

Since tentative plans drawn by an expert have been received, which would convert the natural site adjoining the high school into a community recreation center, the project should be HURRIED ALONG to fruition. It is understood the plans can be carried out without any great

financial outlay. The investment is well worth the price. It cannot be measured in money, but it can in the enjoyment it will afford the younger folks of Greenville, aside from a beauty spot which might well be pointed to with pardonable pride. The transformation can be quickly accomplished if our citizenry

will do weigh its importance and benefits. This they will graciously and unhesitatingly. Greenville is maintaining a consistent forward stride. It is confidently believed this improvement will NOT be an exception.

WEATHER.

Increasing cloudiness tonight with showers in southwest portion.

SIX PAGES TODAY

Number 109

DAN BEACH, ZACK VANDYKE, RONALD PALMER WINNERS

Will Receive the Cash Awards for Leading Clean-Up Work

It will be recalled in connection with the Clean-Up Campaign which was carried out in the various sections of Greenville last week, under the chairmanship of J. H. Rose, that three prizes were offered to the boy and girls scouts; \$15 first prize, \$10 second prize, \$5 third prize. After carefully going over the various lots and making inspections before and after cleaning, the judges rendered their decision as follows: First prize, Dan Beach; second prize Zack Vandyke; third prize, Ronald Palmer.

It was also decided to give the honor of mayor to the winner of first prize for the period of one hour mayor pro tem to the winner of second prize and chief of police to winner of third prize. Details of this will be worked out and announced paper.

The judges who took part in this contest represented the Rotary and Kiwanis Clubs and the Woman's Club and are as follows: Mrs. Guy V. Smith, Dr. W. P. Shambart, J. L. Little, D. D. Overton, Curtis Perkins, Guy V. Smith.

Chamber Meets Tomorrow. Regular monthly meeting of the Pitt County Poultry Association will be held in the Chamber of Commerce rooms tomorrow afternoon at 3:00 o'clock.

It is the desire of the officers that a full attendance register for this gathering.

One of the very best ways to develop the industry in this county is to attend these monthly meetings and exchange ideas as to the best ways of caring for poultry.

A man, who has recently come to Greenville to make his home, made this significant statement: "I have been over the country, and even taking into consideration the State of California, Pitt County has the opportunity of becoming the greatest poultry center in the United States."

British Protest Grants By Turks In Irak Now

LONDON, May 2.—The British minister in Constantinople has been instructed to register emphatic protest against any proposed grant by Turkey of rights within the kingdom of Irak, and to declare that Great Britain cannot recognize the validity of any such grant.

This announcement was made in the house of commons in a statement on the Chester concession by Lieut. Col. Albert Buckley, speaking for the foreign office.

BOAT CARRYING SUPPLIES TO RUM FLEET SEIZED

NEW YORK, May 2.—Government officials seized today a tug and motor launch carrying provisions and fuel to alien craft anchored outside the three mile limit. For several months officers of the custom service have been contemplating making a test case out of American vessels ferrying supplies to foreign rum ships.

BIRD MEN HOP-OFF ON TRANS-CONTINENTAL FLIGHT

HEMPSTEAD, N. Y., May 2.—Lieuts. Macready and Kelly took off from Roosevelt Field in an army aeroplane today, to make a non-stop trans-continental flight to San Diego, within 30 hours.

IRISH REBELS EXECUTED

DUBLIN, May 2.—Christopher Quinn and William Shaughnessy, found guilty of killing free state soldiers, were executed at Ennis today.

Arguments Stop In Par Clearance Cases In Supreme Court

WASHINGTON, May 2.— Oral argument in the par clearance cases has been concluded in the supreme court. Counsel for the State banks of Georgia and North Carolina, which brought the suits, asserted that eight States have by law authorized their banks to charge an exchange fee for cashing other banks' checks drawn upon them. The full power of the Federal reserve system, they asserted, was being directed to nullify these laws. The object was, counsel stated, to drive non-member banks into the Federal reserve system. The Federal reserve banks were "arrogating" to themselves, counsel added, the duty of country clearing houses and have started a "financial warfare" upon non-member State banks. The position of the Federal reserve bank in the matter of par clearance was defiance, they asserted, of all recognized banking practices.

TO CONTINUE FIGHT ON RAIL SHOPMEN

WASHINGTON, May 2.—Attorney General Daugherty declared today that the injunction proceedings in Chicago against leaders of railroad shopmen who were on strike last year "must be carried to a final conclusion in order that universal strikes which interfere with the transportation system of the country shall be a thing of the past." Daugherty said he had instructed Blackburn Esterline, assistant attorney general in charge of the government's case, to proceed with the presentation of evidence despite the withdrawal today from the proceedings of counsel for the various defendants. The case, however, he declared, will not be permitted to go by default.

Glacier National Park Will Observe Its Tenth Birthday

WASHINGTON, May 2.— Glacier National Park, geographically one of the youngest of the National Parks, yet geologically the oldest of the North American "mountain building" regions by several million years, will in its opening June 15, celebrate its tenth anniversary as an American tourist resort. Plans are under way by the National Park Bureau to give recognition Glacier Park's tenth birthday by breaking ground for a new Trans-continental road following the shore of St. Mary's Lake around Going-to-the-Sun Mountain and over the Continental Divide at Logan Pass. This promises to become the most picturesque "Sky Line" Automobile Highway in the World. It is being hewn out of the mountain sides and will cross the "Backbone" of the Continent above the clouds.

France Tells Turkey to Withdraw Troops

CONSTANTINOPLE, May 2.—The French charge of affairs here yesterday handed a note to the Turkish government declaring that unless concentration of Turkish troops on the Syrian border were immediately withdrawn, France would abandon Lusanne conference.

BRITAIN DISCLAIMS ANY HAND IN REPARATION NOTE

LONDON, May 2.—It was authoritatively stated here today that the British government has been at some pains to make clear to every party that Great Britain is in no way connected with the German reparation note, and that she had no hand whatsoever in framing its terms.

HIS DEATH STIRSENTIRE NATION

The death of Martin Tabert, a Munich (North Dakota) youth, in a Florida lumber camp has stirred the entire nation. Tabert was arrested for stealing a ride on a train and sentenced to six months imprisonment. His parents sent the money to pay his fine, but it was returned, and the boy leaved to a lumber company; then he became ill. He could not work as fast as the other prisoners, and he was lashed. Convicts say he died of the whippings, and Whipping Boss Higginbotham has been indicted for his murder. The Legislature of North Dakota took up the case, with the result that Florida will probably abolish flogging and the leasing of prisoners to corporations.

WILL PROBE PRISON SYSTEM OF STATE BY RADIO, SUCCESS

GREENSBORO, May 2.—The North Carolina Board of Charities and Public Welfare, meetings here, decided to make the investigation of the State Prison and the entire prison system a thorough affair, possibly to call in some big penologist and to start with it soon. While E. E. Dudding's charges are taken with a grain of salt, according to one of the staff of the board, the fact that his reputation is what it is will not mean that they have to be entirely ignored. Dudding came in for considerable discussion at today's meeting, but no decision was reached as to calling him to testify. His status is unchanged, so far as the meeting today is concerned. The Board met in executive session, but gave out no statement to-night, the chief points in which is that the investigation which has been pursued for the past eight months "will extend to include the penitentiary and our entire prison system. The Governor will be requested to provide funds for the investigation."

India Falls Into Line Radio Broadcasting

DELHI, India.—Radio broadcasting by private enterprise is now permitted in British India through a recent decision of the government. A national conference is in session here for the purpose of discussing preliminary details. The chairman is the director-general of Posts and Telegraphs for India. Plans are being made for undertaking the manufacture of receiving apparatus in India. This is considered to be entirely practicable, for, even if certain parts have to be imported, it is said that the manufacture of other parts and the assembling of complete sets in this country are altogether feasible. As wide-spread interest in broadcasting by radio has already been evidenced in several provinces, it is expected that this industry will attain large dimensions.

Bodies Planter and Bride Found Ruins of Fire Swept Home

GADSDEN, Ala., May 2.—Knott Little, 23, planter and his bride of three months were burned to death last night when their home near here was destroyed by fire. Their charred bodies were found on the bed springs, indicating their lives were lost as they slept. There is no cause a sign for the cause of the blaze and circumstances of the tragedy are lacking.

HYPOCRITES WILL RECEIVE ATTENTION TONIGHT'S SERVICE

Baptist Evangelist Will Deliver Special Message to Hypocrites

Rev. Louis Entzinger preached a great sermon last night on, "A Man that could not be influenced by a woman, by money or political influence." A splendid congregation was in attendance and the music, as in the other services, was thoroughly enjoyed.

Moses was the man that could not be influenced by worldly things, but was strong and had faith in God. The evangelist showed that a simple thing faith was and still what an all important thing it is. Our every act is an out come of faith. Moses by clinging to the teachings of God became the great lawmaker, and even after Egypt had crumbled and decayed he was still great.

This afternoon's services will be to the women, especially the mothers. Tonight Rev. Mr. Entzinger will preach to the hypocrites, and tomorrow afternoon the services will be in honor of the old people. The public is cordially invited to all the services.

Claude Kitchen Resting In Wilson Hospital Now

WILSON, May 2.—Representative Claude Kitchen, former minority leader in the lower House of Congress, is a patient at a local hospital taking the "rest cure." His condition is declared by his physicians to be not serious. Representative Kitchen recently suffered an attack of influenza and his already run-down condition was said to have been greatly weakened. He came to Wilson from Scotland Neck by automobile, accompanied by Mrs. Kitchen and his two sons-in-law. His physicians said today that the former minority leader was in fine spirits.

Woman, Man Hanged In Canada for Murder

FORT SASKATCHEWAN, ALBERTA, May 2.—Mrs. Florence Lasandra and Emilio Piccirillo, were hanged here today for the murder of Constable Lawson, last September.

COTTON GROWERS TO GET 3 MILLION FOR PRODUCT

According to word from Raleigh today checks for a third advance on 135,000 bales of cotton delivered to the North Carolina Cotton Growers' association is going out to members. It was announced from the headquarters. Approximately three million dollars will be paid to 30,000 cotton growers on this distribution. It is stated, and it will require several days to complete the making out of the checks, but they are being mailed as fast as they are made out.

Judge Grady Justifies Davis In Settlement of Jefferson Case; Says Lawyers Suggested Action

Death Dance Craze On In Wilmington, Six Couples Going

WILMINGTON, May 2.—A marathon dance will be staged at Lake side park, in Overlake pavilion, beginning today according to announcement by Thomas A. Sheppard, lawyer of the park. Six couples have already entered their names for the contest. Sheppard reported, and he stated that the winners would be awarded cash prizes. The regular marathon dancing rules used in similar contests in the larger cities will obtain throughout the dance. Sheppard said, stating that the rules prescribe a two-minute rest every hour, with 10-minute rest periods at midnight and at noon. Orchestral music will be furnished for the dancing. An admission fee would be charged for all persons desiring to witness the dancing.

Fast Election Count Now Expected Under New Law In Ohio

COLUMBUS, May 2.—After working since its existence under an election system which made it almost impossible to obtain results of a statewide election until many days, and often weeks, after an election had been held, Ohio, this fall, will be operating under a law which its sponsors believe will make it possible to obtain semi-official totals from every county by noon of the day following an election.

Backed by newspapers which in the past have spent thousands of dollars collecting results every time a statewide election was held, the state legislature has enacted a law which gives the secretary of state power to remove county election officials who fail to send him complete county returns by noon of the day after election. The new law will be given its first trial at the election next November when three constitutional amendments and possibly one referendum will be voted upon. Next year it will be given a thorough test as there will be two statewide primary elections and the general election.

Cutters to Keep Watch On Massed Rum Fleets

WASHINGTON, May 2.—While federal officials continue to puzzle over the application of the decision of the supreme court concerning the right of American ships to sell liquor at sea, the coast guard headquarters issued an order today concentrating all available coast guard ships in the north Atlantic along the New Jersey shore. It was declared that henceforth, the rum fleet massed off the Highlands would be under constant watch of two cutters day and night.

Flat Rejection Seen By France German Offers

PARIS, May 2.—The German propositions for reparation settlement are so far from acceptable to France that flat rejection is regarded by persons close to Premier Poincare, as inevitable. This rejection, it is stated, will probably be followed by extension of the occupation of the right bank of the Rhine.

GERMANS ASK ARBITRATION

BERLIN, May 2.—The German reparations proposal submitted today, advances the proposition that security as between France and Germany be attained by an agreement to submit any further conflicts to arbitration or other reconciliatory processes.

According to an "exclusive interview," published in a New Bern newspaper Judge Henry A. Grady, completely exonerates Solicitor Jesse H. Davis, of all responsibility in connection with the compromise of the case against Guy Sutton, charged with having run down with an automobile and killed Phillip Jefferson.

The criminal charge was settled at the session of the superior court here last week by the payment of \$1000 to Mrs. Eller Jefferson, mother of the youth killed. Judge Grady presided at the term of the court and is familiar with all the circumstances that led to the settlement of the case.

Terms Understood. The statement as told in The New Bern publication says:

"Judge Grady was sitting in Pitt county court when this case came up for a hearing and is thoroughly familiar with all of the details. He stated that counsel for Sutton and also counsel for Mrs. Jefferson wanted to compromise the case in question, they had taken the matter up with Solicitor Davis and had asked that he consent to such a compromise. The matter was also taken up with Judge Grady by counsel for the plaintiff and the defense. Judge Grady was told by counsel for both sides that Mrs. Jefferson was a woman in measure circumstances and that \$1,000 would do her more good than a possible completion of Sutton, a mere youth. It was shown that there was a possibility of a verdict of not guilty being rendered by the jury.

"Judge Grady asserted that a grave injustice has been done to Solicitor Davis. He assured the newspaper men to whom he was giving the interview that the solicitor came to him with the matter and asked for his advice and that he, Judge Grady, took the step which was taken and the compromise for \$1,000 was effected.

Wants Facts Known. That Mrs. Jefferson did not know what sort of an agreement was being made also seems incredible to Judge Grady. He asserted that counsel for both Mrs. Jefferson and for young Sutton agreed to and signed paper in the case and that there was apparently a thorough understanding on the part of everyone.

"That Mrs. Jefferson has done Solicitor Davis a grave injustice in her articles in the newspapers seems to be the opinion of Judge Grady and he declared that it was with pleasure that he gave the real facts in the matter and could set the public right on the question and remove any possible stigma from the solicitor."

Ten Lives Lost When Ship Sinks Off Guam

MANILA, May 2.—Ten lives were lost when the British bark Amy Turner was wrecked near Guam, March 27, according to advices received here today from the provincial commander of Surigao, island of Mindano. Four members of the crew succeeded in reaching Surigao April 20. The bark was carrying coal from Newcastle to Australia.

PITT COUNTY'S DEVELOPMENT NEEDS TEAM WORK

Possibly not many Pitt Countians have given much thought to the staggering truth that more than **FOUR MILLION DOLLARS** was spent for imported foodstuffs and staple crops in one year that could be **PRODUCED HERE**.

It is a safe prediction not many, if they did it would be reflected in a general move to cut down this enormous amount of money that finds outlet to other markets. It is not a question of whether our farmers **CAN**, but **WILL** they, undertake to reduce our import bill.

The remedy to correct this condition is **DIVERSIFIED FARMING**. One and two seasonal staple crop production sections are rapidly recognizing the expediency of keeping more than one iron in the fire. It is not a theory, but a proven fact, in various communities throughout the country, of recent years more notably in Alabama and Mississippi.

With every natural advantage under God's green footstool to develop dairying, purebred livestock and poultry along progressive and successful lines, it is small wonder that visitors from other states want to know "WHY" the prolific opportunities are being neglected.

Any person who declares that Pitt County cannot be made a center of these industries, either lacks information concerning their possibilities or has not the initiative to try them out.

The Pitt County Chamber of Commerce, the

County Agricultural Agent, the State Agricultural Extension Service are all ready and willing to get squarely behind any movement that obtains for the development of projects that mean more money for the producer.

Within a few years money derived from these industries could be counted upon in the same sense as an industrial pay-roll is regarded in strictly manufacturing districts. In brief, when dairy products, hogs, cattle and poultry begin to move a dependable and permanent income has been established.

No attempt is made to convey the idea that acreage or production should be reduced, but products should be so diversified that something raised on the farm could be kept moving the year around.

The problem is worth the consideration of farmers. The solution is entirely in their hands. We can make a start in slashing our immense import account. It would not require any lengthy period to reverse the situation by collecting more than the amount now expended from other sections that need our diversified products.

HARDING'S SUPPRISING ATTITUDE

A press dispatch from Washington today says that when the attention of President Harding was invited to the movement started in various parts of the country to boycott the consumption of sugar, because of its increasing cost he is reported to have made the laconic reply: "It is consistent for people to restrict their consumption of that commodity, if they object to the price."

It does not take a statesman or a legal light to inform us that we do not have to purchase commodities unless desired. But the people do resent the manipulation of the sugar market—an essential every day product—for the aggrandizement of a coterie of speculators.

There is no scarcity of sugar. Warehouses are well stocked in every large city. The tendency to countenance the open and defiant attitude of profiteers is something that does not set well with the great purchasing power of the nation—the masses.

Historians record that just preceding the French revolution when the populace were begging for bread, that the answer of the ill-fated Queen Marie Antoinette was "If you have not bread eat cake." Every school child is familiar with what followed.

That instance is not cited with the least idea of revolution, but the parallel serves to illustrate what Mr. Harding and the republican party might reasonably expect at the polls in November of next year.

In the last analysis the people always have the final voice.

Cleveland Wants to Land One of Big Political Meetings

CLEVELAND, April 28.—Prominent Ohio members of both the Republican and Democratic parties are working actively to bring one of the big political national conventions to Cleveland in 1924, confident that the new municipal auditorium of the city and its general facilities are entirely adequate for handling a convention that will select one of the presidential nominees.

Cleveland, in its first bid for one of these meetings, finds itself with an auditorium that it considers big enough, and with sufficient hotel space to handle such a gathering. Its new public hall has been declared one of the finest and best equipped auditoriums in the country. Mayor Fred Kohler has offered the use of the auditorium to both parties free of all cost.

Newton D. Baker, Secretary of War during the Wilson administration and president of the Cleveland Chamber

SALE OF LAND

Under and by virtue of the authority contained in a certain deed or mortgage made on January 2, 1918, and recorded in Book 1-12 page 634, in the office of the Register of Deeds of Pitt County, North Carolina, the undersigned will sell to the highest bidder for cash, at the courthouse door in the town of Greenville, North Carolina at noon, May 30th, 1923, the following described property:

A part of the Avon Farm, see map for description. No. 10 contains 73.7 acres; Lot No. 11 contains 84.7 acres. Also one other tract situated in Chicod Township, Pitt County, North Carolina, on the west side of Chicod Creek, as the northerly part of Lot No. 2 and 3 of the Avon Farm, beginning at a sweet gum in the line of Lot No. 3 and 4 of the Avon Farm, at the edge of the field low land; thence S. 48 E. 158 feet; S. 84 35 E. 206 feet; North 21 E. 176 feet; N. 47 E. 158 feet; North 33 55 E. 217 feet; N. 87-30 E. 374 feet; to an iron pipe; North 24-50 E. 376 feet to oak stake; thence N. 80-25 E. 365 feet to a stake in the line between Lots 1 and 2; thence with the line between Lots 1 and 2 N. 17-35 E. 301.5 feet to the new road made in the division of the Avon Farm; thence with said road N. 59-25 W. 1253 feet to a stake, the corner between lots 3 and 4; thence with the line between lots 3 and 4 S. 17-35 W. 1745 feet to the beginning, containing 30.20 acres of land.

This the 30th day of May, 1923.
F. A. ELKS, Mortgagee,
Corey & Worthington, Atty.

of Commerce, has written Cordell Hull, chairman of the Democratic national committee that as soon as the committee is ready to consider the city in which the nominating convention is to be held, he will send a formal invitation from Cleveland.

Italy to Harness Hugh Water Power Industry

ROME.—An artificial lake 15 miles long by two miles wide is being constructed in Sardinia to harness the water-power of the swift flowing River Tirso. It is proposed to develop millions of horse-power, and the project is said to be one of the largest ever largest ever attempted in Europe. Besides the development of power the lake will serve a double purpose in irrigating a vast area which, up to the present, has been nothing but a barren waste.

The production of grain in the low plains through which the river runs is expected to be augmented three-fold. Hitherto these plains have been nothing but marshy lands where cultivation has been undertaken only under the most difficult circumstances. With the Tirso harnessed, the distribution of water will be maintained and controlled to suit the needs of the lowlands, and the whole area transformed into a productive plain.

CONDITION OF MRS. HARDEN GREATLY IMPROVED

The condition of Rev. W. S. Harden's mother who has been critically ill for the past few days has greatly improved and Rev. Mr. and Mrs. Harden expect to return home in a few days.

IMPORTANT MEETING OF PYTHIANS ON TOMORROW NIGHT IN LODGE ROOMS

At the regular weekly meeting of the Knights of Pythias tomorrow night there are several matters of special importance to the lodge members to be discussed and disposed of. It is necessary that a large number be in attendance as not much can be accomplished in the handling of these special questions with only a few present.

A committee from Ziza Dokie Temple of Rocky Mount will be here for the purpose of meeting representatives from the Ayden Pythians to discuss the advisability of putting on a Dokie Ceremonial in the latter town at an early date. The local Pythians will furnish a little entertainment and refreshments to the visitors.

ENGINEER COMPLETES THE STAKING OFF OF THE GOLF COURSE OF COUNTRY CLUB

The expert golf course engineer of Greensboro who came here several days ago has completed his work at the Country Club. A large force of workmen has been employed to push the other work connected with the project to an early completion. As before stated in these columns if present plans are carried out and nothing interferes the links will be in readiness for use within forty or sixty days.

SOCIAL MEETING SENIOR EPWORTH LEAGUE WILL BE HELD SATURDAY NIGHT

The business and social meeting of the Senior Epworth League will be held on Saturday night instead of Friday night at 8 o'clock at the home of Miss Priscilla Austin.

Several things of much importance are to be brought up at this meeting and all members are invited to be present. After the business meeting there will be a social; we are planning to have a good time and all young people of the church are invited to come.

Plan National Park.

WARSAW—The Society of Friends of the Tatra Mountains is working out a plan for transforming the Tatra Mountains into a national park on the lines of Yellowstone Park.

SOIL NEEDS MORE FERTILIZER TO GIVE INCREASED YIELD

RALEIGH, May 2.—"The factors that influence the yield of other field crops also effect corn. A well prepared seed-bed is necessary; thorough and frequent cultivation pays; organic matter incorporated in the soil is beneficial; but, the use of all these good culture methods will not increase yields very materially or for any great number of years unless plant food is added to the soil so that the corn plant can get it," says W. F. Pate Agronomist of the North Carolina Experiment Station.

Pate finds that the soils of North Carolina are very deficient in the foods that corn plants like. Of the many types of soil studied by the Division of Agronomy all respond by increased yields of crops when nitrogen, phosphoric acid, and potash are added. For the sandy loam soils of the Coastal Plain Mr. Pate states that nitrogen and potash are very essential and in conjunction with phosphoric acid large yields can be secured.

On the Clay and Clay Loam soils of the central and western part of the state, phosphoric acid, and nitrogen, when used with small percentage of potash, also show large and paying yields, says Pate.

After considering the results secured over a long period of years with the use of fertilizers on corn, Pate recommends that the following formulas be used on soils of average fertility.

Had About Lost Hope Says Miss Kendrick

Declares Weakness Left By Flu Lasted So Long She Almost Despaired—Tanlac Restored to Perfect Health, She States

When medicine produces results its praise is sure to be heard. This accounts for the fact that Miss Mamie Kendrick, R. F. D. 2, Gastonia, as well as hundreds of other North Carolina people, so readily speak out for Tanlac. Miss Kendrick tells her experience in the following words: "The flu left me so run down and weak I was discouraged, for it looked like I would never regain my health and strength. I felt so badly in the mornings I could hardly get

out of bed. I had no appetite and barely enough to keep me up. I would often wake up at night almost smothering from the gas on my stomach.

"I felt better almost from the very day I began taking Tanlac. I can hardly eat enough to satisfy my big appetite now until my strength is fast coming back. I am certainly glad I found out about Tanlac. It is just grand."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37-million bottles sold.

Tanlac Vegetable Pills are Nature's own remedy for constipation. For sale everywhere.

Methodists Leads In Building Activities

CHICAGO—Twenty-three buildings a week are being erected wholly or in part by the board of Home Missions and Church Extension of the Methodist Episcopal Church, at a weekly expense of \$53,112 according to figures compiled for the committee on conservation and advance. Previously only 12,000 building projects have been put through in 50 years.

In rural and frontier mission fields 2,950 pastors are being maintained wholly or in part by the board of Home Missions and Church Extension, each pastor serving from one to four communities on the "circuit-riding" basis. Schools for training these men are held each summer at 29 different Methodist colleges and

institutes. Two hundred negro pastors also are on the pay-roll of the board. There are in addition 800 pastors and 550 specially trained Christian social workers in congested city centers of population, and the Gospel is preached in 19 languages by 995 home mission pastors.

He Shuns Movies.

NEW YORK—A New Yorker has been found who, although spending his whole life in the city, has never attended a movie, has been to the theatre only once in 27 years and has not seen a ball game in 40. He is Charles J. Foy, an employe of the elevated railroad system for 45 years. "I have a small garden," says Foy, "but I like best a good book or pipe. If I could have only one of them, I should be perfectly happy with my pipe."

RESULTS ARE WONDERFUL—

Everybody praises the wonderful medicine B. S. Indigestion and Liver Remedy. It never fails. Your money refunded if it does.

Society

Messrs. J. L. Little and B. W. Moseley left this afternoon for the Bankers Convention at Pinehurst.

Mr. J. B. Jones, local representative of the International Correspondence Schools, left this afternoon for Richmond to attend a district meeting of representatives from the southern states.

Mr. J. T. Corey, of Raleigh, is spending a few days here with his parents.

Mrs. H. L. Height, of Aoshkie nee Miss Reba Lee Smith is visiting her parents here.

Mr. M. J. Moye left this afternoon for Raleigh for a government examination.

Messrs. O. L. Joyner and O. L. Joyner, Jr., went to Raleigh today on business.

Mrs. J. L. Carper returned yesterday afternoon from Richmond where she spent three weeks in a hospital in that city. Her many friends will be glad to learn that her condition is much improved.

INFANT DAUGHTER OF MR. AND MRS. HEMBY DEAD

Little Elizabeth Hemby 27 months, daughter of Mr. and Mrs. Frank Hemby died yesterday at 4 o'clock at the home of her grand parents, Mr. and Mrs. J. J. Corey, 1113 Evans street.

Little Elizabeth was taken with the pneumonia in December 1922 and never fully recovered. She has always been a sweet loving child and we feel that our loss is her eternal gain.

For Jesus said "suffer little children to come unto me and forbid them not for of such is the Kingdom of Heaven."

Heart-felt sympathy to the mother and father is extended.

"Stork Accounts" Urged by Calgary Women, It Is Said

CALGARY, Alta.—The health committee of the local Council of Women has asked Mayor Webster to have the city open a "stork account."

The plan is to have expectant mothers deposit a small sum each week with the city treasurer, to relieve her of anxiety when the stork arrives, and assure her of adequate medical care.

The trouble with the usual installment plan, the women found, was that it became effective after the child had been born, and proved hard to meet with additional family expenses.

Tax Listing Notice.

Taxes for the town of Greenville will be listed at same time and place of county taxes in the grand jury room of the court house, beginning, Tuesday, May 8.

 Philadelphia, Pa.

LABOR SHORTAGE IN EVERY INDUSTRY IS BECOMING ACUTE

Lack of Farm Help Causes Concern, Survey Shows

An actual shortage of workers in some class of labor, including farm help, exists in 23 states of the Union, while in 21 other states the unemployment, so prevalent in 1920-21, has been completely absorbed and in only four states does general unemployment exist, according to figures, statistics and reports gathered from labor leaders industrial commissions and state and federal employment agencies from all of the 48 states of this country.

Increases in wages are noted in so many states and in so many different trade and occupations that they point to a general trend in that direction.

These include an 11 per cent increase to 200,000 packing house employes, a 15 per cent increase to carpenters, a 12-1-2 cents an hour increase to common laborers and a general increase among steel workers, all in Chicago, and a 12-1-2 per cent increase to 200,000 workers in the woolen and cotton mills of New England.

The reports also show a general increase in wages in Michigan and an increase to the building trades, metal and machinery workers in New England. Increase in wages of ranch hands in the northwest; carpenters in Kentucky, farm labor in Iowa and Minnesota; bricklayers and plasterers in Montana and plasterers in Buffalo are also shown. Eight thousand and Bethlehem Steel Company men have received an 11 per cent raise. Common labor is at a premium in Ohio, textile mill workers and the plasterers have received increase in Virginia and the wages of miners have been increased in Arizona.

In addition to these, the reports show skilled laborers getting \$1.25 an hour and plasterers \$1.50 an hour in St. Louis, the highest wage ever paid there for this class of work, while negotiations are now on in New York between contractors and the building trades for an increase in wages of bricklayers, carpenters, plasterers, plumbers and allied trades by \$1.00 to \$2.00 a day.

Our 35th Series starts, Saturday, May 5th. Shares now on sale. The Home Building & Loan Ass'n.

Square Inch Holds Six Million Particles Dust, Scientists Say

CHICAGO, May 2. — It requires more than 6,000,000 tiny dust particles to cover a glass plate one inch square, according to investigators at the Structural Materials Research Laboratory of the Lewis Institute here.

Although it would seem a hopeless task to count three millions of dust particles and measure their exact size, these Lewis Institute investigators have carried out a series of tests in which these operation were performed.

The tests were conducted to determine the fineness of portland cement, and it was discovered that if average sized cement particles were laid in closely fitting rows it would require 6,000,000 to cover the same area.

In making the tests, samples of cement were blown up a series of brass tubes by compressed air. This operation separated the tiny particles and the sizes were then obtained by microscopic measurement. The cement particles had already passed through the standard testing sieve specified by government requirements. Such a sieve contains 40,000 holes to the square inch and is woven of bronze wire, finer than a human hair. The sieve is finer than silk and will hold water. Government standards require that 78 per cent of a given quantity of cement be fine enough to pass through this sieve.

COULD THIS HAPPEN TO YOU

An automobilist injured a man with his car.

The injured man demanded a large sum in damages. The automobilist considered his demands unreasonable and refused to pay.

The next day the claimant filed suit against him for \$25,000 and attached his bank account and property until it was settled.

It cost the automobilist \$15,000 and court costs to remove this attachment!

A \$15,000 Travelers Automobile Policy would have saved this man all that worry and expense!

MOVABLE BALCONY WILL DOUBLE SPACE IN OLD COLISEUM

CHICAGO, May 2.—The Coliseum, scene of the last five Republican national conventions, and of other conventions, exhibitions, boxing and wrestling matches, six-day bicycle race and other events, will be enlarged by one-half if exhibitors who lease it annually approve the necessary expenditure.

Charles R. Hill, president of the Coliseum company, has completed plans for a removable second story, which may be erected or dismantled in 12 hours' time, and which will add 50,000 square feet to the present 100,000 square feet of floor space.

The plans, suggested by the annual automobile show and "Own Your Own Home" exhibitors, are now being submitted to other regular exhibitors. The proposed improvement involves the expenditure of \$75,000.

Hill's plans call for a unique electric crane and a sectional steel floor with supporting columns giving 17 feet head room between the first and second floors, all to be housed in a pit beneath the present main floor when not in use.

"The actual operation of the plan will appear like the work of some stage magician," Hill said. "For example, a six-day bicycle race closes at midnight on a Saturday. The next week's exhibitor needs the extra floor. The race crowd files out and at 12.30 a. m. workmen appear and begin lifting off sections of the main floor.

"A workman turns a switch and the electric crane, which has been stored in the girders at one end of the building, comes to life, the engineer takes his seat and the crane begins lifting out the steel columns lying in the pit under the main floor.

HANDICAP SEASON OPENS AT JAMAICA

NEW YORK, May 2.—The Pausonok Handicap, noted short-distance event of the Metropolitan Jockey Club programs, was scheduled as opening day card at the Jamaica track inaugurating New York's racing season of 155 days. A sterling band of runners, as is the custom, were to face the barrier. Tryster won the event from a classy field last year.

The calibre of the stock in the tables at Jamaica this year evidences a great deal of improvement over last when influenza had left its ravaging marks on the various strings. There are no "jaded nags," emaciated steeds of bad wintering, at Jamaica. It has been many years since such a fine gathering of thoroughbreds munched mash in those barns.

There is all sorts of talk about champions in the youngster classes. Last year, they say, was a season of "in-and-outers"—champions one day, dogs the next—but this year 'twill be a different story. The stock is better, or rather the material is better than either in 1920 or '21, and there hasn't been any disease epidemic to hamper training and winter coddling.

The youngsters being talked of as champions possibilities are legion. Their great number probably is due to the fact that the stake programs of the various New York tracks have been enlarged—there are more chances to do something that will be talked about. As far as the older horses go—all the campaigners are here, among them the king of the distancers, Willis Sharpe Kilmer's grand old Exterminator, ready to attempt the acquisition of a barn full of stakes to increase his winnings to a figure greater than that of Man o' War before that great runner was retired to a Kentucky stud.

Tombstone Warns Autoists.
Reading, Pa., April.—(By Associated Press)—A tombstone, erected near Hughes Hill, on the Pottsville pike near Hamburg, is a grim reminder to reckless automobilists of the dangers of careless driving on the highway.
The stone, about four feet high has the word "Dangerous" at the top. On the side toward Reading a skull and crossbones appears with the announcement "14 miles to the nearest hospital."

COMMISSIONERS SALE OF LAND
By virtue of authority vested in us by an order of the Superior Court made in that Special Proceedings No. 2422, entitled Johnnie E. Tucker, administratrix of J. Arthur Tucker, deceased against S. T. White, Nannie E. Tucker and others on October 30, 1922, wherein a petition was filed to sell land to create assets, and whereas order of re-sale was made on April 28, 1923, we will sell to the highest bidder for cash at the court house door in Greenville on
Monday, May 14th, 1923 at noon
those two tracts of land willed to the said J. Arthur Tucker by his father, Arden C. Tucker and being a part of the Arden C. Tucker home place, lying on and near the Greenville-Snow Hill-Winterville Highway, which said tracts will be sold as one body and one tract of land.

TRACT No. 1. In the division of the lands of the late Arden C. Tucker,
Monday, May 14th, 1923 at noon
