

Congress at the last session passed an appropriation bill providing funds for various Western reclamation projects. The act contained this significant clause that might prove pregnant with meaning to Eastern Carolina: "COOPERATIVE AND MISCELLANEOUS INVESTIGATIONS OF RECLAMATION PROJECTS, \$125,000." The amount itself is small, but its significance is GREAT.

If a part of the fund was diverted to use in this section, in whole or part in inaugurating federal interest in a reclamation program, like that which has been followed in the West, results would be overwhelming. Western interests assume to assert that the "money for miscellaneous investigations of reclamation projects," can only apply to irrigation needs of that section.

It is high time that the people of this section of North Carolina to assert themselves. For every acre in the west that is capable of this sort of development there are more here. There is no monopoly in the desert capable of being made into a garden that works against the swamp which justifies draining. AGAIN, IT IS TIME TO PRESS OUR CLAIMS.

WEATHER.

Partly cloudy tonight and Friday, probably showers near the coast.

BANK TO STAY U.S. VERDICT

Seeks Rehearing On N. C. State Banks Service Charges

WASHINGTON, June 21.—Counsel for the federal reserve bank of Richmond, presented to the supreme court today a motion for leave to petition for rehearing in the case brought by the Farmers & Merchants bank, Monroe, N. C., and others, in which the court June 11, sustained the validity of the North Carolina law under which state banks were authorized to charge a commission for services in the collection of checks drawn upon them.

The effect of the motion will be to prevent issuance of the mandate of the court putting into operation its decision until after it reconvenes next October, and determines whether it will rehear the case.

British Concerns to Force Ruling on Right Ships to Carry Liquor

SOUTHAMPTON, June 21.—The Cunard liner Berengaria which sailed for New York Saturday carried sufficient alcoholic liquors for her return voyage, under the same kind of lock and seal as that employed by the White Star ship Olympic, which sailed yesterday, it was learned today.

WASHINGTON, June 21.—The new snarl developed in the ship liquor tangle by the apparent determination of some French and British ship owners for a test of strength puzzles Treasury officials, they said frankly today.

At the State department the inclination was to turn over the whole problem to the Treasury, which will begin tomorrow to ascertain what it may or may not do.

It was stated officially that a series of conferences undoubtedly would be held before Secretary Mellon leaves Saturday.

NEW SCHOOL IN PARIS TEACHERS PANTOMIME

PARIS.—Acting without the aid of speech to interpret each expression, is being taught in a new course at the French National Conservatory Georges Vague, master of pantomime trains pupils in facial gymnastics and posture. His students are given exercises in moving muscles of the face, and in developing their ability to simulate anger, hate, joy and sorrow just as in the conventional classes they are taught to convey ideas with a combination of facial expression, gesture and tone of voice.

Virginia Man Honored.

CAMBRIDGE, Mass., June 21.—James Hardy Dillard, Charlottesville, Va., has been awarded degree of doctor of laws of Harvard university.

W. H. ROGERS QUILTS HIGHWAY WORK, BECOMES CONSTRUCTION ENGINEER TEACHERS COLLEGE

W. H. Rogers, for one year connected with the Pitt County Highway department, and for the last two years resident state highway engineer here has resigned to become construction engineer in charge of the big building program at the East Carolina Teachers College. Roger's resignation is effective July 1, when he will assume his new and responsible position.

Under the present plan more than \$1,000,000 will be spent in improvements at the college within the next year. The cement foundation of one of the large dormitories has been poured and the various building projects will be vigorously pushed when

Major Daugherty Flees From Sanitarium

Major Draper M. Daugherty.

Major Draper M. Daugherty, son of Attorney General Harry M. Daugherty, escaped from the Stamford Hall Sanitarium, at Stamford, Conn., when unknown persons stopped their automobile, took him aboard and "stepped on the gas." Daugherty voluntarily entered the sanitarium on April 25. Two days later he was formally committed for not less than four months nor more than a year, upon application of his wife, Jean B. Daugherty and his uncle, M. S. Daugherty. It was testified his health had been impaired through drink.

G. O. P. Received Jolt In Michigan, He Says

WASHINGTON, June 21.—The close result in yesterday's special election in the Third Michigan congressional district which returned a Republican to the house of representatives is the "latest evidence," Chairman Hull, of the Democratic National Committee, declared in a statement, "that the nation wants the Democratic party restored to power and the restoration of Democratic prosperity." "While the Republican administration leaders," the statement said, "are at the height of their joy-riding, junketing and Belshazzar feasting the voters of the third congressional district of Michigan write upon the wall the warning of their overthrow."

Union Mine Heads Now Harmonious

CHICAGO, June 21.—The recent conference "adjusting their relations" between President Lewis, of the United Mine Workers and Frank Farrington, president Illinois miners organization, indicates "complete harmony and unity of purpose" with in the miners union, Samuel Gompers, revealed today.

Harding Pardons 30 War Prisoners

WASHINGTON, June 21.—Immediate release of prisoners convicted of violating war laws, but with continued detention of almost as many more was ordered by President Harding before leaving on his western trip.

The President acted on 158 pardons and commutation cases, a record-breaking number, in the opinion of department of justice officials. He granted 30 conditional and 14 unconditional commutations, one full pardon, restored civil rights to 27 former prisoners and denied 84 applications for pardons or commutations. He also ordered remission of fines in two cases.

OVER 100 NEGROES TRAPPED IN FIRE, 10 DEAD, 25 HURT

CHICAGO, June 21.—Ten negroes are known to have been killed and at least 25 injured in a fire which swept a three-story tenement house here early today.

Approximately 160 negroes were cut off from escape by the destruction of the main stairway and a number jumped from the windows to the streets. The exact number of fatalities has not been ascertained. Included in the group of dead and injured are a number of southern negroes who recently came here to work in the industries, it is reported.

FIRST DAY OF COMMUNITY SALE GOES FINE, DEALERS AND BUYERS WELL PLEASED

The first day of the big Community Sale is under today to a good start. The group of Greenville merchants who made it possible for local and county buyers to obtain varied merchandise values at price reductions, report satisfactory progress.

A representative number of purchasers from various points in the county were here early today to support the rare profit-sharing plan of selling between dealer and customer. In order to insure greater success of the sale dealers who do not belong to the Greenville Merchants association are also represented by offering attractive bargains.

Fine Lighting Effects. All of the stores have installed extra lighting effects in their show windows which will be turned on tonight for the first time. The effect will develop scheme of coloring that will be entirely new to Greenville.

A cluster light of four large lamps has been erected at Fourth and Evans streets to which has been attached four wires containing hundreds of small lights. This effect was tested out last night and caused widespread admiration.

In every store where the Community Cop is displayed special stress has been given to making this event a regular going affair, as will be reflected in the fine display of goods, commodities and a multiplicity of other useful and needful articles.

Doing Big Business. One merchant told The Reflector that he was so busy that he did not have time to prepare ad. copy. "Write anything you want, about the sale, I am for it. I am ready to give the buyers a wide choice of goods covering every line at appreciable cuts in original prices," he said.

Business concerns predicating the result of today's trade as a basis for the overwhelming success of the project are sanguine. They believe that it will confirm the original declaration that it will mark an epochal era by making possible frequent collectively sales for the common benefit of merchants and buyers.

Special bargains are listed for the sale tomorrow. Others will be repeated Saturday.

Greenville folks are invited to look the window displays over this evening.

Pitt Legion Urges Auto Stop Law At Rail Crossings Goes In Effect On July 1

Dr. C. O'H. Laughinghouse, was urged to become a candidate for the office of state commander of the organization at a meeting of the Pitt County Legion Post, in the Wayside Tea Room Tuesday. Members of the local body pledged him support and promised to promote his candidacy. It is understood that a regular organized campaign will be undertaken by the friends and comrades of Dr. Laughinghouse, to bring about his election at the state meeting of the Legion at Rocky Mount in September.

It was announced that a joint meeting of Pitt Post and the Women's Auxiliary will be held in the Wayside Tea Room July 17. State Commander Lockhart, State Adjutant Robert Denny and Mrs. Norfleet, president of the Women's Auxiliary will be guests. Following supper, and short talks, public speaking will be held in the courthouse.

"Stop! Look! Listen!" as applied to automobiles becomes a law in North Carolina July 1, according to the terms of an act passed by the last General Assembly which will become effective on that date.

An interpretation of the new law made public today by the attorney general's office at Raleigh says that every person operating a motor vehicle on a public road shall be required "to stop his vehicle at a distance not exceeding fifty feet from the nearest rail" of all train tracks at crossings except where such crossing is one where "there is a gate or watchman." Neither does the law apply to "an electric railway track in a city, town or village."

Railroads are required to place a sign board not less than ten feet from the ground on the right side of the road and one hundred feet from the crossing under the terms of the law. These signs will bear the lettering: "N. C. Law. Stop."

Violations of the law, according to the attorney general's interpretation, will be a misdemeanor, punishable by a fine of not more than ten days' imprisonment of \$10.00 or both in the discretion of the court. Such cases will come under the jurisdiction of the superior court and not that of justices of the peace.

Second District To Hold Primary In Fall

ROCKY MOUNT, June 21.—At a call meeting here the democratic executive committee of the second congressional district issued a call for a primary on the first Saturday in October at which time the party's candidate to fill out the unexpired term of the late Claude Kitchin as representative in congress from the district will be chosen.

Etna Renders Thousands Homeless

Mount Etna, N. I.

CATANIA, June 21.—Reports from Mount Etna region today said there had been slight decrease in the intensity of the eruption, while explosions within the crater were less frequent.

CATANIA, June 21.—The smiling, fruitful and thickly populated, slopes of Mount Etna and the surrounding country, as the correspondent of the Associated Press saw them in the past have now become with ghastly suddenness "the land of dreadful night." Through the thick darkness, which can almost be felt, grows the crimson of the lava fire flowing from the broken lips of the craters, extending for miles a gradually growing darkness as the molten mass cools and hardens, until cracks and crevices appear on the surface through which can be seen bubbling up the boiling lava from beneath.

The fields of Fiume Friddo, Diana and Calatabiano, once green and beautiful, now covered with heavy deposits of dust and cinders, tremble and heave beneath the feet, while the roaring sounds accompanying the eruption mingle with the rumblings.

LOCAL FIRM SECURES AGENCY FOR CHEVROLET IN 5 COUNTIES

Messrs. Earl V. Carter and Cecil R. Cobb now operating as the Carter-Cobb Motor Company have secured the exclusive representation of the Chevrolet motor cars for five counties of eastern North Carolina with Greenville as the distributing point. They have also purchased from the Hines Motor Company in which they are located, the repairing department from which they will serve as principal service station for the upkeep of the Chevrolet cars, also for Buick agency which will be retained by Mr. J. M. Hines with his show rooms in the same building.

Trolley Car Runs Wild, 17 Are Injured

RICHMOND, Va., June 21.—Seven persons were injured, none of them seriously, late today when a street car ran wild during the rush hour in the downtown district, running at breakneck speed for a distance of several blocks before it was brought under control. The car was filled with passengers at the time. Many persons leaped from the speeding car and were injured when they were thrown to the pavement.

Negroes to Celebrate.

GOLDSBORO, June.—Local negroes have obtained permission from the Wayne County Fair association to use the fair grounds for a Fourth of July celebration. A big barbecue, horse racing, baseball games and other amusements will feature the day for the colored folks.

TOWN IS PERILED, BIG FIRE

Gas Tank Explodes, Rouseville, Pa., Now Threatened

OIL CITY, Pa., June 21.—Fire caused by explosion of vaporlines spread so quickly in the plant of the Penn American Refining company today, that 10 stills were soon in flames and 7,000 barrels of oil endangered.

Fears are expressed for the safety of Rouseville, a suburb in which a \$2,000,000 refinery is located when flames extend to a number of gasoline and benzene tanks.

The loss as it stands is heavy, while there is no way to figure what the figure might reach before the blaze is under control. Every nearby fire company has been summoned to help fight the stubborn fire.

Officer Whichard Nabs Boy for Theft of Wheel

Early this morning Mr. R. A. Askew complained to Officer Whichard that his bicycle which he had left in front of the store of McKay, Washington & Co., had been stolen or else borrowed for an indefinite time. He was soon on the trail, and within a short while he had placed his suspicions on the guilty party. Joe Langley a young negro youth being approached at first denied the accusation of being the thief, claiming that he bought the wheel from another negro on the "starvation plan" of \$1 down and the balance when he was caught. When the officer threatened to go in search for the other negro on whom Langley had placed the blame, the latter decided that he wouldn't put the officer to this unnecessary trouble and boldly admitted that he was the rightful party. Langley will have to explain to Mayor Clark in the police court Saturday morning the reason for his misconduct.

Justice Clark Here, Guest of the Mayor

Hon. Walter Clark, chief justice of the state supreme court, accompanied by his sisters, Mrs. Patterson and Mrs. Nicholson, were in Greenville today for a short time, the guests of Mayor Clark. Justice Clark is anxious to see the new highway bridge between Windsor and Williamston and the party including the mayor left this afternoon to inspect the structure and to visit points in Halifax county. Washington will also be visited from where Justice Clark will go to Occanee for a brief vacation. Mayor Clark will leave the party at Washington, returning home.

Lecture Thrills The Junior Baptist Meet

HIGH POINT, June 21.—The mountain top of today's sessions of the B. Y. P. U. convention was reached when Rev. D. W. Herring, who has been a missionary in China for more than 30 years, and Dr. J. Marcus Kester, educational secretary of the foreign mission board, delivered addresses which thrilled the large delegation of young people. On account of the increase in attendance upon the meeting of the convention, it was necessary to hold an overflow session in the First Baptist church, the two main speakers of the session alternating.

HEAT CLOSES MILLS.

Lawrence, Mass., June 21.—The four local mills of the American Woolen Company were shut down today because of the heat.

DO YOU KNOW THAT—

The big **COMMUNITY SALE** is under way? It will continue tomorrow and Saturday.

TEACHING CHILDREN GOOD MANNERS

Good breeding is not picked up. It is either learned in childhood, or not at all. Of course a certain superficial type of good breeding may be acquired, but not the way-down-deep, always-have-had-it kind that is really charming and worth while.

It should be as natural for the small boy to lift his hat at the proper time, to stand when a woman enters the room, and to the hundred and one other little things, as it is for him to eat three meals a day, and go to Dreamland at night. If these habits are inculcated in youngsters at an early age, they will never be forgotten.

Then there are the many little things that children should be taught not to do, except in privacy.

You can tell a well-bred child, one taught the many little niceties of life when quite young, by the absence of self consciousness. This is the beauty of it all. This and his thoughtfulness.

And, after all, courtesy, charming manners and good-breeding are synonymous with forgetfulness of self.

Children require a lot of loving—mother loving. Children grow up so quickly, plump

little legs run away into long trousers and little pink feet slip hapily into wedding slippers. As they grow older a reserve comes to children as their armor against the careless world, but this will gladly be laid aside when alone with the mother who has done a LOT OF LOVING.

FRANCE URGES POLAND TO FIGHT

Coincident with the visit of General Foch to Poland comes violent attacks against Germany and German minorities.

About 1,000,000 Germans have already left the Polish state more or less voluntarily. The violation of the minority protection clauses of the peace treaty became so flagrant, that the German colonists applied to the council of the league of nations for protection.

On September 30, the league of nations council, a body which certainly cannot be accused of pro-German views, passed a resolution to the effect, that in several cases the Polish government had infringed the peace treaty, and that they had no right to appropriate colonists in cases where these had come into possession of their estates before November 11, 1918. The Polish government flatly rejected this decision.

The tension between Poland and Lithuania is extreme now and hostilities may break out at any moment, especially because Lithuania is backed up by Russia. How far Russia is prepared for war, does not concern us, but in the answer to this question lies the solution of this conflict and incidently the key to the whole Polish situation.

In the Meantime France has granted to Poland a new loan of 400,000,000 francs which will be used for armament purposes, and Poland has doubled her already strong army.

New York reports an aviator who from aloft saw a fire on the roof of a large building in the congested Bronx borough, gave the alarm by sounding a siren and hovered about until the fire department responded. The loss was held to \$100,000 where it might have mounted to a million if it had not been for the emergency alarm by the aviator.

More than 1,000,000 German marks could be purchased today with an American \$10 bill. The increase in value of the dollar and the fresh plunge of the mark created another mad rise in goods, especially foodstuffs.

Street Car Man Gains Forty Pounds By Taking Tanlac

G. W. DUNCAN

"I am recommending Tanlac to others now because I know from my own experience how quickly it ends stomach trouble and what a great tonic and body builder it is," recently said George W. Duncan, 16 Hendrix Ave. Atlanta, Ga., for eight years motorman for the Georgia Railway & Power Co.

"For two years I couldn't eat the lightest meal without suffering from gas and heartburn. I got weak and rundown, with a dull, tired-out feeling all the time, and fell off from my normal weight of one hundred and eighty pounds to a scant one hundred and forty."

"Tanlac has fixed me up so I can eat the heartiest meal now without suffering a bit from gas or pain. I have strength and energy to spare and am back to my normal weight again. Tanlac certainly has done me a world of good."

Tanlac is for sale by all good druggists. Accept no substitute. Over 37 million bottles sold.

Tanlac Vegetable Pills are nature's own remedy for constipation. For sale everywhere.

NOTICE.

Get your town automobile license at the Town clerk's office, you must have them on July, 1st, 1923 now on sale \$1.00.

Watch Chevrolet grow. 21-11

Snakes and Monkeys Still Cheap In London

LONDON.—One of the oddest institutions in London is an auction mart where wild beasts, monkeys, reptiles and other animals and birds are sold for absurdly low prices.

Full-grown Rocky Mountain or Himalayan eagles can be bought for \$3 each. There are many bargains in monkeys too, lively young mandrills bringing only \$10 and little sooty Mankeys \$7. Pure white Rhesus monkeys are in favor among society women and sell for \$30. The animals are taken from their cages and held up on the auctioneers rostrum where they timidly survey the noisy throng bidding for their possession.

ANTI-RUM FORCES REPORT SWEDISH IRON CO. PAYS DIVIDEND OF FIFTEEN PERCENT

STOCKHOLM.—Sweden's biggest corporation, the Grangesberg Iron Mining and Traffic Company, whose activity is looked upon as a barometer of industrial conditions, shows in its report for 1922 a net profit of about \$3,860,000 on a total capital of about \$32,000,000. The board of directors proposed a dividend of 15 percent. The quantity of iron ore shipped out during the year rose to more than 5,000,000 tons.

Some Meats Sell Today Cheaper Than in 1913, Says Business Head

CHICAGO.—The recent announcement from one of the statistical bureaus of the United States government that the cost of living is approximately 7 percent higher today than it was 10 years ago has brought a statement from F. W. Waddell, vice president of Armour & Co., to the effect that wholesale selling prices for meat are in some cases lower than they were in 1913, and in others at almost exactly the same level.

Waddell submits the following comparative prices based on an average of the trading in May, 1913, and May, 1923:

	1923	1913
Pork Loins	.16 3-4	.14 1-2
Boston Butts	.12 1-2	.12 1-2
Spare Ribs	.08	.10
Bee Carcasses	.13	.12
Loose Lard	10.18	10.60
Ham	.21	.23

"It must be understood there are certain grades of products that sell for higher prices than those quoted, and other grades that sell at lower prices," says Mr. Waddell, "but the general standard of prices is just about on the level of 1913.

"In 1913 and in 1923 the average cost of hogs was about the same, but since 1913 the cost of manufacturing live animals into meat has increased materially, as has the cost of distributing the finished product. The prices quoted above are to retailers.

DEATH STALKS NEAR ALTAR AS FLEMISH COUPLE WED

GOETTINGEN.—The "shadow of the gallows" fell across the marriage altar at a unique wedding which

occurred here recently. The bride was a daughter of a man sentenced to death, and both best man and bridesmaid were under similar sentences. The groom had been condemned only to 20 years imprisonment. All four were fugitive Flemish who had been convicted by the Belgians because of certain Flemish tendencies and pro-Germanism.

LISBON HOMES INVADIED AS POLICE SEARCH FOR BOMBS

LISBON.—Nightly bomb explosions which have been terrorizing the residents of this city for more than two months, are still as much of a mystery as ever, although the police have resorted to many drastic expedients in their efforts to find the culprits.

In the small hours of the morning recently, the entire police force, flanked by the Republican Guards, was divided into squads and ordered to search all Lisbon dwelling for explosives.

DETERMINED TO DISCOVER BEST SAND FOR CONCRETE

CHICAGO.—Row after row of little glass bottles, filled with sand

and carefully filed away in glass-covered cabinets is a part of the technical "library" at the Structural Materials Research Laboratory at Lewis Institute in Chicago. It is probably the only collection of its kind in existence, and the information contained on the labels of the bottles gives an interesting insight into the part that science is playing in modern industrial undertakings.

Says Use of Insulin Helps in Tuberculosis

SANTA BARBARA, Cal., June 21.—"The discovery of insulin for the cure of diabetes by Dr. F. G. Banting of Toronto, Canada, may be considered a great aid in the anti-tuberculosis campaign," said Dr. W. D. Sansum of the Potter Metabolic Clinic, Santa Barbara, Cal., today at the nineteenth annual meeting of the National Tuberculosis association now in session in this city.

Communists Awed By Hoax of Swiss Students

GENEVA.—The recent assassination of the Russian diplomat Vorovsky at Lausanne, had a rather curious aftermath here, not without its humorous aspect.

The day after the murder the communists of Geneva organized a meeting of protest at the Apollo Theatre. A group of university students had it in mind to break up the meeting

by force, when one of their number conceived the idea of playing a practical joke, designed to alleviate the possibility of bloodshed and gain the desired end at the same time.

Just as the communists were about to assemble, the student with the idea telephoned to the theater and asked for the communist leader.

Says Use of Insulin Helps in Tuberculosis

SANTA BARBARA, Cal., June 21.—"The discovery of insulin for the cure of diabetes by Dr. F. G. Banting of Toronto, Canada, may be considered a great aid in the anti-tuberculosis campaign," said Dr. W. D. Sansum of the Potter Metabolic Clinic, Santa Barbara, Cal., today at the nineteenth annual meeting of the National Tuberculosis association now in session in this city. "A good many cases of tuberculosis are also diabetic. Heretofore the treatment of diabetes meant a severe diet, often causing undernourishment, although the treatment of tuberculosis calls for the best nourishment possible. Cases affected with both diseases have in the past been nearly hopeless."

OVER NINETY PER CENT FAIL
 Statistics show that less than ten per cent of men succeed or die solvent. Why? Not because they do not try, but largely because they break down through worry, attempting too much, or because of circumstances beyond their own control. Life insurance eliminates worry, takes something from the risk of business, and saves ruinous liquidation if a man dies.

 Joseph Parkerson has returned from Richmond where he has been taking a business course.

Born—To Mr. and Mrs. C. B. West, a daughter.

MISS LILLIAN HOOKER ENTERTAINS.

Hostess at Kitchen Shower Complimentary to Misses Alice and Hannah Fulford.

On Tuesday at her attractive home on Greene street, Miss Lillian Hooker delightfully entertained a large number of friends at a kitchen shower complimentary to Misses Alice and Hannah Fulford, brides-elect. Seven tables for bridge were arranged on the porch which was beautifully decorated with hanging baskets and potted plants. Upon arrival the guests were welcomed by the hostess.

During the games coco-colas, sandwiches and minths were served. After several progressions the guests were invited into the library which was attractively decorated with yellow daisies and evergreen. A table covered with a white cloth decorated with red hearts, was arranged in the center of the room. Under two Japanese parasols were found two cup pans containing a splendid selection of cooking utensils, which were presented to Misses Fulford.

Miss Linda Warren, making the top score, was presented a string of beads while Miss Nancy Arthur, honor guest was given a beautiful handkerchief. Miss Hooker assisted by Miss Margaret Marooney and Mrs. John McKeithan, served an ice course.

Predicts Big Cut in Death Rate From The White Plague

SANTA BARBARA, Calif., June 20.—"The decline in the tuberculosis death rate of the last two decades from over 200 per 100,000 population to less than 100 in the registration area of the United States, is in large measure to be credited to the organized campaign against tuberculosis which has been carried on by the official and non-official agencies during this period," said Dr. Louis I. Dublin of New York before the National Tuberculosis Association here at today's meeting. Dr. Dublin is statistician of the Metropolitan Life Insurance company.

A careful study of the statistics gathered from all over the world by Dr. Dublin gave a direct answer to those who from time to time have questioned the value of the anti-tuberculosis campaign, and have looked upon the working of natural selection and other influences, not under human control, as probably the most significant factors in the fall of the death rate. Dr. Dublin maintained that the larger part in the decline of the tuberculosis death rate was due directly to factors under man's control, and that with the development of these factors through the anti-tuberculosis and other social agencies, the amount of control over tuberculosis will be greatly increased and the death rate will be subsequently very much lower.

"Not all, but a large part, of the credit for the declining tuberculosis death rate can be assigned to the anti-tuberculosis movement," said Dr. Dublin. "No one knows all the facts

on the causes of the reduced prevalence of the disease. It would be unreasonable to deny that there are persons so constituted that even under favorable living and hygienic conditions they may become seriously sick with tuberculosis and would not respond to any treatment now known to the medical profession, but such a group composes probably a very small part of the whole population.

Fellowship Will End Labor Fights, Rotarian Asserts

ST. LOUIS, June 20.—If employers would spend half as much time cultivating the friendship, respect and good will of labor as they do fighting labor organizations there would not be a labor problem, Sherman Rogers, of New York, today told the delegates to the fourteenth annual convention of Rotary International here.

"We waste too much time talking about the labor agitator," the speaker said. "He can only be recognized as the logical friend of the worker where the management has refused to extend its friendship."

"I was in the Seattle shipyards workings as a helper in 1917 when Charles M. Schwab made his tour of the American shipbuilding institutions. We'd heard he was a labor hater."

"The first instant the great steel man looked us over it was apparent to every man in the bunch that Mr. Schwab really liked him. He stepped on that platform Charles M. Schwab, autocrat, millionaire magnate. He stepped off that platform, 30 minutes later friend Charles. In that short 30 minutes he had destroyed the hatred that agitators had been building for 15 years."

"The world is built on ideals. Labor wants to be square. If labor follows the wrong leader it is not because they want to misunderstand but because the right leader has been asleep at the switch and hasn't given the men a chance to understand him."

"There are three sides to every question—your side, the other fellow's and the right side. I don't believe there was ever a question in either modern or ancient history where either side to the dispute was 100 percent right."

British Shipbuilding Increases
 LONDON.—The shipbuilding industry of Great Britain is showing a marked contrast to the dullness prevailing a year ago.

The British India Company has let contracts for 16 oil-burning vessels, aggregating approximately 162,000 gross tons, including two steamers of 21,000 tons each. The entire fleet will be used for the Indian mail and freight service.

FOCH AT WARSAW SELECTS VETERAN FOR SPECIAL HONOR

WARSAW.—When Marshall Foch reviewed a parade of Polish troops during his recent visit to Warsaw, he commented upon a group of white-haired veterans walking as erect as their gathering years would permit. He was told that it was composed in part of members of the revolution against Russia in 1863, and that they all enjoyed pensions from the Polish government.

The Marshal said no more about the incident, but the next day, during a reception by the Warsaw municipal Council, he walked up to the chairman of the Veterans' Union and, without having told anybody what he was going to do, pinned the medal of the Legion of Honor on the old man's uniform.

75 Years in English Mines.

Morwena Bird Said Yes to Egypt's Royal Prince

CAIRO.—Cairo is gossiping again. The inhabitants had barely recovered from the Tutankhamen affair when a scion of the Egyptian royal house secretly married an English girl. The bride was Miss Morwena Bird, and the royal bridegroom is Prince Said Halim, second cousin of King Fuad. The minute the regal relatives of the prince heard about his love for an English maid of another faith they began making objections, but got nowhere with them. The prince simply took his sweetheart into a Moslem religious court, went through the ceremony and ran away to see Europe in the fashion of honeymooners. Miss Bird since the war has been one of the bright figures of Cairo's ballrooms. Her father was a Colonel stationed in Egypt before the war. The prince, who is 25, already has the reputation of being a good prophet and a reckless man with his purse.

Strict Rules to Govern Great Tennis Tourney

ST. LOUIS.—Players in the singles and doubles championship of the United States Municipal Tennis Championship must be public park title holders in their respective cities to qualify, it has been announced. The tournament, the first such event ever held in this country, will begin here Aug. 8.

Gold medals will be awarded the winners in the singles and doubles, and the name of the singles' victor will be inscribed on the new National Municipal Tennis Championship Trophy. This trophy, donated by the United States Lawn association, is a silver vase mounted on an ebony base.

Railway Improvements To Cost Many Millions

CHICAGO.—The Pennsylvania Railroad system has begun a series of improvements to cost more than \$125,000,000, according to an announcement made by the road here recently. Work has already begun on improvements costing more than two million dollars in the northwestern region, which includes most of Illinois, Indiana, Michigan and Ohio.

The largest single improvement will be at 55th Street, Chicago, where the tracks will be elevated at a cost of \$616,221. Another expenditure of \$121,379, will be made just four blocks south, at 59th street, where the Pennsylvania shops are located. Facilities for making heavy repairs to freight cars will be installed in these shops so that disabled cars can be put on the tracks promptly, in accordance with the present campaign to keep all equipment in constant service.

Won By Frankness, The Duchess Gladly Doubles Her Gift

LONDON.—The Brighter Britain Movement, which aims to popularize rural life, is attracting interested attention here, and one reason is that it has turned away from the time honored English practice of having women of title on its list of patronesses. A certain duchess was asked for a subscription. Languidly she answered: "You may put me down for 100 guineas and you may add my name to your list of patronesses." The efficient young woman solicitor replied that they would gladly take her guineas, but that there were no patronesses, so that aspect of her contribution must be ignored.

The duchess, at first amazed by this unexpected frankness, was not slow to see the possibility presented to become, for a moment, her own press agent. So she doubled her contribution, and said she was glad to belong without being listed as a patroness.

POLITICS THRIVE AMONG VARIOUS CLANS OF EUROPE

PRAGUE.—Due to the admixture of races in many countries of southeastern Europe, one often finds in these lands an extraordinarily large number of political parties or factions, each one striving earnestly for what it appears to be praiseworthy re-

forms. Czechoslovakia, with a population of 13,500,000, counts 50 such organizations, 32 in the Czech provinces and Slovakia, and 18 in Subcarpathian Russia. Of this total, 20 are represented in the Czechoslovak parliament.

British Rulers Closely Guarded on Continent

LONDON.—Americans who were privileged to see King George and Queen Mary off for Italy were struck by the number of secret service men and guards who accompanied British sovereigns. In England the king and queen are relatively safe from the hands of assassins and evil-doers, but when they are travelling on the continent they are much more carefully protected that the president of the United States when he leaves the White House.

Dozens of picked detectives from Scotland Yard kept a vigilant eye on the British rulers while they were in Italy. While the police of each country through which the royal party travels are nominally responsible for the protection of their visitors, the British authorities are not satisfied with this protection and insist upon a big retinue of their own trained sleuths. They recall that it was on the continent that an assassin attempted the life of the late King Edward. Only the prompt intervention of one of the king's guard saved the mon-

Charter Warehouse.
RALEIGH, June 21.—For the purpose of conducting a general warehousing business the secretary of state has granted a charter of incorporation to the Hamlet Warehouse company, Hamlet. The capital stock of the concern is \$50,000 and incorporators are J. P. Gibbons, W. R. Land, Nathan LeGrand, and L. E. Blanchard, all of Hamlet.

Ayden, N. C., June 21, 1923.

Jefferson Standard Life Insurance Company,
Greensboro, North Carolina

Gentlemen:

I am just in receipt of check in payment of life insurance carried by my late husband, Lorenza McLawhorn, and take this occasion to thank your company and your local agent, MR. R. T. COX, for the prompt, courteous and efficient settlement of the claim. It is very gratifying to me to have the claim settled in so satisfactory and expeditious manner. Mr. McLawhorn carried other insurance, but your company was the first to effect settlement.

Very truly yours,

SUSAN E. McLAWHORN,

Administratrix of the estate of Lorenza McLawhorn, deceased.

"It Pays to Swim with the Current"

This is about two spark plugs. At the moment they are lying on the sales manager's desk in the establishment of a large middle-western hardware jobber.

One spark plug bears a name known wherever automobiles are used, the other a name seldom heard.

Both, says the sales manager, are good plugs. On the score of quality they run neck and neck.

"But," he adds, "we are discontinuing this line"—and he holds up the plug of unfamiliar name. "Yes, and our discount on it is larger, too."

"What's wrong with it? Not a thing. It's a good plug—mighty good plug, but—no one knows about it. It isn't advertised—the other one is. The demand is for the advertised make. And we've learned it pays to swim with the current, not against it."

More and more jobbers in every line of business are learning every day that it pays to swim with the current of popular demand.

"Our job," said one jobber "is to supply markets, not create them. Let the manufacturer make a market for his goods and we will handle it."

Said another—"Our salesmen carry a catalog with thousands of items in it. They haven't the time to push unadvertised goods. Their work is principally taking orders."

If you go among these wholesalers today to introduce a new product in competition with merchandise nationally advertised, unless the article is exceptional, you will be met everywhere by the injunction: "First go out and get a reputation for your goods through advertising."

The wholesaler knows by actual contact with dealers how they value speed of turning over, goods which move with a minimum of effort, goods people know about and ask for.

BUSINESS NEEDS, PRESENT, FUTURE OF PITT COUNTY

By G. W. B. HADLEY
Of Hart & Hadley.
"Pitt County is not adapted to permanent pastures," said a prominent Greenville man a few days ago. This statement gives the reason for this article.

To those who have made a study of Pitt County soil and general climatic conditions, this section can as easily become famous for her fine permanent pastures as she now excels in cotton and tobacco—this can be done without giving up any of our money crops.

Why should our attention be directed toward permanent pastures? First, because it makes for soil fertility. Heavy, washing rains do not do the damage to soil that is well-sodded, that is done to lands without a permanent grass sod. Not infrequently do we find fertile soil being washed away and carried into the streams to be forever eliminated from the map of production.

Value of Cover Crops.
Soils respond much more quickly following cover crops than they do following cotton and tobacco. Crop-growing properties are manufactured by the former process, while they are decreased by the later. This was clearly demonstrated just the other day. "Do you see this piece of cotton," said a farmer near Greenville. "This cut was preceded by rye, while this one was not given any sort of cover crop" continued the farmer. The results spoke for themselves. The cotton that had been planted on the piece of land previously given to rye, was decidedly larger and of a color, than the piece of ground of similar qualities but without the richer cover crop.

Provide Feed Stuff.
In thinking of this article I would have you consider under the head of permanent pastures the following: regular permanent pasture grasses, winter cover crops, soy beans, velvet beans, cow peas, etc.

Second, because it means that our live stock will have a sufficiency of forage to enable them to be at their best during the hot summer months. When they are making possible the cultivation of our crops. Third, because it helps in the solution of the

labor situation. With the advent of the boll weevil (this is a real problem with which we must reckon whether we think so or not), every possible labor-saving device must be brought into operation. With a small acreage devoted to grain, cover and pasture crops, just in that proportion can labor be lessened without injury.

Fourth, in close connection with number three is that of live stock dairying and poultry. The live stock industry, with its closely-allied company is absolutely dependent on ample food supply. No man ever became wealthy with hogs, cows or chickens, and at the same time bought all his feed. On the other hand, various food crops, with permanent pastures and cover crops as a base, and the live stock farmer is already on the road to success.

Landlords Must Help.
Really is there any great need for the live stock program in Pitt county? Just so long as we send to the barns of the west for the stupendous sum of \$4,500,000, just so long as we are willing to impoverish our fine soil by mining its splendid properties; just so long as our cropping system is so geared as to require about half of our time instead of all of it; just so long as we have defective in our schools just so long as we see the pale-face children; just so long as we have the sunken eye—'till these conditions have been corrected, we need, and we need tremendously, the live stock, dairy and poultry program, the base of which is permanent pastures, food and cover crops.

Halo of the Hen.
It is not yet too late for landlords to insure some food crops for the coming winter and not too early to begin thinking in terms of a liberal acreage to permanent pastures this fall. While the Pitt County Chamber of Commerce fully realizes that cotton and tobacco will continue to be basic crops of Pitt county, yet their plan for the "prevalence of the pig, the glorification of the cow, and the halo of the hen" will put money into the pockets of the farmers of this section every month of the year.

The "Lower Weser Branch of the Scissors Club" has been formed here for the purpose of snipping "off the hair of any 'fraulein' who associates with such foreigners, among whom it includes natives of India, negroes, Chinese and Japanese. All tresses thus obtained are to be sold and proceeds devoted to Ruhr relief.

Pineapples Advance in Price.
HONOLULU.—Increases in the prices which the large pineapple canners in Hawaii will ask for their pack this year are expected to raise the territory's gross revenue from this commodity from \$19,000,000, the amount in 1922, to approximately \$24,255,000, it has been estimated. The increases, announced already by the Hawaiian Pineapple Company, the largest packers of the commodity and the Pearl City Fruit Company, one of the smaller concerns, average about 25 percent.

State Editors In Session Blowing Rock

BLOWING ROCK, June 21.—The hundred editors gathered last night for the opening session of the annual convention of the North Carolina Press Association needed no assurance of "their welcome to the 'Land of the Sky'" after luxuriating in the beauty of the scenery and the cool breezes, but they struck the spirit of hospitality on every hand.

The formal welcoming was done tonight by Governor W. C. Newland, of Lenoir, but they had already been initiated into the welcoming business with a dinner as the guests of the Lenoir Kiwanis.

Less than fifty of the editors came in to Lenoir today but lack of numbers didn't interfere with the hospitality. Many of the editors missed the dinner as they came through the country in automobiles and others waited until tomorrow to come. The convention will continue through Saturday with a trip to Linville City as the last thing on the program.

Pharmacists Pass Rigid State Exam.

CHAPEL HILL, June 21.—The North Carolina Board of Pharmacy held its examinations for license to practice pharmacy at Chapel Hill June 15 and 16. Out of a class of 22, 21 whites and one negro, the following were successful: L. M. Lamm, Lucama; J. L. Alderman, Edenton; D. S. Goode, Windsor; R. E. Langdon, Coats; R. H. Milton, Albemarle; A. L. Hogan, Ellerbe; W. W. Parker, Jr., Henderson; S. M. Garner; G. W. C. Rush, Candor; A. P. Westbrook, Dunn; J. H. Best, Greensboro; Jefferson Reeves, Waynesville; A. C. Cecil, High Point; J. A. Bland, Charlotte; A. M. Gibson, Gibson; E. L. Reaves, Raeford; R. A. Hales, Jr., Kenly.

Theoretical examination was held in the graded school building and the practical work in the laboratory of the department of pharmacy.

MODERN GARAGES FLANK SITE OF ABODE OF THE MESSIAH

NAZARETH.—The automobile in Palestine, made possible by the good roads, has brought with it the modern garage and the repair shop, usually in charge of Arabs, Syrians or Jews who learned the trade in the United States. Even in Nazareth, which in other respects is little different in its seclusion and repose from that day 20 centuries ago when the Saviour sent forth the message of brotherhood and equality which transformed the world, there are modern garage and machine shops.

Notice!

According to a letter sent out to land owners in December, last, we promised to publish money needed by County to pay necessary and fixed expense, such as General Fund, General Roads, General Schools and Interest on bonds.

For this year we will have to raise by taxation the following amounts:

General Fund	\$ 60,000.00
General Roads	50,000.00
General Schools	225,000.00
Interest and Sinking Fund	135,000.00
Making a total of	\$470,000.00

As to rates to raise this amount of money will be based on the amount of property listed, should the valuations be less than last year, then the rate will be greater. On July 2nd, the rate will be fixed to give us \$470,000.00.

Dr. W. W. Dawson
