

Under the caption "Co-Ops Winning In Pitt County Suits," several papers recently carried articles evidently "pot" syndicated from pool headquarters. The story conveys an altogether different impression than the facts warrant. The intention is to confuse the injunction suits against members of the co-ops with the actions filed by Pitt farmers seeking to annul contracts with the association.

There is no analogy between the two legal actions whatever. In the instance of the injunction proceedings against Elk being a victory for the association, the best legal minds hold to the contrary, as the association was required to execute a bond for \$1000, other than their own to protect Elks against any loss that might be sustained by his tenants.

The injunction suits were filed in Wake county. The bills of complaint filed by more than 100 Pitt County farmers, charging the association and its agents with "fraud" and "false pretenses" in obtaining signatures to contracts are docketed to be heard by the superior court here this month. The first case is set for Aug. 20. The association cannot conceal the truth by unreliable publicity.

MRS. R. E. SELLERS BELOVED WOMAN OF CITY IS DEAD

Death Followed Sudden Attack Yesterday; Funeral Today

Mrs. R. E. Sellers, 34 years old, died at her home on Chestnut street yesterday afternoon from an attack of pneumonia of the lungs. She had been in poor health for some time but expired in four hours after she was taken suddenly ill.

Funeral services were held from her late home today. The Rev. Lee Sadler, Wilson and the Rev. V. P. Seoville, pastor of the Jarvis Memorial church officiated. Burial was in Cherry Hill cemetery. Mrs. Sellers was Mrs. Mary Johnson, daughter of the late Mr. and Mrs. Marion Johnson. She was reared in Pitt county and lived for years in Greenville. She is survived by one sister, Mrs. E. A. Moys, Sr., and three brothers, Walter, Louis and Milton Johnson, the latter her twin brother.

The following were honorary pallbearers: Members of her Sunday school class and D. M. Clark, F. J. Forbes, J. L. Hassell, Closs W. Hearne, Z. P. Vandyske, P. L. Clodfelter, W. L. Hall, H. E. Austin, W. B. Harris, W. H. Harris, Z. V. Murphy, A. D. Mathews, W. H. Woolard, Mr. Patterson, Jesse L. Willard, A. R. House, J. N. Hart, Hill Home, R. C. Flanagan. These were the active pallbearers: A. P. Hines, J. O. Duvall, W. J. Turnage, W. S. Dail, W. H. Dail, Hugh McGowan, J. D. Brazzell, W. E. Hooker.

Mrs. Sellers was one of the most beloved women Greenville and Pitt county has ever known. Her life was filled with unselfishness in the desire to serve others and to diffuse radiance and happiness. She was a consistent church worker and took a leading part in all of its activities. Endowed with an irresistible personality to know her was to love her. And this all of Greenville did and will always cherish and preserve her memory.

State Engineers In Session At Asheville

Asheville, Aug. 11.—Plea for a stronger State organization was made before the North Carolina Society of Engineers and affiliated assembly of the American association of Engineers in an address this morning by J. L. Becton, of Wilmington, president of the State society, at the opening of the summer convention of the organization.

In his address Mr. Becton outlined a resume of the activities of the directors and officers so far this year and in a general way pointed out that they have in mind for the good of the society during the remainder of the year.

SAYS DESTRUCTIVE CRITICISM AIDED IN HARDING'S DEATH

IOLA, KANSAS, Aug. 11.—Calling upon the people, to pledge themselves against destructive criticism which destroys the life of the executive, as well as wrecks the morale of the people, Frank R. Forrest, lawyer and prominent Democrat, in a Harding memorial address here said that such criticism was in a large measure responsible for the death of Warren G. Harding and other Presidents, and urged that the public should endeavor to give constructive thought.

A telegram is to be sent President Coolidge carrying the pledges of the Kansas oil and was belt against unjust criticism and an appeal goes out for a nation-wide response to the plea of the Iola meeting. Closing his address, Mr. Forrest said: "Criticism killed Lincoln, criticism killed Garfield, criticism killed McKinley and criticism contributed in a

Bergdol, Draft Dodger Kills One; Shoots Two In Seizure Attack

EBERBACH, Baden, Aug. 11.—G. C. Bergdol, American draft dodger evader, shot and killed one man and wounded two others in his room today, when an attempt was made to seize him. Two other men were awaiting outside his rooms in an automobile with an American shield were arrested. German authorities said one of them is an American army officer and the other a Russian tramp. Both Bergdol's assailants have been identified as Frenchmen. Bergdol said the men seized him and in breaking away drew his revolver and fired.

Orphans Class At Jarvis Memorial Church Sunday

Rev. V. P. Seoville, pastor, Jarvis Memorial church announces that the Orphans' Class for the Methodist orphanage, in Raleigh will have charge of the 11 o'clock service tomorrow morning. Those who have been present on similar former occasions will be delighted to know that they are returning. No special collection will be taken and the public is cordially invited.

There will be no evening service other than the devotional meeting of the league. The congregation will worship with other congregations of the city with the Free Will Baptists at the evening hour.

Men Taken From Homes and Whipped In Georgia County

MACON, GA., Aug. 11.—Police received reports today that four persons, all white, were kidnapped by unmasked men during last night taken to the country in automobile and whipped.

The names furnished by the police as victims of last night's kidnaping are: R. E. Bobo, proprietor of a small grocery store; Ollie M. Perry under indictment in connection with alleged illicit liquor traffic; Gu Roberts, said to have been a friend of Perry's, and J. B. Goodyear.

The whippings of last night followed closely on the heels of a chain of other whippings that attracted national-wide attention because of the prominence of the victims. These included Dr. Eugene Scribner, for mercy of Boston, Mass.; Dr. R. N. Mills, Lynwood L. Bright and others. In the Bright case Mrs. Frederick Pace, of New York, also was kidnapped, but she was not whipped.

Says Albania Is Quiet. TIRANA.—W. F. Stirling, official adviser to the Albanian government who has just completed a tour of the whole country, says the reports of insurrection and fighting in Albania are pure inventions, and that the country was never more tranquil.

Who Will Be Republican Nominee to Succeed W. G. Harding?

Above: Charles E. Hughes, Leonard Wood, Frank O. Lowden, and Robert M. La Follette. Below: Calvin Coolidge, Hiram Johnson, and Herbert Hoover.

By virtue of his office President Calvin Coolidge become a likely candidate for the Republican nomination in 1924, which politicians agree would have been given to President Harding if he had lived.

It is likely that Senator Hiram Johnson, of California; Senator Robert M. La Follette, former Governor of Illinois; Secretary of State Charles Evans Hughes, Governor of

Illinois; Secretary of State Charles Evans Hughes, Governor of Ohio Leonard Wood, of the Philippines, and Secretary Herbert Hoover will all be boomed by their followers for the honor of leading the party in the 1924 campaign.

Cuno Regime Said To Be Tumbling, Confidence Absent

BERLIN, Aug. 11.—The early retirement of Chancellor Cuno and his ministry seems foreshadowed in consequence of the decision of the United Socialists to support the "no confidence" motion introduced by the Communists, which will come up for a vote in the Reichstag on Monday. Although the United Socialists originally concluded that they would abstain from voting when the issue came up, the internal situation is fast drifting to a point where the Socialists face the necessity of saving their political prestige with the workers in order to prevent the workers from deserting to the Communists.

Negro Accused Of Killing Man Is Held

MARSHVILLE, Aug. 11.—A crowd of about a hundred men met here from Aberdeen yesterday to take a look at the negro giving his name as Reuben Johnson, alias Henry Smith, who shot and killed Clayton Burch at his home in Marshville last Friday night.

Johnson made his get-away and was arrested early this morning in a negro house about two miles from Aberdeen by Sheriff Clifford Fowler, who has been on the negro's trail since the crime was committed. Johnson was taken off the train here and identified by a number of white and colored people who know him while he was working on the water and sewer lines before killing Burch. He made a full confession and was carried to Monroe and landed in jail.

Tomb of Harding Will Be Guarded By 'Regulars' 6 Mths.

MARION, O., Aug. 11.—For six months the vault in which Warren G. Harding is sleeping his last sleep will be guarded by a detail of 30 United States army "regulars" from Fort Hayes, Columbus, TH. "regulars" will take up the death watch next Monday. Until then the tomb will be guarded by Ohio National guard troops.

MAN WHO SENTENCED HIMSELF IN POLICE COURT UP AGAIN, HE DRAWS ROAD TERM THIS TIME

Drunk and disorderly twice within a day is hitting a new record but that is what Will Baker was charged with when he appeared in Mayor Clark's court this morning. Ten days ago Baker, because of having maintained a firm seat on the water wagon for a year, when he was up charged with being drunk was permitted to sentence himself. He thought \$10 and costs would suit the case. The Mayor concurred with the admonition that he better reserve another seat on the same old wagon, but he did not. His pleadings and promises were unavailing, the law is inexorable and the court was not swayed by his supplication. In consequence, Baker will spend the next 30 days helping to improve the county highways.

Arthur Tyson, colored, apparent occupation is dodging work. He was reminded of his indolence when he answered a charge of vagrancy. "Thirty days on the county road, unless you find a job and stay with it," was the court's decision. Sambo Pey-

ton has a companion—a long eared, braying mule. They are inseparable except when Sam leaves the animal to ramble at large. Sambo was told that he would have to pay the cost for allowing his sidekick in business to walk around unattended.

Praising the work of the late Mr. J. G. Bowling, who had devoted untiring effort and time in the eradication of mosquitoes and other work that had to do with the general improvement of the public health of Greenville, Mayor Clark invited attention today that the work organized and successfully conducted by Mr. Bowling was now being conducted through the police department. He requests that all citizens co-operate in the work of inspection of premises and see that breeding places of the pests are removed.

Mr. Clark also emphasized that removing weeds from premises and vacant lots of the city by occupants and owners should not be neglected.

Secretary Christian Resigns to Enter Private Business Raleigh Legion Goes Uninstructed For State Commander

MARION, O., Aug. 11.—George B. Christian, secretary to Warren G. Harding as United States Senator and President, announced that he had submitted his resignation as executive secretary to President Coolidge.

Mr. Christian made his announcement soon after he had returned from the final services for his dead chief. "I entered public life with Warren G. Harding and I leave it now that he has been called away," the announcement said. "For nearly nine years I worked beside him and my present sorrow is somewhat assuaged by the feeling of satisfaction at having been permitted to serve a great President, a most humane and considerate chief, and the finest friend I have ever been given a man to have. I left at Washington my resignation for the acceptance of President Coolidge, with a tender of any services I may be able to render him and any assistance I can give his secretary. It is my expectation to enter private business just as soon as I may be

able to complete my arrangements there."

Threatened outbreak of factionalism in the Raleigh Post of the American Legion over the selection of delegates to the State convention to be held in Rocky Mount next month was avoided last night when a motion to instruct the delegation to vote as a unit for either Col. W. C. Rodman or Dr. Charles O'H. Laughinghouse for State commander was defeated.

The delegation goes instructed to cast its vote as a unit, but uninstructed as to the choice, among the two leading candidates to succeed Commander J. A. Lockhart. The delegates named were Capt. A. L. Fletcher, Cal. K. Burgess, Oliver Smith, Frank Capps and Josephus Daniels, Jr., commander of the local post. Alternates named were Hubert Williams, Paul Hulfish, Dan Terry, John H. Boushall and Capt. C. J. Benjamin.

Charleston Primary Centers In Dispute Between Factions

CHARLESTON, S. C., Aug. 11.—Representative W. Turner Logan, chairman of the executive committee has refused to turn over to the sheriff the keys to Hibernian hall where the ballots of Tuesday's election are locked until the conference is held with other members of the committee who did not attend the meeting of the Stoney faction last night, when it was declared that Stoney was elected over Grace, in the mayoralty race.

Acting under orders of the sheriff of this county the military guard broke the seals of Tuesday's election and forced entrance into a room containing the boxes and other data. It is charged that the boxes were carried to the jail where the sheriff took charge of them.

Auto Bus Skids Into Concrete Mixer; Six Are Dead

NYACK, N. Y., Aug. 11.—Six women and girls were killed so far from burns received when a bus carrying 60 passengers of the Christian Herald skidded into a concrete mixer in such a way that it snapped off a boiler cock and released a stream of scalding steam, which poured over the women. The last victim to succumb was Miss Louise Art, 30, of Long Island City, New York, who died in a hospital here tonight.

Three more of the women were said late tonight to be in a serious condition, and many others were suffering from painful burns.

Livestock Scarce At Packing Centers Now

CHICAGO, Aug. 11.—Unusual scarcity of finished beef cattle drove the price to a new top of \$12.45, a record for the year, according to the weekly trade review issued here today by Armour and Company.

Pork trade, has been under a similar condition, the review stated, but hogs of extremely poor quality are arriving in large numbers, most of them being too inferior to tell what they are worth.

"It seems as though producers were simply sweeping their farms and sending the litter to market," the company stated. "The packer is hard put to know what to pay for such animals and what to do with them after he gets them."

U. S. Seeking Safety From Dust Explosions

WASHINGTON.—Development of a method of testing the amount of explosive dusts in suspension in the air at commercial plants, with the aim of reducing the number of disastrous explosions, is under way by engineers of the bureau of Chemistry of the department of agriculture which expects shortly to announce the perfection of a successful testing instrument. Such a device, it is said, would result in the saving annually of many lives and an untold amount of property.

HARDING WAS TRUE KIWANIAN AT HEART, J. B. JAMES, SAID AT CLUB MEMORIAL SERVICE

Characterizing the late President Harding as a true Kiwanian at heart, J. B. James, paid an eloquent tribute to the life character of the dead chief in a memorial service held in his honor at a meeting of the Kiwanis Club last night. He mentioned that he had received a letter showing that Mr. Harding was a charter member of the international organization, and maintained an active membership in his local club at Marion, O. His life, as an exemplary citizen, he emphasized, had proved one of the great bulwarks and inspirations of his home unit. The speaker stressed that Mr. Harding interpreted and lived the literal significance

BODY OF HARDING WITH PLAIN RITES PLACED IN VAULT

President and High Officials Pay Final Homage; Guard at Tomb

MARION, O., Aug. 11.—Marion after her hours of sorrow is returning today to its accustomed ways. Gone from the streets are the silent crowds that steamed into the town yesterday to pay last respects to the late Warren G. Harding, gentleman, and unassuming newspaper editor who had been president of the United States. The only physical suggestion of the historical event of mourning is the draped buildings and the military patrol in front of the vault where the body reposes in everlasting sleep.

In the near future a mausoleum will be erected to receive the body. It will be erected on the top of an Indian mound above where his mother is buried and there the American people will have another shrine.

Marion the home of a president has ended and another small town Massachusetts town—Northampton—the home of President Calvin Coolidge will take the place of Marion in the public eye.

Coolidge Deep in Work

WASHINGTON, Aug. 11.—President Coolidge returned today to the executive offices from Marion. The first question to confront the new president is the calling of an extra session of congress. Some of those who are urging a special session have placed their views before the president. Those who are opposed to the proposal have also been heard. So far as can be ascertained President Coolidge has given no indication as to what his decision will be. Those for immediate action for legislation point out that it is vital to help the farmer market his crop and settle the coal question that is growing more troublesome.

On the other hand the opposition argue that nothing will be gained by an extra session at this time. Before Coolidge went to Marion Senator Shipstead, Minnesota, told him that congress should be convened, but on the same day he was advised by John M. Nelson, Wisconsin, member of the house progressive block there was no necessity for hurried legislation. Others expressed different views.

Mrs. Harding In Capital. WASHINGTON, Aug. 11.—On the same train that bore her husband's body from San Francisco, Mrs. Harding returned to Washington to pack her belongings at the White House and to arrange her final departure. Mrs. Harding called into her state

HENRY BLOWS OUT

Henry Ford has achieved another distinction. He recently celebrated his sixtieth birthday and attained renown as the world's highest paid man per minute, and he is fairly well known as the maker of the commonest American joke material.

Ford in an interview admits that he has no political sense and declares that to place him in the White House would be about as sensible as putting the President of the United States in charge of the Ford research laboratory.

However, Ford does not say that there may not come a time when he may want to be President. Just at present, things are not happening fast enough in politics to suit him.

It will be a hard blow to those free and easy admirers who had divined that the salvation of the country and their own financial welfare lay in the election of Ford to the Presidential chair.

SUNSHINE AND SHADOW

There are two sorts of readings; one is from cold and immovable types; the other, from the warm and changing human types that are the book of life.

It is the fashion to criticize, and criticism in the modern acceptance of the world means destructive fault-finding. If all that is said by one element in this country at the present time about other elements is even approximately true, we are headed for doom.

The irreconcilables profess to think that the advocates of the League of Nations are preparing to plan to deliver America into slavery to Europe and to international financial interests; the Ku Klux Klan asserts that the negroes are striving for dominion over the white race; farmers of the upper Mississippi Basin are convinced that New York banking interests manipulated the Federal Reserve Board to ruin the farmer and to enable the magnates to idle in country homes; the banker thinks the North Dakota farmer is a vicious character who engages in sabotage and syndicalism out of some motive difficult to distinguish from sheer malice.

It looks pretty bad for this side of the world. Job and Jeremiah combined could not express half the lamentations that apparently should be arising from the people.

But somehow the people are not lamenting. Nearly every day we read of somebody risking his life to save some other life; vast sums are being given and expended daily on works of unstinted benevolence by persons of all other sorts.

There is so much vitriolic discussion that we have little time for such thought, but some day, perhaps, it may occur to the country that it could not possibly consist of so many deliberately destructive groups as it thinks exists here and at the same time hold so many companionable cooperating individuals as it obviously possesses.

Beauty in the estimation of many women, lies between two ties, athletics and cosmetics.

Golf playing out to be invaluable as a means of training some young persons for swinging heavy sledges, and adding pep to some of the older ones.

The European corn borer has arrived. This is an immigrant whose quota we may well restrict to zero.

Possibly the increasing popularity of divorce, as indicated by records, is merely evidence that the business is profitable.

Newest Paris fashions are said to include billowing skirts that sweep the floor. That ought to help the cloth manufacturers measurably.

Beauty specialists declare that the modern woman has surpassed the Greek ideal of physical perfection. That's nothing, a good many exhibits they offer in support of the assertion, are like the statues of the Greeks, artificial!

Henry Ford says things don't happen fast enough in politics. Sometimes they don't happen at all.

A critic suggests that bumpers to keep dancers apart are vulgar. So are the dancers who need to wear them.

One great objection to the present heated weather is the obvious difficulty which some men seem to have in concealing the hip pocket bulge in a summer suit. Some are enclosing the "beverage" just inside the shirt.

The biggest jam in the history of Ellis Island would seem to indicate that Bolshevik denunciations of the United States don't have much influence in proletarian circles abroad.

Films Depict Vastness German Reparations. BERLIN.—Germany's gold reparations payments to date, in 100-mark paper notes, would encircle the earth 25 times, according to motion-picture propaganda which is being used in the Berlin cinema houses. A 100-mark note is 16 centimeters long, or about 6.3 inches. To make the point as realistic as possible, there is flashed on the screen a picture of a common metal globe; such as is used in the geography classes of American schools, spinning rapidly about as a long string of these notes wrap round and round it. It is the last scene in a serial picture of three parts which depicts by numerous illustrations the vastness of Germany's suffering as a result of the Versailles treaty. The audiences sit almost breathless as reel after reel shows how much territory, shipping, livestock, coal, money, and material have had to be given up by the Fatherland.

"Souls For Sale"
All Star Cast At White's Monday

Low Cody & Eleanor Boardman
in "SOULS FOR SALE"
A Goldwyn Picture

Rupert Hughes and the Goldwyn casting department were not consciously trying to write a Who's Who in Screenland when they selected the players for Mr. Hughes' latest picture "Souls for Sale," which will be the attraction at White's theatre Monday but they came very near doing it.

The cast sheet of this story of the film colony in Hollywood might easily be mistaken for a directory of the colony.

There's Eleanor Boardman in the leading role, that of Remember Steddon, the daughter of a minister, who fell into a motion picture career. Miss Boardman a year ago was unknown on the silver sheet, but so well did she acquit herself in Mr. Hughes' previous picture "Gimme," and then in Marshall Neilan's "Strangers Banquet" and Hugo Ballin's "Vanity Fair" that Goldwyn gave her a long term contract and awarded her the lead in "Souls for Sale."

Richard Dix, who distinguished himself in "The Christian," and who has appeared in such big Goldwyn productions as "Dangerous Curve Ahead," "Poverty of Riches," "Yellow Men and Gold," etc., has the role of Claymore, the motion picture director, and again gives a most excellent account of himself.

Mae Busch, also a member of "The Christian" cast who made a new reputation for herself by her acting in that film, appears as Robina Teele, screen leading lady. Miss Busch was recently given a long-term contract by Goldwyn and is now a member of its permanent stock company.

Barbara La Marr was especially engaged for the role of the film vampire, Ieva LaMare. She has been seen in many important productions of late, "The Prisoner of Zenda," "Trifling Women," "Quincy Adams Sawyer" and "Poor Men's Wives."

This picture, which created such a furore in the large centers at prices ranging from 75 cents to \$1.50 will be shown here at the remarkably low admission charge of 25 and 35 cents.

Lawyers Top List As Skyscraper Tenants
 CHICAGO.—Twenty percent of the tenants in American skyscrapers are lawyers, according to a survey made

for the National Association of Building Owners and Managers by W. R. Ballard of Boston, Mass.

The survey covers typical tenantry of 72 skyscrapers, and is said to be the first one of its kind ever made. Of the total of 3,733 tenants canvassed 833 were found to be lawyers. After lawyers come investment houses with 370; and real estate is a close third with 352 tenants. The survey will be used in aiding prospective builders to determine the proper way to lay out floor space.

Baseball To Soothe Radicals of Yucatan

WASHINGTON.—Mexican property owners in the Yucatan district are now organizing to oppose the increase of socialistic tendencies in the population there by instituting baseball teams. The idea is said to be that of giving the youths of the province some ideas about play and physical self-development.

As a first move, according to reports to the United States commerce department, the Socialist Resistance League, which is the organization promoting the effort, has bought 250 complete baseball outfits from the United States.

Returns just issued show that there are 2,562 Britishers resident in Japan and 2,549 Americans. There has also been an increase in the number of Russians, composed largely of political refugees.

There are just under 30,000 foreigners resident in the islands, of whom nearly 20,000 are Chinese.

Census Reveals Growth of American Colony In Japan

TOKIO.—Britishers, who formerly had the largest foreign colony in Japan with the exception of the Chinese, now are being given a close run by the Americans.

There are just under 30,000 foreigners resident in the islands, of whom nearly 20,000 are Chinese.

Born—On Saturday, August 11, to Mr. and Mrs. Hicks Corey, a son.

MAY-JAMES.

Beautiful in its simplicity and of interest to many relatives and friends was the wedding of Miss Rillie James and Alex May which took place Saturday at the home of the bride's father, B. W. James near here. The home was beautifully decorated throughout, green and white being the predominating colors. The improvised altar before which the vows were spoken was formed with ferns and other potted plants. Rev. L. L. Smith, the bride's pastor officiated using the impressive ring ceremony.

The bride wore a very becoming dress of navy blue, satin crepe, with gray accessories and carried bride's roses and valley lilies.

Little Miss Lila James Wynne acted as ring bearer and wore a dress of white, satin.

They left immediately after the ceremony by motor for Ocean View and from there will visit several northern cities.

Mrs. May is the youngest daughter of Mr. and Mrs. B. W. James and very popular with the younger set. Mr. May is the youngest son of Mr. and Mrs. A. F. May, of Spring Hope and is a very promising young man. He is connected with the cotton buyers association of Littleton at which place they will make their home during the cotton season.

Sweden Questions

Import of League In World Affairs

STOCKHOLM.—The Swedish government has just published its reply to the inquiry circulated by the General Secretary of the League of Nations as to whether the various members of the league favored a special pact for general reciprocal guarantees, stating that, in its present form, and under present conditions, the government cannot endorse the proposal.
 The Swedish reply says that as long as the United States, Germany and Russia are not members of the league it cannot be looked upon as having a universal character. Although the league, has gained in power and authority during its three years of operation, it cannot yet be considered strong enough to deal effectively with the larger international problems which are at present menacing the peace of the world, and Sweden thinks that the guarantee system proposed

would be of little value without the powerful authority that might come from universality of membership.

Scientists Caution Against Deadly Gas

WASHINGTON.—That hydrogen sulphide, a gas often found in and about industrial plants, is extremely poisonous, although not heretofore recognized as such, is disclosed by the Bureau of Mines after a series of tests on men and animals. The investigation showed that acute poisoning can be produced by low concentrations of this gas and may result in respiratory paralysis followed by heart failure and death.

British Expert Suggests Limit on Air Armament

LONDON.—Major-General Sir Frederick Maurice, who was chief military operations for Great Britain during the war, declares in an article on the increase in the air forces of France and Britain that "it is high time the question of limitation of armaments is taken up seriously." He says that the British Government's recent decision to nearly double England's present air equipment meant a return to competition in armaments and that such competition is not likely to lead to improved relations between the two countries.

 room all the members of the party who made the Alaskan trip and thanked each one for remaining with her until the end. She is still apparently bearing up courageously after yesterday's ordeal in Marion. On her arrival she was driven to the White House, where it was said that only a few days would be required for her to finish closing her affairs there and leave the mansion that has been her home since 1921.
 Mrs. Coolidge was at the White House to receive her. The first lady of the land insisted that Mrs. Harding remain as long as she desired.

New Process Increases Yield of Motor Fuel

DETROIT.—Processes to increase fivefold the amount of motor fuel produced from each ton of coal will be put into effect shortly at the River Rouge plant of the Ford Motor Company here. This announcement is made by Wallace Campbell, vice-president of the Ford Motor Company of Canada in connection with the starting of work on a similar plant for distilling benzol from coal, to be located at Ford, Ontario.

Under the new plan low temperature distillation will replace the present high temperature process. Present methods give 2.2 gallons of benzol, 7,000 feet of gas 8 gallons of tar and 30 compounds of sulphate ammonia from each ton of coal, leaving a residue of 1,140 pounds of coke. Under the new process, as explained by Mr. Campbell, Ford engineers will obtain 10 gallons of benzol, 4,000 feet of gas, 20 gallons of tar, 3 gallons of creosote and there will be a residue of 1,500 pounds of coke. Creosote is not obtained under the present method of distillation.
