

As the time approaches for farmers to realize on their crops, a great deal is heard how they can invest surplus cash, if available, in improved farm machinery, thoroughbred stock and the like so as to get a better return on their investment in land and labor. In any movement to better farming conditions and farm life we are all in agreement. More power and success to it. But with references to investments, this is a good time for farmers to check on their school investment.

It cannot be denied that boys and girls need modern school houses together with every equipment and facility for education. They need good tools, good blackboards, plenty of books, shop and noon-lunch equipment and every other useful thing to work with. Most of all they need a GOOD TEACHER—one who has a good education as a foundation and special training for teaching added to that. Rural schools wherever possible should be operated on a nine

months period, too, and a teacher who has maturity, experience and native ability as well as education. A good school investment pays high return. Now is the time to consider this for next year's school. Estimate the returns in terms of better and happier boys and girls on the farms! In this connection it is proper to state that Pitt County is working to bring this condition about.

WEATHER.

Unsettled tonight and Thursday, local thundershowers probable.

Saw R. O. Garrett Fire Several Shots Into Body Of Pierce, Witness Says

CUMBERLAND, C. H., VA., Aug. 1.—Shad R. Wilson, an eye witness, was the first to testify today in the trial of Larkin C. Garrett, in connection with the murder of Rev. E. S. Pierce, former North Carolina preacher.

Wilson declared that his attention was attracted to the Pierce home by screams of women on the day that Pierce was shot to death. He found Larkin Garrett sitting on top of the minister, beating him in the face while R. O. Garrett, stood by with a pistol in his hand.

Wilson, further testified, he saw the latter fire several shots into Pierce's body before and after he fell to the ground. According to the witness he saw no other shots fired. Wilson is a carpenter and was working on a building close by when the tragedy occurred.

In telling his story he was positive that he did not see Pierce shoot R. O. Garrett in the back. At the first shot, he swore, the preacher began to fall and he did not see him fire a single shot. He also asserted that both the Garretts had pistols in their hands as they passed out of the gate when they left the Pierce home.

Testimony Corroborated.

John T. Godsey, second eye witness testified that the only shots that he saw fired were by R. O. Garrett. He said that after the preacher had been beaten by Larkin Garrett as he entered his home and returned with a pistol in one hand and a shotgun in the other, and that it was R. O. Garrett, who covered him as he emerged from the door. Weighing the shotgun from Pierce's hand with his left hand, he opened fire with the pistol with the aid in his right and, Godsey told to court that he would not swear that Pierce did not fire, but that if he did fire he did not see him. However, he was positive that R. O. Garrett fired the first shot.

Tells Vivid Story.

Many objections were made by the state to the line of questioning used by the defense. Most of the objections were sustained.

The most vivid story of the tragedy was that of Mrs. B. F. Hendricks, the first woman to take the stand. She recited as uninterrupted detail fight and the shooting and made the unqualified statement that R. O. Garrett fired the first shot, and that Pierce did not raise his hand.

Says Larkin Also Fired.

The first testimony to connect Larkin Garrett with the direct killing of Pierce was given this afternoon by the prosecution witness C. D. Diggs, who testified that Larkin Garrett also fired shots in the fusillade which killed the preacher.

Mr. and Mrs. A. E. Tucker and little sons of Danville, Va., spent Monday in Greenville with friends.

PITT LEGION MEMBERS ARE BOOSTING LAUGHINGHOUSE FOR COMMANDER STATE BODY

According members of Pitt County Post of the American Legion a number of encouraging replies have been received from scattered sections of the state in reply to letters sent out by them setting forth the military and qualifications of Dr. C. O. H. Laughinghouse, as a candidate for state commander of the organization.

Every state officer of the various posts and others have been advised that Greenville will present the name of a man at the state convention in Rocky Mount in September, who, in every way measures up to the high standard required to discharge the duties of the office.

Bandits Beat Teller And Loot Bank Of \$16,000, Escaped

BALTIMORE, Aug. 1.—Three bandits entered the state branch of the Baltimore Trust company located on Baltimore and Commerce streets shortly before opening hours this morning and beat into insensibility Russell Forsyth, paying teller, who was arranging his cash for the day's business.

The bandits escaped with \$16,000 in currency.

Concrete Work On Bethel-Greenville Road Is Completed

The last batch of concrete on the Greenville-Bethel highway was poured yesterday, it was learned today. However, the hard surfaced road will not be open to traffic until it has been allowed to settle, which it is believed, under favorable conditions, will be in the next two or three weeks.

This new paved road forms another important link in the system of Pitt county highways. Work is rapidly progressing on the bridges between here and Bethel. Until they are completed traffic will not be inconvenienced with long detours, as it will travel parallel with the improved road in crossing streams on old structures, it was stated.

The Pitt county highway department is making an enviable record for the efficient and rapid strides it is making in pushing the improved road program.

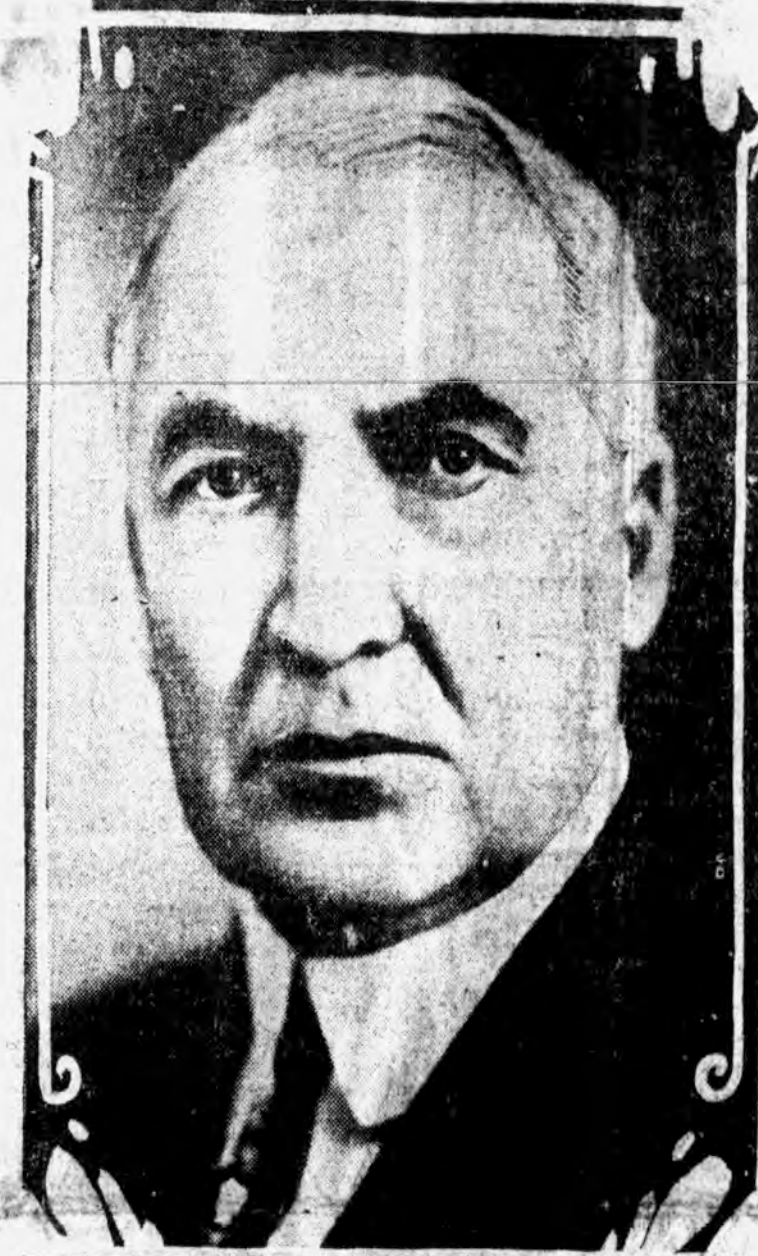

Wisconsin Officials Assault Girls, Charge

MADISON, WIS., Aug. 1.—Governor Blaine, is indignant today, following charges made by Senator Severson, that state officials had assaulted girls behind locked doors in the state offices. In a telegram to Severson this morning, he requested that the names and such officials be furnished him immediately in order that such men could be summarily relieved from state service.

Railroad Planned for Fujiyama.

TOKIO.—The famous sacred mountain of Japan, Fujiyama, may eventually be invaded by a railroad. Plans are on foot to build a line to its summit. If this enterprise is carried out the mountain climbers of Japan and many visitors to the country will be deprived of one of their great thrills and adventures.

PRESIDENT HARDING OUT OF DANGER, PHYSICIANS ASSERT

Warren G. Harding

SAN FRANCISCO, Presidential Headquarters, Palace Hotel, Aug. 1.—An official statement at 10:10 made by the five doctors who are in attendance at the bedside of President Harding, said that he is still considerably exhausted, but that he maintains his normal buoyancy of spirit and determination to fight his way back to normal good health.

General Sawyer, personal physician to the president said today that the crisis in the condition of the chief magistrate had been passed and that he was well on the road to recovery. He qualified the statement by adding that the only source of concern to be felt now was the possible development of unlooked for symptoms.

Catalogues Don't Get Business.

SOFIA, Bulgaria.—The American consul here believes Bulgaria offers an excellent market for manufactured articles of many kinds. He is Graham H. Kemper, and he says the value of the market is evidenced by the desire of foreigners to share in it. "American merchants," says Mr. Kemper, "should pursue a definite campaign here extending over several years, as do the British."

An encouraging sign physicians say is that the president breathes with less labor.

The president's cough has been dissipated, Dr. Sawyer said, adding that this also was a very favorable indication. The executive had not coughed for six hours and there had been no expectation of any consequence in that time, he went on.

The president, on awakening from his sleep, which lasted for about one hour, asked for nourishment and was given a glass of milk.

The president's diet at present consists of two egg-nogs a day, fruit juices to relieve thirst whenever desired, a glass of milk every two hours.

Austrians Moving to Berlin.

BERLIN.—Living is so much cheaper here today than in Vienna, due to the fact that the German mark is worth so much less than the Austrian crown that many Austrians are said to be moving to the German capital. Reports from Vienna describe long lines of people waiting day and night in front of the German consulate, seeking the proper endorsement on their passports to cross the frontier.

Three Dead; Three Seriously Hurt In Mystery Wreck

NASHVILLE, Tenn., Aug. 1.—Three dead, three others may die and three are seriously injured following one of the most mysterious train wrecks in the history of the Louisville & Nashville and the Nashville, Chattanooga & St. Louis railroads.

The wreck occurred in the railroad yards on the Nashville, Chattanooga & St. Louis system within the city limits last night. All the dead and injured are employees of the two roads.

The exact cause of smash has not been ascertained, but here is the version given out: A switching engine of a Louisville & Nashville hauling 24 loaded and 10 empty cars from Radnor to Nashville by some unexplained reason jumped the track, ploughed its way into an outbound train of 30 loaded cars on the Nashville, Chattanooga & St. Louis tracks. Both engines were demolished. Six cars were splintered and track-age for scores of yards torn up.

S. C. Tobacco Market Averages 4 to 6 Cents Higher Than Last Year

Child Started Fire With Oil, 3 Killed

HAGERSTOWN, MD., Aug. 1.—Fire caused by the explosion of an oil can in the hands of a small girl who was using it to start a fire in the kitchen stove resulted in the death of three and serious injury to three others today.

The tenement house known as the Old Arms House property, located near this city was entirely destroyed.

Plenty of Credit Provided to Care For Season's Crop

WASHINGTON, Aug. 1.—The present strength and liquidity of banks and the added facilities for agricultural financing assume a supply of credit adequate to meet this year's seasonal requirements, in the opinion of the Federal Reserve Board.

The boards view, made public today in a monthly business summary, emphasized, however, that credit cannot make a market where none exists. It added that the agricultural outlook "is conditioned by the world supply of leading farm products and the buying power of consumers, both domestic and foreign, during the coming year."

The summary called attention to the hand-to-mouth purchases by Europe and explained that such a situation necessitated financing the American products until the foreign demand increases.

Colored Orator to Talk in Farmville

FARMVILLE, Aug. 1.—The colored people of Farmville will stage a mass meeting in the graded school auditorium, Tuesday, Aug. 7, at 8:30 o'clock.

Charles Satchell Morris, Jr., Norfolk, Va., said to be the most eloquent negro orator in the United States, and brilliant advocate of good will between the races will deliver his famous speeches on "The Hour Has Come." He has recently returned from a record breaking tour of the far south, where he addressed more than 500,000 persons of both races, it is said.

Morris has proven the greatest drawing card that his race has produced. It is confidently expected that a record breaking crowd will greet him here.

A good musical program is being arranged for the occasion, including old plantation melodies, jubilees and spirituals.

Seats will be reserved for 200 white people who are invited to hear this colored speaker.

A. P. Hamlin is chairman of the local committee.

Will Not Curtail Gasoline Output

KANSAS CITY, MO., Aug. 1.—The Western Petroleum Refiners' association at a meeting here today, refused to take any action on the proposed curtailment of gasoline production. A resolution was adopted in which they endorsed statements made in a speech by E. W. Masland, president of the Marland Refining company, but declined to approve any remedy for existing conditions.

Special advices to The Reflector today by correspondents covering the opening day of the tobacco market in South Carolina show that while the tobaccos offered on the floors were the inferior grades, that prices ranged from eight to 50 cents, with probable average for the entire belt of 18 to 20 cents. This is a gain of from four to six cents above the average paid on the opening day of last season.

Some of the dispatches say:

FAIRMONT, N. C., Aug. 1.—South Carolina and border markets opened this morning. An analysis of the situation of several markets in this belt today, indicate a probable average of 20 cents or better. Common grades are 25 per cent higher, than last year and there is some advancedness in the better grades of primings. No fine tobaccos were offered on today's sales.

Export buying largest per cent with the Imperial buying the better grades.

WHITEVILLE, N. C., Aug. 1.—Two hundred thousand pounds of tobacco were sold on Lumberton, Chadbourne and Whiteville markets today. Prices range from six to 40 cents, with an average of around 17 cents. Medium and common tobacco higher than last year. Farmers are well pleased.

CONWAY, S. C., Aug. 1.—Offerings on today's market poor. Prices vary from eight to 50 cents with an average of about 18 cents. Farmers are apparently well satisfied with both prices and conditions.

Fayetteville Man Dies Reading Bible

FAYETTEVILLE, Aug. 1.—Sitting peacefully in his room reading his Bible, William M. McMillan, one of the oldest and best liked residents of Fayetteville, died today. Mr. McMillan's death occurred at his home on Old street, where he lived with his sister, Miss Anna McMillan.

He seemed as well as usual this morning when he ate breakfast with his sister.

Find Work For 519.

RALEIGH, Aug. 1.—Five hundred and nineteen persons were placed in jobs during the week ending July 28 through the employment service of the state department of labor and printing, commissioner M. L. Shipman announced. Of these eighty women and 439 men found employment today.

Child Using Hair Curlers Loses Life

THOMASVILLE, Aug. 1.—Prof. J. N. Hauss received a message from Lincolnton, his boyhood home, that his niece, Margaret Rhyme, daughter of Mr. and Mrs. George H. Rhyme, of that place, was burned on Monday evening by the use of hair curlers while in preparation for a birthday party, and from the effects of which she died the same evening.

ELECTRIC INSPECTORS TO MEET IN DURHAM

DURHAM, Aug. 1.—The first annual institute of electrical inspectors and contractors will be held in this city Monday, Aug. 6. Electrical inspectors and contractors from all parts of the state are expected to attend.

The institute will be conducted by the North Carolina Insurance Department.

NEGRO WOMEN START FIGHT IN RAVINE, RENEWED IN POLICE COURT, MAYOR DECIDES BOUT

Martha Grimes and Ernestine Davis colored, staged a middleweight championship battle in Skinner's ravine last night. There were numerous "ringside" spectators who were enjoying the battle when the police arrived and informed them that there was a law in the state preventing knockout fights. Since no referee was called to give a decision Mayor Clark was compelled to act in that capacity when the pair were arraigned before him today charged with assault and disorderly conduct. The battlers declined to say what provoked the fight or how many rounds it went, but apparently it was a "warm affair," according to the 11 spectator-witnesses who were on hand to testify against them. They were fined \$5 each and costs, which amounted to considerable because of the number of witness-fee collectors. After the decision had been awarded on points as a draw, one of the defendants proceeded to vent her furious wrath by an outburst of vile epithets directed against an opposing witness. She won't fight for 30 days at least. She will find plenty to do in the county home, where she will go for contempt of court.

Emanuel Whichard according to witness maintained a nuisance by permitting his auto horn and exhaust to explode to the annoyance of others and peace and tranquility of the neighborhood. There was an array of witnesses who testified that he broke their slumbers by claxon blasts of the horn while the machine was standing still. After he was requested to refrain from such "sport" he continued to do so, they said, in the face of causing annoyance to sick persons. He denied the charge in detail and explained he made no more noise than necessary to start his car. Whichard also had witnesses to confirm his statements. After a warning Mayor Clark fined him the cost. This was heavy in view of the several witnesses.

Z. P. Vandyske, was evidently in a hurry and did not realize he was exceeding the speed limit. He was fined \$10 and cost. O. H. Smith, for the same offense drew a \$10 fine and cost. Frank Lockamy, allowed his dog to run at large. He paid the cost. E. L. Fornes, charged with same offense also paid cost. F. M. Taft, was another who came under the same ban. He was assessed cost. F. S. Corbett failed to display state license on his machine. He was charged cost. Bob Parker, forgot to pay his board bill. The charge was dismissed upon payment of cost permitting his auto horn and exhaust

PITT COUNTY NEEDS PUBLICITY - BUT ON THE UNIT SYSTEM

There is reason to believe that every citizen of Pitt County will agree that it NEEDS PUBLICITY. Its vast resources and multiple advantages should be emblazoned to the world, and there should be no delay in formulating a plan having that purpose in view on a strictly COUNTY BASIS.

According to press dispatches evidently emanating from the headquarters of the Eastern Carolina Chamber of Commerce, a plan is under way by that organization to distribute what it calls an "Encyclopedia of North Carolina."

The promoters do not underestimate its value or their work when they say it "will be the biggest and best thing that has yet been PUT OVER in the South since advertising has been recognized as a necessity." The sponsors also are accredited with the statement of the "promise of official support of county officials," etc.

A press agent statement declares that "Pitt County is lined up." It is presumed that reference is made to the board of county commissioners. If that assertion is to be interpreted as meaning that the county board will appropriate public money to advance such a proposal, it will not be in harmony with the usual business like and conservative methods of the board. It is hardly believable that taxpayers would assent to such an expenditure of funds in such an INTANGIBLE PROMOTION enterprise. The Reflector does not pretend to know the attitude of the board on the matter, or whether it has ever been approached on the plan, but it does have every confidence in the county commissioners to protect and conserve the best interest of taxpayers.

Legal authorities hold in event the board even looked with favor on the suggestion, it is a question of law whether or not they have the vested right to spend county funds for such purposes.

It is argued that the only way that public money for advertising could be spent would be by referendum vote of the people of the county. It is known that the matter was informally broached to a few members of the board of aldermen, but it was given such rebuff, it is doubtful whether it will be formally brought to official attention.

The Reflector has consistently maintained that Pitt County needs OUTSIDE PUBLICITY. We believe we are only speaking the general sentiment of a large number of residents that we prefer an individual plan rather than be tied in with such a collective and complex method of publicity. After the compilation of the encyclopedia, according to our understanding, the volume is to be advertised in the metropolitan and periodical press of the country. As inquires are received assembled data will be forwarded to those seeking information concerning Eastern Carolina," then home seekers, investors and tourists, will naturally become interested in Eastern Carolina," says an official of the body behind the plan.

We have not a word to say against the proposal, if it can be worked out. But Pitt County is far more interested in exploiting its advantages as a unit than merely to be included in the proposed cycle of counties.

Claims that the Eastern Carolina organization is doing a splendid work are possibly all true. We trust they are, but so far as we can ascertain, there is no existing record of any benefit accruing to Pitt county directly attributable to that body. We are perfectly open minded on the matter and will willingly make proper correction, if in error.

Charlotte, and other cities of the south have found it pays to exploit their own communities independently. This is also true of cities of the middle west and the Pacific coast that are spending hundreds of thousands of dollars in unit publicity. Results have been obtained, as individuality is what attracts and that cannot be made possible between the covers of an encyclopedia or any other such descriptive matter. California has just completed a state publicity fund of \$600,000. That is for state publicity purposes alone. Communities raise their own funds. County officials and municipal governments were not asked to contribute, but the budgets were collected by popular subscription.

It would be unjust and unfair to say that the people of other communities or states are more progressive than our own people, once awakened. We hope for the project of the commercial organization every success, but so far as Pitt county is concerned, The Reflector will resist any effort on the part of the organization to divert county funds to its support, if such action is contemplated.

We will go as far as possible to see that Pitt county is properly exploited. The time is not far distant when we will have a budget to forward the campaign on a unit basis. That is the way that settlers, investors and others have been attracted to other sections of the country. It is plan that has proved out. It is not an experiment. That is the system that we propose to pursue.

So far as individual contributions and those of business interests of Pitt county to the encyclopedia goes that is entirely personal concern. And we trust that the commercial body will get some support from those sources. We wish it well, also the counties that might go in to it, but we reiterate on the face of its published purposes we are still of the mind that it is an INTANGIBLE VENTURE, not practical for county commissioners to invest public funds

MISSES MANNING PURCHASE BUSINESS OF I. F. LEE & COMPANY

The Misses Manning of this city, have purchased the I. F. Lee and Company millinery business and will in the future conduct same under the name of "Misses Manning Specialty Shop."

Mrs. Lee has been in the millinery business for the past nineteen years, during which time she has won many friends who wish her every success in what ever line of business she enters.

Misses Manning have been identified with the business interests of the city for the past several years. They are very popular with people throughout this city and county who will be interested to know that they have gone into the millinery business and who wish for them a successful future.

The new firm will continue to carry a complete line of hats, ready to wear and specialties.

FRANK WILSON TO CONDUCT SALE OF MANHATTAN SHIRTS

Frank Wilson, the King Clothier, will begin tomorrow and continuing one week, conduct a special sale of Manhattan shirts and pajamas. These popular pieces of wearing apparel will be sold at a great reduction during this week's sale.

The Manhattan shirt is recognized as the "world's best."

Says Europe Sending Worst Criminals Here and Home Burned

WASHINGTON, Aug. 1. — It ap-

pears as "if some governments are sending their social inadequates to the United States to avoid their custodial care," Mrs. Muriel Lynch Crichton, a special investigator sent by Secretary Davis, of the labor department, to study immigration details in Europe, reported today, to acting Secretary Edward J. Henning.

Recommending a "selective policy" of immigration control, Mrs. Crichton, added that she had heard of "young criminals receiving suspended sentences on condition that they emigrate to the United States."

Courthouse Plans For Wilson Accepted

WILSON, Aug. 1.—Plans submitted by a dozen or more architects over a large scope of country, for Wilson's proposed new court house, have been thoroughly gone over by the committee appointed by the county commissioners and those submitted by A. Bishop, of Petersburg, Va., were accepted. The building will be four stories high with jail on top floor. The building will be of Indiana sandstone marble and will face on Nash and Tarboro streets, on the present site, with semi-circle steps extending from both wings.

Seize Liquor Ships Off Carolina Coast

WASHINGTON, Aug. 1.—Coast Guard headquarters here were informed today that the British schooner Pessaquid, seized off Cape Hatteras, had on board only 1,700 cases of liquor, although for manifest called for 3,500 cases. The report on the seizure also said the commander of the vessel had been ashore.

'Foolish Wives' Gem of Bizarre Effects At Strand Today

"Foolish Wives," a remarkable picture, of life and adventure at Monte Carlo, will be shown at the Strand theatre today and Thursday. Reputed to have cost the Universal film company more than a million dollars, and to have taken Erich von Stro-

heim, its author, star and director, eighteen months to complete, it created a sensation among local photoplay goers; not because of its cost nor advance heralding, but because of its beauty and bigness.

With absolute accuracy as to size and detail, the principal buildings at Monte Carlo have been duplicated for the screen. For those who saw the picture last night, it is hard to believe that it was made on California. The dazzling architecture, the parks, the promenades, the throngs of pleasure seekers, the crowds at the gaming tables in the Casino—all give the feeling of the European resort. Even the Monacan street cars, policemen, firemen and hotel linen have been reproduced with absolute fidelity.

Against this background of realism,

von Stroheim has woven a plot of intrigue and adventure typical of the Continental gambling mecca. It concerns the affairs of a bogus Count who is both a debonair and polished Lothario and a complete villain. Aided by his accomplices, two Russian "princesses," intrigues the wife of an American diplomatic envoy to Monaco. The story of his villainy and its startling climax is pictured in forceful sequences and with skillful detail, yet in the most artistic settings ever conceived for the screen.

Talks on Osteopathy
By **Dr. F. Fitts**

CHOREA
(St. Vitus Dance)

Children are frequent sufferers from chorea. Irritation of nerve centers is a recognized cause. Osteopathy inhibits abnormal nerve activities, restores harmony between the muscular and nervous systems and thereby remove the muscular twitchings and spasms that characterize chorea.
