## MANY INTERESTING TIMELY LECTURES EVENTS TO FEATURE DELIVERED BY PITT PITT COUNTY FAIR MEDICAL SOCIETY

**Greenville Storage Battery Have Arranged to Give a Radio Demonstration**

**AUTO RACES WILL BE BIG FEATURE OF THE COUNTY FAIR**

**Over One Hundred of Best Horses Have Been Entered and Purses Are Attractive**

The Greenville Storage Battery Company have arranged to have a radio demonstration at the Pitt County Fair, and a factory representative from the American Radio Corporation will be sent here to assist the local people in handling this exhibit. This will be a feature that no other fair in this part of the country has had, and with the apparatus that will send here the public will understand every word all through the main building.

The Atlanta Journal says that the radio demonstration at the South Eastern Fair was the biggest feature that they ever had and drew people from all south Georgia, and this will be the same demonstration that was at the Tri-state fair, and will be a very rare treat to the people of this section of the state.

The auto races which will be a big feature of the fair, Charlie Dailey of Wilson, yesterday, entered two cars and Dailey says that he doesn't mind if Barney Oldfield comes down. With the nerve that Charlie has shown throughout this and other states he has proven that he will some time, in the near future, be a competitor with the best drivers of the world on the larger tracks.

Over one hundred horses have already been entered and some of them are coming direct from the larger fairs, as the purses here are far more attractive than at any fair in the state. There are several grand circuit horses among this number that have never been south before, the horses are already coming in and the fair association have quite a few carpenters building more stalls to take care of the large number that will be here.

Tuesday will be children's day and letters have been mailed to every principal and teacher of the county. With the special radio program that day along with several other educational features it is hoped that every school child in the county will be here. The city is all decorated with flags and bunting and has the fair appearance and every small boy is beginning to ask when the fair starts.

Pitt county fair has an amusement enterprise that has references from every city they have shown and even from ministerial organizations and the management has visited these shows and found that every attraction was worthy of patronage, and of the highest class.

The stock and poultry shows will be larger and better this year than ever. The main building will contain nothing except agricultural and merchants and manufacturers' exhibits and the space has mostly all been reserved for merchants and manufacturers from this and other cities. The agricultural part promises to surpass any previous efforts and surpass anything seen at any surrounding fair.

If old Sol continues to shine Greenville expects the largest crowds in its history.

### PORTO RICO SHIPPING RATES DECLINE 25 P. C.

New York, Oct.—Rates between Atlantic and Gulf ports and Porto Rico have fallen an average of 25 per cent as a result of the withdrawal of the New York & Porto Rico Steamship Company from the rate agreement of the lines in the trade. Open competition prevails, and involved in it are about ten companies, all operating American ships, as the Porto Rican trade comes under the coastwise laws of the United States.

Until electricity was discovered, the cause of the aurora borealis was unknown, and it was supposed to be of supernatural origin.

**First Series Lectures for Greenville Delivered in Auditorium of Teachers College**

**LARGELY ATTENDED BY STUDENTS AND GREENVILLE PEOPLE**

**Dr. Pace and Frizzelle Speak Most Interestingly on Prevention of Diseases**

The first two lectures of a series recently planned by the Pitt County Medical Society for Greenville were delivered in the auditorium of the East Carolina Teachers College last evening. The first, "Disease Prevention," being presented by Dr. K. B. Pace, of this city, and the second, "Ways of Infection," by Dr. M. T. Frizzelle, of Ayden. The lectures were heard by at least four hundred and fifty persons, consisting of students of the college and the public in general.

On account of these two talks dealing primarily with diseases of children the students of the college, who are to be the teachers of tomorrow, were invited to be present. That they heard something worth while goes without saying.

All people, especially parents and teachers, should know about the prevention of disease and the Pitt County Medical Society, in connection with the State board of health, have arranged this series of lectures and a majority of the members of the society are delivering them without any charge, expecting nothing in return for their services, but only hoping that the public will follow their advice.

Announcement of these lectures have been carried in this paper from time to time and the public have responded in a manner becoming the people of this community.

It is a medical educational program and the lectures are for all ages although a few deal primarily with children's diseases.

Other lectures will be given in the county from time to time and the physicians who are giving their time to this work are especially anxious for the people of the county to keep them in mind and watch the paper for announcements.

## MERCHANTS ASSO. HELD INTERESTING MEETING TODAY

**Disposes of Several Matters of Importance; Does Not Favor Erection of Filling Station**

The Merchants Association held a most interesting meeting in the Chamber of Commerce rooms this morning and disposed of several matters of importance.

At the request of the board of aldermen an expression was made relative to the proposed filling station on Five Points. The association voted as not being in favor of it on account of its nearness to the school district.

The association pledged its undivided support to the Pitt county fair and will do everything possible to help make it the great success which it should be.

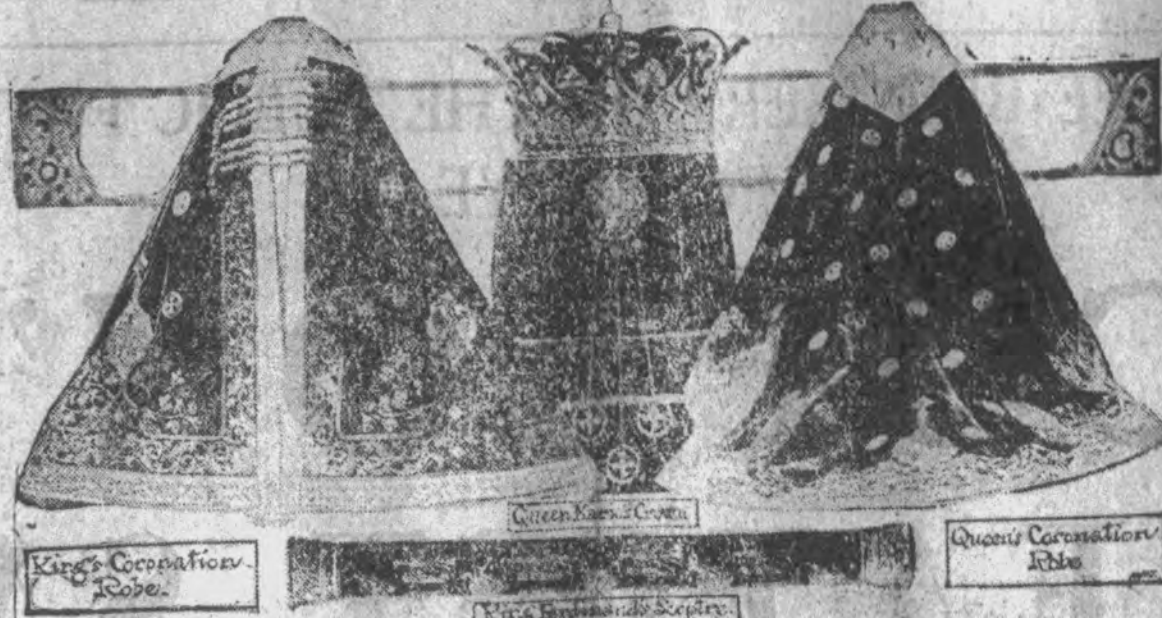

They voted unanimously in favor of the curb market and will also give this issue their support.

Several other minor matters were discussed after which the meeting adjourned.

### JUDGE MARION DEVINES RESIGNS AFTER LONG SERVICE

Washington, D. C., Oct. 31.—Judge Marion Devines, founder and president of the United States court of customs and appeals has resigned. President Harding practices his twenty-one years of service.

### FORTUNE SPENT IN RUMANIAN CORONATION

More than 600,000 francs were expended at the coronation of King Ferdinand and Queen Marie of Rumania, at the ancient capital, Alba Julia. The rich robes, made in Paris, represent the last word in the modiste and jeweler's art. The Royal sceptre of the King was fashioned by Falze, famous French artist, as a lighter model of the unwieldy one that reposes in the royal Rumanian vaults. Queen Marie's crown was manufactured by the same goldsmith of Transylvania gold and rich turquoise, amethysts and moonstones. It contains many ancient relics and symbols, the ornament hanging from the chains representing wheat, symbolic of Rumania's chief product.

## TICKET CONTAIN ONLY STATE OF OHIO IS THIRTEEN NAMES SCENE OF FURIOUS POLITICAL BATTLE

**Eleven Members of the Superior Court Bench Are to Be Selected**

Raleigh, N. C., Oct. 31.—An off year it may be politically in North Carolina and many of the voters are apparently of this opinion that their election concerns is altogether local, but State Democratic headquarters realize that there is a state ticket in the field with thirteen names on it.

Of course, everybody who has not forgotten knows that Chairman W. T. Lee, of the corporation commission, is a candidate for re-election. The Associate Justice W. J. Adams, of the supreme court, appointed to fill the unexpired term of Justice W. R. Allen, deceased, is a candidate for the first time.

Eleven members of the superior court bench are to be selected. The reason for the odd members that the elevation of Judge W. J. Adams to the supreme court caused a vacancy which could not be filled beyond the first general election, therefore, A. M. Stack of Monroe is the extra candidate. The other ten are:

- William M. Bond, Edenton, N. C., first district.
- George W. Connor, Wilson, N. C., second district.
- J. Lloyd Horton, Farmville, N. C., fifth district.
- Henry A. Grady, Clinton, N. C., sixth district.
- E. H. Cranmer, Southport, N. C., eighth district.
- Neil A. Sinclair, Fayetteville, N. C., ninth district.
- William A. Devlin, Oxford, N. C., tenth district.
- Thomas J. Shaw, Greensboro, N. C., twelfth district.
- W. F. Harding, Charlotte, N. C., fourteenth district.
- James L. Webb, Shelby, N. C., sixteenth district.

### MRS. GIBSON FIRES UPON PHOTOGRAPHER WITH GUN

New Brunswick, N. J., Oct. 31.—Angered by persistence of photographers, against her wishes, Mrs. Jane Gibson, a woman farmer and eye witness to the murder of Rev. Hall and Mrs. Mills, fired upon them with a shot gun. None were hit but the photographers fled.

### RAILROAD SYSTEM UNABLE TO MEET TRAFFIC DEMANDS

Washington, D. C., Oct. 31.—The railroad system of the country is still seriously handicapped and unable to meet traffic demands of the shippers because of car shortage and inadequate motive power, Secretary Hoover stated. It is suggested that the strike is reacting upon farmers, as lack of transportation facilities has something to do with depressed prices of farm products.

### All Signs at Present Point to Victory for Senator Pomerene Over Simeon D. Fees.

**THE PROSPECTS ARE THAT DEMOCRATS WILL GAIN IN HOUSE**

**Democrats Figure That Ohio Will Number Twelve to Sixteen Democrats**

Washington, Oct. 30.—Now on the last lap of the political campaign there is coming in many of the states the "whirlwind finish," in which each of the parties hopes either to swell the majority that it believes is coming, or change an adverse majority into a vote that will make it the winner. The chairman of the national committee of each party has spoken, and from each comes the assurance of victory for the party that is represented by each. While this is so, the evidence is that the tide is now running very strongly for the Democracy and that there will be great gains made by that party appears to be clearly evident.

Ohio, the home state of President Harding, is being made a battleground royal, the election fight going on there being one to the finish, and though the majority of President Harding was around 400,000 in 1920, there come the most definite statements from leading Democrats that this majority will be overturned and that there is no doubt but that Senator Pomerene, the Democratic nominee.

## CHIEF COMMITTEE OF RED CROSS TO ELECT OFFICERS

**Meeting to be Held in Directors' Room of Ayden National Bank This Afternoon**

The Executive Committee of the Pitt County Chapter of the American Red Cross for the coming year will be elected this afternoon at their annual meeting which will be held in the directors room of the Ayden National Bank in Ayden at 3 p. m. All Red Cross members are cordially invited to attend. The present executive committee, and their branch officers, and volunteers deserve great credit for the splendid Red Cross work done in the county this year. Pitt has had wonderful volunteer service in the Red Cross work, and we feel this more and more as we receive letters from other chapters asking that we explain our county program to them.

Miss Hubbard will give short talk relative to policies discussed at Red Cross National Convention in Washington.

## FOREST FIRES ARE RAGING WESTERN NORTH CAROLINA

**Forest Fires Raging Over Approximately 7,000 Acres of Land in this State**

Aheville, Oct. 30.—Forest fires covering approximately 7,000 acres of land have broken out in parts of western North Carolina since Saturday morning, and although a large area has been extinguished and placed under control, hundreds of acres are still aflame in various parts of the mountain region.

Forest and fire wardens have been named to fight the flames, largely confined to cut over lands and young timber and so far no lives have been reported lost or buildings burned.

The Sun Crest Lumber Company at Sunburst, one of the largest lumber plants in this section, was endangered this morning at 11 o'clock when a fire broke out within a few hundred yards of the plant. A number of employes were placed on duty fighting the flames and it was confined to approximately 30 acres.

The forest fire on the east and west forks of Pigeon River, near Cole Mountain, Haywood county, which covered 2500 acres of cut over lands was extinguished Saturday afternoon after fifty wardens had fought the flames the entire day.

Three acres were burned near Spruce, four miles above Sunburst, but was soon placed under control.

A fire covering several hundred acres is still burning about six miles northwest of Sunburst, Haywood county, and what is believed to be the largest fire, covering several thousand acres, is being fought near Crestmont, on the Tennessee-North Carolina line. A large amount of merchantable timber is believed to be the largest fire, covering several thousand acres is being fought near Crestmont, on the Tennessee-North Carolina line. A large amount of merchantable timber is believed to be in this fire only only meagre information can be obtained from the vicinity.

Several other fires in various parts of western North Carolina are raging and wardens are experiencing one of the most troublesome times with forest fires in several years.

### FIRE CAUSES HEAVY LOSS OF PROPERTY IN CHICAGO

Chicago, Oct. 31.—Women leaped from flaming windows into life nets, and scores made spectacular escapes when fire attacked a row of buildings causing a loss of one hundred and fifty thousand dollars. Tour were injured.

More than a hundred families are homeless. A special investigation has been started by fire Attorney High on the theory of a blaze incendiary. Mrs. Jack Sample leaped from a window while holding her daughter. They crashed through the net and struck the pavement and escaped without injury.

## SEVERAL CASES ARE COMMUNITY SING GIVEN HEARING IN CRIMINAL COURT LARGELY ATTENDED IN AYDEN SUNDAY

**First Hours of Day Were Consumed by Judge's Charge and Preparation of Calendar**

**TRUE BILL RETURNED AGAINST DALLAS FLOYD MURDER JAMES SMITH**

**Floyd Will Probably be Given a Hearing on Thursday of This Week, It Was Reported**

The regular October term of Pitt county superior court for the trial of criminal cases convened in this city yesterday with Judge Brock presiding with quite a number of cases being disposed of.

A true bill was found against Dallas Floyd for the murder of James Smith. Floyd was brought in court and pleaded not guilty. The case was continued until Thursday.

True bills were found against Joshua Boyd and Aid Wall for larceny, also against Will Turnage for larceny. In the case against Boyd and Wall both plead guilty. The verdict being that they be confined in jail of Pitt county for a term of six months to be assigned to work on public roads. Defendants paid cost of case.

The following cases were continued: J. S. Briley, assault, Charlie Whitefield and Jim Crisp, David James, for selling whiskey, Naega Forbes, larceny and Robert Reading, murder.

John Wiley and Joe Wilson were tried for operating a gambling house, Defendant Joe Wilson, plead guilty, and was given a suspended judgment for two years. John Wiley failed to appear.

In the case against Bill Slaughter, for carrying concealed weapon, judgment was suspended for three years upon good behavior and payment of costs.

The following cases were not pressed: Walter Walston, burglary; Michael Saleeby, selling whiskey; and Sherman Boyd for abandoning crops. Claude Jones, charged with receiving and selling whiskey plead not guilty.

The jury returned the following verdict: defendant was found not guilty of selling whiskey but of receiving more than one quart in 15 days. Jones was placed under bond and will be given trial later in the week.

Judge Brock is disposing of all the cases possible and by the close of the term the calendar will be cleared considerably.

## MEETING HELD TO DISCUSS THE CURB MARKET FOR CITY

**Joint Committee of Chamber Commerce, Kiwanis and Rotary Clubs Discuss Issue**

Last night in the Chamber of Commerce rooms, a joint committee meeting, between the Kiwanis Club, the Chamber of Commerce, the Rotary club, the merchants association, the board of aldermen and the Woman's club, was held for the purpose of discussing a curb market for Greenville.

Each of the representatives were requested to present the proposition to their respective organizations after which another meeting would be called for final action.

From the matter submitted at the meeting, it seems that several towns in the state are operating very successful markets. Benefit seems to accrue to all parties concerned.

### EMBASSADOR RICCI TO BE REACHED FROM U. S.

Rome, Oct. 31.—The foreign office has announced that deputy Susonin would recall Ambassador Ricci from the United States.

**Next Sing Will Be Held in Farmville During Month of November**

**SING GIVEN UNDER AUSPICES OF AYDEN RED CROSS CHAPTER**

**Great Success and Enjoyed by People From Every Section of the County**

The Pitt County Community Sing held in Ayden Sunday afternoon was most successful in every way. It was regretted that the auditorium could not hold the crowd but those who stood under the windows and sat in their cars said that they had never enjoyed mass singing more.

The sing was held under the auspices of the Ayden Red Cross Community Chorus and Mr. R. F. Pittman, chairman, had arranged the program without a hitch, though his necessary absence was regretted by all, and every one was disappointed not to hear the Ayden quartette number. The business men of Ayden had provided the sing sheets, and the folks songs and hymns chosen were unusually fine for the afternoon's program.

Rev. H. M. Brunson began the program with a prayer and a short speech of welcome, after which he introduced Sing Leader Mr. J. H. Rose, and Mrs. R. F. Pittman as pianist. The members of the Greenville and Farmville Rotary clubs, and the members of the Ayden Community Chorus sat near the stage and there was never a moment's hesitation because the songs were carried right off from the start.

The Greenville Rotary Club, led by J. H. Rose sang "Maggie" which was loudly applauded and then they sang one of the well known Rotary songs, "Carolina." The Farmville club led by W. G. Sheppard sang "Kentucky Babe," and it came up to the expectations of all those who knew that this song had won the cup to the Farmville club. "Sunny Tennessee" was sung beautifully as a solo by Mrs. Bowers and the Rotary club assisted by Mrs. J. T. Thorne, Misses Shifflet and Dotson sang the chorus.

Mr. Brunson invited every one to come to their Community Fair in Ayden on Thursday and Mr. Walter G. Shepherd requested that every one should come to the Community Sing for November which will be held in Farmville. President R. H. Wright asked that Pitt county should turn out "in toto" to a sing which they hoped to hold in March 1923 in their new auditorium.

### SOUTHERN EXPRESS CRASHES INTO SHOW TRAIN

Houston, New Orleans, Oct. 31.—Three are dead and six injured as the toll of a wreck this morning at Adeline, La., when the Southern Pacific express crashed into the rear of a show train. The show closed its performance at New Orleans, Sunday. The dead are William Joffes, an actor; Omar Jones, assistant manager, and R. Metcalf, traffic manager. All those who were seriously injured were taken to the hospital in Patterson, La. It is expected that they will recover. The bodies of the dead have been sent to Franklin, La., to await instructions of relatives. Officials state that the express was running late and that the accident was probably due to its endeavor to recover lost time.

### GIRL, 12, WINS HONORS IN LIFE SAVING TEST

St. Louis, Oct.—Ruth Elberfeld, 12-year-old daughter of "Kia" Elberfeld, manager of the Little Rock (Ark.) Baseball Club, has just received a certificate in the Red Cross life saving course ordinarily issued only to the adults. One of the extraordinary feats she performed in the course was towing a 100-pound man through the water for a distance of fifty yards, handling him four different ways, according to the requirements of the course.

### WHAT WILL THE BOARD DO?

At a recent meeting of the board  
of aldermen, there appeared before  
them a representative of the Stan-  
dard Oil Company requesting that a  
permit be granted said company to  
erect a filling station at Five Points.  
Nothing being accomplished at the  
meeting in regards to the matter,  
action was deferred until next Thurs-  
day night when a representative body  
of Standard Oil Company will appear  
for their final answer.

It is not known just what the city  
fathers are planning to do in regards  
to the matter, but it is to be hoped  
that they will give it due considera-  
tion and look at it from all angles.

before granting the permit.  
The site on which the filling station  
is to be erected is one of the most  
desirable locations in Greenville. It  
is a beautiful lot and with a large  
community building or department  
store it would be a credit to the town.  
A filling station would detract to a  
great extent.

The desirable site besides being  
located at Five Points, in the heart of  
the business district, is also located in  
the school district, and fire district.  
How that these points have been  
reached lets get down to plain facts.  
Is it the right thing for any board  
of aldermen to grant a permit to any  
person or party to erect in the school  
district or fire district any thing that  
would endanger the lives of people  
especially little children.

If the station is erected there will  
be two entrances from the main  
streets of Greenville, namely, Dickin-  
son avenue and Evans street. For  
nine months each year over three hun-  
dred and fifty children ranging from  
six to sixteen years of age are forced  
to pass this site on their way to  
and from school four times a day.  
Both streets mentioned above are  
extremely narrow and if the cars go-  
ing in and out of the station were  
not very, very careful, and drivers  
these days are not careful, then who  
can draw back the veil and see what  
the future holds? In our imagina-  
tion we know what will happen.  
Some one will be hurt and all the  
filling stations in the world are not  
worth the life of one little child or  
the suffering that it would cause.

Several weeks ago a request for a  
permit to erect a horse stables in the  
school district was presented to the  
board of aldermen, and this same  
body of wise and far-sighted men  
refused to grant the permit saying

that it wasn't sanitary and that the  
horses would endanger the lives of  
the children. Surely the board will  
see this matter in the same light and  
act in the same wise way as they did  
in the above named request.

Nearly every man on the board has  
a child attending school. Are you  
going to grant a permit for anything  
that you think will endanger the  
life of that child? Are you going to  
allow a filling station, with cars go-  
ing in and out all night, to be erected  
in the heart of the business section  
of our city? Are you willing for it  
to be erected in the fire district of  
the city? It is to be hoped that each  
member of the board will think on  
these questions and that when the  
final summons comes that the public  
will know that Greenville has a gov-  
erning body of men who can see far  
enough into the future to say to the  
representatives of companies who de-  
sire to build anything that would be  
a detriment to the town, "Get some  
other site but you can't build in the  
school district. Our children of to-  
day are our men of tomorrow and  
they must be protected." Remember  
"Safety First" always pays.

### WORTH \$9.02 A DAY.

Every day spent in schools pays a  
child \$9.02.  
Here is the proof.  
Uneducated laborers earn on the  
average \$500 a year for 40 years,  
a total of \$20,000.  
High school graduates earn on the  
average \$1,000 a year for 40 years,  
a total of \$40,000.  
This education requires 12 years of  
school of 180 days each, a total of  
2,160 days in school.  
If 2,160 days at school add \$20-  
000 to the income for life, then each  
day at school adds \$9.02.  
The child that stays out of school  
to earn less than \$9.00 a day is losing  
money, not making money.  
With no schooling—of five million

people, only 31 attained distinction.  
With elementary schooling of 33  
million people, only 338 attained dis-  
tinction.  
With high-school education—of 8  
million people, only 1,245 attained dis-  
tinction.  
The child with no schooling has one  
chance in 150,000 of performing dis-

tinguished service.  
With elementary education he has  
four times the chance.  
With high school education, 87  
times the chance.  
With college education, 800 times  
the chance.  
What is your child's chance?—U.  
S Government Report.

# Local News

## TOBACCO PRICES THIS WEEK PROBABLY BEST OF SEASON

Breaks of tobacco on the local auction warehouse floors have been light this week compared with the offering for the first two days last week. Many of the grades advanced with the opening of the sales yesterday, several dollars over the price of the past two weeks. The buyers appear more anxious for the tobacco than they have at anytime this season.

The warehousemen are advising the growers to sell what they have left as soon as possible, as there is no hope for better prices than the golden week is bringing at this time.

The sales for both yesterday and today were finished a short while after the noon hour.

## FELLOWSHIP BIBLE CLUB TO MEET TOMORROW EVENING

The regular weekly social session of the Fellowship Bible club of the Eight Street Christian church will be held in the basement of the church tomorrow night beginning at 7:30 o'clock. An interesting program is being arranged in addition to the regular luncheon, and every member is urged to be present.

## IMPORTANT MEETING CHAMBER OF COMMERCE TONIGHT

## COUNTY SCHOOLS TO OBSERVE TUESDAY AS HOLIDAY

Tuesday being the opening day of the Pitt county fair it will be observed as a holiday in the county schools, according to an announcement made today by Superintendent R. G. Fitzgerald.

The fair officials will be hosts to the school children on this day, and no charges for entrance will be made. It is hoped that as large number as possible of the children, throughout the county, will be present.

The fair this year will be the best ever held in the county and it is offering several interesting features.

Total 493 bottles. Average 98 bottles per day.

This is a splendid report and shows that the Parent-Teachers' Association

of the Model school has the interest of the children at heart. All medical societies and physicians state that milk is one of the best foods for children especially for undernourished children. A child may have all kinds of food and still not have the right kind. Milk contains all food materials necessary for the upbuilding of the body.

# SPEED WAGON

More than 70,000 Now in Use

Capacity, 500 to 2500 pounds

## What One Factor Contributes Most Towards Speed Wagon Suitability?

**ECONOMY**, says the merchant. "With the Speed Wagon I can deliver 25 pounds—or 2500—quicker and cheaper than by any other method."

**VERSATILITY**, asserts the manufacturer. "For ten-block deliveries or hundred-mile hauls I find the Speed Wagon equally adaptable."

**RUGGEDNESS**, answers the farmer. "A lighter vehicle couldn't last long on my roads; a heavier truck wouldn't get through."

**SPEED**, exclaims the interurban bus operator. "For patrons demand a fast running time, especially when I compete or cooperate with railroads."

**DEPENDABILITY**, vouches the city bus owner. "For Speed Wagon operation enables me to run on strict schedules; delays would kill my profit."

**SAFETY**, emphasizes the school-wagon driver. "The low-hung power units and sensible distribution of weight over the wheels make it hold the road."

**EASY RIDING QUALITIES**, remarks the ambulance owner. "It's long springs and pneumatic cord tires give the Speed Wagon passenger-car riding smoothness."

**STANDARDIZATION**, says the fleet owner. "Interchangeability of Speed Wagon parts is truly remarkable."

Chassis price \$1185 f.o.b. Lansing, plus Federal tax.

Twelve standard bodies to select from.

Today the Speed Wagon is used in 263 different lines of business.

## Good Soap at less than 1c a Cake

A Powerful Cleanser for Kitchen and Laundry Easy to Make with Red Seal Lye

Here is the way to true soap economy. Why buy expensive laundry soap when an excellent pure soap may be made with Red Seal Lye for a fraction of the cost? One can of Red Seal Lye will make 20 cakes of pure soap, enough to last several months for all washing and scouring purposes. Easy directions in the can.

There are many more ways to use this wonderful household necessity—each one a real money saver.

If the drains show signs of clogging, a little Red Seal Lye sifted into the pipes

will free them immediately. Toilets and sinks should be frequently disinfected with Red Seal Lye. It kills the germs.

Is there an old lamp in the house that needs cleaning? Red Seal Lye will make it shine in a jiffy.

Scour that dirty skillet with Red Seal Lye and make it look like new. Red Seal Lye kills all disagreeable odors and has any number of other uses about the house.

Red Seal Lye is put up in neat round cans and is accompanied by complete instructions.

Write us today for a free copy of the Red Seal Booklet which explains all of its many uses.

Insist on the genuine granulated Red Seal Lye. Take no substitute.

COLE'S ORIGINAL HOT BLAST HEATER

over 1/3 to 1/2 your fuel bill and at the same time gives you double heating capacity. Come in and let us explain the features and guarantee of this heater.

## Our Guarantee

1. We guarantee a saving of one-third in fuel over any lower draft stove of the same size, with soft coal, lignite or slack.
2. We guarantee that in homes using open fire places, Cole's Hot Blast Heater will mean a saving of one-half on the fuel bill.
3. We guarantee Cole's Hot Blast to use less hard coal for heating a given space than any base burner made with the same size first pot.
4. We guarantee that the rooms can be heated from one to two hours each morning with the fuel put in the stove the evening before.
5. We guarantee that the stove will hold fire with soft coal or hard coal from Saturday evening to Monday morning.
6. We guarantee a uniform heat day and night with soft coal, hard coal or lignite.
7. We guarantee every stove to remain absolutely air-tight as long as used.
8. We guarantee the feed door to be smoke and dust proof.
9. We guarantee the anti-puffing draft to prevent puffing.

The above guarantee is made with the understanding that the stove be operated according to directions, and connected up with a good flue.

**"HALF CITIZEN" REQUEST OF FOREIGN APPLICANT STUMPS OHIO OFFICIALS**

Akron, O., Oct.—"I want to be half-citizen," declared a man of foreign birth, entering the Bureau of Naturalization at the court house here.  
Bob Murray, naturalizationist, was stumped. It was a new one on him.  
"You mean you want to become a citizen, don't you?" queried Murray.  
"No, please, I want to be half-citizen just now," was the prompt and emphatic reply. "Bime-by, please maybe I be other hal-citizens. That's what I hope, you know."  
"Just what do you mean?" Murray asked. "What is a half-citizen?"  
"Mister Judge, I want foist paper!"  
"Oh, I see," Murray said. "You want the first half of your citizenship first, and later on you'll take out your second papers. That's it, isn't it? A very good idea and one fully in accord with the Federal regulations," asserted Murray as he proceeded to comply with the wish of his visitor.

**POULTRY SHOW FOR GREENSBORO**

Raleigh, N. C., Oct. 31.—Returning to Raleigh from Greensboro where he met with the officials of the Central Carolina Poultry association and the State Poultry Association, Dr. B. F. Kaupp, poultry investigator for the Experiment Station, reports that the next annual meeting of the North Carolina Poultry Association will be held in Greensboro on December 13 to 15. This will be the official show of the state association and will be put on jointly with the show of the Central Carolina association of Greensboro.

According to Dr. Kaupp, this show will be absolutely free to all with no admission fees charged and will be the largest and best poultry show to be held in the South this year. In addition to the large number of entries representing all poultry breeds grown in North Carolina, a special educational program will also be put on during each night of the three-day meeting. On the night of the 12th, the annual meeting of the State association will be held. At this time there will be the election of officers and the inauguration of the association's effort to promote better marketing facilities for poultry in this State.

**INK SPLASHES IN LONDON**

London, Oct.—Ink splashing vandals are causing terror among women. Siding up behind finely-gowned women the vandals squirt ink on the most delicate fabrics and ruin them.

# RED CROSS WINNING IN FIGHT FOR HEALTH

**Better, Stronger Citizenry Now Emerging Out of Work in United States.**

The American Red Cross as an evangelist of better health has looked its problem square in the face. How it accepted the task revealed to it in the nation's physical condition as brought out during the World War, and conscientiously applied its activities to correction forms a vivid chapter in the forthcoming annual report. Historically and practically, nursing is a basic work for the Red Cross. In its public health nursing service, in instruction in home hygiene and care of the sick, nutrition classes, first aid and life saving courses and health centers, the American Red Cross is applying effectually the lessons learned during the war and making for a healthier, stronger and better nourished citizenry.

The task of the Red Cross Public Health nurse in the 1,240 nursing services now operating throughout the country instructing their communities in health essentials and disease prevention is demonstrating the possibilities of human betterment and the great benefits of enlightenment.

During the last year 313 new public health nursing services were established by Red Cross Chapters, and several hundred services so convincingly proved their effectiveness that they were taken over by public authorities. In order to promote this work \$30,000 was allotted to provide women to prepare themselves for public nursing. The home visits made by the 1,240 nurses aggregated nearly 1,500,000 visits to schools numbered 140,000, and in six months 1,250,000 school children were inspected by these nurses and where defects were found advised examination by physicians. In rural communities this service has made a very marked advance and has won thousands of converts to approved methods of disease prevention.

## DOG CAPTURES TRUANT MONKEY AT LIBERTY AFTER A LONG CHASE

(By International News.)  
Defiance, O., Oct. —After leading the countryside a merry chase for a week and successfully evading capture, the little West Indian monkey, which had been the proud possession of Charles Yearling, living three miles from Defiance, finally fell a victim to a Defiance county dog.

The monkey was received by Yearling early in the summer from a relative who engaged in government work in the West Indies. Recently he made his escape from the box in which he had been confined. All efforts at capture failed. He spent his time along the Maumee river and was likely to turn up almost anywhere. From Delaware Bend nearly to Defiance people got in the habit of looking in the treetops for the chattering truant.

Whenever the monkey was sighted farmers left their work and spent a while in futile effort to coax him back to captivity. It was no uncommon thing for a farmer to get up in the morning and find the monkey swinging through the orchard trees, helping himself to plums and peaches and apparently following a futile though not fruitless quest for some real West India cocoanute.

Even bananas failed to tempt the little fellow to again submit to captivity. And then came Frank Schwartz's dog in a surprise attack. He left the monkey no chance to escape, and with two good bites and a shake the animal immigrant was no more.

## E. G. WARDIN NEW POULTRY WORKER NOW

Raleigh, N. C., Oct. 31.—Announcement was made yesterday by A. G. Oliver, poultry club agent for the Agricultural Extension service, of the appointment of E. G. Wardin as assistant in poultry extension work. "Uncle Ned" as he became known among poultry club members during the war period, worked for the extension service under the emergency food production program during that war and filled his position with satisfaction. Because of lack of funds he was transferred to take charge of the poultry plant at the Coastal Plain Station near Wilmington. Here he obtained good results in handling the large flock of Rhode Island Red poultry kept for experimental work. He is coming back to headquarters to aid in the movement

for more farm poultry, especially in hill weevil territory.

Uncle Ned has had years of experience in poultry production. For a long while he was in charge of a poultry farm near Charlotte belonging to him and his brother and operated under the name of the Nevin Poultry yards. He has also had experience in handling poultry shows in the State and has done considerable judging. Some of his work has been done as assistant to Mr. Oliver in the poultry department of the North Carolina State Fair.

Mr. Oliver states that Mr. Wardin is a competent and practical poultryman, knowing how to handle and present the work in such manner that any farmer or his boy or girl can understand and use the information

# ENDING OF COAL STRIKE IN U. S. HITS THE BRITISH

### Cancellation of Orders for English Product Great Blow to London Markets

By DAVID M. CHURCH, International News Service Staff Correspondent.  
London, Oct.—The British mining industry has suffered a rapid and disastrous reaction from the settlement of the American coal strike.

During the summer months American coal orders poured into the British market and it was estimated that these orders would keep the British industry thriving until well into the winter. Since the settlement of the strike in the United States, however, cancellations of orders have flooded in, and the British mining industry is once more at low ebb.

Owners and employers are alike worried over the situation. Many mines are running but two and three a week, with consequent unemployment in districts where unemployment has been already most distressful.

Employers are seeking increased wages or other means of adjusting their difficulties. Owners claim they are already suffering heavy losses.

Frank Hodges, secretary of the Miners' Federation, has suggested that the burden be partly born by the householder and has proposed that there be an increase of six cents a ton in the price of household coal. The owners are not receiving this suggestion with any great enthusiasm because they claim that only one-seventh of the total normal sale is for domestic purposes and that such a step would not result in any general relief either to workers or owners.

"Miners' earnings are not more than 40 to 45 per cent higher than before the war," says W. A. Lee, secretary of the Mining Association of Great Britain, "and this, while low in comparison with railway men or municipal workers' wages, is not as low as the present earnings in other big industries."

"The economic position is such that everyone has to suffer, for the simple reason that there is not enough to go round, and in that sense miners are sharing in common with others."

"But it would be worse if, in addition to the low rate wages which now prevail in other industries, the miner had also the unemployment which exists in those industries. On the other hand, the stoppage of last year, which involved the owners in a loss of \$55,000,000, has also left the miners with a load of debt which must be cleared off."

Poor living conditions, which promised to be alleviated by the influx of American orders, are again reported from the mining district, and relief measures are being contemplated.

### FAMED EDUCATOR WILL BECOME CHANCELLOR OF UNIVERSITY OF BUFFALO

(By International News.)  
Buffalo, N. Y., Oct.—Dr. Samuel P. Capen, son of a distinguished college president of a by-gone generation, will be installed as chancellor of the University of Buffalo on Oct. 23rd. One of the inaugural speakers will be Dr. John A. Cousens, head of Tufts College, of which Dr. Capen's father, Elmer Hewett Capen, was president from 1875 to 1905.

Dr. Capen has resigned as director of the American Council on Education, at Washington, to accept his new position. The council's membership includes 145 colleges and universities which are banded together for discussion and joint action on major questions of higher educational policy.

The University of Buffalo was founded seventy-six years ago. Millard F. Moore, thirteenth President of the United States, was its first chancellor. Two years ago in a city-wide campaign an endowment fund of \$5,000,000 was raised through more than 26,000 contributions.

### DUTCH PRIZE KNITTER

Edensor, Eng., Oct.—The Duchess of Devonshire has won a prize for knitting a pair of baby socks.

### LEAVES DOUGHNUTS ON DEPOSIT FOR DIAMOND

St. Louis, Mo., Oct.—Doughnuts for diamonds. Not a fair exchange and yet the Diamond family is wondering what became of the ewels.

When Miss Dora Diamond opened her safety deposit box at a bank here to take out a pair of 2.1-2 carat diamond earrings and \$200 she found only a doughnut, stale and decayed, in place of the sparklers.

### DUSSIA'S RULER IS RECOVERING

Nicolai Lenin, wife and children in Moscow.

Nicolai Lenin, with his wife and children, is shown in Moscow, where he is recovering from his recent fatal illness.

### THIS JUDGE BEATS WIFE-BEATER

Magistrate Edward Burke, also an alderman of Pittston, Pa., heard the charges of a wife beating against Anthony Aviano and, after fining him \$10, left the bench and walloped Anthony in the eye. Anthony took the count, but Judge Burke dragged him to his feet and knocked him down again.

YOU'LL THINK WINTER IS A TREAT — IF YOU GET THE PROPER HEAT!

### Congleton's Little Plumber

Cold weather's your friend if you warm up to it in the right kind of fashion. See that the plumbing in your house is placed in a serviceable condition or rather let us see to it for you. Now this is important. Let us hear from you by return mail—or phone us.

### BOY GETS \$15,000 FOR CANNED HEAT INJURIES

Syracuse, N. Y., Oct.—A Supreme Court jury returned a verdict of \$15,000 in favor of Arthur M. Kellam, eleven-year-old plaintiff, in his action against the Cortland County Agricultural Society for injuries received through the explosion of a container of "canned heat" at the Cortland Fair in 1920.

The verdict is one of the largest negligent action judgments on record here.

# Your Skin Trouble is Below the Surface

HEALTH FOLLOWS CHIROPRACTIC CORRECTS PRESSURE ON SPINAL NERVES IN DISEASES OF THE FOLLOWING ORGANS:

THE LOWER NERVE UNDER THE MAGNIFYING GLASS IS PINCHED BY A MISALIGNED JOINT. PINCHED NERVES CANNOT TRANSMIT HEALTHFUL IMPULSES. CHIROPRACTIC ADJUSTING REMOVES THE PRESSURE. THE UPPER NERVE IS FREE AS NATURE INTENDS.

The skin is clear and velvety when bodily conditions are right. Soap and cosmetics cannot prevail where the underlying health conditions are bad. A good skin is an asset to man or woman.

When there is a spinal bone displacement affecting the spinal nerves to the kidneys there is nearly always some form of skin trouble present. The kidneys practically control the action of the pores. A big contributor to bad skin condition is constipation. But primarily skin troubles are due to kidney troubles and when there is Bright's Disease, for instance, you see the extremely poor skin condition.

## Well after two years of experimenting

"For two years I suffered with chronic appendicitis and kidney trouble and was in a dropsical condition. I tried everything but without benefit until I was urged to see a chiropractor. Today I am greatly improved, have lost fourteen pounds of the dropsical flesh and my skin has cleared. I recommend chiropractic spinal adjustments to all sufferers from a trouble such as mine."—C. N. Welch, Chiropractic Research Bureau, Statement No. 1341-W.

YOU CAN make your appointment by telephoning 405 today.

UNCLE BEN SAYS:—"If you've got the habits, Nevvy, that makes you spend more than you earn, you're a crook, because you are forcing somebody else to pay for what you buy."
