PLAN TO RAISE ADDITIONAL FUNDS FOR ST. MARY'S

Special Gifts Campaign to be Conducted in Pitt County Nov. 20 to Dec. 1st.

Four generations of American women equipped in times of tragedy as well as prosperity for their duties in the home, church or in society at large have been sent out from St. Mary's school.

Today her enrollment of resident pupils is 204, her day students 58. St. Mary's is in fact a Junior college, her graduates take degrees from the University of North Carolina and other colleges in two years.

The years since the war have been critical for St. Mary's, as other schools. Physical equipment and financial resources have not kept pace with the rising costs and increasing demands for efficient training.

Plans are now being made for an intensive campaign for the purpose of raising the needed \$100,000. Unless St. Mary's secures this amount she must fall below the standard she should maintain and to which her proud heritage entitles her.

A Special Gifts campaign will be conducted in Pitt county between Nov. 20 and December 1st, with Mr. F. C. Harding, chairman, and financial support will be solicited from all who are interested in the school, and in the furtherance of education in the state.

FRENCHMAN BLAMES U. S. FOR SERIOUS CONDITIONS ABOARD

Clemenceau Believes Europe Would be in Better Shape if America Had Helped

New York, Nov. 22.—Georges Clemenceau today laid at the door of the United States blame for all the unrest in which Europe now seethes. Speaking before his second New York audience—an audience of business men—at the Chamber of Commerce of the State of New York, the aged French war Prime Minister declared that America had left France "in the lurch" after the war.

"It was a great mistake to leave without any proposal for an adjustment of matters," he declared. "It was the greatest mistake and the source of all the evil that is taking place now." "People ask me: What do you want us to do," he continued. "I fund answer. I don't know what I want you to do. I want you to interfere in Europe because you left it too soon. I want you to come back, make a little new trip to Europe, saying: Well, now, gentlemen, what's the matter with you—something gone wrong? I will give you some help. Can I be of use?"

The Chamber speech was but one of the high spots in the most stirring day Clemenceau has had since he arrived here Saturday for a tour, the aim of which was to be the winning of America to a close relationship with France.

KELLER MUST BE MORE SPECIFIC IN CHARGES AGAINST DAUGHTERY

Washington, Nov. 23.—Congressman Keller, Republican of Minnesota, must be more specific in impeach-ment charges against Attorney General Daugherty the House Judiciary committee decided in a resolution unanimously adopted today. Specific instances of alleged law violations must be filed before December 1st.

FUTRELL EXPLAINS WELFARE ACTIVITIES TO YOUNG STUDENTS

Welfare Officer Tells High School Students of Work Carried on in This County

Wednesday morning, November 22, at the High School, Mr. K. T. Futrell made a short address to the student body, explaining in a very interesting manner the purpose and idea of the Pitt county Welfare committee. Since the State legislature found necessary and brought into effect this organization two years ago fifty-four counties have appointed commissioners.

The Pitt county unit, headed by Mr. Futrell, has done good work in providing for the eight-five dependents which this county supports. His duty in this regard is not only to furnish financial aid, but to make investigations concerning broken families and persons who are unable to earn a living, and to give advice and help to the aged and infirm whenever possible. The school laws of truancy and compulsory attendance and those regulating employment of children are enforced by him. He is the judge and his consent must be obtained, when child labor is necessary.

The creation of such a committee in the various counties is a great step forward for North Carolina, and Pitt county counts itself fortunate to have secured for the carrying out of this work so able and untiring an officer as Mr. Futrell, who has won the admiration and confidence of the entire community.

WOODROW WILSON FOUNDATION FUND BEHIND IN STATE

Chairman Gaskins Receives Letter From Mrs. Daniels Asking Aid in Raising Fund.

J. C. Gaskins, register of deeds of Pitt county who headed the Woodrow Wilson Foundation campaign waged here several months ago, is in receipt of a letter from Mrs. Joseph Daniels, state chairman of the Foundation movement, asking his assistance in raising approximately nine thousand dollars necessary to complete the amount expected from North Carolina.

There will be no actual campaigning to raise this amount, Mrs. Daniels stated. It is hoped, however, that supporters of Woodrow Wilson who failed to subscribe when the campaign was in progress will take advantage of this second opportunity. North Carolina people owe the former president a great debt and there is no better way of acknowledging it than to subscribe to the Foundation fund.

Mr. Gaskins says Pitt county failed to measure up to expectation when the campaign was actually in progress, and it is hoped they will come across this time in real Pitt county style. Pitt county is as much indebted to the war president as any part of the country and its people should subscribe liberally to this cause in his behalf.

Subscriptions may be mailed to Mr. Gaskins at the court house any time within the next several days. They will be later forwarded to Mrs. Daniels so she will be able to tell when the quota has been reached.

SIXTEEN MEN ON TRIAL FOR CONSPIRING AGAINST THE U. S. GOVERNMENT

Pensacola, Nov. 23.—The trial of sixteen persons charged with conspiring to smuggle Chinamen and whiskey to the United States, was begun in the United States court here today. The government will attempt to show that a thousand dollars was paid for every Chinaman delivered in Philadelphia.

MRS. HEARNE DIES AT HER HOME HERE DURING MORNING

Funeral Services for Mrs. Charlotte Hearne Held at Cherry Hill This Afternoon

Mrs. Charlotte Moore Hearne, aged 78, died at her home on Second street this morning shortly before one o'clock. She had been in comparatively perfect health for one of her age for several years, and her death came as a distinct shock to the community.

Funeral services were conducted from the home this afternoon at four o'clock, interment following in Cherry Hill cemetery.

Mrs. Hearne was the widow of the late Benjamin H. Hearne. Before her marriage she was Miss Charlotte Elizabeth Moore, a daughter of the late Spencer and Isabelle Moore. She was born January 5, 1844 and would have been 79 years of age her next birthday. She was married to Mr. Hearne in Feb. 1867. His death occurred in 1914 which was three years prior to the celebration of the 50 anniversary of their marriage.

The deceased has been a faithful member of the Christian Science church for the past twenty years. She was well known in this section of the state and her death will be received with keen regret by hundreds of friends and acquaintances.

She is survived by four sons and three daughters. Mrs. Emma Evans, Mrs. Belle Harris, Mrs. J. L. Starkey, all of Greenville, and Messrs. J. L. Hearne, of Tarboro, Mack, C. W. and Roy Hearne of Greenville. She is also survived by two brothers, Mr. L. C. Moore, of this county, Mr. Zeno Moore of Whitakers and two sisters, Miss Ellen Moore of Whitakers and Mrs. Joseph Fleming, of Greenville.

SOUTHERN STATES WILL BE CLEANED UP BY PROHIBITIONISTS

Forces Will Concentrate Attack on Smuggling and Rum Running Now in Progress

(By International News.) Washington, Nov. 23.—The next step in the enforcement of the prohibition law will be to clean up the South, it was learned today.

The campaign will be concentrated on smuggling and rum running and illicit distilling. Commissioner Haynes has arranged a sweeping readjustment for practically every federal enforcement officer of the south.

He will leave next week to visit southern capitals and call on governors for the purpose of tightening up loopholes. It is believed a quantity of imported liquors are getting through Key West, New Orleans, Jacksonville, Savannah, Charleston, Norfolk and Baltimore.

TIGER GETS A THREATENING NOTE

New York, Nov. 23.—The police escort assigned to Georges Clemenceau during his stay in this city, was doubled this afternoon when the Tiger received a letter threatening his life. Signed "A World War Veteran."

The doctory old war premier, who came to America in an effort to strengthen the ties between this country and France, treated the missive lightly.

Colonel Stephen Borsal, designated to conduct Clemenceau on his tour, insisted, however, on taking no chances and turned the letter over to the police with a request for added protection.

When the Tiger started for the Chamber of Commerce, where he was to deliver a brief address, this afternoon, he was escorted by a dozen letter read: shrdl emfwp p ppp additional motorcycle policemen.

SEVENTY MEN ARE KILLED AND SIXTY ARE INJURED AS RESULT OF EXPLOSION AT COAL MINES

Officials at Alabama Mine Say 345 of 475 Men in Mine Were Rescued Uninjured

DISASTER CAUSED BY AN EXPLOSION OF DUST, IS SAID

Uninjured Men Were Trapped Several Hours Before Reached by Rescue Workers

Birmingham, Ala., Nov. 22.—At midnight tonight officials of the Woodward Iron Company, owners of Dolomite Mine No. 3, where 475 coal miners were entombed this afternoon by a dust explosion, sanctioned up the result of the disaster as follows: Dead, 70; injured, 63; men rescued uninjured 345.

Officials of the company said that the mine would be cleared of dead and injured by 2 a. m. Rescue crews had explored every entry at midnight when an official statement was issued. More than 30 workers uninjured by the accident and blast that followed were trapped for several hours. A man-way connecting No. 3 mine with Woodward No. 2 afforded a place of exit for scores, while others were brought to the surface by the mine mouth when it was cleared about 9 o'clock. Most of the uninjured men huddled themselves in groups in various places of safety, some a mile from the main entrance.

State militia is gradually assuming charge of policing the district surrounding the mouth of the pit tonight and it was stated that martial law might be called to avoid congestion about the mine, owing to the influx of the curious.

According to Treasurer D. E. Wilson, of the Woodward Company, many of the injured were already at their homes after receiving first aid treatment at the mouth of the mine, their hurts only being of a minor nature. Company physicians worked at top speed in emergency hospitals established on the ground at the mouth of the mine.

Mr. Wilson stated that the miners believed to be fatally injured had been removed to the Elizabeth Duncan hospital at Bessemer, near the scene of the accident.

Frank H. Crookard, president of the Woodward Company, made the following statement at midnight: "Out of 475 men who were in the mine at the time of the explosion it now appears that about 70 were killed and 60 more or less injured."

"Air currents have been established in the mine and all parts can be entered. The mine itself is not seriously damaged by the explosion."

"The explosion was possibly caused by cars breaking loose and running down the slope, when electric sparks exploded the dust picked up by the speeding cars."

"Practically all of the injured are now out and are being given every attention. While the loss of life is terrible, we are indeed grateful that more of the large number of workmen on duty did not suffer."

ATTEMPT TO ASSASSINATE KING FERDINAND FAILS

Paris, Nov. 23.—An attempt to assassinate King Ferdinand of Roumania failed when assassians wrecked the wrong train, according to a Bucharest dispatch received this morning.

HENRY FORD BUYS \$20,000,000 COAL FIELDS IN KENTUCKY

New York, Nov. 23.—Henry Ford today closed his negotiations for the purchase of approximately twenty million dollars worth of coal fields in the state of Kentucky in order to start in the business of selling coal direct to the public. His first step will be to free the people of the Lake region from the clutches of coal profiteers.

WOMEN ENLISTED IN BEER BATTLE IN ST. LOUIS, MO.

Militant Auxiliary Included in Plans to Fight Prohibition Amendment

St. Louis, Nov. 2.—Organization of a woman's militant auxiliary was included in plans adopted by the association opposed to the prohibition Amendment for repeal of the eighteenth amendment at a twoday conference here of state secretaries of the organization, which was concluded yesterday.

Support of the association will be given the presidential candidate in 1924 who runs on a platform seeking repeal of the eighteenth amendment, according to a statement issued by the legislative committee of the association.

Belustering up of the wet forces in various states was among the plans adopted and efforts are to be made to put the liquor question before the people of the country, with stress being laid upon the effect to prohibition upon the nation's revenue, leaders declared.

Statistics show, they said, that the United States treasury would be richer by more than a billion dollars a year in liquor taxes if the Volstead act was modified to permit the manufacture and sale of light wines and beer as is allowed in Canadian provinces.

A fight against the Anti-Saloon League of America also was launched in the executive committee's statement, the organization being declared an obstructive force.

Federal enforcement of the Volstead act has proved a gigantic failure, according to W. H. Stuyton, general director of the association, who remained today to perfect plans for another national meeting.

WOMAN KILLS CHICAGO NUT SHELLER TODAY

Chicago, Nov. 23.—Michael Sciorfino, head of a nut shelling company, was shot five times and killed apparently by Mrs. Dornick Sciorfino, a sister-in-law. The police found the woman over the man's body with a pistol in her hand. There was a knife in the hands of the dead man.

INTEREST STILL ON AN INCREASE AT TENT MEETING

Sermons of Mrs. McAdams Proving of Great Help to Her Hearers

The best service of the week was held at the tent last night and those who attended thoroughly enjoyed the number of interesting facts presented by Mrs. McAdams. Her strange subject was carefully expounded. Her text was taken from these few words: "And the Lord opened the mouth of the ass."

Mrs. McAdams proved by the bible that God is speaking to men and women in different ways. The greatest sermon perhaps Peter ever heard was through the crowing of the cock, and King Saul's great sorrow came when the old prophet said to him "Do you hear the cattle lowing and the sheep bleating?"

God may have to speak through earthquakes and famines before reaching some in Greenville. When the call came last night four persons responded. The interest in these meetings are growing from day to day and the outlook for a successful campaign is bright indeed. Mrs. McAdams will preach on the subject of "The Second Coming of Christ" tonight. Four stoves have been placed under the tent to keep it warm these cold nights and no one need miss a single sermon because of the cold.

Mr. J. C. Brown, superintendent of the cotton mills, has kindly consented for the McAdams party and as many other as desire to go to the mill to hold services next Friday at 12:30 o'clock. It is hoped to make this an inspiring event and everyone is invited to attend.

"THE FIRST YEAR" TO APPEAR HERE WHITE'S THEATRE

Described as one of the most human, as well as humorous, comedies that has graced the American stage in recent years, "The First Year" will be the attraction at White's theatre Monday, December 4th. When a play labelled a comedy keeps an audience in good humor through an evening, it is generally considered to have filled its mission. "The First Year," however, does even more than this. During each of its three acts, it provides about two laughs a minute, on a conservative estimate, and the fun is continuous until the fall of the final curtain. Every possible variety of laugh is said to be coaxed from the audience, from the refined giggle that is afraid to be heard, to the hearty shout that doesn't give a whoop. As might be inferred from its title, "The First Year" deals with the early months of marital strife of a young bride and bridegroom. The cast that will be seen at White's theatre, Monday, December 4th, it is promised, measures up fully to Mr. Golden's high standard of selection and includes Gregory Kelly, Ruth Gordon, John W. Rausone, Fanny Rice, Ray L. Royce, Edith Wright, Tom Cody, Joseph Garry and Isabel Dearmond.

DEPARTMENT OF JUSTICE TO INVESTIGATE CHARGES AGAINST KU KLUX KLAN

Washington, Nov. 23.—The department of justice is considering the assignment of an agent to investigate charges of alleged violation of the federal laws by the Ku Klux Klan. The statutes will be examined to ascertain how far the government will go.

The charges have been supplemented with complaints governing the states of the south and west asking for federal aid. No comment has been made by the department and the nature of the complaints were not divulged.

RED PLOT FAILS TO MATERIALIZE IN GREAT BRITAIN

Widely Heralded Demonstration of London Unemployed Proves Failure

London, Nov. 22.—The demonstration by the unemployed which morning paper asserted was being plotted in communist quarters with revolutionary intent had failed to materialize up to late afternoon. A small crowd appeared in the Whitehall section, where the demonstration was supposed to be staged, but the police who had taken precautions to avoid a disturbance, had no trouble in maintaining order.

The widely heralded army of 100,000 or so desperate characters who were expected assemble on the embankment and try to beat their way through Downing street to enforce their demands for an audience with Prime Minister Bonar Law, was missing and none of the comparatively small number of demonstrators showed any pronounced inclination to challenge the authority of the police.

Organizers of the alleged plot are said by several papers, which claim sufficient official support for their statements, to be dangerous communists working in co-operation with Moscow. Their plan is said to be the exploitation of the large gathering of unemployed who marched from the provinces to London last week to call attention to their condition to ask the premier to receive a deputation.

Mr. Bonar Law declined to receive spokesmen of the unemployed but promised their cases would be heard by the ministers of labor and health. The leaders rejected this offer and latched upon seeing the premier.

Turners, spread throughout the city yesterday to the effect that organizers of the unemployed were determined to force an entrance to Downing street from Whitehall today and if the interview was still refused, to start a fight, many of the demonstrators being known to possess arms.

It seems probable, however, that the lurid suggestions made by some newspapers as to what might happen today will not be fulfilled, inasmuch as three labor commoners after an interview with Mr. Bonar Law last night agreed to advise the leaders of the unemployed to accept a conference with Sir Montague Barlow, the minister of labor, and abandon any plans for an attempt to force an entrance to Downing street. The Daily Herald says this advice was accepted and that a deputation will see the minister of labor this afternoon.

Women Poor Barbers, Says Tonsorial Chief

London, Nov. 23.—"Women are no good as barbers, they are unreliable and erratic, as most women are in work. Their skill may be remarkable today but positively dangerous tomorrow."

This is the challenging reason given for the official exclusion of women from the ancient profession of hairdressing by Mr. John Symonds, president of the Hairdressers' Association, who contends that only men can make efficient barbers.

STATE CONVENTION OF THE NEAR EAST TO MEET DEC. 2ND

Raleigh, Nov.—The annual state convention of the Near East Relief in North Carolina will be held in Greensboro December 2, according to announcement by Col. George H. Bellamy, State chairman.

The conference was originally scheduled for Raleigh. Col. Bellamy explained, but postponement of the Raleigh campaign until January 14 and reassignment of Bishop Cannon to the Greensboro campaign for December 2 made this change advisable. Bishop Cannon will address the delegates to the conference at the luncheon on the day of the conference.

County chairmen and volunteer workers from nearly every county in the state will attend, according to notices received from his organization workers by Col. Bellamy. Three officials from national headquarters in New York who have recently been in the stricken Bible Lands will also be present. Arrangements for the conference are now being made by Charles A. Hines, prominent Greensboro attorney who is chairman for Guilford county. Judge J. Allen Austin, city chair-

man for High Point, and Morris A. Bealle of Raleigh, state director of the Near East Relief.

The conference is an annual affair and has been held in Raleigh for the last three years. When a change was made necessary both Greensboro and Charlotte were considered, Greensboro getting the call. The purpose of the conference is not only for an interchange of ideas but to give delegates first hand impressions of conditions over there. Bishop Cannon was an eyewitness of the Smyrna disaster.

Among those county chairmen whose addresses will be awaited with interest are Mr. Hines who raised more money than any chairman in the state last year, Rev. George R. Gillespie of Gastonia, who put on the most thorough and extensive campaign of any chairman, Senator Solomon Gallert of Rutherfordton, who showed the best small county campaign, Rev. William J. Gordon of Spray and others.

FEED CALVES AND PIGS SKIM MILK.

(Auspices Pitt County Chamber of Commerce.)

All experiments and experience show that four things are necessary to produce the maximum profit in dairy farming.

Grow your own feed. Save all waste. Utilize all products to the best advantage.

Improve your herd. If we use the money we get for a can of cream to purchase oil meal, cotton seed meal, or bran with which to produce another can of cream, there will be no profit left.

There is no better milk-producing feed than alfalfa and silage. Alfalfa is as rich in protein as wheat bran, greatly reduces the amount of high priced grain food required, and helps to maintain the fertility of the soil. We can grow our own alfalfa and make our own silage. Silage saves waste.

If we knew our hogs were worth \$7.50 per hundred pounds, we would not sell them for \$6.00.

Yet when we sell our butter fat and waste that protein of the food value contained in the skimmed milk by not properly feeding it, we are not getting as much for our dairy products as we should.

A hundred pounds of skimmed milk when fed to hogs or calves while it is fresh and sweet, and contains the

WOMEN TO CONTINUE PROHIBITION FIGHT

The Women's Christian Temperance Union, in their big Philadelphia convention, expressed a determination to make a fight to prevent any amendment to the Volstead Act that would permit the manufacture and sale of light wines and beers. Miss Anna A. Gordon, of Evanston, Ill., is the newly elected President of the Union. Mrs. Ella A. Boole, of New York, is Honorary Treasurer. Mrs. Elizabeth P. Anderson, of Fargo, N. D., is Recording Secretary. Mrs. Margaret C. Munns, of Evanston, Ill., is Treasurer. Mrs. Sarah H. Hoge, of Lincoln, Va., is Assistant Recording Secretary.

animal heat, has a food value that is equal to five times the value of one pound of live hog.

Skim milk, fresh from the separator, is one of the best foods for growing calves and pigs. It contains all the necessary food elements except butterfat and a substitute for that can be supplied at a small cost, but using corn meal, ground oats, cotton seed meal, etc.

By feeding the skimmed milk to calves and hogs, practically all the fertility taken from the soil in the production of milk is returned to the soil. The butterfat, the only part marketed, contains little or no fertility.

If I came to you to buy a cow, would you sell me one of your very best animals? Or would you sell me one of your culls? The dairyman

who buys his cows never improves his herd. The only sure way to build up your herd is to raise your own calves.

Skim milk is the most economical feed for growing calves but it is important that it be fed regularly as it comes, fresh, warm and sweet, direct from the separator. When fed that way it is always the same. It is not some times sweet and some times sour, sometimes warm and sometimes cold. —By International Harvester Co.

State Trooper Guest At Moonshine Party

Elkins, W. Va., Nov. 22.—When a community moonshine party was given recently at a private house in a small town near here, J. M. Moore was among the invited guests. He

saw the still in operation and bought the first gallon of moonshine. Then Moore came back to Elkins, put on his trooper's uniform and, rounding up reinforcements, returned to the party. The still was confiscated, and four of the "hosts" shortly found themselves held in \$1,500 bail.

LAND SALE

By virtue of the power of sale contained in a certain deed of trust executed and delivered by R. Wingate and wife to J. J. James, Trustee, on the 3rd day of February, 1920, to secure certain indebtedness, fully set out in said deed of trust, which deed of trust was duly recorded in the office of the Register of Deeds of Pitt county, N. C., in Book 4-13, page 85, and also by virtue of an order made by His Honor H. G. Connor, Judge of the U. S. Court, in the case of M. K. Blount, Trustee of R. Wingate, in Bankruptcy, vs. J. J. James, Trustee, et al, the undersigned Trustee and Commissioner will sell for cash, at public auction before the courthouse in Greenville on Monday, December 4th, 1922; the following described farm lands and town property, to-wit:

Parcel No. 1: That lot of land in the town of Ayden, known as part of Block "G," according to the map of said town, beginning at the S. W. corner of said Block "G," at the corner of Lee and Third sts., and runs thence N. with Lee st., 90 feet to the line of W. R. Dennis's lot; thence with the line of said lot and parallel with Third st., 90 feet, thence S. parallel with Lee st., 90 feet to Third st., thence west with Third st., 90 feet to the beginning. It being the same parcel of land occupied by garage, and that conveyed to said Richard Wingate by J. R. Turnage and others by deed dated Dec. 10th, 1912, and is the same lot on which said garage is now situated, said deed recorded in Book I-10, page 407.

Parcel No. 2: Lying in the town of Ayden in Block "G" of the map of said town, adjoining above described property; beginning at the S. E. corner of the intersection of Third st. and the alley way, and runs thence in a westerly direction to Wingate's line, subject to the basement way in and to the alley way, next to and adjoining the Wingate line; thence north with Wingate's line to W. R. Dennis line; thence with said Dennis line a continuance of Wingate's line to an alley way; thence along said alley way in an easterly direction to the alley way first above mentioned; thence along said alley way in a southerly direction to Third st., the beginning point and is the identical parcel of land conveyed by J. H.

GREATER SUPPORT NECESSARY.

North Carolina failed to raise its
quota in the Woodrow Wilson Foun-
dation campaign conducted several
months ago and has been called upon
to continue the campaign until this
has been accomplished.

Mrs. Josephus Daniels is State
chairman and has advised Mr. J. C.
Gaskins, Pitt county chairman that
he will be expected to assist. The
state fell exactly nine thousand dol-
lars short. It was expected to raise
\$35,000 but didn't turn in but about
\$26,000. We can't afford to let the
thing run on like this.

Woodrow Wilson probably means
more to North Carolina and New
Jersey than any other two states in
the union. Jersey claims him as her
own and North Carolina claims him
as a citizen by reason of his long
residence at Wilmington many years
ago. The former president has done
more for the country than any other
of modern times and it is only proper
he should be recognized in every way
possible.

The foundation movement was
started for this purpose. But it can't
be a success unless every state sub-
scribes the quota expected of it. Pitt
county has always given liberally to
everything of a worthy cause and
can't fail to do so in this case.

Woodrow Wilson means as much
to us as any other section of the
state and we trust our people will
get busy and help Mr. Gaskins turn
in as much money as possible now the
second campaign has been proposed.

Mrs. Felton told the senate she was
the happiest woman in the world while
on the verge of relinquishing her seat
in the senate yesterday. That she has
a right to be happy cannot be ques-
tioned. It was a distinct honor and
one any woman would be proud to
claim.

Everyone will be glad to learn that
Rev. V. P. Scoville has been returned
to Greenville for another year's pas-
torate of Jarvis Memorial Methodist
church. He has served the denomina-
tion faithfully and efficiently the
last two years and will be able to
do even more during his third year.
All Greenville will join the Methodist
in congratulating him upon his re-
turn.

Mrs. Felton probably will be able to
return to Georgia better satisfied now
that she has been allowed to sit in
the United States senate. It was
the realization of her greatest ambi-
tion and when a woman at her age is
able to accomplish what she has she
is perfectly justified in retiring. She
has blazed the way for women and
if they follow as they no doubt will,
there is no telling what the future of
American politics will be like.

Surplus farm supplies of the United
States are causing depression of
prices we are told by Carl Voorman,
former assistant secretary of agricul-
ture. In that case it is to be hoped
those having the surplus on hand will
do everything possible to get rid of
it. Depression is one of the worst
things the country could have and the
sooner it is done away with the bet-
ter. There is reason to believe he
is right and if he is it will become
even more evident within the next
few months.

Construction work has started on
the hard surfaced road from Green-
ville to Bethel and its completion will
be awaited with pleasure by those
who have driven over the old road so
many times in recent years. This will
make the third hard road connecting
important Pitt county towns and very
naturally it will mean as much to the
Bethel section as to Ayden and Farm-
ville. Pitt county has an ambitious
program under way and when com-
pleted will give us one of the most
complete systems in the state in every
sense of the word.

J. W. Bailey, virtually an avowed
candidate for gubernatorial honors,
will go before the next general as-
sembly with a proposal looking to
the curbing of bond issues. That
he has something under foot the pub-
lic is interested in cannot be ques-
tioned in the slightest sense of the
word. Bond issues have been granted
too freely in past years and un-
less there is some restraint placed
upon the people the country will be
in an uncomfortable position in the
next few years. We favor the is-
suing of bonds when it is necessary,
but think of the times they have been
issued when they could have waited.
It's time for us to slow up a little
and in slowing up such things as
bond issues should slow up also. Mr.
Bailey will boost his chances of vic-
tory to no little extent if he brings
up a few more issues as important as
this one.

The Roll Call campaign of the
American Red Cross will continue
through Thanksgiving Day and those
who have failed to contribute, or we
might say to join the organization,
are urged to do so immediately. One
dollar is necessary to become a mem-
ber of this great organization. Most
anyone is able to give this amount
to the greatest institution in the
world. The Red Cross has been a
means of doing great good in time of
peace and war and no one can truly
appreciate the great work unless they
give. If you haven't given, get busy
and do so at once.

Plans are now being made for an
intensive campaign for the purpose
of raising \$100,000 for St. Mary's
school at Raleigh. Students, or we
might say former students in this
county, will do everything possible
to help subscribe this amount. A
special Gifts Campaign will be con-
ducted beginning November 20th and
continuing through December 1st,
with Mr. F. C. Harding, chairman.
The financial support of every ap-
preciative man and woman is request-
ed as St. Mary's has done a wonderful
work in past years and deserves the
best we can give. It is to be hoped
everyone will subscribe as liberally as
possible when called upon.

Clemenceau comes over here and
tells us that German militarists are
planning another war. We are glad
of the warning, but he won't hardly
find the American people so ready to
spring to arms as in former years.

BRIDGE CLUB.

On Tuesday afternoon, at the Wayside Tea Room, Mrs. K. B. Pace was hostess to her bridge club. The tea room was beautifully decorated with nasturtiums and yellow chrysanthemums and three tables were arranged for the games.

Mrs. Josephine Phillips making the top score was presented a hand painted perfume bottle.

After several interesting progressions the hostess served delightful refreshments which consisted of Angel salad, Parker House rolls, saltines, olive sandwiches and spiced tea.

This was one of the many social functions given at the Wayside Tea Room since its opening several days ago, and was thoroughly enjoyed by the members of the club.

"A FOOL THERE WAS" PRODUCT OF THREE BRILLIANT MINDS

Back in 1908 Frederick Thompson the creator of Luna Park and builder of the New York Hippodrome wanted to produce a play. About the same time Porter Emerson Browne, who had written many short stories was imbued with the idea that he wanted to write a play. Robert Hilliard, actor of many charming roles, particularly "The Stranger" in the Belasco production, "The Girl of the Golden West," just then decided he wanted to appear in a play that was somewhat different.

So the stage was all set for an idea and three brilliant minds, all unknown to each other, were working on it. None of them knew just what they wanted, although they had a vague idea.

Hilliard and Thompson first came in contact, and let each other know their desires concerning a stage production.

"Get me a play that has some punch in it, and I'll star you," said Thompson.

"For instance?" inquired Hilliard. "Well, I was just reading Kipling's poem, 'The Vampire,' the other night. Something on that line."

Hilliard went away musing, and two days later, when strolling down Broadway, bumped into Porter Emerson Browne.

"I am looking for a play," he told the author.

"Just so," replied Brown. "What kind?"

"A Fool There Was" quoted the actor and passed on.

Three weeks later his doorbell rang, and standing on the welcome mat was Mr. Brown with a manuscript tucked under his arm. It was the first draft of "A Fool There Was."

And so a great play was launched. It will be the attraction next Monday at White's theater.

STRESSES COAL WITH OTHER COMMODITIES

WESTPORT IS IRISH REBEL STRONGHOLD

In speaking before the American Association of University women in Washington this week George Otis Smith, of the U. S. Coal Commission, stressed the contents of coal in the other commodities of trade and every day use. One example he cited was the structural material that goes into a modern building. The Interior Department Building in Washington, where the Coal Commission has its offices, is a good illustration of office buildings of the modern type. Into its construction comparatively little material entered that was not of mineral origin, and so the geologist can look upon this large building as essentially a mineral aggregate and determine its mineral composition. From observation of this particular building while it was going up a rough formula has been deduced that can be applied to almost any modern office buildings, as follows: Take by weight 60 parts of gravel, sand, and crushed stone, 38 parts of tile and brick, 27 parts of building stone, 19 parts of cement, and 16 parts of steel, with much smaller proportions of copper and glass and asbestos and paint and tar.

Yet there is another mineral ingredient that enters into every one of the building materials, an invisible but essential component of the structure—the coal that helped to quarry and dress the stone, to smelt and fabricate the metal, to burn the cement and tiles and brick. And while the formula calls for 27 parts of stone the most conspicuous constituent of the building, it had been necessary to use nearly three times as much coal to produce all those raw materials and make them ready. Nor is this structural coal—37,000 tons of coal for the Interior Department Building—the whole of the contribution of coal, for it took perhaps another 3,000 tons of locomotive fuel to assemble all these mineral products from mine and quarry and fabricating plant, for no less than 22 States contributed the structural materials that went into this Federal building in Washington.

Commissioner Smith spoke on the topic, "Why coal is a national issue," and as bearing on the declared purpose of Congress, stated in the Borah-Winslow act, to maintain the uninterrupted flow of commerce among the states, he sketched the growth of interstate commerce since the time when the Constitution was drafted. Then intercourse between the youthful states was a matter of spilling sweat, or stagecoach, and even Washington's conception, promoter though he was of the Chesapeake & Ohio Canal, must have fallen far short of any picture of the conditions of today, when we are loading a million freight cars a week. "Commerce among the several States" has become much more than a phrase in Constitution law—it is the visible expression of a continent-wide community of interest. "Interstate Commerce" has been made the legal name of a Federal railroad commission, for the free movement of persons and goods from state to state over our 200,000 miles of steel rails is what binds our great country together in an economic as well as a political union.

Now, railroads without coal are well-nigh unthinkable. To return to their wood-burning locomotives of 50 years ago would not only be mechanically impossible, but there is not wood enough in the country to furnish the motive force we require. The cord-wood available in our forests, as estimated by the Forest Service, would last less than five years if it all were converted into the equivalent of locomotive coal, and even if all the standing timber of lumber value should be added to this and used for locomotive fuel it would replace coal for less than eight years more. Even fuel oil promises to be no adequate substitute for coal, for the fuel oil content of the whole of the United States' annual output of crude oil, even at the present rate, could run our railroads only between two and three months in the year. No fact, then, seems more easily proved than that coal is absolutely essential to commerce among the states on the scale demanded by our National life.

"General" Kilroy Routs Free State Forces and is Made President

Claremorris, Ireland, Nov.—Westport, in West Mao, at the head of Clew Bay, a little fishing village with half a dozen shops and one street, is the capital of "General" Kilroy's Western Republic.

In this area the Free State Army, which never exceeded forty men, made an unsuccessful attempt to clear out the irregulars.

The little garrison was beleaguered by 400 armed rebels, and escaped in boats at night about a month ago. Since then the "General" has been

proclaimed "President of the Republic."

His army, which amounts to 600 men, well armed, equipped and supplied, and has many advantages. The roads leading to the "Republic" which round the bases of precipitous cliffs an invading army must follow, wind from 1,000 to 2,000 feet high. Sentries are roosted and outposts have been established on the summits.

The subjugation of the "Republic" is a work of difficulty and will require both time and patience to accomplish. Already it is stated that General McKean is concentrating his attention on this area and forwarding troops to the border.

Recently "General" Kilroy, at the head of a column of 300 warriors, marched into Westport and purchased a large quantity of food supplies and clothing materials, for which he paid ready cash. Asked by one of his officers to attack and disarm the local Free State garrison, he replied that

it was not worth his while, as he had abundant supplies of arms and ammunition.

Preacher Shows Up Phony Spiritualist

Marion, Ind., Nov. 23.—A flashlight in the hands of Rev. D. L. Woodward, pastor of the First Baptist Church, disilluminated 20 citizens who were listening to the conversation of alleged "spirits" in a North Marion home recently.

The audience was cautioned at the beginning of the seance not to produce a light of any kind, because it would disturb the spirits.

After the "spirits" had talked for some time the Rev. Mr. Woodward, who was somewhat skeptical, took a large flashlight from his pocket, flooded the room with the light, and proved to the audience assembled that the "spirit" was the medium herself, talking through the trumpet. The disappointed audience then departed and the medium feigned a swoon, which was soon dispelled.

"Branch" of Ku Klux Formed by Youngsters

Bucyrus, O., Nov. 23.—The "E. Z. P." club, comprising thirteen members, all school boys in the upper grades, has been organized here. The youngsters call themselves "a branch of the Ku Klux Klan." Officers of the club are: H. C. Stevenson, ace; W. C. Beer, Jr., king; and Cecil Rhodes, jack. The officers were chosen by cutting a pack of cards.

ROY BROWN, AUTO THIEF, RETURNED TO PITT COUNTY

Sheriff Ernest Dudley returned early this morning from Washington City with Roy Brown, colored boy, who last week escaped with the sheriff's automobile. The return trip was made without anything out of the ordinary occurring. Brown, securely handcuffed, made no effort to escape, and Sheriff Dudley had no extra trouble. Preliminary hearing will probably be given the negro later in the week, although it isn't likely final sentence will be pronounced without the case going to a higher court. Brown had served practically a year in jail before stealing the automobile on a charge of the theft of electric fans from the Christian church a year or more ago. He will be faced by two charges this time, the first of stealing an automobile tire from the basement of the court house and the automobile.

BASKETBALL LEAGUE FORMED AT HIGH SCHOOL

In order to encourage all students take part in athletics, the High School has recently organized a basket ball league to be known as the Home-Sheriff's Room League. Included in this league are to be eight teams, one from each home room in high school. In the first game of the season, played on the high-school court yesterday, Room 10 (Freshmen) defeated Room 9 (Freshmen) by the decisive score of 22 to 4. Room 9 put up a hard fight but the goal shooting of Fred and Bob Forbes for Room 10 proved too much of a handicap and Room 10 scored an easy victory.

MRS. McADAMS WILL PREACH AT ARTHUR THANKSGIVING DAY

Mrs. McAdams, who is conducting the evangelistic campaign at the tent at the corner of Third and Cotanch streets, will preach at the Free Will Baptist church at Bell Arthur Thanksgiving morning at 11 o'clock, according to an announcement made this morning. The public is cordially invited to attend.

BASKETBALL SEASON WILL OPEN IN SHORT WHILE NOW

Following completion of the football season high school students will immediately begin practice for the opening of basketball season. The season this year promises to be of greater interest than ever before as the players are more experienced and seasoned than ever. The high school boys must depend almost entirely upon support given basketball to pull them out of financial troubles resulting from poor attendance during football season and it is hoped as many as possible will make it a point to attend the games this winter. Greenville has been highly successful in sports the last two seasons and if the splendid record is to be maintained it is up to the public to support the clubs in every way possible.

FOUR MARRIAGE LICENSES ISSUED SINCE YESTERDAY

The following marriage licenses have been issued by the register of deeds since the report of yesterday afternoon:
Mr. J. H. Creech, of Fountain, to Miss Emma Lee Williams, of Greenville.

What Is The Cause?

Because Chiropractic is succeeding and has succeeded where apparently only a miracle could succeed, a lot of myths about it have sprung up among the ignorant.

If the nerve force to the arm, for example, is cut off because of an injury to the spine, that arm shrivels in size and degenerates in every way. It will be cold when other parts of the body are warm, and will show other evidence of being cut off from the life forces that animate other parts of the body. The Chiropractor in such a case locates the spinal joint that is displaced, finds how it is displaced, and then, applying a series of adjustic thrusts over a period of time, gradually works the displaced joint back into normal position. As he does this the spinal nerves emitting to the arm are freed of pressure, and the life force again flows into the arm. There is nothing mysterious or magncial about it.

STOKES CITIZEN FREED FROM RHEUMATISM TO WHOM IT MAY CONCERN:

For four weeks I had what the doctors called rheumatism in my right elbow. I had not been able to sleep nights and was suffering intense pain all the time. The arm was badly inflamed and swollen.

As a last resort I decided to try Dr. Ball, the chiropractor, in Greenville. After taking the first adjustment I was able to sleep for the first time since the arm was affected.

At this time, after taking only six adjustments, I am practically well.

I am anxious to have other sufferers know what chiropractic has done for me.
