ONE KILLED AND FIVE INJURED IN DEEP RUN WRECK

James Hill, Jr., Crushed to Death When Autocar Runs Wild Into Crowd of Folks

TWO OTHERS SAID TO BE IN SERIOUS CONDITION ALSO

Truck Left Rail and Dashed Into Yard Where Crowd of People Was Congregating

Kinston, June 25.—James Hill, aged 12, son of the late James Hill, Sr., was instantly killed yesterday afternoon about 6 o'clock, when an autocar, belonging to the West Construction Company, ran wild near the home of Mrs. Julia Anne Smith, 10 miles from here near Deep Run, and ran off the road into the yard of the Hill's and hit a wagon, on which or near which seven persons were. Mrs. Smith herself was so seriously injured by being thrown off the wagon that she is not expected to live, while five others were injured more or less seriously. Mrs. Smith is the grandmother of the dead boy and his sister, Bertha Hill, who was the third member of the party seriously injured. It is expected she will recover, but injuries are most serious.

The accident occurred when the truck was returning from the day's work to this city. The truck was said to have been going at a break-neck speed and some stated to the Morning News representative that several of the negroes were cursing and yelling at those they passed along the road. The truck, however, evidently left the road, near the crossing of the Kinston Carolina Railway, some twenty yards south of where the wagon was standing, and cut off into the yard of the home. The right front steering rod was found to be disconnected from the steering column, after the accident and it is thought only hardly possible for this to have happened when the truck struck the wagon, which was at least 20 feet from the paved highway and standing still. Several thought that the breaking of the steering rod made the truck ungovernable and that the negroes, scared from the driver's inability to cut the big truck from rolling into the wagon. The driver evidently did not apply his brakes, it is said.

CHARGES OFFICERS OF ILLEGAL ACTION

Store Owner Says Officers Searched His Building Without Proper Authority

(By International News.)
Atlanta, June 26.—Charging that his grocery and drug stores had been illegally searched for liquor by F. Dismuke, federal prohibition agent, and Officer J. Powell, internal revenue agent, G. Bridges, today filed notice of suit for five thousand dollars against each of the agents. He contends that the law was violated when the search was made by the agents. No liquor was found.

WOOTEN TO HEAD FIRST AID WORK FOR RED CROSS

Local Physician to Outline Tentative Work for Campaign in Few Days

At the May meeting of the Executive Committee of the Pitt County Chapter American Red Cross, Dr. W. I. Wooten was appointed Chairman of first aid department by M. K. Blount, chairman of the Chapter. While here last week David J. Yates stressed particularly the need of first aid throughout the country. He emphasized this particularly in his talk at E. C. T. College, giving a number of instances where First Aid had saved lives. This course teaches what to do before the doctor comes, and the simple, the method taught are most effective.

Mr. Yates had a conference with Chairman Blount and Dr. W. I. Wooten relative to the First Aid Dept. and its management in Pitt county. Supt. R. G. Fitzgerald states that he hopes to have a course established in each county high school, and it will be run in conjunction with physiology. The chapter feels very fortunate in having Dr. Wooten so interested in this work, and all members of the executive committee will be anxious to hear his program in outline tomorrow at executive committee meeting, which will be held in Red Cross office at 3:30 p. m.

FIRE DEPARTMENT CALLED OUT, BUT FIND NO FLAMES

Person Mistakes Fire Box for Letter Box and Turns in City Fire Alarm Sunday

There is evidently somebody in Greenville who isn't able to tell the difference between a fire alarm box and a letter box. Anyhow, someone said to have been looking for a letter box yesterday in the fire alarm and had both trucks of the fire department dashing wildly from one part of the city to another in an effort to locate the conflagration. The vicinity from which the alarm was turned in was first visited. But nobody seemed to know anything about any fire. The two trucks, followed by a long string of automobiles loaded down with interested citizens continued to hunt but no fire was to be found.

Someone who happened to be passing the fire alarm box in an automobile a few seconds before the alarm was turned in said they saw two persons standing there trying to put a letter in the box. The glass had previously been broken out, and the inscription "pull down lever" was visible. Probably thinking this necessary before putting in the letter the party is believed to have pulled the lever down. At least, the fire alarm went in, and the story comes from a pretty reliable source. So there you are.

MICHIGAN HAS MENTAL TEST FOR PRISONERS

Lansing, Mich., June 26.—Belief that defective mentality is largely responsible for the presence of many inmates in State institutions has caused the State Administrative Board to authorize a State survey to determine what part mentality plays in crime. Prisoners in institutions throughout the State will be classified and assigned work according to their mentality. The commission's activity is the first of its kind ever undertaken in Michigan.

SECOND PRIMARY TO BE HELD HERE NEXT SATURDAY

Amos L. Jackson and R. E. Corbett Are Candidates for Office of Sheriff

FIGHT FOR OFFICE OF CONSTABLE TO ALSO BE A FEATURE

Woman's Vote Expected to Play An Important Part in Election of Officers

Much interest is centered around the second primary to be held in the county next Saturday for the purpose of choosing a sheriff and several town ship constables, and it is expected a record vote will be cast. The participants in the race for Sheriff are Amos C. Jackson and R. E. Corbett, Jackson won the largest plurality of the eleven or more candidates in the first primary with Corbett taking second place. Both candidates have been canvassing considerably since the election a month ago, and when the strength of the other candidates are swung their way the individual vote will be much greater than last time.

That the women will play an important part in the second primary is not to be doubted in the least. The sheriff's office is one in which every one is interested, as it is the main point where law enforcement begins. The women are particularly interested and it is expected they will make a pretty good showing, but even then their vote will be small compared to the men. The constables represent two or three different sections of the county, and while the office is not such an important one the fight will very likely be one of the most stubborn in years. Each candidate has canvassed his individual locality more than usual, and that they will pull a big vote also is not to be doubted.

SAYS COAL STRIKE INJURIES INDUSTRY

Complete Paralysis of Industry Threatened in the Near Future, It Is Said

(By International News.)
Providence, R. I., June 26.—Complete paralysis of transportation will be the natural outcome of the impending coal shortage if the strike of bituminous coal miners continues many weeks, George Otis Smith, director of the United States Geological survey declared in an address here today. Clear up the economical coal business and lasting settlement of the labor controversy will become a possibility, he said.

SAYS OCCUPATION OF HAITI NEEDED

American Military Commission Says Condition Demand Our Attention at Once

(By International News.)
Washington, June 26.—American Military occupation of Haiti is completely justified according to a report submitted by the senate committee which visited the island to investigate the serious charges against the rule of the United States marines. The report which was made by Senator McCormick, Republican, of Illinois, declared that American occupation is absolutely necessary to uphold the Monroe doctrine and prevent military intervention of Germany and France. He urged retention of the marines who brought law and order for the first time in history of the island.

MINE BOSS ONLY ONE INDICTED IN HERRIN DISORDER

Men Came to Death Through Unknown Sources

IDENTITY OF MANY VICTIMS CONTINUES TO BE BIG MYSTERY

Funera of Sixteen Slain Men Held Without Slightest Signs of Sympathy

Herrin, Ill., June 25.—C. K. McDowell, the one-legged superintendent of the Southern Illinois Coal Company's strip mine half way between Herrin and Marion, Illinois, was the only man charged with murder by the coroner's jury, which concluded its investigations tonight.

The non-union men, the coroner's jury decided, came to their death "by gunshot wounds at the hands of parties to this jury unknown" as the result of activities on the part of officials of the wrecked Lester mine. The remaining verdicts, twenty in all, stated that each individual "came to his death by gunshot wounds at the hands of persons unknown."

No additional information concerning the identity of the sixteen unknown dead was unearthed during the course of the inquiry, which took the jury to the local hospital and into the rooms of wounded non-union men. Allen Findley, wounded time keeper for the Southern Illinois Coal Co., now in the Herrin hospital, gave the jury the information on which it based the verdict of murder returned against McDowell, the dead superintendent.

"McDowell and I were standing on the edge of the pit when he asked me, as he pointed to a dark object if that was a man," he continued, "but he fired and the man threw his hands in the air and fell. McDowell was a good shot."

Colonel Hunter, in a statement to two representatives of the International News tonight, reiterated his declaration that on Monday last, in a telephone conversation with the Adjutant General of Illinois, he stated definitely that he did not believe that the local authorities were either able or inclined to handle the situation here and that he recommended troops be sent to Herrin.

NASHVILLE MAN DIES OF WOUNDS

John Mose Shot and Killed by Infuriated Father-in-law Last Night

(By International News.)
Nashville, June 26.—John Mose died here today as result of shot gun wounds, and Dan Davis, father-in-law has been arrested. The shooting is said to have resulted from a family quarrel. Abuse of his mother-in-law by Mose precipitated the shooting it is claimed.

GERMAN CONNECTED IN RATHNEAU DEATH

Lieut. Carl Tillensen Arrested On Charge of Complicity of Killing of Rathneau

Berlin, June 26.—A German army officer who is said to be Lieut. Carl Tillensen was arrested at Flensburg today charged with complicity in the assassination of Walter Rathneau. The man was captured as he attempted to cross the Danish border.

TELLS HOW MUCH TARIFF WILL PUT LIVING COSTS UP

Senator Walsh of Massachusetts Attacks Agricultural Duties of Bill

BACKS UP SPEECH WITHOUT THE REAL FIGURES AT HAND

Declares Tariff Would Mean Great Increase in Cost of Living Here

Washington, June 25.—Increases in tariff duties proposed on fresh meats, sugars, cereals, beans, potatoes and apples, if effective, would advance the cost of these commodities to American consumer by a total of \$1,316,569,449 annually, Senator Walsh, Democrat, of Massachusetts, said today in a formal statement. He explained that this estimate had been prepared by the Department at his request and was based on the total consumption in this country multiplied by the increased tax proposed over the law of 1913.

Senator Walsh made public a table prepared by the department showing the increased per capita cost per annum on such items would be as follows:

Barley, \$0.094; buckwheat, \$0.007; corn, \$4.077; oats, \$1.805; rye, \$0.062; wheat, \$1.792; sugar, \$0.490; beef, fresh, \$2.714; mutton, \$0.159; pork, \$0.736; beans, \$0.130; potatoes, \$1.323; apples, \$0.397; total, \$13,165,694.49.

"These figures reveal the terrible consequences of high tariff duties on the bare necessities of life," said Senator Walsh. "At the very period when we are attempting to deflate the enormous costs of production and the excessive prices prevailing as a result of war conditions, it is proposed to increase the cost of living to the American people to the extent of \$13,165,694,499 per annum."

BANKS REPORT HUGE CREDITS AVAILABLE

Light Demand for Loans Has Created Great Surplus of Funds, Says Report

(By W. H. ATKINS, International News Service Staff Correspondent.)
Washington.—The banks are swollen with surplus funds. Nearly \$2,000,000,000 in credit is going begging. American banks reported loans a year ago of \$15,000,000,000. Today the same banks report only \$11,000,000,000 in loans. Easy money conditions provide the answer. Because of light demands made upon them, banks everywhere have a surplus of funds available for outside investment.

Reports to the Federal Reserve board show that in many classes of business commitments have been fully liquidated and considerable cash balances have been carried in the banks. There is less demand for customers to resort to the banks for working capital.

Reserve board reports show that a gradual liquidation of large stocks of commodities held over in order to avoid dumping them on the market has thrown funds into the hands of thousands who are now using the proceeds in business development.

Loan Money Available.
Increasing ease in the banking situation generally is shown by the vast amount of money sent by interior bankers to New York to be loaned on time. There is said to be more money drawn to New York on such a basis than has been reported since the free market for time funds was restored some time ago. Larger volume of security sales and heavier offerings of new industrial issues have absorbed a part of this fresh supply of credit.

AYDEN TO STAGE FINE COMMUNITY MEETING FRIDAY

Everybody Urged to Attend Interesting Meeting Set for This Week

Mr. G. A. Johnson, Chairman Community Meeting Committee of the Ayden Red Cross Branch, called Miss Hubbard, Exec. Sect., over long distance, urging that she should tell every one from Atlanta to the Pacific of the Community Meeting which their Red Cross Branch will have Friday night. He stated that all persons who are to be leaders in the different stunts had been seen by his committee, and each person asked would take part. They intend having the very best and most enthusiastic meeting ever held. Mr. Johnson stated, and all are assured a most entertaining evening. The Red Cross is the pioneer organization in doing community work in Agricultural towns and Mr. T. R. Buchanan, Red Cross Field Representative, which here the past week was very much interested in the Chapter report of the splendid and enthusiastic work which is being done by the Ayden people for their own community.

ONLY FEW CASES IN COUNTY COURT

Two Men Sentenced to the Road and Filed Notice of Appeal Afterwards

The lightest docket in several weeks faced Judge Louis G. Cooper in this morning's session of county court and session as a result was completed long before the usual hour. Two sentences to the road featured the hearings, but in every instance notice of appeal to the next term of superior court was filed by attorneys for the defense.

Charlie Jackson charged with larceny, was sentenced to the county roads for a period of twelve months, and entered notice of appeal to superior court.

Willie Marks, charged with larceny drew twelve months on the county roads, but filed notice of appeal to superior court.

The case against Ashley Harper, charged with having liquor for sale, was transferred to criminal superior court.

THREATEN TO KILL NOTED BRITISHERS

Anonymous Letter Threatens Life of Lloyd George and Winston Churchill

(By International News.)
London, June 26.—Lloyd George and Winston Churchill and Hammer Greenwood today received anonymous letters threatening death if James Connolly and John O'Brien, alleged assassins of Field Marshal Wilson, were hanged. Lloyd George's office refused to confirm the reports.

MACHINE IS INVENTED FOR MINING MICROBES

London, June 26.—An extraordinary machine for mining microbes has been erected in the Research Laboratories of St. Paul's Hospital, London.

Microbes which are invisible to the sight are cut into bits in the microbe mining machine. The machine has two discs, one of which is stationary, while the other rotates. The stationary disc has seventy tiny steel knives and the rotating disc eighty cutting edges. The microbes, suspended in an alkaline liquid, are forced against these cutting edges at a speed of sixty miles an hour.

The machine is used in the making of anti-toxins.

TO RAISE FUNDS FOR NEAR EAST HERE THIS WEEK

Intensive Drive to Begin Tomorrow Under Direction of Jim Applewhite

CITY EXPECTED TO CONTRIBUTE \$1800 TO GREAT CAUSE

Committees Will Make Thorough Canvass of City Tomorrow and Next Day

Jim Applewhite, Greenville chairman of the Near East Relief campaign, announced this morning that efforts would be renewed to raise the \$1800 set as a motto for the city sometime ago, and committees will canvass the city the next two days to see what progress can be made in this direction.

While the campaign was announced several weeks ago no actual work was conducted in Greenville. It is hoped, however, to get things well under way Tuesday morning and continue the canvassing until the total amount has been raised.

The situation in the Near East is serious today as ever. Thousands of children will actually die of famine and disease unless the American people provide for them out of their liberal resources. Many homeless houses and religious and civil institutions will be asked to provide sufficient funds for the annual maintenance of destitute children of the Near East. Only a small amount of money is necessary for this purpose and the public can give without feeling it.

Mr. Applewhite will announce the name of committee members and contributors to the campaign through the columns of this paper tomorrow afternoon. This will give the public an opportunity of keeping up with the work and determining from day to day what progress has been made.

Other towns and cities of the state have given liberally to this great cause. Chairman Applewhite said, and Greenville people can't afford not to give as freely as others. America has been signally blessed in past years and her people can't afford to stand by and see others suffer when they could bring relief and never feel it.

The slogan tomorrow will be "Give and let live" so get busy and be prepared to do your part when the committee calls.

TWO MEN HELD IN WILSON MURDER

Charges of Wilful Murder Launched Against Connolly and O'Brien by Courts

(By International News.)
London, June 26.—Charges of wilful murder have been launched against James Connolly and John O'Brien by the coroner's jury for the assassination of Field Marshal Wilson, who today was buried with the highest military honors. The burial ceremony at noon today in the field marshal's corner of St. Paul's cathedral.

TARIFF WAR HALTING COMMERCE IN FRANCE

Paris, June 26.—An appeal to the French Cabinet to make every effort to bring to a close the tariff war with Spain that is trying to compromise between the two countries has been made by a group of southern French cities, including Bayonne, Biarritz and Pau. According to the appeal the basis of the war is to be secured by certain French wine interests for protection against Spanish wines, and the result of the tariff war is a tremendous injury to Spain of German manufacturers.

Monday, June 26th, 1922

Members of congress have been aroused by disorders in the Herrin coal fields and demand the federal government to take immediate steps towards creating an industrial tribunal for settlement of such disorders. That such action is needed cannot be doubted in the least and it is hoped congress will continue digging away until something definite has been accomplished. Conditions have certainly become sufficiently critical to justify such action, and if it isn't taken soon, it may be too late after a while.

It is charged now that dissension is taking place among members of the Ku Klux Klan. We have heard several charges against the hooded organization, but so far none have been proven. The fact is the work of the order is conducted with such a cloak of secrecy that outsiders merely guess at everything and don't really know what they are talking about. The Klan at one time rendered the south a great service, but whether it can do so now remains to be seen.

The Illinois mine war has been condemned in no uncertain language by Senator Meyers, Democrat of Montana. What good does it do to condemn something over which we have no control. It cannot possibly do any good and will have a tendency of creating resentment among the miners. The thing for the government to do is to get busy and arrange for amicable settlement as soon as possible. This may be done through proper channels, but unless immediate action is taken we may be further from settlement than ever before.

The assassination of Dr. Rathenau, Germany cabinet member and economic expert, will be received with keen regret throughout the entire country, as it was through his effort that the allies were able to arrive at an understanding with Germany. In fact, it was the personal efforts of this noted German that the allies were enabled to complete negotiations with his country, and his death severs the connecting link of the Germans with the outside world. His death will not only be received gratefully in America, but in every country comprising the Allies, and especially those that have been associated with Germany through him. The loss of such men is keenly felt by the people, and Germany will be long in recovering from the paralyzing effect of this death.

The American Federation of Labor, after a hard fight has voted against asking the United States to re-organize Soviet Russia and thereby establish trade relations with that country. Whether the federation thinks this is wise or not the government should make some movement in this direction. In fact, we have many products needed badly in Russia, and as we cannot possibly consume what we produce it is certainly up to us to open up proper channels of trade for distribution of the surplus supplies. Other countries have found it advisable to recognize Russia and if they can do so it looks like the United States might also. Some may say that Russians can't pay for what they buy. That is a poor argument. They have the undeveloped resources, and if properly encouraged should be able to come out of the rut into which the nation fell during the war. American recognition would do more to bring this about than anything else.

That the federal government should take some action looking to the amicable settlement of the coal strike in Illinois and West Virginia has been made very evident by the disorders and subsequent loss of life right recently. The situation has become so serious that unless some action is taken greater loss of life may result. If this doesn't justify government action, then we are at loss to understand what they are waiting for. Several times during the administration of President Wilson labor organizations threatened to disturb industry by strikes, but in practically every instance the president succeeded in bringing about amicable settlement. It looks like President Harding should be able to appeal to the miners and arrive at an understanding, but he hasn't been able to do anything of the kind until the present time and isn't likely to. Something, however, must be done and if the government can't do it, then we don't know who to ask.

Here's a Close-up of the Buick velvet disc clutch.
THE clutch is just about one of the most important things about an automobile. It is certainly true that if the clutch does not work easily the gears cannot be shifted easily; and if the gears cannot be shifted easily an automobile cannot be driven with comfort, or—what is more important—with safety.

The Buick multiple disc clutch, a patented Buick feature, has taken away most of the driving strain because it is so easily operated. This same ease of operation is not only of vital interest to women, but is welcome to the man who demands comfort and efficiency. Ride in a Buick car and try for yourself the Buick clutch. The result of this trial is of vital importance to your future motoring happiness.

The trade in Flues is the most erratic of anything that is generally used in our section, ranging as much as 5 1-2 times more, or less, in one season, than the one preceding or following. It is certain that the demand this year will be considerably larger than last, and while I have tried to anticipate this, it is by no means certain we will not be troubled by shortage of material before the season is over.

THE ORNAMENT AND THE NEW DRAPES

Having been so accustomed to discussing skirts, suppose we drop the other threads subject of whether they shall be long or short, the question seemingly being settled anyway, and consider how they shall be draped.

Designers appear to feel that since skirts are to be long, they must be something else as well; they are for concentrating on side draperies and adding here and there godets and fan shaped inserts which have a tendency to give a circular movement, a rather desirable thing from our present viewpoint.

It all depends of course as to what sort of skirt one is considering; the separate type, which is the affinity of the blouse plus the sweater or sports coat, is usually a very simple affair with hem eliminated and fringe. Substituting for it, the skirt opening at the left of the front. Of course there are other types, but these are really the "also ran" class.

A girdle, which is certainly a charming addition to a summer dress plays an all important part in the dress world at the moment and it is well to give it careful attention. When skirts are draped at the side as they frequently are, it is a temptation to add some sort of an ornament. Clasps, cabochons, tassels and what not are chosen; even decorative daggers pierce the folds of some of the side draperies this being one of the new ornaments offered for fall. The sheath pins and daggers that some in this category, are also used for hat ornaments and for costume jewelry; even precious stones are set in this forma-

tion instead of the passe barr effects. For the dinner gown many girdles have fringes which fall to the hem, while on lace dresses, and those of semi-transparent type, sashes have a way of being worn under the skirt even when the sash attenuates itself into a lacy end falling to the skirts' edge.

Another skirt detail which has a great deal in its favor is the addition of a transparent hem. A charming yellow chiffon gown designed recently for a smart society woman's summer wardrobe, had a three inch band of black maline added, this course lengthening the skirt and yet exposing, and very charmingly too, the ankles beneath. Apron skirts have transparent bands, not only at the bottom but up the sides, and now that peasant dresses have established themselves as desirable in our sight there are apron skirts aplenty.

MICHIGAN RESORT BARS

Iron Mountain, Mich., June 26.—Spread Eagle, seven miles from here, is to be America's most extemporary summer resort this year if the plans of William Dennis owner of Spread Eagle pavilion, materialize. He says there's been altogether too much drinking and loose conduct on the island and he's fed up on it.

Dennis has compiled a group of interesting rules which the resorters will have to comply with.

Each incoming patron must submit to a search of his person. If liquor is found on him he must turn it over to Mr. Dennis or get off the island. And if his breath carries the tell tale tang of illegal beverage he will get the gal, too. Four men have been hired to give prospective guests the "once over."

FRANCE WOULD COMPEL RESPECT FOR MOTHERS

Paris, June 24.—A measure to compel by law the reservation in railway carriages of places for mothers and nurses accompanied by infants has been proposed in the Chamber of Deputies. Objection has been raised by the grounds that the law would be useless, because all French travelers are so polite that no baby-burdened woman ever lacks a seat.

GOVERNMENT PLANNING

LIVESTOCK BULLETINS Washington, June 23.—The Department of Agriculture is contemplating the inauguration of a nationwide livestock reporting service to inform livestock producers and buyers of prospective supplies, hoping thereby to stabilize the livestock and meat industry by permitting closer correlation of supply and demand.

The plan, officials said, is still in the making. Full details will be worked out at Denver, Colorado, on July 17, at a conference of the state and federal officials and representatives of the entire livestock and meat industry.

Master James Wilson Entertains - Master James Wilson, son of Mr. and Mrs. W. B. Wilson, celebrated his tenth birthday on last Saturday with a delightful party. Upon arrival the guests were invited to the lawn, which was decorated with Japanese lanterns, and served lemonade and sandwiches. The dunkey contest afforded much amusement, and Master Jake Hadley being the successful contestant was awarded a box of stationery. Howard Wilson was given the consolation prize, a box of dominoes. The favors, balloons, were given to each guest, while the girls were presented pin cushions and the boys drums filled with candies. A fish pond was arranged in one corner of the yard and the guests spent a most pleasant hour in drawing out fans, parasols, horns, bats and many other articles. An ice course was served.

THE STANDARD of PERFECTION IN FRUIT

RED SKIN

The peach is conceded to be the finest thing ever made in the way of fruit, and the Sandhill peach has established its position as the best peach made anywhere on earth.

For twenty-five years the Sandhill orchard men have been working to produce a type of peach that should be the standard of the world, and the government grading tests show that the ambition has been accomplished.

The highest government grade for peaches of the Sandhill type is that Elbertas, Georgia Belles and Hales shall show not less than 25 per cent of red color.

So many Sandhill Peaches grade Above 25 per cent that the main grade is Strictly Fancy No. 1, U. S. Standard.

The Fruit Growers' Association this year will have Fancy No. One's on sale in all the towns in North Carolina. You never saw such peaches before as your fruit men will offer you in your own town this season. Big, handsome, and the finest flavor in the world.

Notice the label. The Sandhill Redskin is made only in the Sandhills, and nothing like it is made anywhere else.

NEW BERN BEARS TAKE THIRD GAME FROM GREENVILLE

By Taking Advantage of Breaks Bears Were Able to Nose Out 3 to 2 Victory

In probably one of the most stubbornly contested games of the season New Bern succeeded in making it two out of three from Greenville by taking Saturday afternoon game by the score of 3 to 2. While the Bears came out victorious, it was not because of superior playing on their part, but inability of the visitors to secure the slightest semblance of a break at opportune moments.

Both clubs several times threatened to increase the score, but at such times Hathaway and Wolf settled down and absolutely refused to yield anything in the way of a hit. While Wolf was touched up for a total of six hits Hathaway let the Bears down with only five, which were scattered except in the third inning when they figured largely in the scoring. The Greenville hurler was slightly wild at times and in practically every instance a free pass to first figured in the scoring.

The Blue Sox staged a dangerous looking rally in the ninth frame when two runners were gotten on bases, but Decker at short made a sensational stab of a hit liner by Thompson and retired the side without a score. The stop was one of the prettiest seen this season, and under any other circumstances would probably have resulted in a tie score or victory for the visitors.

The principal stick work for Greenville was done by Smith and Doran who succeeded in securing a double each. White, Massey, Leftwich and Carson also figured prominently with a single each. For New Bern "Big" Koch featured with a total of three hits out of five trips to the plate. Kline and Morris each secured singles.

Greenville scored one run in the second inning and one in the third. While this ended their run getting the several times seriously threatened the plate, but failed because of inability to get a timely hit. New Bern scored one in the first and two in the second. After that time Hathaway settled down and absolutely had the Bears eating out of his hand. While losing, he pitched a decidedly good game and deserved better luck.

The game ended the series between the two clubs, giving the Bears two out of three. The first score was six to two. The second day the Sox staged a complete runaway with Thompson on the mound, getting a total of eleven hits and eight runs against the Bears six hits and two runs.

Out of five games played during the week the Sox nosed out with three won and two lost. The record is considered remarkably good when it is remembered that the first two days of the week all games were postponed on account of rain. The third day they won both games of a double header from Farmville.

The box score of Saturday's game follows:

	A	B	R	H	E
Greenville	4	0	0	1	0

DIAMOND DUST

BY ZEKE

Well, the Highwaymen from Kinston came over today for three games.

We hate to make it two out of three Highwaymen, "but it's got to be did."

The Bears succeeded in taking the final game of the series from us last Saturday, but what hard fight they had in doing it.

Hathaway held the Highwaymen to five measly hits and then lost. The fellow that claims there is no luck in the old game has another thought coming.

Mr. Decker is still goating over that sensational stop he made off Thompson's drive in the third with two men on bases. If it hadn't been for that one bad break the Blue Sox would have brought still more Bear meat home with them.

It is persistently rumored that Beall brought a catcher and pitcher back from Washington with him. If they can play like the "Iron Man" the Blue Sox have a permanent berth for them.

Champagne, former outfielder of Blue Sox who was released several days ago, is playing first base for the New Port News club of the Virginia league. The pace was a little fast for the big boy in Eastern Carolina, but he will probably find a permanent place in the Virginia league race.

New Bern sport writers said that Blue Sox "admittedly" had the best team of the two—referring to the Blue Sox "after the three day series last week, wonder have they changed their mind. Probably not, as they are the kind who claim there is no luck in baseball.

Farmville made it two out of three from the Highwaymen, which goes to show the Farmers have strengthened up many weak points of late. They had just placed the new men in the field in the series with Greenville, and we knew then they were due for considerable improvement.

With Doran, Stringfield, White and Massey fielding and hitting like big leaguers the Blue Sox are due to take at least four of the series this week. In which case next Saturday night will find us perched nearer the top.

With Washington leading the league only four games ahead of us we still stand a mighty good showing of coming out at the top during the first half. Come on, old Sox, and let's sew the thing up.

The Kinston Daily News says Smith Greenville outfielder, is a "hitting fool." We don't know so much about the fool part, but if it takes a fool to handle the willow, then he must be a "fool from Foolsville."

The Washington Daily News scribe is still poetic. Everybody feels inclined that way when everything is running smooth and it looks like the whole blamed world is for us, but when things change and the clouds hang dark and heavy and won't let the sunshine through—it's an entirely different matter, and poetry won't do.

Bern 6; two base hits Smith 1, Doran 1; struckout by Hathaway 1, Watt 4; first base on errors Greenville 2, New Bern 1; double plays Stringfield to White to Massey 2; hit by pitcher by Hathaway Kline; passed balls R. Morris 1.

Score by innings: R. H. E.
 Greenville 011 000 000—2 6 1
 New Bern 120 000 000—3 6 2

A Movie Star in Every Package

Farmville has a pitcher by the name of Thompson, and if he is as good the one in Greenville the Farmers are due to continue their winning streak.

Tarboro is giving New Bern a tight race for second place, and if they happen to clash this week one or the other is going to change places before the week is over.

The Blue Sox don't want to forget the importance of hitting the old apple this week. Hits will win when everything else fails, and if we can continue like we've started things will come out to the satisfaction of everyone.

With another pitcher and catcher in camp, we ought to be able to walk away with the first series as easy as if we didn't have any opposition. Let's go boys. From now on let's show the fans we have the stuff necessary to win the series and then the championship.

"Minnie" Manning, who will be remembered as the man who pitched Washington to victory over Greenville in the last two Fourth of July double headers will rejoin the Pamlico this week, it is understood. This acquisition will mean much to the league leaders and should give them a much better chance of winning the first half.

PAMS TAKE LAST OF SERIES WITH TARS FAST GAME

Tarboro, N. C., June 24.—Two of the premier pitchers of the Eastern Carolina League, Hyman for Tarboro and Gram for Washington, pitched themselves against each other today and a twelve inning "battle royal" was offered for the amusement of the 900 fans in attendance. Graham and Hyman are both left-handers and their pitching efforts so far have been crowned with signal success. Hyman had slightly the better of the contest with a larger list of strike-outs and a clean slate on walks. His team mates however bumbled frequently and the little southpaw spent the greater part of his time in extricating himself from pits which were dug by their fumbles. Graham was, as usual, invincible, holding the locals to four singles and walking only one man.

The Tarboro team fielded raggedly but were fairly steady in the pinches until the thirteenth inning. The Pamlicos handled the ball neatly and accurately throughout the contest, making only one miscue. The fielding as a whole was done in a fairly fast fashion but the game was devoid of sensational plays.

HIGHWAYMEN LET LAST GAME WITH FARMVILLE DROP

Well, yet loyal ones. Yesterday's dose wasn't sugar-coated was it? It looks as tho' the Highwaymen had to get on the good side of old "Jinks" before that winning streak begins. Dropping two out of a triple setto with the Farmers doesn't look so good. No.

From the beginning it was a hit and run affair, a facsimile reproduction of Friday's merry-go-round. The first frame was uneventful. In the second the Highwaymen found Stanley Johnson for a string of hits and five tallies. It looked like a sure thing. Person pitched a fairly good game until his retirement in the seventh. The Farmers hit him but no more freely than his opponent. He displayed excellent control, walking only one man in the entire six frames. Snead's home run over the left field fence scored two in the second. Kinston scored another in the fourth. In the sixth, the Pitt countians began to hit with a vengeance. Four runs were barked up. The Highwaymen became worried. Person gave way to Evans and the little fellow shut them out in the seventh.—Kinston Morning News.

FAVORITE MOUNDER IS DUE NEXT MONDAY

President Jess Harrington of the Washington Baseball Club received a wire yesterday from "Minnie" Manning stating that he would report for duty next Monday. Although, according to the rules, he'll be on the bench several days, it is nevertheless first class news for the local fans to know he'll be seen in action with the Pamlicos the balance of the season "Minnie" has been playing with the Portsmouth team in the Virginia league this season and as was to be expected, delivered the goods. Manning has a host of friends in Washington. He'll have friends in the other towns of the Eastern Carolina league before the season ends. He's well remembered in the Blue Sox territory as a Fourth of July artist.—Washington Daily News.

HUGE PIKE LANDED BY WEST VIRGINIA FISHER

Parkersburg, W. Va., June 24.—Well, now that West Virginia's fishing season is under way, how is a fifteen-pounder for a starter? Harry King, of this city, is the hero of this yarn. He landed a wall-eyed pike of the weight stated while fishing in the Ohio River, near here. It was one of the largest and finest fish of the kind caught hereabouts in years. King brought it to the local warboat, where it was weighed. Pike at one time were common in the Ohio River, but of late years they have been scarce, especially of the larger size.
