

FARMERS SHOULD BE CAREFUL IN USING QUACK BOLL WEEVIL REMEDIES

The growing interest in the boll weevil problem in North Carolina has brought out a large number of proprietary preparations and machines, the sale of which are being vigorously pushed. This is just a repetition of what has occurred in every region invaded by the boll weevil. When the cry is raised against the pest the farmer is immediately exploited and many useless devices are sold to them. Farmers are warned against buying nostrums of any kind.

Investigation by the United States department of agriculture discloses that in innumerable instances the claims of these preparations and devices are not based on scientific tests. Generally the advantages for the various pest killers are calculated on misinterpretations of what occurs in the field. To determine whether a remedy is effective, it is necessary to have control areas and to consider the effects of numerous cultural practices.

Farmers are cautioned before being stampeded into buying machines and material other than those found to have stood the test of the government for fighting the weevil to communicate with the county agricultural agent or the state department of economy, at Raleigh. State and federal services are anxious to help the farmer and they are urged to take advantage of it. In the meantime any money spent for patented mixtures of machines, may be entirely lost.

Coal Barons Refuse Miners Closed Shop Demand, Strike Seen

ATLANTIC CITY, July 27.—An ultimatum demanding establishment of the closed shop and the check off throughout the anthracite industry, with a strike of Sept. 1, as the penalty, for rejection was flung into the joint wage negotiations conference today by the miners, and refused point blank by the operators.

All that prevented the immediate collapse of negotiations after the miners declared there was 'no more use in conferring,' was their concession to the operators' petition for a truce and another session in order that both sides might "sleep on the question and some one might have a change of heart."

At the end of a session devoted wholly to a discussion of the miners' demand for "complete recognition of the Union," including general inauguration of the closed shop and the checkoff system of collecting dues from the pay roll, John L. Lewis, president of the United States Mine Workers of America, introduced a resolution which read:

"Resolved: That the principle of complete recognition and the check-off, as expressed in demand number 1 be adopted." The four union delegates voted "yes." The four operators voted "no."

Johnny Dundee Again Battles Way To Feather Champ

POLO GROUNDS, N. Y., July 27.—The featherweight championship of the world, in French hands for less than two months, came back to the United States last night. Johnny Dundee, grizzled Italian-American veteran, battered his way to victory over Eugene Criqui, gallant ex-Poilu, in a gruelling 15-round struggle that was never in doubt from start to finish.

Dundee, rising to the greatest heights of his long and embattled career, won decisively all the way, but only in the face of a game and courageous stand that will go down among the most thrilling in prize ring history. The judge's decision crowning Dundee as the new title-holder was drowned in a wild outburst of cheering but in defeat the little Frenchman was accorded an ovation that rang out above even that for the victor.

NEW SCHOOL DIRECTOR
HENDERSON, July 27.—R. C. Garrison, of Pennington Gap, Va., has accepted the position of Athletic director for the Henderson high school, succeeding E. S. Johnson, who resigned to accept a similar place with the Washington, N. C. high school.

WILSON ASSAILS CAPITALISTIC SYSTEM, SPIRITUAL REDEMPTION ONLY HOPE OF WORLD, HE SAYS

BOSTON, July 27.—Former President Woodrow Wilson, writing under the caption "The Road Away From Revolution," for the August number of the Atlantic Monthly, sounds a note of warning that our civilization cannot survive materially unless it be redeemed spiritually.

This is the first time since his illness that Mr. Wilson has made public his views upon present day problems in the United States and throughout the world. They will be preserved in permanent form between covers.

VENUE CHANGE GARRETT TRIAL UP TO COURT

CUMBERLAND, C. H., Va. July 27.—All affidavits and oral testimony was concluded today in the trial of the Garrett brothers on a murder charge. Argument will be heard on the evidence by the court this afternoon.

It is probable that court will rule on the question of change of venue which is being sought by the state, on the grounds that a fair and impartial trial cannot be had in this county.

Many of the affidavits presented by the defense in its effort to disprove the allegations in the bill filed by the prosecution with its formal motion for a change of venue, asserted that "there is no feeling of excitement in the county which will interfere with the administration of justice in any way or embarrass, impede or obstruct the officers of the law in the discharge of their duties."

A. B. Armstrong, a member of the jury commission whose appointment was challenged by the prosecution as illegal, denied in his averment that he was appointed through the influence of the Garretts or that he was controlled by their faction. Armstrong's appointment was challenged on the ground that he was a lawyer and, therefore, barred from service as a jury commissioner.

On Way to Execution, Says He's Happiest Man in the World

LITTLE ROCK, ARK., July 27.—H. Sease, Baxter county man, convicted of murder was electrocuted at the state penitentiary here today. Sease had maintained up to the last minute that an act of God would prevent his execution. As the straps were being adjusted he declared that he was the happiest man in the world.

On his way to the death chamber to the chair, he was baptised in the Roman Catholic faith. "You came here to see me die, but I'm not going to die, for the same God that saved Daniel is going to save me," he said to the 15 persons present. He followed that remark by a hearty laugh. When the leather hood was adjusted over his head and face he said to the attendants "Have you got it on all right boys?" In a few moments he was dead.

Denver Bank Fails.
DENVER, July 27.—The Hibernian Banking and Trust company, an institution with deposits of \$1,333,729 according to report closed its doors today.

"LITTLE CABINET" IS DIRECTING GOVERNMENT NOW

Here are the ten men who are directing the United States Government during the absence from Washington of President Harding and most of his Cabinet. Secretary of State Charles Evans Hughes is the ranking official in Washington. In the upper row, left to right, are: J. Walter Drake, Assistant Secretary of Commerce; E. H. Henning, Assistant Secretary of Labor; Secretary Hughes, S. P. Bilbert, Under Secretary of the Treasury; John H. Bartlett, Assistant Postmaster General; and in lower left row, left to right are: E. C. Finney, Assistant Secretary of the Interior; Theodor Roosevelt, Assistant Secretary of the Navy; Dwight L. Davis, Assistant Secretary of War; E. W. Pagsley, Assistant Secretary of Agriculture, and A. T. Seymour, Assistant Attorney General.

WANT TO WIN A PRIZE? READ MODERN KITCHEN AD. TODAY, LEARN HOW

Attention is invited to a page appearing on page five of The Reflector today, showing how a modern kitchen can be made possible in every home at comparative small cost.

In order to obtain one of the cash and other prizes offered, cut out the several illustrations in the ad. assemble them in the order you believe will produce the best form of modern kitchen and send the specimens to The Reflector not later than noon of next Thursday Aug. 2.

Grade Crossing Accidents Multiply, Says U. S. Report

WASHINGTON, D. C., July 27.—Highway grade crossing accidents continue to increase, according to a statement issued by the Bureau of public roads of the United States department of agriculture the interstate commission, it is stated, reports that in the final quarter of 1922, 517 persons were killed and 1710 injured at grade crossings, an increase of 16 fatalities and 105 injuries in comparison with the same period of the previous year. Similar increases are reported in other quarters.

"It has been suggested that an increase is to be expected since the number of motor vehicles and highway traffic is increasing," the bureau's statement asserts, "but this should be the reason for additional preventive measures rather than satisfaction with the situation."

"There is only one safest way to prevent accidents where highways and railways intersect. That is by a complete separation of the grades by means of subways or viaducts. There has been agitation for legislation in a number of states to require all users of the highways to stop before crossing a railway track. A few states have enacted such laws. The general application of such a law covering all of the railroad crossings in any state leads to absurdities and unnecessary inconvenience."

Find Booze on Yacht.
NEW YORK, July 27.—Julian B. Baker, member of a yacht club of Sheepshead Bay said to be the brother of Newton B. Baker, former secretary of war, was today fined \$1000 after coast guards has boarded his motor boat yesterday and found six cases of whiskey.

Curb Market Will Offer Big Variety Produce Saturday

The curb market will open at the usual hour tomorrow. According to reports an excellent and varied supply of the best, fresh country produce will be on sale. The market will be maintained in Forbes and Morton's warehouse Tuesday and Saturday of each week until Aug. 7. It is understood that another convenient location has been obtained and there will be no interruption to the regular sale. Since there has been such a demand for the continuance of the market, it is regarded as likely that it will be operated throughout the season.

Announcement will be made within the next 10 days of the new location. It was stated today by those who are interested in making the project permanent.

Business Continues Good, Says Report

WASHINGTON, July 27.—Continued activity in wholesale and retail trading with corresponding heavy freight movement featured the commercial situation during June and the first half of July, according to a review issued by the federal reserve board. Production declined in June, the report said, but employment maintained the high level set in May, with wholesale prices registering further decreases.

Building materials led the list of commodities influenced by declining prices with a net out of 4 cent. The list comprising all basic commodities except house furnishings. Among farm products, wheat and sugar declining in July, corn and hides advanced.

SEATTLE GIVES GLAD HAND TO HARDING PARTY

SEATTLE, WASH., July 27.—With partisanship forgotten Seattle was today ready to welcome the home coming of the President and the first lady of the land, Mr. and Mrs. Warren G. Harding.

A crowded program for the president's reception has been perfected, and from the time the transport Henderson appeared in the harbor entrance this morning until the presidential party entrains late this afternoon one event is expected to follow another with clock-like precision.

The chief feature of the day will be the president's speech in the stadium of the university of Washington, at 4 o'clock this afternoon, when he will discuss the problems of Alaska. At 3:55 o'clock when the president and his party arrive at the stadium by automobiles the president's flag which has been transferred from the transport Henderson will be unfurled from the university flagstaff.

At the Seattle Press Club he said "Those of us who think we know a lot about newspapers in the making can learn some very simple fundamentals by going to Alaska. I found myself doffing my hat to the editor and publisher who so successfully publishing and maintaining a daily newspaper in a town of between 800 and 1200 population, with a circulation which cannot exceed 200 to 300."

He refrained from an analysis of the advertising as compared to the cost, but stated that the publication itself was of untold value to the thriving little city.

The naval transport Henderson carrying President Harding and his party returning from a tour of Alaska rammed the destroyer Belin in Puget sound 40 miles north of here, according to a wireless received from the Henderson. The message stated that both engine rooms of the Zelin were flooded. All on board have been taken safely off. The destroyer Nicholas at the time of the message was attempting to tow the Zelin into shallow water.

Mussolini Calls for Airplanes.
MILAN.—Balked recently in a desire to fly to Mount Etna because no airplane was available, Premier Mussolini sent a telegram to a government secretary at Rome saying "We must have enough airplanes by next year to hide the sun. We must fly! We will fly!"

Steel Workers to Get 12-Hour Day Shortly; Heads Busy on Plans

FRANCE ACCEPTS BRITISH POINTS IN NOTE TODAY

PARIS, July 27.—The French reply to the British note on reparations will be delivered to the British government at London tomorrow or Sunday. France, in her reply accepts some of the British suggestions and asks for further light as to the British view regarding other points of the note.

The reply also maintains the Franco-Belgian principles, that the passive resistance of the Germans must cease before any negotiations whatever with that country will be taken up.

The document is to be communicated to the British government only after the Belgian government has received and examined a copy of the reply. M. Heroy, French ambassador at Brussels, will advise the French ambassador in London to deliver copies to the British government as soon as the Belgians have studied the reply. Occupation of the Ruhr will continue until reparations assured. The district will only be evacuated in proportion to the payments made.

He Seeks to Repeal Georgia Dry Laws

ATLANTA, July 27.—Georgia's General assembly has on its calendar and in committee rooms a large number of measures attracting general interest throughout the country.

Chief among these is Arnold's measure to repeal the prohibition laws of the state, which would place the enforcement of the Volstead Act in Georgia entirely upon the federal government. This bill was reported adversely unanimously by the house temperance committee, but the author, the son of a former Philadelphia, Pa., jurist who is said to have declined a seat on the United States supreme court bench, has served notice that he intends to address the house on the subject for the purpose of disagreeing with the committee's verdict.

Following closely the action of New York in repealing its dry statutes and the discussion in other states, the action in Georgia was watched with interest. Even the author, however, has conceded that the measure has no chance of passage.

Talk on Sunday School.
HENDERSON, July 27.—D. W. Sims, general secretary of the North Carolina Sunday school association and Miss Flora Davis, assistant secretary, will be among the principal speakers at the annual convention of the Vance county Sunday school association to be held at Cary's Chapel church, four miles from Henderson, Aug. 2 and 3.

"UNDER TWO FLAGS," SUBJECT OF DR. HARTLEY'S FINAL SERMON

The Rev. Dr. John Hartley, will deliver the last of a series of mission sermons at St. Paul's Episcopal church tonight at 8 o'clock. He will preach on "Under Two Flags," a subject that will give the renown clergyman wide range of expression of his splendid abilities.

It is the theme that members of every other congregation in the city will be interested and they are cordially invited to attend. Dr. Hartley, is giving his time and carrying his extraordinary messages of Christianity to various sections without compensation. In view of this, it has been suggested that a volunteer offering of thanks be taken at the conclusion of his farewell sermon this evening.

NEW YORK, July 27.—At the conclusion of a length conference behind closed doors of heads of the United States Steel corporation and Judge E. H. Gary today decision had been reached as to when the 12-hour day would be put into effect in the various plants of the corporation.

So far as can be ascertained, it is the determination of officials of the corporation to put the revised working system into operation in early September, but whether that can be done, is a question that is yet to be worked out.

At the same time Eugene G. Grace, president of the Bethlehem Steel corporation, announced that his company was making progress in formulating plans for the discontinuance of the much-criticized 12-hour shift, and expected within a very short time to begin the actual re-arrangement of the working forces.

Chairman Gary declined to make any statement other than the conferences would be continued when the meeting with United States Steel officials adjourned late in the day.

It was thought likely that the matter would be considered tomorrow at a meeting of the directors of the American Iron and Steel Institute.

The chief problem involved, according to officials of the United States Steel corporation and of the independent companies, is that of obtaining the additional workers required in maintaining three shifts of eight hours instead of two of 12 as at present.

Hold Woman For Slaying Husband

BIRMINGHAM, Ala., 27.—The government formally took over jurisdiction from the state in the Rickner case at Anniston, late today when Mrs. Evelyn Sue Rickner, slayer of her husband Lieut. James C. Rickner, at Camp McClellan, near Anniston, was arrested on a federal warrant charging murder, according to advices received here at the offices of United States District Attorney C. B. Kennamer, of the Northern district of Alabama.

Mrs. Rickner was immediately arraigned before United States Commissioner J. P. Whiteside and remanded to the coroner at Anniston.

WIDOW OF SLAIN OFFICER IS PRESENTED WITH HOME

WILSON, July 27.—The widow of Policeman J. A. Sykes, who was shot to death several weeks ago when he attempted to arrest a negro, has been presented a house and lot by the people of Wilson. The lot was given to Mrs. Sykes by W. E. Smith, president of a local bank, and a fund with which to erect a home was contributed by hundreds of citizens. Mrs. Sykes is the mother of four little children.

Ford Would Poll Landslide, But Not Johnson, He Avows

LONG BRANCH, N. J., July 27.—Ambassador to England G. W. Harvey, today corrected statements regarding the presidential prospects for 1924 attributed to him in certain newspapers, to the effect that he predicted a landslide for Senator Hiram Johnson, if he obtained the presidential vote.

Harvey denied the statement, but added, that the only time that he had spoken of a "landslide" was with reference to Ford and not Johnson.

TOO MUCH GOLF ENERGY

The energy, but not the skill, which has helped him in many romantic roles must have been behind that golf stroke which has broken James K. Hackett's arm.

Such strokes, when they hit the ball, are the sort one talks about afterwards. When the ball is missed, as in this case, other people talk about them afterward.

HE IS "MISINFORMED"

Col. Charles M. Willoughby must have been much pleased by Samuel Gompers' letter to Secretary Hughes.

In that letter Gompers suggested "that although America frequently is treated to statements that economic, financial and agricultural conditions in Russia are much improved and that the Soviet Government is stable, there is a justifiable impression that such comments come from Americans who have returned from Russia to spread misinformation gathered during closely supervised tours."

Col. Willoughby returned last week after spending 18 months with the American Relief Administration. He declared:

The present government will not be overthrown. People who think otherwise are foolish.

Russia today is a leading factor in the economic and political situation of the world and the nations must recognize her as such.

You've got to hand it to the Bolsheviks. They are some efficient little supervisors if they could keep Col. Willoughby "misinformed" during 18 months.

SCRAPPING THE BATTLESHIP

The navy department is making plans for the scrapping of the battleships and other craft eliminated by the naval limitation treaty. France, the last of the signatory powers to ratify the agreement, has now taken favorable action, so that nothing stands in the way of the reduction of sea armaments.

Two of the old battleships, the Maine and the Missouri, both of which had seen twenty years of service, have already been sold to be scrapped by those who bought them. Taken all together, fifteen old battleships will be put out of existence.

years old, which are to be retained until the Colorado and the West Virginia, now under construction, are completed some time this fall.

In addition to these old vessels, seven new battleships are to be scrapped, the Washington, South Dakota, Indiana, Montana, Massachusetts, Iowa and North Carolina. With them must go four new battlecruisers, the Lexington, Constitution, Constellation and Saratoga.

This is the first time in the world's history that five of the greatest powers have entered into a contract to reduce their naval fighting forces, in the hope of making war less probable. Under this agreement, they will throw upon the junk pile property that cost them millions of dollars and these ships will not be replaced.

Ford followers seem to be making hay of the straw votes.

These are the days when a soft collar is a nuisance and a starched collar is soft.

Persons who fail to realize that a vacation is a duty they owe to themselves should read the summer resort advertisements.

Governor General Leonard Wood's interference, it is said, has provoked a complete disruption in the administration of Philippine affairs. See what the United States escaped by sending Leonard to the island territory.

Senator Smith, South Carolina, may have reason to regret his unjustified criticism of the Imperial Tobacco company before the tobacco season ends. His constituents are likely to tell him along with the co-operative association a few unpleasant truths.

After the usual objections officials of the Atlantic Coast Line assured the board of Aldermen that watchmen would be maintained at certain grade crossings here. Wonder what the alibi of the Norfolk-Southern will be.

Another popular indoor sport is threatened with extinction. A physician announces the discovery of a serum to do way with the measles.

Various local tobacco co-ops continue to pass resolutions declaring their faith and devotion to the association. That is not hurrying along the final settlement checks for last year's crop.

Senator Brookheart demands that the republican party show results, and seems to be looking right at Henry Cabot Lodge.

FIRE PREVENTION

The National Fire Protection association at its annual convention in Chicago recommended ways to reduce fire losses which appeal to the common sense of all of us.

On the question of damages for loss resulting to innocent persons from preventable fires it endorses a more general legal recognition of the common law principle of personal liability for damage resulting from fires due to carelessness or neglect, and the enactment of laws or ordinances fixing the cost of extinguishing preventable fires, upon citizens disregarding fire prevention orders.

This is strictly in accord with the law which allows damages to an injured party resulting from another's carelessness in operating an automobile, elevator, railroad train, street car, amusement park, mechanical equipment, etc.

Then why not some redress against the person who is careless with fire?

The association also urged municipalities to adopt the standard building code in order that fire-resisting construction may be encouraged.

Also that states adopt building and fire protection requirements for public and private hospitals, schools, asylums and the like, and that an official investigation into the causes of all fires be required.

Perhaps the wisest recommendation of all is that pleading for the education of the children and the public generally in careful habits regarding the use of fire.

trustee, one dated the 9th day of February, 1922, and recorded in book B-14, page 65 and the other dated 29th day of December, 1922, and recorded in book T-14, page 144, the undersigned will sell for cash, at public auction, at the court house in Greenville, on

Saturday, August 4th, 1923. The following described real estate: Situated in the county of Pitt and in the town of Greenville, described as follows: One certain lot on the east side of Clark St., beginning at T. E. Hookers corner, on said street and running 30 feet and six inches south to Cherry Johnson's corner; thence along her line 140 ft., east to a corner; thence parallel to Clark St., to T. E. Hooker's line 30 ft., and 6 inches with his line 140 ft. to the beginning on Clark St., being the same lot conveyed to Susan R. Turner by L. B. Garriss by deed recorded in book S-12, page 583, reference to which is hereby made for accurate description. Said land is sold to satisfy said mortgage.

This July 3rd, 1923. J. B. JAMES, Trustee.

NOTICE OF SUMMONS AND WARRANT OF ATTACHMENT

Real Heroine Is Alice Brady In Her New Picture

Star of "The Snow Bride" Pluckily Rescues Her Wounded Sweetheart.

Alice Brady in the Paramount Picture "The Snow Bride."

Alice Brady proves herself a real heroine in her latest Paramount starring vehicle, "The Snow Bride," which will be shown at White's theatre tonight.

As Annette Leroux, a French Canadian girl, Miss Brady is in love with Andre Porel, played by Maurice B. Flynn, the sheriff of the little village of La Paix. In a fight Indiana Charlie, a half-breed poacher of animals caught in white men's traps, Porel is wounded and left to die in the snow. Annette discovers him, but is confronted by the all-important problem of getting this bulk of a man back to town and safety.

Annette half drags, half carries Porel many miles through deep snow-drifts back to La Paix where she immediately summons a physician, has the sheriff's wound attended to and by her careful ministrations saves his life.

Later on in the production circumstantial evidence points an accusing hand at Annette as the murderer of her husband-to-be on their wedding eve. Sheriff Porel is forced to arrest her despite her claims of innocence. The girl is tried, convicted and sentenced to die by hanging while Porel stands by powerless yet calm in the thought that he has done his duty even if it did mean the greatest sacrifice that could be exacted of him.

The smashing climax that follows makes "The Snow Bride" one of the most novel and striking productions of the season.

Miss Brady is supported by a cast of stellar proportions. Besides Maurice B. Flynn, others are Mario Marjoni, Nick Thompson, Jack Baston, Stephen Gratton, W. M. Cavanaugh and Margaret Morgan.

CASH AND OTHER PRIZES FOR BOTH YOUNG AND OLD

In today's issue of The Reflector there appears a page carrying twelve advertisements in which is shown some article that is necessary to complete what is recognized as a model kitchen. Read the requirements governing this contest which are to be found at the top of the contest page. It is open to everyone who cares to become a contestant it will require but a few minutes of your time to win one of the five prizes offered. All responses must be sent to The Reflector office not later than Wednesday of next week, August 1. Get busy and win a prize.

ATTENTION MEMBERS OF AID SOCIETY OF IMMANUEL BAPTIST CHURCH.

BOARD OF TRUSTEES OF TEACHERS COLLEGE MEETS

The board of trustees of East Carolina Teachers College met in regular session at the college yesterday, and transacted much business leading toward a larger institution. Those in attendance were President Rob. H. Wright, State Superintendent A. T. Allen, Secretary Leon R. Meadows, and Messrs. F. C. Harding, of Greenville, J. B. Leigh, of Elizabeth City, A. B. Andrews, of Raleigh, Gray R. King, of Nashville, and J. R. Bonnerman, of Burgaw.

PERSIA WANTS DATA ON LAWS AFFECTING FISHING

RALEIGH, July 27.—At the request of the Persian minister at Washington, Secretary of State Charles E. Hughes has written to Governor Cameron Morrison asking for copies of available publications relating to the laws governing the catching of fish in the rivers and other waters of this state.

COMMUNITY SING, TEACHERS COLLEGE SUNDAY AFTERNOON

The Teachers College annual community sing will be held in the auditorium of the college Sunday afternoon at five o'clock. The new auditorium will accommodate more than a thousand people and it is expected that every seat will be taken on this occasion. Everybody is invited to come and join in the singing. Supt. J. H. Rose will be song leader and Prof. W. A. Potter will be accompanist.

TEACHERS COLLEGE STUDENTS TO PRESENT OPERETTA THIS EVENING

At eight thirty this evening the students of East Carolina Teachers College will present the operetta "Loe Pirates of Hawaii." The student have been coached by several members of the faculty and the dress rehearsal last night showed that every effort had been put forth to make the operetta a success. The costumes are attractive, and the charms and dances are good.

The public is cordially invited to attend the operetta this evening. There will be no admission charge.

Rebuilt River Adds Six Miles to Docks

DETROIT.—The River Rouge, site of the great blast furnaces of the Ford Motor Company, has been initiated to deep draft vessels. For years a lazy twisting stream, the river has been developed as a narrows of the Detroit river at the behest of the Ford interests.

To permit the great ore carriers of the lakes to bring their cargoes direct to the blast furnaces, the river has been reconstructed. Instead of the twisting stream of former years a new River Rouge has been created. From the mouth of the Detroit River to the Ford turning basin the stream is three miles long, almost two miles shorter than the old course. Its width at the mouth is 400 feet and the average width along the dock lines is 300 feet, with a bottom width of 200 feet. The depth at low water is 2 feet.

A new canal, 3,000 feet long, was cut through the entire subdivision of property, avoiding an "S" turn where the river joins the basin.

Probe Plot Against Harding, Daugherty

WASHINGTON, July 27.—Department of justice agents, it became known today, have made an investigation of a reported plot involving the safety of President Harding and Attorney General Daugherty. William J. Burns, chief of the Bureau of Investigation, said, however, the report had been proved unfounded and the inquiry had been dropped.

Hamlet Peach Show Attracts Big Crowds

HAMLET, July 27.—With the choicest of what is expected to be a \$2,000,000 crop on exhibition, the third annual Sandhill Peach Show opened here today. Two governors, Cameron Morrison of North Carolina and Thomas G. McLeod of South Carolina were invited to be present and address the assemblage, but because of other engagements neither will be able to attend.

With a large warehouse for the show instead of the tents formerly used and with a system of calling for the choicest displays rather than having them brought in, the show tomorrow is expected to outstrip its two predecessors both in size of display and in general arrangements. A large crowd is in attendance.

NOTICE—TRUSTEE'S SALE OF LAND.

By virtue of authority vested in the undersigned trustee by that certain deed of trust executed by Joseph David Fleming and Eva Fleming, his wife, bearing date April 27th, 1916, and recorded in Book R-11, page 70,

Situated in Pactolus Township, said county and state: Beginning at a red oak stump on south side of path Fleming and runs S. 3-35 E. 852 feet; thence S. 1-30 E. 1342 feet to a big cypress on ditch bank; thence N. 44-55 E. 455 feet; thence N. 86-40 E. 527 feet; thence N. 75-30 E. 800 feet; thence N. 66-25 E. 151 feet; thence N. 46 E. 56 feet to centre of lane, a corner with Lunsford Fleming in Davenport land; thence S. 58-55 E. 800 feet; thence S. 51-05 E. 200 feet; thence S. 46-50 E. 311 feet to big cypress on west side of ditch; thence S. 1-35 W. 385 feet; thence S. 21-35 E. 181 feet; thence S. 15-30 E. 300 feet; thence 10-30 E. 323 feet; thence S. 21 E. 358 feet; thence S. 26 W. 303 feet; thence S. 39-55 W. 106 feet to shell of an old gum stump; thence S. 55-55 W. 403 feet; thence S. 59 W. 342 feet; thence S. 59-35 W. 318 feet; thence S. 4-35 W. 320 feet; thence S. 11-11 W. 434 feet to a blown down pine on river bank and also a standing 'Y' on river bank; thence up the windings of Tar River to a big white oak tree on the bank thereof 87 feet from the brink of the bank; it being N. 10-30 E. therefrom; thence N. 32 W. 407 feet; thence N. 1-45 W. 135 feet; thence N. 2-30 E. 218 feet; thence N. 15 E. 301 feet; thence N. 6 E. 302 feet to a public path way between the lands of the said J. D. Fleming and J. F. Davenport, thence along said path as follows N. 0-25 E. 236 feet; thence N. 4-20 E. 362 feet; thence N. 6-20 E. 574 feet thence N. 6-30

E. 715 feet; thence N. 5-30 E. 1335 feet to a big sweet gum north of the crook of said path, it being a corner of the land herein described; thence N. 38-25 E. 304 feet; thence S. 85-35 E. 553 feet to the beginning. Containing 462 acres, and is known as the Joe Fleming Home Place and being the identical land conveyed by Mac D. Boyd and wife to Benjamin Fleming by deed dated December 11, 1874. The foregoing description is made from a survey and plat made of the above described land by W. C. Dresbach, C. E., dated April 1916.

The successful bidder will be required to deposit 10 per cent of his bid at the close of bidding to make good his bid, the balance to be paid on delivery of deed.

This July 6th, 1923.

N. O. WARREN & JOHN A. COKE, JR., Trustees. 11 11w 4wks F. M. Wooten, Atty.

ADMINISTRATOR'S NOTICE.

Having this day qualified as administrator on the estate of the late E. H. Owens of Falkland township, Pitt county, North Carolina, this is to notify all persons having claims against said estate to present them to the undersigned within twelve months from this date, or this notice will be pleaded in bar of their recovery.

All persons indebted to said estate will please make immediate payment.

This June 11th, 1923.

Mining Engineers Will Investigate Canada's Riches

NEW YORK.—Mining engineers from this and other countries will make their summer pilgrimage next month to the heart of Canada's mineral riches. The 128th meeting of the American Institute of Mining and Metallurgical Engineers, it is announced here, will be held August 20 to 31 in Ontario and Quebec.

With the co-operation of the Ministers of Mines of these two Provinces and of the members of the Canadian and American Institutes of Mining and Metallurgical Engineers, the vast mineral wealth of Canada will be placed on exhibition.

Petroleum and gas will be among the principal general subjects of the technical sessions, which are to be held in Montreal. The geology of Santa Elena oil fields, Ecuador, will be discussed by Joseph H. Sinclair of New York and Prof. Charles P. Berkley of Columbia University. Other papers will be presented by A. F. Meston of New York and Oliver U. Bradley of Muskogee, Okla.

"The average man of the street if asked what minerals of commercial value were found anywhere near New York," Secretary F. F. Sharpless of the Institute said, "would probably answer, 'coal and possibly some iron.'"

"It is scarcely realized by the average citizen that within 24 hours' ride from New York, just a short distance north of the Lakes, lie the deposits from which nearly all the nickel of the world comes from; then, on a

AMERICANS GIVEN IMPORTANT WORK ON REPARATIONS

PARIS.—While the United States government has limited its activities in the reparations embargo to an official observer, and, since the Versailles Treaty has watched the problem as it became more intricate day by day, there has been a little group of Americans here for the past four years who have taken anything but a minor part in the vast work of the reparations commission.

This unheralded little group constitutes the staff of accountants with the commission, and is headed by George P. Auld, formerly an officer of the United States navy, who holds the post of accountant general. He is responsible directly to the commission for the completeness and accuracy of all financial records having to do with the receipt and disbursement of money and commodities handed over by Germany.

The position of Mr. Auld with the commission is entirely individual, as he has not connection with the United States or any other government. His staff of about 20 Americans comes under the same classification.

little further to the northeast, the richest silver mines that the world has ever known are still producing; and then again a little further to the northwest we come to what promises to be one of the most interesting gold developments of the present century.

The task of the accountancy department is one of the most difficult of the commission's work. To strike its daily and monthly balances, it must deal with ships, livestock, abandoned war material, rolling-stock, coal and coak, dyestuffs, and a score of other commodities, as well as the actual cash payments of German gold marks.

U. S. Y. M. C. A. School Berlin Lures Refugees

BERLIN.—Forty-two hundred Russian refugees, scattered all over the face of the earth, are taking courses in the correspondence school which the American Young Men's Christian Association is conducting in Berlin.

A hotel porter in Cairo is studying bookkeeping. Three Russians who have sought refuge in Tunis are studying farm organization. Eight refugees in Turkey are taking courses in stenography. A former Russian officer who found work in France oiling steam engines is taking a course in steam engineering.

Down in the heart of China a Russian is taking a course in rad-

building. Six Russians in Cyprus are studying radio telegraphy. A Russian in Brazil is taking machine drawing.

Bulgaria has a larger number of correspondence students than any other country, 864 in all. Most of these are studying mathematics, but there are also many there who are taking courses in farm organization and bookkeeping, and 127 Russians in that country are taking electro-technics.

A DUTY EVERY MOTHER OWES HER CHILDREN

Children who are taught habits of thrift in early life will seldom be found among the failures later on.

Start your child on the right path with a saving account. You can start with a deposit of one dollar or more. We'll be glad to lend you a **BASEBALL SAVINGS BANK** to take home. It will surprise you, as well as the child, how rapidly the bank account grows just from the odd nickels and dimes the little bank will collect.

Greenville Banking & Trust Co.
 Greenville, N. C.

You can win a prize

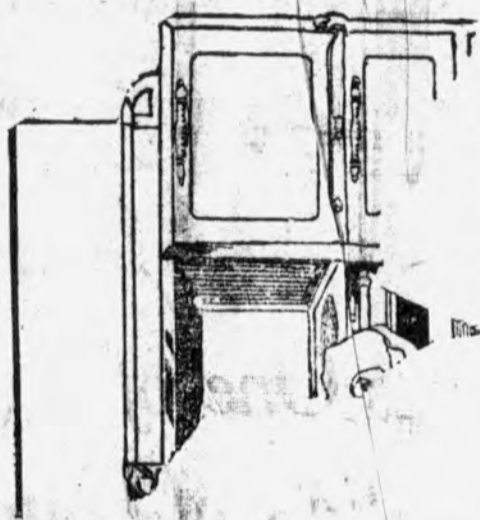

In each of the twelve advertisements below is an illustration—one of a housewife, while the remaining eleven depict various articles of food and household articles found in a model kitchen. Cut out these twelve illustrations and paste them neatly over the key pictures to the right, where they fit perfectly if the work is done correctly. The silhouette and scattered lines of the key picture only hint at the correct solution and should be entirely covered by the cutout. When completed a happy housewife in a model kitchen will be shown. The judges will consider neatness and artistic ability in making the awards. Send all answers to The Model Kitchen Contest Editor, care of this newspaper.

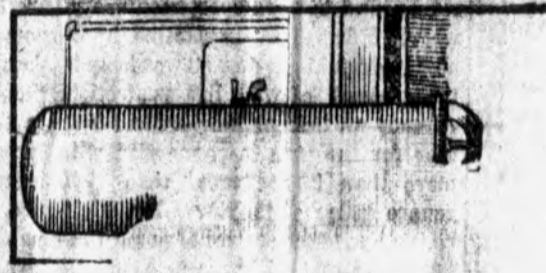

Cut out and arrange this model Kitchen

The Daily Reflector

Wild Birds of North Assured Protection For Winter Months

NEW ORLEANS.—Reinforced by a staff of seven wardens in his own employ, by the moral support of the state of Louisiana, to which he only recently conveyed the Rockefeller, Sage and Rainey-Mellhenny game preserves, and by good sportsmen everywhere, Edward Avery Mellhenny is now undertaking a new stewardship in the interest of wild life protection. Already an informal advisor and overseer for the state in connection with more than 500 squares than 500 square miles of territory, Mr. Mellhenny has taken control of some 100,000 acres of land in the heart of the Gulf Coast game regions.

Mr. Mellhenny has for some time owned 78,000 acres of ground, and only a few days ago obtained 22,000 acres more in the wild fowl feeding grounds. This land constitutes practically all that is left of the feeding grounds except the territory in the game preserves. Mr. Mellhenny, after several months required to clear up title to all the ground in question, has just announced his purchase.

The significance of Mr. Mellhenny's announcement is in the fact that, with his acquisition of the ground the millions of duck, geese and other game birds which come from the north to feed here in winter are assured of permanent protection against unscrupulous hunters and commercial exploitation. Already Mr. Mellhenny is being congratulated by sportsmen for his far-sighted program.

AMERICAN PRODUCTS FIND GROWING MARKET IN JAPAN

TOKIO.—The growing popularity in Japan of foreign shoes and clothing has opened up a new market for American goods and machinery. American representatives here are doing an increasing business. Some years ago Japanese society, following the lead of the Empress and ladies of the court, adopted European dress, but lately, although the court continues its use on state occasions, the women of Japan have returned largely to their picturesque kimono and obi as more becoming.

New State Corporations.

RALEIGH, July 27.—Secretary of State W. L. Everett has issued a charter to the Enfield Tobacco Company, Enfield, the concern to buy and sell leaf tobacco. The authorized capital is \$25,000.

The Janet Garment Company, of Charlotte, has been granted a charter of incorporation by Secretary of State W. L. Everett. The concern, which is to manufacture garments clothing and wearing apparel has an authorized capital of \$100,000.

American Towns Prone to Select Duplicate Names

WASHINGTON.—There is a very peculiar story connected with the naming of Peculiar, Missouri—which is also a peculiar name for a town. The federal government does not name towns and hamlets when they are born or feel the urge for a cognomen, but the post office department does regulate them to the extent of prohibiting duplicating of names within the same state. So when a newly formed community in Missouri suggested a certain name for its post office, the department informed the inhabitants there was already one by that name in their state.

Several other names were chosen by the residents and submitted, but always with the same result. Finally an exasperated official of the department in refusing the latest choice, wrote the city fathers among other things "that it was mighty peculiar they could not find a good name for their town." Whereupon he received the following reply: "Acting on your suggestion we select the name Peculiar." And so Peculiar is on the map of today.

Decreasing Birth Rate Vital Question, France

PARIS.—The peril of a greater, stronger Germany overwhelming a steadily weaker France by sheer force of numbers, looms increasingly large in the pessimism of French sociologists studying the shrinking birth-rate of their country.

The increase of 160,000 in population for 1920, small as it was, aroused the hope of the government and the public, for it was generally believed that the rush of war-tired soldiers and women, anxious to marry and establish homes, was the turning point. They have been disappointed. The net excess of births over deaths the following year was only 9,000 and the results of last year, still being tabulated, are rather dreaded by sociologists and economists.

President Millerand not long ago spoke of the birth rate question as "that of life itself for France." His efforts, he said, were devoted to furthering the creation of homes and the rearing of children.

Visits Family Before Trial.

SALISBURY, July 27.—Jack Collins, charged with the murder several weeks ago of Gus A. Adams, at the Chick Springs, S. C. government vocational school for veterans, is in the city visiting his wife and family. Collins, who was released by the South Carolina authorities in \$2,000 bond, will be tried at Greenville, S. C., the latter part of next month. Collins said he would plead self defense.

Music Is One of the Essentials of Home

The home ties around the family circle are drawn tighter when the proper instrument is used. It requires a

New Edison Phonograph

"The Phonograph with a Soul"

to create such a sense of living among the inmates of the home.

We have in our show rooms several types including the "Louis XIV," Edison's official laboratory model. Besides possessing musical qualities equalled by none, the superb finish makes it attractive as a part of the furnishings of the room.

The style shown above is one of the most popular of the long list of models, and at \$200.00 it is always a value.

REAL ESTATE BOOM STRIKES SUMMER RESORTS OF JAPAN

TOKIO.—The demand for homes at the various seaside and mountain resorts of Japan made famous by foreigners is ever on the increase, and those foreigners who invested wisely are reaping their harvest. Prices have gone up ten fold within the last few years and there seems no tendency to fall. At Karuzawa, the mountain resort to which missionaries from all over the Far East flock in summer, and where the Prince Regent will spend part of this season, very high prices are being paid for houses and land.

GREENVILLE Week-End Trips - to - NORFOLK \$5.30

Tickets will be sold each Friday and Saturday limited to midnight Tuesday following.

Round trip summer excursion tickets on sale daily to resorts in United States and Canada. Stop overs allowed.

Final Limit October 31. **ATLANTIC COAST LINE** Standard Railroad of the South See or phone J. H. Keel, local agent
