

The world, its governments, its people acquired the spending habit during the war to an extent not merely unprecedented, but absolutely alarming.

No habit is so easy to form, none so hard to break, as that of reckless spending. On the other hand, none is more certain to security and happiness than the habit of THRIFT, OF SAVING, of careful management by living within incomes.

Now that our busy season is near at hand, the time is appropriate to begin the thrift and saving habit. If you have debts pay them or reduce them as rapidly as you can.

COOLIDGE TAKES UP DUTIES IN OFFICES AT THE WHITE HOUSE

Will Maintain Home In Hotel Until Departure Mrs. Harding

WASHINGTON, Aug. 13.—President Coolidge took up his official duties for the first time today in the executive offices of the White House.

When Coolidge arrived he warmly greeted Sergeant W. L. Dalrymple, for years in charge of the police force, stationed there.

The first visitor received by the President was G. L. Stearns, Boston merchant, and intimate friend who has been his constant companion and said by some to be his adviser since Coolidge succeeded to the presidency.

France Says British Note Merely Plea For German Cause

PARIS, Aug. 13.—The British note on the reparations problem is regarded in official foreign circles here as a frank espousal of the German cause.

LONDON, Aug. 13.—Lord Curzon, secretary for foreign affairs, in an elaborate note dealing with all the manifold aspects of the problem, sets forth that the British government regards the occupation of the Ruhr as illegal and unauthorized by the Versailles Treaty.

Belhaven Woman Attempts Suicide

According to word from Washington today Mrs. C. B. Jordan, attempted suicide in the bedroom of her home at Belhaven yesterday.

It is understood that Mrs. Jordan accompanied by husband and Thomas Long went for drive yesterday afternoon. On their return Mrs. Jordan excused herself, leaving Jordan and Long on the front porch.

GOOD BUSINESS PREDICTED FOR EVERY BRANCH

NEW YORK, Aug. 13.—Although holidays at home and abroad made last week's markets less active and significant than a usually the case in mid-summer, most commentators on financial and commercial activities considered that the undertone was somewhat better.

Wheat prices also benefited during the past week by a bullish government crop estimate. As of August 1, the department of agriculture estimates the total yield of both winter and spring wheat at 793,000,000 bushels, a figure which represents a decrease of 28,000,000 bushels as compared with the estimate of the month before and compares with private estimates in the neighborhood of 815,000,000 bushels.

Absence of a break in the drought in the southwest and buying on further bullish reflections on the last government crop estimate produced a sharp rally in cotton prices early in the week.

He Keeps Silent To Think of Her Rival, Wife Says

NEW YORK, Aug. 13.—Dr. Karl Alfred Helgeson, an insurance physician, spent his evenings playing solitaire, because in solitude and in solitude he could devote his thoughts to another woman, his wife, Mrs. Florence Helgeson, told supreme court justice, Lydon in affidavits filed today for alimony and counsel fee. She seeks a separation.

"He played the game for hours every night because it requires no thinking, not concentration and he could keep his thoughts on the young lady with whom he was infatuated," Mrs. Helgeson swore.

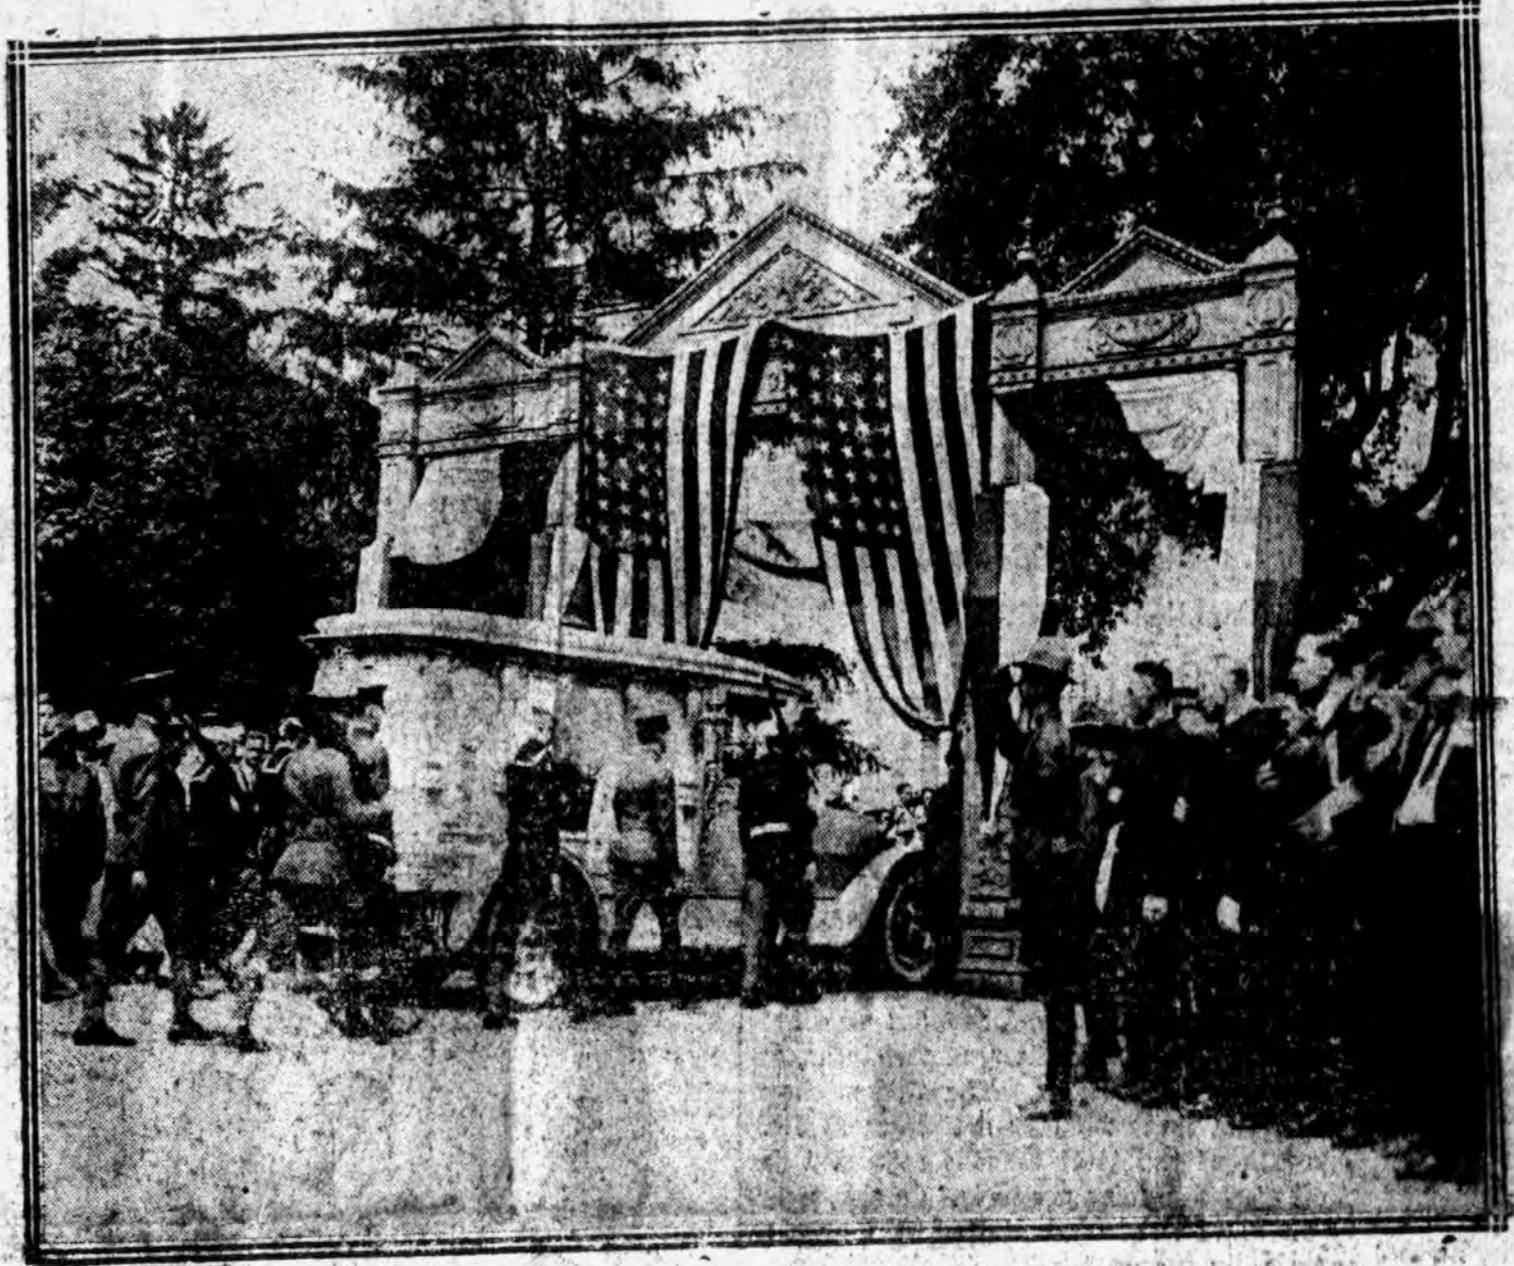

Pointed Jabs In Anonymous Novel Excite University

CHICAGO, Aug. 13.—"Grey Towers," anonymous novel just published is causing unusual excitement at the University of Chicago. It was written presumably by a former teacher of English in the university.

Some of the passages that are causing hot comment at the school are: "Co-ed went intentionally only into the offices of the men instructors."

The author divides members of the faculty sharply in two classes, pseudo-intellectual bigots and posing esthetes. Devastating shots are taken at the alleged faculty petting parties and a sharp description is given of the heroine's adventures with a male professor late at night in his office.

Journey Of Sorrow Reaches Marion Cemetery

With its guard of honor of soldiers, sailors and marines, the hearse bearing the body of the dead President rolled through the entrance of Marion cemetery, the goal of a 4,000 mile journey of sorrow, starting from San Francisco.

STRIKERS AND POLICE CLASH IN BERLIN, MANY KILLED, HURT

BERLIN, Aug. 13.—Several strikers were killed and a number were wounded in a clash with police. Trouble was started when strikers attempted to stop those who were willing to work in the shipyards.

The number of dead has not been ascertained nor their identity established, according to the authorities. Further outbreaks are feared.

Don't Discard Your Corsets, Doctor Says You'll Need Them

NEW YORK, Aug. 13.—Dr. John Oberwager, representative of Dr. Francis J. Monaghan, commissioner of health, lecturing before the Hygienic-Fashion Institute, deploring the tendency of women to discard corsets because they are going out of fashion.

Her Bobbed Hair Breaks Up Family

NEW YORK, Aug. 13.—Lucy Farnell wanted her hair bobbed. Frank, husband to Lucy, didn't. So the hair went.

But so did Lucy. That's where the complications came. Having bobbed the hair, and knowing Frank's sentiments regarding that practise, Lucy decamped from Farnella bailiwick and hasn't been back.

Frank is taking care of the five children. His theory is that Lucy is staying away until the hair grows again. He wants her to know that if she will come back he won't care if she has her hair bobbed or shaved off or what not. Just so she comes back.

"SKIN" GAME AND LIQUOR GET NEGRO GROUP INTO LAW TOILS

A game of "skin" in which eight negroes were trying to skin each other was ruthlessly broken up, when deputies from the sheriff's office swooped down on a store at Parker's crossroads Saturday night.

TOBACCO CROP IS GENERALLY GOOD IN STATE; FRUIT BEHIND; OTHER PRODUCTS FAIR, REPORT

RALEIGH, Aug. 13.—The condition of the tobacco crop is generally good over North Carolina with the best areas being in the eastern part of the coastal belt in the Sandhill section and from Northampton county eastward.

The counties having poor tobacco conditions are from Hargett in a straight line to Bertie and thence northward to Granville, with Edgecomb, having an average of less than 70 per cent. The counties adjacent to Stokes also show the condition of 80 per cent, with Rockingham being only 69 per cent.

The tobacco crop was damaged considerably by hail extending in a narrow strip from Pitt to Wayne county. Harvesting is in full progress and markets have opened in the South Coastal belt which extends into Robeson, Bladen and Columbus counties. Prices are generally considered satisfactory.

Fruit Production Off.

"We have one of the shortest fruit crops in North Carolina that has been experienced in many years," according to announcement by the state-federal departments of agriculture.

The state average, as reported from hundreds of crop reporters all counties in the state, show 23 per cent. The National crop is reported at 47,300,000 bushels, which is almost 20 percent less than last year's crop, and approximately 10 percent below the five year average.

The oat crop was unusually good this year with the best conditions extending from Scotland through Forsyth county, says the statement issued today. Most of the inner coastal counties where oats are not and not threshed had very good conditions with the exception of Wayne county.

The average condition of hay for August 1 was 80 percent, with the best condition being found in the mountain and central coastal counties. Wild or meadow hay is found almost exclusively in the mountain counties where live stock is developed to a considerable degree.

Dan Hardee Is Dead

Daniel Hardee, 27 years old, died early this morning in Greenville. He had been employed as tobacco auctioneer by Forbes & Morton. Burial will be in LaGrange, tomorrow.

OPENING OF MARKET HERE IS POSTPONED UNTIL AUGUST 28TH

Heavy Purchasers Ask Date Be Deferred; 4 Sets Buyers Urged

The tobacco markets of Eastern Carolina will not be opened until Aug. 28—one week later than originally announced.

This action followed a meeting of members of the Eastern Carolina Warehousemen's association in Wilson today to consider the suggestions received from T. M. Carrington, president of the Tobacco Association of the United States.

It developed at the meeting that since the South Carolina crop was late, and that the full staff of buyers representing the largest purchasing agencies would be unable to attend the opening sales on Aug. 21, the request was acceded to.

With a phenomenal crop in Pitt county in sight it is thought that any idea of congestion would be obviated with four sets of buyers. If this is realized, tobaccoists point out that ample facilities will be afforded to handle the product in any quantities from the opening day on through the season.

Here is a copy of the telegram sent by Mr. Carrington to R. H. Cozart at Wilson. It is dated Richmond, Aug. 11.

"Buyers committee fixing date of sale and believe some representatives of warehouses are of decided opinion that due to large and late crop in South Carolina and also to a very large western crop, it would be to decided advantage of its whole tobacco interest to advance date of opening of eastern markets to Aug. 28. Personally I feel that this date will bring on a larger number of buyers, resulting in more uniform and better prices. As one of the committee representing warehouses passing on this matter, it is sincerely hoped that you can concur."

Blue Monday For Mathew Blue In The City Court

Mathew Blue, colored, had a blue day when he was arraigned before Mayor Clark this morning charged with larceny. Blue could not explain away the complaint and was held for the county court in \$300 bond.

Two Hurt When Autos Collide On Ayden Highway

David Sutton, Waterville, it is feared suffered internal injuries and his wife, sustained a broken rib, body bruises and abrasions, as a result of an automobile accident on the Greenville-Ayden road yesterday, when Sutton's machine collided with a car operated by Mark Dixon, Ayden.

## A. C. L. LEASE ENDORSED HERE

The Pitt County Chamber of Commerce has adopted a resolution approving the application of the Atlantic Coast Line and the Louisville & Nashville railroads, pending before the Interstate Commerce Commission seeking authority to lease the properties of the Carolina, Clinchfield & Ohio system.

Action of the local commercial body is a wise and judicious move in the direction of better railway connections and faster service in the delivery of various commodities that will be felt in Greenville in event the application is sanctioned by the Interstate Commerce Commission.

The Clinchfield system extends from Elkhorn City, Ky., through southeastern Virginia, eastern Tennessee and western North Carolina to Spartanburg, S. C., where it forms an affiliated connection with the Coast Line. There is no question but that the granting of the application will be in the public interest and will bring inestimable benefit not only to this immediate territory, but to a wide section of the United States.

The proposed joint operation of the carriers indicated will become an important link across the Appalachian mountains, connecting the southeastern Atlantic states and other tributary territory with the vast coal fields of Virginia and Kentucky. It emphasizes that the production of coal in these fields overtaxes the facilities of the Louisville & Nashville.

There is no coal located on the system of the Atlantic Coast Line. The proposed lease and connections, contemplated between the systems would provide a direct line to sources of fuel supply serving certain sections of territory which under existing conditions are frequently compelled to wait long intervals for fuel.

The arrangement is one that would play an important part in the further development of the territory traversed by the Coast Line while its resultant benefits to this community would be shortly patent. It has been brought to the attention of the Interstate Commerce Commission that the proposed lease is in entire accord with precedent of that body. Again, it is emphasized that the lease is not a consolidation but merely in alignment and harmony with the tentative plan of the Commission for consolidation.

It should be manifest even to the lay mind that under the control of the Coast Line and the Louisville & Nashville railroads, it will be possible to extend and improve the service now rendered by the carriers more rapidly and more efficiently than if the Clinchfield system remains a separate and independent railway.

Washington advices say that civic bodies throughout the territory served by the major systems are giving general approval to the lease by the passage of resolutions urging the Interstate Commerce Commission to act favorably upon the proposal. The Commission is vested with full authority to sanction the lease if it finds that public necessity and convenience will be better served.

Civic organizations that usually reflect the best thought of every community that have not acted upon this important common benefit should not delay. Secretaries of Chambers of Commerce, Boards of Trade, Civic Clubs and other progressive community bodies should not neglect to present the matter before their respective organizations. North Carolina should be a unit in favoring the lease, and it is confidently believed it will.

H. L. Smith, secretary of the Pitt County Chamber of Commerce has forwarded a certified copy of the resolution adopted strongly urging the approval of the lease, to Hon. George McGinty, secretary of the Federal Commission at Washington.

The resolution follows:  
Whereas, the Pitt County Chamber of Commerce has been advised that Atlantic

Coast Line railroad company and Louisville and Nashville railroad company have filed a joint application before the Interstate Commerce Commission for authority for the said two railroads to lease jointly the lines of railroad, commonly known as the Clinchfield system, extending from Elkhorn City, Kentucky, thru southwestern Virginia, eastern Tennessee, and western North Carolina, to Spartanburg, S. C., which said application has been given Finance Docket No. 3131; and

Whereas, the Pitt County Chamber of Commerce is of opinion that the granting of such authority and the making of such the lease will be in the public interest and will benefit Pitt County and the surrounding territory, and the entire south eastern portion of the United States;

Now, therefore, be it resolved, that the Pitt County Chamber of Commerce hereby requests the Interstate Commerce Commission to grant the said application and to permit the leasing by the said two railroads of the lines of railroad known as the Clinchfield system, on the terms and in the manner set out in said application;

Resolved, further, that a copy of this resolution be forwarded to Hon. George B. McGinty, Secretary of the Interstate Commerce Commission, at Washington, D. C., with the request that it be filed with and made a part of Finance Docket Number 3131.

## VALUE OF DAIRY FOODS

During the past few years there has been a marked increase in the consumption of dairy products in both rural and urban districts, due in part to the better quality and in part to an increased knowledge of their value as foods.

The volume of dairy products as articles of diet is set forth in a recent statement issued by the Department of Agriculture. Studies were made by representatives of the department in five hundred families of different types and communities, racial stocks, incomes and occupations. The studies showed that in these families a little more than one-fifth of the total amount expended for food went for dairy products. Of this, nearly one-third went for butter and the balance principally for milk, with a little for cream and cheese.

One of the constant needs of the human body is fuel, and the report asks the question: Did these five hundred families, who spent one-fifth of their food money on dairy products, get one-fifth of the needed fuel or energy in return? Its answer is that they got not only one-fifth but nearly as much again. Considered, then, as a source of fuel for the human body, dairy products as a group are economical foods.

Studies also showed that a large part of the protein necessary for the human machine was obtained from milk. Dairy products, particularly milk, are also to be depended on for a large percentage of the lime needed in the diet of persons of all ages, but especially of children. These products, which are rich in fat, are also rich in those vitamins without which children are apt to fail of satisfactory development.

No doubt, the increase in the consumption of dairy products is due in very considerable measure to the general improvement of the dairies. Greater care is taken of the cows, and the old-time stable, which was generally not over-clean, has gone into the discard. The milk and butter supplies of most American cities are kept up to the highest standards, and the increased demand is a natural result.

No section of the country offers a more prolific field for the development of dairying than Pitt County. The first essential is sufficient pasturage. A few farmers recognizing this fact are getting a start. Dairying offers a daily turn over in money with wide margin of profit, provided, farmers raise their feed stuffs and stop paying vast sums to dealers for products that can be produced at home.

In Washington they are speculating whether President Coolidge shall take two oaths. Really, one more or less doesn't appear to matter when one considers the number he'll be tempted to take when he comes into relation with congress.

British church authorities have decided to retain the "obey" in the marriage service; probably on the ground that as it is only an illusion anyway, it may as well stand.

Much practice in milking cows has given President Coolidge powerful hands; now the question is, are they strong enough to squeeze anything good out of congress?

## PRESIDENT AND WIFE ATTEND FUNERAL

President and Mrs. Coolidge, guarded by secret service men, arrived in Marion on a special train to attend funeral services of W. G. Harding

### EXECUTOR'S NOTICE.

Having qualified as executor of the estate of Mrs. Mollie R. Jones, deceased, late of Pitt County, this is to notify all persons having claims against the estate of said Mrs. Mollie R. Jones, deceased, to exhibit them to the undersigned in Kinston, North Carolina, on or before the 31st day of July, 1923, or this notice will be pleaded in bar of recovery of the same. All persons indebted to the said estate will please make immediate payment to the said undersigned.

This the 30th day of July, 1923.  
JOHN D. MARTIN,  
30 1th 6w  
Executor.

### COMMISSIONER'S LAND SALE

By virtue of authority vested in us by the Superior Court in that Special Proceedings No. 2432 entitled Johnnie Tucker, administratrix of J. A. Tucker, deceased, vs. Nanni, E. Tucker and others wherein an order of re-sale was made on the 24th day of July, 1923, we will sell to the highest bidder for cash on Friday,

noon, August 24, 1923 at the court house door in Greenville those two tracts of land willed to the said J. Arthur Tucker by his father, Arden C. Tucker being a part of the Arden C. Tucker home place lying on the Snow Hill-Greenville-Winterville Highway and being in two tracts of land as follows:

First Tract. Containing one hundred and thirty-five acres as set forth in the will of the late Arden C. Tucker in will book 3, page 337 and set forth in a plat made by J. D. Cox on

December the 12th, 1902.  
Second Tract. Being a one half undivided interest in fee, in that tract of land known as the Jethro Kittrell tract, adjoining the lands of Richard Wilkes, Jarvis Nobles and others containing 106 acres in the whole tract. This July 24th, 1923.  
ALBION DUNN,  
S. J. EVERETT,  
25 1th 4w  
Commissioners.

## Producers Praise Common Benefits Local Curb Market

Mrs. Daisy Elks, living near Gardner's X Roads, O. L. Parker, Greenville, R. F. D. No. 6, producers, who sell on the local curb market, are loud in their praise of this great benefit it has proved to farmers of Pitt county.

Mrs. Elks, declared that the project had opened a way for the disposal of surplus products that would otherwise be lost. She drives 18 miles twice a week and says it has paid her well, not only in the matter of financial return but has brought her into more intimate contact with Greenville people with the result she has made many regular customers and good friends. In her opinion it is the greatest achievement ever undertaken for the mutual benefit of urban and rural folks.

"If the curb market does nothing more, it has brought into closer communion farmers and the people of Greenville," said Parker. "The Greenville curb market is conducted on a basis of business that is entirely satisfactory to both producer and consumer. The prices are balanced so as to give the grower a reasonable return for his work and time. It gives him cash that he would not have if the market did not operate. Untold quantities of vegetables, berries and various garden truck would have gone to waste, but for the sale found through the market." With the fall season fresh pork, sausage, poultry, and other farm products will be offered Greenville consumers.

I hope the market will be continued on an all season system."

## "Souls For Sale" To Be Shown At White's Tonight

Eleanor Boardman in "SOULS FOR SALE" A Goldwyn Picture

Goldwyn's production of Rupert Hughes' own screen adaptation of his novel "Souls for Sale," as shown for the first time semi-publicly at White's theatre this morning, is, in our estimation, the greatest audience picture we ever saw. And by that we mean that, from our point of view, "Souls for Sale" has every element in it that will attract and hold an audience.

At the present time we know of no film subject that could be one-eight as interesting as films themselves. Every one, or practically every one, talks of Hollywood at least once every day, and in "Souls for Sale" Hollywood is made to stick out its tongue, open wide its maw and say

Ah, what the audience feels the Hollywood pulse and takes its temperature.

Evidently Rupert Hughes, an impetuous sort of chap, grew rather weary of hearing his cherished locality referred to as though it was prancing about on cloven hoofs and chewing Roman candles and set himself out to set Hollywood right in the eyes of the doubting ones. And whether Hollywood life and happenings as depicted in "Souls for Sale" are the life and happenings of the real Hollywood is a secondary consideration for Major Hughes has given the screen a masterpiece and is unfolding a story as gripping and as real as logical and as thrilling, as any film we have seen.

## Side-Splitting Scenes at The Fayssoux Show

It remained for Fayssoux, the psychic marvel, to bring out in his exhibitions the comic possibilities of hypnotism. The old time Hypnotists with their limited abilities had made feeble attempts in this direction before the coming of Fayssoux, but they were extremely feeble in comparison to the mirth-provoking scenes created by Fayssoux.

"It beats the best comedy I ever saw." "It's funnier than a barrel of monkeys with their tails chopped off." "A whirl wind of gaiety." "Fayssoux makes you laugh until your sides ache." "It's the greatest comedy of them all," are some of the expressions heard in the theatre lobby after the show. Fayssoux will begin the engagement of three nights at White's theatre Thursday Aug. 16.

## "Dangerous Age" Has Wedded Life Theme, At Strand

"The Dangerous Age," produced by John M. Stahl for First National release, will be the attraction at the Strand theatre today and Tuesday. Based on an original story by Frances Irene Reels, it is declared to be an exceptionally thrilling photoplay and contains a theme that has a universal appeal. No expense or effort has been spared in the filming to make it an offering of distinctly high caliber.

The picture has a splendid cast, comprising Lewis S. Stone, Ruth Clifford, Edith Roberts, Myrtle Stedman, Richard Tucker, Helen Lynch, James Morrison, Cleo Madison, Lincoln Stedman, Edward Burns and the exotic "Dillowice."

The cast can be termed "all-star" in the fullest sense of the phrase, for its members are acknowledged to be among the best players in the field of the motion picture. Each has been selected because of his or her peculiar fitness for the role, and all have a considerable following among the millions of motion picture fans in the country.

Mr. Stahl, determined to make this the best of all his pictures to date, spent several months in the actual filming and a considerable period of time editing and cutting the negative. The result is one of the most captivating screen offerings in the history of the silent drama.

## MRS. C. WASHINGTON RETURNS FROM NEW YORK

Mrs. C. Washington returned yesterday from New York where she purchased a beautiful and up-to-date stock of ladies ready-to-wear and merchandise for McKay Washington & Company. The new dresses in point twills and crepes, are arriving daily. They are made in pretty and attractive styles and must be seen to be appreciated. The public is extended a most cordial invitation to see these new purchases.

## DISTRICT KIWANIS MEETING AT WRIGHTS VILLE, AUG. 16-17

The district convention of the Carolina Kiwanis will meet Aug. 16 and continue for two days at Wrightsville Beach, Aug. 16-17. Here is the program:

**THURSDAY.**  
Convention assembles Harbor Island auditorium, W. A. French, President Wilmington Kiwanis Club, presiding, at 10 o'clock. Invocation: Rev. F. A. Dean. Song: "America," by everybody; introduction of International officers; Address of welcome: Geo. L. Peacham, James H. Cowan, mayor of Wilmington; Respons: Hon. Alva M. Lumpkin, district governor; Song: Florence Prall, soprano, "The Irving Quartette," New York, Professor Wm. G. Robertson, pianist; Address: Introduction Lieutenant Governor: W. H. Keith, Greenville, S. C., E. W. Stokes, Hartsville, S. C., J. Burt James, Greenville, N. C., R. Grady Rankin, Gastonia, N. C. Reports from district Governor Lumpkin, and district secretary McDonald. Group Conferences: Presidents, district trustees, and club secretaries. Luncheon You eat at your own "Dinty Moore's." Golf Tournament, Cape Fear Country Club. Reception at Cape Fear Country Club, for ladies. Surf bathing for everybody. Harbor Island Auditorium: Concert, Florence Prall, "The Irving Quartette," Professor Wm. G. Robertson, pianist. Address: Hon. T. L. Kirpatrick, Charlotte, N. C. Dance: People's Pleasure Palace "Lumina", Garber-Davis orchestra.

**FRIDAY.**  
Convention reassembles at Harbor Island Auditorium. Invocation: Rev. R. E. Gabbbin, Winston-Salem Club. Reports: From Group Meetings, followed by discussions. Music: W. R. Dasher, "Our Jules Brazil", "Ingognito." Address: Henry C. H. Jaz, First Vice-President, Kiwanis International, J. L. Bolles, Jr., international field representative. George French international field representative. Address. Final reports of all committees; Election of Officers, Election of officers. Election next convention city. Luncheon. "Dinty Moore" again welcomes you. The Surf, by this tie, has been thoroughly fumigated and a bath ready for everybody. Annual banquet, Liberty Shipyard, all local and visiting Kiwanians and ladies attending. Introduction: Past district governors.

**Marriage Licenses.**  
The following marriage licenses has been issued since last report: Robert Jones Barbee, Raleigh, to Miss Alice Simms Whitehurst, Greenville. Mack Boyd to Matilda Hunter, both of Belvoir.

## SUNDAY SCHOOL MEMBERS CHRISTIAN CHURCH TO ENJOY PARTY TUESDAY

The Sunday school members of the Eighth Street Christian church are invited to meet on the church lawn Tuesday afternoon from 5 to 6 o'clock. Refreshments will be served and no baskets will be carried. Every member is cordially invited to be present and enjoy an hour of real pleasure.

**Card of Thanks.**  
The prompt response by friends who sent their cars to rush the children home before the rain storm, from the picnic grounds at Joyner's last Wednesday, was greatly appreciated by the Methodist Sunday school. Every one arrived home in time to escape the rain. The parents of the children and the committee in charge of the picnic, wish to sincerely thank the gentlemen who came to our rescue so promptly.

## Campaign Started In London to Foster Technical Training

LONDON.—Two-thirds of the boys reared in London enter casual trades, as unskilled labor and shopmen, and only 13 percent of them enter the skilled trades.

These figures, which have been prepared in the interests of a campaign to furnish greater technical education for London's youth, are said to be higher in unskilled and lower in skilled trades than any other large city in western Europe or America.

DUBLIN.—There are more than 62,000 persons without work in the Irish Free State for whom the government is struggling to find employment. The unemployment difficulty, and the liberation of 12,000 political prisoners still interned, constitute Ireland's most formidable problem. It is estimated that the Free State army now consists of 49,000 men, and before the end of the year the minister of defense hopes to bring this figure down to 29,000. The government is puzzled to know what to do with the 20,000 soldiers when they are demobilized.

## Communities Still Bid For First City Manager

LAWRENCE, Kans. — When Charles Edward Ashburner, city manager of Norfolk, Va., assumes his new job as city manager of Stockton, Cal., September 1, at a salary of \$20,000 a year, he will continue to be the highest paid city manager in United States, according to John G. Stutz of this city executive secretary of the National City Managers' Association. His salary at Norfolk is \$14,000 a year. "An interesting thing about Ashburner is that he not only is the highest paid city manager in the United States, but he was the pioneer in the profession—he was the city manager," said Secretary Stutz.

**Deaths of Transfer.**  
The following died of transfer: Bluma E. Schulz to A. J. Stocks and wife, consideration \$500.00.

**Frank Comment on Ruhr.**  
LONDON.—London has heard some frank comment recently on the situation in the Ruhr. J. Thomas, the Labor leader, said recently at Shrewsbury: "It appears we are at the parting of the ways in European affairs, so far as France is concerned. No one wants to excuse Germany for her misdeeds, but we should say to France that the only solution of the present state of affairs is to get together, talk things over frankly, and watch the future with a desire to get the best."

**Scotchmen Like to Bet.**  
LONDON.—Betting among the thrifty Scotchmen is done on a scale that has shocked members of the House of Commons, men who are accustomed to deal with millions of pounds for the governments money every year. A Glasgow bookmaker admitted to the house committee on betting, appointed to investigate the possibilities of the government placing a tax on horse race betting, that he took in an average of \$25,000 a day, or more than \$8,000,000 a year in bets.

## Talks on Osteopathy By Dr. F. Fitts

### HEART DISEASE

Functional heart trouble is due to disturbance of the nerves that supply this organ. All such disorders are curable under Osteopathic treatment.

Organic or valvular heart trouble is an incurable condition no matter what treatment is given. However, the fact that a patient has a leaky heart-valve is no reason for special alarm.

In valvular heart disease osteopathy builds up the general health, and although the heart enlargement will remain and the noise of the leak will always be present the patient will live in apparent good health for many years under osteopathic care.

## Final Days are the Big Days in Store-Wide Expansion Sales

FOR the final weeks of the Store-Wide Expansion Sales a series of special events has been provided which will prove a fitting climax for this stupendous merchandise movement. With this thought in mind the range of the final offerings is being made so varied and values so remarkable as to make a visit to Richmond an economical duty.

In this limited space we can only list a few of the special offerings and add our personal word that if you are at all in need of anything coming under the heads that are mentioned it will pay you handsomely to visit the store this week.

## August Sale of FURS

APPROXIMATELY \$100,000 worth of high grade Furs at savings of 25% or more! These Furs are first pick of choice pelts and made up during the dull season when the best workmanship could be secured at lowest prices—represent the best in Furs at lowest possible prices. Here are a few specimen values:

### At \$95.00

In August Sale of Fashion Furs  
Jacquettes of Natural Muskrat.  
Jacquettes of Bronze, Beige or Taupe Caracul.  
Jacquettes of Mole Coney (Sheared Here).

**BARBEE-WHITEHURST.**

Miss Alice Whitehurst and Mr. Robert Barbee, of Raleigh, were married Saturday afternoon at 6 o'clock at the home of the bride on Fifth street. The Rev. R. W. Bailey, of Raleigh, performing the beautiful and impressive ring ceremony.

The home was beautifully decorated with ferns and yellow flowers carrying out the color scheme of green and yellow. Miss Pattie Sherrod, Hamilton, at the piano rendered a musical program using Mendelssohn's wedding march as the processional.

The bride's only attendants were her little nieces, Rebecca Williams and Sarah Winslow, as flower girl and ring bearer. They wore attractive little frocks of green and yellow organdie.

The bride wore a going away suit of grey and blue with grey accessories. Her flowers being a shower bouquet of bride's roses, orchids and valley lilies. Immediately after the ceremony Mr. and Mrs. Barbee left for Asheville and other western points. Upon their return they will make their home in Raleigh.

Mrs. Barbee is the pretty and attractive daughter of Mr. and Mrs. Z. M. Whitehurst. She was educated at the Eastern Carolina Teachers College and has been one of the state's most successful teachers. She numbers her friends by the score being very popular with the younger social set.

Mr. Barbee is one of Raleigh's best known business men being a very efficient and successful architect. He is held in high esteem by people throughout the state.

Among the out of town guests attending the wedding were Mrs. Winslow and children, of Scotland Neck, Mrs. J. R. Barbee, Raleigh, Miss Pattie Sherrod, Hamilton, Miss Bobbie Cobb, Mr. Bailey, William Burrell, Mr. A. J. Fox, and Bob Raeford, Raleigh.

Mr. and Mrs. W. M. Scales and little daughter have returned from Cascade.

Mr. and Mrs. J. P. Moss and children are visiting relatives in Creedmoor, Oxford and Durham.

Mr. J. W. Clark, of New York, is visiting relatives in this city.

Mr. Van B. Stringfield, of Durham, spent the week-end here with friends.

Messrs. Curtis Perkins and Will James went to Stokes yesterday.

Sheriff and Mrs. A. C. Jackson are spending a few days in Morehead.

Mr. and Mrs. P. G. Luper and children have returned from an automobile tour of western Carolina.

Borne: Sunday, Aug. 12, to Mr. and Mrs. J. L. Horne, a son.

**Eliot, Harvard President Emeritus, Advocates Incorporation of Unions; Says Labor Responsibility Necessary**

DR. CHARLES W. ELIOT

Dr. Charles W. Eliot, president emeritus of Harvard, recently told the National Coal Association that monopoly of any kind in connection with such a basic commodity would not be tolerated. As the bituminous coal industry, which the association represents, is composed of 9,000 independent operators and has been noted for the keenness of its competition, it was assumed that Dr. Eliot referred to the growing power over the whole industry of the United Mine Workers of America, whose monopolistic ambitions and accomplishments have been stressed repeatedly in charges before the United States Coal Commission.

President Eliot informed the Coal Association that "the American people have already shown by their votes, their voluntary actions in

emergencies, and through the press, that hereafter they will not have the supply of coal to the factories, households and carriers of the country abridged, much less stopped, by any monopolistic control whatever."

Dr. Eliot also advocated the incorporation of all unions which relate to the coal industry and the industries that distribute coal, and the submission to arbitration of disputes arising in the industry.

In speaking of the unions he said: "In the public interest it is inexpedient that these secret societies, which collect large sums of money from their members, and use all their resources to support strikes, however violent, should continue to be exempt from the usual legal processes to prevent violations of contract and enforce payment of damages."

CRIPPLED BOY STARTS FIRST HARDING MEMORIAL

William Chester McDonald

William Chester McDonald has been strapped to a board in a sanatorium in Atlantic City, N. J., for five years, with the prospect that he will spend his final life in 8908. BILLY received an autographed photograph of the president, which has since been his cherished possession. When Billy heard of the death of his great friend, he was, hardbroken. Now he has proposed, and his proposition has been agreed upon—that the children of America hold a memorial to the friend of all children, with their pennies. The memorial is to be given at the coming semi-centennial celebration at Philadelphia, and dedicated to Warren G. Harding.

Says Divorce Habit Gravely Menaces Our National Life

WINONA LAKE, Ind.—Divorces are granted in America at the rate of one every four minutes throughout the year, and are more numerous here annually in proportion to total population than in any other country which records marriage statistics. The annual total of decrees for the 48 states is in the neighborhood of 160,000 and is increasing three times as fast as the population. Such are the conclusions of Judge W. H. Thomas of Santa Ana, California, former associate justice of the California district court of appeals, drawn from a world survey of marriage and divorce figures in preparation for an American campaign for a national code governing marital relations.

Judge Thomas' survey included 54 countries, and the summary of his study, made public here, reaches back into the domestic relations of ancient Rome, Greece, and Babylon. In his conclusions is the suggestion that our national life is seriously threatened by the present state of our family relationships. Much of our trouble he believes, is chargeable to the chaotic state of our marriage laws, and his recommendation is a uniform law, applicable to all American territory, based on wisdom and experience.

Indians Will Honor Life Long Service of Devoted Friend

NEW YORK—Five thousand Sioux Indians will do untold honor to a pale faced brother in the heart of the South Dakota prairie on August 19, when Rev. Dr. Edward Ashley, friend of Roosevelt and Custer, of Rain-in-the-Face and Sitting Bull and the long line of Dakotan braves who were famous in Indian warfare, will round out his fiftieth year of service as a missionary among the Red Men.

Dr. Ashley is the sole survivor of the framers of the treaty of 1876 which opened the Black Hills country to gold seekers, stripping the Indians of their hunting grounds and incidentally leading to the Custer massacre at Little Big Horn. Later he was present on the Cheyenne river reservation during the Ghost Dance, or Messiah Craze, which culminated in the battle of Wounded Knee, where the Federal troopers avenged the slaughter of Custer and his men. Still later it fell to his lot to lead of Christianity Chief Gaul, one of the chief participants in the Little Big Horn affair, of whom he gives testimony that "for the rest of his life he was a conscientious Christian."

Remote Asir Resists Contact With Outsiders

WASHINGTON—The Emir of Asir is dead and buried in the capital at Sabia, and has been succeeded by his son; but it has remained for the attention of the world to his passing and to the romantic existence of the little nation over which he reigned.

Asir is a principality situated on the Arabian shore of the Red Sea, a bulletin is used by the society, and has existed with the little change probably since the Isacites traversed that body of water dry shod.

4421 A. C. Jackson, Deputy Sheriff	125.00

The Head is Covered While The Foot Goes Bare

If you have ever had a suppressed desire for bare feet the moment gratifying it is at hand. For it has been written in the Paris dispatches that when one dons one's negligee one is to go to the step beyond the cobwebby stocking—no stocking at all.

Of course going entirely unshod and being at the mercy of every lurking pin would not quite do; so a compromise of a sandal with a very thin leather strap is suggested. With the decline of the stocking the law of averages proposes the return of the cap for morning. It bears however, no relation to the old fashioned rubber shirred-bond air cap, but is a delicate concoction of lace trimmed with roccos flowers and ribbons. Its shape is inspired by the same sources as the negligee it accompanies.

The lovely silk dashable here pictured has just arrived from M. Henri Creange, the fashion leader. While the wide lace yoke and border on the cape were of real Point de Venise in the original, they could be easily duplicated in a less devastatingly expensive pattern. The imitation laces of today have been developed to a degree that gives them a charm of their own.

Only the cape is lace bedecked. The long pleated tunic is plain except for a soft girle of gold tissue. It is made of the same yellow Crepe de Chine as the cape, and is of course, sleeveless.

Puffed Grains

Steam exploded—airy, flavory  
8 times normal size

Quaker Puffed Wheat and Quaker Puffed Rice are whole grains steam exploded. Over 125 million steam explosions are caused in every kernel.

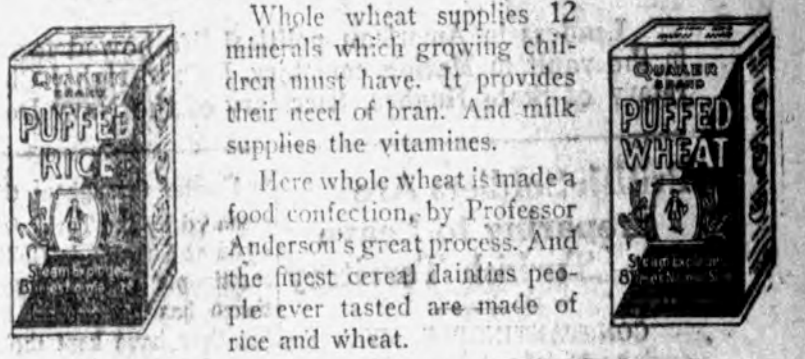

The food cells are broken, so digestion is made easy and complete. The grains are puffed to airy globules, thin and flaky, with a taste like toasted nuts.

Thus whole grains are made enticing. People revel in them morning, noon and night.

They are served by the millions of mothers who want their children to eat whole-grain foods in abundance. At breakfast with cream and sugar, between meals with melted butter, at night in bowls of milk.

Whole wheat supplies 12 minerals which growing children must have. It provides their need of bran. And milk supplies the vitamins.

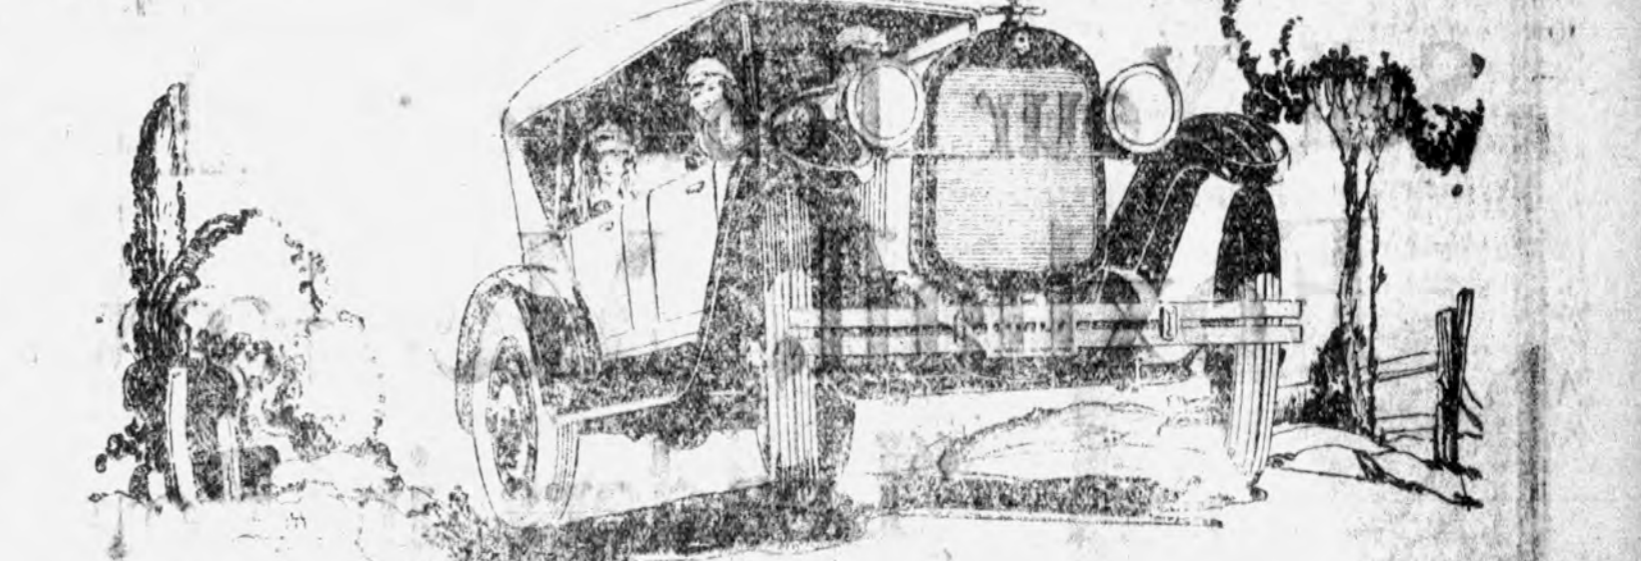

Here whole wheat is made a food confection by Professor Anderson's great process. And the finest cereal dainties people ever tasted are made of rice and wheat.

Quaker Puffed Rice Quaker Puffed Wheat

ADVERTISE IN THE REFLECTOR

Your car and motor are balanced—the fuel should be, too

Practically all the development and improvement in cars and in motors have been in the direction of finer and still finer balancing of parts, weights and stresses—to obtain greater and still greater flexibility. It is only natural that some car makers have succeeded better than others.

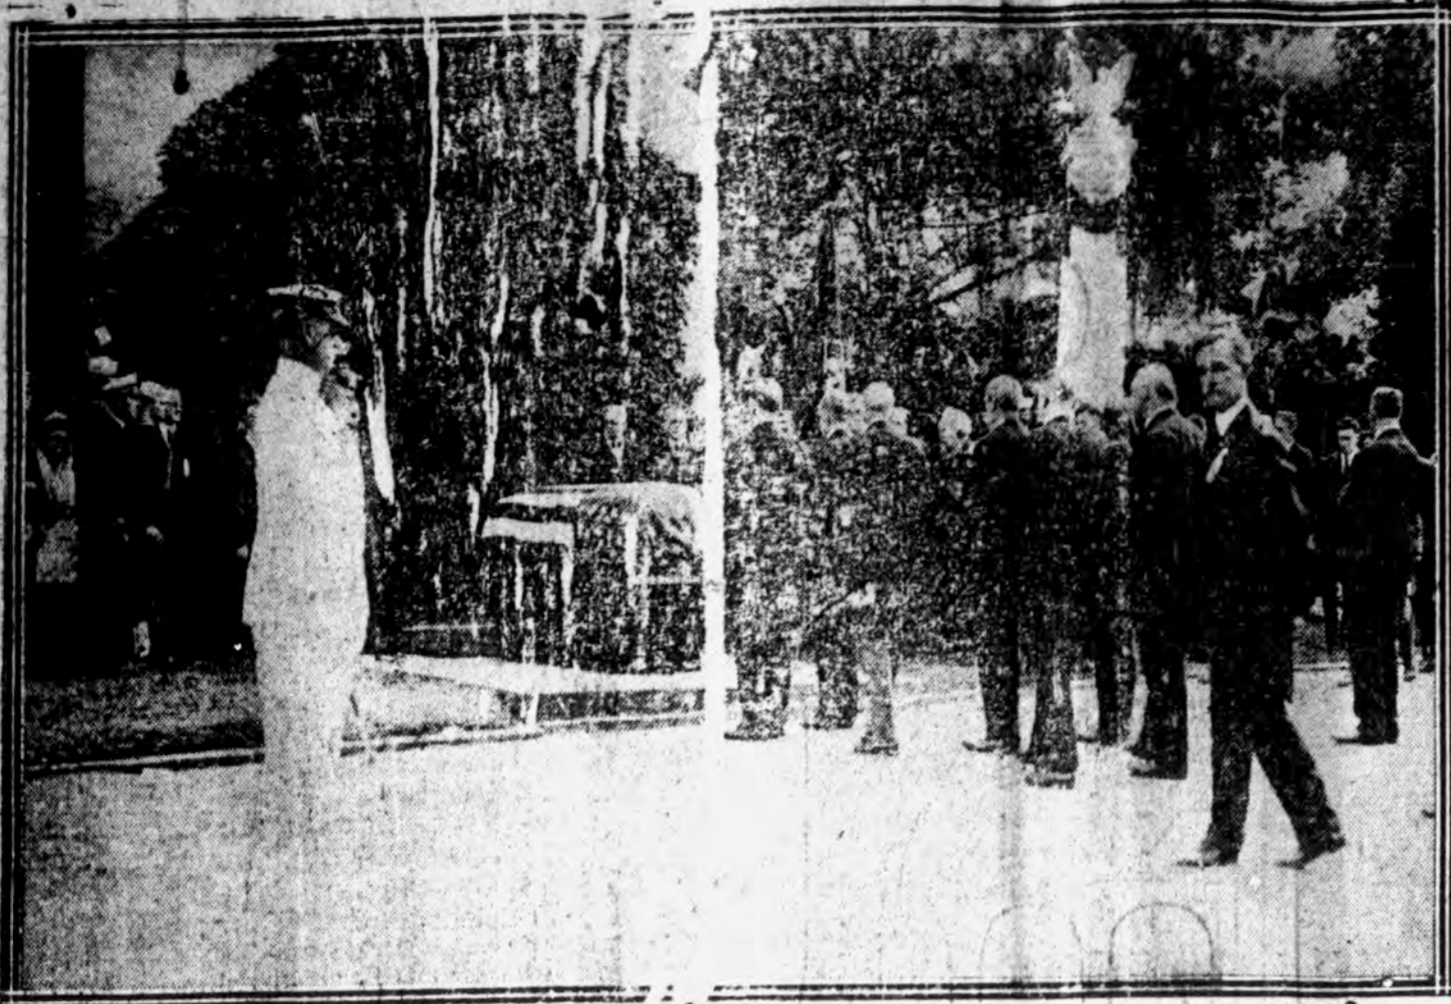

Most gasoline today give you more flexible and versatile power than they did a few years ago. Here, too, it is natural that some refiners have succeeded better than others in their effort to produce a really balanced motor fuel.

There's a long story of refining experience and study behind "Standard", the balanced gasoline. It is the logical fuel for any finely-balanced motor. It gives you everything you need in a motor fuel. Stick to "Standard"—the all-round, balanced gasoline.

STANDARD OIL COMPANY (New Jersey)

NATION'S LEADERS BID DEAD CHIEF FAREWELL

Leaders in American political life bowed farewell to Warren G. Harding before the flag draped casket was placed in the vault in Marion cemetery. Left to right: Chief Justice Taft, President Coolidge, Speaker of the House, Gillette, Secretary of State Hughes, Secretary of the Navy Denby, Secretary of War Weeks.

British Soldiers Are Preparing to Leave Turkish Territory

CONSTANTINOPLE.—With the coming of peace at Lausanne, preparations are being made by the British army to evacuate the territory which they have held since the armistice. There will be genuine regret among all the Christian races here, and no little sorrow among the educated class of Turks, when General Harrington and his 12,000 soldiers bid farewell to the Golden Horn. For whatever uneasiness their presence gave to the new regime at Angora, their occupation of the capital and Straits has been a power for good.

Indeed, with the small French and Italian garrisons and the Yankee blue jackets from the American destroyers in the Bosphorus, the British soldiers have been the main source of security

and order throughout the large area menaced by the Turks. Time and time again at Chanak, in Gallipoli, at Constantinople and in Thrace, their patience has been tried by the Turks, but they have kept their rifles muzzled, their bayonets reversed and their tempers in leash.

Says Industrial Workers Enjoy Great Prosperity

NEW YORK.—American wage-earners are now enjoying a period of prosperity, greater even than the so-called "peak period" of 1920, according to a statement issued by the National Industrial Conference board, which recently concluded a research into wages and the cost of living. Asserting that, 1920 "need" no longer be considered the most recent high-water mark for workers in industry," the investigators point out

that many plants announced increases of 10 to 15 percent.

"It is true," the report continues, "that wages were at their highest levels in 1920, but the cost of living was also high at that time."

Later, the investigators find, the cost of living declined more rapidly than earnings, and in 1922 wages again began to rise, "first as a result of longer hours worked and later because of wage increases."

Russians Endeavoring To Restore Petrograd

REVAL.—Soviet Russia's effort to restore Petrograd to its former importance as the gateway to North Russia is having a detrimental effect on the ports of Helmsfors, Reval and Riga. The Moscow government is diverting all possible business to Petrograd, and is making improvements

in the harbor to enable large ships to enter with safety as they did in the days before Bolshevism worked ruin to the port which has lain idle for so long.

The Moscow government holds no kindly feeling for Latvia and Estonia, and naturally does not care to have the ports of Reval and Riga continue to be gateways to Russia, as they were in the days of the czar.

Design Aerial Rams To Demolish Enemy Planes

LONDON.—Heavily-armored, steel prowed battering rams, for use in the leviathan airships now being designed, are being constructed secretly, by British aircraft experts, says the Daily Chronicle's aeronautical correspondent. These new terrors of the air will be launched at an immense height from the mother-air-for

ships and will rush down, guided by a solitary man sitting protected within their hulls, ready to strike hostile airships or bombing planes.

"Without guns or any weapon save a knife-like, cutting bow" says the writer, "the pilot of the 'ram' will seek as his quarry the big, slow-flying troop-planes or transports, or he will swerve in deadly attack toward a hostile battleship of the air. Before he strikes his blow he will have the power, by operating interior mechanism, of drawing in his telescopic, metal wings.

British Encouraged By Oil Drilling Successes

LONDON.—The success of recent oil-drilling operations in the northern counties of England and in Scotland have led to new drilling operations on a larger scale. The oil found, while not abundant, is claimed to be of the finest heavy grade and has led many geologists to believe that asphalt deposits lie in this section. Oil has been found in Derbyshire, Staffordshire and Midlothian. At Hardstoft, Derbyshire, a well drilled about a year ago has produced a thousand tons of heavy oil and the well is still flowing. Five other wells in this section have shown traces of oil but have not yet been pumped.

Far and City Labor Unite On Market Plan

CHICAGO.—Bringing farmer and city laborer into a non-political alliance to fight the high cost of marketing their products, is the scheme of O. F. Lowrie, former president of the Montana Farmers' Society of Equity, who has opened a small warehouse here. "There are many farmers' co-operative societies throughout the country," he explained, "and there are others in the city. Our purpose is to ally the farmer and the city laborer. We are handling honey, potatoes and fruit for the farmers, and are sending furniture and clothing back to them.

"We began with 50,000 pounds of Idaho honey. The farmers out there have been discouraged. They have been flocking to the cities. We told the city laboring men it was up to them to keep the farmers on the farm, else they would come to the city and make greater competition

Sell Your Tobacco With---  
Foxhall, McGowan, and Cannon  
"Leaders in Pounds and Prices"  
GREENVILLE, NORTH CAROLINA

Market Opens Tuesday Aug. 28, 1923

We thank the farmers of Pitt County and Eastern North Carolina for their generous patronage in the sale of the 1922 crop. No man or set of men can sell tobacco higher than we sell it. If you are one of our customers YOU KNOW IT. If not TRY US and see for yourself.

WHEN BETTER SERVICE CAN BE RENDERED IT WILL BE RENDERED BY OUR WAREHOUSE, AND WHEN HIGHER PRICES ARE PAID THEY WILL BE PAID ON OUR FLOOR. Every pile of your tobacco is given personal attention by every member of our firm. Our ability to secure the highest market price—thousands of satisfied customers all over Eastern North Carolina and Pitt County make our warehouse the "LEADERS IN GREENVILLE" in "POUNDS AND PRICES."

We have ample capital to protect our customer's every interest. With a record of over 20 years of successful service and square dealing with the farmers of Eastern North Carolina, we respectfully ask a continuation of your valued patronage this season.

Three sales running daily at same time. "NO WAITING OR BLOCKS."

BRING US THAT FIRST LOAD AND WE WILL DO THE REST.

Your Friends, to Serve,

Foxhall, McGowan, and Cannon
