Conference of High School Principals Brought to Conclusion This Afternoon Following Interesting Discussions

Visiting Teachers Highly Pleased With Condition of Local Schools

SPLENDID SESSION HELD LAST NIGHT AT THE COLLEGE

Dr. E. C. Brooks Delivered Principal Address of Evening Session

The High School Principals Conference for the twenty-three north-eastern counties of this state concluded their sessions here today at one o'clock. The conference, presided over by State High School Inspector J. Henry Highsmith has been a marked success. One hundred and fifty principals have been in constant attendance. The sessions of the conference yesterday afternoon were held in the High School auditorium. All other sessions were held at the Teachers College. The session in the High School was held yesterday afternoon following a very detailed inspection of the local school system while in operation. The visiting school officials were particularly well impressed with the way in which they found school matters being conducted by the local schools. Especial notice was taken of the fact that the school grounds and the building were in books kept in the office of the Superintendent and the local administration is caring for the school property and protecting it. High praise was also made for the conduct and good order of the pupils in the class rooms as well as the excellent teaching in evidence. The officials also made a very thorough examination of the records and books kept in the office of the Superintendent and Principal and found them to be in excellent shape.

Last night at six o'clock the conference was the guest of the Domestic Science Department of the Teachers College. A delightful meal was served. At seven-thirty the conference resumed its sessions. Supt. J. H. Rose led the audience in singing and then Mr. Highsmith introduced Dr. E. C. Brooks, State Superintendent of Public Instruction who spoke for thirty minutes on the subject "The duties of the High School principal to His School." Dr. Brooks pointed out the fact that it was the first duty of the principal to be economical in his administration of the school funds next that he was to see to it that only good teachers were elected to positions in the schools. He also outlined the respective duties of school boards and principals as related to the working of the school. Mention was also made of the fact that North Carolina has now outstripped every southern state in the matter of education, that North Carolina is pointing with pride to this fact. He also begged the principals to see to it that more North Carolina Geography and history should be taught in the public schools in the future.

Following the address of Dr. Brooks, Mr. E. R. Rankin, of Chapel Hill who is secretary of the committee of the University in charge of student activities throughout the state, took up the matter of eligibility rules for the various teams competing in the championship series throughout the state. The rules as read by Mr. Rankin were approved and adopted. They are the same as last year except for the new provision requiring a student to have made a passing grade on his studies the year previous to his becoming a member of a team as well as for the current year. Mr. Highsmith then introduced five new resolutions looking towards cleaner athletics in the High Schools. The resolutions are as follows:

- 1. Athletics shall be under the sole direction of the regularly constituted authorities of the school.
2. The coaching of all athletic teams shall be done by the teachers regularly employed in the High School.
3. The persons who coach athletic teams shall be accountable to the principal or superintendent of the school.
4. The rules adopted for Athletic contests by the University Athletic committee and endorsed by this conference shall be used in all athletic contests.
5. Summer training camps for High

Booster Night Is Enjoyed by Local Red Men

Interesting Program Rendered at Hall on Evans Street Last Night.

Last night was booster night for Red Men of Greenville, and an interesting program was enjoyed at the hall on Evans street. Timely talks were delivered by J. J. Johnson and Ben Taylor, of Washington, Clarence Vincent, D. D. G. Schem from Winterville.

Ben Taylor sang the "Old Bay Mule," after which several splendid selections were rendered by the Evans band. Flowers were presented to Miss Mabel Jones, of Greenville, who was chosen as the prettiest girl present. A cake of Octagon soap was given to Miss Jones for being the ugliest man.

Among the guests attending the meeting were Mr. and Mrs. Hickson, of South Carolina and Mr. and Mrs. Ravenel.

The session was one of the most interesting held by the Red Men in many months and was fully enjoyed by those attending.

CURE FOR MALARIA IS FOUND AT LAST

London, Oct.—A cure for malaria, the dread disease prevalent in tropical countries, is, according to Sir John Bland Sutton, the famous English surgeon, at last in sight.

He has returned to London after a lengthy tour with his wife of the Amazon and the Brazilian forests.

For principal investigations centered in birds and butterflies of the country, of which we have brought home numerous specimens, and also in diseases such as leprosy, tuberculosis and malaria," said Sir John.

"I found that the scientists who were stationed there investigating the causes and effects of malaria had made very encouraging advancement. Malaria has been overcome as a disease, and is not likely to trouble the world much longer. I found, too, that very considerable progress had been made in regard to leprosy and tuberculosis. The world is slowly but surely discovering the means for combating tropical diseases."

MOTHER'S LOVE FOR HANGED BOY LASTS

Kansas City, Mo., Oct.—Mother love never dies.

Witness the case of Mrs. Ira N. Pavey, of this city, whose son, Ira N. Pavey, was hanged recently at Fort Madison, Ia., for the murder of a grocer.

Penitentiary authorities had planned a Potter's grave and a bed of quicklime as Pavey's final resting place. But, resting on a coffin, banked high with flowers, his body was removed from a local undertaker's parlor to a grave in one of the city's long-established cemeteries. His mother was responsible for that.

Pavey's mother was beside him during his last hours. She made a fast automobile trip to Iowa to comfort her condemned son. Grief stricken, she followed his casket to its final interment. Pavey's father and three sisters accompanied her.

DECORATE LONDON SUBS TO CALM TAUT NERVES

London, Oct.—Nervous passengers on the London subways are a nuisance company officials agree. Hence they have hired a decorator to redecorate the interiors of subway trains in such a fashion as to soothe nerves. The trains are being repainted in soft greys and harmonizing colors and attractive posters are being placed in the cars.

LIFE'S LITTLE JOKES

Bridgeport, O., Oct.—An auto carrying a "Let's Be Careful" sign crashed into a post here. The driver, the only occupant, escaped injury.

Novel Features To Be On Exhibit At County Fair

Well Known Manufacturers of State Have Arranged for Space in Exhibition Hall.

LIVE STOCK SHOW WILL ALSO BE AN ADDED ATTRACTION

Armistic Day Will be Featured by Exciting Automobile Races, it is said

The Pitt county fair and exposition will have many new and novel features this year. Several well known manufacturers throughout the state have already bought space in the main exhibition hall and will place on display many articles that are manufactured in North Carolina. When the doors of the fair are thrown open to the public it will resemble the Made-in-Carolinas exposition recently held in Charlotte. Fair officials are striving to make the exhibits show that we "should trade at home."

Another feature of the fair will be the livestock show, proving to our farmers that well bred stock can and should be a profitable business for Pitt county. Several entries of different bred cattle have already been made. There will be the herd of the Ayreshire, Guernsey, Holstein, Friesian and the Boy's Calf Club. With the bull weevil in our midst cattle raising should be encouraged as much as possible. The poultry show will be greatly enlarged and officials promise to have the best exhibits in history of the fair.

The fireworks program will be twice as large as last year. A reproduction of the battle of the Marne will be presented. This feature is said to be the most spectacular event of any pyrotechnic display.

The amusement program cannot be equalled, even by the State fair. It will be clean and wholesome in every respect. Billy Willard, who sings with the band, will be an added feature to entertain the thousands to enter the gates during the five joyous days.

Armistic day the fair officials have arranged to stage automobile races. The fastest driver on dirt tracks will be here in the person of Johnny Fox, the well known driver of the Kline racer from Richmond has assured officials that he will be here and will give some one a hard time to beat him.

Advertising men are out and in a few days the entire country will be plastered with bright colored posters advertising the fair. Excursion rates have been arranged on both roads entering Greenville and it is expected hundreds of people from other parts of the state will be present.

Salvation Army Campaign Begins Here October 18

Dr. W.P. Shamhart Completes Committees to Carry On Drive for Funds Here.

County Chairman Dr. W. P. Shamhart announces the following committees for Greenville. Arthur Corey, chairman, with the following group captains, David Moore, J. Conrad Lanier, Hicks Corey, Chas. Munford, R. T. Cox, A. E. Denton, Dr. W. I. Wooten, A. J. Congleton, S. O. Worthington, Mayor D. M. Clark C. F. Hardy, J. H. Waldrop of the Greenville Banking and Trust Company has been appointed as treasurer. This campaign begins on the 18th of October and closes the 22nd.

The women's department is being organized and the announcement will be made in Monday's paper. Watch the papers for announcements. Every district in the county will be touched. Every ex-serviceman will want to be in on this. Every family will want a part in this campaign to help those who helped the boys on the battlefield and in camp.

CHATTER TOO MUCH IN PRAYERS, SAYS PASTOR

London, Oct.—"We are too talkative in our prayers and chatter too much," says the Rev. M. Carpenter Graftier, of Passy House.

HERE IS MANAGER OF GIANT'S MANAGER

John J. McGraw manages the New York Giants, National League pennant winners, with an iron hand, here is Mrs. McGraw, who manages the Giants' manager. They are pictured in their beautiful home at Pelham Manor, New York.

Only Few Cases Given Hearing in City Court Today

Mayor Clark Disposes of Minor Issues in Record Breaking Time.

Business appeared to be rather brief in Police Court this morning, only a few defendants appearing for trial.

Shep Dunn, white, charged with monkeying with monk in attempting to accomplish the impossible, drink all of it and at the same time operate an automobile—fined \$50.00 and the cost for driving auto, while in an intoxicated condition to which he pleaded guilty.

Shep Dunn, white, being down in his battle with monks, but not out-fined \$5 and cost on charge of drunk and down, to which he pleaded guilty.

Wm. Smyer, white, charged with failing to list his own taxes for the year 1921, failing to appear, capias issued and case continued until Monday. At this point Mayor Clark took occasion to state that all persons who had failed to list their taxes and who did not do so immediately, would be prosecuted, but that even those who had not listed for 1921 would be allowed to do so, although at this late date if it was done voluntarily and before warrants were issued.

Jack Warren, white, charged with speeding, failing to appear, capias issued case continued until Monday morning.

As soon as court adjourned Mayor Clark and the entire police force in the presence of a large crowd proceeded in accordance with the statement given out at Wednesday's court, to pour into the sewer in front of the city hall, 18 gallons of corn whiskey taken from Heber Sutton, white, it being contained in five large earthen jugs and one wooden keg, also one gallon of monkey rum taken from Noah Hard, colored, also five gallons brandy taken from Leon Patrick colored contained in large glass jugs.

All jugs were turned over to the Water and Light Commission to be used as acid containers for storage batteries for fire alarm system. There were many witnesses present who bemoaned the departure of the spirits via the sewer route, but the sober judgment of the crowd expressed its high approval of the course taken to destroy the stuff, which by law declared contraband and which no officer has a right to take from one person as a violation of the law and then convert to his own use, or even give to his friends.

At the close of the ceremonies Mayor Clark stated there were still on hand considerable quantities of the fiery fluid, that makes beast of men, that would be poured out in the near future and that notice of the same, quantity and ownership will be given through this paper.

HARDING POSTPONES ENFORCING PROHIBITION LEGISLATION UNTIL LATER

Washington, Oct. 14.—President Harding today again postponed enforcement of the drastic liquor regulations as they affect foreign vessels, it was announced at the White House today. An order has been signed extending the issue October 21, the date under which foreign vessels may freely enter and leave with liquor, the county jail.

PREACHER SHOULD CURE FLOCK, HE SAYS

London, Oct.—A great faith healing campaign, aimed to cure all bodily and mental sicknesses by means of the "Physic of the Galleian" method, is about to be organized in England by Dr. Samuel Henson the famous American faith healer and late secretary of the Eastern Branch of the Bible Society of the American Bible Society, who is now in London for that purpose.

FOUR CENTS A MILE NEW AIRPLANE RATE

London, Oct.—Four cents a mile is the tariff which will be charged for the London-Berlin air service.

Greenville Highs Win From Tarboro Football Outfit

Locals Journey Over to Tarboro and Return With 25 to 0 Victory

The Greenville Tigers journeyed over to Tarboro yesterday afternoon and won the first game of the season with that town by the score of 25 to 0. The contest was hard fought in the first half, but after that time the Tigers literally outclassed the home club and made gains that resulted in an overwhelming score.

Roy Hardee was the outstanding star for Greenville, making two touchdowns and long gains that figured prominently in the scoring. Captain Zeno Brown also came in for high honors with two touchdowns and one field goal. Evans and Forbes presented formidable opposition in the back field and did much to prevent Tarboro from scoring. Simmons was the outstanding figure in the Tarboro line-up, presenting splendid form especially in the first quarter.

This was Greenville's fourth game of the season. They are credited with two victories and two tie games and so far have not been scored on but one time.

The next game will be played with Washington sometime next week, and it is expected this will be one of the most stubbornly contested of the entire season. Washington has a splendid organization and has shown real strength against the locals in the past.

ATTEMPTS TO DYNAMITE PRISON AT NEW ORLEANS FRUSTRATED LAST NIGHT

New Orleans, Oct. 14.—What police believe to have been an attempt to dynamite the parish prison and liberate six Italians sentenced to hang for the murder of Dallas Calmes at Independence was frustrated last night through the arrest of Giovanni Bucaro, a frequent visitor of the condemned man. Police said they found a case of dynamite buried at Bucaro's home.

STRIKERS DYNAMITE HOME OF BIRMINGHAM LABORER

Birmingham, Oct. 14.—County police and national guardsmen are searching for men who last night dynamited the front of H. Green's home in this city. Green's son and wife were bruised and windows of the home were shattered. Green recently returned to work at the Ellen shops here after the men had walked out on strike.

SCHOOL TEACHER IS MISSING FOUR MONTHS

Gard, Kan., Oct.—Miss Lulu E. Thompson, thirty-year-old high school teacher and lending chair worker, who mysteriously disappeared May 29, last, still is missing, and the authorities admit the case is completely baffled them.

Price Situation Still Favorable On Local Market

Greenville This Week Sold 1,793,060 Pounds for \$594,655.93, Average \$33.16

Price Situation Still Favorable On Local Market

Greenville This Week Sold 1,793,060 Pounds for \$594,655.93, Average \$33.16

FARMERS HIGHLY GRATIFIED OVER GREAT SHOWING

Market for the Entire Season Has Sold 12,915,174 Pounds for \$3,513,509.68

The Greenville tobacco market this week sold 1,793,060 pounds of bright leaf for \$594,655.93 at an average of \$33.16, according to figures this morning made public by H. A. Bost, secretary of the Greenville Tobacco Board of Trade.

For the entire season the market has sold a total of 12,915,174 pounds for \$3,513,509.68, making an average of \$27.20.

The average price of the local market has increased each week since the opening several weeks ago, and conditions are more favorable today than they have been in several years. Both warehousemen and growers are pleased at the splendid way tobacco has been selling, and are of the opinion this market will establish an enviable record this season.

Farmers from a distance who have sold here the last few weeks unanimously declare conditions are more favorable here than on any other market in Eastern Carolina. The majority say they have sold on many other markets, but find Greenville the best place of them all.

Prices have been good on all grades of bright leaf, especially that carefully handled, and the farmers have received everything coming to them. The not only received good prices, but were able to reach home in the afternoon after the sale despite congested conditions. The triple sale plan has set aside the probability of congestion and floors are always cleared long before sundown.

Medical Society To Hold Meeting In Martin County

Tri-County Society to be Entertained at Williamston Tuesday, Oct. 17th.

The Martin county Medical society will entertain members of the Tri-County Medical society Tuesday evening, Oct. 17th at 7.30 o'clock. The secretary of the Martin county society desires a full attendance as a good program has been arranged for the occasion. Many matters vitally concerning physicians of Eastern Carolina will be discussed and it is very important that as many members as possible attend.

Dr. W. E. Warren, of Williamston, is president of the society and Dr. DeWitt Klutz, of Washington is secretary.

The last session of the society was one of the most interesting in several months, but it is hoped that the coming meeting surpasses even that.

H. A. White To Head Red Cross Roll Call Here

Local Man Accepts Chairmanship of Campaign to Enlarge Membership.

ROLL CALL WILL BEGIN ARMISTICE DAY, NOVEMBER 11

Disaster Relief Work of Organization Has Commanded Attention of World.

The county chapter feels very fortunate in the acceptance of Mr. H. A. White of this city as the chairman of the Red Cross Roll Call which is an invitation for everyone in the county to renew their membership in the greatest international organization in the world which cares for disasters for relief.

Since the first war days, Mr. White has not only been interested, but active in support of the Red Cross organization in this county. He has kept well informed as to its international policy as well as the local program, and the executive committee feels very fortunate in having a man so interested and with such executive ability as their roll call chairman.

Below is enumerated the disaster relief work done by the American Red Cross this year.

Seventy-two disasters, in which 674 persons were reported killed and 621 injured, called for emergency relief measures and the expenditure of \$1,441,486 by the American Red Cross during the fiscal year ending June 30, 1922, according to a statement public today based upon the forthcoming annual report of the Red Cross. These disasters caused property damage estimated at more than \$30,000,000, and rendered more than \$1,441,486 by the American Red Cross during the fiscal year ending June 30, 1922, according to a statement public today based upon the forthcoming annual report of the Red Cross. These disasters caused property damage estimated at more than \$30,000,000, and rendered more than \$1,441,486 by the American Red Cross during the fiscal year ending June 30, 1922, according to a statement public today based upon the forthcoming annual report of the Red Cross.

The greatest toll of life was taken by hurricane and tornado, while the overflowing of rivers, the breaking of dams and torrential rain storms drove the greatest number of people from their homes. Fire played an important part in the chain of disasters which made insistent demands for Red Cross relief workers.

The year's disasters reported, 549 which the estimates of killed and injured are considered low because in only about one-third of the instances were dead and injured mentioned included 26 floods, 19 tornadoes, 200 storms, 16 fires, four epidemics, 200 theatre collapses, two shipwrecks (one an airship), a bridge collapse, mine explosion, railway collision and a drought.

The geographical distribution of these disasters shows the widespread character of the emergency relief required of the Red Cross.

Of the floods, that at San Antonio, Texas, caused the greatest property loss, \$6,000,000, and the most fatalities, 100. The flood in the vicinity of Vicksburg and Natchez, Miss., rendered 31,000 persons destitute. Among the unusual disaster reports was that from China where last May the American Red Cross Chapter at Peking went to the relief of non-combatants wounded during the fighting at Ch'ang Hsin Tsen, most of them hit by bits of flying pottery shot up by the contending forces.

In the Red Cross disaster relief records there will probably remain as a chapter by itself the details of one calamity which touched nearly every state with an insatiable sense of horror. This was the collapse of the roof of the Knickerbocker Theatre in Washington, D. C., resulting in almost 100 deaths and 125 persons injured. Located in the section of the National capital containing palatial homes and great apartment houses, this motion picture theatre was patronized by many persons of prominence in the official and civil life of the city, persons whose confessions radiated over the entire country. The horror was intensified by a terrific snow storm which, though it retarded, did not block Red Cross relief.

The crash and destruction by fire of the U. S. Army dirigible airship Roma in Virginia last February, with the loss of 34 officers and enlisted men, was the first disaster of its kind in this country to call for Red Cross relief.

The crash and destruction by fire of the U. S. Army dirigible airship Roma in Virginia last February, with the loss of 34 officers and enlisted men, was the first disaster of its kind in this country to call for Red Cross relief.

Saturday, October 14th, 1922

Bishop James Cannon, Jr., says the Smyrna catastrophe is without a parallel in the history of cruelty and ruthlessness. That he is right cannot be questioned. Newspaper accounts of the slaying of thousands of Christians men and women were enough to make even the most hardened shudder. The atrocities of the Turks surpass anything civilized people have heard of and is it any wonder there should be a few to try and get America to aid the suffering. The situation commands attention of the entire world and it is the duty of those in position to help in every way possible.

Air mail service has proven of great value to the United States. Ayden people who have been clamoring for truck mail service from Kingston and Greenville to Ayden should give air service and experiment also. In fact, it is believed this would prove of greater value than trucks. Certainly better time would be made and there would be no prospects of robberies such as have been reported from various parts of the country recently. Uncle Sam is giving the Ayden proposal consideration. Here's hoping he will decide upon airplanes instead of automobiles.

Prohibition Commissioner Haynes is charged with using his office for the purpose of furthering partisan objects, especially promoting the Republican victory in the next election. If this be true, and there seems to be little doubt about it, the president should immediately remove him from office. We can conceive of nothing quite as mean, and if he would stoop to such a trick what would he do with greater opportunities. The people cannot possibly feel secure with such a man at the head of the prohibition department and the sooner he is removed the earlier conditions will improve.

Hanford McNidder, national commander of the American Legion, says he would not be a candidate for reelection under any circumstances. Why this attitude? To be sure he doesn't intend to do exactly as the Republican party wishes. It has been rumored that effort would be made to bring about his removal because of his support of the bonus. Instead of yielding, he should brace up and stick to his guns as long as the Legion supports him. The organization members are in favor of the bonus and certainly they will support a president who does likewise. Instead of bowing submissively to the commands of the Republicans he should stick to his work with bull dog tenacity and put the bonus over despite opposition or anything else the Republicans can bring into play.

The Salvation Army will ask Pitt county people to give it a thousand dollars in the near future and the request should be heeded. What this great army of workers did for our soldiers during the war should never be forgotten and when they ask for funds we should give as liberally as possible. The Salvation Army accomplishes more than other organizations. It reaches down into the very grim and dirt of civilization and lifts from the mire thousands of men and women who would become good citizens if given a chance. It takes money to do this however, and unless the thoughtful and prosperous provide it the work cannot reach the great proportions it would otherwise. Don't forget the campaign. Dr. Shambert is chairman and he will be glad to accept any contribution, it matters not how small.

ARE YOU SATISFIED WITH YOUR present job? We can use a few more men willing to work, average over one dollar per hour; men between the ages of 25 to 35. Write or 218 for appointment and particulars. 13 2c

CHURCHES

Immanuel Baptist Church. Thos. H. Flemmons, pastor. Sunday School 9:45 a. m. L. R. Meadows, Supt. Preaching at 11 a. m. Subject: "A Tenfold Freedom for God's Children." B. Y. P. U. at 6:30 p. m. **BELGIUM HOLDS COUNCIL WITH THE GREAT POWERS**

(By International News.)  
Brussels, Oct.—Belgium, seated in the councils of the "Great Powers" of Europe, is playing an influential role in the maintenance of the unbroken front of the Allies. In a recent conference at London it was the Belgian Minister, Theunis, who occupied the delicate middle position on the Anglo-French teeter-totter and kept the balance between Poincare and Lloyd George at a time when both ture of the Entente.

Thanks to the Treaty of Versailles, both France and England must carry favor with the little nation whose population is not much larger than that of greater New York, but who holds a vote in the settlement of the reparations question equal to that of the great British Empire or of France. At the outbreak of the war when Belgium's neutrality was violated, a wave of anger swept the world at Germany's lack of sportsmanship in attacking a little nation whom all the important states in Europe had agreed to respect as too helpless to defend herself and too small to be attacked. With a decade Belgium has decided she wishes no longer to be considered a small Power. Instead of requesting that in the covenant of nations framed at Versailles she should again be given the preferential position of Switzerland and Holland in world affairs—that is, of neutrality—Belgium chose to seat herself as a peer in the councils of the "Great Powers."

In support of her military alliance

with France the Brussels government representing only 7,600,000 people, has raised a conscript army of 105,000, larger than the present army of Germany.

**CONFERENCE HIGH SCHOOL BROUGHT TO CONCLUSION**

(Continued from page one.)  
School teams are prohibited.

Discussion of these resolutions became very interesting. Rule No. 2, came in for most of the discussion. When the vote was called for Superintendent Rose asked for separate votes. This was carried. The resolutions were then adopted with the exception of rule No. 2. This was defeated. Rule No. 2, came in for a heated discussion by reason of the fact that if adopted it would serve to eliminate all voluntary coaching of High School teams. There are a number of towns, like Greenville, Washington and other towns that have no regular football coach. Therefore, as in the case of Greenville, Washington, New Bern and other towns this year this voluntary coaching from the outside would have to be done away with. Supt. Rose of Greenville, Mr. Simpson of Roanoke Rapids, Harris of New Bern, and President Wright spoke against the rule. Mr. Isley of Snow Hill, Pittman of Beaufort, and others favored the adoption of the rule. After two hours of discussion the rule was rejected on a separate vote. Those favoring the rule argued that coaching from the outside tended to take athletics out of the hands of the schools authorities. Opponents of the measure stated that the principal who could not allow outside coaching and at the same time retain control of the situation should resign and allow someone to take charge who could control the situation.

This morning the conference heard the reports of the three High School inspectors for this section for the past year. They were. Profs. Leggett, Austen, and Meadows of Teachers College. The conference also discussed the mater of college entrance requirements, what they are and what they should be. The conference adjourned at one o'clock.

The following school officials are in attendance in addition to the ones whose names were printed in yesterday's paper.

D. W. Arnold, Parmele; H. L. Thomas, Dover; E. R. Perry, Oriental; A. L. Bramlett, Stonewall; W. G. Coletrane, Grifton; G. C. Mann, Grimsland; T. B. Atmore, Stonewall; E. E. Sams, Kinston; A. Knight, Belvidere; W. D. Barbee, Seaboard; R. L. Leake, Seaboard; C. R. Hinshaw, Aulander; W. E. Whisnant, Severn; J. W. Norman, Plymouth; L. B. Gunter, Woodland; G. W. Bradshaw, Rich Square; G. W. ## AMUZU PARK PROPERTY BOUGHT BY W. P. CLARK FOR SUM OF \$11,300

Amuzu Park property was sold at public auction this morning at 11 o'clock and was bought by Mr. W. P. Clark for \$11,300.

The sale was attended by a good crowd and much interest was manifested in bidding which was very lively throughout.

The sale was conducted by N. O. Warren, real estate dealer of Greenville, who carried the advertising campaign to all parts of the county. This property is some of the most valuable in this section, as it contains many features for recreation. The park was visited by thousands of pleasure seekers the past two summers, and its sale created more than general interest.

## GRIFFON NEGRO WANTED HERE FOR SHOOTING WOMAN IS CAPTURED IN NEW BERN

George Brown, colored man of the Griffon section who several months ago shot and painfully injured a colored woman by the name of Essie Leary, was captured yesterday afternoon in New Bern and immediately brought to Pitt county and lodged in the county jail in this city.

It was never known why Brown shot the woman but it is believed the matter will now be cleared up. While her injuries were very painful they were not of a serious nature and she recovered within a short time after the affair occurred.

Brown will be held in jail here until he is given a preliminary hearing to see what disposition is to be made of his case.

## COAST COMPANY SELLS \$20,500 WORTH OF FARM LAND AT ROCKY MOUNT

K. W. Cobb returned this morning from Rocky Mount where he has just completed a successful sale for the Atlantic Coast Realty Company. This was one of the first farm sales conducted in Eastern Carolina, the property bringing \$20,500. Mr. Cobb will leave Monday for Burlington to begin advertising campaigns for two other sales which the company now has on schedule. While the land sale business fell off considerably last year, conditions have changed this year and there seems to be a revival under way. It is understood some Pitt county property will be offered at auction by the Coast Company in the next few weeks.

## NEW CHEVROLET MODELS SHOWN HERE NEXT WEEK

The new 1923 Superior Chevrolet line is a decided advance over its predecessor both in style and engineering, yet prices remain the same. This has been made possible by the economies due to Chevrolet's greatly increased production schedules.

The gasoline tank has been removed from under the front seat to the rear of the car and vacuum feed substituted for gravity feed.

The most apparent improvements in the new line are in design. All models have high hoods and stream line bodies, with drum type headlamps and crown-paneled fenders.

The closed bodies by Fisher Body Corporation are handsome in design and appointments, all black outside, except for gold stripe decoration of the molding, which adds a note of distinction. Wind shield wiper and dash light have been added to the equipment.

The Hines Motor Co., will have in their show rooms after Tuesday some of the New Touring Cars, these five passenger cars delivered to the customer for \$615.00, this is the world's lowest priced quality automobile. ady

## ONE DEED OF TRANSFER FILED SINCE YESTERDAY

Only one deed of transfer has been filed in the office of the register of deeds for registration since the report of yesterday afternoon, that being by J. H. Waldrop to Martha Lee Cowell, consideration \$1725.

## PREPARE FOR PERMANENT PASTURES.

(By W. B. PACE.) "Good pastures are the basis of profitable farming. The country that neglects its pastures, that fails to grow grasses and legumes will find its soil growing poorer from year to year, and when that begins in any country the whole agriculture of the country is on the way to wreck and ruin". These are the words of an editor of one of the leading agricultural journals of the country

There must necessarily be a great change in our agricultural practices in Pitt county within the next few years. We must come to think of farming as a real "tending" of the ground, as caring for it and feeding it. We must begin to think of a permanent soil building program that will increase the strength of our soil, and increase its capacity to produce without doping it year after year with so much commercial fertilizer. Such farming is the only farming that is really profitable, the only farming on which a nation, a community or an individual can safely depend for permanent results.

We no longer think of growing cotton at a profit. It cannot be done in Pitt county, taking the county as a whole. There may be individual farmers who may make some cotton at a profit, but the vast majority will fail in trying, and not only fail themselves but cause the merchant or bank that backs him up to fail as well. We must very materially reduce our cotton acreage and grow food and feed crops instead. For the most of us we should put in additional pastures. There is no better place in the world to grow grasses and legu-

mes, both for pastures and for hay, than right here in Pitt county.

For those farmers who have good upland soil the following seed mixture is advised for sowing any time in the month of October, eight orchard grass; 8 pounds Italian rye grass; 8 pounds red top; 8 pounds alsike clover; 4 pounds white clover; and in the spring add 4 pounds Japan clover sown on top of the ground.

For rich low lands the following mixture is recommended: 10 pounds berds grass (red top); 8 pounds Italian rye grass; 7 pounds alsike clover; 4 pounds white clover; and in spring add 5 pounds Japan clover sown on top of ground.

For spring sown pasture use the following mixture on good low lands, new ground or cut over land and wet lands:

Ten pounds Japan clover, 8 carpet grass; 5 pounds dallas grass. This is probably one of the best mixtures and should be sown in early March if possible.

The first "doctor of medicine" was Guilelmo Gordonio, who received the honor from the college of Aostij, in Italy, in 1220.

## H. A. WHITE TO HEAD RED CROSS ROLL CALL HERE

(Continued from page one.) relief. The suddenness of the accident tested the readiness of the organization and of the Chapter at Hampton, Va., but the response was immediate. Not only was relief

furnished the survivors, but funds were provided to bring relatives of the dead to the scene from long distances.

In the year's overseas record for aid rendered by the Red Cross are two fires in the Philippine Islands, one in Manila which destroyed 1,000 homes with a loss of \$1,500,000 and 5,000 persons made homeless, the other at Tonio which drove 3,000 from their dwellings. In medical relief that was quick and effective the smallpox epidemic at San Domingo with a total of 22,000 cases and 225 deaths in a single day tried the preparedness of the Red Cross for action in epidemics. The same may be said of the San Domingo hurricane which killed 12 persons and reduced 182 homes to wreckage. The flood in San Salvador with a death toll of 50 and 2,000 refugees in dire distress was also effectually handled by the local chapter of the American Red Cross.

The year has been the further perfection of disaster relief administrative measures in every field, and that the work may be carried on to still greater accomplishments the American Red Cross is appealing for a world-wide renewal of membership during the annual Roll Call to be conducted beginning Armistice Day, Nov. 11. In chapters throughout the country the equipment and trained relief workers to cope with local disasters is always ready and the system of communication makes it possible to consolidate relief measures without loss of time for use in great emergencies which might occur in any part of the United States.

## "No More Ruined Shirtwaists for Me," said Mrs. Southlee

"I've discovered a most wonderful water softener" A group of young housewives were discussing washing materials. One said that her clothes had been fairly eaten to ribbons by patent washing fluids and chemicals. "No more of that in my home," said Mrs. Southlee. "I've discovered a most wonderful water softener that does not harm the fabric. My maid says it makes the washing easier than anything she has ever used. She just dissolves a 1/2 teaspoonful of Red Seal Lye in each bucket of water. This softens the water, and makes the clothes snowy white. She uses less soap too." "That's quite true," chimed in another. "I've always used Red Seal Lye as a water softener, but that's only one of its many uses. Red Seal Lye makes an excellent soap. I tell my cook to save all the waste grease. One can of Red Seal, when mixed with grease and water, makes enough soap to last several months for all laundry and scrubbing purposes. It's really quite fun to make. The directions are in the can." There are many household uses and recipes for Red Seal Lye described in the Red Seal Booklet, which will be mailed you free. Send for it today. Ask your dealer for the old reliable granulated Red Seal Lye. Get the genuine. Take no other.

P. C. TOMSON & CO., Southwark P. O., Philadelphia, Pa.

## COMMISSIONERS' SALE

By virtue of authority vested in me as commissioner in an order made on October 12th, 1922, by the Clerk of the Superior Court in that special proceeding No. 2442, pending in Superior Court of Pitt county and entitled W.
