WALDROP ELECTED POST COMMANDER OF LOCAL LEGION

Herbert Waldrop Succeeds Dr. G. G. Dixon, of Ayden, As Head of Organization

COMMANDER DIXON MAKES PROPOSALS OF MUCH INTEREST

Decided That Third Thursday Night Would be Regular Meeting Date

The annual meeting of the Pitt County Post of the American Legion was held at the Rotary club last night at 6:30 o'clock and was well attended despite inclemency of the weather.

J. H. Waldrop, of Greenville, was elected post commander, succeeding Dr. G. G. Dixon, of Ayden, who presided over last night's session; W. H. Rogers, of Greenville, was elected adjutant; Lloyd Turnage, of Ayden, first vice commander; Dennis T. McLawhorn, second vice-commander; Frank Rice, finance officer; John R. Carroll, chaplain, Lester Jones, re-elected sergeant at arms and Mrs. Louisa Hubbard, insurance officer, J. C. Lanier, publicity officer.

The executive committee is composed of: E. G. Joyner, L. J. Smith, G. G. Dixon, D. L. Turnage, L. G. Congleton.

On retiring as commander of the post, Commander Dixon, made a short talk in which he presented two recommendations for the consideration of the post. One was that the post get a permanent home, and the other that the finance officer be instructed to remit immediately to state and national headquarters dues for next year of all men on the Pitt county roster.

The last recommendation, with exception of a few changes, was adopted and a committee was appointed to work with the adjutant the next few days to go over the roster and take out those who had moved from the county. The adjutant will then forward the new list to national and state headquarters.

A committee was appointed to look into the offer of a home in the town of Ayden, a proposition in which every member of the post is more or less intensely interested in.

It was decided that the third Tuesday night of every month would be regular meeting night.

The supper was one of the most elaborate which the post as enjoyed in a many a day and members who braved the inclement weather to reach Greenville were fully rewarded for attending.

A colored man whose name could not be learned was killed when an automobile driven by Everett Jenkins, colored, last Sunday night hit a horse and buggy driven by J. E. Whitehurst, one mile of Conetoe Creek. The buggy was completely demolished, the horse injured and the car turned over several times probably instantly killing the man riding with Jenkins.

Steff Jackon went to Conetoe and brought Jenkins back to Greenville where he was placed under \$1,000 for his appearance at a preliminary hearing to be given at an early date.

BANDITS ESCAPED FOLLOWING BOLD DENVER ROBBERY

Police of City Without Tangible Clues to Identity of the Bandits

Denver, Colo., Dec. 19.—Denver State and Federal authorities tonight, after a day and night search for the bandits who yesterday morning shot and killed Chas. Linton and stole a consignment of \$200,000 from Federal Reserve guards and made their escape in one of the most daring and sensational daylight hold-ups ever staged in the West, were without tangible clues as to the identity of the bandits.

Police, spurred on by the offering of a reward of \$10,000 for the bandits dead or alive by the city and county of Denver and by an additional reward aggregating \$5,000 offered by the Kansas City Federal Reserve Bank, admitted that although they had many clues that promised possibilities, they were still far from the solution of the hold-up.

Tonight a squad of fourteen detectives are engaged in watching a rooming house in the immediate vicinity of the government mint, where earlier in the day a car, evidently left on the street by the bandits to be used in case of accident to their own machine during the hold up, was discovered through information furnished by a woman. The car, an investigation showed, had been stolen. The automobile, according to the woman, had been parked on the street by three men about an hour preceding the hold-up and subsequent gun fighting on the front steps of the main entrance to the mint.

That the robbery was accomplished by Denver bandits and not by outside highwaymen, is the belief of Chief of Police H. R. Williams and the search for them is being conducted with that theory in mind.

Roads leading into the mountains were thoroughly policed today by details of policemen in an effort to find trace of the escaped men but all searching parties reported to headquarters their trips had been fruitless.

The Misses Eleanor and Aileen O'Sullivan, beautiful Irish girls, are so nearly alike, even in their own mother cannot tell them apart. TIGER OF FRANCE REACHES HOME IN MIGHTY BAD MOOD

Newspapermen Met by Snarling Roscoons as Clemenceau Leaves Boat

(By International News.) Harve, France, Dec. 19.—George Clemenceau, "Tiger of France," returned home today. Newspapermen who crowded around him as he stepped off the boat were met with almost snarling statements from Clemenceau. When asked of the precise results of his trip to America, he said it was not convenient to answer that. Furthermore, he said, it wouldn't be very friendly toward America. He stated that the interview which stated that he favored Harding's intervention in reparation negotiations was false.

S. C. WEED MEN TO GET CHECKS

Third Payment on Weed Will Be Distributed at Once; Total More Than 1921

Raleigh, N. C., Dec. 19.—Directors of the Tobacco Growers Co-operative Association in session here today voted to make a third payment to the tobacco growers of South Carolina, who recently received a second cash payment, which it is stated brought their receipts from this year's crop to more than they received for their entire offerings in 1921.

The third payment, it was announced, will be made as soon as practicable following the distribution of the millions of dollars, which will double the present receipts of the members in the Old Belt in January. Reviewing the work of the tobacco co-operative, twenty three men selected to represent the 60,000 organized tobacco growers in the Carolina's and Virginia reported that the outlook for the Association has never been so bright as it is at the end of its first year of operation.

TURK UP IN AIR OVER CONDITIONS AT CONFERENCE

Liberty of Straits and Fears of Turks Jeopardizes Lusann Conference

Lausanne, Dec. 19.—Turkish fears of the submarine and the swiftly flying aeroplanes laden with bombs and generally Turkish fears of aggression from without that will put Constantinople in danger have tonight placed the whole Lausanne conference in jeopardy.

The United States is silent in the situation, but the allied leaders say tonight that they have entered their protest on the question of the liberty of the Straits. Tomorrow the Turks must say yes or no to the allied project.

The British experts, Admiral Keys and General Burdett Stuart already have left for England, believing their work completed, and the French experts are preparing to depart tomorrow night at the conclusion of the last session of discussion of the Straits. Whether the lecture will come on the Straits' problem depends chiefly on whether the Entente diplomats and their experts can remove the Turkish fears. This they are trying to do tonight.

C., Dec. 19.—The executive committee of the board of trustees of the University of North Carolina, which will meet in Raleigh tomorrow to consider the location of proposed hospital and medical school for the University of North Carolina, will have before it, it is understood here tonight, a proposed to combine with Trinity College in the establishment of such an institution at Trinity.

In the event that the proposal is not accepted, it is stated Trinity College will proceed with the establishment of a medical school and an accompanying hospital approximately \$8,000,000 being available from the Duke interest and elsewhere for the purpose.

Christmas will be appropriately observed by Knights Templar of Pitt county and the day promises to be one long remembered. The observance will be in accordance with greetings sent out to every commandery of the nation by the grand commander. Promptly at 10:45 o'clock Knights Templar will assemble at the asylum. From there they will go to the Immanuel Baptist church where Dr. T. H. Flemmons will deliver a sermon conforming to the occasion. The services will be of a most inspiring nature, consisting of music under the direction of Professor Mullerberger and C. B. Rowlett, choir leader.

The templars will attend the services in full dress. It is obligatory that every member take part in this observance, Commander W. H. Horne, stated today, and it is hoped everyone will be at the asylum promptly at the appointed hour.

The observance will not be confined to Greenville alone. Every Knight Templar organization throughout the nation will conduct services of a similar nature, in an effort to carry out the desire expressed in the annual greetings of the grand commander.

DAUGHERTY CASE MOVING SLOWLY AT THE PRESENT

Representative Keller, Principal Prosecutor is Still Absent

Washington, Dec. 19.—In the absence of the principal prosecutor, Representative Keller, republican Minnesota, hearings before the House Judiciary committee on impeachment charges against Attorney General Daugherty moved forward today at a slow pace.

Representatives Woodruff, of Michigan, and Johnson, of South Dakota, republicans were before the committee by investigation of Chairman Volstead, but Mr. Johnson said his charges in the House last April regarding war frauds were directed solely at the war department, and Mr. Woodruff was not ready to proceed. The Michigan member said some of the charges he might present would be of impeachment character but he could not form definite opinion until he had examined documents at the department of justice.

Both Mr. Justice and Mr. Woodruff said there had been a decided change in the situation since last April when the latter charged the Attorney General with a failure to prosecute war fraud cases.

Mr. Woodruff said action had been taken in six of the eight or nine instances he had mentioned while Mr. Johnson voiced the belief that considering the amount of re-organization necessary and the mass of information to be digested beforehand, the Attorney General had moved with reasonable promptness.

It will soon be time for new resolutions. We call them new, but they are old ones made over.

STIRRING SERMON FEATURED SERVICE AT COURT HOUSE

Mr. McAdams Last Night Told of the Only Direct Way to be Saved

Mrs. McAdams last night brought a soul stirring message on the subject of "How Shall We Escape?" He declared negligence is the biggest sin in the world, because so many people are engaged in a negligent life. So many are looking for other ways to be saved other than through Jesus Christ.

He placed great stress upon the plan God had fixed for fallen man. Man has always suffered through disobedience and will continue to do so as long as he lives without Jesus. The sermon was one of the best of the entire campaign, but none were saved.

The subject of tonight's sermon will be "Salvation Today, or Death Tomorrow."

REFUGEES TELL COLORFUL TALE OF NEAR EAST

Congressional Committee is Told of Privations and Persecutions of Christians

Washington, Dec. 19.—Colorful stories of the privations and persecutions suffered by Christians in Turkey were told before the House Immigration Committee today in support of the White bill proposing to admit certain classes of Near East refugees into the United States.

One of those who testified was Elisa Shakhinian, herself a refugee, whose flight was stopped at Ellis Island. Released on bond by the immigration authorities she came to Washington and, between sobs, related how she had been carried into captivity by the Turks, how her near relatives all had been killed one by one, and how she had made her way to America only to find the door closed to her race.

George Horton, who was American Consul at Smyrna during the recent Greco-Turkish hostilities in that region, corroborated many of the assertions made by other witnesses regarding the tribulations of the Christian minorities in Turkey. He said he was speaking wholly for himself and not as representative of the State Department, but could not refrain from saying a word for those who had suffered so patiently in the Near East. When one committee member suggested that the refugees had occupied a district fertile in natural resources and should be sent back there to work out their own salvation, Mr. Horton replied: "For God's sake don't do that. You would be sending them to their death."

Representatives of the Near East relief, the Federated Council of Churches, the Young Men's Christian Association, and the Young Women's Christian Association were among others who appeared to ask for passage of the bill which would admit only near relatives of American citizens among the refugees and only until June 30, 1924.

TAXING OF BONDS BRINGS ON SHARP DEBATE IN HOUSE

Democrats Lead Opposition in Which Republicans Join In

PRESIDENT BACK OF PROPOSAL TO CREATE THE TAX

The Proposed Constitutional Amendment Gets Right of Way in House

Washington, Dec. 19.—After a sharp preliminary skirmish the House took up today a resolution proposing an amendment to the constitution under which issuance of tax exempt securities by the Federal government and the state would be prohibited.

Backed by the endorsement of President Harding and the Treasury the proposal was the center of a hard fight, in which many Republicans opposed it. Passage of the measure offered by Representative Green, Iowa, ranking Republican of the ways and means committee, which reported it will require a two-thirds vote of the House. Opponents claimed tonight it would be defeated, although leaders who caused it to be brought up insisted it would go through. Four hours of general debate, allotted under a special rule giving the measure right of way, had not been concluded on adjournment tonight.

Republicans speaking against the resolution were Representatives Graham, Pennsylvania, ranking Republican of the judiciary committee; Bacharach, New Jersey, a member of the ways and means committee; Crago, Pennsylvania; Cable, Ohio and Norton, Ohio. Representative O'Leary, Georgia, Democratic member of the ways and means committee, spoke for it and the speeches otherwise were along party lines.

Chairman Fordney, of the ways and means committee, Mr. Green and Representative Mills, Republican, New York, also of the committee, urged passage of the measure while Representative Garner, Texas, ranking Democrat of the ways and means committee, directed the fight against passage and made the principal speech.

With less than one hundred members in the chamber, Mr. Garner carried the fight into "enemy" ground by dealing out searing time to Republicans on his side of the contest. Throughout the debate the question continually bobbed up that the proposal would invade the right of the states to control their own credit.

"Already irreverent hands have been laid upon that sacred document, the constitution of the United States said Mr. Graham, "and I know of no more pernicious proposal than this. It is an effort to rob the State of one element of its sovereignty."

BIG CARGO OF DRUGS SEIZED

Police Discover a Concealed Shipment When "Barrel of Fish" is Knocked Over

New York, Dec. 19.—Drugs valued at \$100,000, which had been secreted in barrels of fish, were seized today by custom officials on board the French steamship, Fenwick, at her pier in Brooklyn. The vessel arrived here December 8, from Spain.

Discovery of the drugs was made, customs men said, when an automobile truck accidentally knocked over one of the barrels.

APPROPRIATION BILLS SENT TO PRESIDENT

### "DAMFINO" NAME OF FLORIDA HOME

Lake Worth Cottagers Have  
Pet Names for Their Dwellings

Lake Worth, Fla., Dec. 18.—Have you a little name plate on your home? Or does it prosaically bear merely the street number? How would you like to live in a home named "Damfino?" This unique appellation is inscribed over the doorway of one of the prettiest little homes in Lake Worth.

In Lake Worth nearly every house is named. Some of these names merely designate in what state or city the occupants of the house formerly lived.

Lake Worth is located six miles south of Palm Beach, and its homes represent almost every state in the union.

But not all of the houses are

named after states and cities. There is that "Damfino" for example, and then there is an attractive little bungalow called "Wellkit," which is a nice concise way of expressing the owner's satisfaction with life in general. Even more enthusiastic is the name "Delitt," which was noticed on another bungalow. A house set well back in a yard of velvety grass and surrounded by tropical shrubs and brilliant hibiscus blossoms, bears the inscription, "Home Sweet Home," and it surely looks the part. A large house is called "Maple Leaf," and there is another surrounded by tall Australian pine trees called "Pine Nook." Naturally there would be a "Sunny Side," and there is also a "Rose-Dale," and a "Rest-a-While." On the Dixie Highway, leading into Lake Worth from West Palm Beach, is a pert little green cottage, with white awnings and a general air of impudence that is enhanced by its name, "Why, The Idea!"

### THINGS LOOK BLACK FOR GERMAN PEOPLE

Berlin, Dec. 20.—Reckless opti-

mism is rampant during the past week is giving away before pessimism with realization that Uncle Sam is not going to play Santa Claus to Germany after all. All hands are engaging in the drab task of sobering up as result of Morgan's statement upsetting hope of an immediate loan. Christmas here will be even blacker than last, year, and antagonism against foreigners is growing more intense.

### MUSIC CAN DO MUCH TO QUIET IRELAND, MESSAGE OF FAMED OPERA SINGER

Dublin, Dec. 16.—"Sing, don't shout!"

This was the advice given to Irishmen by Madame Etrazzini, famous opera singer, when she visited here recently.

"I think it is a great pity Ireland should be disturbed as it is," she said in an interview, "but it is an internal quarrel, and I hope Irishmen will soon be friends and the present trouble will pass like all squabbles do in sensible families. A love and understanding of music can do much to

restore happiness and remove discord amongst the people."  
John McCormack, she says, is the greatest singer in the world.

### SMOKES PIPE 44 YEARS; BURNS TON TOBACCO

Sherman, Tex., Dec. 18.—Something new in the way of "world's records." William Pitts was the recipient of a meerschaum pipe as a gift from a friend in 1878. He has been a constant devotee of the weed ever since, but has never permitted another pipe to touch his lips. He believes that he holds the longdistance record. He estimates he has smoked about a ton of tobacco in the one pipe.

#### ELIMINATING CROSSINGS.

The state highway commission has under consideration certain plans looking to the elimination of dangerous railroad crossings and the preventing of speeding. The sooner this is put into effect the better conditions will be in every part of the state. Every county with hard surfaced roads will be able to realize direct benefit from the plans and there will be very few that will not accept.

Pitt county should be among the first to apply for aid. With the most ambitious road building program of any other county in the state under way it is very necessary that we do everything possible to make them safe for the public.

Speeding has already assumed alarming proportions with only two roads completed and what will be after the entire program is completed. There are many dangerous crossings throughout the county and unless they are eliminated in some way the loss of life will be appalling some time.

A number of these crossings are in the town of Greenville, and if state aid isn't available the town should look after the matter. Something must be done and the sooner it is the better everyone will like it.

Persons desiring to do suffering humanity a good turn should contribute to the King's Daughters. Numbers gave to the erection of the community hospital which was recently abandoned. This money will be refunded to them by the committee in charge. If it is still desired that this money go to suffering humanity, why not give it to the King's Daughters who are doing everything possible to care for those unable to care for themselves. No organization in the country is doing more to make life brighter for the suffering and destitute than these women and those who give to their work may rest assured of having done their part. No sum, it matters not how large, would be too great and it is to be hoped those who feel like doing so will contribute liberally.

#### RELIEF WORK IN PROGRESS.

It is gratifying to note that relief work has been so well organized at New Bern. The extent which this city and its people have suffered as result of the recent fire can hardly be imagined by those who have not seen the devastation wrought by the flames. While relief forces have done everything to prevent the people from experiencing any greater hardship than possible there are some who actually suffered and who will continue to suffer in a way despite everything that can be done for them. Many of the sufferers who lost everything they had accumulated in a lifetime, and as they look back over the long hours of toil spent in getting what they had, no wonder they should experience moments of mental torture. The spirit of the people of the state in responding to the call for aid has done much to assuage the feeling of the sufferers, however, and they can face the future assured of having the best wishes of a kindly people. Rebuilding of the devastated area will do much towards diverting the minds of the losers, but it is probable no one will ever forget the red demon that snatched worldly possessions from them in an amazingly short time.

The conflagration was the greatest in annals of the state and will stand out prominently in the history of New Bern.

While the idea of erecting a Memorial hospital in Greenville has been abandoned subscribers to this fund at least can accomplish their purpose by giving their refunded contribution to the King's Daughters. This is the only organization in Greenville doing any active work to relieve the sick and distressed and it is the duty of the more thoughtful to help them in every way possible. There are hundreds of cases handed in Greenville and Pitt county annually. How much greater would this service be if the daughters were provided with adequate funds to carry on the work. Since the hospital has been abandoned, let us do what we can for the helpless through the King's Daughters.

Re Cross tuberculosis Christmas seals should be bought liberally as they serve one of the greatest purposes it is possible for anything to serve. There are thousands of people in this county suffering from the dread disease. Money derived from the sale of stamps will be devoted to their relief, therefore, it is imperative that the public purchase as liberally as possible.

Representative Keller declined to give testimony against Daugherty under oath. Under this condition he shouldn't be permitted to bring forward any charges at all. If there was anything to what he has to say he would certainly favor taking oath. In fact, it begins to look as if he isn't so cock sure of himself as when the controversy was first started. Attorney General Daugherty may not be the best in the world, but it's safe to say he is as good as the rest of the cabinet.

The potato crop would be much more valuable in Pitt county if our farmers would get busy and erect storage warehouses to assure proper preservation. The old way of depending upon beds is no longer considered right, and the farmer desiring to realize the most from his crop should contribute to the erection of a community storage house where all potatoes of the neighborhood may be stored. This eliminates the probability of the loss of thousands of dollars which is an annual occurrence in every agricultural section. We trust Pitt county farmers will give the matter the consideration which it deserves. Other growers have found it a paying proposition and there is no reason on earth why we should not.

While most people have already mailed their Christmas packages there are still a number of belated ones who should not fail to purchase tuberculosis Christmas seals to place on letters and packages. Money spent for this purpose is devoted to one of the greatest causes of the present day and we trust everyone will buy as liberally as they can. Think of the thousands of people suffering from the dread disease who are unable to care for themselves. Money derived from the sale of seals will go to their support, so do your part by suffering humanity.

The reparations commission has wrangled over the question of reparations until its members can't do anything but wrangle. That something should be done cannot be questioned. They will never accomplish anything so long as they continue to haggle over issues at hand and the sooner this is realized the earlier the question will be disposed of. Countries involved are getting tired of the controversy which has been in progress almost ever since the war ended and if the commission can't do anything it should say so and quit. Something should be decided upon and when it is everyone will breathe easier, it matters not what the outcome may be.

Don't delay that Christmas shopping. The holiday season is almost upon us and to delay buying now would be the height of folly. The wise person always shops in advance of the holiday season and they always get exactly what they want. Be wise and shop before the rush actually begins.

There isn't a chance of doing your Christmas shopping early now. With only three more days before the holiday season begins it looks like it might be advisable to get immediate-ly.

The King's Daughters are asking the public to give liberally to the fund being raised for the community Christmas tree at the Cotton Mills. The Reflector has advocated this movement the past several days and is glad to lead its support in every way possible. The tree should be made an annual affair. Every city has a number of people who would see very little of Christmas joy were it not for their more generous hearted neighbors, and those able to do so should give as liberally as they can. The size of the tree of course will depend upon the size of the subscription, therefore, it is imperative for everyone to give freely.

#### GEORGIA FINDS POULTRY RAISING PAYING BUSINESS

(Auspices Pitt County Chamber of Commerce.)

The following from a Georgia publication shows that there is something to the poultry business:

"The baby chick business has grown to be one of the most important branches of the poultry industry, as people are learning the economy of buying chicks rather than to hatch them by the old method. We have the largest hatchery in the South Atlantic or Gulf States, and we are now installing additional mammoth machines in order to take care of the demand for baby chicks, especially the demand for broiler chicks. We now

have orders booked for thousands of broilers to be delivered in January or February, and could book orders for more if suitable eggs could be secured from which to hatch them. They must be hatched from eggs of pure bred Rocks, Reds or Wyandottes, and while we have thousands of these hens, we are unable to produce these eggs in addition to the eggs we must have for breeding stock.

"We are buying the most of our eggs from Tennessee, and are paying breeders of that State over \$500 per week now, and after January 1st, we will be paying them over a thousand dollars per week for eggs that should be produced in this State if our people would become more interested in pure bred poultry.

"We are paying twenty cents per dozen above the weekly Atlanta quotation for selected eggs from the heavier breeds. This premium above the market price for the run of eggs will net farmer or breeders many times more profit than if sold for table use. Farmers who will breed up pure poultry can get this additional price for their eggs and save this money for Georgians.

"Pure bred poultry, like pure bred live stock, once started can be produced at practically the same cost as common stock. When marketing same you will find results greatly in your favor.

"The above letter is an example in marketing eggs, but this is not all: buyers will pay a premium, over

the rice being paid for the run of common stock, of two cents per pound for better breeds which produce hens weighing over four pounds. You should also bear in mind that there is always a demand for pure bred poultry for breeding purposes, and considering all these points of advantage, you will find better poultry breeding most satisfactory.

"We hope everyone who is not already in this pure bred poultry development will lose no time in making a start, for even though it may be only a small beginning this season, you will have laid the foundation for possibilities of the future. We know of nothing more safe or sure of good results."

Many will regret to learn that Sarah Bernhardt, well known stage beauty, will never appear on the stage again. This woman won a place in the hearts of theatre-goers as few have ever done and that she will be greatly missed by those who have followed her brilliant career with interest. It is extremely unfortunate she should have been stricken with illness, but that is something no one is immune from and has no power to control.

## ANNUAL REPORT OF DIRECTOR OF CENSUS

Washington, Dec. 19.—In his annual report to the Secretary of Commerce, made public today, William M. Stewart, Director, describes the work accomplished by the Bureau of the Census during the three-year census period ended June 30, 1922.

During that period the Bureau made its preparations for the Fourteenth Decennial Census, which covered the subjects of population, agriculture

(including irrigation and drainage), manufactures, and mines and quarries (including oil and gas wells); conducted its field canvass, in the course of which approximately 90,000 enumerators and special agents were employed; and compiled and prepared for publication the census results, which in final form will fill quarto volumes having an aggregate of 12,000 pages.

During the progress of the work all the fundamental statistics and many detailed figures were published as bulletins or advance statements; and by June 30, 1922, the last of the manuscript for the final reports had been sent to the printer.

The Bureau has thus established a record in census taking. "So far as this census is concerned," said the Director, "the charge can not be made that the figures published are ancient history. It is safe to say that never before has the public been supplied with such an array of facts concerning the elements of our population, their social conditions, and their industrial activities so shortly after the data were collected."

It is noteworthy that the cost of the census work was kept somewhat below the total amount appropriated despite the unexpected obstacles encountered and the abnormally high wages and prices prevailing at the time the census was taken.

Aside from the decennial census work, the Bureau carried on its regular annual inquiries covering births and deaths in registration areas and cotton production, consumption, and distribution, together with a number of other statistical investigations authorized by law. The birth and death registration areas, which now contain 66 per cent and 85 per cent, respectively, of the total population of the country, are being extended from time to time, and it is expected that ultimately the entire United States will be included in one registration area for both births and deaths.

The Bureau's office force, which at the beginning of the fiscal year 1922 numbered 2,388, was reduced from to month until on June 30, 1922, the close of the census period, it comprised 881 officials and employees.

Attention is called in the report to the handicap under which the Census Bureau labors by reason of its low salary scale, which was the chief cause for the separation, between July 1 and September 15, 1922, of 75 out of a total of 765 clerical employees; that is to say, one-tenth of the entire force left the Bureau's service in the

short period of two and one-half months, the majority of them having obtained employment in other bureaus or offices at higher salaries.

## TRIES TO BLOW UP MOTHER-IN-LAW

Paris, Dec. 19.—Nobody loves a mother-in-law.

Monsieur Thomas, a Parisian, who has mother-in-law troubles all his own, thought his star of hope had dawned when he began reading about the frequent explosions of stores burning anthracite coal.

Bright and early one morning he descended to the kitchen and poured a bag of gun powder into the range before the good old lady had a chance to start the fire for morning coffee. But unfortunately M. Thomas's knowledge of chemistry is very limited. The loose powder produced nothing more than a few hisses and a spluttering blue flame, which aroused the suspicion of mother-in-law.

She immediately set about tracing his hand in the affair, and her son-in-law found himself summoned before the police, where he is now under arrest for his practical joke. His wife is heaping more coals upon his head by using the powder incident as grounds for divorce.

### 4 BOXING CROWNS ARE LOST IN 1922

Defeat of Georges Carpentier by Battling Siki Is Year's Biggest Sensation

Battling Siki

Four champions were separated from their titles during a rather tempestuous year in boxing. Johnny Buff being a victim of two major operations. The reigning sensation, however, was the stunning knockout of Georges Carpentier by Battling Siki, a half savage from Senegal, in a bout for the world's lightweight championship. The so-called "orchid man" was a 10-to-1 shot before the bout, but Siki led all the way after the second round and scored a clean knockout in the sixth.

Charges and countercharges were also after the affair, each accusing the other of foul tactics. Only a short time ago the Senegalese, suspended and deprived of his title by the French authorities for unbecoming conduct, gave out a statement to the effect that the bout was framed. The question of a return fight is being considered.

This was only one of many bouts in which form turned hand-springs. A case in point was the Mickey Walker-Jack Britton fight, in which the welterweight title changed hands. Britton was an odds-on favorite until a short time before the men entered suddenly to Walker.

At the start of the year Buff was the proud owner of the world's bantamweight and the American flyweight titles, and at the end he owns neither. Joe Lynch deprived him of the bantamweight belt by scoring a knockout in the thirteenth round, and a little brown man from the rice paddies of the Philippines subsequently came along to flatten Buff for the long count in the tenth round, thus acquiring the flyweight title. The little brown man was Pancho Villa, unknown and unsung twelve months before.

Another dethroned champion was Gene Tunney. In an unguarded moment Gene allowed himself to be inveigled into a match with Harry Greb, with the American light heavyweight title at stake, and Greb flailed his way to an easy victory at the end of fifteen rounds. At the end Tunney's face had been reduced to human hamburger.

Jack Dempsey signed an agreement to meet Harry Wills for the heavy-weight title at the insistence of the New York State Athletic Commission, but nothing has come of it. The Commission had set a precedent in this respect by suspending Johnny Kilbane and Johnny Wilson for failure to accept challenges for their respective featherweight and middleweight titles.

Both championships were declared vacant, but this decision was not ac-

cepted in other states. Benny Leonard had his most active year since falling heir to the lightweight crown. This he defended successfully against Rocky Kansas, Ever Hammer and Lew Tendler, the last named collaborating in the greatest lightweight attraction since Gans first met Nelson. At the end of twelve no-decision rounds Leonard was awarded the unofficial verdict by a great majority of the critics, although Tendler had the champion in distress in the eighth round. A crowd of nearly 30,000 witnessed the bout, the greatest turnout since the memorable affair between Dempsey and Carpentier.

#### SAYS BRITAIN IS ONLY NATION LIVING UP TO WASHINGTON CONFERENCE

London, Dec. 20.—Charging that Great Britain is the only nation that has made a real attempt to carry out provision of the Washington naval disarmament treaty, Admiral Sir Reginald Hare, former director of the British naval intelligence department, declared it would be perfectly proper that the nation suggest the calling off of an agreement altogether.

#### SEVERAL ARRESTED ON CHARGE OF ROBBING GOVERNMENT STORES

New York, Dec. 20.—Charged with stealing government supplies, twenty-two civilians employed at the Brooklyn navy yard were arrested today by the department of justice officials. The indictments were issued through the federal grand jury at Brooklyn which recently alleged that more than a million dollars worth of goods were stolen from the base since the war.

## Why Nervousness Is an Enemy to Health

Nervousness is an enemy to health because it prevents rest and relaxation. Nervous people cannot sit still, and therefore do not get the rest they should from a sitting position. Nervousness prevents sound sleep and it is equally guilty of preventing concentration, or the ability to hold the mind on a given line of thought for any length of time.

Nervousness is caused by irritating pressure on spinal nerves. This pressure is caused at the spinal nerve opening by displacement of spinal bones from their true alignment. The correction of this defective alignment lies solely in the hands of the Chiropractor, whose science teaches him how to detect such points of pressure and how to make the proper adjustments to start the displaced bone back into proper position. There is no better method of overcoming nervousness than by Chiropractic spinal adjustments.

### Several Years Suffering Ended

"After several years of suffering from eye trouble, rheumatism and nervousness and getting no results from medical treatment, I can truly say that I got immediate relief as soon as I started Chiropractic spinal adjustments. Now my eyes give me no trouble at all, I am not bothered with rheumatism at all, and my nerves are as steady as a rock."
