ALLIES UNITE IN OPPOSING TURK AT CONFERENCE

Courts and Laws of Turkish Government Meet With Direct Disfavor

TURKS FORCED TO ACT QUICKLY IF BREAK IS AVERTED

Ambassador Child Wants Turkey Not to Isolate Herself at This Time

Lausanne, Dec. 28.—Ismet Pasha has failed to persuade the United States and the European powers that Turkish laws and Turkish courts afford adequate protection to the life and property of foreigners residing in Turkey, and the Near East conference stands in grave danger of breaking up on this question.

Europe and America insist that special courts, upon which foreign judges sit, must administer justice to foreigners in Mustapha Kemal's republic. Ismet Pasha declares that such courts would be an infringement on Turkish sovereignty. In fact, he reiterated this declaration so often at today's stormy meeting of the commission of captulations that Lord Curzon retorted:

"I beg that Ismet Pasha wrap up and place carefully away in a cupboard this question of Turkish sovereignty, which nobody wishes in the least to offend. Turkey is not the only country which enjoys sovereignty; many other powers have it and frequently greater powers than Turkey submit questions to international tribunals without fear of impairing their sovereign rights."

Ismet had declared that Turkish laws and Turkish courts were the equal of any in Europe so far as Lord Curzon continued, that he had actually come to believe it.

"The important thing is not what the Turkish delegation thinks about Turkish justice," added Curzon, "but what the rest of the world thinks about it. England's King George IV convinced himself that he led the guards at the battle of Waterloo, but nobody else ever believed it, and history does not record it."

"The plain truth is, Turkish laws are based on Moslem law and were drawn by Moslem jurists and theologians. The judges are uneducated, poorly paid and dilatory. The same is true of the police and the whole mechanism of Turkish justice is defective. Under Turkish courts foreigners cannot conduct business in Turkey and it will be impossible for Turkey alone to get the machinery, transportation and food necessary for her reconstruction and development."

Marquis Di Garroni, M. Bomard, Ambassador Child and Baron Mayasht all spoke in support of the proposed courts for foreigners, upon which foreign judges designated by the international tribunal at The Hague shall sit. Under this plan Turkey would be permitted to select judges from the list submitted by The Hague tribunal.

GREEK GOVERNMENT PREPARES FOR WAR AGAINST TURKEY

The outcome of the peace conference is awaited expectantly and preparations are continuing in case of an expected break.

NEGRO CHARGED WITH AIDING IN HOWARD'S ESCAPE

Elijah Howard Brought From Washington and Confined in Jail Here

Elijah Howard, colored, was confined in the county jail here this afternoon on a charge of aiding in the escape of Robert Howard, who is alleged to have murdered another negro by the name of Naim Sneed the day after Christmas.

Howard was apprehended in Washington yesterday and authorities of that city immediately notified Sheriff Jackson that they were holding the negro pending further order. Sheriff Jackson immediately deputized O. F. Clark, who brought Howard back this afternoon.

The negro will probably be given a preliminary hearing some time this week or the first of next. It may be however, that he will be held until Howard is captured.

HUNDRED THOUSAND CASES OF WHISKEY SMUGGLED INTO U. S.

Ten Million Dollars Worth of Bootleg Stuff Sold Here During Holidays

(By International News.)

Washington, Dec. 29.—Smugglers imported at least a hundred thousand cases of whiskey, valued at ten million dollars at bottle prices, in a week before Christmas, government investigators stated today.

Reports from the treasury and justice departments disclosed that 11 of this whiskey probably reached big centers and was distributed to hundreds of purchasers in various parts of the country.

The South Atlantic coast was used as a landing spot for the boats, which are now en-route with a New Year's supply.

Over in Ireland, Dublin will be called Bait Eatha Ailath, but conditions there are much better than this sounds.

SNOW HILL MAN MEETS DEATH IN AUTO ACCIDENT

Alonzo Dail, of Snow Hill, Pinned in Ditch Underneath His Car

Kinston, Dec. 28.—Alonzo Dail of Snow Hill, aged 52 years, drowned after being pinned under a car following an accident near Mount Olive yesterday morning at 10 o'clock, while Hardy Suggs, 45, escaped with his life, when the car took a tumble off of a bridge and landed bottom side up in a water-filled ditch.

The accident was reported here yesterday afternoon. Both men are Snow Hill residents and well-known. Dail was preparing to move to Mount Olive. After the car turned over and landed in the ditch, although Dail was pinned down, his injuries would not have proven fatal had he not been held under water and drowned.

The bodies were taken to Snow Hill yesterday and the funeral will be held today there. The accident took place about 3 miles from Mount Olive.

HARDING THROWS WEIGHT AGAINST BORAH PROPOSAL

President Declares Senate Action Would Embarrass Him at This Time

Washington, Dec. 28.—Senate warfare over the Borah proposal for a world economic conference reached a dramatic turning point today when President Harding threw the full force of the administration against Senator Borah's plan as contained in an amendment to the Naval appropriation bill and in a letter read in the Senate virtually asked for its defeat.

Another day's general debate followed, but action went over. Plans were made for a vote tomorrow, so many more Senators desired to speak that, with those favoring the Borah rider report sparing for the time in an effort of recruiting delay over the New Year's holidays appeared possible. Defeat of the amendment was predicted positively by the administration leaders and conceded upon the present status of the battle by its companions.

The President's letter was addressed to Senator Lodge, of Massachusetts the Republican leader, and stated the Borah amendment would create "false impressions" abroad as well as at home to the embarrassment of what the administration already is doing toward aiding Europe. Evidently drafted with great care after consultation with Secretary Hughes, however, the communication failed to give any details of the negotiations it hinted were in progress.

President Harding asked the Senate today not to adopt Senator Borah's proposal for a new international conference, saying in a letter to Republican Leader Lodge that formed congressional action on the subject now would embarrass him in negotiations he already is conducting looking toward such a conference.

The President's letter was sent to Senator Lodge for presentation during the Senate's second day's debate on the Borah proposal, which is embodied in an amendment to the naval appropriations bill.

CAROLINA ALUMNI IN FINE SESSION WEDNESDAY NIGHT

Principal Address Delivered by Dr. W. S. Bernard, Native Pitt Countian

The Pitt County Carolina Alumni Association held a banquet at the Rotary building Wednesday night having as its guest Dr. W. S. Bernard, a native of Pitt county, now head of the Greek department of the University, who came to deliver a message from the Alma Mater to her sons who had gathered on this occasion to receive the Christmas message from their old Mother. Mr. S. O. Worthington acted as toastmaster, doing justice to the honor and conducting the entire program in such a manner as to make it full of interest throughout.

Before partaking of the tempting dinner that had been prepared one of the strongest Alumni in the county, Dr. Chas. O'H. Laughinghouse was called upon to make a few remarks before leaving as it was known that because of urgent business he could remain for only a short time. As usual Dr. Laughinghouse made some very timely remarks that were pleasing to all present.

The dinner, consisting of Grape Fruit, celery, roast turkey, brown gravy, cranberry sauce, cream potatoes, green peas, candied yams, biscuit, coffee and plum pudding with wine sauce, had been splendidly prepared and was thoroughly enjoyed by all.

Immediately after the dinner Hon. F. C. Harding was called upon to introduce the speaker of the evening, Dr. Bernard. Having known him since early boyhood and having watched his movements since that date he was quite fitted for the task and in his easy and becoming manner he introduced to the good number of Alumni and University students, who were present, Dr. Bernard.

Dr. Bernard arose in his dignified and easy manner and stated that he had come to deliver a Christmas message from the Mother University to her sons who had gathered on the occasion to receive such, and that he was quite sure that they were more interested in the appearance, health, attainments and aspirations of their Alma Mater than in any thing else that may be said about her. For quite a while he spoke on these topics every word of which was full of interest to all composing his audience.

After Dr. Bernard had finished with his speech Mr. M. K. Blount was called upon to respond to same which he did very appropriately stating that he was sure that all present were more than glad that they had been privileged to listen to the message sent out by their Alma Mater.

Others who were called upon for remarks were Roy Corbett, one of the 27 Pitt county boys now in attendance at the University, Senator S. J. Everett, who assured those present that he would always be pleased to render services to his Alma Mater, and Colonel F. G. James, all of whom made very timely remarks.

All present joined in and seemed to enjoy the singing of the old Carolina songs and yelling the yells. Dr. Bernard's speech was as follows, in substance. Under the head of personal appearance of the University he mentioned the new buildings which have recently been constructed among which are, four new Dormitories. A Social Science Building, a Post Office, Law Building, which is nearing completion, and the remodeling of Memorial Hall. He also referred to the railroad which has been carried upon the campus thereby eliminating the necessity of going to Carrboro to reach a train. The campus, he advised, is constantly being beautified as it is now in the charge of Dr. Coker.

Under the head of business organization he stated that the business managers office had been divided into several departments all of which required the services of several assistants such as stenographers, etc. He further stated that there are now over 200 members of the teaching force and over one hundred members of the administrative force the total of which is almost as much as the entire student body 22 years ago.

SHRINERS RETURN FROM MID-WINTER TEMPLE MEETING

Next Ceremonial to be Held in Washington Sometime in May

Greenville Shriners have returned from New Bern where they attended the mid-winter ceremonial of Sudan Temple held there yesterday. They reported a splendid trip and one of the most interesting programs in years.

The next ceremonial of Sudan will be held in Washington next May. While there were many other cities vying with the Pamlico town for honors, the decision went in their favor and next spring will find the Shriners journeying over the hot sands of Beaufort county towards Washington.

Another prominent feature of the meeting was the election of Raymond C. Dunn, of Enfield, as potentate for the coming year. This information was received with considerable interest here as Mr. Dunn is one of the best known Shriners in this part of the country and has served the organization faithfully in another official capacity.

Greenville was well represented at the mid-winter session and forged into the limelight through two candidates who passed over the desert sands during the day.

BUSINESS SHOWS IMPROVEMENT IN UNITED STATES

Herbert Hoover Says Future is Bright for Continued Development

Washington, Dec. 29.—Business industry in the United States on the approach of the New Year can regard progress of the past months with satisfaction and may look forward to prosperity early in 1923, Herbert Hoover declared today.

He pointed out that unsettled conditions in Europe is depressing trade to a certain extent, but is also keeping the price of agricultural prices down. Optimism is shown in action of the Federal Reserve board calling attention to production, employment and volume of trade and advancing prices.

Production and manufacturing of commodities is fifty percent greater than in 1921, says reports from the commerce department. Textile mills are twenty percent more active. The iron and steel industry has increased its output from sixty to seventy percent. Building construction has also increased. The only declines of importance occurred in the coal fields. Bituminous coal declined seven percent and anthracite forty-seven percent.

WOODROW WILSON FOUNDATION FUND IS NEARING GOAL

National Organization Reports Considerable Progress in Last Few Days

Washington, Dec. 28.—Friends of Woodrow Wilson who are raising a \$1,000,000 fund for the perpetuation of his ideals, celebrated his sixty-sixth birthday today by sending him word through a delegation which called at his S. Street home that the success of their movement was assured.

At the same time the Senate adopted a resolution, offered by Senator Harris, Democrat, Georgia, expressing "pleasure and joy" at his recovery toward health. The resolution was put through quickly with a chorus of ayes from the Democratic side of the chamber, many Republicans, apparently paying no attention to its purport.

The former President spent his birthday quietly. A group of men and women stood in the rain in front of his home hoping that he might appear to greet them. All they saw of him was a glimpse as he drove off for his daily ride.

During the day messages of felicitation came to Mr. Wilson from all parts of the world. A few close friends called to extend greetings. The Woodrow Wilson Foundation committee arrived at three o'clock for a forty-minute visit. In the group E. Simonson, of New York City; Mrs. J. Malcolm Forbes, of Boston; and Miss Caroline Ruutz-Rees, of Greenwich, Conn., all members of the Foundation's executive committee.

The delegation told Mr. Wilson that contributions to the fund already had passed \$800,000, probably now approximately \$900,000, and would in the near future undoubtedly reach the \$1,000,000 goal. The former President was reported to have expressed his satisfaction.

Those in the delegation declined to disclose the nature of their conversation with Mr. Wilson. He was in excellent spirits, they said.

An engrossed copy of the resolution adopted by the Senate was sent to Mr. Wilson by Vice-President Coolidge, with the following letter of felicitations.

SEVERAL CONFESS TO COMPLICITY IN LOUISIANA KILLING

Department of Justice Reports Confessions to New Orleans Authorities

STATE OFFICIALS GRANT IMMUNITY TO CONFESSORS

State Preparing for Greater Activity, it Was Stated by Officers

Bastrop, La., Dec. 28.—Forty-five persons were implicated in the Morehouse kidnaping and murders of last August, according to two confessions reported late today, as delivered by representatives of the Department of Justice to State authorities at New Orleans.

The State legal office at New Orleans declined to comment on the subject, stating they would neither deny or affirm it.

The confessions will not be made public, it was regarded here, until the open hearings begin at Bastrop, in January.

It was stated that the signers of the confessions have been granted immunity by the State and are being secreted along with other witnesses and will be called upon to testify.

However, it is regarded here as probable that the arrest of some or all of the men named will take place before the open hearings begin.

One indication that the State is preparing for some activity is seen in the order issued today to the National Guard Company, at Mer Rouge, to be prepared to move at short notice. These troops were stationed there to hold down the possible outbreak among the citizens of the community, which are in hostile camps, and are also assigned to assist the civil authorities in making arrests.

SIN EXPOSED AT REVIVAL MEETING HERE LAST NIGHT

Mrs. McAdams Delivered Another Powerful Sermon Dealing With Things of the Devil

Last night Mrs. McAdams didn't fail to tell her hearers of the awfulness of sin. She used an old-fashioned text and brought out the truth in a way that went straight to the mark. The text "Be sure your sins will find you out" was presented in a plain, convincing way. Bible characters were referred to repeatedly and the congregation was given an opportunity of seeing how God dealt with them.

Mrs. McAdams said this was the case with many people in Greenville. You can't build a wall of good resolutions so high and thick God cannot get there and expose your sin. Neither can you build a self-righteous wall that God can't tear to pieces. Many more illustrations were used to show that God's word was true and that every sinner sooner or later would be brought before God and their sin uncovered.

Mrs. McAdams drew a line between the saint and sinner, showing that God's people were separated people from the world. Souls are still seeking the Lord in almost every way.

The subject of tonight's sermon will be "Can we know when God Saves Us?" and the public is cordially invited out to hear it.

A man with a New Year resolution is like a girl with a new hat. It will soon be abandoned to keep in style.

If the Turks force Great Britain to fight them we hope they will get licked soundly. And that's what they will likely get if the Tommies ever get started.

Many people will resolve not to spend so much money next year simply because they haven't it to spend. It's better to tell the neighbors that, however, than to admit being dead broke.

War clouds hang ominously over Near East as result of the situation at Lausanne, so late reports say. They've been hanging over there for the last several months, so why the excitement.

Ayden's wide streets look very city-like. Town officials are to be congratulated upon widening their principal streets before the paving recently completed. It opens up way for greater development without experiencing the same difficulty of other growing towns. Ayden is a thriving place and its business men and city officials have a keen insight into future needs.

MORE HOSPITALS NEEDED

Dr. W. S. Rankin, director of the State Board of Health, states that North Carolina is greatly in need of more hospitals. Eventually they will be as much in need as public schools, and when that time comes more communities will make an effort to provide the need, he believes.

Pitt county unfortunately has no hospital. Several movements have been started in recent years to establish an institution, but so far only failure has marked each effort. A memorial hospital was proposed only a short time ago. Funds were raised to build it, but depression set in and the project was abandoned until a later date.

No county in the state is in greater need of a hospital, it matters not what kind. To provide this long-felt need our citizens should get busy and see that funds are provided. There is no question about the money being available. There are men among us who could build several handsome structures if they were mind to. They have never felt the need, however, and are content to move along in the same old rut while hundreds suffer around them.

As long as a man is well and able to continue his work he can take care of himself. But when he is ill he needs a hospital. The nearness of the institution may mean the saving of his life, and it is important that he reside in a community where this important matter has been settled to his advantage.

It is a shame for people in a prosperous and thriving section like Pitt county to be forced to some other section of the country for hospital service. But this condition has existed since infancy and will continue to as long as our business men show such absolute indifference. Instead of dropping the proposal for establishing a memorial hospital, the committee should continue its efforts until the institution is established. It will be a perpetual monument to the men who made a success of an abject failure.

It begins to look as if the Lausanne conference is going to be nothing more than a bubble after all. With Turkey eliminated they might accomplish something, but as long as a delegate from that country is permitted to keep his feet under the peace table there will be nothing but trouble in the air.

The State board of welfare and charities is an organization the public should support as liberally as possible. It would be impossible to enumerate the activities of the various branches of the institution in recent years. They have brought cheer to thousands and thousands of down and out people and wayward men and women. Such work is indispensable to the state and every community should do everything possible to help enlarge and expand activities of the organization. The need was never more evident than today when crime grips the world as it never has before. These workers fill a place in society no others can reach and the more money behind it the greater will be its work. The annual report of the state organization just made public shows in a slight way what has been accomplished. If everyone could read this they would get a good impression of what is going on in the interest of those in need of aid.

sure, but not any worse than we have to contend with. Where Canada is troubled with timber wolves we are confronted with human vultures daily depriving someone of life's blood. Crime is assuming alarming proportions in this country at present and continues to spread despite frantic effort of police departments. With improved business conditions, however, there also ought to be an improvement in this situation. The best we can do is to look forward to the future, confident in the ability of our people to throw off the horrible nightmare through which we have been passing.

Man's Answer to "The Sheik."

"A man's answer to Edith M. Hull's 'The Sheik.'" Such a line is inspired by the Paramount picture of Arthur Weighall's novel, "Burning Sands," which will be on view at White's theatre next Monday, matinee and night. This is the powerful story of an English girl who seeks the man she loves and makes him love her. As in the case of "The Sheik," the one who sought love triumphed. Wanda Hawley is the girl and Milton Sills the man, and there is a powerful supporting cast.

Looking Forward

You are not as young as you were ten years ago and every once in a while you get sick and feel decidedly "off color." You have taken drugs but they seem to do little good. Forget all about DRUGS for a while and give the drugless method a trial. Chiropractic adjustments will make you feel young again and remove the causation of your illness.

Chiropractic teaches that just as pressure on the nerve of the arm will cause the arm to "go to sleep," or as pressure on the leg will cause the leg to "go to sleep," so also will pressure on the nerves of the stomach, liver, kidneys, bowels or any other organ or part of the body, cause that organ or part to express its functions abnormally in what is called disease. To adjust the vertebra (a small bone of the spine) to normal, thereby eliminating the cause of disease, is the work of the chiropractor.

Use Chiropractic first instead of last. It will save you much suffering and money.

If you are sick of being sick, then see the Chiropractor, if he can not benefit you he will tell you so, and his opinion will cost you nothing—better investigate.
