## J. B. DUKE GIVES MILLION DOLLARS TO TRINITY FUND

**Tobacco Millionaire Donates Large Sum for Erection of New Buildings**

**GIVES \$1,000,000 TO ENDOWMENT FUND PROPOSED \$2,000,000**

**Methodist Institution Receives Largest Single Donation in History**

Durham, Sept. 28.—James B. Duke has again made large gifts to Trinity College. President Few announced today that Mr. Duke has given \$25,000 to the new gymnasium; that he will give \$50,000 towards a \$100,000 law building; that he will give \$50,000 towards a \$100,000 building for the new school of religious training; and in addition to these gifts he is adding \$1,000,000 to the endowment of the college.

These gifts are made by Mr. Duke as his part in the program for the immediate further development of the college. Which includes eight items, as follows:

1. Increasing the productive endowment of the college by not less than \$2,000,000. Mr. Duke gives \$1,000,000 of this and towards the second million some seven hundred thousand dollars has been pledged and it is expected that the remainder will be pledged before June 1 next.
2. The building up of an alumni revolving fund to at least \$50,000 or \$70,000 a year which would represent the income on more than a million dollars. More than forty thousand has already been pledged to this fund. It is expected that every former student of the college will contribute and get contributions from others to this fund. The completion of the new endowment fund and of the revolving fund is absolutely indispensable if the college is to care for any further increase of students. It is stated the number at present being 300 per cent more than a decade ago.

## GEORGIA DEMOCRATS PLAN TO NOMINATE WATSON SUCCESSOR

Atlanta, Sept. 29.—The Democratic committee will order a special primary for the purpose of nominating a successor to Senator Watson. The primary will be held not later than October 15. Judge Howard, of Columbus will be one of the candidates for the position while Herbert Clay, of Marietta, may also run.

## BUSINESS CONDITIONS IMPROVING IN SOUTH

Atlanta, Ga., Sept. 29.—Disappearing labor disturbances and increased prices of agricultural products are restoring normal business conditions throughout the country, according to a monthly review of the Federal Reserve bank. Farm crops are smaller than usual, but their value is greater.

## GEORGIA MAN KILLED IN AUTOMOBILE WRECK

Waynesboro, Ga., Sept. 29.—Geo. Upchurch was killed and Paul Lester injured when a heavy automobile driven by Upchurch collided with another light car driven by Warren Hersey. The latter was unhurt although his car was badly injured.

## TOURISTS KNOW LONDON BETTER THAN ENGLISH

London, Sept. 29.—"What should they know of London, who only London know?" "Kipling," says famous line needs altering," says the Daily Express. "There is only one person who knows his London. He is the American tourist."

The Express sent a reporter, who had lived all his life in London, out for a group of American tourists and the reporter came back full of information about his home town that he had acquired from the tourists.

## REVIVAL SERVICES DRAW INTEREST AT METHODIST CHURCH

**Sermons by Dr. Patterson Prove of Great Value to Large Congregations**

The series of revival services in progress at the Jarvis Memorial Methodist church are increasing in interest with each succeeding day and indications point to one of the most successful revivals in history of the church. Dr. Patterson is a preacher of great power and charm and his sermons are proving an inspiration to the great throngs crowding the church at every service.

The services last night were of a particularly interesting nature. Dr. Patterson spoke mainly on the subject of reversion, and gave a brief sketch of his own experience. This proved highly interesting and showed the different ways people are led to Christ.

This morning he spoke on the Ephesians, and will continue to use the same subject until every lesson has been exhausted. While the congregation at the morning service is not as large as the afternoon and night, the services nevertheless prove of great value and inspiration to those attending.

The afternoon services will be devoted almost exclusively to discussion of prayer by Dr. Patterson. These discussions have proven interesting and informative in every sense of the word and the congregation is manifesting much interest in them.

Singing led by Mr. Notestine has proven a great stimulus to the entire congregation and is one of the great features of the service.

## DOOKIE TEMPLE TO BE INSTITUTED AT ROCKY MOUNT

**New Temple Will Be Known as Ziza No. 248, According to Announcement**

The name of the new Dokie temple to be instituted at Rocky Mount will be Ziza No. 248, according to an announcement sent out by Imperial Prince Gus Mese, of Spokane, Washington, in response to the application for the temple's charter sent in recently by Dokie officials immediately after the Pythian celebration at Rocky Mount, September 14th.

In granting the establishment of the temple, the Imperial Prince named Earle McCausland, of Charleston, South Carolina, as instituting officer. No definite advice was given as to when the new temple will be instituted but from all reports it is believed this will occur within the next few months.

Ziza temple, according to members here, will be instituted with four hundred members, including new members and transfers. It will include in its jurisdiction all territory of the state east of Caswell, Alamance, Randolph, Moore, Lee and Scotland counties.

It is planned to make the institution of the temple a gala occasion which will rival that in which the securing of the temple was the culminating event. While no definite announcement has been made as to the divan, it is stated that R. S. McCain, of Henderson, will be named first Royal Zizier, or presiding officer of the temple. Mr. McCain is prominent in Pythian circles, being a past grand counselor and at present imperial representative.

## DAUGHTER SWATS DAD; HE OBTAINS WARRANT

Greenville, O., Sept. 29.—When his eighteen year old daughter, India, hit him on the hand with a hoe, Tom Brutley swore out a warrant for her arrest. India, however, left town before she could be made. Police were informed that the daughter wielded the garden implement during an argument arising from her father's objection to her going some place.

## Men Who Battled in Injunction Suit

Federal Judge Wilkerson, in Chicago, has granted what is called the most sweeping injunction ever signed in the plea of the government to restrain the striking railroad shopmen. Attorney-General Daugherty, with his assistants, shown in the top row, fought for the injunction, while the attorney in the lower row represented labor's interests.

## COUNTY FARMER MAKES MONEY IN POULTRY RAISING

**G. H. Roebuck Has 100 Hens That Produce 13,282 Eggs in Course of Year**

Mr. G. H. Roebuck, a hustling young farmer and business man, of Stokes, has made a good record with White Leghorn chickens. According to his statement he kept records on his flock from January 1st, to August 1st, 1922. He had 100 laying hens that he had produced on his own farm. From this 100 hens he got (thirteen thousand two hundred and eighty-two) 13,282 eggs, during this time.

Mr. Roebuck has capacity for hatching 1700 eggs at one time with his several incubators. He sold baby chicks one day old, at 16c each and could not begin to supply the demand. He returned more than \$300 in checks because he could not fill the orders. A great many eggs were sold for hatching purposes also.

For the eggs that he sold for eating purposes he received from five to ten cents per dozen more than market prices, because he shipped them to some of the hotels in Richmond, and Washington, and they knew that they were getting eggs that were guaranteed in every respect.

Mr. Roebuck is going to increase his flock to 200 laying hens, in 1923 and says that he will continue to increase them until he has a modern poultry farm of two thousand birds. He has been breeding White Leghorns five years and does not advise any farmer to go too heavy into the poultry business until he has grown into it by experience.

## REJECT DIVORCE ACTION AGAINST ANNA STILLMAN

Carmel, N. Y., Sept. 29.—Reference Gleason today filed a report rejecting the divorce action of James Stillman against Mrs. Anna Stillman. Mrs. Stillman had denied the legitimacy of her son Guy and also asked for a divorce.

## RAW COTTON EXPORTS SHOW BIG DECREASE

Washington, Sept. 29.—Raw cotton exports decreased substantially during the month of August compared with August last year. Exports for the eight months period ending in August are greater than the same period last year, the commerce department announced today.

The Chinese are believed to be the only civilized people free from color-blindness.

## PIGSKIN TOSSESS JOURNEY OVER TO KINSTON FOR FRAY

**Local High Machine in Fine Trim for Second Game of the Current Season**

Members of the Greenville high school football team left this afternoon for Kinston where they will engage in the second game of the season. The boys are in the best trim of the year and that they will put up a stubborn fight cannot be doubted in the slightest sense of the word.

Before leaving for Kinston Coach Duncan said he would take the squad over to Goldsboro tomorrow to attend the game between Carolina and Wake Forest. He believes they will win many fine points by watching the contest and is of the opinion it will inspire them to greater things.

The third game of the season will be played in Greenville next Friday when the Washington high school comes over to test out against the locals. Much interest is centered around this game as Washington has a formidable machine and is expected to put up a stubborn battle.

## GRIFFON RED CROSS PLAN O'POSUM HUNT

All members of the Junior Red Cross in Griffon are going on an o'possum hunt tonight. Healthy recreation is one of the main points stressed by the Junior Red Cross, and it is the desire of all interested in the work to make conditions so attractive in their own county that the young people will want to stay or come back after college and make it even a better community.

Arrangements for the hunt are being made by Miss Martha Cameron, Mrs. C. E. Gardner and Prof. W. G. Coakrane.

## ELECTRICITY GENERATED FROM MUSCLE SHOALS TO CITIES 600 MILES AWAY

Washington, Sept. 29.—Electricity generated at the government steam plant at Sheffield, Alabama which is one of the Muscle Shoals units is now being relayed by inter-communication systems to industries as far away as six hundred miles, Thomas Martin, vice-president of the Alabama Power Company said today. Several thousand miles of high voltage lines are in use, making the system the largest in the country.

Sure footing even under slippery conditions is the aim of a roughened metal plate that has been invented for trucking freight into or out of railroad cars.

## COAST LINE STILL DECLINES TO MEET STRIKING SHOPMEN

**Formal Request for Joint Conference Receives Little Attention of Officials**

Rocky Mount, Sept. 28.—The Coast Line Railway Company has declined a formal request from officials of the Coast Line system federation of shop crafts for a "joint conference between the management of the Atlantic Coast Line Railway Company and the executive committee of the Atlantic Coast Line system federation," according to an announcement received here late this afternoon from P. R. Albright, vice president and general manager at Wilmington, to whom the request for a conference was forwarded by C. R. Otterbourg, secretary-treasurer of the shopmen, yesterday.

Mr. Otterbourg's letter, which proposed a discussion looking to the end of the present shopmen's strike upon the basis of the Baltimore settlement plan, marked the first step that either side has taken to end the industrial controversy since it started July 1. The proposal for a conference was made to the railroad officials as follows:

"After having given careful consideration to every phase of the present controversy between the Atlantic Coast Line Railway Company and its employees connected with the present strike, and believing the differences can be reconciled through the peaceful method of direct negotiation by the officers of each individual road and the representatives of the employees thereon, if such negotiations are entered into by both parties to be the dispute with a spirit of conciliation and sincere purpose to effect a genuine settlement, I am, therefore, requesting a joint conference between the management of the Atlantic Coast Line Railway Company and the executive committee of the Atlantic Coast Line system federation, composed of the six general chairmen of the shop crafts, for the purpose of discussing a settlement of the shop crafts' strike on this road, using as a basis of settlement the memorandum of agreement.

## VENIZELOS SEEKS AID FROM FRANCE

Paris, Sept. 29.—Former Premier Venizelos of Greece is in Paris to seek the support of the allies in the Greek revolution, it was stated from official quarters today.

## HIGH COSTS HAMPER GERMAN RADIO FANS

Washington, Sept. 29.—What with the high cost of apparatus and rigid governmental restrictions the lot of the German radio amateur is indeed hard, according to reports from vice-consul Nathaniel B. Davis, at Berlin, on file at the Department of Commerce.

Amateur operators are few and far between, while radio telephony is almost an unknown science, except to engineers, research workers and professional operators.

The German Post Office Department which is in charge of all radio communications within the Republic, permits private companies and individuals to erect their own plants only on payment of a license fee. Ordinarily the department itself installs the plants; it also rents receiving sets for 2,500 marks per month.

There is only one licensed broadcasting station in Berlin at present, which sends out market and exchange quotations. Service charges range from 1,000 to 7,500 marks a month, to which must be added the cost of a Government license and the installation of a receiving set.

Although the domestic demand is light, numerous firms in and about Berlin manufacture radio apparatus. Curiously, vacuum tubes are "almost unavailable," according to Vice-Consul Davis, crystal detectors being used instead.

## TURKS OCCUPY ALMOST ENTIRE NEUTRAL ZONE AND INCREASE GRAVE SITUATION IN NEAR EAST WHERE CLIMAX APPROACHES

## FARMVILLE FIRM GIVEN JUDGMENT IN CIVIL COURT

**Oil and Fertilizer Company Awarded Judgment for \$600 Against Newton Smith**

After completing a long drawn out land controversy the civil term of Pitt county superior court yesterday afternoon got away to another good start on cases requiring little time to dispose of and the outlook for the remainder of the week is very bright. Judge Calvert is making an effort to clear the calendar of as many cases as possible and it is hoped progress will not be retarded again by lengthy controversies such as tackled the first part of the week.

The most important case disposed of yesterday afternoon was that of Farmville Oil and Fertilizer Company against Newton Smith, involving suit for \$600 in payment for seed of cotton which the plaintiffs claimed to have sold Smith. Judgment was rendered for the entire sum.

Sometime was consumed in the hearing of the divorce suit of Joe Forbes against Agnes Forbes, colored people was granted.

## AYDEN TO STAGE COMMUNITY FAIR DURING NOVEMBER

**Ayden Merchants Association Also Outlines Several Other Plans for Year**

Ayden, Sept. 29.—The Ayden Merchants Association held a meeting in the City Hall Tuesday evening, at which time the question of a Community Fair to be held here some time around the first of November was discussed. A committee composed of C. V. Cannon, W. H. Dixon and W. M. Edwards was appointed to investigate the advisability of such a project.

The boll weevil situation was discussed at some length. Dr. W. H. Dixon, who recently toured South Carolina and Georgia, giving some interesting information of crop diversification and other means of combatting the insect in that section of the country. He very forcibly impressed those present that it will be industrial suicide for the farmers and business men in this section of the state to consider raising cotton next year, as in his opinion at least half of the crop would be destroyed.

The question of what to raise as a money crop next year is receiving serious thought and consideration at this time and some definite plans will have to be worked out before the first of the year, according to the views of those present at the meeting.

It was decided that Mr. J. Paul Leonard, secretary of the North Carolina Merchants Association, be invited to visit the local organization the third Tuesday in October at which time a banquet will probably be given the members.

## BRITISH LAND TROOPS AT CONSTANTINOPLE

Constantinople, Sept. 29.—Reinforcements landed today from the British ships and marched through the principal streets of the city singing "O It's a Lovely War." They will strengthen the force guarding the neutral zone south of the city.

## Turks Massed About British Positions in Chanak Area Ready for Battle

**HARRINGTON ASKS KEMALISTS TO MEET HIM IMMEDIATELY**

**Reply From Turkish Commander Expected Momentarily in British Zone**

Constantinople, Sept. 28.—Events are approaching a climax. The Turks have occupied the entire neutral zone on the Asiatic side of the Dardanelles with the exception of the Chanak area, around which they have established infantry units in a semi-circle, virtually investing the British lines.

The Turkish cavalry squadrons are retiring and the British troops, who are in strong force at Chanak are ready for what may happen.

In these circumstances, General Harrington, the British commander-in-chief, has sent a wireless message to Kemal Pasha at Smyrna asking for an immediate personal meeting. He leaves the choice of place to Kemal, whose reply is expected momentarily.

Yusef Kemal Pasha, the Nationalist Foreign Minister, is understood to have gone to Angora to submit the Allied joint note to the Nationalist assembly, but in the meantime Turkish concentrations are being pushed with the greatest speed.

British reinforcements are reaching the base and in the threatened zone the super-torpedoed Revenge and Resolution, the most powerful battle ships afloat, have arrived in the Dardanelles, with a battalion of North Devon rifles and 1,000 men of the British air forces landed today and marched through Constantinople with bands playing. Their presence has helped to bring about a reassuring effect.

The Turkish instructions to the men in the Chanak sector are to advance the farthest possible without meeting resistance. They are now practically against the British entrenchments, and obviously the situation cannot be indefinitely prolonged.

Notwithstanding the Kemal concentrations around Chanak, however, the British are confident of holding their lines against odds. They declare that their flanks are well protected by the fleet. The battleships, with their 16-inch guns, can sweep the whole area around Chanak for a distance of twenty miles, and it is possible for the British to dismount some of their giant naval guns and use them for shore batteries.

## ARTIFICIAL SUNLIGHT USED IN LONDON ZOO

London, Sept. 29.—The animals of the London Zoo are the luckiest residents of London town. The fog season is coming on, but there will be no fog at the Zoo. In order that the lives of tropical beasts and birds and fish may not be endangered, artificial sunlight is being installed in the Zoo.

## CHILDREN EXHIBIT MUCH INTEREST IN THE "ANIMAL PAGE"

The Reflector's "animal page" is colored by city school children and are pouring in the office in great numbers now, and indications are that the contest for free tickets to the circus will be an interesting one. Children are urged to color their pages and get them to the Reflector office by Monday afternoon when the contest will close and judges will begin to pick out the winners. Children who haven't a copy of the paper containing the animal page may get same free of charge by applying to this office any time between now and Monday.

**The Toll of Eyes.**

The number of Americans blinded in the World War and recognized by the government as entitled to compensation was, according to latest statistics, 636. Three hundred and eleven are totally sightless and 325 partially blinded. Of the total, 242 were given training by the American Red Cross at Evergreen Institute, Baltimore, Md., up to December 31, 1921, when the institution was turned over to the Veterans' Bureau.

The statistics will be gratifying to Red Cross members as showing that more than one-third of the afflicted veterans received training through the Red Cross toward the end that they might, in some measure, become self-supporting. Many others would have benefited had their physical condition made it possible.

The facts are food for thought and for gratitude for the inspiration which materialized in the founding of Evergreen. In idealism and practical usefulness this work stands apart on the highest plane, and \$7,088 appropriated in the budget of the National Headquarters of the Red Cross for the current fiscal year, to supplement certain salaries, to finance recreational activities and to provide for the purchase of emer-

**Where Extra Service is Demanded Firestone Cords Predominate**

**WHEREVER** the exacting and tests of tires are most severe—there you will find Firestone Cords in universal use.

The hard jobs seek Firestone. And so well has Firestone responded under difficult conditions—so consistently has mileage mounted to totals impossible to obtain from ordinary tires that today Most Miles per Dollar is the buying slogan of thinking motorists everywhere.

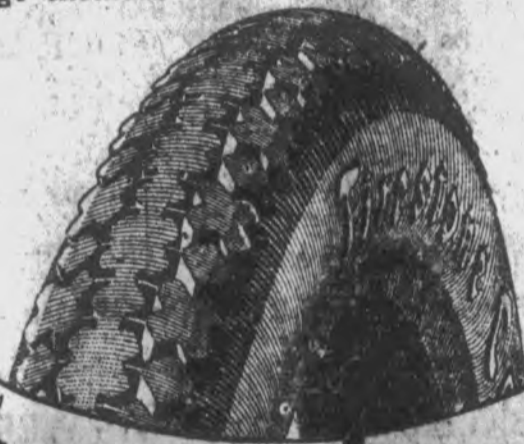

The blending and tempering of rubber, gum-dipped cord construction, air-bag cure—all these mileage methods have

been developed by men whose life work is the production of constantly increasing tire values for the public.

Users in this vicinity verify Firestone reputation, and report almost daily some new Firestone record of extra distance travelled.

Don't be satisfied to buy tires—buy values—the longest mileage at the lowest price consistent with such reliable performance.

Make Most Miles per Dollar your principle of tire economy—choose your next tire on that basis.

KEEP YOUR HOGS HEALTHY

Clean and Careful Feeding Essential in Successful Hog Raising

Here is a secret of successful hog raising practiced by many stock raisers and prosperous farmers. Don't feed your hogs sour or ill-smelling garbage. Ordinary garbage ferments, forming an acid which is injurious to the hog. Red Seal Lye will remove this acid and make the feed more wholesome. Swill which has been first sweetened with Red Seal Lye and fed to the hogs, will help make healthy, sturdy animals.

The swill should first be sweetened with Red Seal Lye. Take one tablespoonful of Red Seal Lye and dissolve it in a pint of water. Mix this solution thoroughly with sufficient feed for 10 hogs. One-half a can of Red Seal Lye dissolved in one quart of water will sweeten a 50-gallon barrel of swill. Feed twice daily, night and morning.

Make a strong solution of Red Seal Lye, sprinkle around your hog pens and wash out the feeding troughs. Use at least once a week. Be sure and get the old original, highest test, granulated Red Seal Lye. Accept no substitutes.

Cotton storage warehouses are springing up in all parts of the country at present and next year should see adequate storage room for the country's production. The warehouse plan of preserving the staple is being advocated in all communities, and it is certain deterioration will not be as great as in the past when farmers merely stored their crop wherever they could and let it go at that. The country will be saved thousands of dollars through bonded warehouse, and it is hoped this immediate action will be among those realizing a substantial saving.

Advisers from Washington are to the effect that pullman car rates will not be cut. The only thing administration is interested in is looking out for the rich and letting the poor man do the best he can. The railroads, however, will find it to their advantage to reduce rates within the next several months, or lose business. The construction of hard surfaced roads in this section of the country will do much to reduce traveling by rail, and if the roads do not provide some popular rate there will be numbers to resort to the automobile. That it will be a good idea cannot be questioned in the least. It will relieve the transportation monopoly enjoyed by the railroads for such a long time and learn them that the public will not put up with their exorbitant prices.

Dr. Beasley of Fountain says it would be wise for anyone to sell their Ford and buy a cow, if they are not able to get one otherwise, and persons who take his advice can be assured of better health of their children. Milk is today recognized as the greatest and most desirable food for growing children, and every farm should have it. In other words milk should be plentiful, within reach of every home with children, and to make this possible cows should be owned more extensively than at the present. The chamber of commerce is urging more cows and cows at this time when the section is confronted by ravages of the weevil and those who make it a point to take some of this timely advice will find themselves at easy street when others are actually experiencing hard times.

The Turks are apparently determined to do as they like despite decision of the allies and Greeks, and unless Great Britain steps in and takes a hand it is likely they will kill thousands of christians and plunder countless millions worth of property. It is truly a pity a civilized world has to endure such crime as the Turks have committed in the past and it is up to the more powerful nations to step in and save the helpless men and women from horrible torture. By gaining possession of strategic points the Turks will again become a world influence and this is exactly what Europe must avoid. No nation of people like Turkey can be of any possible value to the world, and instead of permitting them to stay and lay waste property allied nations should get busy and stop them. Something must be done and the sooner it is the better off Europe will be.

The housing and curing of sweet potatoes is receiving wide attention in many sections of the state at this time, and it is more than probable that next year will find growers in much better shape for handling the crop. Sweet potato growing can be made a valuable industry, but it is highly important that the matter of preservation be given proper attention. At this time many communities are planning the erection of storage warehouses, and when they are built the annual loss will be greatly decreased. This section alone loses hundreds of dollars every year as result of rotten potatoes, and should this be eliminated the industry will be a lucrative one indeed. Housing and curing are two important factors connected with successful cultivation of the plant and the farmer that gives them his attention will be the one to come out with colors flying.

We wish to congratulate those responsible for the installation of the six white way lights on Dickinson avenue, between Five Points and the Cam White buildings. This can be made one of the most attractive streets in the city at night by extension of the white way system such as that on Evans and Fifth street. Property owners so far have refused to pay the proportionate part of the expense that would be incurred in extending the lights to Dickinson avenue, but it is hoped they will eventually realize the advantage of better lights. They not only make things show up better at night, but go to increase the value of the property. All business parts of the city should be brilliantly illuminated and it is to the best interests of the business men to provide funds to make this possible. We trust those who refused to consider the matter will give it further thought and use their influence in behalf of the extension.

Confederate veterans in annual reunion at Asheville adopted a resolution censuring the railroads for not reducing rates to the annual gathering of the old warriors of the civil war at Asheville. That they were right in taking this step cannot be questioned. This could have been done without the roads suffering financially, or otherwise, and shows a lack of appreciation seldom in evidence. These old warriors who played such

an important part in the reconstruction of the south won't be with us many more years, and it is the duty of every person to show them every thought and courtesy possible while they are with us. They have gone through many vicissitudes and transmutations since the end of the war between the states, and if it is possible for anyone to make their lives more cheerful and easy, it is their duty to do so. We regret the railroads did not make arrangements for the reduced rates this year, and hope they will not let the occasion pass again without doing so.

**NOTICE—SALE OF LAND UNDER MORTGAGE.**  
By virtue of the power of sale contained in that certain mortgage made and executed by Richard Teal to W. B. Brown for purchase money

on the 27th day of May, 1921, which said mortgage is of record in Book U-13, page 190 of the public registry of Pitt county, default having been made in the payment thereof, according to its tenor, the undersigned will offer at public sale at the court house door in Greenville on Monday the 23d day of October, 1922, at twelve o'clock noon at auction to the highest bidder for cash, the following described tract or lot of land, to wit:  
Being a town lot in the town of Greenville Mt. county, in Skinner's Ravine, beginning on Third street at K. W. Cobb's corner, then running north to the cemetery line; then west 50 feet to W. B. Brown's line; then South with said line to Third street; then with said street east 50 feet to the beginning.

Terms of Sale: CASH.  
This the 23th day of September, 1922.

The Altar Guild of the Episcopal church will have a cake sale at 9:30 Saturday morning in the lobby of the Princeton Hotel. 28 2t

**Tomlinson-Chapman.** Grifton, N. C., Sept. 27—A marriage of much interest to their many friends was solemnized today, at high noon, at the handsome home of Mr. and Mrs. L. J. Chapman, when their daughter Lillian, became the bride of Mr. George W. Tomlinson, of Wilson.

The entire home was decorated with palms, ferns and flowers, and softly lighted with candles. The balustrade posts and standards were

attractively wreathed in ivy and evergreens. The parlor was especially attractive in its decorations. The guests were welcomed by the parents of the bride, Mr. and Mrs. L. J. Chapman, and Mrs. Jack Chapman.

Mrs. Ada Gray Dixon Proctor of Greenville sang a group of Old English songs previous to the reading of the ceremony, accompanied by Miss Ivy May Smith, director of the school of music of Atlantic Christian College. To the beautiful strains of the Lohengrin wedding music, the bridal party descended the long winding stairs into the parlor, Rev. Perry C. Case, pastor of the Christian church of Grifton, and professor of Religious Education of Atlantic Christian College preceding. Then followed Mrs. J. L. Williams, Matron of honor, and a sister of the bride, who was truly handsome in a lovely gown of black chinchilla satin with velvet embroidery, and a large picture hat, carrying yellow chrysanthemus, tied with rainbow tulle.

Next came little Miss Gladys Charles niece of the bride, dainty in a frock of yellow tulle, bearing the ring in a large white lily.

The bride was attended by her youngest sister, Miss Marie Chapman as maid of honor, who was charming in a gown of German blue canton satin crepe with a smart black picture hat, and carrying chrysanthemums tied with blue tulle. They were met in the hall by the groom and his brother, Mr. J. L. Tomlinson, as best man, where they proceeded to an improvised altar of palms and ferns, with cathedral candles. In the background there were flowers forming the letters "C. T."

During the ceremony, Miss Smith played softly "To a Wild Rose," by MacDowell. For a recessional, she played the Mendelssohn Wedding music.

The bride was lovely in a gown of amber imported chiffon embossed velvet, made low, and wearing an ex-

quisite creation of a picture hat, with trimmings of amber, and carrying a shower bouquet of bride's roses and lilies of the valley.

After congratulations, Mr. and Mrs. Tomlinson left amidst showers of rice, and motored to Rocky Mount where they took the train for an extended trip north. The bride's going away dress was of midnight blue French poret twill, with all accessories to match.

Mrs. Tomlinson is one of the most attractive and accomplished young women of Pitt county. She is a graduate in piano of Atlantic Christian College, also holds the degree of Bachelor of music. She was assistant teacher of piano in that institution for several years.

Mr. Tomlinson is the youngest son of Mr. and Mrs. W. H. Tomlinson, prominent citizens of Lucama, N. C. He is a graduate of U. N. C. also in law, and a young man of many friends in Wilson county.

Many beautiful presents attest the wide friendship of the young couple. Upon their return, they will reside in Wilson, where Mr. Tomlinson is practicing law.

**CO-ED STYLE**  
Number 188

Price ..... \$35

There is a certain Oriental charm about this afternoon frock of cañon crepe that makes it very soft and becoming. The wide belted waist line is a feature responsible for this. The entire front of the waist is pin tucked from top to bottom. The sleeves and girdle are trimmed with insertions of fancy faggotting. A cascade drapery is added to the skirt. Two novelty plaques trim the crushed girdle.

Many new styles are arriving daily. Our dresses are not expensive; they only look it.

## Notice To Tobacco Growers! Read This Letter on the Pool Contract

A. R. JOHNSON DAN C. JONES  
**JOHNSON & JONES**  
Attorneys and Counsellors at Law  
IRONTON, OHIO, Sept. 6, 1922.

MR. GRAYSON D. THORNTON, HUNTINGTON, W. Va.,  
Dear Mr. Thornton:

Answering your inquiry concerning the contract and situation of The Burley Tobacco Growers Co-operative Association, beg to state that **THE CONTRACT IS A ONE-SIDED ONE.**

The tobacco growers promise nothing other than to handle the tobacco as the officers of this Association desire. It is designated as First Party yet doesn't sign the contract at all; Association makes rules, provides inspectors, or graders, takes all tobacco as its own, sells all tobacco and pays to grower the net proceeds after deducting all operating and overhead expenses, this includes Freight, insurance and interest upon the money paid the grower. Cost of maintaining the Association, handling the tobacco, etc., all within the **DISCRETION** of the Association.

It is noticeable that the Association does not make a single promise other than to use its **DISCRETION.** There is no stipulation, as to whom the grower is to trust, what person or persons, How are the persons selected to operate the tobacco Association, what are the salaries to be drawn by the officers, where are the graders to come from? Remember the inspection and action of the Association is conclusively against the grower.

It is a one-sided arbitrary contract and one without any limitation upon the officers of this Association. The grower is absolutely at the mercy of these officers.

Such a contract is a violative of not only the common law of our several states, but expressly violates the West Virginia trust Law as decreed by your Supreme Court, and violates the trust Law of the State of Ohio, being sections 6390 to 6402 of the Ohio code. It seeks to limit the production of tobacco in Ohio. It is also clearly violative of paragraph 5 of section 6391.

Under the Ohio Laws it is a void contract, if a contract at all, by reason of not having been signed nor accepted by the B. T. G. Co. op. Ass'n.

I refer to the above contract to show that the grower parts with his property with a naked promise that he will get something—In **THE DISCRETION OF THE HANDLERS OF HIS TOBACCO**—out of it, No limitation on expense or anything of the sort.

This Tobacco Association could borrow \$10,000,000 or any amount, if it could find a lender and every grower being a partner in the transaction subjects **HIS OR HER PROPERTY TO THE PAYMENT OF EVERY DOLLAR OF THIS INDEBTEDNESS** for the reason that the creditor of a partnership's can look to every partner for the repayment of the partnership's obligations, the laws of the respective states where this arrangement is made governs the transaction.

It is not interstate commerce, nor is it an incident to interstate commerce, and the Capper-Volstead Act does not apply to such an arrangement as the agreement you have submitted to me. Such a contract, in my opinion, is a good one to keep FAR away from, to not sign, or enter into, as you part with your property without any consideration, other than what the Association chooses to give you in the future.

Their choice is the limit of your recovery, Their wish and judgment disposes of your property whether it is best or not. The officers of the Association cannot lose, But;

**THE GROWER CAN NOT ONLY LOSE HIS CROP, BUT IS SUBJECT TO ANY LIABILITIES CREATED BY THE ASSOCIATION.**

Very respectfully,  
Signed—A. R. JOHNSON.

ARJ—C.

The above letter is an exact copy of the original written by Mr. Johnson, nothing has been added, a few detailed explanations were omitted for lack of space only.

Mr. A. R. Johnson and three other lawyers from West Virginia made a careful study of the Pools contract and the above is their written conclusions. These gentlemen are old practicing attorneys and stand at the head of their profession and are the most capable and proficient lawyers I know, and their opinions are as near correct as it is humanly possible to secure.

It is plain to be seen that they consider the contract as **NOT BINDING**, that it is contrary to law, and therefore illegal, and a signer of same is not a member, unless he delivers to the pool his crop or a portion of same, and enters into it. If you have signed a contract, simply pay no attention to it, even as though you had not signed it, and sell your crop anywhere you wish.

I now serve notice that I will sell any and all tobacco brought to me to sell, regardless of the pool. Do not let them bluff you by threatening to sue you, large numbers have refused to deliver their tobacco and not one case have they tried in court.

Huntington market opens December 5th, Hurricane December 6th, Gallipolis December 7th.

**GRAYSON D. THORNTON**

Spanish Monarchs to Visit America

King and Queen of Spain

While attending a ball at Biarritz, France, Queen Victoria of Spain told Mrs. Drexel that she and King Alfonso expected to visit America next year. Mrs. Drexel immediately placed her villa at Newport at the disposal.

THE VALUE OF MILK FROM THE STANDPOINT OF ITS FOOD VALUE

(Auspices Chamber of Commerce.) In considering the value of milk from the standpoint of its food value, let us refer briefly to those foods which arise from the animal kingdom, as containing a greater proportion of plastic, with a considerable amount of respiratory food; and as being well adapted to our needs. In the class of animal foods, let us consider briefly meats, milk, butter, cheese and eggs. As a general thing animal foods are readily digested being products of previous digestion of vegetable matter, and therefore, much more concentrated and nitrogenous. This is the only way that the crude vegetable products of the soil as the grasses, etc., can be made available to us for food. The vegetable matter of God's green earth comes to us as meat food products in a second process way, as it were, it having

yet hopeful, reach out for the last draught of milk and quietly fold their arms, awaiting their coronation in Paradise Milk is the ideal food. Milk contains all the elements necessary for healthy nutrition during the early period of life. It is atypical food. Milk is the best food for the human infant as well as for the young for all mammals. Milk is composed of a clear fluid, having floating in it a myriad of little globules of fat. On standing the fat comes to the surface. We call it cream. The clear substance in which fat is suspended contains in solution casein or cheese, a sugar peculiar to milk, called milk-sugar and a variety of salts. Milk as a food product has a value far beyond our imagination and comprehension. It is to the human economy what the river Nile is to Egypt, the bread of life, and the staff of life. In a short paper on the value of milk from the standpoint of food value, it is useless for me to attempt to go into the manifold uses of the article. And in clos-

ing I only want to say that here in young or new America with its immense area and scanty population as compared to old countries, we little realize its value.

In Europe, a cow to a family is considered a matter of greater importance than a dining table or cook stove. And families not able to have a cow or within sufficient ground space to keep a cow, use goats. That is especially true in case of families living in the foot hills of the Alps and with people living among the crags and peaks of the wonderfully beautiful and picturesque island of Malta. Many Maltese families can keep a goat that could not keep a cow because a goat can graze while hanging upon the crags, when a cow could hardly look up from the ground. Every Maltese family has a fine goat, and the milk giving capacity of the goat is beyond our belief.

In Malta and other regions of the old country the people know the value of milk and they always have it. A family could hardly hope to exist without milk.

Eat Again Like A Hungry Child

The work of the stomach is to extract the life-giving properties from the food you eat, and these properties are distributed through the body by the blood. If the stomach does not perform this work, as Nature intended, the blood suffers and the entire system becomes affected.

The eight different ingredients in TANLAC, the wonderful stomach medicine and system purifier, are so blended that they readily assist the stomach in performing its natural function. Its corrective action will make you eat again like a hungry child.

TANLAC is highly recommended by all leading druggists.

BOY SCOUTS HONOR THEIR CHIEF

At a recent conference of Boy Scout executives in Blue Ridge, N. C., Daniel Carter Beard, National commissioner and chairman of his court of honor, was presented by James E. West, chief scout representing all the other executives, with a gold Eagle Badge, the highest award in scouting. About 5,000 boys have won the badge in the past ten years, but "Uncle Dan" has the only solid gold one.

FOUR DEEDS OF TRANSFER FILED SINCE YESTERDAY

The following deeds of transfer have been filed in the office of the register of deeds for registration since the report of yesterday afternoon: F. E. Tripp and wife to L. A. Stroud, et al., consideration \$500; Beatrice Dongle to Nannie Mazingo, consideration \$10; Roland Casey to W. W. Dawson, consideration \$500; J. E. Lang and wife to J. F. Hart, consideration \$3,000.

ONE MARRIAGE LICENSE ISSUED SINCE THURSDAY

Only one marriage license has been issued by the register of deeds since the report of yesterday afternoon that being to Charlie Harris and Jimmie Tucker, colored, of the Greenville community.

THE LINE OF A WOMAN'S BACK

ONE OF THE LOVELIEST OF HER FIGURE—IF HER CORSET IS DEPENDABLE

So often that beautiful line is marred by wearing the wrong corset. The Modart has two features particularly in its favor in this respect.

There are no lacings in the back to vary the smoothness and because of the resilience of the stays the natural beauty of the line is retained. And a Woman Loves to Wear Garments That Are Beautiful. That is Another Truly Feminine Reason Why She Chooses a Modart.

MODART CORSETS  
Front Laced  
C. HEBER FORBES

Announcement

To our many friends and customers:

On and after October the 1st, 1922, we will discontinue selling any goods at all, only for cash on delivery.

To everybody:

We have to pay cash for most of our goods when received. The narrow margin they are being sold at now makes it necessary for us to get the cash. We will continue to deliver goods anywhere in town when paid for at our place, or when delivered.

Thanking one and all for past favors and patronage, we beg to remain

Yours truly

S. E. Gates & Co.

From Kidney Trouble to Dropsy is Next Step

UNCLE BEN SAYS:

"When you cross a crowded street, Nevvy, don't try to light your pipe with one eye, and keep the other on a pretty girl, ef you expect to reach the other side."

Chiropractic is the simple and sensible road to HEALTH. When you are advised to have your tonsils removed try Chiropractic. Surgery is painful, expensive and dangerous.

Don't dread the winter. Keep your spine straight then you need not fear COLDS. Chiropractic will make you fit and keep you fit.

Neglected colds often lead to something serious such as PNEUMONIA or INFLUENZA. Take it in time. Ask your Chiropractor to give you a Spinal Analysis and when he has located the cause he will adjust it. The cold will then disappear according to its severity or length of time you have been bothered with it. Give the adjustments plenty of time. You can't expect to get well in a minute if you have been a long time sick.

Dropsy is listed as among the incurable diseases, but in most such cases, Chiropractic is successful, particularly is this true when the case is taken before the condition becomes too far advanced. In dropsy there is under elimination of the fluid wastes of the body, and though other organs may be involved the principle cause always is kidney weakness.

The cause of this under elimination of fluid wastes of course, is weakened mental impulses over spinal nerve lines, due to displacement of spinal bones. Where there is displacement of spinal joints there is narrowing of the spinal nerve opening. The spinal nerves emitting through this opening are pinched, and the normal flow of mental impulses over these nerve lines is imbedded. When the organs affected are the liver and kidneys there is under elimination, and a gradual poisoning of the system results. Chiropractic spinal adjustments are necessary to restore the perfect mechanical condition of the spine, and thus remove the cause of disease.

When your system is already overcrowded with poisons why add more poison by taking inoculations such as serums and the like? Inoculations invariably make you worse. If you doubt this, try it and see for yourself. Chiropractic is the best anti-toxin that you can take.

If you have ASTHMA, CONSTIPATION, KIDNEY or LIVER TROUBLE, BRONCHITIS, NEURALGIA OR RHEUMATISM you must adjust the cause before you can get relief. That is what the Chiropractor does. The Chiropractor can and will help you get well.

A man was cranking his automobile. Leaning forward to lift forcibly, he experienced a 'crick' in his back, followed by pain extending far down the back of the leg, which was called by medical doctors "sciatica." After a week or two of continual suffering from his "sciatica" the man consulted a Chiropractor, who recognized the signs, adjusted the subluxation and gave him immediate relief. Chiropractic is good for you and yours. Break away from old-fashioned ideas and find out what it will do for you.

**HEALTH FOLLOWS**  
CHIROPRACTIC CORRECTS PRESSURE ON SPINAL NERVES IN DISEASES OF THE FOLLOWING ORGANS:

- HEAD
- EYES
- EARS
- NOSE
- THROAT
- ARMS
- HEART
- LUNGS
- LIVER
- STOMACH
- PANCREAS
- SPLEEN
- KIDNEYS
- BOWELS
- APPENDIX
- BLADDER

Spinal Column - LOWER LIMBS

THE LOWER NERVE UNDER THE MAGNIFYING GLASS IS PINCHED BY A MISALIGNED JOINT. PINCHED NERVES CANNOT TRANSMIT HEALTHFUL IMPULSES. CHIROPRACTIC ADJUSTING REMOVES THE PRESSURE. THE UPPER NERVE IS FREE AS NATURE INTENDS.

DROPSICAL CONDITION GOES AFTER ADJUSTMENTS

"This is to certify that for two years I suffered from chronic appendicitis and kidney trouble until I was in a dropsical condition. I then turned to Chiropractic and during a course of twenty adjustments, I cannot recommend Chiropractic adjustments were continued and today I am feeling better in every way. The appendicitis has not troubled me since the first adjustment. I can't recommend Chiropractic too highly to those who may be sufferers such as I was."—C. N. Welch, Chiropractic Research Bureau, Statement No. 1341-W.
