

Announcement is made by the Pitt County Chamber of Commerce that 100 new members are desired to complete a strong working unit of the County Poultry Association.

The membership fee is \$1 per year. No better small investment could possibly be made. Development of the poultry industry is one

of the outstanding profitable projects that should receive the united support of every farmer, large and small of this county.

Results and statistics prove that this industry is capable of splendid returns on comparative small investment. Full blooded flocks are often built up from a small start. There was never such a demand

for purebred egg settings. The industry pays income from various angles.

The successful way to breed poultry is the scientific way. Join the Pitt County Poultry Association and learn how through a systematic plan of demonstration.

## PLANS FOR PROPOSED PLAYGROUNDS BEEN RECEIVED BY HEARNE

### Alderman Will Submit Outline of Improvement to Civic Bodies

Tentative plans for Greenville's proposed play grounds which were prepared by Louis L. Miller, Somerville, N. J., have been received by Aldermen Closs Hearne, chairman of the committee representing the city, and was being shown today to many of the citizens that have manifested an interest in the new project.

Some weeks ago various organizations of the city named committees to confer and act with the aldermanic representatives to pass upon plans and to determine other matters connected with the proposition with the view of getting things into operation at an early date.

The plans submitted by Miller includes practically every feature as first outlined by the committees, and could hardly be more attractively sketched. The engineer advises that if the plans fail to meet the approval of those concerned that he will be glad to submit another.

Mr. Hearne stated that after a conference with the other members of the aldermanic committees the sketch will be presented to the representatives of the other organizations of the city and that some definite action would probably be taken shortly.

While nothing has been said to that effect, it is probable that when the plans are agreed upon, campaigns will be waged among the organizations of the city, as well as with individuals to carry the project forward.

## Accident Prevention Taught in Schools

WASHINGTON.—The reason 76,000 persons are killed and 2,000,000 injured in accidents each year in the United States is "largely psychological," according to Mary Noel Arrowsmith, assistant secretary of the education section of the National Safety Council, who declares in the Bureau of Education's publication, School Life, that the American people as a nation have "not learned to think in terms of conservation as applied to human life."

Miss Arrowsmith points out that, since 1919, when the council began working toward development of education in accident prevention in the schools, the number of automobile accidents to boys of school age has decreased, and says that in a number of cities there the plan worked out by Dr. E. George Payne of New York University while principal of the Harris Teachers' College at St. Louis, "remarkable results in the reduction of the death rate of school children have been achieved."

## RUSSIA WANTS RECOGNITION AT NEAR EAST CONFERENCE

LAUSANNE, April 30.—An official protest of Russia being "arbitrarily kept out of the conference," has been sent to the Near East Conference by the Soviet representative here. He declares such a decision was in direct violation of the terms of the invitation sent to Russia by Great Britain, France and Italy, preceding the first Lausanne conference.

## FLOATS NEW LOAN

STOCKHOLM.—Sweden's national debt per capita is only \$67.60, while that of the United States per capita is \$226.90. This is one of the interesting bits of statistical information reported by the Swedish General Export Association in connection with the new Swedish state loan which has just been made. A still more significant statement sheds light on Sweden's credit position, which has been established during the last few years.

## Boy New York Mayor for Day

Eddie Meehan, 14.

Eddie Meehan, a typical 14-year-old schoolboy, has been selected to be Mayor of New York City for one day, as one of the features of Boy Week in the world's largest city. Other youths are to be heads of all the city departments.

## Durham Youth Admits He Killed Girl In Richmond

RICHMOND, Va., April 30.—Mystery shrouding the murder of Celia Shevick, 16-year-old school girl, who was found near her home last Friday with her head crushed and cleared today, by the confession of Joe Enoch, alias "Jew Baby," 22, who claims Durham, N. C., as his home, according to a statement by police.

It was only after Enoch had been subjected to a lengthy grilling that he finally "came through" and admitted that he had struck the girl as she was returning from

## Air Fleet Lands In Safety After Flight Across The Country

WASHINGTON, April 30.—Four Martin bombers of the largest type, consigned by the naval air station at San Diego, Calif., to the marine base at Quantico, Va., were delivered on schedule time today, in good order at Bolling field.

The entire distance was traversed in formation flight without mishap.

## BELIEVE "KING DAVID" IS NOW IN CUSTODY

GRAND RAPIDS, MICH., April 30. Officials here are confident that the man arrested yesterday at Marysville, O., widely sought Benjamin Purnell, head of the House of David. The man answers the description of Purnell, and officers have left for the Ohio town to make identification.

The alleged immoral conduct of the sect which Purnell is said to have sanctioned and furthered is now under investigation by state authorities. The so-called "king" has been in hiding ever since a civil suit was filed against the colony in the United States court.

## ONLY FIVE MORE DAYS IN WHICH TO REGISTER

Only five more days in which to register for the town election which will be held May 7th. Registration books will be open at Horne-Staton Drug Company, Tuesday, Wednesday and Thursday and Greenville Drug Company, Friday and Saturday of this week.

Emerson Hough, Author, Dead.

CHICAGO, APRIL 30.—Emerson Hough, author, 66, died in a hospital at Evanston today, where he was taken last Thursday suffering from intestinal obstruction. He failed to respond to an operation. Heart and lungs were found in poor condition.

## Mob Storms Jail Lynch Negro Who Attacked Girl, 14

COLUMBIA, Mo., April 30.—Leaders of the mob which stormed the county jail here yesterday and cut through the steel doors with acetylene torches and hanged from a bridge James Scott, negro, charged with attacking the 14-year-old daughter of Dr. H. E. Almstedt, head of the German department of the University of Missouri, are known according to Prosecuting Attorney Hulien, who promises immediate grand jury investigation.

It is also known that the mob was made up of the rougher element of the city.

Scott was identified recently by the girl who said on April 29, she was lured to a lonely spot along the railroad tracks and Scott attempted to assault her.

It developed that Gov. A. M. Hyde, ordered out a company of the national guard, but the lynching took place before it could be mobilized.

## EVANGELIST URGES LARGE AUDIENCE TO ACCEPT CHRIST NOW

## Churches Unite in Making Services On Last Night Success

The Sunday services of the evangelistic campaign at Forbes and Morton's warehouse proved a great day in many ways. The morning service, despite the rain, was largely attended. Several conversions and accessions were recorded at the conclusion.

Unfavorable weather did not prevent a good number from attending the afternoon service. The evangelist spoke of the place and power of prayer in the life of the Christian.

Concluding the day at the evening hour, the largest attendance of the meeting was registered. Several of the churches of the city united in making this attendance a success. "Now is the Accepted Time," was the subject discussed by Evangelist Entzlinger. Pointed illustrations were freely used to show the importance of not delaying the matter of one's salvation.

The song service last night, judged by many expressions, was the best of the series thus far. Mr. and Mrs. Butler made a splendid contribution in song. The junior chorus and the choir, under the leadership of Mrs. Butler, also responded well. The usual services this afternoon at 3:30 and tonight at 7:45.

## Red Cross Aided By Many Greek Bishops

ATHENS.—Operation of a speakers' bureau may not seem like emergency relief work, but it is having an important part in the campaign of the American Red Cross in Greece to educate the million or more refugees from Asia Minor on eastern Thrace. The educational campaign is being developed along the lines of sanitary discipline to prevent and check outbreaks of typhus, typhoid, dysentery, smallpox and other epidemic diseases.

The part the speakers' bureau plays involves the aid of the entire clergy in Athens, both Greek and Catholic, the Rabbinate of Athens, and prelates from churches in Asia Minor who are now refugees. Acting unanimously in an endeavor to help the Red Cross the Archbishops of Ephesus, Philadelphia, Krini, Metron, Tyroloes, and Argyroupoleos have pledged themselves to go to the refugee camps and preach on sanitation.

## Infant Killed, Mother Seriously Injured in Cyclone That Swept Shelmerdine District Saturday, Property Loss Reported Heavy

### Steamer Goes Down 7 Lives Are Lost In Vineyard Sound

NEW BEDFORD, MASS., APRIL 30.—Sinking of the steamer Seaconnet, at the western entrance of Vineyard sound yesterday, with loss of seven lives was caused by opening of her seams, in the opinion of Capt. Daniel Miller, who with 22 other survivors landed here.

This statement apparently disposes of the suggestion in some quarters that rum pirates might have been concerned.

### Reckless Auto Drivers and Drunks Are Fined

Charged with driving automobiles while intoxicated Robert Dunn, was fined \$50 and costs in police court today, while W. R. Harris, was permitted to pay \$15 and the cost of damage to a car which he struck. For being drunk William Whichard, negro, was let off with a fine of \$10. James Bryant, negro, faced the court on a charge of breaking and entering. He was held for the county court in \$500 bond. Russell Gray, negro, drew 30 days on the county roads for assault. Judgment was suspended for one year upon payment of costs. Mathew Blue, will work on the city streets for the next 30 days. He was charged with assault.

### French Birth Rate Nearly Half Million

PARIS.—A row of three babies, of diminishing sizes, clothed in white and resting on a black background, has been attracting attention in the windows of the National Alliance for the increase of French population.

It is a show window way of telling the story of a decreasing race. The largest baby has written underneath, "Year 1868—1,034,000," the second baby, "Year 1912—746,000," and the last baby, "Year 1926?—500,000."

The trouble between France and Germany is one of babies, according to the spokesman of this organization, and Germany is bound to win the next war because of more babies.

According to the latest figures, Germany now has 500,000 extra new babies, and France but 35,000 above her death rate.

### WORLD'S LARGEST VAT HOLDS 66,250 GALLONS OF BEER

LAHR, Baden.—The famous Heideberg tub, whose capacity is 56,180 gallons, has been dethroned as the world's "king of casks." Its successor, capable of holding 66,250 gallons has just been completed by a co-operation firm here for an enterprise which plans to produce alcoholic spirits after a new process.

The giant new hogshead measures 24 feet 6 inches across and stands some 21 feet high. Its twelve great metal bands alone weigh approximately three tons, while the staves are more than four inches thick and the bottom has a thickness of more than five inches. Thirty cubic meters of wood were required to turn out the tub.

### SIGN CONCESSION PACT

LONDON, April 30.—The Chester concessions convention was signed at Angora today, says an Exchange dispatch from Constantinople.

Death and destruction followed the path of the severe wind and rain storm which struck a narrow area southeast of Greenville Saturday night about 11 o'clock. The home on the Mills farm near Shelmerdine occupied by Jasper Cannon, was wrecked, his wife injured and their 6-months old baby killed by flying debris. It is reported that the condition of Mrs. Cannon is serious.

It is believed that the damage throughout the area followed by the storm will be large. No definite estimate can now be fixed because of damage to wires, which in many cases were stripped from the poles. According to reports from the Shelmerdine district the storm raged furiously and cut up all sorts of freaks and caprices.

## HOME BLOWN UP; WOMAN IS KILLED

PADUCAH, KY., APRIL 30.—Mrs. Roretta Daugherty, 34, of Warren, was instantly killed in a dynamite explosion which wrecked her home here today. Her body was badly mangled. Her three children escaped injury. While the cause of the explosion has not been determined, it is hinted that it was malicious. Arrests are expected to follow.

## MANY DEFENDANTS FACE JUDGE COOPER IN TODAY'S COURT

For the first time in about three weeks due to other courts holding sway the County Court is in session today with Judge Cooper presiding, and J. Conrad Lanier representing the State. The cases docketed for today were varied in nature, and because of several witnesses connected with a majority of those called it will probably be late today before the regular Monday session is finished.

These cases were disposed of up to noon.

William Baker, non-support of his wife, pleaded not guilty. However, he was convicted. The court ordered him to pay into court each month \$25 for a period of two years for the support of his wife, and give bond of \$200 to secure the payments. Further judgment was suspended upon payment of cost.

Bill Tetf charged with having in his possession parts belonging to a whiskey still was found guilty. He was fined \$50 and costs.

Bennie Gray, found guilty of abandonment was sentenced to six months on the county roads. The defendant appealed to the Superior Court, and bond fixed at \$300.

Ed Collins was assessed \$50 and cost for carrying concealed weapon. An assault charge against him was dismissed.

Dolja Watson and William Thomas, negroes found guilty of prostitution were each sentenced to the jail for four months to be assigned to the county home and roads respectively. Both defendants gave notice of appeal.

Lee Barfield, assault with deadly weapon, found guilty was sentenced to the county roads for eight months.

Willis Fleming being found guilty of possessing within his system too much corn liquor together with disorderly conduct on the streets of Ayden was assessed \$25 and cost.

On an adjoining farm on which Joe Haddock resides, the residence was blown from its foundation and wreckage completed by falling trees. All of the outhouses on the place were either demolished or damaged. In this district meager reports are filtering through showing the loss of many additional buildings. So far no other fatalities or injuries are reported.

The severity of the wind was felt yesterday around Hamrahan. The extent of the damage cannot be ascertained, but it is known that a number of houses, barns and pack houses were destroyed. Communication with that district was impaired and full details cannot be ascertained now.

Reports from Ayden show that the vicinity surrounding that town was not passed untouched. Large damage, is believed to have resulted, but the extent cannot be confirmed until a survey is made.

Every building on the farm of Washington Taylor, residing five miles from Ayden, was blown down and scattered except his home, the kitchen of which was blown away. His son is critically ill with typhoid fever and at the height of the storm, it was feared that the home would be swept from its foundation. Through some freak of the wind or act of Providence it was left standing.

It is not within recall of the older residents of this section when storms of such repeated severity ever struck around this part of the state. Within the last 10 days at least five embryo hurricanes have hit with great loss.

For the second time in the last few days Lucama and Warrenton were visited by severe cyclones Saturday.

The large tent belonging to the Rev. and Mrs. McAdams who are conducting revival services in Winterville, was blown down and badly damaged by the storm of yesterday.

The tent was a gift to the evangelistic party by the citizens of Mount Olive, when they had a tent destroyed by a similar storm at that place.

Confer on Reparations.

LONDON, April 30.—The American, British and Italian ambassadors conferred with Chancellor Cuno, regarding Germany's reparation offer, says a Central News dispatch from Berlin today.

Monday Afternoon, April 30th, 1923

Harold Young, New York, is 18 months old. A perfectly normal child in every respect except that he recites some 20 nursery rhymes, the Lord's Prayer, sings several songs, reels off the alphabet and counts to 20 without mistakes.

The Department of Justice states that every increase of one per cent in the price of sugar, artificially stimulated by speculation, has cost and is costing the American people \$2,000,000 per week. And yet some people who object are termed "radicals."

### COMMON BENEFITS OF A CURB MARKET

Opening of the curb market May 12, in the warehouse of Forbes and Morton, is not only another stride in civic progress, but is a project that promises to bring into closer relationship residents of Greenville and rural folks who will furnish the necessary foodstuffs.

Too frequently town people and the farming classes have misunderstood each other. This feeling has been entirely eliminated in various towns and cities by bringing into actual business and social contact the producer and purchaser. The latter will quickly come to know every man or woman who sells on the market, just what they might specialize in the way of products and soon establish regular business relations.

There is nothing that goes so far to cement the community spirit as a common meeting place. No better medium can be devised to accomplish that purpose than a curb market.

Various organizations of Greenville are responsible for the realization of this enterprise. Their efforts and pledges of support have been supplemented by the housewives, which is sufficient guarantee that the undertaking will be successful beyond the most sanguine expectations of the promoters.

Pitt county farmers have been assured that fresh vegetables, poultry, eggs and other

farm products will find ready sale.

Greenville requires a vast quantity of foodstuffs. Its people welcome and embrace the opportunity of knowing and dealing directly with Pitt county producers.

Altogether the establishment of the curb market is a splendid forward move.

### MR. WILSON TO BE RECKONED WITH

Following hard on the heels of President Harding's tour of the country, intense interest has been aroused by the somewhat sudden activity of ex-President Wilson in national democratic affairs.

Mr. Wilson's hold on vast sections of the democratic party is undisputed, and he will have a hand, not only in framing the democratic platform, but in naming the next candidate.

The rapid restoration to health of the former president is best indicated by his close watch on the various moves of the administration on the political chess board. It is evident Mr. Wilson is rounding into his pristine vigor which promises to be reflected in various ways during the next year.

### JOB TOO BIG FOR WILL HAYS

Will Hays, former Postmaster General, now head of the motion picture combine, according to press dispatches declines to say whether he will resign his lucrative position to again direct the destinies of the republican party, as chairman of the national committee.

Hays' reticence is just another evidence that the Hoosier politician can keep a still tongue. Friends of the administration realize that it will require a huge tonnage of alibis to even attempt to explain away the failure of the republican party. Hays is regarded as a good organizer and shrewd political manipulator, and he possibly deserves that recognition. However, in well informed circles close to President Harding, it is no secret that the chief executive knows that he will need something more than strong organization if the face of his administration is to be saved.

The ability of Hays is measured entirely on past performances which may be considered a fair standard. But whether he will be able to repeat is an altogether different question. Unless there is a wide and radical departure of sentiment within the next 18 months the republicans are due for a long quiet siesta. The movie chief is as astute in business as politics. There may possibly be a very well defined reason behind his refusal to say whether or not he would be willing to sacrifice his czarship over the movies to undertake to manage the next republican campaign.

There is no denying the fact in the strongest republican sections of the country there is a strain of acute dissatisfaction that is liable to divide the G. O. P. much worse than in 1912 when Theodore Roosevelt tore it apart.

No one realizes that possibility more than Will Hays.

"Where Quality Reigns Supreme"

A preliminary to rendering service.

**Pioneering for petroleum**

THE oil geologist is expected to put his finger on the map and say "Drill here". His responsibility is heavy, for sinking oil wells is a costly and laborious work, and the real map of the oil field lies hidden beneath the surface. Last year there were drilled 5406 dry holes—failures. It costs from \$40,000 to \$100,000 to drill a deep well, varying with the locality.

The geologist forms the first link in the chain of specialized experience required for success in the oil industry. For over fifty years the Standard Oil Company (New Jersey) by combining the functions of producing, transporting, refining and marketing, has made possible the daily delivery to your door or filling station of products of sustained quality. Ask for Polarine and "Standard" Motor Gasoline by name.

STANDARD OIL COMPANY (New Jersey)

# FREAK LEGISLATION DEBATES ENJOYED BY KANSAS SOLONS

## Tag on Auto Tops Would Aid Air Police, Said One

TOPEKA, Kansas, April 28.—Freak legislation did not play as prominent a role in the Kansas legislative session, just ended, as has been the custom heretofore, party leaders assert. Several measures of this nature, however, furnished the legislators with occasional diversion.

One in particular, calling for automobile tags on front, rear and sides of cars, reached a stage where it was amended to include also tags on the top and bottom, before the enacting clause was stricken out. Some of the statesmen argued that "the tag on top would aid air police in bandit chases, and every car should carry a tag on the under side so that a victim, when run down, may read the number of the license as the car passes over him."

A bill calling for a pension for farmers also elicited loud comment. The original bill, introduced by a farmer, provided for pensions up to \$50 a month for both men and women, the minimum being \$10 a month for those residing on farms ten years and \$50 for thirty years or more. One senator, also a farmer, amended this to make the pension payable only to farmers "with corns on both hands and bunions on both feet." The measure was killed in the senate agricultural committee.

A democratic representative presented a resolution endorsing Henry Ford as president, but the republican majority of the state affairs committee remodeled it to read "Warren G. Harding," instead of Ford, and recommend it for passage.

# BRITISH FARMERS ARE DENIED HELP BY PREMIER LAW

## Deputation Told English Government Not Aid Industry

London, British agriculture is going through hard times. A deputation of British farmer called recently on Prime Minister Bonar Law. They confided their troubles to him, and asked what the government would do for them. Bonar Law told them flatly that the government could do nothing for them.

Bonar Law has not yet learned to camouflage his meaning when he has unpleasant truths to tell. He just calls a spade a spade, and lets it go at that. His friends say he has not yet had enough experience as prime minister to master the tricks of high office, and make unpalatable truths taste pleasant.

In his talk to the farmers Bonar Law said: "You ask that something be done by the government to prevent a fall in the price of foodstuffs. It seems to me it can be done in only one of two ways. Either by a big subsidy, the extent of which no one can foresee, or by protection. The subsidy was tried and found impracticable. As regards protection, I think you know as well as I do that the public is not ready for it, and we could not get a majority for it. Agriculture must get on an economic basis if it is to live. It cannot be supported by the state."

But the House of Commons did something for the farmers in a matter in which the government allowed its supporters to vote as they pleased. It gave a second reading to the merchandise marks bill by 183 vote to 100. There was no great issue involved in this bill, of the government might not have given its followers a free hand. It provides that imported food products, including eggs, shall be marked to show the country of their origin. It imposes no tariff on such imports, the idea being to permit an appeal to patriotism in favor of the competing home products.

It is prescribed in the bill that eggs are to be indelibly marked on the shell; meat in such a manner as may be prescribed by regulation; saw flour and vegetables on the packages, and poultry and dairy products on the box or tin.

# Marooned Lumbermen Saved By Airplane

Starvation Island

Steve O'Connor and F.J. Parker. Mrs. Edwin Morro

The lives of eight men and their woman cook, marooned by ice on South Fox Island, 20 miles out in Lake Michigan, were saved when an airplane, wned by Francis A. Parker, flew to them with foodstuffs. The lumbermen were almost without food on "Starvation Island" when Parker and Steve O'Connor, a Chicago newspaper man, reached them. Shortly after Parker landed another plane appeared, dropping food. The rescued are shown watching the approach of the second plane. From left to right, they are: Mike Nolan, Robert Houston, Alfred Clark, Assistant Superintendent Nels Ask, Superintendent Joe Ramsey, Howard Smith, Mrs. Edwin Moore, cook; Louis Brandt and Edwin Morro. Mrs. Moore is shown cooking the first meal the men had had for a month.

## Public Advised to Obtain Coal Supply

WASHINGTON, April 28.—General adoption by consumers of the practice of storing coal, the Bureau of Mines suggests, may result in the elimination of shortages, high prices and labor disturbances satisfactory to both the public and the industry itself.

Practical methods of storing have been worked out as a result of investigations which the government has conducted lately in co-operation with the Carnegie Institute of Technology. Joseph D. Davis, fuel chemist for the bureau, and John F. Byrne, of the research staff of the institute, have

## Naval Reservists Are Ready for Busy Days

GREAT LAKES, Ill., April 28.—Naval reservists of the Ninth Naval District, including the middle western states, are preparing to set a new record for summer training cruises this year. The Great Lakes fleet and Mississippi river squadron will start cruising from two weeks to a month earlier than usual in an effort to train more reservists than any other district in the country.

Six cruises have been planned for the Great Lakes fleet, in addition to a special cruise by the U. S. S. Wilmington, now outfitting at the Portsmouth, N. H., navy yard. Ohio reserv-

ists, to whom the ship has been assigned, will bring her around by way of the St. Lawrence river and the Welland canal. The cruising periods for the other Great Lakes ships are from May 19 to June 8; June 16 to June 30; July 8 to July 22; July 28 to August 12; August 18 to Sept. 2; Sept. 16 to Sept. 30. The Paducah stationed at Duluth, will not make the first cruise.

## JUVENILE POLICE FORCE ACTIVE IN THIS TOWN

LEOMINSTER, Mass.—The boy police officers of the safety patrol organized in the public schools of this city are polishing up their badges for an active season's work. Chief of Police M. T. Conlon, who acts as their mentor, is holding frequent conferences with the eight or ten older boys of each school who keep active watch over the younger pupils. Accident prevention is the aim of the patrol. The pouthful officers try to keep the little ones from stealing rides on automobiles and other vehicles, warn them against running into the street without looking both ways, cut short too strenuous fist fights and guard the youngsters at railroad grade crossings.

## Free, Easy German College Life Gone

BERLIN—College students in Germany have probably suffered more from the effects of the war than any other class. Instead of his pre-war existence of beer drinking and card playing, the student is now compelled to work his way through college.

Figures show that more than 8,000 of the 12,000 German students are compelled to earn their living. Of this total about 5,000 work eight hours a day and attend school in their spare time.

The school authorities have succeeded in obtaining employment for many of the students. At Leipzig, for example, a certain number of medical students have organized workshops for the supply of scientific instruments. The initial capital, the greater part of which was a gift, amounted to 300,000 marks. Within five months the association had earned 6,000,000 marks. Every month about 500,000 marks is paid out to 20 or 30 students as wages. Many other experiments made by students, particularly the printing and selling of school books, have been successful.

## NOTICE TO CREDITORS.

Having this day qualified as administrator on the estate of C. G. Meeks, late, of Belvoir township, Pitt county, North Carolina, this is to notify all persons having claims against said estate to present them to the undersigned administrator or his attorneys, within twelve months from this date or this notice will be pleaded in bar of their recovery. # WRIGLEYS

"A bite to eat—a bit of sweet"

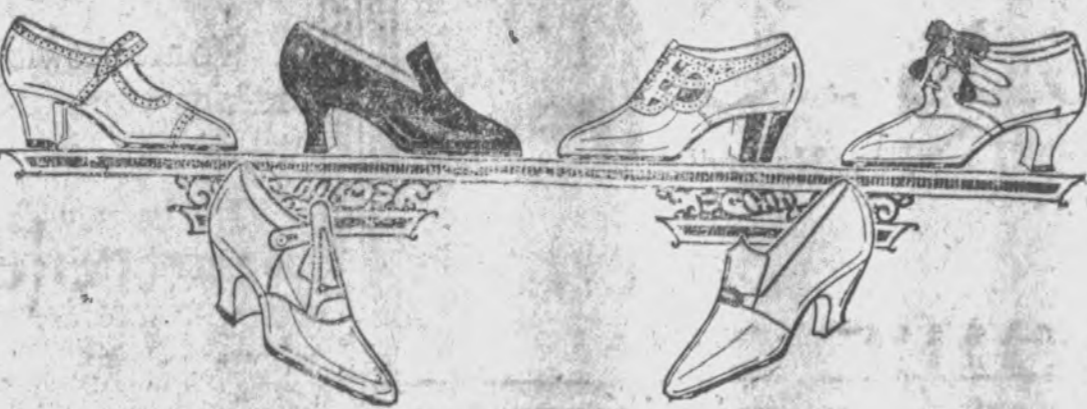

After a substantial meal, the children naturally want to top off with a bit of sweet.

Give them WRIGLEYS, the great American Sweetmeat.

It combines the enjoyment of sweet with many BENEFITS. It cleanses the teeth, removing food particles that lodge in the crevices. It neutralizes the acids of the mouth, soothes the throat, and lastly—

WRIGLEYS helps the stomach by supplying saliva to aid in digestive work.

Made clean, kept clean, sealed tight in a wax-wrapped package.

Mr. and Mrs. McAdams whose tent was destroyed by rain and wind, in Winterville, yesterday were here today to begin a campaign soliciting funds to patch the tent or buy a new one. Anyone who can will be helping most worthy cause by giving all they can to Mr. and Mrs. McAdams. The tent, which was used by the Methodists during their recent revival, is being used for the glory of God and Mr. and Mrs. McAdams are doing a wonderful work.

**Returns from Hospital.**  
Mr. Fred Broadwell and little infant daughter, Lena Rivers, have returned from Richmond where the baby underwent an operation. Mr. and Mrs. Broadwell's friends will be glad to learn that the little girl's condition is greatly improved.

## SMOKING HARMLESS SAYS THIS PHYSICIAN

LONDON.—The danger to smokers from nicotine poisoning is declared by Dr. E. P. Roger to be "so small as to be almost negligible." This should be tidings of comfort and joy to many smokers in America, where, according to dispatches received here something like a crusade is underway against "My Lady Nicotine." She is there denounced it is said, as a "dissipated jade who is responsible for much that is injurious to health." Dr. Roger's opinion is based on experiments conducted by himself to determine the action of fire on the tobacco consumed. He has just published an account of them with the conclusions he has reached. He first took ten grains of tobacco steeped in alcohol and water in order to extract all the nicotine. He said the solution was strong enough to kill a dog weighing four stone. He then took a similar quantity of the same tobacco and burned it in a pipe so constructed as to retain the whole of the smoke produced. The liquid resulting was found to have no worse effect on a dog than to trouble his digestion. The dog was of the same weight as the dog on which nicotine had been used with fatal effect.

**New Club at Shanghai.**  
SHANGHAI.—Arrangements have been made to begin early in the summer the building of the new structure that is to house the American Club of Shanghai. This is to be a modern seven-story building no American lines. It will be located near the heart of the business district in Shanghai on Foochow Road, across from the new municipal building.

## SAYS LONG SEARCH IS AT LAST ENDED

**Tanlac Completely Restored Health After Years Stomach Trouble, Declares Mrs. J. S. Starnes**

"Tanlac is certainly the ideal treatment for a run-down condition," said Mrs. J. S. Starnes, of King Mountain, N. C., recently.

"Why, I noticed an improvement every day I took the medicine and I couldn't wish for better health than I am enjoying now.

"For five years, I had felt weak, nervous and run-down all the time. My appetite was extremely poor and when I did go to the table thinking I could enjoy a little something, the very sight of food nauseated me. The little sleep I got didn't seem to help me and I woke up mornings feeling

as tired as when I went to bed. "But I soon realized I had found the right treatment in Tanlac and now I have a good appetite, am gaining weight and feeling as well as I ever did. My nerves have steadied down, too, and I am sleeping soundly every night. Tanlac is the best of them all."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37-million bottles sold.

## Plant a Garden, Be Producer, He Urges

RALEIGH, April 30.—Those who let last week pass without doing anything more definite about garden week than reading the notices should determine to plan something this spring anyway, says P. E. McCall, garden specialist for the agricultural extension service. McCall urges that something should actually be planted so that the grower may feel that he is helping North Carolina take her place as a leading horticultural state.
