

A. V. WOOTN, Grifton, strong supporter of the Cooperative Tobacco association, in a letter to the Kinston Morning News, discussing the number of Pitt County farmers who have filed suit against the association seeking to annul their contracts is quoted as saying "the number is much less than 100." Mr. Wooten is not familiar with the subject which he discusses. For his information and future guidance, more than 100 suits were

filed against the association in this county in one day. That number has since been supplemented and the prospects are that a large number more will be instituted within the next week, both in Pitt and Martin counties! Evidently Mr. Wooten has again been sold by the eloquent promises of high salaried officials of the organization on the "great benefits" of the movement that will accrue to the farmers. Loyalty is always an outstanding characteristic. Mr. Wooten,

declares himself to that effect. It is our earnest hope that the faith he pledges will never have cause to be jolted. We are not taking issue with Mr. Wooten, because of his fidelity to the association, but merely to correct an erroneous statement concerning a sentiment among Pitt farmers, one of which he is NOT.

MOULTON BELIEVES GERMANY UNABLE PAY REPARATIONS

Analysis Show Payment Depends Upon Europe's Condition

WASHINGTON, July 15.—Belief that Germany at present can make no further reparation payments was expressed tonight by H. G. Moulton, director of the Institute of Economics, who declared this was the chief conclusion to be drawn from an analysis of Germany's capacity to pay which has just been completed by the institute.

"The total that may in the long run be paid," Mr. Moulton added, "depends upon the state of European trade and industry—in other words upon factors over which Germany has relatively little direct control."

Characterizing Germany's present economic condition as "extremely grave," Mr. Moulton said that since that nation's gold supply "is not sufficient to meet her obligations for more than a few months, and her paper is not acceptable to the reparation commission, she can pay for her imports only with the proceeds from exports."

"It must be emphasized," continued Mr. Moulton, "that Germany cannot possibly utilize all these proceeds from her exports in meeting reparation obligations. This is because she must have imports of raw materials and foodstuffs if her economic system is not to break down completely, and she can pay for these only with exports."

"The crux of the whole German problem may be stated thus: A country with an area only two-thirds the size of Texas, has, as a result of the great industrial expansion of the last forty years, come to have a population of more than sixty millions of people, of whom roughly one fourth are dependent upon imported foodstuffs for their very existence. Moreover, the industrial system thus built up can operate only if raw materials are brought in from abroad. These indispensable food and raw material imports can be paid for only in foreign money derived from the sales of exports."

"Hence, if the entire German population and the German industrial system are to survive, the first claim on the proceeds of exports is to meet the cost of necessary imports. Only if Germany can export more than is required to pay for indispensable imports will she be able to meet reparation obligations. And she can export only to the extent that other countries can and will buy German products."

China Turning To Intensive Farming

WASHINGTON.—A remarkable development of intensive agriculture in China is shown by a special study of farming in that country, just completed by the Department of Agriculture.

China has more than 59,000,000 farmers who, with their families, comprise 80 to 90 percent of the nation's total population. Of a total area of more than 2,000,000,000 acres of land, about 212,000,000 acres are under cultivation, including 43,000,000 acres of wet lands used chiefly for rice production, and 16,000,000 acres of gardens and fruit orchards.

China ranks first among agricultural countries in the production of rice, tea, silk, soy beans and grain sorghums, the report says, and is second only to the United States in tobacco and possibly in wheat production also. On the average China produces more cotton for commercial use than Egypt and, including production for local use, nearly as much as British India.

LATEST PHOTOGRAPH OF POPE PIUS XI.

This is the latest photograph of Pope Pius XI, with a group of the Vatican officials, taken on the occasion of a tour of inspection by His Holiness.

Engineers Seek New Alphabet For Use In Radio

NEW YORK.—The establishment of a universal telegraphic alphabet is urged in a statement issued today by the Engineering Foundation. Radio engineering is leading the peoples of the earth toward a common language, the foundation asserts.

Methods to simplify and expedite the electrical transmission of messages should be evolved through national legislation and international conferences. Science and commerce will not hesitate; is statecraft ready to perform its function? the foundation asks.

"There are ship lanes in the northern Atlantic," the statement continues. "Crowding automobiles in city streets have necessitated traffic lanes. Aviation is establishing lanes in the air. Allotting of lanes in the ether has become urgent."

General Squier in 1913 commenced investigations for improving transmission of the telegraph alphabet, according to the foundation, as the old Morse system failed to meet the needs of present day transmission. In the Morse code the current is interrupted between signals; with the redesigned system the current flows uninterruptedly.

"The new continuous wave system designed by General Squier," the foundation states, "can be applied to radio telegraphy. Variations for dots, dashes and spaces are reduced to the minimum on the theory that the least practicable change of the fundamental wave should be made. For easier reading the waves have been made square-topped."

Retail Clothiers To Try Budget System

CHICAGO.—Better values in men's wearing apparel is the main object of a budgeting system, which takes in every detail of clothing store management, and is being distributed among six thousand members of the National Association of Retail Clothiers for a month's trial before the annual convention of the organization, which will be held here the last week in September.

The budget represents not alone three years' work of the National Association but also of leaders in the wholesale and retail field of the clothing and furnishings industry, accountants, efficiency experts and professors prominently identified with business research at the universities of Harvard, Wisconsin and Northwestern.

Mental Workers Fail to Unite.

MEXICO CITY.—Formation of the "Federation of Mental Producers" was one of the principal works of the recently held National congress of writers. The convention, called to formulate measures to improve the lot of authors, dramatists and poets, invited the co-operation of the Republic's Synodate which, however, has not yet been conceded.

American Legion Entertain Ladies Tomorrow Night

Tomorrow night will be known as ladies' night with the Pitt county Post of the American Legion. At this time the post will entertain the women of the auxiliary and all ladies who are eligible to membership into the auxiliary, wives, mothers, daughters and sisters of legionnaires. The banquet will be spread at the Wayside Tea Room at 7:30 o'clock and the affair promises to be the greatest gathering of the ex-service men and the ladies ever held here.

Ladies desiring to attend and having no means of getting out to the tea room will please phone Mrs. Frank Wilson and arrangements will be made for cars to call for them.

Supreme Court To Decide One Knotty Question In Law

WASHINGTON.—The supreme court has been asked to decide whether the counterfeiting in this country of Canadian securities can be punished under the penal code. The question was before the Eighth Circuit Court of Appeals for solution, but that court found it so perplexing that it called upon the highest court for instruction.

Isadore Luvisch was convicted in the Federal District Court for eastern Michigan of counterfeiting Canadian excise stamps, and was sentenced to five years in Leavenworth. While serving the sentence he applied to the Federal District Court of Kansas for a writ of habeas corpus, which ordered his discharge on the ground that the offense for which he had been convicted did not constitute a violation of any law of the United States. The warden of the penitentiary, while holding Luvisch in confinement, took the case to the Federal Court of Appeals for that circuit, which suspended further proceedings until the supreme court could consider and pass upon the question.

Train Crash Injures Seven In New York

NEW YORK, July 16.—Two coaches of an elevated train were telescoped and crushed early this morning when the elevated crashed into the rear end of an empty subway train in the Bronx. Seven persons were severely injured. The accident occurred opposite the next-to-last parking yards where the elevated and subway trains all run on the overhead tracks. Transportation officials attributed the accident to the failure of the switchman to move the subway train, was being groomed for its first morning run, and the rain which caused the brakes of the elevated train to slip when the motorman applied them after rounding a curve and seeing the other train immediately in front.

Political Pot In The Philippines Badly Stirred Up

MANILA, P. I., July 16.—Political differences in the Philippines which re-opened yesterday with the resignation of Secretary of Interior J. P. Laurel, waxed warmer today according to official reports when all other diplomatic secretaries except one advised Governor Leonard Wood that they intended to quit the job.

Few Cases Before Acting Mayor In Police Court Here

In the absence of Mayor D. M. Clark this morning's session of police court was presided over by Mayor-Protem Closs W. Hearne. Only a few cases were up for hearing and the session required only a short time.

William McGhee paid the costs for parking an automobile on the street and leaving the motor running unattended.

Herman Cherry, colored, paid a fine of \$10 and the costs for being drunk and disorderly conduct.

Bulah Carney was fined \$5 and costs for disorderly conduct.

In the case against Russell Gray and Will Latham, charged with larceny Latham failed to appear and the case was continued.

Herman Cherry, colored, paid a fine of \$10 and costs for speeding.

Former Bank Teller Of Elizabeth City Out On Heavy Bond

RALEIGH, July 16.—J. D. Sykes, Jr., former bank teller of Elizabeth City, who is charged with the embezzlement of \$25,000 of the bank's funds and arrested a few days ago in Montana was today released by federal authorities under bond of \$10,000 which had been raised by friends. Sykes was brought to Raleigh Friday night by two Montana officers.

As soon as Sykes was released he hastened to a local hotel to see his mother who was waiting there for him. It was an affectionate meeting between mother and son. In reply to inquiries both mother and son stated that they did not desire to talk to the reporters but preferred to be left alone.

Sykes accompanied by his mother and a few friends will leave this afternoon for Elizabeth City. Eight prominent Elizabeth city men signed the bond representing a total of \$42,000 for his appearance at the October term of federal court at Elizabeth City.

Mr. O. B. Bowling, of Wilson, who was called here on account of illness and death of his father, Mr. J. G. Bowling, returned to Wilson today.

MERCHANTS OF GREENVILLE WILL STAGE FIRST CITY-WIDE "DOLLAR DAY" ON THURSDAY, JULY 19TH.

Greenville is to have its first city-wide "DOLLAR DAY" on next Thursday, at which time the buying element of Greenville and vicinity will be offered just such items that are found in the larger cities on special selling events of this nature. The merchants of the city have several times entertained the thought of a city-wide dollar day, but the necessary co-operation has not been possible until this time. Every firm have expressed their intentions to offer values that absolutely cannot be excelled, and this fact should attract hundreds of people to Greenville that they may share in what will be offered. The success of this initial "DOLLAR DAY" depends the future conducting of such.

The following merchants participating are getting their stock in readiness to offer the best possible for the day: Quinn-Miller & Co., The Dry Goods Shop, Pitt Shoe Co., John L. Horne & Co., Griffin Shoe Store, Frank Wilson, W. A. Bowen, McKay, Washington & Co., Blount-Hurvey Company, Young's, Claude Tunstall, Batchelor Bros., C. Heber Forbes, Miller, Inc.

Escaped Convict Arrested Today Near Winterville

Charlie Stocks, a negro well known to the officers, and especially the guards of the road forces, is again in the toils. Last October Stocks took a leave from the chain gang after serving a portion of a two year sentence. His whereabouts remained unknown until this morning when he appeared on the public highway near Winterville driving a horse and buggy. Officer Hobgood recognizing the negro as the escaped convict took him into custody. He claims that the team he bought at Henderson. Not willing to accept his statement as true the officer brought Stocks here and placed him in jail to await an answer from the call to Henderson to ascertain whether or not the horse and buggy is really the property of the negro.

Two Aviators Drown When Engine Fails

VENICE, CALIF., July 15.—Herbert Wilson and Cecil Coates aviators, were drowned in the ocean here today when their engine failed at an altitude of about 200 feet and their seaplane glided into the water.

The aviators, both residents of Santa Monica, were strapped in their seats and had no chance to escape death.

A physician who examined the bodies said death was due to drowning, although both men had been injured in the fall.

The plane was of an old type, and the fliers, both of whom were experienced, disregarded warnings against its use. The engine was driven back into the plane, causing it to turn over and sink.

The accident was witnessed by over two thousand persons.

Yachts Put to Test In Long Sail to Mackinac

CHICAGO.—Yacht racing honors on the Lakes will be at stake when the starting gun booms here July 21 for the Chicago-Mackinac Island race, the longest freshwater race in the world.

Competition this year for the Mackinac cup, the most coveted Great Lakes racing trophy, will be even more spirited than during the 19 year's history of the race, and will take on an international aspect with at least a dozen and probably several Canadian entries.

From the break in the harbor at Chicago to the end of the 331 mile radius of 2,000 miles and will be able to stay in the air 24 hours without stretching almost the entire length alighting. The crew in charge will be provided with regular sleeping quarters on board. They will, in fact, work in shifts while in the air, some of them sleeping while others are on duty in the control chamber.

Premier Baldwin Finds Publicity A Novel Experience

LONDON.—Stanley Baldwin, Britain's new pilot of the Ship of State, has won the admiration and goodwill of all classes by his simple unostentatious manner and his outstanding human qualities. He is especially popular among the British and American newspaper men, who have found him approachable and unfailingly courteous. He has none of the aloofness, the superior manner or severe pride of position which one is apt to associate with prime ministers.

The journalist fondness for the premier is reciprocated by Mr. Baldwin, for he realizes that his sudden rise to fame is due in no small measure to the sympathetic attitude adopted by them toward him.

At a recent banquet given by the British newspaper men in his honor, Mr. Baldwin said: "I am conscious more than ever how the creation of a reputation really is your prerogative and your prerogative alone. Whatever reputation I may have today I beg to thank you for it from the bottom of my heart."

The prime minister referred to some of the remarkable qualities attributed to him by the British and American newspapers, which he said it was impossible to live up to.

Australian Royal Plate To Be Placed On Sale

VIENNA.—What is probably the rarest and most valuable collection of silver plate in Europe, the famous silver treasure of the Cumberland family, is reported to be entering into the market. It was kept in the Cumberland royal villa at Penzance, just outside Vienna, until the death of the old King of Hanover in 1878. Afterwards it was removed to the Cumberland country seat at Gmunden in Salzburgmergut.

The collection includes priceless specimens of the work of the first silversmiths in England, France, Augsburg, Hanover and Osabruck, during the three centuries between 1560 and 1850. The only other collection which approaches it in extent and completeness is that in Windsor.

Clerks to Sort Mail In Speeding Plane

LONDON.—A "flying mail train" is the latest type of airplane to be developed in England.

In the plane's mail-chamber, says the Daily Chronicle's aeronautical expert, sorters will be able to carry on their work just as they might in a railway mail-train. It will have a radius of 2,000 miles and will be able to stay in the air 24 hours without stretching almost the entire length alighting. The crew in charge will be provided with regular sleeping quarters on board. They will, in fact, work in shifts while in the air, some of them sleeping while others are on duty in the control chamber.

ABE CANNON MUST PAY FOR DRIVING CAR WHILE 'LIT'

Young Man Receives Judgment of Court Without Murmur

As usual this morning's session of county was featured with liquor cases and pistol toters. Judge Cooper presiding gave each defendant, with one or two exceptions the full extent of the law.

Possibly the most important case called today, was that of Abe Cannon, a young white man of the Paetolus section who one week ago while intoxicated drove his Ford runabout into the sedan of Mr. R. B. Teel a few miles north of the city. The defendant admitted having taken three "small" drinks, but denied that he was in any way intoxicated. Evidence was presented by the State proving that Cannon was pretty well "fed up" on corn, and that he was driving in a reckless manner. Judgment of the court was that the defendant shall not drive any car for a period of four months on the highways of the state, pay to the prosecuting witness R. B. Teel, whose car was badly damaged, the amount of the repair bill, pay the cost of the case, and judgment is suspended for a period of two years.

Noah Cox charged with assault on a woman had his case transferred to superior court for jury trial.

L. H. Rountree was found guilty of not complying with the cattle dipping act, and his honor required him to pay the cost.

Agnes Stealey, a negroess of 12 years, charged with the larceny of a pair of hose, on account of her tender years was sent to Judge Harrington of the Juvenile court.

A. J. Garris was given a fine of \$50 and cost for assault. C. Garris who was the other member of the assault party was let off with \$10 and cost.

Carrying concealed weapons brought Jesse Franklin and Robert Tucker into court. Both being found guilty were given twelve months on the roads. Attorneys for Franklin gave notice of appeal. Another charge of assault with deadly weapon against the same two defendants resulted in an additional twelve months sentence for Franklin and the cost for Tucker. The former also gave notice of appeal in this case.

Flogging Trial In Robeson County To Begin Tomorrow

LUMBERTON, July 16.—The trial of Mike Lawson, John Hedgepeth and Jule Brodgen on charges of burglary and kidnaping in connection with the alleged flogging of Mrs. Watson and Mrs. Hattie Purvis at Proctorville last April, is scheduled to begin in tomorrow's session of Robeson county superior court. The affair has attracted wide attention and no doubt the court room will be overrun. Attorneys and court attaches are preparing for the longest and hardest fought legal battle in the history of the county. Each side has secured imposing legal forces and over 60 witnesses have been summoned. H. L. Taliaferro was recently arrested on charges of alleged attempts to tamper with some of the witnesses in the case.

Indictment Carries 22 Names Connected With Transporting

CHICAGO, July 16.—Twenty-two men were named in an indictment by the federal grand jury today on the charge of conspiracy to transport 1000 cases of whiskey from Old Grand Dad Distillery, at Louisville, Ky., in September 1920.

WHEAT AND SILVER NEED STABILIZING

To insure the successful marketing of silver in Europe and Asia, which are the chief consuming markets for the United States, the special senate silver and gold investigating committee...

No legislation has been proposed as yet assuring the silver producers such a price as prevailing during the war, when under the Pittman Act, the Government made purchases...

A conference of silver producers of the Americas will be called to meet in Reno, Nev., about the middle of August. Senator Oddie (R) of Nevada, chairman of the committee...

This method of stabilizing the price and market for silver, is also demanded by the wheat producers of the nation. When the proposition comes up in congress, it is probable that wheat and silver will travel together...

During the first week of July the National Educational Association with a membership of 130,000 in the United States, held one of the greatest and most important conventions in the history of this or any other country...

PRIZE FIGHTS EDUCATIONAL JOURNALISM

It is interesting to note that the proceedings of these two great conventions have hardly been noticed by the press associations, while a prize fight in Montana commanded page after page of jazzy detail.

The Christian Science Monitor made a survey of leading American newspapers in regard to this matter, and the results are both interesting and illuminating.

On July 5 eight New York newspapers devoted 70 columns of space to the prize fight, and three columns to these great educational conventions. Seven Chicago papers devoted 64 columns to the prize fights and 1 3/4 inches to the greatest of educational conferences.

And yet 23 editors of these papers pose as representing current journalistic judgment

many papers through the south issued extra "fight" editions but not a single line of the important news from San Francisco.

The pacific coast papers devoted more space to the prize fight than to the convenas to what is news.

The national new service of the South did not consider the World's Educational Convention worthy of mention. As a result even in San Francisco, the general average for all cities was about 50 columns of fight to 1 of educational matters.

The several colleges conducting classes in "Journalism" have here a practical lesson that should be utilized. It involves the question, "What Is Journalism?"

If a paper is published merely, or even mainly, to amuse its readers, and to roll up the largest volume of circulation for the advantage of its advertisers, publication of prize-fight news, and of even less savory incidents of the life of the underworld, may be accepted as an efficient step to that end.

A newspaper's constituency can be educated upward, or downward. Each day's "sensations" in a paper require a still more sensational paper tomorrow if the circulation is to be kept up. A certain class of journalists call this "giving the people what they want." It is not that at all.

A NEW WORLD-TEMPER IS NEEDED

In a recent address on present-day conditions Mr. Lloyd George declared that the real trouble in the world was the enthronement of force above right. He showed a courage above ordinary when he asserted that, from the standpoint of an individual who had taken probably a larger share in the settlement of labor troubles than almost any living man, his candid experience was that there was very little difference between the two sides.

League of nations might be set up, hurried; conciliation acts might be passed, and tribunals set up at The Hague, but they would not be obeyed nor respected until there was a new temper in the world. That the new temper in the world is being established it does not take a prophet to forecast, and when it shall have been established leagues and acts and tribunals at The Hague will largely take care of themselves.

BIG BRITISH SCHEME

A big emigration scheme is in course of negotiation under the Empire Settlement Act between the British Government, the Australian Commonwealth Government and the New South Wales Government. The main outlines of the scheme have been agreed to, though it will probably be a couple of months before the details are finally settled.

The scheme is for the settlement of 6000 selected British immigrants on their own farms in New South Wales. It is estimated that it will cost at least \$25,000,000 to prepare these farms and another \$25,000,000 for advances to settlers to start themselves. These would be under repayment obligation for a period of three years, when they would begin repayment for their farms. The amount to be repaid would be spread over 36 years, and the repayment for equipping and stocking the farms over 20 years. The scheme is to be financed by the three governments concerned.

EGYPT AN INDEPENDENT NATION

Great Britain has abolished martial law in Egypt, and that nation now enters into practically complete independence. Commencing last week the British are no longer concerned in the interior administration of the country, the whole responsibility for governing and the maintenance of public order and security devolving upon the Egyptians themselves.

Final negotiations, however, have not been completed, and until so completed Great Britain will control certain military and air force camps, under the Versailles and other peace treaties. The election of members of the Egyptian Parliament will occur in October, and there will be nearly 1,000 candidates.

Delinquent Groups In College Found To Favor Easy Life

EVANSTON, Ind.—Too little sleep, too much play, not enough study, too much leisure; fast eating and diversified thinking are factors that demoralize students and are responsible for the "delinquent groups" found in every university, according to a report made public by Professor Delton Thomas Howard of Northwestern University.

In Northwestern alone, out of 1,635 students in the college of liberal arts, Professor Howard has found a "delinquent group" of 265 composed of 186 men and 79 women. In other words, he points out, 16 out of every 100 students do not "pass." But delinquency does not necessarily imply lack of intelligence, the professor found.

"No result of our study," the Northwestern professor writes, "is more significant and interesting than the discovery that the average intelligence of the so-called delinquent group is quite as high as that of the general student body."

Students found to be delinquent are put on probation at Northwestern and have to make good or be dropped from the roster.

"The probationers," the investigator reports, "devote more time, as a whole, by their own confessions, to athletics, social activities, outside work, leisure, than do the freshmen; less time to sleep, campus activities, meals, classes and studies."

Among the total group of men interviewed, 15 were thought to be handicapped by "mental immaturity." Commenting on this Professor Howard remarks:

"These are boys who have, for the most part, been reared under easy circumstances and who have never been required to view life seriously. Such students have a distinctly childish attitude towards their class-room work, have no intellectual interests, no definite ambitions, no sense of responsibility. In most of these cases, as might be expected, high-school preparation has been superficial and inadequate."

FINDS SAVING IN COST OF MAKING ELECTRICITY

WASHINGTON.—The United States is becoming an increasingly heavier user of electricity, but despite the mounting power totals, the consumption of fuel to produce it is decreasing in proportion.

Tar Heel Stop Law Claims First Victim

Winston-Salem, July 15 — When Ed York, negro chauffeur, brought his car to a standstill at a railroad crossing here today, the brakes gave away and the machine, sliding down hill, crashed into the front porch of the home of Smart Smith, aged negro, wrecking the porch and a part of the roof of the house, breaking Smith's spine and paralyzing the lower part of his body. Smith is not expected to recover.

RECORD ENTRY EXPECTED FOR HORSESHOE PITCHING CONTEST

CLEVELAND.—Several hundred entrants are expected in the National Horseshoe Pitchers' Tournament to be held here August 30 to September 2, as the result of announcement by local tossers in charge of arrangements that many state and county fairs throughout the country are to hold horseshoe tournaments to determine entry in the national contest.

Harold Falor, 15-year-old boy of Akron, O., will defend his title as world's champion pitcher, he has announced.

A DUTY EVERY MOTHER OWES HER CHILDREN

Children who are taught habits of thrift in early life will seldom be found among the failures later on.

Start your child on the right path with a saving account. You can start with a deposit of one dollar or more. We'll be glad to lend you a **BASEBALL SAVINGS BANK** to take home. It will surprise you, as well as the child, how rapidly the bank account grows just from the odd nickels and dimes the little bank will collect.

GIRL BLINDED BY YEARS IN DARK CELL.

Mary Alexis + Nurse

An astounding case of parental cruelty was bare in Memphis, Tenn., when a 10-year-old girl, known only as Mary Alexis, was examined by surgeons in St. Joseph's Hospital the re. The child is almost entirely blind as a result of four years' imprisonment in an underground cell, constructed by her parents because she was deformed at birth. A plumber, making repairs in the cellar of the home, heard sounds and traced them to a sub-cellar, where, in total darkness, he came upon the emaciated, grime-stained child. The girl has been in the hospital under treatment for three years, although her case has just become publicly known. The name of her parents has been withheld by the authorities.

The Dye Shop Gives Way to the Chromatic Scale

Once upon a time—and it was even so recently as early this Spring, if one wished to be an exponent of the mode one had to look as if one had just stepped out of the dye pot. Ladies were known to come home in tears from the shoe shops because no calves grew whose skins were the exact shade of their new dress. Hats, gloves, hose and even amber beads had to touch the same note in the chromatic scale or they were considered to be too hopelessly out of tune to be worn.

But with summer come hints that subtler melodies are to be the vogue, and the more delicate art of blending colors or even combining opposite shades is being developed. Black and white is sadly inadequate to show the delicious shade of Nile green taffeta, a lustrous piece from the South Manchester looms, that makes the little frock in the picture. The hat is a dull peacock blue with just a reflection of green in its taffeta depths, the ribbon cockade of Indian red. White stockings and bronze strapless pumps complete the very original effect.

The dress is made with a very modified basque, a plain front with flounces that extend, except in the case of the top one, only around the sides and back. Cuffs bare and a collar lies with demure flatness beneath a crisp narrow organdie band.

A procession of very small self-colored buttons marches down the front to be stopped by a small but determined

"If you cannot get it locally try Miller & Rhoads"

The Store-Wide Expansion Sales

Crowd The Store Daily

THE scenes in the Miller & Rhoads store every day since the start of the Expansion Sales have been "just like Christmas!" Every floor and every department has been crowded throughout store hours with eager shoppers. In some cases—such as the sales of Men's Shirts, Women's Silk Dresses, Women's Hats, Women's Silk Hose, Women's Sweaters—Underwear—Cases—Vacation and Ouing Accessories, Summer Shoes, Silverware, China and Glassware—In these events and others, our facilities and stocks—great as they are—have been severely taxed to take care of the rush.

The point we wish to emphasize to our out of town friends is that the special values in the Expansion Sales are to be found in all departments of the store every day of the sale. None of our newspaper advertisements—not even the full-page and double-page announcements in the Richmond papers—attempts to list more than a few of the special sale items. Many of these are sold out within an hour after the store opens on the day following their announcement.

You will appreciate the difficulty of listing in the weekly out of town advertisements, such as this one, any items which we can hope to continue all during the week. The best of the offerings—that is those that are likely to prove most popular we do not dare advertise out of town as they would be sold out before visitors from a distance could come in.

Do we make it plain that it will pay you to visit the store if you need anything at all that we sell without waiting to see those particular items advertised? The forty departments of the store are all participating in the sales every day. Each is being handled very much as if it were a store in itself—trying to out rival other departments and win the most sales by offering the most attractive values.

Will you not arrange to visit the store some time this week?

Below we list two groups of special values: These are very remarkable in every way and best of all—it seems likely that stocks are sufficient to last through the week.

Extraordinary Selling Of Smart Summer Silks

Some of the greatest Silk Values ever announced by any store. The Choice Silks of a season when Silks have been, and still are, preeminent among fabrics for fashionable wear. Such are the Silks Miller & Rhoads will especially feature in Sales beginning tomorrow in the Silk Store—at prices far below those which Silks of such beautiful qualities have commanded heretofore.

Two very large Sales-groups, both of which will prove of extraordinary interest.

Silks at \$1.29

Satin Line Plaid Rattines, Silk Rattines in all white or white with rose, or turquoise satin plaids, or turquoise, copen or rose with white satin line plaids, one of the smartest summer costume fabrics, especially for 3 piece Sports apparel \$1.29 a yard.

Printed Crepes, in light and dark colorings and the prettiest or holiday prints, 40-inches wide Especially attractive for Blouses and Frocks, and for Trimming. Very special this week at \$1.29 a yard.

Crepe de Chine, 40-inches wide, in black, white, orchid, flesh, pink, tan and jade, special at \$1.29 a yard.

Broken Plaid Taffetas, 35-inches wide and shown with novelty broken plaid stripes on blue, brown or copen grounds, special at \$1.29 a yard.

Checked Taffetas, 35-inches wide in light summer colorings, many clear gingham checks are included which are popular for children's dress-up frocks, and many, many pretty patterns for grown ups. Special this week at \$1.29.

Fancy Knitted Crepes, these are one of the popular knitted fabrics for sports or traveling shown in several attractive color effects—very special \$1.29 a yard.

Roitynes, 36-inches wide, in mulberry or henna one of the smartest knitted fabrics for sports and traveling, wear—special this week at \$1.29 a yard.

Silks at \$2.35

Silk Skirtings. Some of the highest priced Silk Novelty Skirtings we have offered this season are in this lot. White Novelty weaves, white with smart patterned stripes in several pretty shades and darker grounds with self or contrasting patterned stripes. Very special at this low price.

Capton Crepes, 40-inches wide, in orchid, pink, white, navy, old rose, tan and brown, an unusually good quality at \$2.35 a yard.

Silk Glimares, in changeable effects of white and orchid, yellow, orange or strawberry, a very popular sports costume fabric, special \$2.35 a yard.

Silk Rattines, in tan, rose, orchid or in smart checks of lavender and white, green and white or orange and white, unusual at \$2.35 a yard.

Kordettes, the knitted sports or street wear fabric. Shown in smart shades of grey, toast also in green, navy and white—special at \$2.35 a yard.

Cot-Tone-O

That New Discovery for Rheumatism

Specialists for a long time, by hard study and experiment have at last discovered this wonderful remedy for Rheumatism. If you suffer from Rheumatism, and want to get well you now have the opportunity. This new discovery known as COT-TONE-O will eventually be on sale in every drug store, so all those that suffer with Rheumatism can purchase a bottle and be made happy once more. Try one bottle and tell your friends the results. COT-TONE-O is especially prepared for those afflicted with Rheumatism, Neuritis, Constipation and Lumbago. COT-TONE-O is a special blood tonic, purifies the blood, penetrates the nerve, the vein, the bone, the entire system, and drives out all impurities, acts on the liver, like calomel, but does not leave the bad effects. COT-TONE-O is an internal treatment and harmless to the body, it makes you sleep, makes you eat, and makes you feel in good shape. If after having tried one bottle you are not thoroughly satisfied that you have received more than the full value of the price paid, ask the druggist to refund your money and he will gladly do so. This medicine is a new discovery, and if your Druggist hasn't it in stock, kindly enclose check or money order to the amount of \$1.50, addressed to the

COTTON DRUG COMPANY, Inc.

Rum Runners Attack Inadvertent Visitors

MEXICO CITY.—Fantastic tales told of the operations of American rum runners along the coast of Lower California reached a climax recently with the publication of delayed advices from Rosario telling of the unhappy fate of 17 Mexican fishermen who fell into the hands of American smugglers.

The little Mexican fishing smack, Marinera, it is related, swept by a heavy storm from its fishing grounds, sought refuge under the lee of the island of Sacramento, in Vizcaino bay. Instead of a refuge, the storm tossed fishermen were greeted, upon landing, with a volley from the rifles of a score of American smugglers, and six of them were wounded. Attempting to seek refuge in the brush, they were halted by a storm of bullets from a hidden machine gun. Then, after they had been placed aboard their craft and told to forget what had happened, an unsuccessful attempt was made to sink their boat with shots from a piece of artillery mounted on one of the island's rocky hills.

According to the Marinera's skipper, Fabricio Mendoza, the smugglers have built a small village on the shore of one of the coves that indent the island, and stores of liquor worth a fortune were piled in makeshift warehouses nearby.

DELAYS ATTEMPT TO FLY OVER CONTINENT

Mitchell Field, N. Y., July 15.—Unfavorable weather conditions have caused a postponement until Wednesday of the second attempt of Lieutenant Russell L. Maughan to make a daylight flight from the Atlantic to the Pacific Coast, it was announced today by Lieutenant Edwin Johnson, in charge of preparations for the second flight which was to have begun tomorrow morning.

The motor of Maughan's Curtiss pursuit plane has been completely overhauled, it was stated, to prevent recurrence of the clot in the gasoline feed pipe which cut short last Monday's attempted trans-continental trip by forcing Maughan down near St. Joseph, Mo.

DUKE OF YORK TOO BUSY TO ATTEND MEMORIAL UNVEILINGS

LONDON.—Members of the British royal family have announced that they will be obliged to decline future invitations to unveil war memorials.

This announcement was made when a reply of the Duke of York to an invitation to unveil a war memorial was made public. The Duke said that he, in common with other members of the royal family, found it impossible to travel over the country, especially to these ceremonies, when he has so many other pressing and important demands on his time.

LONDON.—China is producing hundreds of tons of opium, says Sir John Jordan, British Minister in Peking, and it looks as though she were going back to the old, bad state of affairs before the suppression of opium by agreement with India was brought about. India, the British Minister, adds, used to export about 100,000 chests of opium a year, mostly to China; now her exports are only 8,000 chests, almost exclusively to the East Indies. She is prepared to reduce this if there is a reduced consumption.

He says India is loyally and scrupulously observing every provision of the Hague convention. Turkey and Persia, he adds, must be brought within the Hague Convention, or the attempt to control the supply of raw opium must inevitably fail. Similarly it is essential that Switzerland join the convention, since that country is one of the most important centers in the world of the drug traffic. "If," Sir John declared, "the Hague Convention is honestly and efficiently enforced today, the opium problem will be solved tomorrow."

LAND SALE. By virtue of the power of sale contained in a certain mortgage executed and delivered by L. H. Burney and wife, Tillie, W. W. Burney and wife, Lucy, and Z. A. Burney and wife, Mary, to R. M. Williams on the 22nd day of February 1918, which mortgage was duly recorded in the office of the Register of Deeds of Pitt County, in Book L-12, page 113, the undersigned will sell for cash at public auction, before the court house in Greenville on

Saturday, July 28th, 1923: the following described tract or parcel of land: That tract of land in Swift Creek township, bounded on the North by W. S. Roach and Com Kosons, on east Morris land, on the west by Louis Worthington land, containing 110 acres, more or less, being part of the land deeded by H. W. Whedbee and wife and B. T. Smith to Jacob Burney on Nov. 1st, 1906.

Said land is sold to satisfy said mortgage. R. M. WILLIAMS, Mortgagee. F. G. James & Son, Attys. 28 11w 4w

Balance! at sea and on land. A GREAT ship far out at sea was shaken by an ominous shudder. One of the four propeller blades had been thrown off and before the engines could be stopped the driving shaft began to pound and whip. Sailors dangling in a rope sling went over the stern and chiseled off the opposing blade. Afterwards, with power reduced but balance restored, the vessel made port. When a cylinder is missing your car goes by jerks. Its power plant is unbalanced. The gasoline that feeds your motor must be balanced. A refining experience of more than half a century and constant research have produced a finely balanced motor fuel called "Standard", the gasoline that gives you instantaneous starting and swift pick-up—maximum power and high, economical mileage. You don't have to turn out of your way to find this balanced gasoline. Every pump you meet with the red "SO" on the globe dispenses this all-round motor fuel. Use it exclusively for all-season economy and satisfaction. STANDARD OIL COMPANY (New Jersey) "STANDARD" The Balanced Gasoline

For Economical Transportation Chevrolet FLAT RATE SERVICE PLAN Flat Rate Service—the kind of service you have been waiting for, is now at your call. We have adopted this new method of handling charges for Chevrolet repair work because it enables us to give every Chevrolet owner an intelligent estimate of the cost of repairs before the work is started. Our repair shop is guided by a schedule of repair operations, each covering a specific repair job with the exact average time indicated plainly. The standard price list of Chevrolet Parts gives the exact cost of replacement parts needed. These are the facts that take the uncertainty out of service work. The Chevrolet Flat Rate System makes for better work at lower prices, because repair men spend their time doing only what you have ordered. That's what we charge for, and you know in advance what it will cost. Our shop is equipped with special Chevrolet tools. No repair job is too large or too small to be handled efficiently and at minimum cost to you. Remember: Good and regular service costs you nothing in the end because it prevents expensive breakdowns and lengthens the life of your car. 16 Authorized Chevrolet Parts Depots and dealers in Pitt County. You are always near good service. See Chevrolet First for Economical Transportation. Carter - Cobb Motor Co. Fifth Street Phones 580 and 98
