

Comparative statistics recently made public show automobile accidents and fatalities have been greatly reduced in Pennsylvania in cases of speeders and others arrested for infractions of the law that might have resulted in disaster be sent to JAIL. A COURT FINE amounts to nothing more to a SPEED MANIAC than it does to the commonest bootlegger.

While the law is virtually disregarded in both instances, one does

have a slight chance with a rum peddler, while he DOES NOT with a RECKLESS AUTOMOBILE DRIVER. True, in numerous instances, drivers of colliding machines are both to blame, and, sometimes the pedestrian, too. However, if testimony is to be accepted as criterion, it is invariably proved that the victim of the accident is more frequently without blame.

Courts of North Carolina, according to records have not been dras-

tic enough with violators of traffic laws. Their powers are discretionary as to fine or imprisonment. If the latter was exercised without favor, it would have a salutary effect in curtailing the number of machine accidents. Defendants would quickly be taught by that "system of education" that the laws must be RESPECTED OR GO TO JAIL.

DRY LEADER WHO IS UNDER PROBE SAYS 'FRAME UP'

District Attorney Says Anderson Only One Dodging Charges

NEW YORK, July 14.—The Rev. Dr. George Caleb Moor, pastor of the Madison Avenue Baptist church, Secretary of the Anti-Saloon League, was the only witness before the grand jury in its investigation of charges against William H. Anderson, Superintendent of the league. Dr. Moor was questioned about the payment to Anderson of \$24,700 by the directors of the league, following the superintendent's presentation of a bill in connection with "confidential publicity promotion" by him.

In the preliminary inquiry last January it developed that Dr. Moor was one of a committee of three that recommended the payment to Anderson.

Dr. Moor to Testify.
When Dr. Moor left the grand jury room it was announced that the investigation would be resumed this afternoon and that Miss Maud M. Odell and Miss Mary Hill, employees in the league office, would be called. William M. Potter, formerly assistant treasurer of the league may also be called again.

It also was announced at the district attorney's office that the grand jury would adjourn today until Tuesday, when, it was expected, the case against Anderson would be completed and the evidence presented to the body for action.

Anderson was on Way Home.
Officials of the league made public this telegrams from Anderson, announcing that he had reached Buffalo on his way from the home of his parents in Carlinville, Ill.

Mrs. Vanderbilt Praises Work Of All State Fairs

GOLDSBORO, July 14.—"The proper function of a State Fair, or any fair, is not the amusement of pleasure seekers," declared Mrs. Edith Vanderbilt, president of the North Carolina agricultural society, in an address here today. "It is for the development along proper lines of education in agriculture, industry and general knowledge."

Mrs. Vanderbilt said the mistakes of the past and hopes for the future should be brought out clearly so that farmers might visualize where they can plant better crops and "realize bigger returns—where industry may learn lessons of benefit and where the goal of all that is good for every one may be placed in a way that is easy to understand, that, is by the use of one's eyes and ears."

"The other function of a state fair," Mrs. Vanderbilt continued, "is its value to the state as a whole in displaying in attractive fashion so that it will bring not only exhibitors of the country's best, but people from other states and parts of the country to see what our state has to exhibit."

\$20,000 SALARY PAID TO THIS WOMAN

Miss Bineci W. West, of Port Huron, Mich., has been voted a salary of \$20,000 a year by the Woman's Benefit Association, of which she is the Supreme Commander. She is a direct descendant of Roger Conant, first governor of Massachusetts Colony, and the Conant who shared the midnight ride with Paul Revere.

Several Petty Cases Before Acting Mayor

In the absence of Mayor Clark, Closs W. Hearne, served as judge in police court today. Lulu Williams, colored, for trespassing and disorderly conduct was assessed the cost, Cary Tucker, colored, charged with parking automobile on paved street between 1 and 5 a. m. paid the cost, William McGhee, parking automobile and leaving motor running unattended, was allowed to pay the cost, Harold Johnson, for allowing dog to run at large, was charged the cost.

Bathers Flee When Sound Shark Appears

NEW YORK, July 14.—A school of sand sharks and porpoises appeared just beyond the safety ropes on the beach at Coney Island today and caused a rush for safety of several hundred bathers, most of them women and children. Several women fainted.

New Legal Victory Favors Peanut Men

NORFOLK, VA., July 14.—Judge Groner, in Federal Court here today, removed the last obstacle in the way of the continuance of the suit brought by the Peanut Growers' Association against twenty-odd members of the National Cleaners' and Shellers' association, when he handed down a decision denying the objection of the defendants that the plaintiff constitutes a monopoly in restraint of trade, and as such, is not entitled to standing in court.

Home Seed Spuds Best, Says Report

ELIZABETH CITY, July 14.—Irish potatoes secured from growers in the mountains of western North Carolina demonstrated their superiority over those from Canadian and Maine sources in a test recently concluded by County G. W. Falls of Pasquotank county. Falls put out a demonstration with M. B. Sample of this county early in the spring in an effort to find out whether the North Carolina grown would do as well as the Northern grown seed.

Sample reported that the yield on the three plots was practically the same, being at the rate of 209 bushels of marketable potatoes per acre. The seed from western Carolina, however, produced the earlier plants and yielded a few more No. 2 stock than the others. The Canadian stock showed a tendency to be later but were well fruited. Since earliness is an important matter in getting best prices for new potatoes, it would seem from Sample's results that the home grown seed had an advantage over the northern grown.

National Guard Men Score High On Ranges

FAYETTEVILLE, July 14.—With a record that the Old North State ought to be proud of, the 117th field artillery, North Carolina National Guard, at noon today completed its work on the range at Fort Bragg, where the regiment is rounding out its summer training period.

Alaska Wonderland, Declares President, Describing Beauties

On Board President Harding's Special Train in Alaska, July 14.—President Harding describing the beauties of Alaska through he has traversed called it "America's wonderland" today. His train is penetrating the very heart of some of the varied splendors of the territory.

Dry Agents Seize Motor Boats With Big Booze Loads

DETROIT, July 14.—Dry agents assisted by representatives of the Federal treasury department seized 200 small motor boats last night said to be loaded with liquor. The operation, it is said, made the residents of the small places where the craft were taken so angry that they threatened to dynamite a small bridge that stood between them and an island and the American mainland. However, the crowd confined its abuse and threats to bitter and angry invective.

Woman Sacrifices Life Saving Child In An Auto Wreck

CINCINNATI, July 14.—Mrs. Maude Franz sacrificed her life in an effort to rescue a three-year-old girl from an onrushing automobile. Both were hit by the car, Mrs. Franz receiving injuries from which she died this morning in a local hospital, while the little girl, Myrtle Blazing, will live.

Cotton Crop Best And Largest In History, Is Report

RALEIGH.—The cotton crop is the largest in its history and is unusually well promising considering the planting seasons. In fact with the overgrowth that extends into a few Virginia counties, the condition in this state is much better than any of the cotton belt states. Agricultural statistician of the State and Federal departments of agriculture adds in his report that his information covers observations and talks through 28 counties as well as 763 written reports. Four other sources of information are reflected on a basis of May 25th conditions.

Punctuality Now Marks Tran Service In Italy

ROME.—The spirit of discipline which the Mussolini government brought in with it is no more concretely illustrated than on the railroads and in the telegraph service of Italy. Italian trains are now run on time—one can even set one's watch by them—and the time of transmission on internal and foreign telegrams has been reduced to one-fourth of what it was before the advent of Italy's young dictator to power.

Three Pay Sabotage Penalty in Belgium

AIX-LA-CHAPELLE, July 14.—A Belgian court passed the death penalty on three charged with sabotage, and sentenced on to life imprisonment on the same charge today.

Noted Lawyer Held For Bribing Juror

NEW YORK, July 14.—William J. Fallon, one of the best known criminal lawyers in the city, was arraigned today before Judge Louis W. Fitzhenry in the latter's chambers in the Federal Building on an indictment charging him with bribing a juror. He pleaded not guilty and was held in \$5,000 bail. Judge Fitzhenry said he would allow Fallon until July 23 to change his plea or to demur to the indictment.

In two interviews, one informal after leaving the Judge's chambers and the other issued through John J. Curtin, his counsel, Fallon denied the charge, declared that he was the victim of a newspaper campaign and a "frame-up," and asserted that the story against him had been manufactured by the testimony of a discharged employe.

Attacked Girl On Campus, Man Is Jailed For Offense

GREENSBORO, July 14.—W. R. Melvin was placed in jail here early today, charged with holding up a young man and his woman companion on a college campus here and attacking the girl. Highway robbery is also charged.

British Commission Says French Battle Scare Is Vanishing

LONDON.—France of today, like the France of 1871, is making a magnificent effort by hard work to restore the ravages of war, according to an official report of the British Department of Overseas Trade. The report is the work of the Commercial Counsellor of the British Embassy in Paris, J. R. Cahill, and is painstaking and exhaustive. The general conclusions of the report are:

To Abolish 12-Hour Day In Mills Shortly

NEW YORK, July 14.—Judge E. H. Gary, of the United States Steel Corporation discussing the abolition of the 12 hour day in the mills of which he is head said, that the pledge made to President Harding would be carried out within the next six weeks.

Death, Misery Stalk Idaho Mining Town; Plants Wiped Out

Funeral Services For Miss Martha Harding Held Here

Funeral services for Miss Martha Virginia Harding, 46 years old, who died at the home of her sister, Mrs. F. C. Harding last night, were held in St. Paul's church this afternoon. The pall bearers were: R. Williams, R. S. May, R. Greene, W. H. Dail, L. W. Gaylord, B. B. Sugg, L. W. Tucker, B. S. Warren, Charles Horne, J. C. Gaskins, F. M. Wooten, J. L. Wooten, J. H. Boyd, W. H. Horne, E. G. Joyner, H. C. Best, C. C. Pearce.

Rockefeller Returns To Boyhood Home, Meets Old Friends

MORAVIA, N. Y., July 14.—John D. Rockefeller, who passed his eighty-fourth year on Sunday, visited today the scenes of his boyhood and passed over several hundred new dimes to old friends and acquaintances.

British Commission Says French Battle Scare Is Vanishing

LONDON.—France of today, like the France of 1871, is making a magnificent effort by hard work to restore the ravages of war, according to an official report of the British Department of Overseas Trade. The report is the work of the Commercial Counsellor of the British Embassy in Paris, J. R. Cahill, and is painstaking and exhaustive. The general conclusions of the report are:

Murphy Is Feeling Out Smith Sentiment

FRENCH LICK, Ind., July 14.—Charles F. Murphy, leader of Tammany Hall in New York, arrived here today for a series of conferences with Middle Western Democratic leaders on the chances of Governor Al Smith, of New York, for the nomination for the presidency.

WALLACE, IDAHO, July 14.—The fire which swept up the narrow Burke canyon continuously last night and today has been brought finally under control. No deaths are reported, but the extent of the property loss and suffering among more than a thousand workers, their wives and children cannot be described.

WALLACE, IDAHO, July 14.—Misery stalked today in Burke and Mace, towns in this mining district following the devastating fire which swept this way yesterday. At last midnight only one death was reported. This cannot be taken as a complete story of the disaster until the inhabitants are fully checked up. A wide section of the business district has been laid in ruins. The estimated loss in property is placed at more than \$1,500,000.

According to word from Mace that place suffered less seriously. The flames were fanned by a strong wind blowing in an opposite direction. More than 1,000 men, women and children are reported homeless. Attempting to save their belongings the fire raged with such ferocity they were forced to abandon the attempt. Railroad service has been badly disrupted. The huge Hercules plant is still burning, and it might take several days to subdue the roaring blaze that envelops the plant. While no definite origin of the fire can be fixed, it is believed that it was caused by a flying cinder from a locomotive.

A thousand persons are reported homeless in the two towns. Mace is destroyed. The business section of Burke is in flames and little hope is held of saving the remainder of the town. The loss was estimated at between \$300,000 and \$400,000, and the progress of the fire is said to be unchecked. Attempts to block the fire by dynamiting homes, business houses and mine structures proved futile because of the high wind.

With the business section of Burke completely gone and a large part of the residence section burning, fire fighting efforts centered a short distance up the canyon from Burke, where the large hotel of the Hercules Mining Company, together with the miner's recreation center, was threatened.

It was reported that all the exterior workings of Hecla Mine, one of the largest lead-silver mines of the world, have gone. The machine shop was blasted. The other workings burned. The Bunker Hill-Sullivan, said to be the largest lead-silver mine in the world, and the Hercules, of comparable importance are in the district. They were protected by divisions of the Canyons, however, and were not immediately threatened.

DO YOU KNOW THAT—

It is well worth your time to visit the Greenville stores that advertise?

TO ABOLISH 12 HOUR DAY

In a letter forwarded to President Harding at Tacoma the Steel Trust announced that the 12-hour day would be abolished, "when there is a surplus of labor available." President Harding took occasion to publicly congratulate the steel industry on this important step, saying, "it will heal a sore in American industrial life which has been the cause of infinite struggle and bitterness for over a generation and it marks an accomplishment from the conscience of industry itself, a recognition of responsibility from employer to employee, that gives us faith in rightful solutions of the many tangled problems that are the concomitant of rapid growth of America."

Samuel Gompers, head of the American Federation of Labor, takes a different view. He advises the steel workers not to expect too much as the result of this statement. He says that Mr. Gary, with the grace and tact of a born diplomat puts in question marks, "when there is a surplus of labor." Mr. Gompers asserts that—"the whole thing is tainted with bluff and insincerity. The steel trust will cater first to profits and it will not do anything that will even hold the possibility of jeopardizing profits until driven to either by irresistible public opinion or the force of organization among the steel workers."

In any event, the 12-hour day will soon become a thing of the past but it is probable that another powerful union will first be perfected among the steel workers.

SENATOR UNDERWOOD "CANDIDACY"

Senator Underwood, of Alabama recently returned from a four month's trip to Europe and has issued a statement regarding his impressions and conclusions. The Alabama legislature adopted a resolution favoring his candidacy for the Presidency, and it is stated that President Harding offered him a place on the Supreme Court. Mr. Underwood is a native of Kentucky; spent some of his boyhood in Minnesota; was graduated at the University of Virginia, and then became a lawyer in Alabama. His record in Congress and his activities as a tariff maker have given him a wide acquaintance throughout the whole American business world.

The universal expectation among those who know him best is that his hat speedily will be in the ring and they are confident the Underwood movement, already a formidable affair, will grow with snowball rapidity the moment the Senator permits them to go the limit in his behalf.

RADICALS TO TEST HARDING

President Harding's indirect proposal of federal assistance to "a scheme of cooperation among consumers," it is believed in Washington, will rise to plague him and his administration in the next Congress and the next campaign. It is regarded as an inevitable that this suggestion and the President's "hope" that he will be able to "recommend to Congress a beginning" in the direction of

this consumers' cooperative will furnish the basis of a demand for federal legislation and financial support of such an organization.

It is foreseen that the advocates of the Government's participation in schemes to stabilize wheat and other agricultural products, to build and operate federal warehouses and to establish a system of cooperative marketing will be reinforced by those claiming to speak for consumers, including the proponents of Government ownership.

That the republication reactionaries in control of congress have been startled by a contemplation of the president's words—uttered in a speech that was perhaps only designed to get votes—is taken for granted by certain spectators of the republican game. It is believed that the "radicals" in congress and certain considerable elements outside of congress will welcome the President's proposal and confront him with legislation seemingly intended to carry it into execution.

Other critics of the president's sudden and unexplained advance in the direction of senator Brookhart's philosophy are content to allege that if Harding really was concerned about the consumers well being he would recommend a drastic downward revision of the Fordney-McCumber tariff, which has increased the cost of living by about \$4,000,000,000 a year. This tariff, it is contended by these critics, is simply a tax on consumption, giving the government in revenues only a tenth of the toll it takes from consumers.

"COLOR LINE" BREWS TROUBLE IN THE REPUBLICAN RANKS

By giving signs of an intention to appoint a negro woman as associate member of the Republican national committee from Georgia, Henry Lincoln Johnson, negro republican national committeeman from that state, has made it practically impossible, in the opinion of many onlookers, to induce a white woman to accept the post even if he ultimately should abandon his present design. It is believed that Johnson's attempt to name a negro woman as his associate has so generally advertised the fact that a white woman, if selected, will be his political partner in representing Georgia that none will consent to serve with him.

It is said to be Johnson's view that as negroes—women as well as men—of Georgia and other Southern States constitute a majority of the republican voters in those sections, they should have a fair share of the offices of honor and emolument. Johnson is a power among the negroes of Georgia and it is predicted that he will have his way in regard to the associate committeewoman or start a row that will greatly embarrass the republican organization and President Harding. It is known that Johnson has been in a surly mood since the republican senate rejected his nomination as recorder of deeds for the District of Columbia about a year ago.

What is most painful to certain republican leaders is the prospect of the "color line" in the republican organization.

This question of race and color, these leaders fear, is sure to be raised in a disconcerting way no matter what the final outcome of Johnson's plan to appoint a negro woman may be. If he chooses a negro woman as his associate on the national committee, it is foreseen that white women in the auxiliary body will resent her presence there and refuse to accept her. On the other hand, it is pointed out, even if a white woman is eventually nominated for the place, it is believed she will feel the slight of having been second choice to a negro woman for a position that makes her the official colleague of a negro politician with an unsavory record, and decline the appointment.

Johnson seems to realize the trouble he can make for the republican national committee and the whole Harding administration if there is any attempt to coerce him, and it is likely that he will compel both to accept a compromise that will increase his strength in Georgia. There is talk of redistricting Georgia and of taking other measures that will eliminate Johnson from the national committee, but these devices cannot be adopted until the republican national convention meets a year hence.

CHURCHES

Memorial Baptist
Leland W. Smith, pastor
Horace L. Smith, Supt. S. S.
Sunday School meets at 9:45 in class rooms.
Worship and sermon 11 a. m.
At the morning hour the pastor will speak on "At Work With God."
Union service 8 p. m. Dr. Hartley, general evangelist of the Episcopal church will preach the sermon; Rev. W. S. Harden pastor of the Presbyterian church will preside, all the pastors of the city are requested to be present and to have a part in the service. Auto Accidents Jumped 42 Per Cent in 3 Years

NEW YORK. — Tax supervision of motor vehicle drivers and the resultant increase of 4 percent in the automobile death rate during the past three years, is due to the fact that the majority of state legislators are from rural districts where strict examination and registration of drivers is not a vital matter, according to a report submitted by William J. Cox, traffic accident research engineer, to the National bureau of casualty and surety underwriters. There were 14,000 deaths from motor accidents last year, he said.

Indigestion

"I had very severe attacks of indigestion," writes Mr. M. H. Wade, a farmer, of R. F. D. 1, Weir, Miss. "I would suffer for months at a time. All I dared eat was a little bread and butter, consequently I suffered from weakness. I would try to eat, then the terrible suffering in my stomach! I took medicines, but did not get any better. The druggist recommended

Theford's

BLACK-DRAUGHT

and I decided to try it, for, as I say, I had tried others for years without any improvement in my health. I soon found the Black-Draught was acting on my liver and easing the terrible pain.

"In two or three weeks, I found I could go back to eating. I only weighed 123. Now I weigh 147—eat anything I want to, and by taking Black-Draught I do not suffer."

Have you tried Theford's Black-Draught? If not, do so today.

Mrs. Herbert Jones and daughters of Norfolk, who have been visiting Mr. and Mrs. W. R. Jones returned home today. Misses Emily Vaughan and Lelia Cox, of Winston-Salem are visiting Misses Ernestine Forbes and Douglas Arthur.

Amateurs Cut Off By New Seven-Way Radio-Phone Cable

VALON, Santa Catalina Island, Making seven conversations flow where but one flowed before is the engineering achievement credited to telephone engineers, who have just finished laying what is said to be the world's first one-pair submarine telephone cable between this island off the Southern California coast and the mainland, 25 miles away. Before the introduction of radio telephony, island dwellers here had to depend on the mails for communication. With the wireless came relief of a sort for with a radio "talk bridge" linking the island telephone line with the vast network of wires covering the mainland, one could carry on a conversation with any point in the United States. Only one conversation could be carried on at a time by this method, however, and the conversation usually found its way into thousands of amateur radio sets as well as the telephone company's receiving device, thus losing all vestige of privacy. The last-mentioned difficulty was overcome recently by means of a word-scrambling device which made island telephone conversations unintelligible to "outside" receiving sets.

British and Chinese Opium Traffic Active

WASHINGTON, July 14. — Joint action by the powers is understood to have been suggested by Great Britain as a means of restoring normal conditions along the Chinese seacoast and up the great rivers upon which the export cities are situated. The British suggestion, as understood here, contemplates the use of a limited extent of naval resources, but would not necessarily involve military forces. The proposal is understood to have been a result of conferences in Peking following the recent bandit activities in China. The American minister is said to have opposed any action which would weaken the already shaky Chinese Government. It apparently has been the hope of the conferences to clear up to a large extent the entire Chinese problem, which recently has been complicated by a disagreement between China and France over the payment of the remaining installments of the Boxer indemnity. This dispute is held in diplomatic quarters here to be responsible for France's failure to take up the two Chinese treaties negotiated at the Washington conference.

Steady Decrease Noted In Horse Population

CHICAGO.—The tendency toward decreased horse breeding because of small financial return promises a still further by recommending that shortage in the horse population of the country unless measures are taken to rekindle interest in that business, the National Institute of Progressive Farming has asserted in announcing a survey of the horse situa-

tion. It quoted figures of the U. S. Department of Agriculture to show that there has been a decrease of about 60 percent in the number of stallions in service in the United States since 1915, a decrease of 913,000 horses on farms between Jan. 1, 1920, and Jan. 1, 1922, and a decrease during 1922 of 203,000 horses.

Marry Young And Live Century, Boy Scouts Are Told

CHICAGO.—One who desires to live 100 years should marry early, refrain from indoor dancing, should not be a college athlete and be neither rich nor poor, according to an address made here tonight by Albert M. Johnson, president of the National Life Insurance Company, before several hundred boy scouts. Mr. Johnson said these maxims were reached by his company following statistical computation of results from a survey on longevity under modern conditions. The long list of "don't's" which Mr. Johnson said the survey suggested in order to attain this age contained a few "do's," chief among which was "religion is a true way."

MORE MONEY IS SUGGESTED TO VICTOR GOLFERS

The spectacle of nearly 400 golfers, comprising the dream of the professional and amateur talent in America, gathered during the past week in the national open championship at the Inwood Country Club on Long Island, once again emphasized the amazing inconsistency under which this game is laboring. With its investment of many millions of dollars in clubhouse, equipment and what not this nation wide sport sees its open champion each year with a prize of \$500. A fourth rate pugilist who never gets past the semi-final stage often receives that amount of money for his half hour entertainment, whether good, bad or indifferent. The professional golfer who may travel thousands of miles and spend hundreds of dollars for the mere chance of trying to qualify, stands to lose both time and money. If he fails to qualify it is a total loss, not only in money; there is an injury to his reputation as well. In Great Britain where money is not nearly so plentiful as in this country purses are hung up that total several times the amount offered at the big event here. The United States Golf Association considers \$500 ample reward for the champion, and it has gone still further by recommending that minor associations and clubs stage their own open meetings, limit their purses and, in fact, just about as seriously as the

U. S. G. A.'s mandate against steel shafted clubs. In this connection it is significant that the invitation tournament at the Rochester Country Club the last week in June won by Arthur Yates.

Bell Given Priest By St. Patrick Found In Nendrum Abbey

Astical bell of Nendrum, given to Mochaoi on his ordination by St. Patrick, has been found by workmen during the course of excavating the ruins of Nendrum Abbey. The workmen found the bell hidden in an angle of the ancient foundations for the walls, while clearing away the debris which had collected for centuries. The bell is made of riveted wrought iron, originally covered with a coating of bronze, and except for a crack at the base and a portion of the handle, which has been broken off, it is in perfect condition, thought much corroded.

San Francisco Will Dedicate Memorial When Legion Meets

SAN FRANCISCO—The California Palace of the Legion of Honor, now being constructed at a cost of \$1,000,000 on the crest of Lincoln Park overlooking the Golden Gate, will be formally dedicated in memory of the 3,369 California boys who made the supreme sacrifice on the battlefields of France in the World War during the national convention of the American Legion here, October 15-19, according to an announcement by Adolph Spreckles, donor of the memorial. Exhibition of the works of art donated by the French, Roumanian, Serbian, and Polish governments, and various individuals, which will form a part of the permanent collection to be housed in the memorial building here, are being exhibited in the historic Legion of Honor building on the banks of the Seine, June 5-July 5, before their removal to San Francisco. The California Palace of the Legion of Honor is a duplicate of the Paris building, and official permission for its duplication was given by the French government. Henri Guillaume, French government architect at the Panama Pacific International Exposition in San Francisco in 1915, is the architect.

ADMINISTRATOR'S NOTICE

Having this day qualified as administrator of the estate of the late W. M. Meeks of Carolina Township, Pitt county, North Carolina, this is to notify all persons having claims against said estate to present them to the undersigned within twelve months from this date, or this notice will be pleaded in bar of their recovery. Last Call TO PAY COUNTY TAXES This notice is to advise all parties that unless their county taxes are paid by August first their property will be advertised and sold on the first Monday in September. This is absolutely the last call, and those failing to pay will have to suffer consequences as above outlined. A. C. Jackson SHERIFF

Cot-Tone-O That New Discovery for Rheumatism Specialists for a long time, by hard study and experiment have at last discovered this wonderful remedy for Rheumatism. If you suffer from Rheumatism, and want to get well you now have the opportunity. This new discovery known as COT-TONE-O will eventually be on sale in every drug store, so all those that suffer with Rheumatism can purchase a bottle and be made happy once more. Try one bottle and tell your friends the results. COT-TONE-O is especially prepared for those afflicted with Rheumatism, Neuritis, Constipation and Lumbago. COT-TONE-O is a special blood tonic, purifies the blood, penetrates the nerve, the vein, the bone, the entire system, and drives out all impurities, acts on the liver, like calomel, but does not leave the bad effects. COT-TONE-O is an internal treatment and harmless to the body, it makes you sleep, makes you eat, and makes you feel in good shape. If after having tried one bottle you are not thoroughly satisfied that you have received more than the full value of the price paid, ask the druggist to refund your money and he will gladly do so. This medicine is a new discovery, and if your Druggist hasn't it in stock, kindly enclose check or money order to the amount of \$1.50, addressed to the COTTON DRUG COMPANY, Inc. Box 522 Goldsboro, N. C. Special attention given to mail orders. Don't delay, get well now while you have the opportunity. COT-TONE-O is manufactured at Sharp & Dohme Laboratories, Baltimore, Md., Registered in U. S. Patent Office

LOCALS

To Meet Monday.
The local work department of the Women's Missionary Society of the Methodist church will meet at the church Monday afternoon at four o'clock.

TWO OCEANS SEEN AT SAME TIME IN 'THE NE'ER-DO-WELL'

Novel Scene Big Feature of Thomas Meighan's Latest Paramount Picture.

Few persons have been privileged to look upon the Pacific and Atlantic oceans at the same time. When Thomas Meighan's latest Paramount picture, "The Ne'er-Do-Well," is shown at White's Theatre Monday night, the number will be greatly increased. For one of the aeroplane views of the Panama Canal featured in the picture gives a view of both oceans.

During the filming of exterior scenes for Rex Beach's novel in Panama, director Alfred E. Green sent William Miller, cameraman, into the air to get certain scenes of the locks for use in the picture. While at a high altitude, Mr. Miller was able to get a shot which gave a glimpse of both the Atlantic and Pacific.

In making other air views for the picture seven DeHavilland planes and two Martin bombers, all furnished by the U. S. Army in the Canal Zone and piloted by army fliers, were used. The army officers who helped the Paramount company in making these scenes for "The Ne'er-Do-Well" were Major F. Walsh, Captain Smith, Captain Minter, Captain R. Quinn, Lieut. Leland Miller, Lieut. Moon, Lieut. Webster and Lieut. Fred Clark. All of these officers are stationed at France Field, Canal Zone.

In "The Ne'er-Do-Well" Mr. Meighan is seen as the shiftless son of a man of wealth who is disowned by his father after a certain escapade in New York which results in the young man being shanghaied on board a steamship bound for Panama, where he is left penniless and thrown upon his own meagre resources. Here he meets Chiquita, a beautiful Spanish girl, played by Lila Lee, and their love romance is not only prolific of highly dramatic developments, but

ends in the regeneration of the young American ne'er-do-well. The supporting company is excellent.

Ladies Aid to Meet.
The Ladies' Aid Society of the Christian church will meet Monday afternoon at 4 o'clock with Mrs. J. S. Willard.

Noted Instructor To Lecture During The Summer Course

RALEIGH, July 13. — Word has just been received that Dr. B. T. Terry, instructor for the summer postgraduate medical course which began Monday in Winston-Salem, Greensboro, High Point, Salisbury, Concord and Charlotte, has been awarded the silver medal for his instructional demonstration and ex-

hibit at the meeting of the American Medical association recently held in San Francisco.

C. D. Snell, director of University Extension division, under whose auspices the course is being given received the notification of the award at Chapel Hill last night. He states that this is the second highest honor given at the annual meeting of the association.

The time and place of the first meetings of the course are as follows:

Winston-Salem, Monday, July 16, Nurses Home, City Memorial Hospital, 4 p. m.; Greensboro, Tuesday, July 17, Room 208 County Court House, 3 p. m.; High Point, Tuesday, July 17, private dining room, Sheraton Hotel, 8 p. m.; Salisbury, Wednesday, July 18, County Courthouse, 2 p. m.; Concord, Thursday, July 19, Merchants Club, Cannon Building, 2:30 p. m.; Charlotte, Friday, July 20, Library Room, Professional Building, 4 p. m.

Mr. Snell said that one hundred and twenty physicians and surgeons in the Piedmont section of the state had already signed up to take the course.

UNIVERSITY OF TEXAS MAY BECOME RICH THROUGH OIL

AUSTIN, Tex.—Students and officials of the University of Texas who for several years have dreamed of extensive improvements for the school may have their dream fulfilled by the magic of oil. A \$6,000,000 improvement program has been outlined for some time. The board of regents had taken steps to obtain loans for the improvements, but it was not until a few weeks ago that hope developed for other sources of revenue.

It is admitted by university officials that should a producing oil field be opened on the school's lands in West Texas it probably would be one of the richest schools in the nation. Reports of a gusher in Reagan county were made recently, but it remains for the field to be proven.

"The Ne'er-Do-Well"

Thrilling Dramatic Story of a Man's Man

Powerful, dramatic and absorbing, Thomas Meighan's new Paramount picture, "THE NE'ER-DO-WELL," a picturization of Rex Beach's celebrated novel, is an attraction of extraordinary importance to exhibitors and the picture public alike.

Not only is the photoplay a cinema triumph, but it presents Mr. Meighan in one of the strongest roles in which that popular star has been seen since his tremendous success in "The Miracle Man" and Cecil B. DeMille's "Manslaughter." It is a photoplay which Paramount exhibitors may play up to the limit without fear of accusations of exaggeration on the part of their patrons. It's a tremendous screen offering and will yield rich returns. It's a picture production that every screen fan in the country will enjoy. Also PATHE NEWS. Adm. 10 and 35c.
