has been declared not guilty by a jury for lack of evidence to convict? And did you know that the expense of such failures to convict most of the time falls on the town, and hundreds of dollars wasted in this way to no avail. And did you know that no convictions has ever been obtained against the reputed liquor kings here, although capital has been made on the fact the arrests have been made time and again. These and other facts I earnestly ask you to consider when you vote for the man to have charge of the administration for the coming two years.

Respectfully J. C. LANIER (Political Advertising)

W. H. HARRINGTON JR., CAPTURED IN BALTIMORE

W. H. Harrington, Jr., who has been declared an outlaw, and who is wanted by Pitt county officials for the commission of several felonies, for whose capture a reward of \$500.00 has been offered, was on yesterday evening captured in Baltimore, Md., by government officials. Sheriff Dudley was notified of the arrest early today, and also notified that the fugitive from justice was being held in jail. He will be brought here in a few days.

CLOSING EXERCISES GIVEN AT BROWNS SCHOOL THURSDAY

(Contributed) Brown's school held its closing exercises Thursday evening April 21, in a very creditable manner to its teachers Miss Clyde Brown and Mrs. Mary Moore Brown.

The primary department under the leadership of Mrs. Brown showed excellent training, each little child reciting in a very creditable manner. Special mention should be made of the Welcome recitation by William Clayton Taylor and What Boys Can Do, by Harold Nelson. Mrs. Brown offered a prize to the one making the highest average in spelling which was awarded little Miss Beulah House, she having made the fine record of not missing a word during the entire school term.

The play, Jumbo Jim, under the leadership of Miss Clyde Brown, would have done credit to a much larger school.

Special mention should also be made of, Talmage Ross as Mr. Gobbletin, Helen House, his ward; Stella Weathersee, his maid and Wilbur Jackson as Jumbo Jim. There were several other characters that I do not remember, as I was only a spectator. Each character showed excellent training. Miss Brown and Mrs. Brown have been excellent teachers, and we have had a splendid school.

WOMEN OUT NUMBER MEN TUESDAY'S REGISTRATION

Women out numbered men over two to one in registration for the city primary yesterday, which indicates that the election is going to be fought with great interest. In the first ward three women and three men registered. In the second ward eight, six women and two men, against nine women and two men in the fifth ward. In the third ward three women and two men against two women and one man in the fourth ward. This brings the total up to 975.

Mrs. J. K. Wothers who has been taking treatment in a Richmond hospital has returned home much improved.

UNITED STATES TO SETTLE DAMAGES IN GREAT BRITAIN

Last Case, Resulting From Collision of Ships to be Settled Within Next Several Weeks

London, April 27.—Within a few weeks the last of the cases resulting from wartime collisions between the United States naval vessels and those of the British Ministry of Shipping will have been definitely settled, responsibility fixed and damages awarded.

In October, 1919, the British and American governments agreed to the establishment of joint arbitration boards to adjudicate these cases, one to sit in Washington and the other in London. Cases relating to collisions occurring west of the 33rd meridian were to be heard in Washington; those east of this boundary, in London. From their decisions there was no appeal. The object of their establishment was the speedy, equitable settlement of disputes without resort to the usual time consuming and expensive legal battles before Admiralty courts.

So satisfactory to both governments have been the decisions of the London board and that the Washington tribunal been disbanded and the cases awaiting its attention transferred to the London board for disposition. This was due partly to the belief that the London board possessed better facilities for the handling of such problems.

The president of the London board Butler Aspinall, a distinguished British authority on admiralty matters, was chosen by the American government and approved by the British authorities. W. Norman Raeburn, a barrister, and Captain Francis C. L. Andrews, of the British navy, and two Americans, Commander Harry L. Pence, acting Naval Attaché of the American Embassy, and Commander Robert K. Wright, a member of the New York and Pennsylvania bars, are the other members of the Board.

GOLD DISCOVERIES REPORTED IN MANY SECTIONS SCOTLAND

Rumors of Discoveries Renewed, but so far no Rush of People to Mines Has Been Noticeable

Glasgow, April 27.—Rumors of gold discoveries in Scotland are renewed, but so far there have been no rushes to spots where finds are reported. That the precious metal is to be found in that country has from time to time been shown by discoveries in Kildonan, Sutherlandshire and Lanarkshire, but the quantity seldom has been equal in value to the cost of extracting it.

Gold thus far has been found in alluvial deposits but the miners believe that a gold-bearing reef exists somewhere in the country as pieces of quartz containing gold have been picked up at different times. In past centuries, notably the Fourteenth and Fifteenth gold was found in Lanarkshire sufficient to make crowns for monarchs, and bowls, sometimes empty sometimes filled with coin minted from the same source, were presented to foreign and friendly sovereigns. There was a rush to Kildonan in the Sixties of the last century and some hundreds of prospectors flooded the district.

The present gold rumors come chiefly from the Lowther Hills in Lanarkshire where for centuries lead mining has been the occupation of the villagers of Wanlockhead and Leadhills. In ancient times the district was known as God's Treasure House, because considerable quantities of gold were discovered there.

Just received a fresh shipment of Norris Exquisite candies. All varieties at prices that please. Proctor Cigar & News Stand 21

INTEREST STILL ON INCREASE AT LOCAL REVIVAL

Good Sermons and Music Continues to Attract Great Attention From All Parts of the City

The good reports of the meeting being conducted at the Christian church by Dr. Edwards and the Pollocks, are heard on all sides and the building is full at each service. Preceding the regular evening preaching service there is a prayer service conducted in one of the Bible School rooms and even this service is receiving a good attendance. The afternoon service for the Boosters, which begins at three forty-five, is in charge of Mrs. Pollock and the Bible drill class has an enrollment of one hundred and fifty six, ranging in ages from six to sixteen years. Mrs. Pollock informs this office that the Boosters are doing exceptionally well and that they will have a surprise for all at one of the evening services next week. The sermon by Dr. Edwards last night, which he was pleased to call 'Come and See, was of the uniformly high type and was presented with enthusiasm and force characteristic of this splendid servant of God. Dr. Edwards' intense earnestness and his genuine belief in the message which he brings, coupled with his fine clean life and genuine kindness of soul make him a speaker especially adapted to reach the hearts of men. Upon the singing of the invitation song last night fifteen responded to the call for Christian living—the most of whom made profession of their faith in Jesus the Christ.

Mr. Pollock sang one of his beautiful solos again last night—Our Savior—in the tune of that old song 'Annie Laurie. Mr. Pollock's beautiful voice is under superb control, and his ability to control both volume and tone quality adds in a remarkable degree to the effectiveness of the solos which he has rendered. The audience as well as Dr. Shanhart, himself showed delight at his return from a military funeral in Tennessee. Dr. Shanhart is highly pleased with the services and the manner in which they were conducted during his absence. The regular evening service was announced to begin at seven forty five.

BRIDGE AND ROOK PARTY BENEFIT PUBLIC LIBRARY

On tomorrow afternoon at 3:30 o'clock at the home of Mrs. Charles Laughinghouse, on Fifth Street, there will be given, for the benefit of Greenville's Public Library, a bridge and rook party. The admission to play either of the games will be fifty cents. There will be no table reservations and everybody is cordially invited to attend. The library is something absolutely essential to every community, and Greenville is anxious to have one of the best in the state. Those who like to play rook or bridge will have a delightful time and those who don't play will also have a good time and at the same time be helping a most worthy cause. Don't fail to attend. At the conclusion of the games refreshments will be served.

AMERICAN LEGION BANQUET POSTPONED UNTIL LATER

The banquet and address planned for Tuesday night by the local Post of the American Legion is deferred because of the illness at his former home in Mass. of Dr. Chase who was to deliver the address. The smoker will be held next Thursday night in the dining room of the Princeton hotel instead. Some business matters of importance are to come for discussion. Every member of the post is urged to be on hand. The smoker will take place at 7:30. Eats will be served, and smoked a plenty. Make your plans to come.

A VOTE OF THANKS

Our gain for the month of March over March of a year ago was 49 per cent and as goods are much cheaper now we must have sold over twice as much.

We want to thank our thousands of loyal friends and customers that made this record possible. Young, J. K. Young

Wednesday Afternoon, April 27th

Wilson is demanding a new post office. Greenville has a nice government building, but it certainly needs something along the line of a Y. M. C. A. building.

President Harding's ideas on international relations are so equivocal that it is not likely the public will be able of accusing him of taking any definite stand on any particular matter. If his entire career is featured by the same demeanor, his accomplishments no doubt will be confined to the part alone.

A general investigation of the railroad situation has been ordered in this country. The action is probably advisable, but if it had occurred several months ago the various systems might be much better off in every sense of the word. The way things are running now indicates finances are pretty low, and it is certain an investigation will now help increase the funds by any means.

It looks now like the co-operative marketing association is going to meet with great success in Pitt county, and if it should the future ought to be filled with greater prospects of financial improvement than ever before. The past has proved that the old dumping plan is no longer advisable, and the sooner the co-operative marketing plan becomes an actuality the better of everyone ought to be.

France intends to pay its enormous debt to the United States, but unless Germany comes across with the reparations there is little prospect of her being able to do so. France has suffered untold miseries from effects of the great conflict. Resources of Germany have barely been scratched upon the surface, so it is very evident the demands of the Allies should be met without any greater delay than absolutely necessary.

A shipment of Emerson Electric Fans will arrive about April 20th. These fans carry a 5 year manufacturer's guarantee. If you have not ordered yours reserved it is for your interest to do so at once.

Secretary of State Hughes estimates that Russia has about \$175,000,000 in gold. This is one of the principal reasons why the government is unable to meet just debts and obligations to other countries. Its people are fortunate to have this much material wealth on hand when considering the great expense involved in belligerency. It is evident, however, extreme poverty would force a revival of industry much sooner if they didn't have any money at all. Continued warfare will bring about the change much sooner than people expect, for it costs money to fight it matters not what kind of fighting a country may do. Russia is situated like many other nations, its people need to go to work and begin producing. They will experience prosperity then, and not until then.

Graham, North Carolina, is being commended by the state insurance department as the only fireless town of the state. This does not mean that they do not have fires for general heating purposes, for they do, and believe in keeping warm in the winter just as much as any other set of people. They realize that fires are destructive fires, and have done everything possible to prevent them. Other cities might take note of the record and see if they can't go Graham one better.

QUIT MEAT WHEN KIDNEYS BOTHER

Take a Glass of Salts If Your Back Hurts or Bladder Troubles - You

No man or woman who eats meat regular can make a mistake by slushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poison from the blood, and then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular or passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.

The back-to-the-farm movement seems to be gaining right much momentum in various sections of the country at this time. This is what has been needed since inflation became evident, and when farm labor becomes normal again it is certain the general trend of industry ought to be much superior to the past. The person who left the farm for higher prices of the city probably realizes now that the farm is not such a bad place after all. It at least affords work and a good living all the year round and that's more than most people living in large cities get. Hundreds have been impressed of this fact, and the movement back to the farm will be featured with more appreciation than whatever the city had to offer.

To the motorist who has quit guessing about tires -

ALONG about this time of year a man finds his motoring neighbors getting anxious about their tires. With folks expecting old tires to "pop" any minute, there comes the question of what kind of new ones to buy.

U. S. Tires are answering a lot of questions like this nowadays.

The U. S. Tire following embraces two kinds of tire buyers.

Those who started with quality first, and have never bought anything else but the quality standard tire.

Those who came to quality first only after dabbling with "bargains," "rebates," "job lot" and "surplus stock" tires.

Getting one hundred cents value on the dollar in tire buying is a straight-forward business proposition—not guess-work or a game of wits.

The most essential man for you to know today is the local U. S. Tire dealer who is concentrating on a full, completely sized line of U. S. Tires.

He gets his U. S. Tires straight from his neighboring U. S. Tire Factory Branch—one of 92 such Branches established and maintained all over the country by the U. S. Tire makers.

He is the man who can give you fresh, live tires—not stuff shipped to him from some point where it did not sell, but new tires of current production.

Giving the same quality, selection and price-advantage to the owner of the medium weight car as the big car owner gets. With equal service and buying opportunity whether he lives in the smaller localities or the greater centers of population.

THE U. S. NOBBY TREAD

When the going is specially heavy with snow, mud or sand, in hilly country where maximum traction on the road is a factor, no other tire tread yet devised is quite so effective, or so wholly approved by motoring opinion, as the U. S. Nobby Tread.

Its very simplicity—two diagonal rows of oblong studs, interlocking in their grip on the road—is the result of all the years of U. S. Rubber experience with every type of road the world over.

"The most essential man for you to know today in the tire business is your local U. S. Tire Dealer."

JUNIOR DEPARTMENT OF FINE ARTS MEETS

The Junior Department of Fine Arts met at the home of Miss Pattle Wooten Saturday afternoon. The meeting was called to order by the president, Louise Jones after which the secretary called the roll and twenty-one members were reported present.

The subject for the afternoon was story telling and music. An interesting story was told by Miss Lucy Watkins, a former teacher in the Norfolk High School. It so aroused the enthusiasm of the children that each one tried to excel the other in telling the most marvelous story.

The coupon study for the afternoon was Mendelssohn. A short sketch of his life and works was given by Miss Wooten. Some of his compositions was played by Miss Ernestine Forbes.

The remainder of the afternoon was spent in teaching the children songs.

The next meeting will be held at the home of Mrs. A. M. Moseley, Saturday April 30th.

DOES EVERYTHING CLAIMED FOR IT

Well Known Young Man of Basic Says Dreco Built up His System After a Spell of Sickness. Dreco Now Sells for the Old Price

After a spell of sickness everyone needs a reliable tonic to build them up, create a healthy appetite and restore their old time vim and vigor. That Dreco does exactly this, is proven by statements of reliable persons who have given it a fair trial. Such was the experience of Mr. M. A. Armstrong of Basic Va., who says:

I had a spell of sickness which left me in a very weakened down condition. I knew I required an honest, reliable tonic so I decided on Dreco and took six bottles in all, and it certainly built me up and restored my old time strength. I went back to work full of energy and able to do a full days labor. I have the kindest feeling for Dreco.

Just at this season many people need a reliable health restoring tonic to fortify their systems against disease. Dreco builds up the system through its tonic action on the vital organs. It is pleasant to take and good for old or young alike.

Dreco is being specially introduced by Warren Drug Co., in Greenville and sold by all druggists.

DYSPEPSIA IS GREATEST ENEMY OF MODERN MAN

Distressing Malady is Not Prevalent of All Present-Day Diseases—Thousands Are Relieved by Tanlac

Of all the conditions that afflict humanity, chronic dyspepsia or what is more commonly known as indigestion is probably the most prevalent.

This most universal malady has baffled the medical profession for years, and the most skilled specialists have been unable to cope with it successfully.

Hours might be consumed in describing the sufferings, mental and physical, of the sufferers from chronic dyspepsia and their failure heretofore to get relief. A morbid, unreal, whimsical and melancholy condition of the mind, aside from the nervousness and physical suffering, it is the usual condition of the average dyspeptic.

Dyspepsia, or indigestion, as the case may be, is usually caused by the eating of too much or unsuitable food, and the mucous membrane of the stomach becomes irritated, and there is set up an acute or sub-acute gastric catarrhal condition which prevents the proper digestion of the food. This food is apt to ferment and decompose and as a result the familiar distressing symptoms of dyspepsia may arise. In mind cases there is nothing more than an uncomfortable feeling in the stomach, with a certain amount of depression, headache, loss of appetite, perhaps belching of gas and occasional vomiting. There may be also accompanying intestinal symptoms such as constipation, pains in the back, colic, etc. There may be only the familiar heartburn due to the inflammation of the stomach from excessive gasses of fermentation or putrefaction. In the most severe cases—those that last over a day or two—the symptoms enumerated may be marked more intense. The distress may be marked and the general constitutional symptoms more evident. When this stage is reached the loss of appetite, the mental depression,

and the general uncomfortable feeling in the stomach are much more pronounced. This is particularly true in acute gastritis.

It frequently occurs from continued errors in diet that this condition becomes chronic, and the symptoms persist for an indefinite period. The appetite is very apt to be varied, but at times very good. Heartburn is frequent, if not constant. The stomach is painful on pressure, the tongue is coated, there is a bad taste in the mouth, and there are changes in the amount of salivary secretion. Constipation is also usually present, although diarrhoea may alternate.

Most cases of dyspepsia can be cured if the diet is properly looked after and with the proper treatment. Proper eating, the proper amount of food and hygienic living are the most important features of the treatment. Most people eat too fast and eat too much.

One noted authority has said that the stomach is the fountain head of health or disease, as the case may be. Tanlac was designed primarily for the regulation of the stomach, liver and bowels, but it is no uncommon thing for persons who have used it to find that they have also been relieved of rheumatism and other ailments not generally recognized as having their origin in stomach trouble.

There is probably not a single portion of the body that is not benefited by the helpful action of Tanlac, which begins its work by stimulating the digestive organs, thereby enriching the blood and invigorating the whole system. Next it enables the weak, worn-out stomach to thoroughly digest the food permitting assimilation of the nourishing elements.

Millions of people have not only been relieved of the most obstinate forms of dyspepsia and indigestion by the Tanlac treatment after other remedies had failed, but many of them have reported remarkable and rapid increase in weight and a return to normal health and strength by its use.
