## FINDING OF PISTOL THROWS NEW LIGHT ON JERSEY MURDER

Detective Promise Arrest in Investigation of Killing of Rector and Sexton's Wife

**DETECTIVES EXPECT TO MAKE ARREST AT ANY MOMENT TODAY**

**Finding of Handkerchief Pierced With Bullet Holes Gives Further Clue to Officers**

New Brunswick, N. J., Sept. 19.—Discovery of the pistol with which the Rev. Edward Wheeler Hall, rector of the church of St. John the Evangelist, and his young choir leader, Mrs. Eleanor Reinhardt Mills, were slain, brought the investigation of the mysterious double murder near to its close tonight.

While officials of Middlesex and Somerset counties, who are co-operating on the case, refuse to repeat earlier optimistic predictions of an arrest within a given time, it was learned that the custodian of the small county jail at Somerville, Somerset county, had been instructed to prepare for the receipt of at least one prisoner.

County Detective David, of Middlesex, who found the pistol—a black automatic—refused to say where he had gotten it, or whom he suspected of being its owner. Ownership of the weapon was being traced, he said, and an arrest might be expected as soon as that procedure has been completed.

Earlier in the day detectives had come into possession of a woman's handkerchief, pierced with what appeared to be bullet holes. The handkerchief had been picked up near the spot on the abandoned Phillips farm, in Somerset county, where the bodies of the rector and Mrs. Mills were found. Ownership of this lace handkerchief, if it can be established, may furnish valuable evidence in support of the theory that a man and a woman, together surprised the minister and Mrs. Mills and that one of the two slew them after the struggle between the two women.

## AUTHORIZE SALE OF MUSCLE SHOALS TO ALABAMA POWER CO.

Secretary of War Instructed to Also Lease Nitrate Plant at the Shoals

(By International News.)

Washington, Sept. 20.—The secretary of war will be authorized to sell to the Alabama Power company the Gorgas steam plant, transmission lines to Sheffield and to lease in his judgment the nitrate plants at Muscle Shoals under terms of the bill introduced by Representative Hall, Republican, of Ohio.

It is said that the proposed plan of disposing of the great property has been adopted because it is doubted if Henry Ford can take the properties under terms of the bill reported by the House military committee.

If the power company does not buy for three million dollars the secretary has been authorized to negotiate for the purchase. He was directed to proceed with condemnation if he cannot negotiate the purchase.

The secretary will be further authorized to complete government expense at dams three and two on the Tennessee river, acquiring four hundred thousand dollars from the power company flowage rights. If it cannot be purchased they will resort to condemnation proceedings.

**SOUTHERN SHOPMEN AT KNOXVILLE WILL RETURN TO THEIR WORK**

(By International News.)

Knoxville, Tenn., Sept. 20.—Seventeen hundred striking shopmen voted to return to work at the Southern shops here immediately.

## REVIVAL SERVICES BEGIN SUNDAY AT THE M. E. CHURCH

Noted Minister and Singer Will Be in Charge of the Services

(By REV. V. P. SCOVILLE.)

Next Sunday, Sept. 24, there will begin a series of revival services at the Jarvis Memorial Methodist church which it is believed will result in great good to our entire community.

The pastor has engaged for these services two of the best evangelists in the South. Dr. L. D. Patterson, who will do the preaching, is a brother-in-law to the late Bishop McCoy. He was for seven years one of the most effective missionaries of his denomination in China. He is a preacher of unusual force and all who hear him once will want to hear him again. Bishop Candler, well known to Greenville people, commends him most highly as an evangelist, as do Dr. George B. Stuart, the best known pastor-evangelist in Southern Methodism, and Dr. Paul B. Kern, of Southern Methodist University of Dallas, Texas. Dr. Stuart, himself formerly associated with the great Sam Jones, says of Dr. Patterson "I consider him a man of extraordinary equipment, consecration and power. God has remarkably blessed him in his ministry." Dr. Kern says "One of the most effective speakers I have heard in recent years. Thoroughly sane, vigorous and impassioned delivery; and his work characterized by marked demonstrations of the Spirit's power."

Dr. Patterson will preach three times daily. His sermons at 9:30 each morning will be of an expository nature, opening the scriptures and explaining their meaning. At 3:30 each afternoon he will speak on prayer, and tell many interesting experiences which he had while in China. These afternoon services will be of special interest to the school children and all parents are urged to encourage their children to attend. The sermons at the evening hour will be of an evangelistic nature.

Rev. A. J. Notestine, who comes with Dr. Patterson will direct the singing. He is commended most highly as a soloist and choir director by some of our best known pastors and evangelists. He is a member of the North Alabama conference and before entering the field of evangelists he served a number of important appointments in that great conference. Brother Notestine is very anxious that all the singers of the various churches assist in the making of a great chorus choir, and the pastor wishes to invite every one who will help in this respect to present themselves without embarrassment for such service. It is also desired that those who play either reed or stringed instruments offer their services for a good orchestra. A complete orchestration of song books will be provided.

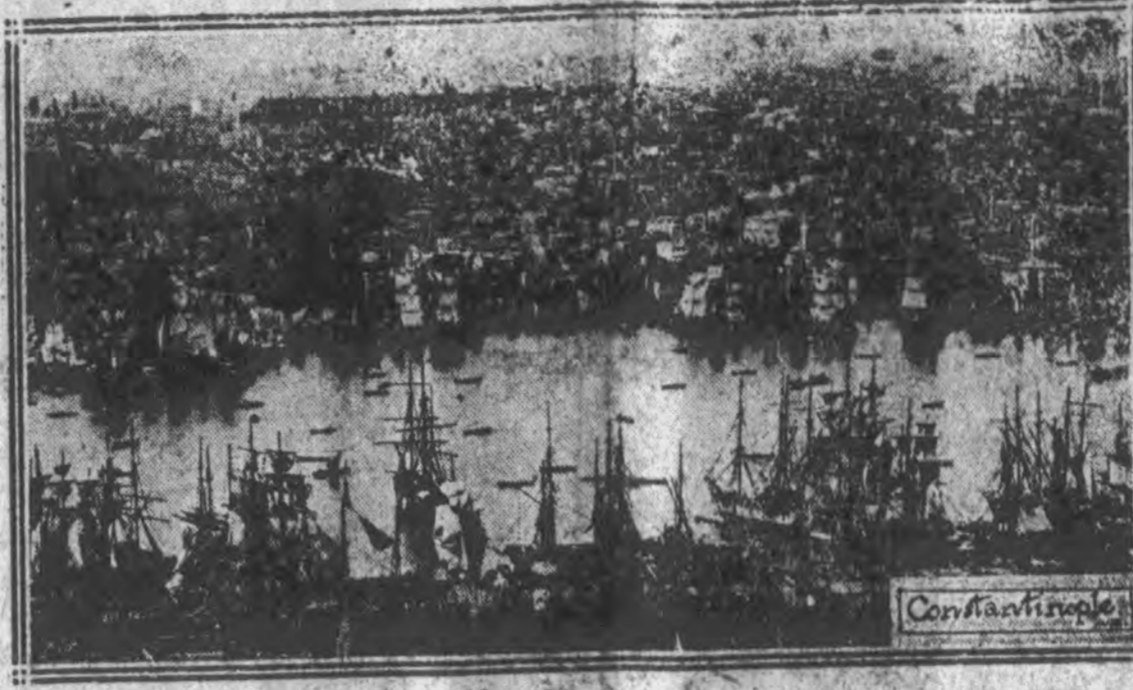

Everybody in Greenville and surrounding community is cordially invited to attend these services, and it is the sincere prayer of the pastor and his people that every church in our city may receive a distinct spiritual uplift and share in all the blessings which we hope to realize as a result of the coming of these brethren among us.

## STRIKE SETTLEMENT HALTED ON SOUTHERN

(By International News.)

Atlanta, Sept. 20.—Settlement of the shopmen's strike was abruptly halted today when the men declined to return to work unless every man should be restored to full rights. Officials had declined to re-employ men believed to be guilty of violence. Twenty hours will be consumed in discussing the matter. It is believed differences will be adjusted and that a hundred percent return of strikers will be noted tomorrow.

## Turks Demand Allies Evacuate Constantinople

Mustapha Kemal, Commander-in-Chief of the Turkish Nationalist forces of the Ankara Government, having captured and burned Smyrna, is reported to have sent an ultimatum to the Allies, demanding that Constantinople be turned over to him within fifteen days and that he be permitted to reoccupy Thrace. The British answer was to dig in the Dardanelles and despatch an unusually large force of troops and ships to Constantinople.

## SENATE DEFEATS EMBARGO ON COTTON

(By International News.)

Washington, Sept. 20.—An attempt to place an embargo on cotton was defeated by the senate this afternoon by a vote of 48 to 12, enactment of this bill would have barred all cotton importation for the next three months. The senate also defeated the proposed tariff rate of six cents per pound.

Mrs. I. F. Lee returned this morning from Raleigh where she has been visiting her daughter, Mrs. Cale K. Burgess.

## PARIS CONFERENCE HOLDING CENTER OF STAGE AT PRESENT

British Foreign Secretary Will Try to Harmonize English and French Views

SITUATION THOUGHT TO BE DECIDED ON IMPROVEMENT NOW

Turk Leader Wants Permission to Occupy Important Part of Thrace Territory

London, Sept. 19.—For the time being the scene shifts to Paris, where Lord Curzon the British Secretary for Foreign Affairs, will seek to attain harmony of views between his own and the French government's. The ministerial conferences in London have ended for the moment, and Premier Lloyd George has gone to the country for a few days rest.

That the general situation is regarded as easier is shown by the fact that Mustapha Kemal Pasha, leader of the Turkish Nationalists, is apparently making now new move, although, according to an Athens report which has reached London, he left Smyrna for Nicomedia, adjoining Ismid, south of Constantinople, while it is said tonight that Admiral Earl Beatty may find it unnecessary to proceed to Paris.

On the other hand, perhaps the most important news of the day comes from Constantinople stating that Kemal has sought permission of the Allies to occupy part of Thrace immediately and discuss the question of the status of the Dardanelles later in connection with the general peace problem and with the participation of the Black Sea countries. This touches the crux of the whole question. There may possibly be an agreement between Great Britain, France and Italy on the question of the neutrality of the straits and a further agreement that Constantinople shall eventually be returned to the Turks under certain conditions. But on the question of the future of Thrace, outside the neutral zone, such an agreement is lacking.

Kemal Pasha seemingly takes the view that there is nothing in the maintenance of the neutrality of the straits and the neutral zone to prevent his forces from pursuing the defeated Greeks into those portions of Thrace outside of the neutral zone. The British contention is that under no circumstances will the Turks be allowed to cross into Europe until peace has been settled. But it is not certain that France sees eye to eye with Great Britain in this matter.

The fact that France and Italy are withdrawing their detachments from this region would indicate three is lack of agreement and that Great Britain may be called upon to act alone.

## CAROLINA CLUB TO MEET TONIGHT

The Carolina Club will meet tonight at 8 o'clock. Every member is urged to be present.

## THREE CASES GIVEN HEARING IN POLICE COURT HERE TODAY

Two Speeding Charges and Disorderly Case Feature the Morning's Docket

Only three cases appeared before Mayor D. M. Clark in this morning's session of police court and work was completed in comparatively short time. This is one of the lightest dockets in several weeks and indicates that the bad element is improving.

Roland House, charged with speeding, was released upon payment of \$10 and cost of action.

Guy Cherry, also charged with speeding, was released upon payment of \$10 and cost.

Robert Corey, arrested recently on a charge of disorderly conduct, was dismissed upon payment of \$10 and cost.

## MICHIGAN WOMAN DENIES POISONING HER HUSBAND

(By International News.)

Dowagiac, Mich., Sept.—"I would not kill a dog for a measly \$800," declares Mrs. Maud Cushing Storick, mother of three children and soon to be the mother of another, who will go on trial here soon, charged with the murder of her first husband, Claude Cushing.

Mrs. Storick, a striking brunette, member of several lodges and prominent in Dowagiac society, is alleged by the prosecution to have murdered her husband by administering small daily doses of poison over a period of two weeks in order that she might be free to marry another man. Another motive advanced by the prosecution for the alleged murder is Cushing's insurance money, said to have amounted to about \$1,500. Mrs. Storick married her present husband Emory Storick, less than a month after her first husband's death.

"Well, let me tell you I could have had another man any time I pleased without going to the trouble of killing Claude Cushing, and his insurance only amounted to \$800 after the funeral expenses were paid. I wouldn't kill a dog for a measly \$800.

"All my trouble is due to Claude Cushing's mother and father. They are rich but old-fashioned. They wanted to make a drudge of me. They wanted me to work in their dairy, do housework and raise children so their name wouldn't die out. I gave them three grandchildren. They were not satisfied. They wanted to conquer my spirit, but they haven't yet and they never will. If I get out of here may God have mercy on them."

## SOUTHERN SHOPMEN PRESIDENT HARDING HAVE RETURNED TO VETOES BONUS BILL JOBS AT SPENCER AND GIVES REASONS

Strike on Southern Reported to be at An End Early This Morning

Spencer, Sept. 19.—The shopmen's strike on the Southern has ended.

The first shift of striking employees returned to duty in the shops at 6 o'clock this afternoon and the second shift at 11 o'clock tonight, while the regular shift is to return to their respective jobs Wednesday morning.

Southern officials in Spencer tonight stated that the former employees who have been on strike since July 1st "will be taken back strictly according to the Chicago agreement." The same official explained that most of the strikers, perhaps as many as ninety per cent of them, will be given their jobs within the next 24 hours and that all will be re-employed by the end of thirty days, in accordance with the Chicago plan.

He further explained that some of strike-breakers, as many as choose to remain in the service for the present, will be retained also, in accordance with the agreement. The number of strike-breakers to remain in Spencer is not known tonight, as hundreds are packing up preparatory to leaving for their homes or places of employment on the other roads.

The pickets which have been conspicuous around the shops for nearly three months were removed this afternoon and there have been no disturbances as between strikers and strike-breakers in making the changes in the shops tonight. Both sides appear to be living up to the Jewell plan that there shall be no prejudice between men in service and men returning to their former jobs. All of the sixty-odd foremen who have been on strike returned to duty this morning.

## HOUSE PASSES BONUS OVER PRESIDENTIAL VETO; SENATE TO ACT

Washington, Sept. 20.—The House this afternoon passed the bonus over the president's veto by a vote of 258 to 54. This is regarded as an empty gesture as the bill is expected to die in the senate.

Inform Congress in Message That He is Fully in Accord With Purpose

VOTE IN HOUSE AND SENATE ACTIONS MAY RESULT IN PASSAGE

Strong Possibility That Senate May Override Veto in Consideration Today

Washington, Sept. 19.—President Harding vetoed the soldier's bonus bill today, informing congress in a written message that while he was in accord with the "avowed purposes" of the measure, he did not subscribe to its provisions.

The executive action was regarded generally in Washington as making improbable a bonus for world war veterans, at least for some time to come, as it appeared almost certain that the veto would be sustained by the senate. A vote in the house—with passage probable—was planned for tomorrow with senate action to follow later in the day or Thursday.

Mr. Harding set forth a number of reasons for returning the bill to the house without his approval. These included:

Failure of congress to provide a means of financing.

That inevitably the bonus would mean increased taxation.

That the legislation would wipe out everything thus far accomplished to reduce government expenditures wherever possible.

That a peace bestowal on the ex-service men was "a perversion of public funds" and suggested "that future defense is to be inspired by compensation rather than consciousness of duty to flag and country."

That to add one-sixth of the total sum of the public debt for distribution among less than five millions of one hundred and ten millions people would undermine confidence on which the nation's credit was built and "establish the precedent of public funds whenever the proposal and the numbers affected make it seem politically appealing to do so."

That the ten billion dollars of maturing public debt in the next six years would be difficult to meet without adding the complication of added borrowings on account of a bonus.

That the adjusted service certificate plan of payment with its bank and government loan provisions was little less than a certified inability of the government to pay and "invited" a practice of acritical barter by the veterans.

That the bonus would not diminish the later obligation in the way of pensions to the world war veterans.

Asserting that this obligation would "cost more billions than I venture to suggest," the president declared that "a rational financial policy today is necessary to make the nation ready for the expenditure which is certain to be required in the coming years."

Mr. Harding also called attention to the sums now being expended for the care of the diseased, disabled or dependent, and asserted that the total cost of this work, with insurance liability added, probably would exceed \$25,000,000.

## CO-OPERATION BYWORD IN STONE QUARRY CITY; EVERYTHING AT "COST"

(By International News.)

South Amherst, Ohio, Sept.—Co-operation has supported the rivalry of local stone quarry companies with the result that the 500 citizens of this recently incorporated village are claiming it is the "most co-operative" municipality in Ohio.

The Cleveland Stone Company and the Ohio Quarries Company operate mammoth quarries here—in the world's sandstone centre.

Goods are sold at cost in a grocery and merchandizing store, an up-to-date playhouse entertains on Saturday nights and Sundays, being operated at cost, and a modern cigar store, poolroom and bowling alleys are being conducted "at a loss" by the company. All were established by the quarries companies, who their operation.

**STRIKE STILL DAMAGING.**

While the strike has been brought  
to an end on a number of roads of  
the country, there is still some mis-  
understanding existing on other lines.  
The shopmen are returning to work  
by the thousands, but still railroad  
service will be greatly impaired until  
all normal and shop work becomes  
normal.

Many of the fatal wrecks occur-  
ing of late can be charged to lack  
of repairs on engines and cars. The  
obstinacy of the strikers has not  
only cost the country millions of  
dollars, but has resulted in terrific  
loss of life and damage to property.

When the strike is ended the men  
involved should not forget the great  
loss which they sustained while idle.  
It should prove a lesson to them in  
every sense of the world and cause  
them to stick to their jobs until fully  
convinced there is reason for a walk-  
out. It would be much better to  
work at living wages than to strike  
for a few cents raise per day.

What the shopmen have already lost  
will go into millions and they will  
have to work many a day before  
this is made up by the advance.  
Many of them will probably return  
to their jobs at prices lower than  
they were working for at first. Then  
too the railroads may not have any  
use for their services after a time,  
and then somebody will be in a pre-  
dicament.

This is a great issue. In fact, one  
of the greatest the country has known  
for years, and it is impossible at this  
time to determine the full extent of  
the loss sustained on every side.

## SAFE CRACKER, 86, TO TRY IT AGAIN

Kansas City, Mo., Sept.—"I'm 86, but I'm not through opening safes yet."

Such is the proud boast of Harry Morton alias Mouldoon, aged crook, now in jail here.

Old man Morton admits he is the "oldest and best" safe cracker in the country.

It is a rather ironical fact that the man who is confident he can "crack any safe in the country" is doing time for forging several small checks.

"A man should stick to his own stuff," Morton said. "Why should an expert safe man like me monkey around with checks?"

Morton has done four "stretches" in penitentiaries. The first conviction came in 1876. About two months ago the aged criminal was released from his fourth prison term at the Leavenworth, Kan., Federal prison.

### QUEER LEGAL QUESTION OVER \$400 OVERDRAFT

Akron, O., Sept.—A knotty legal tangle that may go to the state supreme court before final determination is disclosed in the trial here of E. H. Cunningham, of Cuyahoga Falls, on charge of grand larceny.

The facts, according to the indictment upon which he will be tried are that Cunningham carried an account with the Ohio State Bank and Trust Company and that, upon inquiring his balance was told that it was \$414. He wrote a check and drew this amount. It is declared, however, that his actual balance was \$14.

## GREAT DEMAND FOR TANLAC DUE TO MERIT ALONE

**It's What the People Say  
About it That Causes Orders  
For Nearly a Million Bottles  
in One Month—Big Hunting-  
ton Druggist Elated**

The greatest test any medicine can undergo is the "repeat" sales it enjoys. Tanlac's phenomenal record has been possible because of the fact that men and women who buy one bottle invariably return for the second and recommend it to others because it has helped them.

To say that Tanlac now has the largest sale of any medicine of its kind does not begin to tell the story. No other preparation has ever approached the marvelous success of Tanlac, and in the eight years it has been on the market 30,000,000 bottles have been sold. Between June 15 and July 15 of this year orders were received for nearly one million bottles, and it is evident that dealers are still enthusiastic over the ever-increasing demand, by the tone of letters with orders.

A letter from the Huntington Drug Co., Huntington, W. Va., says: "We are pleased to state that for twelve months our sales of Tanlac amounted to 77,340 bottles. We do not hesitate to say we are highly satisfied, and believe Tanlac is the largest selling proprietary ever put on the market."

W. A. Hover & Co., large wholesale druggists of Denver, Colo., writing under date of July 17, state: "We are submitting today our order for the fourth carload of your goods since April 1. Taking into con-

sideration local conditions this demand is not only exceptional but alone in the record of sales for proprietary articles in this section."

The tremendous popularity of Tanlac is the unquestioned and outstanding proof of its merit. No medicine of less superlative quality and effectiveness could possibly attain such a huge sales record nor gain, as Tanlac has, the unqualified endorsements of thousands of well-known men and women in all parts of the continent who stand for the best in their communities.

Like all great successes Tanlac has its imitators, and although there are over a hundred preparations on the market claiming similar therapeutic value, many copying the original Tanlac advertising, the popularity of this preparation continues to grow, and it is unquestionably the most talked of medicine in the world today.

Tanlac is sold by all good druggists.

Wootton-Newton.  
(Reported for The Reflector.)

Simpson was the scene of a very quiet and simple wedding Tuesday a. m., when Miss Daisy Newton became bride of Mr. Walter Wootton, Jr. of Wendell, at the home of the bride's aunt, Mrs. J. B. Hardee. The ceremony was performed by the bride's pastor, Rev. E. T. Ippock and witnessed by only a few relatives and friends of the bride and groom.

The bride was attired in a navy blue traveling suit with accessories to match and carried a bouquet of bride's roses.

Immediately after the ceremony they left for an extended trip, after which they will be at home in Wendell.

The bride is the daughter of Mrs. W. J. Alligood, of Rosemary, but for the past four years she has made her home with her aunt, Mrs. J. B. Hardee. During which time she has won many friends by her charming personality.

The groom is the son of Mr. and Mrs. W. L. Wootton, Sr., of Wendell, N. C. He, too, is well known in Pitt county as he formerly lived here.

**RECEPTION TO BRIDAL PARTY AND BIRTHDAY SURPRISE TO BRIDE'S MOTHER**

On Tuesday evening from 8 to 10:30 p. m., a reception was given by Mr. and Mrs. James F. Dupree to the bridal party of their daughter, Mildred, who will become the bride of Mr. Ledyard E. Ross on Wednesday evening, Sept. 20th. After much amusement and joking a pink and white ice course was served carrying out the pink and white color scheme. Much merriment followed by cutting the bride's cake. Mr. Dempsey Stallings finding the ring, Miss Margaret Dupree the needle, Mr. Joe Stallings the thimble and dime and Banco Ross the button.

Immediately after leaving the dining hall the parties were called to the parlor where the bride's mother was given the seat of honor. Little Miss Mary Clyde Williams came in wearing a beautiful white organdie frock bringing a basket of packages presenting them to Mrs. Dupree, saying "This is something the mail carrier forgot to leave on the route today and I am bringing them back to you tonight."

Immediately following her came

Mrs. Dupree's baby son, Elmo, with another basket laden with presents saying, "Mamma have you forgotten that today is your 48th birthday, and handed her a pair of scissors, saying "Cut the strings and let the guest see what the mail man left. After cutting the strings she found many useful gifts. It was real fun to see how Mrs. Dupree took the surprise.

**MRS. JAMES FICKLEN CATCHES 45 LB. DRUM WHILE AT OCRACOKE**

Mrs. James Ficklen has returned from Ocracoke where she went a few days ago on a fishing trip with her father, Maj. E. W. Meyers, of Greensboro. Mrs. Ficklen reports a most enjoyable trip and the catch of a drum weighing 45 pounds. She made this splendid catch with a Von Hoff rod and reel, equipped with a six ounce tip and eighteen #2 thread line, while out in a boat with her father. Although the drum put up a stubborn fight, Mrs. Ficklen succeeded in landing it inside of thirty minutes. The catch was shipped to Greenville where today it was viewed with admiration by many friends of the fair captor.

**FOUR MARRIAGE LICENSES ISSUED SINCE YESTERDAY**

The following marriage licenses have been issued by the register of deeds since the report of yesterday afternoon: O. L. Stokes to Miss Lucy May Hardy, both of the Swift Creek section.

**Victor Quality Means The Highest Musical Standards**  
The supremacy of the Victrola among musical instruments is directly attributed to quality. The greatness of its artists, the perfection of its records, the faithfulness of its reproductions, the design and construction of the Victrola itself—all bespeak the highest quality and make the Victrola the supremely satisfying musical instrument.

**Pianos and Player Pianos**  
Volumes could be written about the various makes of Pianos and Player Pianos that we are exhibiting in our show rooms, but with the endorsement of the world's greatest musical artists which accompanies each instrument we feel enough has been said.

We represent the world's best musical manufacturers and below give you a partial list of our showing of Pianos and Player Pianos:  
Henry F. Miller, Ivers & Pond, Straube, Hammond, Haines Bros., Marshall & Wendell, Foster & Co. You should see the Wurlitzer Student Piano.

**Parents, Did You Know**  
There are thousands of young girls in our America far advanced in their general school work that have been deprived of the beginning of a musical education because of the neglect of their parents to give them what every young woman deserves—some knowledge of music. It is not too late. Visit our show rooms and select the Piano for that daughter now.

### FRENCH GO TO TOO MUCH TROUBLE TO KID ROAD DEPT.

Paris, Sept. 20.—A Frenchman will do almost anything to dramatize a joke.

Paris streets are being badly torn up this summer. Among other excavations is one exceptionally deep on the Boulevard Haussman, at the corner of the Rue Caumartin.

Two French Alpinists, who are incidentally newspaper writers, conceived the idea of going mountain climbing in this deep cleft, which they picturesquely dubbed "the gorge of Caumartin."

To conceive was to do. They obtained Alpine costumes, including inevitable feather, bound themselves together with a thick rope, seized Alpine stocks, and proceeded to climb down into the "gorge."

Amazed crowds gathered and, when they understood, hooted good naturedly. Nothing daunted the Alpinists, they continued to the very bottom, walked on the floor of the pit, and ascended triumphantly.

### AUTUMN STYLES TO COMPLY NOW WITH NATURES FALL TINTS

London, Sept. 20.—Autumnal styles will harmonize with the Autumn decorations of nature.

This is the edict of England's fashionable dressmakers, who are just opening their Fall fashion shows.

"The leading colors for the Autumn are all the shades of nature at this season," said Reville, the court dress maker.

A handful of Autumn leaves will give most of the new tones—russet, copper, ochre, flame color, orange, and a new shade of ochre that looks like plain leaves in the September sunshine will be most prominent.

There is also a quite new shade of blue that is something like an intense cornflower—a very rich color blending between pansy shades of blue and purple.

"The new line of fashion follows the line of the figure and 's, in my opinion, much more genuine than some recent fashions. There is nothing grotesque about it.

Waist lines are more normal—the new styles show no exaggerated waists right up under the arms or down towards the knees.

"Skirts are longer without being too long. Neither are they too short. A woman can study her individuality and style so far as the length of her skirt is concerned this Autumn, and dress to suit it.

"One thing is that the Autumn fashions demand a corseted figure.

"No well-dressed woman can do without corsets this season; they are essential to give the natural contour of the new waist."

Monkey fur is being used extensively as a trimming, while a popular style has a real basque of fur about the hips. The revival of the basque on coats is interesting.

Sleeves are in extremes, either being very much in evidence or non-existent. The mitten sleeve, which is long and tight-fitting and comes down well over the hand, is used on many coats and frocks and some afternoon gowns. There is a tendency to return to the old-time leg-of-mutton effect at the shoulder.

Many of the afternoon gowns are sleeveless. Apron tunics are popular.

Hats are for the most part small, the toques worn by Queen Mary having their effect in the showing of numerous close-fitting models.

Altogether the Autumnal styles in-

dicating a gradual return to the styles of the day when mi-lady was more modest than she has been wont to be in these post-war hectic days.

### FELT SO TIRED ALL THE TIME

#### Indiana Lady Says She Was Run Down, Suffered With Her Back, Took Cardui, and Got Well.

Richmond, Ind.—"I thought I would write a line, or so, to say that I owe my good health and strength to Cardui," says a letter from Mrs. Cora Courtney of 705 North Seventeenth street, this city.

"I was all run-down until my family thought they would lose me," writes Mrs. Courtney. "My husband coaxed me to take Cardui, so to please him, I did, and I will say I do not regret it, for I am able to do all my work and do my shopping."

"I have five children, four in school, my husband and a boarder to do for, and I do all my own work for all of us, and find time to play. We all praise Cardui. Every sick and run-down woman should take this wonderful medicine."

"I suffered with my back, a very weak feeling in my limbs."

"I felt hardly able to drag; just tired—so tired all the time."

"It was an effort for me to do anything, but Cardui helped me so I felt like a different woman."

If you are in a run-down physical condition, suffering as this Indiana lady says she did, give Cardui a fair trial. It should help you.

Cardui is a purely vegetable tonic medicine for women's ailments found valuable in thousands of such cases as described above. Take Cardui. Your druggist sells it.—Adv.

**LIVE STOCK THE KEY TO PERMANENTLY PROPEROUS** (By EDGAR W COOLEY)

Agricultural Extension Department International Harvester Company (Auspices Pitt County Chamber of Commerce.)

Live stock farming is diversified farming and calls for a system of crop rotation. It helps maintain fertility, increase the value of the crop reduces cost of transportation.

It means marketing the crops through live stock—selling the crops in the form of beef, pork and mutton, and saving the fertility in farm manure.

Live stock means more silos to preserve the green summer crops for winter feed. It means more legume crops—alfalfa, clovers, etc.

Live stock utilizes cheap roughage, such as corn stover, fodder and straw, which usually goes to waste. There are millions of dollars worth of feed wasted every year in the United States, which should be converted into meat or milk.

**Live Stock Saves Waste.** There is waste on every farm, and especially on grain farms where few cattle are kept.

Live stock distributes the labor on the farm; gives something to do every day in the year; gives employment to every member of the family.

Live stock promotes industry and cultivates ambition among the boys and girls on the farm. It is essential to the highest development of agricultural and country life.

**Pig Skins Best Grain Sacks.** Pig skins and steer hides are the best grain sacks a man can have on the farm. It is just as hard to keep a pig from making a hog of himself as it is to keep a cow from giving milk or a hen from laying eggs. The best receipt for continued success is to have something to sell every week in the year. We must make

our living secure. We must not depend entirely upon one crop. Live stock means better farms, better schools, better homes, better folks, better communities.

**Books in Library.** The following new books can be found in the public library: Children's books: Beautiful Joe, Heidi, Maps the Fairy, Cuckoo Cock, G.ri in 10,000; Dawn; Their Little Mother, Naughty Girl.
