MANY VIOLATORS WERE IN COUNTY COURT THIS A. M.

Road Sentences Featured The Regular Monday Session

While this morning's session of county court was brief there were some cases on the docket of sufficient importance for Judge Cooper to order road sentences for the offenders.

The order of the day is as follows: Willie Atkinson having admitted stealing merchandise from his employers, John L. Horne & Co., was sentenced to six months on the roads that he may be convinced, "be sure your sins will find you out."

A. L. Rasberry, a negro who received the above-mentioned goods knowing them to have been stolen also received six months, that he and Atkinson might have time to learn how it was done.

Jesse Moore was caught with liquor which the officers believe he had for the purpose of sale. Judge Cooper was of the same belief and give him four months on the roads, from which judgment he gave notice of appeal to superior court for jury trial.

N. P. Williams, Nan Anderson and Wyatt Pollard were charged with violation of practically every liquor law which the calendar contains, including in part, manufacturing, possessing for the purpose of sale and receiving. On motion of the defendants this case was moved to superior court for jury trial. It will be recalled that when the above trio was arrested deputy sheriff Whitehurst had to use his gun on Williams, who was in the act of firing on the officers.

Jim McLawhorn charged with assault with deadly weapon and carrying concealed weapon, on motion was moved to the higher court for jury.

Shade Cox, a negro preacher was up, and found guilty of cruelty to animals. Not needing the services of a divine with the road forces, his honor permitted Cox to pay the cost and suspended judgment for a period of two years.

First Brood Of Cotton Weevils Now Appearing

ABERDEEN, N. C., July 9.—The first brood of cotton boll weevil to be bred in the over-wintering squares this year is now making its appearance, according to Dr R. W. Leiby of the boll weevil laboratory here which is maintained by the department of agriculture entomology division of the agricultural experimental station.

"The first specimen was bred on June 27," says Dr. Leiby "and at the present time the weevils are emerging in number from squares collected in the fields on the southern counties of the state."

Dr. Leiby states that he and his workers have found that the new weevils begin to lay eggs in the squares within a few days after they emerge; that the eggs hatch in three to four days; and that the weevils will deposit an average of nearly four eggs a day in squares growing on cotton confined in cages.

"On a recent trip throughout the southern counties of the state, Dr. Leiby states "I found a number of fields very heavily infested with the weevily. An average of five to six percent, or perhaps less, of the squares was found to be punctured in many fields; although a few fields showed eight to ten percent of the squares punctured. Cotton plants in the southern section of the state are in full bloom with a small number of bolls already set and some of these bolls are punctured by the weevil."

NEW HEAD TEACHERS ASSOCIATION

The above is Miss Olive M. Jones, Principal of Public Schools No. 120, who on last Friday was elected president of the National Educational Association at the meeting held in Los Angeles.

VIOLATORS OF RECENT DIMMER AUTOLAW MUST EXPLAIN THEIR NEGLIGENCE TO THE MAYOR

The police court docket this morning featured violators of various automobile laws governing their operations within the confines of the city limits.

Guy Baker, white, charged with operating automobile truck and not having sufficient lights displayed thereon. Fined \$5.00 and the cost.

Guy Baker, white, charged with leaving automobile parked on paved street over night. Paid the cost.

E. V. Carter, white, charged with leaving automobile parked on paved street over night. Paid the cost.

John Windham, white, charged with allowing dog to run at large. Three cases same offense. Allowed to pay \$5.00 and the cost.

A. O. Fornes, white, charged with allowing dog to run at large. Paid the cost.

L. W. Dunn, white, charged with driving across Five Points without first bringing automobile to a stop. Paid the cost.

Hugh Carwen, white, charged with trespass. Paid \$5.00.

Wm. Sterling, white, charged with trespass. Paid \$5.00.

Augustus Baker, col, charged with trespass. Sentenced 30 days county roads.

Bill Introduced Georgia Regarding Building and Loan

ATLANTA, GA., July 9.—Bill defining, regulating, and encouraging local mutual or co-operative building and loan associations in Georgia has been introduced in the general assembly here. The measure, which has been referred to committee would make the state law very similar to that of North Carolina.

Stony Point Oil Company Has Been Recently Chartered

RALEIGH, July 9.—For the purpose of prospecting for oil and dealing in titles for lands for such purposes and conducting a business such as would be conducted by an oil prospecting concern, the secretary of state has chartered the Stony Point Oil Company of Stony Point, N. C., with an authorized capital stock issued of \$100,000. Incorporatives are named as N. F. Steele, W. L. Watts, and W. W. Watt of Stony Point and C. R. Stimpson of Statesville.

can not re-infest the cotton. He adds that where labor is available boll weevil control measures should be prosecuted vigorously early in the season.

ROTH AND NULL FOUND IN LAKE ERIE DURING DAY

PORT STANLEY, Ontario, July 9.—The body of Lieutenant L. J. Roth, pilot of the ill-fated balloon U. S. Navy A-6698 was found in the basket of the balloon 14 miles south west of here just before noon today.

After a vain search for the basket for three days by aeroplanes, flying boats and other craft, it was picked up this morning by a fishing boat commanded by Captain George Wilson, of Stanley.

The basket was towed into this port and with the body of Roth was temporarily placed in a fish house under the custody of police.

It was evident that Lieutenant Roth died of exposure from the fact that when found his head and shoulders were hanging over the side of the basket. The body was identified by the laundry mark L. J. R. on a piece of his clothing and a ring bearing a red stone on his left hand.

The A-6698 left Indianapolis, Ind., last Wednesday afternoon as one of the 13 entrants in the national elimination race and not until many hours after the other twelve craft had been accounted for was fear for the safety of Lieutenants Roth and Null.

WINDSOR, Mich., July 9.—A body believed to be that of Lieutenant T. B. Null, the American balloonist, who accompanied Lieutenant L. J. Roth on the U. S. Navy A-6698, was found in Lake Erie today off Point Pelee near Leamington. The body was discovered shortly after that of Roth 14 miles off Port Stanley. The body had apparently been in the water a day and half. It was that of a man 5 feet seven and half inches tall and was clothed in a blue serge suit and army shoes.

William R. Day, Former Associate Justice U. S. Died, Mackinac Island

MACKINAC ISLAND, Mich., July 9.—William R. Day, former associate justice of the United States Supreme Court died at his cottage here at 5:30 o'clock this morning. With him at the time of his death was his son, William L. Day and the latter's wife.

Death was attributed to a general breakdown following bronchitis last fall. The remains will be carried to Canton, Ohio, for interment. He was 74 years of age and came here about two weeks ago. Although in a run down condition and in failing health he thought that the quiet of his summer home here would lend to improvement. He had spent his summers here for the past forty years.

The deceased was born in Ohio in 1849 and was recognized throughout America as an able jurist and statesman. During his career he held several important offices among them being assistant secretary of state, and subsequently secretary of state in succession to John Sherman. In 1899 he was made judge of the sixth circuit of the United States circuit court, then associate justice of the United States Supreme Court.

New Plan To Be Submitted For Road to Virginia

ELIZABETH CITY, N. C., July 9.—With the failure of the delegation from this section to have the State Highway Commission bear the expense of a 16 foot roadway from here to the Virginia line instead of the nine foot road which the commission proposes to built, plans are under way here, it is said for a new plan to be presented to the commission.

On Saturday, June 30 a delegation presented an argument to the commission in Raleigh for a 16 foot road but they were advised that the commission could only pay for a nine foot road and that it would construct a 16 foot width of the three counties through which the road passes would pay the additional cost.

The new plan, it is said, contemplates presenting to the commission a request that a 16 foot roadway be built as far as it will go with the money which would be used on the 9 foot road to the Virginia line. It is believed here that if this is done that a 16 foot road would be forthcoming in a year or so for the balance of the way, while a nine foot road would be unsatisfactory and probably would not be widened to the greater width in many years if at all.

Rocky Mount Student Is Drowned Today At Massachusetts Resort

MARBLEHEAD, Mass., July 9.—James C. Braswell, Jr., of Rocky Mount, N. C., was drowned at a bathing beach here today. He was a student of Harvard law school.

DAWN TO DUSK FLIGHT ACROSS CONTINENT IS ATTEMPTED TODAY

NEW YORK, July 9.—Lieutenant Russell Maughan of the United States Air Service is piloting the pursuit plane which left here at dawn today on the first leg of the "dawn-to-dusk" flight across the American continent. The attempted flight to reach the Pacific coast in the light of a single day was begun in the flood of a dawn of high visibility which held a promise of excellent flying weather.

Lieut. Maughan flying the plane, stripped to bare necessities, circled over the field one time before heading for Dayton, Ohio, the first leg of the flight.

SPEED 160 MILES PER HOUR The take off was witnessed by officers of the flying field and officials of the aeronautical corps. The flyer expects to reach San Francisco in 16 1-2 hours covering a distance of 2640 at an average speed of 160 miles per hour. There will be four stops on the flight which are McCook Field, Dayton, Ohio; Municipal Field, Saint Joseph, Mo.; Air Mail Field; Cheyenne, Wyo.; and Salduro, Utah.

The object of the flight it was said by officials here, was to blaze the trail of trans-continental flights in a single day in order to ascertain whether fleets of planes could reach the opposite coast in a day in case of attack upon the United States by a hostile power and to ascertain the proper location for the establishment of landing fields and stations to aid government and commercial aviation.

Reaches End First Leg. DAYTON, OHIO, July 9.—Lieut. Russell Maughan, piloting his plane across the continent in a single day arrived at McCook field, here at 9:10 o'clock eastern standard time, 1 hour and 38 minutes behind his schedule. He hopped off again at 9:36 for the second leg of the flight to St. Joseph, Mo.

Eastern Chamber of Commerce To Meet in Kinston To Outline Plan Advertising This Section

A meeting of far reaching importance to Eastern Carolina is to be held in Kinston Friday July 13th at 11 o'clock under the auspices of the Eastern Carolina Chamber of Commerce. Secretary Bartlett announced today. For the past several weeks, the officers of the Eastern Chamber have been working on a definite plan for advertising Eastern Carolina to outside world, and at this meeting Friday, these plans will be outlined for approval or rejection by those in attendance.

This meeting is the second of a series of county commissioners meetings and includes Lenoir, Craven, Pitt, Pamlico, Greene and Carteret. Special invitations have been mailed to the county commissioners of these counties to attend this meeting. The whole atmosphere is becoming charged with the idea of advertising," stated Mr. H. H. Taylor, first vice president of the Eastern North Carolina gets in the game, we are going to be left," Mr. Taylor concluded. Eastern North Carolina has the machinery already set up for carrying out a program like this, and all it needs is simply to touch the spring and let the world know where we are and what we have to offer.

Grand Jury Recommends \$5,000.00 Publicity Fund. In a certain county in another state recently, the grand jury recommended to the county commissioners that a fund of \$5,000.00 be appropriated for advertising that county.

New York Woman To Die In Chair Week of August 6

NEW YORK, July 9.—Mrs. Anna Buzzi, of New York, under death sentence for the murder of a wealthy contractor Frederick Schneider will go to the chair during the week of August 6. She had lived with Schneider for eight years and the murder was caused by his preparation to leave her for his former wife.

One County Has 7 Murder Trials Up For Hearings

LUMBERTON, July 9.—Seven murder trials, three of which are white men on the charge of flogging Mrs. Mary Watson and Mrs. Hattie Purvis at Proctorville, last April, will feature the July term of court convening here today with Judge N. A. Sinclair presiding. Mike Lawson, former chief of police of Fairmont, Jule Brigid and John Hedgepeth defendants in the flogging cases are not expected to be called before the second week of the term.

City Pharmacy of Gastonia Been Granted Charter

RALEIGH, July 9.—Secretary of State W. N. Everett has granted a charter to the City Pharmacy of Gastonia for the purpose of conducting a general drugs and medicines business. The capital stock is listed as \$25,000 and incorporations are named as H. L. Raley of Ruby, N. C., and J. B. Threat and M. C. McNeely of Gastonia.

WRECK ON BETHEL ROAD WAS RESULT TOO MUCH 'MONK'

Abe Cannon Filled With Poisonous Stuff Hits Car Head-On

Nearly every day incidents occur in these parts that more and more convince us that "monkey rum" poured into the stomach of an auto driver does not guarantee absolute safety for the law abiding citizens who are compelled to travel the highways.

The last of these occurred yesterday afternoon on the concrete road between this city and Bethel. Mr. Richard Teel in a Ford sedan was enroute to Greenville when suddenly appeared in the road a Ford runabout that to Mr. Teel appeared to be doing the "black snake shimmy," going from one side of the thoroughfare to the other. The driver of the sedan had to do some quick thinking as to how he would avoid a wreck, but from the result, the human container of the "monk" who had charge of the steering wheel of the smaller type of Ford gave little or no thought as to where he was going or when he would stop.

They met almost head-on while at a fair rate of speed. The runabout which was driven by Abe Cannon, a young white man of Paeolus, was turned completely over by the compact and badly battered on all sides. The sedan had its wind shield shattered and one wheel torn down. In the car with Cannon were Louis Moore and Fernanda Satterwhite. Besides about one pint of "monkey rum" the officers found concealed in the demolished car a revolver. Cannon was released under a \$100.00 bond for his appearance here on next Monday, while the other two young men were released there being no charge against them.

Passes Over Indianapolis

INDIANAPOLIS, IND., July 9.—Lieut. Russell Maughan passed over this city at 9:12 a. m. central standard time.

SPRINGFIELD, ILL., July 9.—Lieutenant Russell L. Maughan passed over Springfield flying low at 10:22 a. m. central standard time. Springfield is 190 miles from Indianapolis. By covering this distance in one hour and 10 minutes it is evident that Lieutenant Maughan is making good his intentions to average 160 miles per hour.

ST. JOSEPH, Missouri, July 9.—Lieutenant R. L. Maughan was forced down at 1:10 p. m. central time ten miles northeast of here when his engine "went dead." The aviator was uninjured but his plane was so badly damaged he said he would be unable to continue his flight. Maughan said he would make another start from New York in a week or ten days.

Monday, July 9, 1923

Twelve-year-old boy weighs 205 pounds. Headline. We wonder how old he would be if he were really fat.

The chatter about Ford continues, and if it should result with him being made president, the country will certainly have "one rich man" in the White House.

The speaker at Lake Junaluska who said that there are other things more important for the church than controversies certainly sounded a great truth. If there is any place where there should be harmony and love it should be in the church.

Now that a "McAdoo for President" boom has been worked out, Mr. Harding will probably see that he has a strong opponent in the Democratic party. Mr. McAdoo has a host of admiring friends throughout the country who will support him.

President Harding and party said "Bon jour" in Alaska today. No doubt he will be received with all honor due a President as he is the first chief executive to visit Alaska since it came under the American flag.

While the agents of the State Board of Charities and Public welfare are visiting the jails and chain gangs we wouldn't object to a visit. They might go in better jails than ours, but we don't believe that they would

find many kept any better than ours is being kept at present.

The Bar Association will have at its head for the coming year, E. S. Parker, Jr., of Graham. Mr. Parker will be remembered for his action in the last General Assembly when he championed the exemption of foreign corporation stocks from taxation. He is an able lawyer and will no doubt make the Association a good president.

Dr. Rolirk Harlan declares that a family of nations is the only cure for war. If this be true then it is to be hoped that the family will soon be united and outlaw any power precipitating war. America certainly seems to have a wonderful opportunity to encourage plans for world peace but the present administration seems to be very little if at all interested in foreign affairs.

Some of the most far-reaching results are being realized by the welfare department which is helping to alleviate suffering in Pitt County. This department has a man at its head who is vitally interested in those things which tend to reach down and take the helpless, sick and suffering and bring them up where they can be made happier and better citizens. This department is certainly accomplishing a wonderful work and should receive the support of every man and woman in the county both with their time and financial assistance.

PROMOTING EDUCATION

The State Government at Raleigh has apportioned the sum of \$1,163,939.52 among various counties in the state in the nature of an equalization fund, the purpose being to the more backward counties forward. There yet remains a fund of over \$50,000 which is to have distribution later. The incident gives token of educational advancement in rural North Carolina, the progress in system being further indicated in one item of \$20,000 for transportation of pupils to and from the school houses in motor busses. The consolidated school and the transportation service is giving the children of the rural districts about the same advantages as are enjoyed by children in the towns. Politics play no part in the distribution of this money. It is noted that some of the largest Republican counties in the state have been given the larger apportionment, as, for instance, the county of Wilkes, which draws over \$75,000. All counties, regardless of politics, share alike in the blessing of a democratic Government—Charlotte Observer.

WONDERFUL VALUES IN New Dresses and Millinery

We have placed on our entire showing of Summer Dresses and Millinery a remarkable reduction in price. Every garment and hat absolutely new in style and pattern.

Be early and get the choice of this special offering.

Talks on Osteopathy

By DR. F. FITTS

When you think of osteopathy remember it cures disease by removing the cause.

OSTEOPATHY IS SPINAL ADJUSTMENT—AND MORE

No man's body can live right if the man himself lives wrong.

Sometimes adjustment of your habits of living is as important as the adjustment of the mechanism of your body.

In such a case the Osteopathic Physician will prescribe the necessary diet, hygiene, or environment.

When the knife becomes necessary to save life, he will turn to surgery.

Dietetics, Hygiene, Surgery, all form an important part of his professional preparation.

When you think of Osteopathy remember it is spinal adjustment and more.

Miller & Rhoads

The Store-Wide EXPANSION SALES

Present a
**Wonderful
 Buying
 Opportunity**

In the first announcement of this series of great sales we gave as the reason for the sales that we had determined to celebrate the expansion of departments into the mammoth new addition to the store with a demonstration of value giving such as was never before attempted in the store's history.

This bare announcement was enough to crowd the store the first day of the sales with a great army of eager shoppers. Each succeeding day has served to swell the ranks of our visitors and we are very glad indeed to note that many have come from out of town points—some from a very great distance.

For us this sales period (July and August) is to be an occasion of publicity for the great new store. Of special value giving—the most remarkable we have ever attempted—in order to cement old friendships and to make a host of new friends against the time—now fast approaching—when the completion of the new store addition will introduce a great emporium unapproached by any store in the South.

These remarkable values presented may be attributed largely to two factors:

First—many of the manufacturers, converters, importers and agents from whom we buy have been closely identified with the store's progress and growth over a long period of years and have entered into the spirit of our activities with genuine enthusiasm and co-operation that ensures a continuance of remarkable values throughout the term of the sales.

Second—The question of Miller & Rhoads profits "per item" have largely been lost sight of in marking prices on special merchandise secured for the sales and on goods from regular stock that is being included.

Below are listed three specimen values—on sale this week. You can save money by calling and making a selection from these items. Remember every one of the store's forty departments is teeming with values equally attractive. It is a time for anticipating one's needs—for "buying ahead."

You really must visit the store in person to realize what this great merchandising movement means. In no other way is it possible to grasp the scope of the sale or the extent of the values offered. You are cordially invited to make us a visit of inspection.

A Few Specimen Values Offered This Week:

Silk Dresses \$18.95

We offer during this week over 500 Silk Dresses. Women's and Misses' styles for Evening wear, Afternoon wear, Dinner wear, and Sports wear. All are brand new—in great variety of models appealing to the various types of figure and taste.

These dresses which are usually priced from \$25 to \$50 are on sale during this week for \$18.95. This unusual offering stands out as the most extraordinary Silk Dress value of the year.

Silk Hose \$1.59

Women's Black Silk Hose—style 400—absolute first quality and good substantial weight.

 Mrs. John R. Carroll, of Winterville, spent the week-end here.
 Mr. and Mrs. Bruce Warren have returned from their bridal tour of northern cities and are making their home on Fourth street.
 Born to Mr. and Mrs. L. B. McCormick Saturday, July 7th, a daughter, Anne.

Mexico to Require Invoice With All the Parcel Post Mail

MEXICO CITY.—All parcel post shipments from foreign countries to Mexico must be accompanied by a commercial invoice, certified by the Mexican consul nearest the point of shipment, according to a recent government order. For a shipment less than \$5, the certification is free. From \$5 to \$50 the charge is \$1 and from \$50 upward the charge is \$2.
 Shipments arriving without an invoice will result in a fine being imposed of 25 centavos for goods valued at less than 100 pesos, and 50 centavos for those valued at more than 100 pesos.

MEXICO TO CUT WAR BUDGET

MEXICO CITY.—Pacification of the republic will make it possible for the department of war to reduce its budget about 20,000,000 pesos for the coming fiscal year, according to advance statements from that department.
 Except for the operations of a few hill bands, the country is completely at peace, it is declared. Another war department project is to reduce to two years the term of enlistment for cavalry recruits.

Ten Million Baptists Will Be Represented At Stockholm Meet

LONDON, July 6.—Britain's delegates to the forthcoming Baptist World congress at Stockholm will number 583. They will sail the latter part of July on the Ezer Marloch, which will be their home or hotel during the conference.
 "A large number of delegates have been appointed for Russia," Rev. J. H. Shakespeare, secretary of the Baptist Alliance, said recently, "but we don't know if the Soviet government will allow them to attend the congress. Altogether we have registered 2,500 delegates from all countries, including Russia, and the congress will be the largest ever held. The delegates will represent ten millions of Baptists."

Famous Bible Goes to Italians

LONDON.—The famous Bible of the Borso d'Este, valued at \$250,000 and belonging at one time to the late Emperor Karl of Austria, has been purchased by a rich Milan manufacturer, who outbid an American banker for it.
 The Bible is illuminated by artists of the 15th century and is regarded by antiquarians as the finest specimen of its kind in existence. During his stay in Switzerland Karl, being short of money, sold the rare book to a London antiquary, who in turn disposed of it to its present owner in Italy.

Egypt Needs New Building to Contain Pharaoh's Treasures

CAIRO, July 6.—The Egyptian Ministry of Finance has been asked for a special credit amounting to about \$175,000 for the purpose of erecting an annex to the Cairo Museum, the building of which has been rendered necessary by the discovery of King Tutankhamun's tomb.
 The work is expected to be commenced without delay, though the exhibition of the objects discovered will not be possible for some time after the completion of the annex owing to the careful and expert treatment they will require.

SELF-SUPPORTING GERMAN STUDENTS FORM SOCIETY

DRESDEN.—Of the 120,000 students in the universities and high schools of Germany, 60 percent are earning their own living, and earning it under conditions which are heart-breaking.
 Self-supporting students have organized a society, with about 40 branches in German cities, whose purpose is to make the lot of these students easier. This society has organized co-operative buying to reduce the cost of books and supplies to students, and co-operative messes where meals are much cheaper than in places operated for profit.

FRANCE WOULD EXTEND TRADE

DUNKIRK, France.—The French government is about to send a vessel on a trip to South American ports loaded with an exhibit of French products. This business builder is the former German steamer Elkab, but her name has been changed to La Belle France.

CHEVROLET "COME-BACK" IS A REMARKABLE STORY

Nine Month's Output This Year 176,771 Cars, Nearly Four Times That of Corresponding Period Last Year

Extent of Improvement in Product Indicated by Fact That 68 Changes Were Made in Model "490" in Year Ended July 1, 1922, 23 Additional Changes in 1923 Model—Many Economies

DETROIT—If the men responsible for the "come-back" of Chevrolet ever fully loosen their tongues the public will be treated to a most romantic story. Here is a company which got so badly in the doldrums that it virtually breathed through the financial oxygen tank of its parent General Motors and in a year became one of the corporation's most valuable units.
 Production comparison give perhaps the best picture of what has happened. In nine months of 1922 Chevrolet turned out 176,771 cars against 45,000 for corresponding nine months of 1921. Value for nine months of 1922 is \$89,624,480 compared with \$52,603,602 for the entire year 1921. Reduced to basis of average monthly sales the 1921 rate is \$9,950,000 against 4,400,000. Estimate for all of 1922 is 294,000 cars.

Improvement in the Model
 Chevrolet began in July, 1921, to build a better product. New front axle bearings were adopted, a better rear axle made and an improved clutch developed. Every part of the car which had given trouble was redesigned. Some idea of how thoroughly the "490" Chevrolet has been remade may be gained from the engineer's report. In the body and top there were 22 changes, in the front axle and wheels 19, in the rear axle six, in the transmission seven, in the motor 10, and in the chassis 15 changes. Total number of changes between July 1, 1921, and July 1, 1922, was 68.

Not satisfied with these Chevrolet made 26 additional changes in the 1923 model which is now having such a remarkable run for sales. Officials who have been responsible for the improvements modestly say: "We have only followed the dictates of the public. Building a popular priced car is now beyond the poker or the circus stage. People have no time to stop at any side show—they want to go right into the big tent." The official who made this remark is probably the least known in the public press among motor wizards. A year from now when Chevrolet reaches the 2,000 daily production goal he may be prevailed upon to permit connection of his name with the Chevrolet

achievement but at present he threatens to throw the Wall Street Journal correspondent out the window of his office on sixth floor General Motors building if he is quoted.

Economies in Operation
 An illustration of operating economies is in the changed method of handling closed cars. Formerly bodies were built by an outside company, shipped to Flint and there attached to chassis. Four or five in a freight car was the maximum. Now the company buys bodies from its associated Fisher Body Co., knocked down. It ships more than 50 in a freight car to the assembling plants with an obvious freight and time saving. Furthermore the labor cost of assembling is deferred until the car is much nearer delivery to purchaser.

Chevrolet in this respect is closely following the Ford assembly idea but possibly going one better in the matter of closed bodies. To economize further on closed body manufacture and delivery Fisher Body Co. eventually will have a body plant alongside each Chevrolet assembling plant. In Flint Chevrolet has its engine plant and assembling plant and Fisher is building a body plant exclusively for Chevrolet bodies on adjoining ground. How closely Fisher is expanding to accommodate Chevrolet may be seen in a list of Chevrolet assembling plants placed alongside Fisher body plants completed or in process outside of Detroit and Cleveland:

- Chevrolet Fisher
- Flint (engine, assembly) Chevrolet body plant
- St. Louis (assembly) Chevrolet body plant
- Oakland (assembly) Chevrolet body plant
- Janesville (assembly) Chevrolet body plant
- Cincinnati (assembly) Chevrolet body plant
- Buffalo (assembly) Chevrolet body plant
- Tarrytown assembly, under construction.
- Bay City (engine parts)
- Toledo (transmission)
- Detroit (axles)

Chevrolet has 14 plants in operation and as its business expands several additional branches in other strategically located cities will be built.

The Outstanding Figures
 Three men stand out prominently in the Chevrolet's resuscitation though each denies his part. They are Pierre S. du Pont, Colin Campbell and W. S. Knudsen. Mr. du Pont, though not generally known has been and is the acting head of Chevrolet. He is credited by his associates with having conceived the resuscitation plans. He has fathered the movement and the others, under his generalship, have done the building in their respective fields.

Mr. Campbell, vice president in charge of sales, began July 1, 1921, one of the most intensive missionary campaigns in the history of merchandising. He travelled 10 months over 48 states, holding meetings, appointing distributors and agents, removing certain agents and installing many sub-agents. In the 14 months between July 1, 1921, and November 1, 1922, the number of Chevrolet dealers and parts depots increased from 3,200 to 12,980 and sales jumped 250 per cent. Asked about the feat his sole comment is: "I knew the du Ponts sold nothing but the highest class merchandise and that Chevrolet was going to be a winner under Mr. du Pont's guidance. All I did was impart the faith I had to the dealers."

When Mr. Knudsen, vice-president in charge of production, was asked about his part in reviving Chevrolet, he said: "The public is quick to recognize a good car nowadays. All I did was jump in here and say, 'come on boys.'"

SOME DAY
 you may need medicine. Bring us your doctor's prescriptions. We use only sterilized bottles and quality drugs.

"Come On Over"
 By Rupert Hughes
 With Colleen Moore starring.
 Promises to a woman are always dangerous; especially when the girl overhears them.
 It's the funniest thing Hughes has written—it's homely, and human.

LOCALS

MR. SAM BRADY DIES AT HOME IN DAVIDSON

Mr. Sam Brady died at his home in Davidson last week, after suffering an attack of appendicitis.

Mr. Brady was the only brother of Miss Susie Brady who was a member of the faculty of the Greenville graded schools year before last. Miss Brady has a host of friends in Greenville who will sympathize with her in her sorrow.

ADMINISTRATOR'S NOTICE

Having this day qualified as administrator on the estate of the late James Long, of this city, this is to notify all persons having claims against said estate to present them to the undersigned within twelve months from this date, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This June 15, 1923.
MRS. JAMES LONG,
Administrator.

CHANGE IN ORDER OF UNION SERVICES

At a meeting of the pastors of the various churches of the city, which was held this morning it was decided that the following schedule would be observed in the union services which are being conducted on Sunday evenings during this month and August.

July 15, Memorial Baptist. Sermon by Dr. Hartley of the Episcopal church.

July 22, Christian church. Sermon by Rev. Leland W. Smith, of the Memorial Baptist church.

July 29, Episcopal church. Sermon by Rev. W. S. Harden of the Presbyterian church.

Aug. 5, Immanuel Baptist. Sermon by Rev. N. D. Diggs of the Free Will Baptist church.

Aug. 12, Free Will Baptist. Sermon by Dr. R. T. Vann, of Raleigh.

The public is requested to note the changes made in this announcement from one made a few days ago, and are also invited to attend each service.

Marriage Licenses.

Only one marriage license has been issued at the register of deeds office since Saturday's report: Perry Streetey to Dora Lane, colored couple of Belvoir township.

CURB MARKET TO BE OPEN AGAIN TOMORROW

Curb market which has proved such a success during the past few weeks will be open again tomorrow morning at 8 o'clock.

The people of Greenville and the surrounding county are elated over the results of the market and every day which it is opened witnesses a larger crowd in attendance.

The vegetables, chickens, cream and other things found at the market are all in the very best condition and are displayed on large tables built for the purpose of making it more convenient for the house wife to purchase and also easier for the salesman to sell.

Those who have not attended the market should do so and see what a great thing is being accomplished.

Mrs. F. S. Greene of Nashville, Tenn., who has been visiting her sister Mrs. J. L. Little returned home today.

STRAND

THEATRE TONIGHT

"THE BOND BOY"

Featuring Richard Barthlemess in every way as great a hit as "To'able David." A boy bonded out to a farmer to keep his mother from the poor house, and driven through slavery to the shadow of the gallows. Adm. 1 0 and 25c.

When you get in trouble let our Ambulance pull you out

If you get into a smash-up on the road (we hope you never will) or any other situation "when a feller needs a friend", phone us. We'll be out in a jiffy with our Weaver Auto Ambulance and bring you in—in a quiet, business-like way that doesn't advertise your mishap to the world. You'll find our charge unusually moderate, too, because our Ambulance saves us time. Remember our phone number.

CARTER-COBB MOTOR CO.
Phones 580 and 98

Our labor-saving equipment gives you better service at a lower cost.

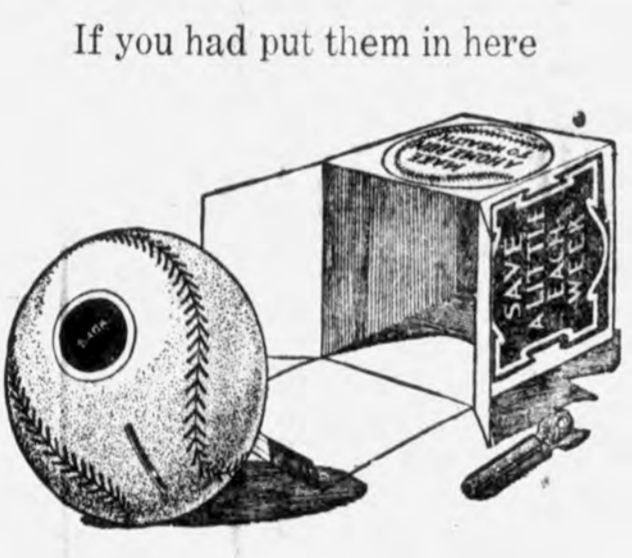

We Build Screens

THE NATIONAL BANK OF GREENVILLE
GREENVILLE, N. C.

TURN ABOUT IS FAIR PLAY

You work hard for your money, why not make your money work for you? The very purpose of this bank is to show you how your money may be made a help and comfort to you instead of being a source of worry.

THE NATIONAL BANK OF GREENVILLE

J. L. Little, Pres. F. G. James, Vice-Pres.
F. J. Forbes, Cashier. Chas. James, Asst. Cashier

Not just sometimes — but uniformly good

That's "STANDARD"

Made right here in the Carolinas, at Charleston — delivered daily to hundreds of pumps like this, "Standard" Motor Gasoline is available to every motorist, with all of its original zest for a quick start, speedy pick-up and a long run at lowest mileage cost. Find the Standard pump wherever you are, for you can't get any better all-round gasoline. If better could be made it would be in the pump already.

When you need it—as you need it—"Standard" Motor Gasoline.

Balanced to give you easy starting, rapid acceleration power and mileage. You'll like it.

"STANDARD" Gasoline

Always fill at the "Standard" pump.
