BRITISH DEMAND TURKS TO LEAVE NEUTRAL SECTION

Ultimatum Sent to Kemal Pasha Demanding Him to Quit Territory at Once

TURKISH INVASION VIEWED AS DEFIANCE OF ALLIED NATIONS

Not Satisfied With Kemal's Promise to Advance no Further in Country

London, Sept. 29.—The events of the next few days probably will be largely influenced by the outcome of the meeting which M. Franklin-Bouillon, the French envoy sent by the Paris government to Asiatic Turkey, has just had with Mustapha Kemal Pasha, the Turkish Nationalist leader.

The policy the British authorities have pursued in the face of the continued occupation by the Kemalists of the region in the vicinity of Chanak is believed in London to have been due partly to the absence of definite information as to how far Great Britain could depend on French and Italian support in the event of hostilities with the Kemalists.

Reports from Constantinople are to the effect that Mustapha Kemal is in favor of peace; but on the other hand the French and Italian generals in the Turkish capital express the opinion that the British ought to withdraw from Chanak and confine themselves to the European side of the Gallipoli Peninsula.

It is expected that the meeting between Franklin-Bouillon and Mustapha Kemal will make the actual situation clearer. The situation as revealed here today following an important cabinet meeting appeared to be that the British government had arrived nearly at the end of its patience.

What is said to have been virtually an ultimatum demanding that the Turkish troops quit the Chanak zone has been sent to Mustapha Kemal Pasha, and after the Cabinet meeting it was said that Brigadier General Harrington had been informed he would have the full support of the government in taking whatever steps he considered advisable to bring the Turkish occupation of the forbidden zone to an end and thus terminate the grave situation, which was considered nothing less than Turkish defiance to the British empire and in direct contravention of the terms of the Allied note.

GREEKS KILL TURKS WHO ENTER VILLAGE IN THRACE DISTRICT

Athens, Sept. 30.—Turkish irregulars in Thrace have violated the neutral zone north of Constantinople by occupying a village where they massacred eleven Greeks and cut post-holders, the Greek commander reported today. The Greeks delivered a counter attack and drove the Turks from the village, killing 26. This was the first actual fighting reported.

POULIN ADJUDGED NOT TO BE FATHER OF TIERNAN BABY

South Bend, Ind., Sept. 30.—Harry Poulin was today adjudged to be the father of Mrs. Augusta Tiernan's baby born last November. The decision that Poulin was not guilty was made distinct, but it was asserted that he had had intimate relations with Mrs. Tiernan.

TOBACCO MARKET STILL MAINTAINS HIGH PRICE LEVEL

Market Again Makes Noticeable Advance Over Previous Week's Sales

FARMERS ELATED OVER CONDITIONS PREVAILING HERE

Market Sells 1,504,938 Pounds for \$469,868.27, at Average of \$31.22

The Greenville tobacco market continues to maintain high price levels. This was especially so the past week when the market made an advance of about four dollars per hundred pounds over the previous week.

According to an official report of sales made public this morning by W. T. Bost, supervisor of sales, the market this week sold 1,504,938 pounds for \$469,868.27, making an average of \$31.22 per hundred pounds.

SPLENDID MUSICAL PLAY TO APPEAR IN CITY OCTOBER 6TH

"The Girl from Greenwich Village" to Appear at White's Theatre

"The Girl from Greenwich Village" is the rather inviting title of a brand new musical play which is scheduled to appear at White's Theater, Friday, October 6th. This new concoction of mirth and melody is from the prolific pen of John P. Mulgrew and has been a huge success wherever it has played.

AGED MAN TAKES LIFE AS RESULT OF DESPONDENCY

James Perry Shoots Himself With Revolver at Home in Cotton Mill District

James Perry, aged resident of the cotton mill district of this city, committed suicide yesterday afternoon by shooting himself through the abdomen with a 32 calibre revolver.

The body was shipped to Zebulon this afternoon and will be taken to Franklin county for burial.

SUPERIOR COURT BROUGHT TO END HERE YESTERDAY

Last Day Featured by Motions and Hearing of Injunction Proceedings

The civil term of Pitt county superior court, which convened in this city last Monday morning with Judge Thomas H. Calvert, of Raleigh, presiding, was brought to an end yesterday afternoon after clearing the calendar of a number of cases of considerable length and importance.

Judge Calvert did everything possible to expedite activities, and succeeded in an interesting way. He received hearty co-operation from members of the bar and officials of the court and this played an important part in the week's success.

MOB SEEKS NEGRO FOR KILLING WHITE MAN NEAR KINSTON

Jim Miller Makpa Escapes After Brutally Murdering John Sutton

SURROUNDING WOODS AND ROADS SCoured THROUGHOUT NIGHT

Hundreds Join in Search in Hope of Bringing Culprit to Justice

Kinston, Sept. 30.—At 1 o'clock this morning Jim Miller, negro murderer, who is being sought by upwards of a thousand citizens in the lowlands just south of here, had not been apprehended.

John Sutton, 43 years old and prominent farmer living two or three miles from Kinston on the Whittington road, was shot and instantly killed at 7 o'clock last night by Jim Miller, Kinston negro, on the Pink Hill highway.

Details of the crime are revolting. The murder was in cold blood, from all evidence that could be learned.

The father of Mr. Sutton, R. I. Sutton, who lives almost directly in front of his son in the country, was informed by a neighbor that someone was stealing corn again from John Sutton's field, and the elder Mr. Sutton telephoned his son of the fact.

During next week the afternoon services will be devoted entirely to Mr. Patterson's experiences in China. On Monday afternoon the subject will be a detective story.

The singing under the direction of Mr. Notestine is an outstanding feature of each service and his singing is thoroughly enjoyed by the large crowds attending the services.

THREE O'POSSUMS BAGGED BY GRIFTON JUNIOR RED CROSS

Saturday, September 30, 1922

James B. Duke, North Carolina  
millionaire tobaccoist, has donated  
a million dollars to Trinity College  
for the purpose of assisting in the  
great building program contemplated  
by the greatest Methodist institution  
in the state. The gift of a million  
dollars is something any institution  
in the country would prize, it mat-  
ters not how great, and Trinity col-  
lege should be able to take first rank  
among educational places in the  
country. The generosity of Mr. Duke  
is the kind that goes to develop all  
great states. It is one of the ways  
every branch of industry is extended  
and by which even the poor receive  
direct benefit. Mr. Duke has done  
much for the development of his state,  
but it is possible this is one of his  
greatest he has ever made.

Homer Ferguson, president of the  
Newport News Shipbuilding Company  
who recently spoke before the cham-  
ber of commerce in Raleigh, said the  
United States must continue building  
ships or use the art during the ten  
year naval holiday decided on by  
the Arms conference. That there is  
something in what he says is easily  
assumed, and those who have been  
so free with their praise of suspen-  
sion of ship building should give the  
matter more serious consideration be-  
fore going any further. America  
must keep her rightful place in world  
trade, but unless we continue to build  
ships how in the world can we do  
so. It may be well to reduce building  
operations to an extent, but as Mr.  
Ferguson says it would be much bet-  
ter to build than lose the art. This  
is sound advice that may be more  
convincing as time changes.

That poultry raising is profitable  
was set forth in an interesting way  
in an article in yesterday's edition  
of this paper, telling of what had been  
accomplished by an ambitious young  
farmer of the county. He started to  
raising chickens on a comparatively  
small scale and today has a small  
farm that is yielding him profit as  
regularly as day dawns. He doesn't  
mean to stop where he is either. In  
fact, he intends to increase the num-  
ber of hens until he can supply the  
demand of his customers. This de-  
mand is so great he can't begin to fill  
it, and consequently preparations are  
being made whereby he can take  
advantage of the opportunity to make  
money. Poultry raising can be made  
very lucrative by any farmer with  
proper initiative, and those who un-  
dertake it and profit by their experi-  
ence will come out with colors fly-  
ing.

Dickinson avenue property owners  
shouldn't fail to take advantage of  
the proposal to extend the white way  
system from Five Points to the A.  
C. L. Depot. This is one of the prin-  
cipal business sections of the city and  
visitors would be more directly im-  
pressed with the everything if the  
street were brilliantly illuminated at  
night. Good light, such as the white  
way affords, is absolutely necessary  
on any street as congested with traf-  
fic as Dickinson avenue and it is the  
duty of the property owners to co-  
operate with the town in its effort to  
extend the system. Evans and Fifth  
streets present a splendid appearance  
since establishment of the white way,  
and there isn't a single property  
owner who would go back to the old  
way of lighting. They have been  
sufficiently impressed with the value  
of well lighted streets and have no  
reason to desire anything better than  
what they have. Dickinson avenue  
could not take a more progressive  
step and it is the simple duty of  
property owners to get busy and see  
what they can do towards making the  
system possible.

Republican administration circles  
are letting out shouts of joy as re-  
sult of the victory of Senator Fre-  
linghuysen in New Jersey and appear  
to be getting much comfort regard-  
less of the way the vote has been go-  
ing in other sections. It is probably  
well for them to let the best out of  
present victories as the best out of

ing when there will be moaning,  
groaning and gnashing of teeth. The  
Democrats are probably more firmly  
entrenched in the public mind today  
than since the Republicans gained  
power, and when election day rolls  
around it would be surprising if vic-  
tory doesn't fall their way. The Re-  
publicans claim to have accomplish-  
ed much in the short time they have  
been in office. Just where they find  
room for such claims cannot be un-  
derstood at this time, but maybe they  
will make things plainer as election  
day draws nearer. Many things have  
occurred recently that have proven  
very disappointing to the public, and  
when the chance comes for an ex-  
pression of opinion things will change  
with greater suddenness than the day  
when the Republicans swung into  
power. Prosperity was greater dur-  
ing Democratic administration than  
it has been since and as this is what  
people want today they will do the  
best they can to bring back condi-  
tions that caused it.

Some way to stop the speeding on  
hard surfaced roads of the county  
must be found as soon as possible or  
the loss of life and property will as-  
sume greater proportions than at  
present. There are many drivers in  
the county with little regard for the  
law, and as long as they are per-  
mitted to speed they will do so. The  
commissioners can certainly devise  
some means of reducing speeding.  
This can be done at small cost and  
what a service it would be to hu-  
manity. The state highway commis-  
sion no doubt would be glad to co-  
operate with a county organization in  
some effective way to cut down speed-  
ing even though the commissioners  
should be powerless to act and it is  
hoped they will be urged to do so,  
it would be much better to spend  
thousands of dollars than to lose one  
life. Life cannot be restored and  
money can, so it would be wise in-  
deed to do something to set aside the  
menace.

**SHUCKS, GREENVILLE, S. C. AIN'T EVEN IN OUR CLASS**

There was a time when any one of North Carolina who asked for a ticket to Greenville, was given one to Greenville, S. C., not so today. Yesterday an ex-service man got off the train and asked for the government hospital. He had been sent from Alabama to Greenville, N. C., to U. S. V. B. hospital No. 26 which is in Greenville, South Carolina. The man had tuberculosis and needed immediate attention, as he had arrived without breakfast and his government meal vouchers had given out. The man was directed to the Red Cross office and after having shown his government hospital admittance request, the case was attended to by the Red Cross home service department.

**RALLY DAY TO BE HELD AT PRESBYTERIAN CHURCH**

The Presbyterian Sunday school under the leadership of its superintendent, Mr. N. O. Every class in the school from the beginners department to the adult Bible classes, has been hard at work, and a program of special interest has been prepared. The following is the program in outline:

1. Song by the entire school.
2. Opening prayer by the Supt.
3. Class records for the day and re-assembly.
4. Exercises by the beginners department.
5. Exercises by the primary department.
6. Exercises by the Junior department.
7. Intermediate department.
8. Young people's department.
9. Adult department.
10. Teachers.
11. Brief address.
12. Offering by classes.
13. Closing prayer.
14. Song by the whole school.

The theme of the program will be the Bible, and each department will present something about the book of Books. There will be special music, plenty of enthusiasm, good fellowship, and a united effort to start the fall and winters work in a way to guarantee results. The entire congregation are invited and the public is also extended a most sincere invitation.

Remember the time and be there, 9:45 o'clock Sunday morning and help make this a record day in the Presbyterian Sunday school.

**MICHIGAN TOWN IS DUMP FOR MURDERS**

(By International News.) Mt. Clemens, Mich., Sept. 30—With the finding of the seventh body of a murdered man within a period of six months along the Quinn road, about five miles from Mt. Clemens, authorities hold the theory that this section is the "dumping ground" of Detroit murderers.

So far as records show every person murdered and brought to this spot has been a Detroit, although two thus far have been unidentified as to names.

Records also show that in only one instance were slayers captured. It was when Oscar Abrahamson, manager of the Yale Taxi Company of Detroit, was murdered and thrown from an automobile into the ditch in approximately the same spot where the body of the seventh victim was found. Two men were sentenced to life imprisonment for Abrahamson's murder.

**CO-ED STYLE Number 188**

Price ..... \$35

There is a certain Oriental charm about this afternoon frock of canton crepe that makes it very soft and becoming. The wide belted waist line are a feature responsible for this. The entire front of the waist is pin tucked from top to bottom. The sleeves and girdle are trimmed with insertions of fancy faggotting. A cascade drapery is added to the skirt. Two novelty plaques trim the crushed girdle.

Many new styles are arriving daily. Our dresses are not expensive; they only look it.

The daughter who spoke was fourteen years old. The mother was at that moment swinging along the street with fascinating briskness—another small daughter by her side.

Her stride was buoyant, her appearance girlish, simply because she had kept herself well-corseted—one way of keeping fit!

The boning of the Modart Corset is something frequently remarked, it is so expertly and wonderfully done—and produces such comfort and grace. That is because years of knowledge and design are back of its construction.

# GREENVILLE PLAYS SCORLESS GAME AGAINST KINSTON

### Both Clubs Made Splendid Showing at Kinston. But Failed to Score

Kinston, N. C., September 30.—In a very exciting hard fought game, the Kinston High School football team held the Greenville High School team to a 0-0 tie at West End Park yesterday afternoon. Both of the teams were in the game from the very start, and every inch of ground was strongly contested.

The Kinston line was strong at all stages and defensively the team was at its best. On the offensive the visitors were in the limelight, and on several occasions the local goal was in danger. In the last quarter it seemed certain that Greenville would score, but the local line stiffened and the game was saved.

The playing of Blow was the feature of the game, as he was in practically every play. His tackling was swift and certain, and he undoubtedly saved the game in the last quarter by intercepting a forward pass and running the ball out of the danger zone.

Palmer also played a good game at half back, and proved to be the most consistent ground gainer for the locals. However, Brown, captain and full back for the visitors, was the star of both teams on the offensive and circled end, and went through the Kinston line for most of the gains made by the visitors.

### Fumbles Costly.

The game opened up as though Kinston would make short work of the Greenville team, as the locals started the first quarter in grand fashion, but just as the team was entering the visitors territory, fumbles became the order of the day, and each time when the prospects were good for a touchdown, another fumble would occur. As it was the first game that the locals have played it was to be expected that some fumbles would occur, and when the team has had more practice and team work instilled, then fumbles will be eliminated.

Coach Webb was experimenting in his back field, as two of his regulars, Brinkley and Denmark were out of the game. The new backfield, however, gave a good account of itself, and although the interference was very poor at times, still their work was very good.

# DR. SUN SEES GOOD FUTURE FOR CHINA

Shanghai, Sept.—Declaring that the war which has divided China for the last six years is now ended and that with the agreement on the part of the northern militarists to support constitutionalism the period of struggle for democracy in China by force has passed, Sun Yat strikes a right note for the future of China upon his arrival in Shanghai from Canton.

"China is at the turning point today, and from now on the struggle for republicanism must be carried on thru the weight of public opinion," said Dr. Sun at his residence in Shanghai, where he is holding conferences with representatives of various political and military groups.

"After struggling for constitutionalism for the last six years the militarists up north have at last come to the realization that they must support this cause. They realize that to place the nation on a firm basis, law and order must reign and that the

Legislature must perform its functions freely, without any outside interference.

"Whether they are sincere as to what they profess or not we are not they are sincere, and we fail to do our own duty, the nation must be just as chaotic and lawless as it has been for the last decade. On the other hand if they are not sincere, the people, the press, the genuine public opinion must prevent them from going back on their own assertions.

"Now that the militarists have pledged themselves to shuttinoinnu pledged themselves to support the republic, there is no longer necessity for warfare. No armed force is necessary to effect our aspirations for national reunification. The sword should be laid away."

# USEFULNESS OF BLACK-DRAUGHT

### Louisiana Lady Tells How This Well-Known Liver Medicine Helped Her Obtain Relief

Baton Rouge, La.—"After having used many laxatives, I chanced to hear of Black-Draught, and decided to use it as a liver tonic," says Mrs. E. B. Odum, of 338 South Boulevard, this city.

"Black-Draught acted on my liver, cleansed my system, and I was in much better condition after having used it," says Mrs. Odum.

"Black-Draught relieves the swimming, or lightness, in the head. It relieves the heavy feeling after meals, which indicated to me it was good for indigestion.

"So I keep Black-Draught in the house and use it for colds, headache, sour stomach and torpid liver. I have told my friends, and they use it also.

"My present health is improved wonderfully."

Thousands of people have learned of the value of Black-Draught from personal experience, and have chosen it as their favorite powdered liver medicine. It is purely vegetable; not disagreeable to take; causes no bad after-effects.

"When you get up in the morning with a bad taste in your mouth, stomach not right, bilious, or have a headache, try a dose of Black-Draught. Keep a package in your home, ready for immediate use when needed.

Ask your druggist for Black-Draught liver medicine. See that the package bears the name, "Theodor's," Adv.

# ADVOCATES MORE FOOD CROPS FOR THIS TERRITORY

### Dr. Dixon of Ayden Says Something Should Take the Place of Cotton Crop

(Auspices: Pitt County Chamber of Commerce.) (By W. H. DIXON, M. D.) Ayden, N. C.

The money crop of Pitt county is fairly evenly divided between cotton and tobacco. It is a fact that the boll weevil will destroy from twenty to thirty per cent of the cotton crop for the year 1922, which means we will lose a corresponding proportion of money collected from the sale of cotton. In two years with the increasing ratio of destruction it does this project; when this will have not take a wise man to see the same

ratio of money decrease from cotton as weevil infection increases.

We cannot afford to plant cotton if we are not going to be able to gather it, for you will have to contribute labor and fertilizer without getting adequate returns.

The only solution to this problem is to discontinue the cultivation of cotton. The question naturally arises what will we produce in its place.

In the boll weevil districts of South Carolina and Georgia they have largely turned to stock-raising. The cow has taken the lead. To make the cow profitable it will be necessary to create a market for milk product. There are two avenues that could be opened for this. Viz: The creamery and cheese factory. To make a creamery successful there will have to be some capital invested. To induce people to establish a creamery it will be necessary to be assured of enough cream in the community to make a creamery profitable. This of course keeps us back to the point of inducing the farmers to purchase cows for breeding ratio of destruction it does this project; when this will have not take a wise man to see the same

a proper and profitable creamery. As to milk this can be disposed of through a cheese factory or hog raising. The merits of this disposition could be discussed further by those interested. In my opinion both would be splendid.

To do all of the above it will be necessary for the farmers to study pastures of various sorts from the character of the lands owned. To make dairying and hog-raising profitable it will be necessary to raise all

food products possible on the farm. is going to get the greater part of it to his credit. to get a higher grade of cattle. In a small way they could help finance the industry, for this will eventually bring deposits to the bank, which have fallen off for lack of cotton to be sold. In the future the boll weevil

The sooner we get the idea that we cannot grow cotton and the boll weevil at the same time and begin real diversification of crops, the sooner we will be on a better paying basis for the future.
